H. J. S. COTTON,

Offg. Secretary to the Government of India.

CHIEF COMMISSIONERSHIP OF BURMA.

NOTIFICATION.

Rangoon, the 9th September, 1896.

No. 437.—In exercise of the power conferred by section 5 of the Scheduled Districts Act (XIV of 1874), and with the previous sanction of the Governor General in Council, the Chief Commissioner is pleased to extend to Upper Burma (except the Shan States) the Land Acquisition Act I of 1894).

By order,

T. C. WILSON,

Offg. Rev. Secy. to the Chief Commissioner of Burma.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 29th September, 1896.

No. 1570-*G*.—Mr. W. H. Lucas, of the Indian Civil Service, Bombay Establishment, is appointed to officiate as a Political Agent of the 3rd Class, and is posted as Second Assistant and Assistant Secretary for Berar to the Resident at Hyderabad, with effect from the 18th September, 1896.

No. 3028-*I.-A*.—The services of Mr. C. H. Jopp, of the Indian Civil Service, Bombay Establishment, are replaced at the disposal of the Home Department, with effect from the 26th September, 1896.

The 1st October, 1896.

No. 1589-*G*.—The undermentioned officer has been granted an extension of leave by the Secretary of State for India:

Surgeon-Captain T. W. Shaw, M.B., Indian Medical Service (Bombay), Medical Officer of the 1st Regiment, Central India Horse, (p. a.) for one month.

No. 3047-*I.-B*.—The notification of the Government of India in the Foreign Department No. 2319 I., dated the 10th July, 1894, licensing the Reverend W. H Beeby, B.D., of the Baptist Mission at Hanamkonda to solemnize marriages and to grant certificates of marriage between Native Christians within the territories of His Highness the Nizam of Hyderabad, is hereby cancelled.

No. 3063-*I.-B*.—With reference to the notification of the Government of India in the Foreign Department No. 3175-I, dated the 6th September, 1894, the Governor-General in Council is pleased to accept the resignation tendered, under section 15, sub-section (2) of the Births, Deaths and Marriages Registration Act (VI of 1886), by the Reverend W. H. Beeby of his appointment as Registrar of Births and Deaths within the Hyderabad State, excluding the Hyderabad Assigned Districts and the Cantonment of Secunderabad.

The 2nd October, 1896.

No. 1594-*G*.—The following changes are made in the graded list of the Political Department:

Consequent on the grant of furlough to Captain C. E. Ross, Indian Staff Corps, officiating Political Assistant of the 2nd Class, and with effect from the 19th June, 1896—

Lieutenant E. LeMesurier, Indian Staff Corps, officiating Political Assistant of the 3rd Class, to officiate as a Political Assistant of the 2nd Class.

Consequent on the appointment of Captain S. F. Bayley, Indian Staff Corps, Political Assistant of the 3rd Class, to officiate as a Political Agent of the 3rd Class, and with effect from the 21st July, 1896—

Captain P. T. A. Spence, Indian Staff Corps, officiating Political Agent of the 3rd Class, reverts to officiating Political Assistant of the 1st Class.

Captain J. F. Whyte, Indian Staff Corps, officiating Political Assistant of the 1st Class, reverts to officiating Political Assistant of the 2nd Class.

Lieutenant E. LeMesurier, Indian Staff Corps, officiating Political Assistant of the 2nd Class, reverts to officiating Political Assistant of the 3rd Class.

Consequent on the grant of privilege leave to Captain C. F. Minchin, Indian Staff Corps, officiating Political Assistant of the 2nd Class, and with effect from the 22nd July, 1896—

Lieutenant E. LeMesurier, Indian Staff Corps, officiating Political Assistant of the 3rd Class, to officiate as a Political Assistant of the 2nd Class.

Consequent on the appointment (hereby made) of Mr. H. V. Cobb, of the Indian Civil Service, to officiate as a Political Agent of the 3rd Class, and with effect from the 9th August, 1896—

Captain S. F. Bayley, Indian Staff Corps, reverts to officiating Political Assistant of the 1st Class.

Lieutenant H. B. Peacock, Indian Staff Corps, reverts to officiating Political Assistant of the 2nd Class.

Lieutenant E. LeMesurier, Indian Staff Corps, reverts to officiating Political Assistant of the 3rd Class.

Consequent on the return from privilege leave of Captain C. F. Minchin, Indian Staff Corps, officiating Political Assistant of the 2nd Class, and with effect from the 15th August, 1896—

Lieutenant R. L. Kennion, Indian Staff Corps, officiating Political Assistant of the 2nd Class, reverts to officiating Political Assistant of the 3rd Class.

Consequent on the grant of privilege leave to Lieutenant A. D'A. G. Bannerman, Indian Staff Corps, officiating Political Assistant of the 2nd Class, and with effect from the 29th August, 1896—

Lieutenant R. L. Kennion, Indian Staff Corps, officiating Political Assistant of the 3rd Class, to officiate as a Political Assistant of the 2nd Class.

Consequent on the grant of privilege leave to Captain J. Ramsay, Indian Staff Corps, officiating Political Agent of the 2nd Class, and with effect from the 8th September, 1896—

Captain G. F. Chenevix-Trench, Indian Staff Corps, officiating Political Agent of the 3rd Class, to officiate as a Political Agent of the 2nd Class.

Captain S. F. Bayley, Indian Staff Corps, officiating Political Assistant of the 1st Class, to officiate as a Political Agent of the 3rd Class.

Captain J. F. Whyte, Indian Staff Corps, officiating Political Assistant of the 2nd Class, to officiate as a Political Assistant of the 1st Class.

Lieutenant E. LeMesurier, Indian Staff Corps, officiating Political Assistant of the 3rd Class, to officiate as a Political Assistant of the 2nd Class.

Consequent on the grant of privilege leave to Mr. H. V. Cobb, of the Indian Civil Service, officiating Political Agent of the 3rd Class, and with effect from the 8th September, 1896—

Captain P. T. A. Spence, Indian Staff Corps, officiating Political Assistant of the 1st Class, to officiate as a Political Agent of the 3rd Class.

Lieutenant H. B. Peacock, Indian Staff Corps, officiating Political Assistant of the 2nd Class, to officiate as a Political Assistant of the 1st Class.

Lieutenant F. B. Prideaux, Indian Staff Corps, officiating Political Assistant of the 3rd Class, to officiate as a Political Assistant of the 2nd Class.

No. 3066-*I.-B.*—In exercise of the powers conferred by section 6 of the Indian Christian Marriage Act (XV of 1872), as substituted by section 1 of Act II of 1891, the Governor-General in Council is pleased to grant a license to the Reverend W. A. Wilson, of the Canadian Presbyterian Mission at Neemuch, to solemnize marriages within the territories of the Native States under the Central India Agency.

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter I.—Preliminary.—Sections 1-4.)

No. 3068-*I.-B.*—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act (XXI of 1879) and of all other powers enabling him in this behalf, the Governor General in Council is pleased to issue the following Code of provisions relating to Revenue-officers and the administration of the land-revenue in the Hyderabad Assigned Districts:

A Law to consolidate and amend the law relating to Revenue-officers and the administration of the land-revenue in the Hyderabad Assigned Districts:

WHEREAS it is expedient to consolidate and amend the law relating to Revenue-officers and the administration of the land-revenue in the Hyderabad Assigned Districts; It is hereby provided as follows:

CHAPTER I.

PRELIMINARY.

Title, extent and commencement.

1. (*1*) These provisions may be called the Hyderabad Assigned Districts Land-revenue Code, 1896, and are hereinafter referred to as "this Law."

(*2*) This Law extends to the territories known as the Hyderabad Assigned Districts; and

(*3*) It shall come into force on such day as the Resident may, by notification, direct.

Repeal.

2. (*1*) On and from that day the laws, rules and orders mentioned in the first schedule shall, subject to the other provisions of this section, be repealed to the extent specified in the third column thereof.

(*2*) Any law or document referring to any law, rule or order hereby repealed shall be construed as referring to this Law.

(*3*) All rules prescribed, appointments made, securities furnished, powers conferred, orders issued, notifications published, assessments fixed, determined, registered, sanctioned or declared, charges assessed, fines imposed, agreements executed or accepted, farms, leases or permissions granted, records prepared or altered, rights acquired, liabilities incurred, times or places appointed and other things done shall, so far as they are consistent with this Law, be deemed to have been respectively prescribed, made, furnished, conferred, issued, published, fixed, determined, registered, sanctioned, declared, assessed, imposed, executed, accepted, granted, prepared, altered, acquired, incurred, appointed and done hereunder.

(*4*) Such portions of the rules and orders mentioned in the third part of the said schedule as referred to matters in regard to which the Resident is empowered to make rules or give instructions under any of the provisions of this Law, and in so far as they are consistent with this Law, shall be deemed to be rules made or instructions given under this Law until they are altered or superseded by rules made or instructions given under this Law

(*5*) All proceedings pending at the commencement of this Law which have been commenced under any law, rule or order hereby repealed, shall be deemed to have been commenced under this Law, and shall thereafter be conducted in accordance with the provisions of this Law.

Saving.

3. Nothing in this Law shall interfere with or affect any rights accrued or hereafter accruing under the Berar Forest Law.

Definitions.

4. In this Law, unless there is anything repugnant in the subject or context,—

(*1*) "Revenue-officer" means any officer of any rank whatsoever employed in or about the business of the land-revenue or of the surveys, assessments, accounts or records connected therewith:

(*2*) "Deputy Commissioner" means the Deputy Commissioner of the district:

(*3*) "land" includes the sites of villages, towns and cities; it also includes trees, growing crops and grass, fruit upon, and juice in, trees, rights of way, ferries, fisheries, and all other benefits to arise out of land and things attached to the earth, or permanently fastened to things attached to the earth, and also shares in, or charges on, the revenue or rent of villages, or other defined portions of territory:

(*4*) "survey-number" means a portion of land formed into, or recognized as, a survey-number at the last preceding survey, or subsequently recognized as such by the Deputy Commissioner or any other officer authorized in this behalf:

(*5*) "recognized division of a survey-number" means a division of a survey-number recognized at the last preceding survey, or subsequently recognized as such by the Deputy Commissioner or any other officer authorized in this behalf:

(*6*) "building site" means a definite portion of land held for building purposes, whether any building be actually erected thereupon or not, and includes the open ground or court-yard enclosed by, or adjacent to, any building erected thereupon:

(*7*) "boundary-mark" means any erection, whether of earth, stone or other material, and also any hedge, vacant strip of ground or other object, whether natural or artificial, set up, employed or specified by the Deputy Commissioner or other Revenue-officer having authority in that behalf, in order to designate the boundary of any land:

(*8*) "to hold land" means to be legally invested with a right to the possession and enjoyment or disposal of such land, either immediate or at the termination of tenancies legally subsisting:

(*9*) "holder" or "landholder" means the person in whom a right to hold land is vested, whether solely on his own account, or wholly or partially in trust for another person, or for a class of persons, or for the public; and includes a mortgagee vested with a right to possession:

(*10*) "holding" means the whole land over which such right extends under any single original title: Provided that, when land has been divided into villages or survey-numbers or has been separately assessed at any survey-settlement made or confirmed under this Law or any law, rule or order hereby repealed, the land of each village, survey-number or assessed portion shall be regarded as held under a separate title:

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter I.—Preliminary.—Section 4. Chapter II.—Appointment and Powers of Revenue-officers.—Sections 5-10.)

(*11*) "superior holder" means the person who for the time being is, or but for some special exemption would be, primarily responsible to the Government for the payment of the revenue or rent on account of alienated land, or, where more than one person is responsible, the person whose responsibility has been recognized by the Deputy Commissioner under the provisions of this Law:

(*12*) when in the case of alienated land the highest right in respect of the occupation of the land and the highest right in respect of the receipt of the revenue or rent of the land do not vest in the same person, the holder who has the highest right in respect of the occupation of the land is called the "inferior holder":

(*13*) "tenant" means a person who holds land from another person, called his "landlord," and is, or but for a special contract would be, liable to pay rent for the land to that other person; but does not include a superior holder, an inferior holder or an occupant:

(*14*) "occupant" means a holder of unalienated land or, where there are more holders than one, the holder having the highest right in respect of any such land, or, where such highest right vests in more holders than one, any one of such holders; and when there are more occupants than one in a single holding, each of such occupants is also called a "co-occupant"

Explanation.—A lessee under the Waste-land Rules of 1865, 1876, 1879 or 1880 is not an occupant of the lands leased to him within the meaning of this definition:

(*15*) "registered occupant" means the person for the time being primarily responsible to the Government under the provisions of this Law for the payment of the revenue or rent on account of unalienated land:

(*16*) "occupancy" means the sum of the rights vested in an occupant as such:

(*17*) "alienated" means transferred, so far as the rights of the Government to receive the rent or land-revenue are concerned, wholly or partially, to the ownership of any person:

Explanation.—Lands leased under the Waste-land Rules of 1865, 1876, 1879 or 1880 are "alienated" within the meaning of this definition:

(*18*) "agricultural year" and "revenue-year" mean, respectively, the year commencing on such date as the Resident may, in each case, from time to time by notification appoint, and "year" means the year commencing on the first day of April:

(*19*) references to enactments of the British Indian Legislature shall be deemed to refer to such enactments as applied for the time being by the Governor General in Council to the Hyderabad Assigned Districts:

(*20*) "legal practitioner" means a person who is authorized to practise under the rules regulating legal practitioners in the Court of the Resident and the Courts subordinate thereto, or under the rules regulating legal practitioners in the Court of the Judicial Commissioner and the Courts subordinate thereto:

(*21*) "notification," with its grammatical variations and cognate expressions, means a notification published by the authority of the Resident in the Hyderabad Residency Orders:

(*22*) "village-cess" includes any cess, contribution or due which is customarily leviable within a village and is neither a payment for the use of private property or for personal service nor imposed by or under any law, rule or order for the time being in force:

(*23*) "land-revenue" includes all payments, whether in money or in kind, due to the Government on account of a specified parcel of land or specified benefits arising out of land, and also includes any rent, cess or rate fixed with reference to land or other immoveable property or to interests therein and imposed by the Government: and

(*24*) "rent" means whatever is payable to a landlord in money, kind or service by a tenant on account of the use or occupation of land by him.

CHAPTER II.

APPOINTMENT AND POWERS OF REVENUE-OFFICERS.

Chief controlling authority in revenue matters.

5. The Resident shall, subject to the control of the Governor General in Council, be the chief controlling Revenue-authority.

Revenue-officers.

6. Besides the Resident there shall be the following classes of Revenue-officers:

(1) the Commissioner,

(2) Deputy Commissioners,

(3) Assistants,

(4) Tahsildars, and

(5) other executive officers.

Subordinate of revenue-officers.

7. All Revenue-officers shall be subordinate to the Resident, all Revenue-officers below the rank of Commissioner to the Commissioner, and all Revenue-officers employed in a district to the Deputy Commissioner.

Commissioner.

8. The Commissioner shall be appointed by the Governor General in Council and shall exercise the powers and perform the duties conferred and imposed on the Commissioner by this Law, or any law, rule or order for the time being in force, and, so far as is consistent therewith, all such other powers and duties within the Hyderabad Assigned Districts as may from time to time be prescribed by the Resident.

Division of the Hyderabad Assigned District into districts.

9. (*1*) The Hyderabad Assigned Districts shall be divided into such districts, and each district shall consist of such taluks and each taluk of such villages as the Resident may from time to time by notification prescribe.

(*2*) The existing boundaries of districts and taluks shall remain as they are, for the purposes of this Law, until altered.

Deputy Commissioner of the district.

10. The Resident shall appoint in each district an officer who shall be the Deputy Commissioner and may exercise, throughout the district, all the powers and perform all the duties

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter II.—Appointment and Powers of Revenue-officers.—Sections 11-20.)

conferred and imposed on a Deputy Commissioner by this Law or any law, rule or order for the time being in force, and shall in all matters not specially provided for by any law, rule or order act according to the instructions of the Resident.

Assistants.

11. The Resident may appoint to each district so many Assistants as he may deem expedient; and such Assistants shall be called "Assistant Commissioners," "Extra Assistant Commissioners," "Attachés," or by such other designation as may be expressed in the order of their appointment.

Duties and powers of Assistants.

12. (1) Subject to the general orders of the Resident, the Deputy Commissioner may place any of his Assistants in charge of the revenue-administration of one or more of the taluks in his district, or may himself retain charge thereof.

(2) An Assistant thus placed in charge shall, subject to the provisions of this Law, exercise such of the powers conferred, and perform such of the duties imposed, upon the Deputy Commissioner by this Law or any law, rule or order for the time being in force, so far as regards the taluk or taluks in his charge, as the Commissioner may from time to time direct:

Provided that the Deputy Commissioner may, whenever he shall think fit, direct any such Assistant not to exercise certain powers or perform certain duties, and may reserve the same to himself or assign them to any other Assistant subordinate to him.

(3) To such Assistants as it may not be possible or expedient to place in charge of taluks the Deputy Commissioner shall, under the general orders of the Resident, assign such particular powers and duties as he may from time to time deem fit.

Deputy Commissioner of the district in case of temporary vacancy.

13. (1) If the Deputy Commissioner is disabled from performing the duties of, or for any reason vacates, his office or leaves his district or dies, his Assistant of highest rank present in the district shall, unless other provision has been made by the Resident, succeed temporarily to the office, and shall be held to be the Deputy Commissioner until the Deputy Commissioner resumes charge of the district, or until the Resident appoints a successor to the former Deputy Commissioner and such successor takes charge of the office.

(2) An officer whose principal office is different from that of an Assistant and who is an Assistant for special purposes only, shall not be deemed to be an Assistant for the purposes of this section.

Tahsildars.

14. (1) The officer entrusted with the local revenue-administration of a taluk shall be called the Tahsildar, and shall be appointed by the Resident.

(2) The powers and duties of the Tahsildar shall be such as may be expressly conferred or imposed upon him by this Law or by any law, rule or order for the time being in force, or as may be imposed upon, or delegated to, him by the Deputy Commissioner, under the general or special orders of the Resident. Every Tahsildar in office at the commencement of this Law shall continue, until such time as is otherwise directed by competent authority, to exercise the powers and to perform the duties at present exercised and performed by such an officer.

Employment of subordinates by Tahsildars.

15. The Tahsildar may, subject to such general orders as may from time to time be passed by the Commissioner or by the Deputy Commissioner, employ any of his subordinates to perform any portion of his ministerial duties:

Provided that all acts and orders of his subordinates when so employed shall be liable to revision and confirmation by such Tahsildar.

Tahsildar in case of temporary vacancy.

16. If the Tahsildar is disabled from performing the duties of, or for any reason vacates, his office or leaves his taluk or dies, his subordinate of the highest rank on the spot shall succeed temporarily to the office, and shall be held to be the Tahsildar until the Tahsildar resumes charge of the taluk or until such time as a successor is duly appointed and takes charge of the office.

Other executive officers.

17. (1) The Resident may appoint such other officers and invest them with such powers as may from time to time be necessary to give effect to the provisions of this Law.

(2) Such officers shall discharge such duties and be subordinate to such authorities as, in the absence of any provision in this Law, the Resident may prescribe.

Combination of offices.

18. The Resident may appoint one and the same person, being otherwise competent according to law, to any two or more of the offices provided for in this Chapter, or confer or impose upon an officer of one denomination all or any of the powers or duties of any other officer or officers within certain local limits or otherwise as may seem expedient.

Notification of certain appointments and powers of acting officers.

19. (1) The appointment of all officers mentioned in sections 5 to 14 (both inclusive), 17 and 18 shall be notified.

(2) Any person appointed to act temporarily for any such officer shall exercise the same powers and perform the same duties as might be exercised or performed by the officer for whom he is so appointed to act.

(3) Appointments required to be notified under this section shall be notified in the Hyderabad Residency Orders or in the *Gazette of India*.

Establishments.

20. Subject to any instructions given under section 216, and unless the Resident shall otherwise direct,—

(a) all members of the Commissioner's establishment shall be appointed by the Commissioner;

(b) all members of the establishment of the Deputy Commissioner and all members of the establishments of officers subordinate to the Deputy Commissioner shall be appointed by the Deputy Commissioner; and

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter III.—The Security to be furnished by certain Revenue-officers and the Liability of Principals and Sureties.—Sections 21-26.)

(*c*) all members of the establishment of an officer appointed under section 14 and not subordinate to the Deputy Commissioner shall be appointed by such officer as the Resident may direct:

Provided that any officer empowered to make appointments under this section may delegate so much of his power in this behalf as he may deem fit to any subordinate officer, but subject to the retention by him of a right of revision at any time of any appointment that may be made by such subordinate officer.

CHAPTER III.

THE SECURITY TO BE FURNISHED BY CERTAIN REVENUE-OFFICERS AND THE LIABILITY OF PRINCIPALS AND SURETIES.

Resident to direct what officers shall furnish security, and to what amount.

21. (*1*) The Resident may direct that such Revenue-officers as he deems fit shall, previously to entering upon their office, furnish security to such amount as he may in each case think expedient, either by deposit of Government paper duly endorsed, accompanied by a power to sell, or in the form contained in the second schedule, or in such other form as he may from time to time prescribe.

(*2*) The amount for which such security shall be furnished may be varied, from time to time, by order of the Resident, who shall also determine the number of sureties to be required.

Fresh or additional security.

22. The Deputy Commissioner or other officer authorized by the Resident in this behalf may, at any time after security has been given by a Revenue-officer subordinate to him, if it appears to him that the security taken is unsatisfactory, or if the officer is transferred to an office for which larger security is required, or for other sufficient reason, demand fresh or additional security and, in case of the officer failing to give such security within one month after its being required of him, may suspend or dismiss him:

Provided that no greater security shall be demanded than is required by the orders of the Resident under the last foregoing section:

Provided, also, that, in the event of a Revenue-officer who has been required to furnish security owing to his transfer to an office for which larger security is required, failing to furnish the required security, he may be allowed to revert to his former post, if any, instead of being suspended or dismissed.

Demands for money, papers or property and confinement in default of delivery.

23 (*1*) The Deputy Commissioner or any other officer deputed by the Deputy Commissioner in this behalf, shall, in all cases in which the Government may have a claim on any Revenue-officer, or on any person formerly employed as such in the district, for public moneys or papers or other Government property, by order in writing under his official seal, if he uses one, and signature, require the moneys or papers or property detained to be delivered to the person bearing the said order either immediately or on such date and at such place as the order may specify.

(*2*) If the officer or other person aforesaid shall not deliver the moneys, papers or property as directed in the order, the Deputy Commissioner may cause him to be apprehended, and may send him with a warrant in the form contained in the third schedule to be confined in the civil jail till he complies with the order:

Provided that no person shall be detained in confinement under any such warrant for a longer period than one calendar month.

Public moneys recoverable as arrears of land-revenue and by issue of search-warrant, and persons in possession of public moneys, papers and property bound to give them up.

24. (*1*) The Deputy Commissioner may also take proceedings to recover any public moneys due by any Revenue-officer in the same manner and subject to the same rules as are laid down in this Law for the recovery of arrears of land-revenue from defaulters, and for the purpose of recovering public moneys, papers or other property appertaining to Government, may issue a search-warrant and exercise all such powers with respect thereto as may be lawfully exercised by a Magistrate under the provisions of Chapter VII of the Code of Criminal Procedure, 1882.

(*2*) It shall be the duty of every person in possession of public moneys, papers or other property appertaining to the Government, in regard to which he knows or has reason to believe that a search-warrant has been issued under the provisions of this section, to make over the same forthwith to the Deputy Commissioner, and every person knowing where any such property is concealed shall be bound to give information of the same to the Deputy Commissioner.

Liability of sureties.

25. The surety or sureties of such officer or other person as is aforesaid, who may enter into a bond in the form contained in the second schedule, or in any other form prescribed by the Resident, shall be liable to be proceeded against jointly and severally in the same manner as his or their principal is liable to be proceeded against in case of default and notwithstanding such principal may be so proceeded against:

Provided that, in any case of failure to discharge or make good any sum of money due to the Government or to produce any property of Government of ascertained value, no greater sum than is sufficient to cover any loss or damage which the Government may actually sustain by the default of the principal, shall be recovered from the surety or sureties as the amount which may be due from such surety or sureties under the terms of the security bond executed by him or them:

Provided, also, that the said surety or sureties shall in no case be liable to imprisonment in default of producing public papers or property, if he or they pay into the Government treasury the whole or such part of the penalty named in the bond as may be demanded.

An officer or surety in jail may, by furnishing certain security, obtain his release.

26. If an officer or other person as aforesaid, or his surety or sureties against whom a demand is made, shall give sufficient security in the form contained in the fourth schedule, the Deputy Commissioner shall cause such officer or surety,

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter III.—The Security to be furnished by certain Revenue-officers and the Liability of Principals and Sureties.—Sections 27-29. Chapter IV.—Certain Acts prohibited to Revenue-officers, and their Punishment for Misconduct.—Sections 30-34.)

if in custody, to be liberated, and shall countermand the sale of any property that may have been attached, and restore it to the owner.

Liability of surety not affected by death of principal or by his taking a different appointment.

27. (1) The liability of the surety or sureties shall not be affected by the death of the principal, or by the appointment of the principal to a situation different from that which he held when the bond was executed, but shall continue so long as the principal occupies any situation in which security is required under section 21 or until his bond is cancelled.

Liability of heirs of deceased officer.

(2) The heirs of a deceased officer shall be liable by suit in the Civil Court for any claims which Government may have against the deceased, in the same way as they would be for similar claims made by an individual.

How surety may withdraw from further liability.

28. Any surety, whether under a separate or joint bond, may withdraw from his suretyship at any time on giving notice in writing to the officer to whom the bond has been given that he desires so to withdraw; and his responsibility under the bond shall cease after six calendar months from the date on which he gives such notice as to all demands upon his principal concerning moneys, papers or other property for which his principal may become chargeable after the expiration of such period of six calendar months, but shall not cease as to any demands for which his principal may have become liable before the expiration of such period, even though the facts establishing such liability may not be discovered till afterwards.

Records to be the property of Government.

29. All records which have been, or may be, prepared by any hereditary officer, Revenue-officer or village-officer in pursuance of the duties of his office or by order of his superior officer or of the present or former Government, are hereby declared to be the property of the Government, and the Deputy Commissioner is hereby empowered to demand their production.

CHAPTER IV.

CERTAIN ACTS PROHIBITED TO REVENUE-OFFICERS, AND THEIR PUNISHMENT FOR MISCONDUCT.

Prohibition on Revenue-officers trading, bidding at auctions and holding land.

30. (1) No Revenue-officer shall, except with the express permission of the Resident,—

(a) engage in trade, or be in any way concerned, directly or indirectly, in any commercial transaction, or in the purchase or hiring of land in the district to which he is appointed or in which he is employed;

(b) purchase or bid for, either in person or by agent in his own name or in the name of another or jointly or in shares with others, any property which may be sold by order of any revenue or judicial authority in such district;

(c) hold, directly or indirectly, any land or be in any way concerned on his private account in the collection or payment of revenue of any kind in such district.

(2) The Resident may delegate to the Commissioner or to the Deputy Commissioner the power of granting the permission mentioned in this section in the case of any specified class of officers or for any special occasion.

(3) Nothing in this section shall be deemed to preclude any person from being a member of a company incorporated under the Indian Companies Act, 1882.

Prohibition of unlawful detention of money and acceptance of presents.

31. No Revenue-officer shall—

(1) derive, either for himself or for any other individual, any profit or advantage, beyond his lawful salary or emoluments, from any public moneys or property with the collection or charge of which he is entrusted or connected; or

(2) demand, or receive, under the colour or by the exercise, of his authority as such Revenue-officer, or by way of gratification or otherwise, or knowingly permit any other person to demand or receive on his behalf, any sum or any consideration whatever over and above what he is legally entitled to demand or receive under the provisions of this Law or of any law, rule or order for the time being in force.

Penalty.

32. Subject to any instructions given under section 216, any Revenue-officer may be fined, reduced, suspended or dismissed for any such offence as is described in the last foregoing section, or for any breach of departmental rules or discipline, or for carelessness, unfitness, neglect of duty or other misconduct, by the authority by whom such officer is appointed, or by any authority superior to such authority; and this power, may be delegated by such first-mentioned authority, wholly or partially, to any subordinate officer on the same condition as the power of appointment delegated under section 20:

Provided that no Revenue-officer whose monthly salary exceeds two hundred and fifty rupees, shall be fined, suspended, reduced or dismissed except by order of the Resident.

All such orders to be made in writing.

33. When any Revenue-officer passes an order for fining, reducing, suspending or dismissing any subordinate officer, he shall record such order or cause the same to be recorded, together with the reasons therefor, in writing, under his signature, in the language of the district or in English. Any explanation which the subordinate officer accused may wish to offer, shall first be considered and reduced to writing in the language in which it is given, and shall form part of the record.

Fines.

34 (1) No fine inflicted under this Chapter shall in any case exceed the amount of one month's pay of the office held by the offender at the time of the commission of the offence.

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter IV.—Certain Acts prohibited to Revenue-officers, and their Punishment for Misconduct.—Sections 35-37. Chapter V.—Land and Land-revenue.—Sections 38-41.)

(2) All fines inflicted under this Chapter may be recovered from the officer's pay.

Appeals barred in certain cases.

35. (1) If the Deputy Commissioner, whether of his own motion or on appeal from a subordinate officer's order, passes an order for fining, reducing, suspending or dismissing any Revenue-officer subordinate to him whose monthly salary does not exceed thirty-five rupees, or if any authority superior to the Deputy Commissioner passes any such order against a Revenue-officer whose monthly salary does not exceed ninety-nine rupees, no appeal shall lie against such order:

Provided that at least one appeal shall lie against every order made, of his own motion, by any authority other than the Resident for dismissing an officer whose monthly salary exceeds thirty-five rupees.

(2) No appeal shall lie against any order inflicting a fine not exceeding one rupee.

Liability to criminal prosecution not affected by this law: officer may be suspended during trial and subsequently suspended, reduced or dismissed.

36. (1) Nothing in this Chapter shall affect any officer's liability to a criminal prosecution for any offence with which he may be charged.

(2) Any officer subjected to such prosecution may be suspended pending the trial, and at its close may, upon a consideration of the circumstances brought to light during its course, be suspended, reduced or dismissed by any competent authority, whether he has been found guilty or not.

Chapter not to apply to certain patels and patwaris.

37. Except as provided in section 31, nothing contained in this Chapter shall be held to apply to patels and patwaris appointed under the Berar Patel and Patwaris Law, 1885, or shall in any way affect that law.

CHAPTER V.

LAND AND LAND-REVENUE.

Lands.

All public roads, etc., and all lands which are not the property of others, belong to the Government.

38. All public roads, lanes and paths, the bridges, ditches, dykes and fences on or beside the same, the beds of rivers, streams, nalas, lakes and tanks, and all canals and water-courses, and all standing and flowing water, and all lands wherever situated, which are not the property of individuals, or of aggregates of persons legally capable of holding property, and except in so far as any rights of such persons may be established in or over the same, and, except as may be otherwise provided in any law for the time being in force, are, and are hereby declared to be, together with all rights in or over the same, or appertaining thereto, the property of the Government; and the Deputy Commissioner may, subject to the orders of the Commissioner, dispose of them in such manner as he may deem fit or as may be authorised by general rules sanctioned by the Resident, subject always to the rights of way and all other rights of the public or of individuals legally subsisting.

Lands may be assigned for special purposes, and when so assigned shall not be otherwise appropriated without sanction of the Commissioner.

39. Subject to the general orders of the Resident, the Deputy Commissioner whilst survey-operations are proceeding under Chapter VIII, and the Commissioner at any other time, may set apart lands, the property of the Government and not in the lawful occupation of any person or aggregate of persons in unalienated villages or unalienated portions of villages, for free pasturage for village-cattle, for grass reserves or for any public or municipal purpose; and lands assigned specially for any such purpose shall not be otherwise appropriated or assigned without the sanction of the Commissioner; and, in the disposal of land under section 38, due regard shall be had to all such special assignments.

Power to make rules as to grazing on Government waste-lands heretofore set apart for forests reserves and pasturage of village cattle.

40. (1) Grazing on Government waste-lands, other than those which may have been, or which may be, declared to be State forests under the provisions of the Berar Forest Law, may be regulated by rules to be, from time to time, either generally or in any particular instance, prescribed by the Deputy Commissioner with the previous sanction of the Commissioner.

(2) The decision of the Deputy Commissioner in any case of dispute as to such grazing shall be conclusive.

Trees.

Concession of Government rights to trees in case of settlements completed before the commencement of this Law.

41. (1) In unalienated villages or portions of villages of which the original survey-settlement has been completed before the commencement of this Law, the right of the Government to all trees in all alienated land, and in all unalienated land under occupation at the commencement of this Law, shall, in the absence of proof to the contrary, be presumed to have been conceded to the occupant or holder.

(2) The contrary may be proved by showing—

(a) that the rights of the Government were specially reserved at the time of the survey-settlement, or, when permission to occupy has been granted subsequent to the completion of the survey-settlement, at the time of the grant of such permission, and that the rights so reserved have not been subsequently conceded to the occupant;

(b) that the trees have been planted and reared by, or under the orders of, or at the expense of, the Government, or at the expense of local funds, and that the rights of the Government have not been specially conceded to the occupant;

(c) that the land has not been alienated, that the trees were in existence when the last permission to occupy was granted, that the land on which the trees are growing, has not been occupied continuously for twenty years from the

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter V.—Land and Land-revenue.—Sections 42-51.)

date of the last permission to occupy and that the rights of the Government in the trees have not been purchased by or specially conceded to the occupant; or

(*d*) that the occupant has continuously recognized the rights of the Government.

Concession of Government rights to trees in the case of settlements completed after the commencement of this Law.

42. In unalienated villages or portions of villages of which the original survey-settlement shall be completed after the commencement of this Law, the right of the Government to all trees shall be deemed to be conceded to the occupant or holder of the land on which they are growing, except in so far as such right may be specially reserved at the time of the settlement.

Concession of Government rights to trees in case of land taken up after completion of settlement.

43. When permission to occupy land shall hereafter be granted after the completion of the survey-settlement of the village or portion of the village in which such land is situated, the said permission shall be deemed to include the concession of the right of the Government to all trees growing on that land which may not be specially reserved at the time of granting such permission.

Government trees and forests.

44. The right to all trees specially reserved under the provisions of the three last foregoing sections, and to all trees, brushwood, jungle or other natural product, wherever growing, except in so far as the same may be the property of individuals or of aggregates of individuals capable of holding property, vests in the Government; and such trees, brushwood, jungle or other natural product shall be preserved or disposed of in such manner as the Resident may from time to time direct.

Trees planted by or under the orders of the Government.

45. (*1*) All trees which have been planted and reared by, or under the orders of, or at the expense of, the Government, or at the expense of local funds, vest in the Government; but, in the event of such trees dying, or being blown down, or being cut down by order of the Deputy Commissioner, the timber shall become the property of the holder of the land on which they were growing, and the usufruct, including the loppings, of such trees shall also vest in the said holder:

Provided that no such trees shall be lopped except under the order of the Deputy Commissioner.

(*2*) If the holder of any land in which such trees are growing shall so desire and shall make an application to the Deputy Commissioner for the purpose at any time within two years after the commencement of this Law, the Deputy Commissioner shall deduct the strip of land covered by the said trees from his holding and remit thenceforward the proportionate amount of land-revenue due upon the strip so deducted. Any strip of land so deducted shall, together with the trees upon it, vest thereafter in the Government.

Recovery of value of trees, etc., unauthorizedly appropriated.

46. (*1*) Any person who unauthorizedly fells and appropriates any tree or any portion thereof, or removes any other natural product which is the property of the Government, shall be liable to the Government for the value thereof, and such value shall be recoverable from him as an arrear of land-revenue, in addition to any penalty to which he may be liable under the provisions of this Law for the occupation of the land or otherwise, and notwithstanding any criminal proceedings which may be instituted against him in respect of his said appropriation of Government property or forest-produce.

(*2*) The decision of the Deputy Commissioner as to the value of any such tree, or portion thereof, or other natural product shall be conclusive.

Presumption as to Government trees standing on occupied lands.

47. In the case of trees, being the property of the Government and standing on alienated or occupied land, the holder or occupant shall, in the absence of any agreement to the contrary, be entitled to half the usufruct, including the loppings, of such trees:

Provided that the holder or occupant shall not be so entitled, where a remission of assessment has been granted in respect of the land occupied or injured by the trees, on account of such occupation or injury.

Presumption as to trees, the property of individuals, standing on Government lands.

48. In the case of trees, being the property of individuals and standing on unoccupied Government land, the Government shall, in the absence of any agreement to the contrary, be entitled to half the usufruct, including the loppings, of such trees:

Provided that nothing in this section shall prevent the Government from assessing the land occupied or injured by the trees and the recovery of the said assessment in lieu of the usufruct.

Land-revenue.

All land liable to pay revenue unless specially exempted, and special exemption liable to be overruled temporarily in case of necessity.

49. All land, whether applied to agricultural or other purposes and wherever situated, shall be liable to the payment of land-revenue to the Government according to the provisions hereafter contained in this Law, except such land as may be wholly exempted under the provisions of any special contract with the Government or of any law, rule or order for the time being in force.

Liability of alluvial lands to land-revenue.

50. All alluvial lands, newly-formed islands or abandoned river-beds, which vest, under any law, rule or order for the time being in force, in any holder of alienated land, shall be subject, in respect of liability to the payment of land-revenue, to the same privileges, conditions or restrictions as are applicable to the original holding in virtue of which such lands, islands or river-beds so vest in the said holder; but no revenue shall be leviable in respect of any such lands, islands or river-beds until or unless the area of the same exceeds half an acre and also exceeds one-tenth of the area of the said original holding.

Assessment of land-revenue in cases of diluvion.

51. Every holder of land paying revenue in respect thereof shall be entitled, subject to such instructions as may be from time to time given in this behalf by the Resident,

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter V.—Land and Land-revenue.—Sections 52-57. Chapter VI.—Occupation of Unalienated Land.—Sections 58-59.)

to a decrease of assessment if any portion thereof, not being less than half an acre in extent nor less than one-tenth of the holding, is lost by diluvion.

Description of lands chargeable with land-revenue, and effect as regards assessment, of variation of purpose to which lands are applied.

52. (*1*) The land-revenue leviable under the provisions of this Law shall be chargeable—

(*a*) upon land appropriated for agricultural purposes;

(*b*) upon land from which any other profit or advantage than that ordinarily acquired by agriculture is derived;

(*c*) upon land appropriated for building-sites.

(*2*) The assessment fixed under the provisions of this Law upon any land appropriated for any one of the above purposes shall be liable to be altered and fixed at a different rate when such land is appropriated for any other purpose, notwithstanding that the term, if any, for which such assessment was fixed, may not have expired; and any land allowed by the Government to be held free of assessment on condition of its being appropriated to one purpose shall become liable to assessment if at any time it is devoted to any other purpose.

(*3*) The Deputy Commissioner may also, subject to any instructions given under section 216, prohibit the appropriation for certain purposes of any unalienated land liable to the payment of land-revenue, and may summarily evict any holder who may appropriate, or attempt to appropriate, the same to such prohibited purposes.

Assessment by whom to be fixed.

53. On all lands not wholly exempt from payment of land-revenue, and not within the local operation of an order made under section 83, the assessment of the amount to be paid as land-revenue shall be fixed at the discretion of the Deputy Commissioner, subject to the control of the Resident, and the amounts due according to such assessment shall be levied on all such lands:

Provided that in the case of lands partially exempt from land-revenue, or the liability of which to payment of land-revenue is subject to special conditions or restrictions, respect shall be had in the fixing of the assessment and the levy of the revenue to all rights legally subsisting, according to the nature of the said rights.

Settlement of assessment to be made with the holder directly from the Government, or, in his absence, with the next holder.

54. (*1*) The settlement of the assessment to land-revenue of each portion of land or survey number shall be made with the person who, under section 105, is primarily responsible to the Government for the same.

(*2*) If the said person is absent and has left no known authorized agent in the district, so that the settlement of the assessment cannot be concluded with him, such settlement may be made with the person holding under him or in occupation of the land.

Rates for use of water.

55. The Resident may, with the previous sanction of the Governor General in Council, authorize the Deputy Commissioner, or such other officer as the Resident deems fit, to fix such rates as he may from time to time think proper for the use by landholders and other persons of water the right to which vests in the Government, or which has been made available in consequence of the construction, improvement or repair of any irrigation or other work by the Government. Such rates shall be liable to revision at such periods as the Resident shall from time to time determine, and shall be recoverable as land-revenue.

Land-revenue to be a paramount charge on the land.

56. Arrears of land-revenue due on account of land by any landholder shall be a paramount charge on the holding and every part thereof, failure in payment of which shall make the occupancy or alienated holding, together with all rights of the occupant or holder over all trees, crops, buildings and things attached to the land or permanently fastened to anything attached to the land, liable to forfeiture; and on such forfeiture the Deputy Commissioner may levy all sums in arrear by sale of the occupancy or alienated holding, freed from all tenures, incumbrances and rights created by the occupant or holder or any of his predecessors in title, or in anywise subsisting as against such occupant or holder, or may otherwise dispose of such occupancy or alienated holding in accordance with any instructions given under section 216.

Forfeited holding may be taken possession of and otherwise disposed.

57. The Deputy Commissioner may, in the event of the forfeiture of a holding under the last section or under any other law, rule or order for the time being in force, take immediate possession of the land embraced within such holding and dispose of the same, by placing it in the possession of the purchaser or other person entitled to hold it, according to the provisions of this Law or of any law, rule or order for the time being in force.

CHAPTER VI.

OCCUPATION OF UNALIENATED LAND.

Occupation.

Written permission of Tahsildar required previous to taking up unoccupied land.

58. (*1*) Any person desirous of taking up unoccupied land which has not been alienated, shall previously to entering upon occupation, obtain the permission in writing of the Tahsildar.

(*2*) Such person shall also execute an agreement to become the registered occupant in such form as the Deputy Commissioner may from time to time prescribe, and the right of occupancy in the land shall not pass till such agreement shall have been accepted by the Deputy Commissioner.

Penalties for unauthorized occupation of land.

59. (*1*) Any person who unauthorizedly occupies any land set apart for any special purpose, or any unoccupied land which has not been alienated, shall be liable to pay,—

(*a*) if the land which he unauthorizedly occupies, forms part of an assessed survey-number, the assessment of the entire number for the whole period of his occupation, and

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter VI.—Occupation of Unalienated Land.—Sections 60-66.)

(*b*) if the land so occupied by him has not been assessed, such amount of assessment as would be leviable for the said period in the same village on the same extent of similar land appropriated to the same purpose,

and shall also be liable, at the discretion of the Deputy Commissioner, to a penalty not exceeding five rupees, or a sum equal to ten times the amount of assessment payable by him for one year, if such sum be in excess of five rupees, if he has taken up the land for purposes of cultivation, and not exceeding such limit as may be fixed in any instructions given in this behalf under section 216, if he has appropriated it to any non-agricultural purpose.

(*2*) The Deputy Commissioner's decision as to the amount of assessment payable for the land unauthorizedly occupied shall be conclusive, and, in the determination its amount, occupation for an incomplete portion of a year shall be counted as for a whole year.

(*3*) Any person unauthorizedly occupying any such land may be summarily evicted by the Deputy Commissioner, and any crop which he may have raised on the land, shall be liable to forfeiture, and any building or other construction which he may have erected thereon, shall also, if not removed by him after such written notice as the Deputy Commissioner may deem reasonable, be liable to forfeiture.

(*4*) Forfeitures under this section shall be adjudged by the Deputy Commissioner, and any property so forfeited shall be disposed of as the Deputy Commissioner may direct.

Occupancy-right to be paid for and to be liable to certain conditions.

60. (*1*) The Deputy Commissioner may, subject to such orders as may from time to time be made by the Resident, before accepting an agreement under section 58, require the payment of a certain price for the occupancy or sell that right by auction or annex such conditions, not inconsistent with this Law or any law, rule or order for the time being in force, to the occupancy as may seem fit.

(*2*) The price of an occupancy shall include the price of the Government right to all trees not specially reserved under the provisions of section 43.

Occupancy of alluvial land which vests in Government.

61. (*1*) When it appears to the Deputy Commissioner that the occupancy of any alluvial land which vests, under any law, rule or order for the time being in force, in the Government, may, with due regard to the interests of the public revenue, be disposed of in perpetuity, he shall offer the prior right of occupancy thereof to the occupant, if any, of the bank or shore on which such alluvial land has formed.

(*2*) The price of an occupancy so offered shall not exceed three times the annual assessment of the land of which the occupancy is offered.

(*3*) If the said occupant shall refuse such occupancy, the Deputy Commissioner may dispose of the same under the last foregoing section without any restrictions as to the price thereof.

Temporary right to alluvial lands to small extent.

62. When alluvial land forms on any bank or shore, the occupant, if any, of such bank or shore shall be entitled to the temporary use and occupation thereof, unless or until the area of the same exceeds half an acre and also exceeds one-tenth of the area of his holding. When the area of the alluvial land exceeds the said extent, it shall be at the disposal of the Deputy Commissioner, subject to the provisions of the last foregoing section.

Occupants' Rights.

Uses to which occupant of land for agricultural may put his land.

63. (*1*) An occupant of land appropriated for agricultural purposes is entitled by himself, his servants, tenants, agents or other legal representatives, to erect farm buildings, construct wells or tanks, or make any other improvements thereon for the better cultivation of the land or its more convenient occupation for the purposes aforesaid.

(*2*) If any occupant wishes to appropriate his holding or any part thereof to any other purpose, he shall apply to the Deputy Commissioner for permission. The Deputy Commissioner on receipt of such application shall at once furnish the applicant with a written acknowledgment of its receipt, and after inquiry may either grant or refuse the same. Unless the Deputy Commissioner shall in a particular instance otherwise direct, no such application shall be recognized except it be made by the registered occupant.

(*3*) When any such land is thus appropriated to any purpose unconnected with agriculture, the Deputy Commissioner may, subject to any instructions given under section 216, require the payment of a premium in addition to any new assessment which may be leviable under the provisions of section 52.

Penalty for so appropriating land without permission.

64. If any such land be so appropriated without the permission of the Deputy Commissioner first obtained, the occupant and any tenant, or any other person holding under or through him, shall be liable to be summarily evicted by the Deputy Commissioner from the land so appropriated and from the entire field or survey-number of which it may form a part, and the occupant shall also be liable to pay, in addition to the new assessment which may be leviable under the provisions of section 52 for the period during which the said land has been so appropriated, such penalty as the Deputy Commissioner may, subject to any instructions given under section 216, impose.

Permission may be granted on terms.

65. Nothing in the two last foregoing sections shall prevent the granting of the permission aforesaid in special cases on such terms as may be agreed on between the Government and the occupant.

Occupant's rights are conditional.

66. An occupant is entitled to the use and occupation of his land for the period, if any, to which his occupancy is limited, or, if the period be unlimited or a survey-settlement has been extended to the land, in perpetuity, conditionally on the payment of the amounts due on account of the land-revenue for the same

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter VI.—Occupation of Unalienated Land.—Sections 67-75.)

according to the provisions of this Law, or of any rules made under this Law, or of any law, rule or order for the time being in force, and on the fulfilment of any other terms lawfully annexed to his occupancy.

Reservation of right of Government to mines and minerals.

67. The right of the Government to mines and mineral products in all unalienated land is, and is hereby declared to be expressly reserved:

Provided that nothing in this section shall be deemed to effect any subsisting rights of any occupant of such land in respect of such mines or mineral products.

Intestate occupancy or holding to be sold.

68. If an occupant dies intestate and without known heirs, the Deputy Commissioner shall, subject to the provisions of this Law or of any law, rule or order for the time being in force for the sale of forfeited occupancies in realization of the land-revenue, dispose of his interest in the occupancy by sale, and the law for the time being in force concerning property left by such occupant dying intestate and without known heirs shall not be deemed to apply to the said interest, but only to the proceeds of such sale after deducting all arrears of land-revenue due by the deceased to the Government and all the expenses of the said sale.

Relinquishment of Occupancy.

Occupant may relinquish his occupancy.

69. (*1*) A registered occupant may, by giving a notice in writing to the Tahsildar, relinquish the occupancy either absolutely or in favour of a specified person:

Provided that such relinquishment shall include all rights in whole survey-numbers or in whole recognized divisions of survey-numbers.

(*2*) An absolute relinquishment shall be deemed to have effect from the close of the current revenue-year, and notice thereof shall be given before the thirty-first day of March in such year or before such other date as may be from time to time prescribed in this behalf for each district by the Resident. A relinquishment in favour of a specified person may be made at any time if no arrears of land-revenue are due in respect of the land.

Right of way to relinquished land.

70. If any person relinquishes land the way to which lies through other land retained by him, the right of way through the land so retained shall continue to the future holder of the land relinquished.

The Registered Occupant.

Registered occupants and their liabilities.

71. The person who has last executed an agreement in respect of any land under section 58, section 72 or section 73, is the registered occupant of that land, and shall, as such, be liable for the land-revenue and other demands of the Government in respect of the land until such time as the occupancy is relinquished absolutely under section 69, or until some other person is recognized as the registered occupant under the provisions of section 72 or section 73.

Transfers of their rights are to be recognized by the Deputy Commissioner, otherwise than on decree or order of a Civil Court.

72. The Deputy Commissioner may, subject to the provisions of section 73, recognize another person as the registered occupant in the following cases:

(*1*) where the registered occupant has died, the Deputy Commissioner may recognize the person who appears to him to be the heir, or, where there are more heirs than one, the principal heir, of the deceased registered occupant;

(*2*) where an occupancy has been relinquished in favour of a specified person, the Deputy Commissioner may recognize the person in whose favour the occupancy has been relinquished;

(*3*) where an occupancy has been taken possession of under section 57, the Deputy Commissioner may recognize the purchaser or other person placed in possession;

(*4*) where the interests of a registered occupant have been sold under section 68 or under the provisions of Chapter XI, the Deputy Commissioner may recognize the purchaser;

(*5*) where the registered occupant consents that another person shall be recognized as registered occupant in his stead, the Deputy Commissioner may recognize such person;

and the Deputy Commissioner shall, subject to the provisions of section 73, recognize the person who appears to be the heir or principal heir, the person placed in possession, the purchaser or the person in whose favour the occupancy has been relinquished, or to whose recognition the registered occupant consents, as the case may be, on his executing an agreement to become the registered occupant in such form as may be prescribed by the Deputy Commissioner.

Transfers to be recognized on decree or order of the Civil Court.

73. If, by the decree or order of a competent Court, it is adjudged that the registered occupant is an inferior holder under another person, or that another person is entitled to be the registered occupant, or if, in execution of such decree or order, the interests of a registered occupant have been transferred by sale or otherwise to another person, the Deputy Commissioner may recognize such other person, and he shall recognize such other person on his producing a certified copy of the decree or order or the Court's certificate of the sale or transfer and on his executing an agreement to be such occupant in such form as the Deputy Commissioner may prescribe.

Other transfers need not be recognised.

74. Save as provided in sections 69, 71, 72 and 73, the Deputy Commissioner shall not be bound to recognize any person to whom any interest in any portion of an occupancy has been assigned.

Presumption from registration.

75. In the absence of proof to the contrary, it shall be presumed that every person shewn in a settlement-register or village-records as the registered occupant,

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter VI.—Occupation of Unalienated Land.—Sections 76-77. Chapter VII.—Superior and Inferior Holders and Grant of Receipts.—Sections 78-80.)

did execute an agreement to become the registered occupant at some time before the preparation of the register or record and that he was the last person who had executed such an agreement at the time when the register or record was prepared.

Remedies against Forfeiture of Occupancies.

To prevent forfeiture of occupancy, certain persons other than the registered occupant may pay the land-revenue.

76. In order to prevent the forfeiture of an occupancy, under the provisions of section 56 or of any other law for the time being in force, through non-payment by the registered occupant of the land-revenue due on account thereof, any co-occupant, tenant, mortgagee or other person interested in the continuance of the occupancy may pay, on behalf of such registered occupant, all sums due on account of the land-revenue, and the Deputy Commissioner may receive the same.

Suspension of certain Provisions of this Chapter.

Resident empowered to suspend operation of section 46 or 58.

77. (*1*) The Resident may, by notification, from time to time,—

(*a*) suspend the operation of section 58 or of section 69 or of both within any prescribed local area, either generally or in respect of cultivators or occupants of a particular class or classes ; and

(*b*) cancel any such notification.

(*2*) During the period for which any notification under clause (*a*) is in force within any local area, such rules shall be substituted for the provisions of which the operation is suspended, as the Commissioner shall from time to time direct.

CHAPTER VII.

SUPERIOR AND INFERIOR HOLDERS AND GRANT OF RECEIPTS.

Tenants' Rights.

Rent, duration of tenancy and presumption as to tenure.

78. (*1*) A person placed, as tenant, in possession of land by another, or, in that capacity, holding, taking or retaining possession of land permissively from, or by sufferance of, another, shall be regarded as holding the same at the rent, or for the services, agreed upon between them, or, in the absence of satisfactory evidence of such agreement, at the rent payable or services renderable by the usage of the locality, or, if there is no such agreement or usage, shall be presumed to hold at such rent as, regard being had to all the circumstances of the case, shall seem just and reasonable.

(*2*) Where, by reason of the antiquity of a tenancy, no satisfactory evidence of its commencement and of the period agreed upon between the landlord and tenant, or those under whom they respectively claim, for its duration, is forthcoming, and there is no usage of the locality as to its duration, the period of its intended duration shall, as against the immediate landlord of the tenant, be presumed to be co-extensive with the duration of the tenure of such landlord and those who derive title under him.

(*3*) Where there is no satisfactory evidence of the capacity in which a person in possession of land, in respect of which he renders service or pays rent to the landlord, received, holds or retains possession of the same, it shall be presumed that he is in possession as tenant.

(*4*) Nothing contained in this section shall affect the right of the landlord (if he has the same by virtue of agreement, usage or otherwise) to enhance the rent payable or services renderable by the tenant up to a degree which shall, in the judgment of the Court, be just and reasonable and to sue for the eviction of the tenant for non-payment of the rent or non-rendition of the services, either respectively originally fixed or duly enhanced as aforesaid.

(*5*) The rent for the time being payable or the service for the time being renderable by a tenant shall, for the purposes of this section, be presumed to be just and reasonable till the contrary is proved.

(*6*) In determining what shall be considered a reasonable rent, the Court shall not take into consideration as against the tenant the enhanced value of the property due to improvements effected by the tenant.

(*7*) In the case of a Court decreeing the ejectment of a tenant, holding otherwise than under an express agreement, on the ground of non-payment of rent, the Court may consider whether the tenant has made improvements, and may pass a decree for ejectment, subject to the payment by the landlord of such sum as may be considered just and reasonable compensation for the unexhausted improvements.

(*8*) The rent of a tenant holding otherwise than under an express agreement shall not be enhanced without notice in writing served by the landlord upon the tenant at least six months before the commencement of the agricultural year from which the enhancement is to take effect, through a Revenue-officer and in accordance with instructions to be given by the Resident in this behalf.

Termination of annual tenancy and notice of such termination.

79. (*1*) An annual tenancy shall, in the absence of proof to the contrary, be presumed to run from the end of one agricultural year to the end of the next.

(*2*) An annual tenancy shall, in the absence of any special agreement to the contrary, require for its termination a notice in writing, in the form contained in the fifth schedule or in a form to the like effect, given by the landlord to the tenant, or by the tenant to the landlord, at least three months before the end of the agricultural year of tenancy at the end of which it is intimated that the tenancy is to cease.

Grant of Receipts.

Receipts to be granted by Revenue officers for payments of land-revenue.

80. (*1*) Every Revenue-officer receiving any money on account of land-revenue or recoverable as land-revenue shall, on demand by the person paying or delivering such money, grant a receipt for the same :

Provided that, when such payment or delivery is made by a registered occupant or his servant or agent, the Revenue-officer may refuse to grant a receipt unless a receipt book, in such form

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter VII.—Superior and Inferior Holders and Grant of Receipts.—Sections 81-82. Chapter VIII.—Survey-settlements.—Sections 83-87.)

as the Commissioner may from time to time prescribe, is produced for the record of the payment.

(2) Every patel or patwari refusing to grant a receipt under the proviso to sub-section (1) shall report to the Tahsildar the fact of such refusal within twenty-four hours.

Penalty for failure to grant receipts or report refusal.

81. Whoever, in contravention of the provision of the last foregoing section, refuses or neglects to grant a receipt, or, having refused to grant a receipt, neglects to report the fact of such refusal, shall, on conviction by the Deputy Commissioner, be liable to a fine not exceeding three times the amount received or refused.

Landholders to grant receipts.

82. (1) Any landholder receiving any payment, whether in money or in kind, on account of revenue or rent from an inferior holder or tenant shall give to the payer a written receipt for the payment, which receipt shall be signed by the landholder and shall specify such particulars as may be prescribed by the Resident.

(2) If such receipt does not contain substantially the particulars prescribed by the Resident, it shall be presumed, till the contrary is shown, to be an acquittance in full of all demands for revenue or rent up to the date on which it was given.

CHAPTER VIII.

SURVEY-SETTLEMENTS.

Power to introduce revenue-survey.

83. (1) The Resident may, with the previous sanction of the Governor General in Council, whenever it may seem expedient, direct the survey of any land in any part of the Hyderabad Assigned Districts, with a view to the settlement of the land-revenue and to the ascertainment and record of rights and liabilities of every description connected with the land or for any other similar purpose, and such survey shall be called a revenue-survey. Such survey may extend to all lands generally in a specified area or to such land only as the Resident may direct; and, subject to the orders of the Resident, the officers conducting any such survey may except from the survey-settlement any land to which it may not seem expedient that such settlement should be applied.

(2) Every revenue-survey and every operation in connection with a revenue-survey shall be conducted in accordance with any instructions for the administration thereof given under section 216.

(3) Subject to any instructions given under section 216, the control of every revenue-survey shall vest in and be exercised by the Commissioner, subject to the general orders of the Resident.

The Deputy Commissioner or other officer may require service from holders of land and others.

84. (1) The Deputy Commissioner and any officer deputed to conduct or take part in any revenue-survey may require, by general notice or by summons, the attendance of holders of land and of others interested therein, in person or by legally constituted agent duly instructed and able to answer all material questions, and the presence of ex-pargana and village officers who in their several stations and capacities are, legally or by usage, bound to perform service in virtue of their respective offices, and require from them such assistance in the operations of the survey and such service in connection therewith as may, in each case, not be inconsistent with the position of the individual so called on.

(2) The Deputy Commissioner or other officer aforesaid may also call upon all holders of land and other persons interested therein to assist in the measurement or classification of the lands to which the survey extends by furnishing flagholders, and, in the event of a necessity for employing hired labour for this or other similar objects incidental to the survey operations, may assess the cost thereof, with all contingent expenses, on the lands surveyed, for collection as a revenue-demand.

Survey-number.

85. (1) In order to facilitate the work of classification, assessment and record, the Deputy Commissioner or other officer aforesaid shall divide the lands to which the survey extends, into portions of a convenient size and shape to be called survey-numbers, and group the survey-numbers in villages. In forming survey-numbers and grouping them in villages, regard shall be paid to existing divisions, to departmental orders and to the orders of the Resident.

(2) At the time of the revision of a survey the Deputy Commissioner or other officer aforesaid may, subject to the above considerations, recognize existing survey-numbers, join distinct survey-numbers so as to form a single survey-number or subdivide survey-numbers so as to form distinct survey-numbers.

Recognized share of survey-number.

86. (1) When two or more holdings are included in a single survey-number, the Deputy Commissioner or other officer aforesaid may recognize such holdings without forming separate survey-numbers. Holdings so recognized shall be called recognized divisions of survey-numbers.

(2) The provisions of this Law relating to survey-numbers shall be applicable, so far as may be, to recognized divisions in survey-numbers.

Survey numbers not ordinarily to be of less than a certain extent.

87. (1) Except as hereinafter provided, no survey-number comprising land used for agricultural purposes only shall be made of less extent than a minimum to be fixed from time to time for the several classes of land in each district by the Commissioner, with the sanction of the Resident. A record of the minima so fixed shall be kept in the Tahsildar's office in each taluk, and shall be open to the inspection of the public at reasonable times.

(2) The provisions of sub-section (1) shall not apply to survey-numbers which have already been made of less extent than the minima so fixed, or which may be so made under the authority of the Commissioner given either generally or in any particular instance in this behalf; and any survey-number separately

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter VIII.—Survey-settlements.—Sections 88-94.)

recognized in the survey-records shall be deemed to have been authorizedly made whatever be its extent.

Deputy Commissioner or other officer in charge of survey to fix assessments.

88. (1) Subject to the control of the Resident, the Deputy Commissioner or other officer in charge of a survey shall have authority to fix the assessment of land-revenue at his discretion on all lands within the local operation of an order made under section 83, which are not wholly exempt from land-revenue, and the amounts due according to such assessment shall, subject to the provisions of section 90, be levied on all such lands.

(2) In fixing such assessment regard shall be had to the requirements of the proviso to section 53.

(3) But nothing in this section shall be deemed to prevent the officer aforesaid from determining and registering on lands wholly or partially exempt from payment of land-revenue or on lands specially excepted under section 83 from the survey-settlement, the proper full assessment which would be payable but for such exemption or exception, or from dividing all such lands to which the survey extends, into survey-numbers.

The assessments so made may be on land, or on means of irrigation, or in other sanctioned manner.

89. The power to assess under the last foregoing section shall, in the case of lands used for agricultural purposes only, include power to assess, whether directly on the land or in the form of a rate or cess upon any means of irrigation or in any other manner whatsoever that may be sanctioned by the Resident.

Assessments so made not leviable without the sanction of the Resident; but may be fixed, with or without modification, by the Resident for a term of years.

90. (1) The assessment fixed by the Deputy Commissioner or other officer in charge of a survey shall not be levied without the sanction of the Resident or of such other officer as the Governor General in Council may from time to time direct.

(2) The Resident may, with the previous sanction of the Governor General in Council, declare such assessment, with any modifications that may be deemed necessary, fixed for a term of years not exceeding thirty in the case of lands used for agricultural purposes only and not exceeding ninety in any other case.

Introduction of survey-settlement how to be made.

91. (1) When the Resident or other officer aforesaid shall have sanctioned the levy of the assessments fixed by the officer in charge of the survey, the Deputy Commissioner, or other officer in charge of the survey, or such other officer not below the rank of an Extra Assistant Commissioner as may be specially appointed for the purpose by the Deputy Commissioner, shall publicly announce or cause to be announced the assessment fixed on each survey-number.

(2) The Deputy Commissioner, or other officer in charge of the survey, or the specially appointed officer, shall, at a reasonable time beforehand, cause public notice to be given, in such manner as he shall deem fit, of the time at or about which the assessments will be announced as aforesaid.

(3) If the holder or other person interested in any holding does not appear in person or by agent, he shall be subject, nevertheless, to the same liabilities as if he had attended.

(4) When the assessments have been announced in the manner provided in sub-section (1), the survey-settlement shall be held to have been introduced.

Excess assessment not to be levied in the year in which a survey-settlement is introduced; nor in the following year if the number is resigned that year.

92. (1) In the revenue-year in the course of which a survey-settlement, whether original or revised, is introduced under the last foregoing section, the difference between the old and the new assessment of all lands on which the latter may be in excess of the former, shall be remitted, and the revised assessment shall be levied only from the next following revenue-year.

(2) In the revenue-year next following that in which any original or revised survey-settlement has been introduced, any occupant who is dissatisfied with the increased rate imposed by such new assessment on any of the survey-numbers held by him, shall, on resigning such number in the manner prescribed by section 69 on or before the thirty-first day of March, receive a remission of the increase so imposed.

The fixing of assessment under section 90 limited to ordinary land-revenue.

93 The fixing of the assessment under the provisions of section 90 shall be strictly limited to the assessment of the ordinary land-revenue, and shall not operate as a bar to the levy of any cess which the Governor General in Council may impose or sanction, under the provisions of this Law or of any law, rule or order for the time being in force, for purposes of local improvement, such as schools, village and district roads, bridges, tanks, wells, accommodation for travellers, and the like, or for the support of the jaglia force, or as a bar to the levy of any rate for the use of water which may be imposed under the provisions of section 55.

The Resident, with the previous sanction of the Governor General in Council, may direct a fresh survey and revision of assessment; but improvements made from private capital and resources not to be assessed.

94. (1) The Resident may, with the previous sanction of the Governor General in Council, at any time direct a fresh revenue-survey or any operation subsidiary thereto, but no enhancement of assessment shall take effect till the expiration of the period previously fixed under the provisions of section 90.

(2) In revising assessments of land-revenue regard shall be had to the value of land, and, in the case of land used for agricultural purposes, to the profits of agriculture:

Provided that, if any improvement has been effected in any land during the currency of a settlement by, or at the cost of, the holder thereof, the increase in the value of such land or in the profit of cultivating the same due to the said improvement shall not be taken into account in fixing the revised assessment thereof at the next subsequent settlement:

Provided, also, that nothing in this section shall affect the provisions of the first proviso

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter VIII.—Survey-settlements.—Sections 95-96. Chapter IX.—The Settlement of Boundaries and the Construction and Maintenance of Boundary-marks.—Sections 97-99.)

to section 11 of the Land Improvement Loans Act, 1883.

XIX of 1883.

Explanation.—The word "improvement" in this section includes wells and works of surface and subsoil drainage, if any, made by, or at the cost of, the holder.

Revenue-management of villages not belonging to Government that may be temporarily under Government management.

95. In the event of any alienated village coming under the temporary management of the Government, the Deputy Commissioner may let out the lands thereof at rates determined by means of a survey-settlement or at such other fixed rates as he may deem to be reasonable, and sell the occupancy of unoccupied lands by auction, and otherwise conduct the revenue-management thereof under the rules for the management of unalienated lands, so far as such rules may be applicable, and for so long as the said village shall be under the management of the Government officers:

Provided that any written agreements relating to the land made by the superior holder of such village shall not be affected by any proceedings under this section in so far as they shall not operate to the detriment of the lawful claims of the Government on the land.

Separate demarcation of land appropriated under section 51 or 53.

96. When any portion of cultivable land is appropriated under the provisions of section 51 or 53 for any non-agricultural purpose, the portion so appropriated may, with the sanction of the Deputy Commissioner, be demarcated and made into a separate survey-number at any time, notwithstanding the provisions of section 87.

CHAPTER IX.

THE SETTLEMENT OF BOUNDARIES AND THE CONSTRUCTION AND MAINTENANCE OF BOUNDARY-MARKS.

Determination of village-boundaries.

97. The boundaries of villages situated in the Hyderabad Assigned Districts shall be fixed, and all disputes relating thereto shall be determined, by the Deputy Commissioner or by such other officer as may be nominated by the Resident for the purpose, and every such officer shall be guided by the following rules:

Village-boundaries may be settled by agreement.

Rule 1.—If the patels and other village-officers of any two or more adjoining villages and, in the case of an alienated village, the holder thereof or his duly constituted agent voluntarily agree to any given line of boundary as the boundary common to their respective villages, the officer determining the boundary shall require the said parties to execute an agreement to that effect, and shall then mark off the boundary in the manner agreed upon. Every village-boundary fixed in this manner shall be held to be finally settled, unless it shall appear to the said officer that the agreement has been obtained by fraud, intimidation or any other illegal means:

Provided that, if the Commissioner is satisfied that the agreement was arrived at under a *bonâ fide* mistake as to a matter of fact essential to the agreement, he may, on application made to him at any time within one year of the date of the agreement, sanction its revision.

Procedure in case of disagreement or dispute.

Rule 2.—If the patels and other village-officers and, in the case of an alienated village, the holder thereof or his duly constituted agent do not agree to fix the boundaries of their respective villages in the manner prescribed in the last foregoing rule, or if it shall appear to the said officer that the agreement has been obtained by fraud, intimidation or any other illegal means, or if there is any pending dispute, the said officer shall make a survey and plan of the ground in dispute, exhibiting the land claimed by the contending parties and all particulars relating thereto, and shall hold an inquiry into the claims of the said parties and thereafter make an award in the case. If either of the villages concerned is alienated, the award shall be subject to confirmation by the Commissioner.

Determination of field boundaries.

98. If, at the time of a survey, the boundary of a field or holding is undisputed and its correctness is affirmed by the village-officers then present, it may be laid down as pointed out by the holder or person in occupation, and if it be disputed, or if the said holder or person in occupation be not present, it shall be fixed by the Deputy Commissioner or other officer deputed to conduct or take part in the survey according to the village-records and according to occupation as ascertained from the village-officers and the holders of adjoining lands, or on such other evidence or information as the Deputy Commissioner or such other officer may be able to procure.

(2) If any dispute arises concerning the boundary of a field or holding which has not been surveyed, or if at any time after the completion of a survey a dispute arises concerning the boundary of any survey-number, it shall be determined by the Deputy Commissioner, who shall be guided in the case of survey-numbers by the survey-records, if they afford satisfactory evidence of the boundary previously fixed, and, if not, by such other evidence as he may be able to procure.

Settlement of boundary-disputes by arbitration.

99. (1) If the several parties concerned in a boundary-dispute agree to submit the settlement thereof to an arbitration committee and make application to that effect in writing, the officer whose duty it would otherwise be to determine the boundary, shall require the said parties to nominate a committee of not less than three persons, within a specified time, and, if, within a period to be fixed by the said officer, the committee so nominated, or a majority of the members thereof, arrive at a decision, such decision, when confirmed by the said officer, or, if the said officer be lower in rank than the Deputy Commissioner, by the Deputy Commissioner, shall be final:

When award may be remitted for reconsideration.

Provided that the said officer or Deputy Commissioner shall have power to remit the award or any of the matters referred to arbitration to the reconsideration of the

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter IX.—The Settlement of Boundaries and the Construction and Maintenance of Boundary-marks.—Sections 100-102. Chapter X.—Lands within the Sites of Villages, Towns and Cities.—Sections 103-104. Chapter XI.—Realization of Land-revenue and other Revenue-demands.—Section 105.)

same committee for any of the causes set forth in section 520 of the Code of Civil Procedure. (I of 1882.)

(2) If the committee appointed in the manner aforesaid fails to effect a settlement of the dispute within the time specified, it shall be the duty of the officer aforesaid, unless he or, if the said officer is lower in rank than the Deputy Commissioner, the Deputy Commissioner sees fit to extend the time, to settle the same as otherwise provided in this Law.

If arbitration fails, survey-officer to settle the dispute.

100. The settlement of a boundary under any of the foregoing provisions of this Chapter shall, subject to the provisions of Chapter XVII, be conclusive of the proper position of the boundary-line or boundary-marks.

Effect of the settlement of a boundary.

Boundary-marks.

101. (1) Every Revenue-officer authorized by the Deputy Commissioner shall have power to have boundary-marks of villages or survey-numbers, whether cultivated or uncultivated, constructed or repaired and to assess all charges incurred thereby on the holders or others having an interest therein.

Construction and repair of boundary-marks of survey-numbers and villages.

(2) Every such officer shall, by a notification posted in the chauri or some other public place in the village to which the lands concerned belong, require the holders of survey-numbers to construct or repair, within a specified time, the boundary-marks of their respective survey-numbers, and, on their failure to comply with the requisition so made, may construct or repair them, and assess all charges incurred thereby as hereinbefore provided.

(3) A general notification issued in the manner aforesaid shall be held to be good and sufficient notice to each and every person having any interest in any survey-numbers in lands within the local operation of an order under section 83.

(4) The size, material and description of boundary-marks shall be such as the Commissioner, having regard to the requirements of soil and climate, may deem necessary.

(5) The Commissioner may direct that a vacant strip of ground, of such width as he may think fit, shall be reserved as a boundary-mark.

102. (1) If any person wilfully destroys or injures or without lawful authority removes a boundary mark lawfully erected, or commits mischief in respect of, or takes possession of, any strip of land reserved as a boundary-mark under section 101, sub-section (5), he may be ordered by a Tahsildar to pay such fine not exceeding fifty rupees for each mark so destroyed, injured or removed, or strip of land so injuriously affected, as may, in the opinion of the Tahsildar, be necessary to defray the expense of restoring the same and of rewarding the informant, if any.

Penalty for destruction, injury or removal of boundary-marks.

(2) The imposition of a fine under this section shall not bar a prosecution under section 434 of the Indian Penal Code.

CHAPTER X.

LANDS WITHIN THE SITES OF VILLAGES, TOWNS AND CITIES.

Fixing of Sites.

103 The Deputy Commissioner or other officer in charge of a survey, acting under the general or special orders of the Resident, may determine what lands are included within the site of any village, town or city, and may fix and from time to time may vary the limits of the same, regard being had to all subsisting rights of landholders.

Limits of sites of villages, towns and cities how to be fixed.

Miscellaneous.

104 If the Resident at any time deems it expedient to direct a survey of the lands, other than those used ordinarily for agricultural purposes only, within the site of any village, town or city, under the provisions of section 67, or a fresh survey thereof under the provisions of section 80, such survey shall be conducted, and all its operations shall be regulated, according to the provisions of Chapters VIII and IX:

Survey of lands such sites how to be conducted.

Provided that nothing contained in sections 84, 89, 91, 92 and 97 shall be considered applicable to any such survey in any town or city containing more than two thousand inhabitants.

CHAPTER XI.

REALIZATION OF LAND-REVENUE AND OTHER REVENUE-DEMANDS.

Responsibility for Land-revenue.

105. (1) The registered occupant shall be primarily responsible to the Government for the land-revenue of unalienated land, and the superior holder shall be primarily responsible to Government for the land revenue of alienated land.

Primary and secondary responsibility for land-revenue and allowance of credit for payments made by person not primarily responsible.

(2) On failure of the person primarily responsible to the Government for the land-revenue to pay the same according to any law, rule or order for the time being in force in that behalf, it may be recovered from the co-occupant of unalienated land or the co-sharer of alienated land, or in either case from the inferior holder, tenant or other person in actual occupation of the land.

(3) When land-revenue is recovered from any such co-occupant, co-sharer, inferior holder, tenant or other person, he shall be allowed credit for all payments which he may have made to the registered occupant or superior holder, or to his landlord, at or after the prescribed or usual times of such payments, and he shall be entitled to credit in account with the registered occupant or superior holder, or with his landlord, for the amount recovered from him.

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XI.—Realization of Land-revenue and other Revenue-demands.—Sections 106-113)

Priority of Government Claim for Land-revenue.

Claims of the Government to have priority over all others.

106. The claim of the Government to any moneys recoverable under the provisions of this Chapter shall have priority over any other debt, demand or claim whatsoever, whether in respect of mortgage, judgment, decree, execution, attachment or otherwise, against any land or the holder thereof.

The liability of the crop for the revenue of the land.

107. In all cases the land-revenue for the current revenue-year of land used for agricultural purposes, if not otherwise discharged, shall be recoverable, in preference to all other claims, from the crop of the land subject to the same.

Land-revenue when leviable.

Land-revenue may be levied at any time during the revenue-year.

108. The land-revenue shall be leviable on or at any time after the first day of the revenue-year for which it is due; but, except when precautionary measures are deemed necessary under the provisions of sections 109 to 113 (both inclusive), payment shall be required only on the dates to be fixed under the provisions hereinafter contained.

Precautionary Measures for the Security of the Land-revenue.

Removal of crop which has been sold, &c., may be prevented until the revenue is paid.

109. When the crop of any land or any portion of the same is sold, mortgaged or otherwise disposed of, whether by order of a Civil Court or other public authority, or by private agreement, the Deputy Commissioner may prevent its being removed from the land until the revenue of the said land for the current revenue-year has been paid, whether the date fixed for the payment of the same, under the provisions hereinafter contained, has yet arrived or not. But in no case shall a crop, or any portion of the same, which has been sold, mortgaged or otherwise disposed of, be detained on account of more than one year's revenue.

To secure land-revenue the Deputy Commissioner may prevent reaping or removal of crop, appointing watchman if necessary.

110. In order to secure the payment of the land-revenue by enforcement of the lien of the Government on the crop, the Deputy Commissioner may—

(*a*) require that the crop growing on any land liable to the payment of land-revenue shall not be reaped until a notice in writing has first been given to himself or to some other officer to be named by him in this behalf, and such notice has been returned endorsed with an acknowledgment of its receipt;

(*b*) direct that no such crop shall be removed from the land on which it has been reaped, or from any place in which it may have been deposited without the written permission of himself or of some other officer as aforesaid;

(*c*) cause watchmen to be placed over any such crop to prevent the unlawful reaping or removal of the same, and realize the amount required for the remuneration of the said watchmen, at such rate not exceeding the rate of pay received by the peons on his establishment as he may deem fit, as an arrear of land-revenue due in respect of the land to which such crop belongs.

Notification and enforcement of Deputy Commissioner's orders under last section.

111. (*1*) The Deputy Commissioner's orders under either clause (*a*) or clause (*b*) of the last foregoing section may be issued generally to all the holders of land paying revenue to the Government in a village, or to individual holders only.

(*2*) If the order is general, it shall be made known by public proclamation, to be made by beat of drum in the village and by affixing a copy of the order in the chauri or some other public place in the village. If it is to individual holders, a notice thereof shall be served on each holder concerned.

(*3*) Whoever disobeys any such order after the same has been so proclaimed or a notice thereof has been served upon him, or abets, within the meaning of the Indian Penal Code, the disobedience of any such order, shall be liable, on conviction by the Deputy Commissioner, to fine not exceeding double the amount of the land-revenue due on the land to which the crop belongs in respect of which the offence is committed. XLV of 18

Reaping and harvesting of crop and release of the same in whole or part.

112. The Deputy Commissioner shall not defer the reaping of the crop nor prolong its deposit unduly so as to damage the produce, and, if within two months after the crop has been deposited the revenue due has not been discharged, he shall either release the crop and proceed to realize the revenue in any other manner authorized by this Chapter, or take such portion thereof as he may deem fit for sale, under the provisions of this Chapter applicable to sales of moveable property, in realization of the revenue due and of all legal costs, and release the rest.

Temporary attachment and management of a village or share of a village.

113. (*1*) If, owing to disputes among the sharers or for any other cause the Deputy Commissioner considers that there is reason to apprehend that the land-revenue payable in respect of any holding consisting of an entire village or of a share of a village will not be paid as it falls due, he may cause the village or share of a village to be attached and taken under the management of himself or any agent whom he may appoint in this behalf.

(*2*) The provisions of section 129 shall apply to any village so attached, and all surplus profits of the land attached, beyond the cost of such attachment and management, including the cost of the introduction of a revenue-survey, if the same is introduced under the provisions of section 95, shall be kept in deposit for the eventual benefit of the person or persons entitled to the same, or paid to the said person or persons from time to time as the Deputy Commissioner, subject to the orders of the Commissioner, may direct.

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XI.—Realization of Land-revenue and other Revenue-demands.—Sections 114-125.)

Precautionary measures to be relinquished on security being furnished.

114. The precautionary measures authorized by the last five foregoing sections shall be relinquished, if the person primarily responsible for the payment of revenue, or any person who would be responsible for the same if default were made by the person primarily responsible, pays the costs, if any, lawfully incurred by the Deputy Commissioner up to the time of such relinquishment, and furnishes security satisfactory to the Deputy Commissioner for the payment of the revenue at the time at which, or in the instalments, if any, in which, it is payable under the provisions hereinafter contained.

Regulation of Payment of Land-revenue.

The Resident to determine the dates, &c., on which land revenue shall be payable.

115. The land-revenue, except when is recovered under the provisions of sections 109 to 113 (both inclusive), shall be payable at such times, in such instalments, to such persons, and at such places, as may from time to time be determined under the orders of the Resident.

Defaulters.

Definitions of "arrear" and "defaulter."

116. Any sum not so paid becomes thereupon an arrear of land-revenue and the persons responsible for it, whether under the provisions of section 105 or of any other section, become defaulters.

Liabilities incurred by default.

117. If any land-revenue is not fully paid within the prescribed time, the Deputy Commissioner may proceed to levy at once the entire balance of land-revenue due by the defaulter for the current revenue-year, in addition to such charge as a penalty, or by way of interest, as may be authorized according to a scale to be from time to time fixed under the orders of the Resident.

Certified account to be evidence as to arrears.

118. A statement of account, certified by the Deputy Commissioner or by the Tahsildar, shall, for the purposes of this Chapter, be conclusive evidence of the existence of the arrear, of the amount of land-revenue due and of the person who is the defaulter.

Recovery of Arrears.

Process for recovery of arrears.

119. Every arrear of land-revenue may be recovered by any one or more of the following processes, namely:

(*a*) by service of a written notice of demand on the defaulter, under section 121;

(*b*) by distraint and sale of the defaulter's moveable property, under section 122;

(*c*) by sale of the defaulter's immoveable property, under section 123;

(*d*) by arrest and imprisonment of the defaulter, under sections 125 and 126;

(*e*) by forfeiture of the occupancy or alienated holding in respect of which the arrear is due, under section 127;

(*f*) in the case of alienated holdings consisting of entire villages or shares of villages, by attachment of the said villages, under sections 128 to 132.

Revenue demands of former years how recoverable.

120. All or any of the processes specified in the last foregoing section may be employed for the recovery of arrears of former revenue-years as well as of the current revenue-year, but the preferences given by sections 106 and 107 shall apply only to demands for the current revenue-year:

Provided that any process commenced in the current revenue-year shall be entitled to the said preferences notwithstanding that it may not be fully executed within that revenue-year.

Notice of Demand.

Issue of notice of demand.

121. (*1*) A notice of demand may be issued on or after the day following that on which the arrear accrues.

(*2*) The Commissioner may from time to time frame rules for the issue of such notices, and with the sanction of the Resident shall fix the costs recoverable from the defaulter as an arrear of land-revenue and direct by what officer such notices shall be issued.

Sale of Defaulter's Property.

Distraint and sale of defaulter's moveable property.

122 The Deputy Commissioner may also cause the defaulter's moveable property to be distrained and sold.

(*2*) Such distraint shall be made by such officers or class of officers as the Commissioner, under the orders of the Resident, may from time to time direct.

Sale of defaulter's immoveable property.

123. The Deputy Commissioner may also cause the right, title and interest of the defaulter in any immoveable property, other than the land on which the arrear is due, to be sold.

Exemption from distraint and sale.

124. (*1*) All such property as is by the Code of Civil Procedure exempted from attachment or sale in execution of a decree shall also be exempt from distraint or sale under either of the two last foregoing sections.

(*2*) The decision of the Deputy Commissioner as to what property is so entitled to exemption shall be conclusive.

Arrest and Imprisonment.

Arrest and detention of defaulter.

125. (*1*) At any time after an arrear becomes due the defaulter may be arrested and detained in custody for ten days in the office of the Deputy Commissioner or of the Tahsildar, unless the revenue due, together with the penalty or interest and the costs of arrest and of notice of demand, if any has issued, and the cost of the defaulter's subsistence during detention, is sooner paid.

(*2*) If, on the expiry of ten days, the amount due by the defaulter is not paid, then or, if the Deputy Commissioner deems fit, on any earlier day, the defaulter may be sent by the Deputy Commissioner with a warrant, in the form contained in the third schedule, for imprisonment in the civil jail of the district;

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XI—Realization of Land-revenue and other Revenue-demands.—Sections 126-134.)

Provided that no defaulter shall be detained in imprisonment for a longer period than one month.

Power of arrest by whom to be exercised.

126. The Commissioner may, with the sanction of the Resident, from time to time, declare by what officers the powers of arrest conferred by section 125 may be exercised, and may also fix the costs of arrest and the amount of subsistence-money to be paid by the Government to any defaulter under detention or imprisonment.

Forfeiture of Occupancy or Alienated Holding.

Forfeiture of occupancy or alienated holding for which arrear is due.

127. The Deputy Commissioner may also at his discretion declare the occupancy or alienated holding in respect of which an arrear of land-revenue is due, to be forfeited, either wholly or partially, and may dispose of the same as provided in section 59.

Attachment of alienated holdings consisting of entire villages or shares of villages.

Power to attach defaulter's village and take it under management.

128. If the alienated holding in respect of which an arrear is due, consists of an entire village or of a share of a village, and the adoption of any of the other processes hereinbefore specified is deemed inexpedient, the Deputy Commissioner may, with the previous sanction of the Commissioner, cause such village or share of a village to be attached and taken under the management of himself or any agent whom he may appoint in this behalf.

Lands of such village to revert free of incumbrances.

129. (1) The lands of any village or share of a village so attached shall revert to the Government unaffected by any acts of the superior holder or of any of the sharers, or by any charges or liabilities subsisting against such lands, or against such superior holder or sharers as are interested therein, so far as the public revenue is concerned, but without prejudice in other respects to the rights of individuals;

(2) The Deputy Commissioner or the agent appointed as aforesaid shall be entitled to manage the lands attached and to receive all rents and profits accruing therefrom, to the exclusion of the superior holder or any of the sharers thereof, until the Deputy Commissioner restores the said superior holder to the management thereof.

Application of surplus profits.

130. All surplus profits of the land so attached, beyond the cost of such attachment and management, including the payment of the current revenue and the cost of the introduction of a revenue-survey, if the same is introduced under the provisions of section 95, shall be applied in defraying the said arrear.

Restoration of village so attached and disposal of surplus receipts.

131. (1) The village or share of a village so attached shall be released from attachment and the management thereof shall be restored to the superior holder on the said superior holder's making an application to the Deputy Commissioner for such restoration at any time within twelve years from the fifteenth day of June next after the attachment,—

(a) if at the time that such application is made it appears that the arrear has been liquidated, or,

(b) if the said superior holder is willing to pay the balance, if any, still due by him, and does so within such period as the Deputy Commissioner may prescribe in this behalf.

Disposal of surplus receipts.

(2) The Deputy Commissioner shall make over to the superior holder the surplus receipts, if any, which have accrued in the year in which his application for restoration of the village or share of a village is made, after defraying arrears and costs; but such surplus receipts, if any, of previous years shall be at the disposal of the Government.

Village, etc., to vest in Government, if not redeemed within twelve years.

132. If no application is made for the restoration of a village or share of a village so attached within the said period of twelve years, or if, after such application has been made, the superior holder fails to pay the balance, if any, still due by him within the period prescribed by the Deputy Commissioner in this behalf, the said village or portion of a village shall thenceforward vest in Government free from all incumbrances created by the superior holder or any of the sharers or any of his or their predecessors in title, or in anywise subsisting as against such superior holder or any of the sharers, but without prejudice to the rights of the actual occupants of the soil.

Stay of Proceedings.

Stay of proceedings on security being given or on amount demanded being paid under protest.

133 (1) Any defaulter detained in custody or imprisoned shall forthwith be set at liberty, and the execution of any process shall at any time be stayed, on the defaulter's giving, before the Deputy Commissioner or other person nominated by him in this behalf, or if the defaulter is in jail, before the officer in charge of such jail, security in the form contained in the fourth schedule, satisfactory to the Deputy Commissioner or to such other person or officer.

(2) Any person against whom proceedings are taken under this Chapter, may pay the amount claimed under protest to the officer taking such proceedings, and upon such payment the proceedings shall be stayed.

Procedure in respect of Sales.

Procedure in effecting sales.

134. (1) When any sale of either moveable or immoveable property is ordered under the provisions of this Chapter or of section 56 or section 68, the Deputy Commissioner shall issue a proclamation, in the vernacular language of the district, of the intended sale, specifying the date, time and place of sale, the property to be sold, the amount for the

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XI.—Realization of Land-revenue and other Revenue-demands.-Sections 135-143.)

recovery of which the sale is ordered, and, in the case of moveable property, whether the sale is subject to confirmation or not, and, when land paying revenue to the Government is to be sold, the revenue assessed upon it, together with any other particulars he may think necessary.

(2) When the property to be sold is immoveable property other than the land in respect of which the arrear is due, or when the property is sold under section 68, the proclamation shall state that the right, title and interest of the defaulter or person dying intestate and without known heirs is alone to be sold under the provisions of section 123 or section 68, as the case may be, and shall specify the rights of other persons in the property so far as those rights are known, and, when the property to be sold is an occupancy or alienated holding in respect of which the arrear is due, shall recite the fact that the occupancy or alienated holding has been forfeited under section 56, and that it is sold freed from all tenures, incumbrances and rights created by the occupant or holder as provided by that section.

(3) When the property to be sold is an interest in a survey-number, other than the survey-number in respect of which the arrear is due, the proclamation shall also state that any occupant intending to claim a right of pre-emption must, on pain of forfeiting such right, give notice of his intention to the Deputy Commissioner on an office day before that fixed for the sale.

Proclamation of sales.

135. The proclamation shall, if the sale is of immoveable property be made by beat of drum at the head-quarters of the taluk and in the village in which the immoveable property is situated; and, if the sale is of moveable property, the proclamation shall be made in the village in which such property was seized, and in such other places as the Deputy Commissioner may direct.

Notification of sales.

136. (1) A copy of the proclamation of the intended sale of immoveable property and of the time and place thereof shall be affixed in each of the following places, namely, the office of the Deputy Commissioner, the office of the Tahsildar of the taluk in which the immoveable property is situated, the chauri or some other public place, if any, in the village in which it is situated, and the defaulter's dwelling-place.

(2) In the case of moveable property, a copy of the proclamation shall be affixed in the Tahsildar's office and in the chauri or some other public place in the village in which such property was seized.

(3) The Deputy Commissioner may also cause notice of any sale, whether of moveable or immoveable property, to be published in any other manner that he may deem fit.

Conduct of sales, time for the same and postponement thereof.

137. (1) Sales shall be made by auction by such persons as the Deputy Commissioner may appoint in this behalf.

(2) No such sale shall take place on a Sunday or other general holiday nor until after the expiration of at least thirty days in the case of immoveable property, or seven days in the case of moveable property, from the latest date on which any of the said copies shall have been affixed as required by the last foregoing section.

(3) Any such sale may from time to time be postponed for any sufficient reason.

Sale of perishable articles.

138. Notwithstanding anything contained in the three last foregoing sections, perishable articles shall be sold by auction with the least possible delay, in accordance with such orders as may from time to time be made by the Deputy Commissioner, either generally or specially, in that behalf.

When sale may be stayed.

139. If, at any time before the bidding at the auction is completed, the defaulter pays the arrear in respect of which the property has been proclaimed for sale, or proves to the satisfaction of the officer conducting the sale that he has already paid the same either to the person appointed under section 115 to receive payment of the land-revenue due or into the Government treasury, or furnishes security under section 133, the sale shall be stayed.

Sale of moveable property when liable to confirmation.

140. (1) Sales of perishable articles shall be at once finally concluded by the officers conducting such sales.

(2) All other sales of moveable property shall be finally concluded by the officers conducting such sales, or shall be subject to confirmation by such other officer as may be appointed in this behalf by general or special order of the Deputy Commissioner.

Mode of payment for moveabl property when sale is concluded at once.

141. When the sale of any moveable property is finally concluded by the officer conducting the same, the price of every lot shall be paid at the time of sale or as soon thereafter as the said officer shall direct, and in default of such payment the property shall forthwith be again put up and sold. On payment of the purchase-money the officer conducting the sale shall grant a receipt for the same, and the sale shall become absolute as against all persons whomsoever.

Mode of payment for moveable property when sale is subject to confirmation.

142. When the sale of any moveable property is subject to confirmation, the party declared to be the purchaser shall be required to deposit immediately twenty-five per centum of the amount of his bid, and in default of such deposit the property shall forthwith be again put up and sold. The full amount of purchase-money shall be paid by the purchaser before sunset of the first office day day after that on which he is informed of the sale having been confirmed. On payment of such full amount of the purchase-money the purchaser shall be granted a receipt for the same, and the sale shall become absolute as against all persons whomsoever.

Deposit by purchaser in case of sale of immoveable property.

143. (1) In all cases of sale of immoveable property, the party declared to be the purchaser shall be required to deposit immediately twenty-five per centum of the amount of his bid, and

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XI.—Realization of Land-revenue and other Revenue-demands.—Sections 144-155.)

in default of such deposit the property shall forthwith be again put up and sold.

(*2*) In the case of a survey-number or an interest in a survey-number, other than the survey-number in respect of which the arrear is due, the declaration shall be made subject to the provisions of section 214.

Purchase-money when to be paid.

144. The full amount of purchase-money shall be paid by the purchaser before sunset of the fifteenth day from that on which the sale of the immoveable property took place, or, if the said fifteenth day be a Sunday or other general holiday, then before sunset of the first office day after such fifteenth day.

Effect of default.

145. In default of payment within the prescribed period of the full amount of purchase-money, whether of moveable or immoveable property, the deposit, after defraying thereout the expenses of the sale, shall be forfeited to the Government, and the property shall be re-sold, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

Liability of purchaser for loss by re-sale.

146 (*1*) If the proceeds of the re-sale amount to less than the price bid by the defaulting purchaser, the difference shall be recoverable from him by the Deputy Commissioner as an arrear of land-revenue.

(*2*) In case the difference is not recovered, the loss may, if the Deputy Commissioner, with the previous sanction of the Commissioner, so directs, be made good to the owner of the property sold out of the deposit forfeited to the Government under the provisions of the last foregoing section.

Notification before re-sale.

147. Every re-sale of property in default of payment of the purchase-money or after postponement of the first sale shall, except when such re-sale takes place forthwith, be made after the issue of a fresh proclamation in the manner prescribed for original sales.

Application to set aside sale of immoveable property

148. (*1*) At any time within thirty days from the date of the sale of immoveable property, application may be made to the Deputy Commissioner to set aside the sale on the ground of some material irregularity or mistake or fraud in publishing or conducting the same; but, except as is otherwise in the next following section provided, no sale shall be set aside on the ground of any such irregularity or mistake, unless the applicant proves to the satisfaction of the Deputy Commissioner that he has sustained substantial injury by reason thereof.

(*2*) If the application is allowed, the Deputy Commissioner shall set aside the sale and direct a re-sale.

Order confirming or setting aside sale.

149. On the expiration of thirty days from the date of the sale, if no such application as is mentioned in the last foregoing section has been made or if such application has been made and rejected, the Deputy Commissioner shall make an order confirming the sale: Provided that, if the Deputy Commissioner has reason to think that the sale ought to be set aside notwithstanding that no such application has been made, or on grounds other than those alleged in any application which has been made and rejected, he may, after recording his reasons in writing, set aside the sale.

Refund of deposit or purchase-money when sale set aside.

150. Whenever the sale of any property is not confirmed or is set aside, the purchaser shall be entitled to receive back his deposit or his purchase-money, as the case may be.

On confirmation of sale, purchaser to be put in possession. Certificate of purchaser.

151. (*1*) After a sale of immoveable property has been confirmed in manner aforesaid, the Deputy Commissioner shall put the person declared to be the purchaser into possession and shall grant him a certificate to the effect that he has purchased the property to which the certificate refers.

(*2*) The certificate shall be deemed to be a valid transfer of property, but need not be registered as a conveyance.

Bar of suit against certified purchaser.

152. The certificate shall state the name of the person declared at the time of sale to be the actual purchaser; and no suit shall be brought in a Civil Court against the certified purchaser on the ground that the purchase was made on behalf of a person other than the certified purchaser, though by agreement the name of the certified purchaser was used.

Certificate to contain certain particulars.

153. The certificate shall state whether the property was forfeited under section 56 and sold for the recovery of an arrear due in respect thereof and freed of tenures, incumbrances and rights, or whether the right, title and interest of the defaulter or person dying intestate and without known heirs was alone sold under the provisions of section 68 or section 123, as the case may be.

Application of proceeds of sale.

154 (*1*) When any sale of moveable property under this Chapter has become absolute, and when any sale of immoveable property has been confirmed, the proceeds of the sale, including any sums realized under section 146, shall be applied to defraying the expenses of the sale, and to the payment of any arrears due to the Government by the defaulter on the date on which the sale became absolute or was confirmed, as the case may be, and recoverable under the provisions of this Chapter, whether the arrears are arrears of land-revenue or of sums recoverable as arrears of land-revenue, and the surplus, if any, shall be paid to the person whose property has been sold.

(*2*) The expenses of the sale shall be estimated at such rates and according to such rules as may from time to time be sanctioned by the Commissioner under the orders of the Resident.

Surplus not to be paid to creditors except under orders of Court.

155. The said surplus shall not, except under an order of a Civil Court, be payable to any creditor of the person whose property has been sold.

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter XI.—Realization of Land-revenue and other Revenue-demands.—Sections 156-158. Chapter XII.—Cesses.—Sections 159-160. Chapter XIII.—Registration and Record.—Section 161.)

156. The certified purchaser of any immoveable property shall be entitled to all rents and profits falling due in respect of the property after the date of the confirmation of the sale and be liable for all instalments of land-revenue falling due in respect thereof after that date.

Title and liabilities of purchaser.

157. If any claim is set up by a third person to moveable property attached under the provisions of this Chapter, the Deputy Commissioner shall admit or reject the claim on an inquiry held after reasonable notice. If the claim be admitted, wholly or partially, the property shall be dealt with accordingly. Except in so far as the claim is admitted, the property shall be sold and the title of the purchaser shall be good for all purposes, and the proceeds shall be disposed of as hereinbefore provided.

Claims to attached moveable property how to be disposed of.

Application of the Provisions of this Chapter.

158. (*1*) All sums due on account of land-revenue, all quit-rents, nazaranas, succession-duties, transfer-duties and forfeitures, and all cesses, profits from land, emoluments, fees, charges, premia, penalties, fines and costs payable or leviable under this Law or under any law, rule or order for the time being in force relating to land-revenue ;

Levy of miscellaneous revenue, and of sums due from contractors and sureties as arrears of land-revenue.

and all moneys due by any contractor for the farm of abkari-duties, or of any other duty or tax, or of any other item of revenue whatsoever and all specific pecuniary penalties to which any such contractor renders himself liable under the terms of his agreement ;

and also all sums declared by this Law or by any law, rule or order for the time being in force to be leviable as an assessment, or as a revenue-demand, or as an arrear of land-revenue ;

shall be recovered under the foregoing provisions of this Chapter.

(*2*) Every person who may have become a surety under any of the provisions of this Law, or for any such contractor as aforesaid, for any sum of money, shall, on failure to pay the amount, or any portion thereof for which he may have become liable under the terms of his security bond, be liable to be proceeded against under the provisions of this Chapter as if he were a defaulter in respect of an arrear of land-revenue.

(*3*) In the event of the resumption of any such farm as aforesaid, no person shall be entitled to credit for any payment which he may have advanced to the contractor.

CHAPTER XII.

CESSES.

159. (*1*) The cesses referred to in clauses (*a*), (*c*) and (*d*) of the preamble to the Berar Rural Boards Law, 1885, shall, unless and until the Governor General in Council shall otherwise direct, continue to be levied at the rates at which they are at present levied, namely :

Cesses.

UNALIENATED VILLAGES—

(*i*) in an unalienated village, at the rate of fifteen pies in the rupee on the assessment of each survey-number ;

ALIENATED VILLAGES—

(*ii*) in a village leased under any of the Waste-land Rules of 1865, 1876, 1879 or 1880, at the rate of two per cent. on the amount payable by the lessee as land-revenue under the terms of his lease ;

(*iii*) in any other alienated village, at the rate of two per cent. on the total of the assessments of all the survey-numbers in the village :

Provided that, with respect to any village referred to in clause (*ii*) or clause (*iii*), the Deputy Commissioner may levy an additional cess at the rate of one anna in the rupee on the total of the assessments of all the survey-numbers in the village in the event of the lessee or superior holder not making adequate arrangements for the maintenance of such jaglias as may in his opinion be necessary for the village.

(*2*) Assessment in this section includes the amount determined and registered as well as the amount fixed under section 88.

160. The cesses referred to in the last foregoing section shall be recovered—

By whom cesses are to be paid.

(*i*) in an unalienated village, from the registered occupants and holders of the survey-numbers ;

(*ii*) in a leased village, from the lessee ;

(*iii*) in any other alienated village, from the superior holder :

Provided that, in the case of an alienated village where an inferior holder or tenant has a higher right in any particular survey-number than the superior holder or is entitled under the provisions of this Law or any law, rule or order for the time being in force or by custom to hold conditionally on the payment of the assessment alone or is wholly or partially exempt from the payment of the revenue or rent, the lessee or superior holder shall be entitled to recover from the inferior holder or tenant such amount as the said inferior holder or tenant would have had to pay had he been the occupant or holder of similar land in an unalienated vil-

CHAPTER XIII.

REGISTRATION AND RECORD.

161. The officer in charge of a survey shall, on the occasion of making or revising a settlement of land-revenue, prepare a register, to be called "the settlement register," showing the area and assessment of each survey-number, together with the name of the registered occupant of such survey-number, and such other records containing such other information as may from time to time be prescribed in this behalf by the Resident. He shall also record similar particulars in regard to recognized divisions of survey-numbers.

Preparation of statistical and fiscal records.

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XIII.—Registration and Record.—Sections 162-165. Chapter XIV.—Village-cesses.—Sections 166-168. Chapter XV.—Jurisdiction of Civil Courts in Matters connected with the Land-revenue—Sections 169-171.)

Deputy Commissioner to keep the survey-records.

162. The Deputy Commissioner shall keep the settlement register and the other records (if any) as aforesaid, which register and other records (if any) shall, where the officer in charge of the survey is not the Deputy Commissioner, be transferred by such officer to the Deputy Commissioner on the completion of the settlement of the district, or at such other time as the Resident may direct. The Deputy Commissioner shall cause the village records and accounts to be prepared in accordance with the settlement-register and the other records (if any) as aforesaid. He shall not make in the settlement-register or in the other records (if any) as aforesaid any alterations or corrections other than those provided for by the next following section, but shall cause all changes that may take place in respect of the entries and anything that may affect the rights or interests (if any) therein recorded, together with such other information as may from time to time be prescribed by the Resident, to be registered in the village records and accounts.

Survey-officer or Deputy Commissioner to correct clerical and admitted errors in the settlement-register, and inquire into, and pass orders on, certain applications for mutation of names.

163. (1) The officer in charge of a survey or, if the records have been transferred to the Deputy Commissioner, the Deputy Commissioner shall at any time correct, or cause to be corrected, any clerical errors and any errors which the parties interested admit to have been made in the settlement or other records so prepared.

(2) He shall also receive and inquire into all applications, made to him at any time within two years after the introduction of the survey-settlement, for the correction of any wrong entry of the name of the registered occupant of any portion of land in the said register, and, if satisfied that an error has been made, whether through fraud, collusion, oversight or otherwise, shall correct, or cause the same to be corrected, notwithstanding that all the parties interested do not admit the error; but he shall not receive any such application at any time after two years from the date of the introduction of the survey-settlement, unless good cause be shown to his satisfaction for the delay in making such application, and no such correction of the said register shall be made in consequence of any application made after the said period of two years, except with the previous sanction of the Resident.

Register of alienated lands.

164. A register shall also be kept by the Deputy Commissioner, in such form as may from time to time be prescribed by the Resident, of all lands, the alienation of which has been established, or recognized under the provisions of any law for the time being in force; and, when it is shown to the satisfaction of the Deputy Commissioner that any sanad relating to such alienated lands has been permanently lost or destroyed, he may, subject to any rules and the payment of any fees prescribed by the Resident under section 215, grant to any person whom he may deem entitled to the same, a certified extract from the said register, which shall be endorsed by the Deputy Commissioner to the effect that it has been issued in lieu of the sanad said to have been lost or destroyed, and shall be deemed to be as valid proof of title as the said sanad.

Certain superior holders to keep records, etc.

165. Superior holders of alienated villages which have been surveyed shall be bound to keep village records and accounts in such form as may be from time to time prescribed by instructions given under section 216 and to furnish correct copies thereof to the Deputy Commissioner periodically on such dates as may be fixed in this behalf.

CHAPTER XIV.

VILLAGE-CESSES.

Unauthorized cesses not to be levied.

166. No village-cess shall be collected without the express permission of the Resident.

Resident may impose conditions on the levy.

167. The Resident, in granting permission for the collection of any village-cess, may impose on the collection such conditions as to police and other establishments connected with the village market or fair in, or on account of, which the cess is levied, as he thinks fit.

The Resident's decision to be conclusive in certain cases.

168. In the case of a question arising as to whether any cess, contribution or due levied in a village is or is not a village-cess, the Resident may decide the question, and his decision shall be conclusive.

CHAPTER XV.

JURISDICTION OF CIVIL COURTS IN MATTERS CONNECTED WITH THE LAND-REVENUE.

Application of this Chapter.

169. Nothing in this Chapter shall affect any of the provisions of the Pensions Act, 1871, or any suit instituted before the commencement of this Law.

Suits for land to be brought in Civil Courts.

170. All suits in regard to tenures and the nature and extent of the interest and advantage which in virtue thereof should be enjoyed by the parties concerned, and all suits in which the right to possession of land is claimed, shall be brought in the Civil Courts.

Bar of certain suits.

171. Subject to the exceptions hereinafter appearing, no suit shall be brought in any Civil Court in respect of any of the following matters, namely:—

(a) claims against the Government relating to any property appertaining to the office of any hereditary officer or servant;

(b) claims against the Government to perform the duties of any such officer or servant or in respect of any injury* caused by exclusion from such office or service;

(c) objections to any order passed under rules made under section 217;

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter XV.—Jurisdiction of Civil Courts in Matters connected with the Land-revenue.—Section 172.)

(*d*) claims against the Government relating to lands held under treaty, or to lands granted or held on political tenure, or to lands declared by the Government, or by any officer duly authorized in that behalf, to be held for service ;

(*e*) objections—

(*1*) to the amount or incidence of any assessment of land-revenue authorized by the Government, or

(*2*) to the mode of assessment or the principle on which such assessment is fixed, or

(*3*) to the validity or effect of the notification of survey or settlement, or of any notification determining the period of settlement ;

(*f*) claims connected with, or arising out of, any proceedings for the realization of land-revenue, or to set aside, on account of irregularity or mistake or on any other ground except fraud, sales for arrears of land-revenue ;

(*g*) claims against the Government-

(*1*) to be entered in the survey, settlement or revenue records or village-papers as liable for land-revenue, or as superior holder, inferior holder, occupant or tenant, or

(*2*) to have any entry made in any survey, settlement or revenue record, or

(*3*) to have any such entry omitted or amended ;

(*h*) the distribution of land or the allotment of land-revenue on the partition of any land under the provisions of this Law or of any law, rule or order for the time being in force ;

(*i*) claims against the Government—

(*1*) to hold land wholly or partially free from payment of land-revenue, or

(*2*) to receive payments charged on or payable out of the land-revenue, or

(*3*) to set aside any cess or rate authorized by the Government under the provisions of this Law or of any law, rule or order for the time being in force, or

(*4*) respecting the occupation of waste or vacant land belonging to the Government ;

(*j*) claims regarding boundaries fixed under the provisions of this Law or of any law, rule or order for the time being in force, or to set aside any order passed by a competent officer under any such law with regard to boundary-marks :

Provided that, if any person claims to hold land wholly or in part exempt from payment of land-revenue under—

(*1*) any law, rule or order for the time being in force expressly creating an exemption in favour of an individual or of any class of persons, or expressly confirming such an exemption on the ground of its being shown in a public record, or of its having existed for a specified term of years, or

(*2*) any written grant by the British Government expressly creating or confirming such exemption, or

(*3*) a judgment of a Court of law, or an adjudication duly passed by a competent officer under the Inam Rules, 1879, declaring the particular property in dispute to be exempt,

a suit in respect of such claim may be brought in any Civil Court of competent jurisdiction.

Illustrations to Clause (1) of Proviso.

(*1*) It is enacted that, in the event of the proprietary right in lands, the property of the Government, being transferred to individuals, they shall be permitted to hold the lands for ever at the assessment at which they are transferred. The proprietary right in certain lands is transferred to A at an assessment of one hundred rupees. An exemption from higher assessment not before existing is expressly created in favour of A by enactment, and he may seek relief in the Civil Court against over-assessment.

(*2*) It is enacted that, when a specific limit to assessment has been established and preserved, the assessment shall not exceed such specific limit. A is the owner of land worth one hundred rupees for assessment. He claims to be assessed at fifty rupees only on the strength of a course of dealing with him and his predecessor under which his land has not been more highly assessed. There is no exemption not before existing created by enactment, and A cannot bring a suit to enforce his claim in a Civil Court.

(*3*) It is enacted that land-revenue shall not be leviable from any land held and entered in the land-registers as exempt. A claims to hold certain land as exempt on the ground that it has been so held by him, and is so entered in the land-register. This is an exemption expressly confirmed by enactment on the ground of its being shown in a public record, and A may bring a suit to enforce his claim in a Civil Court.

(*4*) It is enacted that the Deputy Commissioner shall confirm existing exemptions of all lands shown in certain maps to be exempt. A claims exemption alleging that his land is shown in the maps to be exempt. A may bring a suit to enforce his claim in a Civil Court.

(*5*) It is enacted that assessment shall be fixed with reference to certain considerations, and not with reference to others. This is not an enactment creating an exemption in favour of any individual or class, and no suit in respect of any objection to an assessment under such an enactment may be brought in a Civil Court.

172. Nothing in the last foregoing section shall be held to prevent the following suits from being brought in the Civil Courts, namely :—

Saving of certain suits.

(*a*) suits against the Government to contest the amount claimed, or paid under protest or recovered, as land-revenue on the ground that such amount is in excess of the amount authorized in that behalf by the Government, or that such amount had previous to such claim, payment or recovery, been satisfied in whole or in part, or that the plaintiff or the person whom he represents is not the person liable for such amount ;

(*b*) suits between private parties for the purpose of establishing any private right although it may be affected by any entry in any survey, settlement or revenue, record, or in any village-papers ;

(*c*) suits between superior holders or occupants and inferior holders, or tenants, regarding the dues claimed or recovered from the latter ;

and nothing in clause (*j*) of the said section shall be held to prevent suits, other than

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XV.—Jurisdiction of Civil Courts in Matters connected with the Land-revenue.—Sections 173-177. Chapter XVI.—Procedure of Revenue-officers.—Sections 178-183)

suits against the Government, for possession of land from being brought in the Civil Courts.

Bar of certain suits against revenue-officers.

173. No Revenue-officer shall be liable to be sued in any Civil Court for any act done, or ordered to be done, by him as such in pursuance, or execution, or intended execution, of the provisions of this Law or of any law, rule or order for the time being in force.

Punishment or prosecution of revenue-officers no bar to civil remedies.

174. Nothing in this Law or in any law, rule or order for the time being in force which authorizes the punishment departmentally of any Revenue-officer for any offence or breach of duty, or which sanctions his prosecution criminally for such offence or breach, shall be held to bar any remedy which may be had in the Civil Courts against such officer.

Suits not to be entertained unless plaintiff has exhausted right of appeal.

175. No suit shall be brought in any Civil Court against the Government on account of any act or omission of any Revenue officer unless the plaintiff first proves that, previously to bringing his suit, he has presented all such appeals allowed by the law for the time being in force as, within the period of limitation allowed for bringing such suit, it was possible to present.

Meaning to be assigned to the word "conclusive."

176. No suit shall be brought in any Civil Court regarding a matter in respect of which the decision of the Deputy Commissioner or Resident is declared to be conclusive under any of the provisions of this Law.

Power of Civil Judge to refer questions of jurisdiction to the Judicial Commissioner.

177. (1) If in any suit instituted, or in any appeal presented, in a Civil Court the Judge doubts whether he is precluded by this Law from taking cognizance of the suit or appeal, he may refer the matter to the Judicial Commissioner.

(2) The Judicial Commissioner may order the Judge making the reference to proceed with the suit or appeal or may make such other order as may appear proper in the circumstances.

CHAPTER XVI.

PROCEDURE OF REVENUE-OFFICERS.

Power to make rules as to procedure.

178. (1) The Resident may from time to time make, and from time to time vary or rescind, rules, consistent with this Law, for regulating the procedure of Revenue-officers under this Law in cases in which a procedure is not prescribed by this Law, and for otherwise carrying into effect the objects of this Law.

(2) In particular the rules may provide, among other matters, for—

(a) the mode of enforcing orders for the delivery of possession of immoveable property, and the eviction of persons wrongfully in possession of land;

(b) the rates at which diet-money should be paid in cases in which the attendance of witnesses is desired by a party;

(c) the payment of diet-money on behalf of the Government in cases in which such payment may appear advisable;

(d) the classes of cases in which costs may be given and apportioned, and the scale on which they may be allowed;

(e) the levy of process-fees in cases in which the attendance of witnesses is desired by a party, the rates at which such fees are to be levied, and the service of processes;

(f) the inspection of cases decided by and pending before Revenue-officers, and the grant of copies in such cases, and the fees to be levied for inspections, searches and copies;

(g) the seals to be used by Revenue-officers;

(h) the mode, form and manner in which appeals shall be drawn up and presented; and

(i) the licensing of petition-writers and the regulation of their conduct.

(3) Rules made under clause (a) of sub-section (2) may confer on Revenue officers all or any of the powers in regard to contempts, resistance and the like, which a Civil Court may exercise in the execution of a decree whereby it has adjudged delivery of possession of immoveable property.

Reference for report.

179. Subject to the rules under section 178, a Revenue-officer may refer any case which he is empowered to dispose of under this Law, to another Revenue officer, for investigation and report, and may decide the case upon the report of such other Revenue-officer.

Costs.

180. Subject to any rules made under section 178, a Revenue-officer may give and apportion the costs of any proceeding in any manner he may think fit; but, if he orders that the costs of any proceeding shall not follow the event, he shall record his reasons for such order.

Persons by whom appearances and applications may be made before and to revenue-officers.

181. Subject to any made rules under section 178, appearances before a Revenue-officer and applications to, and acts to be done before, him under this Law may be made or done—

(a) by the parties themselves, or

(b) by their recognized agents, or,

(c) with the permission of such officer, by any legal practitioner:

Provided that the employment of a recognized agent or legal practitioner shall not excuse the personal attendance of a party to any proceeding in any case in which personal attendance is specially required by an order of such officer.

Recognized agents.

182. For the purposes of the last foregoing section, recognized agents shall be such persons as the Resident may, by notification, declare in this behalf.

Fees of legal practitioner not to be allowed.

183. Subject to any rules made under section 178, the fees of a legal practitioner shall not be allowed as costs in any proceeding before a Revenue-officer under this Law, unless that officer considers, for reasons to be recorded by him in writing, that such fees should be allowed.

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter XVI.—Procedure of Revenue-officers.—Sections 184-193)

Subordination of revenue officers.

184. In all official acts and proceedings a Revenue-officer shall, in the absence of any express provision of law to the contrary, be subject, as to the place, time and manner of performing his duties, to the direction and control of the officer to whom he is subordinate.

Holidays.

185. (*1*) The Commissioner, with the approval of the Resident, shall publish in the Hyderabad Residency Orders, before the commencement of each calendar year, a list of days to be observed as holidays by all or any Revenue-officers.

(*2*) A proceeding had before a Revenue-officer on a day specified in a list published under sub-section (*1*) as a day to be observed by him as a holiday shall not be invalid by reason only of its having been had on that day.

Power to summon persons to give evidence and produce documents.

186. (*1*) Subject to any rules made under section 178, every Revenue-officer not being lower in rank than a Tahsildar's chief subordinate, shall have power to summon any person whose attendance he considers necessary, either to be examined as a party, or to give evidence as a witness, or to produce documents for the purposes of any inquiry which such officer is legally empowered to make.

(*2*) For the purpose of enforcing the attendance of persons summoned, or of compelling the production of documents ordered to be produced, every such officer shall have the same powers as are conferred upon a Civil Court by the Code
XIV of 1882. of Civil Procedure.

(*3*) A summons to produce documents may be for the production of certain specified documents or for the production of all documents of a certain description in the possession of the person summoned.

(*4*) Every person summoned under sub-section (*1*) shall be bound to attend, either in person or by an authorized agent, as the officer summoning him may direct:

Provided that the exemptions provided for by sections 640 and 641 of the Code of Civil
XIV of 1882. Procedure shall be applicable to requisitions for attendance under this section.

(*5*) Every person summoned under sub-section (*1*) shall be bound to state the truth upon any subject respecting which he is examined and to make statements and produce such documents and other things as may be required.

Summons how to be prepared and how served.

187. (*1*) Subject to any rules made under section 178, every summons shall be in writing, in duplicate, and shall state the purpose for which it is issued and shall be signed by the officer issuing it, and, if he has a seal, shall also bear his seal.

(*2*) Every such summons shall be served by tendering or delivering a copy of it to the person summoned, or, if he cannot be found, by affixing a copy of it to some conspicuous part of his usual residence.

(*3*) If the usual residence of a person so summoned is in another district, the summons may be sent by post to the Deputy Commissioner of that district, who shall cause it to be served in accordance with sub-section (*2*).

Notice how to be served.

188. (*1*) Subject to any rules made under section 178, every notice under this Law, unless it is otherwise expressly provided, shall be served either by tendering or delivering a copy thereof to the person on whom it is to be served or to his agent, if any, or by affixing a copy thereof to some conspicuous place on the land, if any, to which such notice refers.

(*2*) No such notice shall be deemed void on account of any error in the name or designation of any person referred to therein, unless such error has produced substantial injustice.

Procedure for procuring attendance of witnesses.

189. If any party desires the attendance of a witness, he shall follow the procedure prescribed by section 160 of the Code XIV of Civil Procedure.

Inquiries how to be conducted.

190. Every inquiry which this Law requires to be made, or which any Revenue-officer may on any occasion deem it necessary to make in the execution of his lawful duties, shall be conducted according to such rules applicable thereto, whether general or special, as may have been prescribed by the Resident or an authority superior to the officer conducting such inquiry and, except in so far as controlled by such rules, according to the discretion of the officer in such way as may seem to him best calculated for the ascertainment of all essential facts and the furtherance of the public good.

Copies and translations, &c., how to be obtained.

191. Subject to any rules made under section 178, authenticated copies and translations of decisions, orders, and the reasons therefor, and of exhibits, shall in all cases be furnished to the parties, and original documents used as evidence shall, unless impounded under the provisions of any law, rule or order for the time being in force or detained for reasons to be recorded in writing, be restored to the persons who produced them, or to persons claiming under them, on due application being made for the same, subject to the payment of Court-fees (if any) leviable and of such charges for paper, copying and examination as may, from time to time, be authorized by the Resident.

Arrest of a defaulter to be made upon a warrant.

192. Whenever it is provided by this Law that a defaulter or any other person may be arrested, such arrest shall be made upon a warrant issued by an officer competent to direct the arrest.

Power of revenue-officer to enter upon any lands or premises for purposes of measurement, &c.

193. Subject to any rules made under section 178, any Revenue-officer may at any time, and from time to time, when necessary, for the purposes of measurement, the fixing or inspecting of boundaries, the classification of land or i[illegible]ssment, or for any other purpose connecte[illegible] the lawful exercise of his office under the [illegible]s of this Law or of any other law, rule [illegible] for the time being in force relating to land-revenue, enter lands or premises,

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XVII.—Appeals and Revision.—Sections 194-203. Chapter XVIII.—Of Pre-emption.—Sections 204-206.)

whether belonging to the Government or to private individuals and whether fully assessed to the land-revenue or wholly or partially exempt from the same :

Provided that no building used as a human dwelling and no private enclosure appertaining thereto shall be entered, unless with the consent of the occupier thereof, without a notice having been served at the said building not less than twenty-four hours before such entry ; and

Provided also, that, in the case of buildings of all descriptions, due regard shall be paid to the social and religious prejudices of the occupiers.

CHAPTER XVII.

APPEALS AND REVISION.

Appeal to lie from any order passed by a revenue-officer to his superior.

194. In the absence of any express provision of this Law or of any other law for the time being in force to the contrary, an appeal shall lie from every decision or order passed by a Revenue-officer under this Law or under other law for the time being in force to that officer's immediate superior, whether such decision or order has itself been passed on appeal from a subordinate officer's decision or order or not.

Bar to third appeals to the Resident.

195. An appeal shall lie to the Resident from every decision or order passed by the Commissioner, other than a decision or order passed by the Commissioner on appeal from an appellate decision or order.

Periods within which appeals must be brought.

196. (*1*) No appeal shall be brought after the expiration of forty-five days after the date of the decision or order complained of, if such decision or order has been passed by an officer inferior in rank to a Deputy Commissioner, or after the expiration of ninety days in any other case.

(*2*) In computing the above periods the time required to obtain a copy of the decision or order appealed against shall be excluded.

Admission of appeal after period of limitation.

197. (*1*) Any appeal under this Chapter may be admitted after the period of limitation prescribed therefor, if the appellant satisfies the officer, or the Resident, to whom he appeals, that he had sufficient cause for not presenting the appeal within such period.

(*2*) No appeal shall lie against an order passed under this section admitting an appeal.

Provision where last day for appeal falls on a Sunday or holiday.

198. Whenever the last day of any period, provided in this Chapter for the presentation of an appeal, falls on a Sunday or other holiday, the day next following such holiday shall be deemed to be such last day.

Copy of order to accompany petition of appeal.

199. Every petition of appeal shall be accompanied by the decision or order appealed against or by an authenticated copy of the same.

Powers of appellate authority.

200. The appellate authority may reverse, modify or confirm the decision or order appealed against, or may direct the officer who gave the decision or passed the order, to make such further investigation, or to take such additional evidence, as such authority may think necessary, or may itself take such additional evidence.

Power to suspend execution pending appeal.

201. In any case in which an appeal from a decision or order lies, the appellate authority may, pending the disposal of the appeal (if any) preferred, direct the execution of the decision or order to be suspended.

Power of the Resident and of certain revenue-officers to call for and examine records and proceedings and pass orders thereon.

202. (*1*) The Resident and every Revenue-officer not inferior in rank to the Deputy Commissioner, may call for and examine the record of any case pending before or disposed of by any Revenue-officer subordinate to him, for the purpose of satisfying himself as to the legality or propriety of any decision or order passed, and as to the regularity of the proceedings of such officer.

(*2*) If in any case it appears to the Resident, or to such officer aforesaid, that the proceeding taken, decision passed or order made should be modified or reversed, he may pass such order thereon as he deems fit :

(*3*) Provided that no order shall be passed under this section modifying or reversing any proceeding, decision or order of a Revenue-officer affecting any question of right between private persons without an opportunity of being heard being given to those persons.

Rules as to decisions or orders expressly made final.

203. Wherever in this Law it is declared that a decision or order shall be final, such expression shall be deemed to mean that no appeal shall lie from such decision or order.

CHAPTER XVIII.

OF PRE-EMPTION.

Application of Chapter.

204. Nothing in this Chapter shall apply to land appropriated for building-sites.

The right of pre-emption.

205 When the interest, or any part of the interest, of a co-occupant in any survey-number is transferred by sale, foreclosure of mortgage or relinquishment in favour of a specified person for valuable consideration, every other co-occupant in the same survey-number shall have a right of pre-emption.

Notice to be given by co-occupant proposing to sell or relinquish.

206. (*1*) Whenever a co-occupant in any survey-number proposes to sell or to relinquish in favour of a specified person for valuable consideration, the whole or any portion of his interest in the survey-number, or when a mortgagee forecloses a mortgage upon the whole or any portion of the interest of a co-occupant in any survey-number, the

The Hyderabad Assigned Districts Land-revenue Code, 1896.

(Chapter XVIII.—Of Pre-emption.—Sections 207-213.)

co-occupant or mortgagee, as the case may be, shall give notice to all other co-occupants of the survey-number of the price at which he is willing to sell, or the amount due, as the case may be.

(2) Such notice shall be given through the Tahsildar, and shall be deemed to have been sufficiently served if it be posted at the chauri or some other public place, and proclaimed by beat of drum, in the village in which the survey-number is situated.

Loss of right in case of sale or relinquishment.

207. Every co-occupant having a right of pre-emption in respect of any interest in a survey-number to be sold or to be relinquished in favour of a specified person for valuable consideration shall lose such right, unless within two months from the date of the service of the notice he or his agent ddposits the price aforesaid with the Tahsildar for payment to the person so proposing to sell or relinquish.

Loss of right in case of foreclosure.

208. (1) When the right of pre-emption arises in respect of the foreclosure of a mortgage, any co-occupant entitled to such right may, at any time within two months after the service of the notice required by section 206, deposit with the Tahsildar the amount specified in such notice for payment to the mortgagee or his successor in title, and shall thereupon acquire a right to purchase the property.

(2) On completion of the purchase, the person exercising the right of pre-emption shall be bound to pay to the mortgagee or his successor in title the amount specified in such notice, together with interest on the principal sum secured by the mortgage, at the rate specified by the instrument of mortgage, for any time which has elapsed since the date of the notice, and any additional costs which may have been properly incurred by the mortgagee or his successor in title.

Priorities in pre-emption.

209. (1) When the right of pre-emption is claimed by more than one co-occupant, the prior right to purchase, redeem or obtain by relinquishment belongs,—

(1) if the interest sold, mortgaged or relinquished is a portion of a recognized division of a survey-number, to the co-occupant in the recognized division who is most nearly related to the vendor, mortgagor or transferor, or, if no co-occupant is related to him, to the co-occupant who has the largest interest in the recognized division;

(2) if the interest sold, mortgaged or relinquished is not a portion of a recognized division of a survey-number, to the co-occupant in the survey-number who is most nearly related to the vendor, mortgagor or transferor, or, if no co-occupant is related to him, to the co-occupant who has the largest interest in the survey-number.

(3) If two or more co-occupants are equally entitled to the right, the person to exercise it shall be determined by lot.

No pre-emption against co-occupants.

210. Nothing contained in section 205 shall be held to give a right of pre-emption to other co-occupants when a co-occupant sells, transfers or mortgages his interest or any portion of his interest in the occupancy to any person who is already a co occupant in the survey-number.

Mode of enforcing the right.

211. (1) Every co-occupant having a right of pre-emption may bring a suit in the Civil Court to enforce such right on any of the following grounds, namely:—

(a) that no due notice was given as required by section 206;

(b) that deposit has been made in the manner required by section 207 or section 208 as the case may be;

(c) in the case of a sale or relinquishment for valuable consideration, that the price stated in the notice was not fixed in good faith;

(d) in the case of a mortgage, that the amount claimed by the mortgagee was not really due on the footing of the mortgage and was not claimed in good faith, and that it exceeds the fair market-value of the property mortgaged.

(2) If, in the case of a sale or relinquishment for valuable consideration, the Court finds that the price was not fixed in good faith, the Court shall fix such price as appears to it to be the fair market-value of the interest sold or relinquished.

(3) If, in the case of a mortgage, the Court finds that the amount claimed by the mortgagee was not really due on the footing of the mortgage, that it was not claimed in good faith and that it exceeds the fair market-value of the property mortgaged, the amount to be paid to the mortgagee shall not exceed what the Court finds to be such market-value.

Tahsildar to offer a recognized division relinquished to the other co-occupants in the survey-number.

212. When a recognized division of a survey-number is absolutely relinquished under the provisions of section 58, the Tahsildar shall offer the occupancy so relinquished to the other occupants of the survey-number, and for this purpose shall issue a notice to such co-occupants. Such notice shall be deemed to be sufficiently served if it be posted at the chauri or some other public place in the village in which the survey-number is situated. In the case of competition among such co-occupants, the Tahsildar shall sell the right of occupation to the highest bidder amongst them.

Loss of right in regard to property sold for arrears or under section 68.

213. Every co-occupant having a right of pre-emption in respect of any interest in a survey-number which it is proposed to sell for the realization of arrears of revenue, or under the provisions of section 68, shall forfeit such right, unless he gives notice to the Deputy Commissioner of his intention to exercise the right on an office day before that fixed for the sale.

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XVIII.—Of Pre-emption.—Section 214. Chapter XIX.—Miscellaneous.—Sections 215-220.)

214. (1) At any time before the close of the day on which the sale of the interest in respect of which the notice required by the last foregoing section has been given, takes place, the co-occupant who has given the notice may, on payment to the officer conducting the sale of a deposit of twenty-five per centum on the highest bid made at the sale, claim to take the property at that bid.

Exercise of right of pre-emption at such sales.

(2) If notice has been given, and deposit and claim are made by more than one co-occupant, their priority shall be decided in the manner prescribed by section 209

(3) If the right is not disputed and there is only one claimant, that claimant shall be declared purchaser.

(4) If the right is disputed or if there is more than one claimant, the Deputy Commissioner shall inquire into and decide the dispute and declare the purchaser, and his decision and declaration shall be final.

CHAPTER XIX.

MISCELLANEOUS.

215. Subject to such rules and the payment of such fees as the Resident may from time to time prescribe in this behalf, all registers, maps, survey-records, village-records and village-accounts which have been prepared or are required to be prepared or kept by this Law or any rule thereunder or by any law, rule or order for the time being in force, shall be open to the inspection of the public at reasonable hours, and certified extracts from such registers, maps, records and accounts, or certified copies thereof, shall be given to all persons applying for the same.

Maps, land-registers and village-accounts open to inspection.

216. (1) Subject to any express provision in this Law, the Resident may give instructions, which shall be either general or applicable to any particular case,—

Matters to be dealt with by executive instructions of Resident.

(a) determining the qualifications to be required of all members of establishments appointed under section 20;

(b) regulating the power of fining, reducing, suspending and dismissing Revenue-officers, under section 32;

(c) prescribing the purposes to which land liable to the payment of land-revenue may be appropriated, under section 52;

(d) for the disposal of forfeited occupancies or alienated holdings, under section 56;

(e) regulating the system and manner of occupying unalienated land, under Chapter VI;

(f) fixing the maximum amount of penalty leviable under section 59 when land which has been unauthorizedly occupied is appropriated to any non agricultural purpose, and regulating the levy of premia under section 63 and the levy of penalties under section 64;

(g) regulating the preparation of revenue, survey and settlement records and the form of the settlement registers and other records prescribed in section 161;

(h) regulating the forms and preparation of village records and accounts, and the registration therein of such changes as are referred to in section 162.

(i) permitting and regulating the partition of interest in land, carrying out such partition and giving any directions consequent thereon;

(j) regulating the appointment, dismissal, pay and employment of jaglias and village-mahars; and

(k) generally for the guidance and control of Revenue-officers and for the guidance of all persons in matters connected with the enforcement of this Law, or in cases not expressly provided for therein.

(2) Instructions under clause (h) of sub-section (1) may provide among other matters for—

(i) the information to be furnished and the assistance to be rendered in order to facilitate the collection of information for the preparation of village records and accounts by persons acquiring rights in land, by superior holders of alienated villages and by the public generally;

(ii) the penalties for neglect to furnish and render such information and assistance;

(iii) the fees to be charged on entries in such records and the persons by whom they are to be paid; and

(iv) the recovery of the penalties and fees last aforesaid.

217. (1) The Resident may from time to time make, and from time to time vary or rescind, rules for the settlement of disputes between village mahars and the cultivators by whom they are maintained.

Power to make rules for settlement of disputes regarding mahars' dues.

(2) Such rules may provide, among other matters, for the realization of such sums as may be found due.

(3) Until such rules are made, the rules contained in the Code of Non-Judicial Circulars, Volume III, Chapter III, C. B. Circular No. 8, shall be considered to be rules under this section and to have the force of law.

218. All rules made under section 178 or section 217 shall be published in the Hyderabad Residency Orders and when so published shall, until cancelled or amended, have the force of law.

Publication of certain rules.

219. The Resident shall, in all matters connected with land-revenue, be subject to the control of the Governor General in Council, and shall be bound to obey the instructions and orders of the Governor General in Council in all cases whatsoever.

Control by the Governor General in Council.

220. (1) Save as is otherwise provided in section 95 and hereinafter in this section, the provisions of Chapters VIII to X shall not be applied to any alienated village,

Chapters VIII to X how far applicable to alienated village.

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(Chapter XIX.—Miscellaneous.—Sections 221-225.)
(The First Schedule.—Enactments repealed.)

except for the purpose of fixing the boundaries of any such village, of deciding any disputes relating thereto and of determining and registering the proper full assessment on all lands included therein, as provided in section 88, sub-section (3).

(2) But the provisions of the said Chapters shall be applicable to—

(a) all unalienated lands situated within the limits of an alienated village;

(b) villages of which a definite share is alienated, but of which the remaining share is unalienated;

(c) alienated villages, in which the holders are entitled to a certain amount of the revenue and the Government to the rest.

(3) And the Resident may, on an application in writing being made by the holder of any alienated village to that effect, authorize the extension of all or any of the provisions of the said Chapters to such village.

Occupants in alienated villages.

221. When a survey-settlement has been introduced, under the provisions of the last foregoing section or of any law, rule or order for the time being in force, into an alienated village, the holders of all lands to which such settlement extends, shall have the same rights and be affected by the same responsibilities in respect of the lands in their occupation as occupants in unalienated villages have, or are affected by, under the provisions of this Law, and all the provisions of this Law relating to occupants and registered occupants shall be applicable, so far as may be, to them.

Construction of this Law.

222. Nothing in this Law which applies in terms to unalienated land or to the holders of unalienated land only, shall be deemed, save in so far as may be expressly provided to the contrary, to affect alienated land or the rights of holders of alienated land or of the Government in respect of any such land, and no presumption shall be deemed to arise either in favour, or to the prejudice, of any holder of alienated land from any provision of this Law in terms relating to unalienated land only.

Title of certain classes of inferior holders and tenants to hold at favourable rates.

223. An inferior holder or tenant who has personally or through his predecessors in title held land in an alienated village or holding from a period anterior to the alienation, shall be entitled to hold that land subject to the payment of the assessment on the land determined and registered under section, 88 sub-section (3), and free of any other charge on account of rent.

Sections 69 and 71 to 75 to apply to holders of alienated lands.

224. The provisions of sections 69, 71, 72, 73, 74 and 75 shall apply, as far as may be, to holders of alienated lands.

Village-land under Waste-land Rules not partible during currency of lease.

225. Village-land held under the Waste-land Rules of 1865, 1876, 1879 or 1880 shall not be partible during the currency of the lease.

THE FIRST SCHEDULE.

ENACTMENTS REPEALED.

(*See section 2.*)

Number and year.	Subject.	Extent of repeal.
PART I.		
Acts of the Governor General in Council.		
X of 1859, sections 32 to 36 (both inclusive), 38 to 75 (both inclusive), 78, 82 to 104 (both inclusive), 112 to 152 (both inclusive), 155 to 162 (both inclusive), as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No. 212, dated the 24th October, 1873.	Rent ...	The whole.
VII of 1870, as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No. 212, dated the 24th October, 1873.	Court-fees ...	Section 20 so far as it relates to Revenue Courts, and the whole of section 25.
III of 1846, sections 1, 5 and 6, as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No. 212, dated the 24th October, 1873.	Boundary-marks	The whole.
XII of 1850, as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No 212, dated the 24th October 1873.	Public Accountants.	The whole so far as it relates to Revenue-officers.
PART II.		
Acts of the Governor of Bombay in Council.		
of 1865, sections 2, 10 to 14 (both inclusive), 16 to 24 (both inclusive), 46 and 47, as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No. 212, dated the 24th October, 1873.	Survey and Demarcation.	The whole.

The Hyderabad Assigned Districts Land-revenue Code, 1896.
(The First Schedule.—Enactments repealed. The Second Schedule.—Form of Bond to be required under Section 21. Form of Security to be subjoined to the Bond of the Principal.)

THE FIRST SCHEDULE—*contd.*

ENACTMENTS REPEALED—*contd.*

Number and year.	Subject.	Extent of repeal.
I of 1865, section 35, as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No. 49-J., dated the 7th March, 1879.	Survey and Demarcation.	The whole.
IV of 1868. sections 16, 17, 19 and 20, as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No. 99 R., dated the 17th October, 1877.	Survey and Settlement	Ditto.
V of 1879, sections 188 to 192 (both inclusive), as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department No. 4402-J., dated the 22nd December, 1886.	Bombay Land-revenue Code.	Ditto.

PART III.

Local Rules and Orders having the force of Law.

Government of India letter No. 407, dated the 10th December 1866, and Secretary of State's despatch No. 23, dated the 16th March, 1867, as altered by Government of India letter No. 97-R., dated the 17th October, 1877	Berar Sub-tenancy Rules.	The whole, subject to the provisions of section 2.

No. 4149-*A*.

Simla, the 30th September, 1896.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read again—

Resolution in this Department No. 13, dated the 1st January 1889.

RESOLUTION.—Under the first condition in paragraph 4 of the Resolution read above, loans may be granted by Local Governments from the Local Loans Account to Municipalities " only for works of public and general convenience and utility, such as drainage, water-works, bridges and the like, and not for works which are merely or mainly ornamental or convenient, such as a town hall, public garden or market place." The Governor General in Council is now pleased to decide that loans may be granted by Local Governments in the cases excluded by this rule, but on the condition that they are repaid within a period not exceeding 10 years.

ORDER.—Ordered that this Resolution be communicated to the Home Department, to all Local Governments and Administrations (except Hyderabad, Coorg, Ajmere-Merwara and Baluchistan), to the Comptroller and Auditor General, and all Accountants General and Comptrollers (except Comptroller, Hyderabad, and Comptroller, Post Office).

Ordered also that this Resolution be published in the *Gazette of India*.

No. 400.—The following is published for general information:

No. 755 R. T., dated Simla, the 29th September, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules for Railways under construction.

Read—

Sections 3 (4), 16 (2), 47 and 148 (1) of the Indian Railways Act (IX) of 1890.

Government of India, Public Works Department, notification No. 267, dated the 11th June 1890, appointing the Director General of Railways as the officer who is to make General Rules, under section 47 of the Indian Railways Act, 1890, in the case of a railway administered by Government.

Government of India, Public Works Department, notification No. 480½, dated the 30th October 1890, publishing, in the *Gazette of India* of the 8th November 1890, the Government of India resolution No. 735 R. T., dated the 17th October 1890, and the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods.

Letter from the Director General of Railways, No. 475 T., dated the 18th September 1896.

OBSERVATIONS.—The Director General of Railways has applied for leave to adopt, on the Rae Bareli-Benares Section of the Lucknow-Rae Bareli-Benares Railway, the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods, which rules were published in the *Gazette of India* of the 8th November 1890, under Public Works Department notification No. 480½, dated the 30th October 1890.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules, which are referred to in the foregoing observations, to the Rae Bareli-Benares Section of the Lucknow-Rae Bareli-Benares Railway, which has been sanctioned for construction.

ORDER.—Ordered, that the General Rules, which have already been published in the *Gazette of India* of the 8th November 1890, be further notified to the railway servants and to the public by a copy thereof being kept open to inspection, free of any charge, in the office of the engineer in charge of the construction of the railway.

Ordered, also, that this resolution be communicated to the Director General of Railways, for information and guidance, and that it be published under a notification in Part I of the *Gazette of India.*

The 2nd October, 1896.

No. 405.—The following is published for general information:

No. 761 R.T., dated Simla, the 30th September, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules for Railways under construction.

Read-

Sections 3 (4), 16 (2), 47, and 148 (1) of the Indian Railways Act (IX) of 1890.

Government of India, Public Works Department, notification No. 480½, dated the 30th October 1890, publishing, in the *Gazette of India* of the 8th November 1890, the Government of India resolution No. 736 R. T., dated the 17th October 1890, and the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods.

Memo. from the Consulting Engineer for Railways, Lucknow, No. 3883, dated the 9th September 1896, forwarding letter No. 6362, dated the 7th September 1896, from the Agent and Chief Engineer, Bengal and North-Western Railway.

OBSERVATIONS.—The Agent and Chief Engineer, Bengal and North-Western Railway Company, has applied for leave to adopt, on the Turtipur-Benares, Mau-Revilganj and Mau-Azamgarh extensions and the Syedpur-Ghazipur Branch of the Bengal and North-Western Railway and on the Hajipur-Katihar extension of the Tirhoot State Railway, the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods, which rules were published in the *Gazette of India* of 8th November 1890, under Public Works Department notification No. 480½, dated the 30th October 1890.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules, which are referred to in the foregoing observations, to the Turtipur-Benares, Mau-Revilganj and Mau-Azamgarh extensions, and the Syedpur-Ghazipur Branch of the Bengal and North-Western Railway and to the Hajipur-Katihar extension of the Tirhoot State Railway, which have been sanctioned for construction.

ORDER.—Ordered, that the General Rules, which have already been published in the *Gazette of India* of the 8th November 1890, be further notified to the railway servants and to the public by a copy thereof being kept open to inspection, free of any charge, in the office of the engineer in charge of the construction of the railway.

Ordered, also, that this resolution be communicated to the Consulting Engineer to the Government of India for Railways, Lucknow, for information and guidance, and that it be published under a notification in Part I of the *Gazette of India.*

No. 407.—The following is published for general information:

No. 760 R. T., dated Simla, the 30th September, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing, in the *Gazette of India* of the 23rd March 1895, the Government of India circular No. 6 Railway, dated 12th March 1895, and the General Rules for all open lines of railway in British India administered by the Government therewith promulgated.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing, in the *Gazette of India* of the 30th May 1896, the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Letter from the Government of Bombay, Public Works Department, Railway Branch, No. 1660, dated the 8th July 1896, forwarding letter from the Agent, Southern Mahratta Railway Company, No. 2107 B.—6359, dated the 26th June 1896.

OBSERVATIONS.—The Agent, Southern Mahratta Railway Company, has applied that the General Rules for working open lines of railway in British India, administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated 22nd May 1896, published under Public Works Department notification No. 257, dated the 28th May 1896 (*vide* the *Gazette of India* of the 30th May 1896), may be made applicable to the Southern Mahratta Railway and the lines worked by it, and that Rule 70, may be modified so as to read as follows:

No. 70.—No fixed or permanent signal, which is worked by a connecting wire, shall be used unless it is constructed to shew "danger" in case of any failure of the connecting wire.

RESOLUTION.—The Governor General in Council is pleased to sanction, with effect from the 1st January 1897, the application to such portions of the Southern Mahratta Railway and the lines worked by it as are situate in British territory, of the General Rules for working open lines of railway in British India,

administered by the Government, which are cited in the foregoing observations, with the modified rule quoted above in lieu of rule 70 of the General Rules of 1895, in supersession of the rules now in force. The modified rule 70 to be in force only up to the 30th June 1897.

ORDER.—Ordered that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the [illegible]; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Government of Bombay, Public Works Department, Railway Branch, for information and guidance.

W. S. S. BISSET, *Colonel, R.E.,*
Secretary to the Government of India.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st October, 1896, and is hereby promulgated for general information:

ACT NO. XVII OF 1896.

An Act to amend the Punjab Land-revenue Act, 1887.

WHEREAS it is expedient to amend the Punjab Land-revenue Act, 1887; It is hereby enacted as follows:

Amendment of section 28, Act XVII, 1887.

1. For sub-section (2) of section 28 of the said Act the following shall be substituted, namely:

"(2) When the Government undertakes to pay the zaildárs and inámdárs in any district, tahsil or other local area from the land-revenue realized in that local area, a rule under sub-section (1) may direct that from every person, to whom the land-revenue of any land in that local area has been released or assigned, or who has redeemed or compounded for the same, there shall be levied as a contribution towards the payment of such zaildárs and inámdárs a rate not exceeding one-and-a-half per cent. on the land-revenue which has been, or, but for such release, assignment, redemption or composition, would have been, assessed on such land; and, in any case in which land-revenue is collected on account of such land by any Revenue-officer for any such person, such officer may deduct that percentage from the amount payable by him to that person."

Substitution of new section for section 29, Act XVII, 1887.

2. For section 29 of the said Act the following shall be substituted, namely:

Village-officers' cess.

"29. (1) The Local Government may, by notification, impose on all or any estates in the territories for the time being administered by it a cess, to be called the village-officers' cess, at such rate or rates not exceeding one anna for every rupee of the annual value as it may think fit, for remunerating village-officers in those territories and for defraying other expenditure directly connected with the supervision of those officers or with the performance of their duties.

(2) 'Annual value' in sub-section (1) has the meaning assigned to that expression in the Punjab District Boards Act, 1883; that is to say—

(a) double the land-revenue for the time being assessed on any land, whether the assessment is leviable or not; or,

(b) where the land-revenue has been permanently assessed, or has been wholly or in part compounded for or redeemed, double the amount which, but for such permanent assessment, composition or redemption, would have been leviable; or,

(c) where no land-revenue has been assessed, double the amount which would have been assessed if the average village-rate had been applied:

Provided that, in any tract in which, under the settlement for the time being in force, the improvement of the land due to canal irrigation has been excluded from account in assessing the land-revenue, and a rate has been imposed in respect of such improvement, that rate shall be added to the land-revenue for the purpose of computing the annual value.

(3) The Financial Commissioner may make rules for the collection, control and expenditure of the village-officers' cess.

(4) All cesses now levied in any local area for the purposes mentioned in sub-section (1) shall be deemed to have been lawfully imposed and shall, until the village-officers' cess is imposed in that local area under that sub-section, be deemed to be lawfully leviable and, for the purposes of this section, to be that cess."

Repeal of sub-section (2), section 145, Act XVII, 1887.

3. Sub-section (2) of section 145 of the said Act is repealed.

S. HARVEY JAMES,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st October, 1896, and is hereby promulgated for general information:

ACT NO. XVIII OF 1896.

An Act to amend the Punjab Municipal Act, 1891.

XX of 1891. WHEREAS it is expedient to amend the Punjab Municipal Act, 1891 (hereinafter called "the said Act"); It is hereby enacted as follows:

Addition to section 137, Act XX, 1891.

1. In section 137, sub-section (1), of the said Act, after clause (d) the following clauses shall be added, namely:

"(e) prohibit the sale of milk and butter by persons not licensed by the committee";

(f) prohibit the import into the municipality for sale of milk and butter by persons not licensed by the committee;

(g) fix the conditions on which licenses under this section are to be granted and may be revoked."

Addition of new section after section 137, Act XX, 1891.

2. After section 137 of the said Act the following section shall be added, namely:

Penalty for selling food or drink not of the nature, substance or quality of the article demanded by the purchaser.

"137A. (1) Whoever sells, to the prejudice of any purchaser, any article of food or drink which is not of the nature, substance or quality of the article demanded by such purchaser, shall be punishable with fine which may extend to one hundred rupees:

Provided that an offence shall not be deemed to be committed under this section in the following cases, that is to say:

(a) where any matter or ingredient not injurious to health has been added to food or drink in order to the production or preparation of the same as an article of commerce in a state fit for carriage or consumption, and not fraudulently to increase the bulk, weight or measure or conceal the inferior quality thereof;

(b) where food or drink is unavoidably mixed with some extraneous matter in the process of collection or preparation.

(2) In any prosecution under this section it shall be no defence to allege that the vendor was ignorant of the nature, substance or quality of the article sold by him, or that the purchaser, having bought such article only for analysis, was not prejudiced by the sale:

Provided that an offence shall not be deemed to be committed under this section, if the vendor proves to the satisfaction of the Court that he had purchased the article sold by him as the same in nature, substance and quality as that demanded by the purchaser, and with a written warranty to that effect, that he had no reason to believe at the time when he sold it that the article was otherwise, and that he sold it in the same state as when he purchased it.

(3) This section shall not take effect in any municipality until it has been specially extended thereto by the Local Government at the request of the committee."

Partial repeal of section 144, clause (c), Act XX, 1891.

3. In section 144, clause (c), of the said Act the words "within bazárs" are repealed.

S. HARVEY JAMES,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 1st October, 1896, and is hereby promulgated for general information:

ACT NO. XIX OF 1896.

An Act to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for the Central Provinces.

WHEREAS it is expedient to provide for the temporary appointment from time to time of an Additional Judicial Commissioner to assist the Judicial Commissioner of the Central Provinces; It is hereby enacted as follows:

Title and commencement.

1. (*1*) This Act may be called the Central Provinces Additional Judicial Commissioner's Act, 1896; and

(*2*) It shall come into force at once.

Appointment of Additional Judicial Commissioner.

2. (*1*) The Local Government, with the previous sanction of the Governor General in Council, may from time to time, by notification in the official Gazette, appoint such person as it thinks fit to be an Additional Judicial Commissioner and to sit as such in the Court of the Judicial Commissioner of the Central Provinces.

(*2*) Every person so appointed shall hold his office during the pleasure of the Governor General in Council.

Jurisdiction and powers of Additional Judicial Commissioner.

3. Every Additional Judicial Commissioner shall exercise such jurisdiction and powers of the Judicial Commissioner under any enactment for the time being in force as the Local Government may, from time to time, prescribe, but only in such cases as the Judicial Commissioner may, by general or special order, direct.

Application of enactments.

4. Every enactment for the time being applicable to the Judicial Commissioner shall apply to the Additional Judicial Commissioner when exercising any jurisdiction or powers under the last foregoing section, as if he were the Judicial Commissioner.

Appeals.

5. In the event of an appeal being preferred from a judgment or order passed by a Judicial Commissioner or an Additional Judicial Commissioner in any other capacity, the appeal shall be heard by the Additional Judicial Commissioner or the Judicial Commissioner, as the case may be: Provided that, if there be no Additional Judicial Commissioner for the time being appointed, the Governor General in Council may transfer the appeal for hearing to any other High Court in British India; and the Court to which such appeal is transferred shall deal with the same as if it had been originally presented to such Court.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 1st October, 1896:

NO. 25 OF 1896.

A Bill to amend the law relating to Government and other Provident Funds.

WHEREAS it is expedient to amend the law relating to Government and other Provident Funds; It is hereby enacted as follows:

Title, extent and commencement.

1. (*1*) This Act may be called the Provident Funds Act, 1896.

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force at once.

Definitions.

2. In this Act—

(*1*) "Provident Fund" means a fund in which the subscriptions or deposits of any class or classes of employees are received and held on their individual accounts, and includes any contributions credited in respect of, and any interest accruing on, such subscriptions or deposits under the rules of the Fund:

(*2*) "Government Provident Fund" means a Provident Fund constituted by the authority of the Government of India for the benefit of any class or classes of its employees:

(*3*) "Railway Provident Fund" means a Provident Fund constituted by the authority of the Government of India or of any company which administers a railway in British India, either under a special Act of Parliament or under contract with the Government of India, for the benefit of any class or classes of the employees on, or in connection with, such railway: and

(*4*) "compulsory deposit" means a subscription or deposit which is not repayable on the demand, or at the option, of the subscriber or depositor, and includes any contribution which may have been credited in respect of, and any interest which may have accrued on, such subscription or deposit under the rules of the Fund.

Payment from Government or Railway Provident Fund on death of subscriber or depositor.

3. (*1*) When a subscriber to, or depositor in, any Government or Railway Provident Fund dies and the sum standing to his credit in the books of the Fund does not exceed two thousand rupees, the officer whose duty it is to pay such sum to the person entitled may pay it as follows:

(*a*) he may pay it to any executor of the deceased subscriber or depositor who has proved the will;

(*b*) if he is satisfied that there is no will, or if no will is produced to him within three months after the death of the subscriber or depositor, he may pay it to any person entitled to receive it according to the rules of the Fund or, in the absence of any rule of the Fund to the contrary, to any person nominated in writing by the deceased subscriber or depositor to receive it;

(c) in any case not hereinbefore provided for he may pay it to any person appearing to him to be entitled to receive it.

(2) The provisions of sub-section (1) may be applied to any sum which, at the commencement of this Act, stands to the credit of any subscriber or depositor already deceased.

Government and Railway Provident Funds not to be attached.

4. After the commencement of this Act, the compulsory deposits in any Government or Railway Provident Fund shall not be liable to attachment under any decree or order of a Court of Justice against a subscriber to, or depositor in, such Fund.

Protection for anything done in good faith under this Act.

5. No suit or other legal proceeding shall lie against any person in respect of anything in good faith done or intended to be done in pursuance of the provisions of this Act.

Power to extend Act to other Provident Funds.

6. The Governor General in Council may, in his discretion, by notification in the official Gazette, extend the provisions of this Act to any other Provident Fund established for the benefit of its employees by any local authority within the meaning of the Local Authorities Loans Act, 1879. XI of 1879.

Saving as to estates of soldiers.

7. Nothing in section 3 shall apply to money belonging to the estate of any European officer, non-commissioned officer or soldier dying in Her Majesty's service in India, or of any European who at the time of his death was a deserter from such service.

STATEMENT OF OBJECTS AND REASONS.

THE law as it stands does not provide for the disbursement of the assets, however small, standing to the credit of a member of a Provident Institution at the time of his death without the production of probate or letters of administration or a succession-certificate. In a very large number of cases such assets are small, and, owing partly to ignorance and partly to the trouble and expense involved in obtaining such authority, it is probable that a large proportion of them may remain unclaimed, much hardship to the representatives of the poorer class of subscribers for whose benefit these Provident Institutions are maintained, being caused thereby. The proposal is to remove the difficulty in the case of assets not exceeding a certain amount, as is done as regards deposits in Government Savings Banks.

2. Again, the Government of India have been advised that, as the money standing to the credit of a member of a Provident Institution is a debt which is due by the Institution to him or his estate, as the case may be, on the happening of any of the following events, *viz.*, his retirement, death, dismissal or default, it cannot be attached by a Court, under section 266 of the Code of Civil Procedure, until the debt becomes due, *i.e.*, till the happening of any one of the above events. Consequently, if a member dies, the sum at his credit may be attached, and thus the object of the Institution may be frustrated and those in whose interests he subscribed, may reap no benefit whatever. It is intended, therefore, to protect such moneys from attachment.

3. The Bill applies in the first instance to Government and Railway Provident Funds only, but clause 6 provides for the extension of its provisions to any other Provident Fund established for the benefit of its employees by any local authority within the meaning of the Local Authorities Loans Act (XI of 1879).

The 26th September, 1896.

PART VI.

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at the Viceregal Lodge, Simla, on Thursday, the 1st October, 1896.

PRESENT:

His Excellency the Earl of Elgin, Viceroy and Governor General of India, P.C., G.M.S.I., G.M.I.E., LL.D., *presiding*.

His Honour Sir Dennis Fitzpatrick, K.C.S.I., Lieutenant-Governor of the Punjab.

His Excellency General Sir G. S. White, G.C.I.E., K.C.B., V.C., Commander-in-Chief in India.

The Hon'ble Sir J. Westland, K.C.S.I.

The Hon'ble J. Woodburn, C.S.I.

The Hon'ble M. D. Chalmers.

The Hon'ble Major-General Sir E. H. H. Collen, K.C.I.E.

The Hon'ble A. C. Trevor, C.S.I.

The Hon'ble Nawab Amir-ud-Din Ahmad Khan, C.I.E., Bahadur, Fakharud-doulah, Chief of Loharu.

The Hon'ble C. M. Rivaz, C.S.I.

PUNJAB LAND-REVENUE ACT, 1887, AMENDMENT BILL.

The Hon'ble MR. RIVAZ moved that the Bill to amend the Punjab Land-Revenue Act, 1887, be taken into consideration. He said that the amendments made by the Bill were explained by him in introducing it. They were very

simple and of a non-controversial nature, and it was not thought necessary to circulate the Bill for opinion.

The motion was put and agreed to.

The Hon'ble MR. RIVAZ moved that the Bill be passed.

The motion was put and agreed to.

PUNJAB MUNICIPAL ACT, 1891, AMENDMENT BILL.

The Hon'ble MR. RIVAZ moved that the Bill to amend the Punjab Municipal Act, 1891, be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. RIVAZ moved that clause 1 of the Bill be omitted and the numbering of the following clauses altered accordingly. He said :—" The clause which it is proposed to omit made certain amendments in sections 69 and 70 of the Punjab Municipal Act, which would have had the effect of prohibiting altogether the farming of octroi-dues. The Punjab Government have, however, represented that hitherto the practice in the Punjab has been to allow the farming of these dues in special cases with the sanction of some controlling authority, who is generally the Commissioner of the Division, and in respect of such articles as milk, fruit, vegetables and the like. This practice was authorised by the Government of India, after correspondence on the subject, and it has been thought desirable to continue it as a convenient arrangement to all concerned. It is therefore now proposed to omit clause 1 of the Bill, which will leave sections 69 and 70 of the Act as they stand at present. The remaining provisions of the Bill have not been altered in any respect."

The Hon'ble MR. WOODBURN said :—" It is perhaps expedient that I should make a single remark on this question. As has been stated in the Statement of Objects and Reasons, it was ruled both by the Government of India and the Secretary of State that the leasing of octroi-dues should not be in any way permitted, and a note was made that when an opportunity came to revise the Punjab Municipal Act the section in that Act which permits the leasing of octroi-dues should be altered. I have had it brought to my notice since this arrangement was made that, in several municipalities in the Punjab, the direct sanction of the Government of India for the leasing of certain forms of octroi-dues, as explained by the Hon'ble Mr. Rivaz, has been given, and the Lieutenant-Governor, although he agrees in the general principle laid down by the Government of India, has asked that the present opportunity should not be taken of bringing this custom to an immediate end. He has promised to take the matter into consideration and to make such other arrangements as will permit the gradual abolition of this custom in municipalities in which it is in force. On this understanding, as far as I am concerned, I consent to the omission of the clause."

The Hon'ble SIR JAMES WESTLAND said that he would not have thought it necessary to make any remark if the clause which it was now proposed to delete had not first been inserted in the Bill and now formally withdrawn. But, before assenting in the Legislature to a proposal which seemed to formally endorse the application of octroi as a means of municipal taxation, he wished to make it clear that he adhered in principle to the view expressed by his predecessors that there were many economic objections to octroi as a form of

municipal taxation, although there were strong administrative and political objections to its supersession, especially in Northern India, by other forms of taxation. He wished to make this personal reservation in assenting to a motion which not only sanctioned octroi, but sanctioned, within certain limits, the giving of it in farm.

The motion was put and agreed to.

The Hon'ble MR. RIVAZ moved that the Bill, as amended, be passed.

The motion was put and agreed to.

CENTRAL PROVINCES ADDITIONAL JUDICIAL COMMISSIONER'S BILL.

The Hon'ble MR. WOODBURN moved that the Bill to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for the Central Provinces be taken into consideration. He said that at the last meeting of the Council he had explained the objects of the Bill and the reasons for it, and it was unnecessary now to repeat his remarks on that occasion.

The motion was put and agreed to.

The Hon'ble MR. WOODBURN moved that the Bill be passed.

The motion was put and agreed to.

PROVIDENT FUNDS BILL.

The Hon'ble MR. CHALMERS moved for leave to introduce a Bill to amend the law relating to Government and other Provident Funds. He said :—
"This is a Bill which requires very few words of explanation. It proposes to apply to Government Provident Funds the rules which already prevail in England as regards friendly societies and Industrial Provident societies. I believe that those societies in English form do not exist in India; but, on the other hand, we have various Provident Funds under the Supreme Government, and I believe there are in course of formation other societies of the like kind under Local Governments.

"The main object of the Bill is to provide that, on the death of a subscriber, the Fund which has accumulated, and which, under the rules of his service, he is bound to subscribe to, should be distributed among his relatives or nominees without any legal formalities. In the case of these small assets, where there is a small fund accumulated for the benefit of the family of the depositor, it is essential that the distribution should be made as quickly and with as little expense and formality as possible. That has been fully recognised by the English Legislature, and we now propose in the main section of this Bill to provide that, on death, the officer whose duty it is to pay out the money may pay it to an executor if there is one, and if not to a nominee, and if not to a nominee why then he will pay it to the person who appears to him to be entitled to receive it.

"There is one other clause which just requires mention. We propose that, where the funds are collected compulsorily and where the depositor is bound

to pay in the money, that money should be exempt from attachment under civil process. I think that is perfectly right; for it would not be fair that any one creditor should be able to step in and sweep away the whole of the deposits compulsorily made for certain special objects. It is not a case of money in a savings bank, or of money voluntarily put aside, but of compulsory payments to make provision for the family. In this case too we are following, though not going so far as, English law.

"There is also a power to extend the provisions of the Act to any other Provident Fund under any other local authority. That will, no doubt, be a useful power to exercise as these institutions increase, as we hope they will.

"I think there is nothing more in the Bill which requires mentioning."

The motion was put and agreed to.

The Hon'ble MR. CHALMERS introduced the Bill.

The Hon'ble MR. CHALMERS moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

The Council adjourned to Thursday, the 15th October, 1896.

S. HARVEY JAMES,
Secretary to the Government of India,
Legislative Department.

SIMLA;
The 2nd October, 1896.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, September 26th, 1896.

The meteorology of the week under review was characterized by several features of great importance, the chief of which were the early withdrawal of the monsoon current from North-Eastern India, Burma and the north of the Bay, and the establishment of the pressure conditions which usually precede the setting in of the retreating south-west monsoon rains in Southern India.

At the beginning of the week pressure was rising generally over Northern and Central India and was stationary or decreasing in Southern India. Pressure was very uniform over North-Eastern India and the north of the Bay, and the eastern extremity of the trough of low pressure stretched southwards from Lower Bengal into the north of the Bay. Weather was more or less showery in Burma, Bengal and Assam and fine over the remainder of India. Pressure was very unsteady in the Punjab, and a slight disturbance affected Upper India during the next two days. The disturbance gave moderate showers to the greater part of the Punjab, Rajputana, Kashmir and the western and hill districts of the North-Western Provinces, and light to moderate snow to the higher elevations of the North-West Himalayas. These showers caused a large reduction of temperature in the Punjab, and temperature was generally below the normal in Upper India on the 22nd and two following days.

A slight low pressure area lay over North Bihar and North Bengal on the 22nd and 23rd. It occasioned moderate showers in Assam and East and North Bengal. More or less general rain was received in Burma on these days and local showers in the centre and south of the Peninsula. Pressure conditions changed considerably during the next 24 hours. The low pressure area in Bengal filled up, and fine, dry weather set in over that area and in Assam and held during the remaining two days of the week. On the morning of the 24th pressure was remarkably uniform over the Indian area and the Bay. The baric gradient or range of pressure was nearly a tenth of an inch over the Bay, or barely one-third of the normal gradient. The most important feature of the pressure conditions was, however, the position of the trough of low pressure which ran north from the south of the Bay into Bengal—a position it usually occupies at the termination of the rains in Northern India. Pressure was everywhere above the average, except in Southern India, where it was slightly in defect. The excess was greatest in a belt stretching across the head of the Peninsula. The pressure changes during the last two days of the week emphasized these conditions to some extent. As is usually the case under such conditions the rainfall fell off in amount in Burma, while it increased in the Peninsula, where several stations received amounts varying between one and two inches on the 25th and 26th. Some local thundershowers fell in Kashmir and the North Punjab on these two days and perhaps snow on the adjacent mountains. Fine, clear and much drier weather than usual obtained during this period over nearly the whole of Northern and Central India, and very low humidities were recorded in Baluchistan and Upper India, the lowest reported being 27 per cent. at Chaman and 32 per cent. at Sirsa at 8 A.M. of the 26th. The increasing rainfall diminished temperature in Madras, and the mean temperature in that presidency was 0°·4 below the normal at the end of the week. Over the remainder of India and Burma temperature was more or less in excess, more especially in the Bombay Presidency. The mean temperature was about 4° higher than the normal in that presidency on the 25th and 26th.

Daily Summary.—*Sunday, September 20th.*—Pressure had increased over the whole of India, with the exception of the southern half of the Peninsula, where it had given way very slightly. The changes were of little importance, and the chief feature of the distribution of pressure was its approximate uniformity over North-Eastern India and the northern half of the Bay. Pressure was in general excess. The excess was small in the Punjab, Bengal and Southern India and

was moderate to considerable in a broad belt stretching from Arakan across the north of the Bay and head of the Peninsula to Kathiawar. Light variable winds obtained over Northern India generally and at the head of the Bay, north-westerly winds over the Peninsula and southerly winds in Burma and Ceylon. Skies were heavily clouded in North-Eastern India and Burma, and light to moderate showers had fallen during the previous 24 hours over the greater part of these areas. Akyab had obtained 2·44 inches, Barisal 1·82 inches and Silchar 1·58 inches. Some scattered showers had been received in the Central Provinces and Peninsula, where skies were partially clouded at 8 A.M. Skies were lightly clouded in the North-Western Provinces and Punjab, and a few local thundershowers had occurred in the hill districts. Skies were clear over Baluchistan, Sind and the west coast districts, and weather was fine and dry. Temperature was in slight to considerable excess over the whole of India, with the exception of North-Eastern India, where it was in slight to moderate defect. The excess was considerable in the North-Western Provinces, Punjab and Madras and was chiefly due to unusually high day temperatures.

Monday, September 21st.—Pressure had again increased generally over India, briskly to rapidly in the Punjab and slightly elsewhere. The rise in the Punjab was, however, only temporary. It, however, modified the distribution of pressure largely in that province. Pressure was again normal in Southern India and in excess over the remainder of India. The excess was most marked in the Punjab, where it was from a tenth to a sixth of an inch in amount. Very variable winds prevailed generally. Light showers had fallen in Burma and scattered showers in Bengal and Assam. The largest amount recorded in these areas was 1·91 inches at Silchar. Thunderstorms and duststorms had occurred in the Punjab and the adjacent districts of the North-Western Provinces, and had given light to moderate rain, chiefly in the hill and submontane districts. Simla had received a fall of 1·24 inches, Ludhiana of 1·05 inches and Dera Ismail Khan of 0·63 inch. Light to moderate snow had fallen on the higher elevations of the Punjab Himalayas. Temperature had decreased 4° in the Punjab during the previous 24 hours and was now normal in that area. It was, on the other hand, increasing rapidly in Bengal and Assam with the falling off of the rainfall, and now differed but little from the normal. Temperature continued excessive over the remainder of India, more especially in Madras and the North-Western Provinces, where the mean temperature of the previous 24 hours averaged 3° above the normal. The highest day temperature recorded in India was 102·4° at Tinnevelly.

Tuesday, September 22nd.—Pressure had changed very irregularly during the previous 24 hours. It had risen briskly in Sind and had fallen slightly to briskly in Bengal, Assam, Burma and the submontane districts of Northern India. A slight low pressure area covered North Bengal and Bihar, and weather was showery to the east of it in Assam and East Bengal. Pressure was more or less largely above the normal over the whole of Northern and Central India and the Deccan. Light irregular winds and calms prevailed in the Punjab and dry westerly winds down the Gangetic Plain. Winds were easterly in East and North Bengal. The air circulation was unchanged in other parts. Humidity had decreased over the whole of Northern India, and skies were clearing in that area. Light to moderate rain had fallen in Lower Burma and Tenasserim, and showers, more or less local, in parts of Madras and of the Central Provinces and in Orissa, the Punjab, Kashmir, East Rajputana and the Upper India hill districts. In Upper India the largest amounts were 1·16 inches at Sambhar and 0·39 inch at Chakrata.

Temperature had decreased very rapidly in the Punjab and briskly in Sind and Rajputana, in consequence of the occurrence of thundershowers in the plains and of snow on the higher elevations of the Punjab Himalayas during the previous 48 hours. The decrease averaged 6° for the whole Punjab, and was absolutely greatest at Cherat (13·3°), Srinagar (10·2°) and Sirsa (9·9°). The mean temperature of the Punjab of the previous 24 hours was 5° below the normal and of Sind and Rajputana 1·1° below. It was in excess in all other divisions, except Burma, where it was normal. The excess was greatest in Madras, where it averaged 2·8°.

Wednesday, September 23rd.—The changes of pressure were generally small in amount, except in the Punjab, where pressure had given way briskly. Pressure

was now normal in the Punjab. The low pressure area over North Bengal and North Bihar was still shown, and pressure was in slight to moderate defect over Bengal and Assam. Pressure was generally in excess over the remainder of India, the excess being greatest in a belt stretching across the head of the Peninsula. Moderate rain had fallen in Lower Burma and parts of Upper Burma and some light local showers in parts of Assam, North Bengal, Rajputana, Central India and Madras. The amounts were generally small, but several stations in Burma and North Bengal had obtained over an inch. Fine, clear and drier weather than usual prevailed over the whole of Northern India. Fine weather held steadily in the west coast districts, where skies were lightly clouded. The temperature conditions were less abnormal than hitherto. Temperature had increased 3° in the Punjab and fallen 2° in the North-Western Provinces and Madras. The mean temperature of the past 24 hours was above the average in Bombay (+1°·7 above), the Central Provinces (+1°·6), Bengal and Assam (+1°·5) and Madras (+1°·3). It was below the normal in the Punjab to a moderate extent and normal elsewhere. Jacobabad reported the highest maximum temperature, *viz.*, 101°.

Thursday, September 24th.—The pressure changes were small, except in North and East Bengal, North Bihar and Assam, where pressure had risen briskly. The depression in that area had filled up. The most noteworthy feature of the pressure distribution was the position of the trough of low pressure which ran north from the south of the Bay into Bengal. Pressure was, however, very uniform over the Bay and India, and the baric gradients very slight. In this respect, the pressure conditions resembled those which usually obtain in October. Dry westerly winds prevailed steadily down the Gangetic Plain into South-West Bengal and in the Peninsula, and were reducing humidity in these areas. The only areas where humid winds still prevailed were Ceylon and Burma. Skies were clear in Northern and Central India and lightly clouded over the remainder of India. There was much cloud in Burma. Light rain had fallen in Lower Burma and Arakan, and one or two local showers of no significance in Orissa and North Bengal. Bassein had obtained 3·96 inches and Akyab 1·54 inches.

Temperature was increasing generally, and averaged 2° above the normal in Bengal, Bombay, the Central Provinces and Madras. It was practically normal in other divisions.

Friday, September 25th.—Pressure had increased over the whole of India. The changes were, however, too small to modify the distribution of pressure to any important extent. Northerly winds prevailed in the west coast districts between Veraval and Cochin. At Trivandrum and Colombo westerly winds obtained. Winds were very light on the Burma Coast. Pressure was unsteady in the North Punjab, and a local disturbance apparently existed over that area and Kashmir and was giving local thundershowers in that area and perhaps snow on the adjacent mountains. A thunderstorm with hail had visited Murree and given 1·71 inches of rain. Rawalpindi had obtained 0·55 inch and Srinagar 0·37 inch. Thundershowers had also occurred in the Deccan and Southern India. Salem, Trincomallee, Raichur and Nellore each reported an inch. Lower Burma had received some local showers, but they were of little importance. Temperature was practically unchanged, except in the Punjab and Bombay Presidency, where it had risen slightly.

Saturday, September 26th.—Pressure had increased slightly in North-Eastern India and Burma and had fallen slightly in Southern India, and a very shallow low pressure area lay over the western half of the Bay. A slight fall of the barometer had also occurred in Sind and the South Punjab, and a shallow depression had formed in that area. Elsewhere there had been but little change. Pressure was even more uniform than on the previous day and was generally in excess, except in Southern India and Ceylon, where it was in slight to moderate defect. As hitherto, pressure was in considerable local excess over the central parts of the country. Winds were light and very variable in the west coast districts. There was a slight tendency to cyclonic circulation over the Bay. Humidity had decreased generally, except in Southern India, and the

air was very dry over by far the greater part of the country, and very low humidities were recorded at several stations in North-Western India at 8 A.M. The lowest reported were 27 per cent. at Chaman and 32 per cent. at Sirsa. Skies were heavily clouded in the south and centre of the Peninsula, and showers, in many cases accompanying thunderstorms, had fallen over the greater part of that area. Bangalore reported 2·50 inches and Chitaldroog, Salem, Masulipatam and Mysore amounts varying between one and two inches. Moderate showers had occurred at Murree and Srinagar and a few drops at one or two stations in the North Punjab. Local showers continued in Burma. Temperature had fallen 2° in the Central Provinces. The changes were small in amount elsewhere. The mean temperature of the previous 24 hours averaged $3\frac{1}{2}$° above the normal in Bombay, 2° in Bengal and $1\frac{1}{2}$° in the North-Western Provinces and Burma. The highest maximum temperature registered was 102·3° at Mainpuri.

Temperature.—At the commencement of the week weather was showery in North-Eastern India and Burma. Temperature was normal in Burma and in slight defect in Bengal and Assam, but was excessive over the remainder of India, where fine, clear weather obtained. The hottest areas were the North-Western Provinces, the Punjab and Madras, where the mean temperature of the previous 24 hours was from 3° to 5° in excess. A slight disturbance gave thundershowers to Kashmir, the Punjab and the adjacent districts of the North-Western Provinces and Rajputana during the next 48 hours, and snow on the higher elevations of the Punjab Himalayas. Temperature hence decreased very rapidly in the Punjab and rather rapidly in Sind and Rajputana, and on the 22nd averaged 5° below the normal in the former and 1° below in the latter area. It, however, increased again during the remainder of the week and was normal at the end of the week. The rainfall fell off in amount in Burma and North-Eastern India during the last two days of the week, and temperature hence increased in these areas and was at the end of the week in slight to moderate excess. On the other hand, showers were more general and heavier in the Peninsula during the same period, and temperature was hence reduced considerably below the normal in Madras. The mean temperature of that presidency of the 24 hours preceding 8 A.M. of the 26th was 0°·4 below the average. Weather was unusually fine throughout the week in the Bombay Presidency. Temperature increased steadily in that area and was at the end of the week $3\frac{1}{2}$° in excess of the normal.

The following table gives the variations of the mean temperature from the normal in different provinces of India :

Province.	September 1896.							Mean variation of week.
	20th	21st	22nd	23rd	24th	25th	26th	
	°	°	°	°	°	°	°	°
Burma	+0·5	+1·1	−0·1	−1·0	+0·1	+0·9	+1·4	+0·4
Bengal and Assam . .	−1·3	+0·6	+1·2	+1·5	+2·1	+1·6	+2·1	+1·0
North-Western Provinces and Oudh	+3·4	+2·9	+2·1	+0·4	+0·8	+1·3	+1·3	+1·7
Punjab	+4·9	+1·2	−5·0	−2·4	−0·9	+0·7	+0·1	−0·2
Bombay	+1·2	+1·5	+2·3	+1·7	+2·2	+3·5	+3·5	+2·3

Central India and Gujarat .	+0·8	+0·8	+0·3	−0·3	−0·2	+0·7	+1·0	+0·4
Sind and Rajputana . .	+1·5	+1·3	−1·1	−0·9	−0·1	−0·1	+0·6	+0·2
Madras	+3·1	+3·0	+2·8	+1·3	+1·7	+1·9	−0·4	+1·9
Mean for whole of India .	+1·8	+1·6	+0·5	+0·2	+0·9	+1·4	+1·1	+1·1

The data in the final column of the preceding table show that the temperature conditions of the week were approximately normal, except in Madras, Bombay, the Central Provinces and the North-Western Provinces, where the mean temperature of the week was about 2° above the normal.

The following were the highest temperatures recorded throughout India on each day of the week:

September	20th	102°·8	at Nellore and Khushab.
"	21st	102°·4	" Tinnevelly.
"	22nd	101°·8	" Nellore.
"	23rd	101°·0	" Jacobabad.
"	24th	104°·4	
"	25th	103°·4	Montgomery.
"	26th	102°·3	Mainpuri.

Rainfall.—The rainfall of the week was restricted chiefly to Burma, Assam, East and North Bengal, Orissa and the south and centre of the Peninsula and was very light in amount. Showers, in some cases accompanying thunderstorms, occurred daily in these areas until the 23rd, but the amounts were small. Conditions changed considerably on the 24th and became unfavourable for general showers in Bengal, Assam and Burma; and hence no rain beyond a few thundershowers of little consequence occurred in these areas on the last two days of the week. On the other hand, the pressure distribution favoured the occurrence of thundershowers in Southern India and the Deccan, and these areas received fairly general and moderate rain on the 25th and 26th. Several stations received amounts ranging between one and two inches. The fall was moderately heavy in Mysore, where Bangalore obtained 3·13 inches on these two days.

A slight disturbance affected Upper India on the 21st and 22nd, and gave favourable rain to Kashmir, the Punjab and the adjacent districts of Rajputana and the North-Western Provinces and snow to the higher ranges of the Punjab Himalayas. The largest amounts reported in these areas were 1·24 inches at Simla, 1·16 inches at Sambhar and 1·05 inches at Ludhiana. A few local showers occurred in Rajputana and Central India also on the 23rd.

Fine weather prevailed over the whole of Upper India during the last three days of the week, except locally in Kashmir and the North Punjab, where conditions were slightly disturbed on the 25th and 26th, and some thundershowers occurred, the heaviest being 1·71 inches at Murree and 0·55 inch at Rawalpindi on the 25th. The week was rainless over Bihar, Chota Nagpur, the greater part of the North-Western Provinces, of the Central Provinces, Berar, Sind, Gujarat and Kathiawar. Fine weather held steadily in the west coast throughout the week, except locally at Bombay, which received a thundershower amounting to 0·30 inch on the 26th.

The concluding statement indicates that the rainfall of the week was normal in Central Burma, the eastern districts of the Central Provinces, Hyderabad Deccan, the hill districts of the North-Western Provinces and the greater part of the Punjab and of Madras; in slight to moderate excess in Mysore, Tenasserim, Arakan and Cachar and in large excess in Lower Burma (81 per cent. in excess) and South Madras (64 per cent.). The most important feature of the rainfall of the week was the heavy local fall in the North Punjab, which obtained nearly twice the normal amount. Over the remainder of India the rainfall of the week was more or less in defect. The deficiency was, however, serious only in North Bengal, the North-Western Provinces and the South-East Punjab, areas of more or less persistent drought throughout the present monsoon.

The rainfall of the present monsoon up to date is seriously in defect in the Punjab and North-Western Provinces. The deficiency exceeds 40 per cent. in South Oudh, North-Western Provinces (Central) and the South and West Punjab and is largest in the following districts:

North-Western Provinces and Oudh:—Banda (61 per cent.), Agra (56 per cent.), Azamgarh and Mainpuri (each 55 per cent.), Rai Bareli (53 per cent.), Etawah and Farukhabad (each 52 per cent.) and Hardoi (50 per cent.) Punjab:—Bannu, Muzaffargarh and Dera Ghazi Khan districts which have been rainless throughout the monsoon and Ferozepore which has obtained only 40 per cent. of the normal fall.

HEM RAJ,

for *Asst. Meteorological Reporter to the Government of India.*

SIMLA, *1st October, 1896.*

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 26th September.*—Rainfall generally fair, except on the West Coast. More rain is wanted in most districts. Water-supply is generally insufficient. Sowings are proceeding. Standing crops are generally in fair condition. Pasture is scanty, but fodder is generally available. The condition of cattle is good. Prices have risen in the Circars and Deccan; elsewhere they are easier or stationary.

Bombay.—*For week ending 30th September.*—Rainfall generally slight in the Presidency Proper, except in parts of Gujarat and Kathiawar. Crops have been benefited in Satara, Bijapur and Dharwar, but more rain is urgently wanted everywhere for late sowings or standing crops which are withering in parts of ten districts. Crops have also been damaged by rats, locusts or other insects in parts of Sindh. Preparations for late crops or sowings are progressing in ten, and reaping of the early crops in five, districts. Fodder is insufficient in parts of four districts. Agricultural stock is healthy, except in parts of three districts. Prices are rising in eleven districts.

Bengal.—*For week ending 28th September.*—Rainfall during the week was generally light; in Bihar there was no rain at all. The heavy rain of the previous week has improved the winter rice crop generally, but more rain is still required in parts of the Patna division, also in Pubna, Khulna and Chittagong. The harvesting of early rice and other crops is nearly over. Jute is still being steeped and washed. The preparation of lands for the spring crops has begun in some districts. Sugarcane is generally reported to be a good crop. Many cattle are said to have died from exposure to the recent heavy rain. There is no important change in the price of common rice which continues very high.

North-Western Provinces and Oudh.—*For week ending 30th September.*—Scattered showers fell in parts of the Agra, Rohilkhand and Kumaun divisions and in Banda, Ghazipur, Ballia and Azamgarh. The continued drought is proving disastrous to the standing crops, except where irrigation is practicable, and rain is very urgently required throughout the provinces. Agricultural operations for the spring sowings are retarded for want of sufficient moisture. Prospects continue to be unfavourable. Flights of locusts passed over several districts and caused slight damage to the crops in Meerut, Budaun, Ghazipur, Lucknow and Unao. The numbers employed on relief works and in receipt of gratuitous relief on Saturday, September 26th, were: Banda 2,111, Hamirpur 1,935, Jhansi 823, Jalaun 570, Hardoi 6,073—total 11,518; of these 696 were dependants gratuitously relieved on the works and 6,634 persons were gratuitously relieved under other provisions of the Famine Code. Supplies are reported deficient in Cawnpore, Fatehpur, Benares, Hardoi, Bahraich and Bara Banki. Fodder is becoming scarce and is dear in places. Prices are very high and generally rising.

Punjab.—*For week ending 30th September.*—Slight rain has fallen in the Hissar, Umballa, Ferozepore, Amritsar, Sialkot, Rawalpindi, Shahpur, Dera Ismail Khan, Gurgaon and Gujranwala districts. Land is being prepared for the spring crops in Lahore and Dera Ismail Khan. The harvesting of autumn crops in Delhi, Jullundur, Sialkot, Mooltan, Rawalpindi, Gurgaon and Karnal, and picking of cotton in Dera Ismail Khan are in progress. Spring ploughings in Jullundur and in Amritsar, spring sowings in Mooltan and extra autumn crop sowings in Gujranwala are in progress, as also sowings of gram in Lahore. Spring crops have been sown in parts of Karnal, but no crops have as yet been sown in Rohtak. The standing crops in Hissar, Jullundur, Ferozepore, Rohtak and

unirrigated crops in parts of Lahore are withering for want of rain, as also spring sowings in Umballa. The condition and prospects of the autumn crops are very bad in Rohtak, very poor in Delhi and Karnal, poor in Sialkot and in unirrigated tracts of Lahore, unfavourable in unirrigated tracts of Gujranwala, below average in well-irrigated tracts of Gujranwala, average in Peshawar, excepting in *Bara* villages and irrigated tracts of Lahore, favourable in irrigated tracts of Gujranwala and good in Amritsar, Mooltan, Dera Ismail Khan and the canal irrigated tracts of Hissar. More rain is badly wanted in all the districts. The grain stock is insufficient in Hissar, Jullundur and parts of Ferozepore, average in Peshawar, decreasing in Rohtak and Karnal and sufficient elsewhere. Well and canal irrigated crops in parts of Ferozepore and great millet, sugarcane and maize in parts of Lahore have been damaged by insects. Locusts visited Lahore, Dera Ismail Khan and Karnal and did damage to bulrush millet in parts of Karnal. Cattle have begun to suffer in Hissar, Ferozepore, Lahore and Gujranwala; they are overworked in Delhi and Sialkot, their condition is poor in Jullundur and fair to good elsewhere. Fodder is sufficient in Amritsar, Mooltan, Dera Ismail Khan and Peshawar only. Signs of distress have appeared in Hissar and Delhi, and it is likely that relief works will have to be started. Prices are rising in five districts, are above normal in Shahpur and are very high elsewhere.

Central Provinces.—*For week ending 30th September.*—No rain, with the exception of a slight fall of half an inch in Bilaspur. A good shower or two are urgently needed for the standing crops and for the winter sowings. The former have already been damaged in most districts and the latter are retarded. Prices are above normal and are still rising.

Burma.—*For week ending 26th September.*—In Lower Burma the transplanting of main wet-weather paddy has been completed in most districts and is in progress in others. Retransplanting continues in the low-lands of Amherst and Thongwa. There has been good rain, and standing crops are in excellent condition, but in a small area in Tavoy they have been destroyed by inundation. In Upper Burma in the dry zone no rain has fallen in Yamethin, barely any in Mandalay, Meiktila and Lower Chindwin; elsewhere prospects continue improving. Reaping of early weather paddy and early sessamum continues in districts where they are cultivated. Transplanting of the main wet-weather paddy is completed in Pakokku and is in progress elsewhere. In many districts *jowar* (*Sorghum vulgare*), maize, pulses and late sessamum are being freely sown. Outside the dry zone prospects are generally good. In a portion of the Wundwin township of the Meiktila district distress is prevalent, and the provisions of the Famine Code have been applied. Five thousand three hundred and seventy-three persons were employed on test relief works at the close of the week. Test works have been opened in the Yamethin sub-division of the Yamethin district. In Lower Burma the price of paddy has fallen considerably in Rangoon and Prome, and slightly in Bassein. In Akyab and Henzada prices have risen by Rs. 3 and Rs. 5 respectively, but are stationary in other districts. In Upper Burma there has been a sudden rise in the Upper Chindwin district. Elsewhere prices are stationary.

Assam.—*For week ending 29th September.*—The weather is hot. More rain is still wanted in Sylhet. Crops are improving in Sylhet and Kamrup; elsewhere they are generally fair. Some damage is reported from floods in Darrang and from insects in Nowgong. Transplanting of the late rice is nearly finished. Tea is doing well. The condition of cattle is good. Fodder and water are sufficient.

Mysore and Coorg.—*For week ending 30th September.*—MYSORE.—Good rain in Bangalore and in parts of the province. Standing crops are in good condition. Prices have slightly fallen in Kadur and Shimoga, but have risen in Mysore.

COORG.—Good rain during the week. The rice crop is in good condition. Reaping of *ragi* (*Eleusine coracana*) has commenced. Picking of cardamoms continues. Fodder and water for cattle are ample.

Berar and Hyderabad.—*For week ending 30th September.*—BERAR.—Weather warm. No rainfall during the week. The crop prospects are not favourable, owing to insufficient rainfall. Land is being prepared for the winter crop. Fodder and water are insufficient in parts of the Akola district. The price of food-grains is greatly enhanced in Akola, Basim and Buldana, owing to the unusually large exports to other provinces where scarcity prevails.

HYDERABAD.—Rainfall slight. The autumn crops are drying, owing to the continued absence of rain. Agricultural prospects are not improved much in the Southern division. There is a scarcity of fodder and pasture in some districts. Water-supply decreasing. Prices are rising.

Central India.—*For week ending 30th September.*—Very slight rain has fallen in parts of Gwalior and Malwa. The fall during the season has been insufficient throughout Central India. Agricultural operations are suspended in Baghelkhand, have been completed in Malwa and Goona and are in progress in other Agencies. Crops have been damaged for want of rain. Agricultural stock is in indifferent condition in Baghelkhand and Goona and in some districts of Gwalior, but is fairly good elsewhere. Pasturage is good and sufficient, except in Baghelkhand and in part of Gwalior. Prices are above normal in all Agencies. The numbers employed on relief works were: in Gwalior 1,120, in Bundelkhand 813, in Baghelkhand 577; on railway 8,742. The numbers on gratuitous relief were: 26 in Gwalior, 1,355 in Bundelkhand and 1,450 in Baghelkhand.

Rajputana.—*For week ending 30th September.*—Rainfall above half an inch in Deoli, Shahpura, Kishengarh and Bhurtpur; slight in Meywar, Kotah, Tonk, Ajmere, Jeypore, Dholpur and Ulwar. Agricultural operations are unsatisfactory in Jaisalmere; elsewhere satisfactory. The unirrigated crops are withering throughout Rajputana, except in Sirohi, Kherwara, Pertabgarh, Meywar, Jhallawar, Kotah, Deoli and Shahpura. The prospects of the harvest have been damaged in Karauli, they are poor in Dholpur, not good in Bhurtpore where relief works may have to be opened, and unfavourable in Jeypore. Locusts have damaged crops in parts of Jaisalmere. Agricultural stock is generally good. Pasturage or fodder is generally sufficient, but is scarce in Tonk and in parts of Jeypore and is failing in Dholpur. Prices are rising almost throughout Rajputana. The numbers employed on relief works were: Jaisalmere 90 and Sironj in the Tonk State, for last week, 317. The figures for Sironj for this week have not been reported and no report has also been received for Marwar.

Kashmir.—KASHMIR VALLEY.—*For week ending 29th September.*—Rain has fallen continuously during three days. Rice is being cut. Rapeseed and wheat sowings have commenced. Prices continue normal.

JAMMU PROVINCE.—*For week ending 30th September.*—No rain. Autumn crops are suffering. Prices are rising. Cattle in good condition. Fodder is scanty.

Nepal.—*For week ending 26th September.*—No rain. Days warm, but nights are beginning to be chilly. Upland rice is still being reaped, low-land crop requires more rain.

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

No. 4145-S. R.

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

STATISTICS AND COMMERCE.

CUSTOMS.

Simla, the 30th September, 1896.

Read—

Customs Circular No. XIX of 1896.

Ordered, that the Circular be published for general information in the Supplement to the *Gazette of India.*

J. F. FINLAY,

Secretary to the Government of India.

Customs Circular No. XIX of 1896.

From—The Government of India, Finance and Commerce Department, No. 3924-S. R., dated the 15th September 1896,

To—The Secretary to the Government of Bombay, Revenue Department.

I am directed to acknowledge the receipt of your letter No. 6089, dated the 4th August 1896, requesting orders on certain points raised by the Collector of Customs, Bombay, on the instructions contained in the letter from this Department, No. 2589, dated the 15th June 1896, regarding the levy of duty on cotton goods bordered or embroidered with silk or wool.

2. I am to explain that the principle of the instructions conveyed in the letter of the 15th June is that, although the law (section 21 of the Sea Customs Act) prescribes the levy of the higher rate of duty on cotton goods ornamented with silk or wool, the Government prefer to levy the lower rate applicable to cotton goods when the articles inserted in the fabric are inserted simply for decorative effect and are not so interwoven as to form a substantial portion of the fabric.

3. On the principle here stated, it would not be expedient to tax, as silk goods, cotton socks, vests, and drawers, because they have, for the purpose of decorative finish, a silk clock on the socks, a waistband of silk on the drawers, or a border of silk where the buttons and button holes are inserted in the vest. Nor would it be in accordance with the wish of the Government to tax a piece of cotton muslin or grenadine at the higher rate applicable to silk or woollen goods because the piece is decorated with embroidered flowers like the samples received with your letter. The article, even so embroidered, remains a piece of cotton muslin and would not be treated in the trade, and should not be treated in the Custom-house, as anything but cotton. The higher value imparted to it by

the embroidery is, as in all the cases under discussion, sufficiently met by the tax being assessed on the market value, whatever that is. The case is entirely different where cotton forms but a part of the fabric, as where cotton is the warp and silk or wool the weft, or where the embroidery practically covers and disguises the fabric. In such cases the article must be treated as made of the more highly taxed article. No rules are required for the treatment of such cases, which can easily be differentiated in practice from cases where the embroidery is merely a decoration on a cotton tissue which remains in substance and to sight a cotton tissue.

4. Similar remarks apply to the case of dhutis, sáris, scarves, or other goods bordered with silk. In essence the case does not differ from that of embroidered goods, and, as it is not possible to define a limit for a decorative embroidery, so it is not possible to define a limit for a narrow ornamental border. If, for instance, a limit of one inch were fixed, the effect of the decision would be to penalise goods with a border of 1⅛ inch, with the effect of restricting and harassing trade in goods which are as much cotton goods as those with a border an eighth of an inch less wide. It must be left to the Customs authorities to decide in the exercise of their discretion when borders, embroideries, or stripes are of such a nature that they practically disguise or alter the appearance or substance of the cotton fabric, the article then being taxed at the rate applying to the tissue of such borders, embroideries, or stripes.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 1st October 1896.

NOTIFICATIONS.

No. 2831 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, during the week ending 26th September 1896, under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888:—

No. 326 of 1896.—Professor Shanker Abaji Bhise, President of the Scientific Club, Bombay, residing near Ramwadi, Market Post, for a safety trunk to be called "Professor Bhise's safety travelling trunk and bed."

No. 327 of 1896.—Jogodiswar Ghatak, mechanic, of 42, Chetla road, Alipur post office, in the town of Calcutta, for a punkah-pulling regulator.

No. 328 of 1896.—Eduardo Migual de Monte, civil engineer, of Sitarampore, in the province of Bengal, for the electrical locking of doors attached to railway waggons, store rooms, or elsewhere.

No. 329 of 1896.—James Daniel Hannah and William Charles Clement Peele, both of Shrewsbury, Shropshire, for improvements in or relating to fire grates, stoves, furnaces and the like.

No. 330 of 1896.—James Daniel Hannah and William Charles Clement Peele, both of Shrewsbury, Shropshire, for apparatus for registering the quantity of liquid drawn from a beer engine.

No. 331 of 1896.—Samuel Holt Sharp, lithographic printer, of Grove works, Claypit lane, Leeds, in the county of York, for improvements in machinery or apparatus for producing patterns or designs on textile and felted fabrics and the like.

No. 332 of 1896.—Alfred George Browning, gas engineer, of Flexton, near Manchester, and William Wild Churchill, shipper, of Manchester, for improvements in spraying apparatus for humidifying air.

No. 333 of 1896.—Nathan William Horatio Sharpe, engineer, of 26, Perth road, Stroud green, London, for improvements in machines for breaking balls of rolled tea leaf and sifting the same.

No. 334 of 1896.—Abraham David Ezekiel, mechanical engineer, residing in Synagogue street, Poona, for an improved rotatory oil mill.

No. 335 of 1896.—Franz Raymond, proprietor of the Marlborough hotel, No. 41, Bentinck street, in the town of Calcutta, for protecting the contents of wine or other bottles—the invention to be called "Raymond's fraud-proof bottle."

No. 336 of 1896.—William Owen, civil engineer, of 51, Mervan road, Brixton, county of Surrey, for an improved manufacture of artificial stone, marble and the like.

No. 2832 P.—THE undermentioned design has been registered, under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888. Copies of the design have been sent to the Governments of Fort St. George and Bombay, and the Chief Commissioner of Burma. A copy of every design is open to public inspection, from 11 A.M. to 4 P.M., at the office of the Secretary appointed under the Inventions and Designs Act, 1888, in the Imperial Secretariat Buildings, Government Place, West, Calcutta, upon payment of a fee of one rupee :—

No. 12D of 1896.—William Charles Rowe, consulting general engineer and contractor of Apollo street, Bombay, for a combination urinal.

No. 2833 P.—SPECIFICATIONS of the undermentioned inventions have been filed under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888. Copies have been sent to the Governments of Fort St. George and Bombay, the Chief Commissioner of Burma, and the Director, Department of Land Records and Agriculture, North-Western Provinces and Oudh. A copy of every specification is open to public inspection, from 11 A.M. to 4 P.M., at the office of the Secretary, in the Imperial Secretariat Buildings, Government Place, West, Calcutta, upon payment of a fee of one rupee. A certified copy of any specification will be given to any person requiring the same on payment of the expense of copying :—

No. 324 of 1895. Maurice Gallagher, foreman, loco. department, N. W. Railway, Lahore, for a billiard table automatic game recorder. (Specification filed 17th September 1896.)

No. 4 of 1896.—Thomas Quinlivan, engineer and miller, residing in the city of Rangoon of the province of Burma, for an invention to be called "Quinlivan's simple and unique machine for hulling paddy into clean or cargo rice by steam, cattle or hand power. (Specification filed 29th July 1896.)

No. 51 of 1896.—William Geipel, engineer, of 49, Kidbrooke Park road, Blackheath, Kent, for improvements in steam traps. (Specification filed 7th September 1896.)

No. 55 of 1896.—John Philip Rundlett, gentleman, of 24, Ripon street, Calcutta, for automatically actuating or pulling-punkahs to be called "Rundlett's punkah motor." (Specification filed 14th September 1896.)

No. 2834 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 78 of 1888.—Elisha Gray, professor of physics, of Highland park, Lake county, state of Illinois, United States of America, for art of telegraphy and telautograph apparatus. (From 3rd November 1896 to 2nd November 1897.)

No. 179 of 1890.—Henry Knowles, manufacturer, of the Albion sanitary pipe works, Woodville, in the county of Leicester, for improvements in socket pipes for drainage or other purposes. (From 22nd September 1896 to 21st September 1897.)

No. 95 of 1891.—Charles William Jones, bachelor of medicine, formerly of Devonshire park, Birkenhead, in the county of Chester, for

improvements in or relating to tobacco pipes, cigarette holders, and other smoking mouth pieces. (From 1st October 1896 to 30th September 1897.)

No. 94 of 1892.—Elisha Barton Cutten, chemist, of 29, Brodway New York city, New York, United States of America, for improvements relating to the production of soda and chlorine and to apparatus therefor. (From 5th November 1896 to 4th November 1897.)

No. 257 of 1892.—Maurice Lorois, president of the Sociéte Anonyme des Moteurs Thermigues Gardie, of 5, Avenue Allard Nantes, in the republic of France, for improvements in and connected with gas engines or motors. (From 24th January 1897 to 23rd January 1898)

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office, are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

A. T. PRINGLE,

Offg. Secy. under the Inventions and Designs Act, V of 1888.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1896, the price of this Quinine will be as follows:—

1-pound tin,	R18,	or, post free,	R18-12.
½ „	R 9,	„	R9-8.
¼ „	R4-8,	„	R5.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৬ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	১৮৲	বা ডাকমাশুল বিনা	১৮৸৹
৷ আধ „ „	৯৲	„	৯৷৹
৷ শিকি „ „	৪৷৹৲	„	৫৲

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন-ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

METEOROLOGICAL PUBLICATIONS FOR SALE.

At the Meteorological Office, No. 5, Russell Street, Calcutta, at the prices specified below:—

Hand-book of Cyclonic Storms in the Bay of Bengal for the use of Sailors, describing the phenomena of Cyclonic Storms and Cyclones in the Bay of Bengal, and giving a brief account of six typical Bay of Bengal Cyclonic Storms. It also gives practical hints to sailors respecting Cyclonic Storms in the Bay. Demy, 212 pages, 29 plates (shewing diurnal oscillation of barometer at different Latitudes and Longitudes, mean monthly barometric height, tracks of different Cyclonic Storms, etc., etc.) R5.

Rainfall Map of India in two sheets, scale 64 miles to one inch, showing the annual distribution of rainfall in India (in colours). R3.

Instructions to Observers of the India Meteorological Department, in which are described in detail the various Meteorological instruments in use at the Meteorological observatories, with full instructions how to read them, etc. Demy, 103 pages. R3.

Tables for the Reduction of Meteorological Observations in India. This book contains tables for reducing barometric observations taken at different heights, and for calculating humidity and vapour tension, etc., etc. R2.

Barometer, Wind and Current Charts of the Bay of Bengal and adjacent sea, north of the equator. R5.

Charts of the Bay of Bengal and adjacent sea north of the equator, showing the specific gravity, temperature, and currents of the sea surface. R1-8.

Barometer, Wind and Current Charts of the Arabian Sea and the adjacent portion of the North Indian Ocean. R5.

Monthly Weather Review of India, giving a summary of the chief features of the weather in India and containing discussions on atmospheric pressure, barometric depressions, temperature of the air, winds, rainfall, etc. It also contains all available information about snowfall in the mountain districts to the north and north-west of India, and an abstract of observations taken at about 200 observatories in India. Published *monthly*. R1 per month or R12 per annum. Postage 1*a*. 6*p*. for each copy outside Calcutta.

India Daily Weather Report and Chart, containing observations recorded at 8 A.M. at 147 observatories, with a Chart shewing the distribution of atmospheric pressure and rainfall all over India, and a brief summary of the chief features of the weather of the day. Issued *daily* from the Simla Meteorological Office. Monthly subscription R2, and postage annas 8.

JOHN ELIOT,

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.†

Section	I.	Building Materials	(1895),	R2-0.
"	II.	Masonry	(1891),	R1-4.
"	III.	Carpentry	(1889),	R1-4.
"	IV.	Earthwork	(1892),	R1-4.
"	V.	Tools and Plant (never published).		

VOLUME II.†

Section	VI.	Buildings	(1891),	R1-4.
"	VII.	Bridges	(in the Press).	
"	VIII.	Roads	(in the Press).	
"	IX.	Railways	(1891),	R1-4.
"	X.	Irrigation Works	(1873),	R1-4.

Roorkee Treatise on Civil Engineering, Vol. II (1867 edition). R3.

* The other Fasciculi of these works are out of stock, and complete copies cannot be supplied.

† Date of Edition on sale.

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R8.

„ II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition), with Curve Table (in the Press).

XIII. **Drawing** (by Lieut. R. Pulford, R.E.).* R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics** (2nd edition), Parts I and II in one. R3.

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition) (in the Press).

XVI. **Earthwork Estimating,** with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. 4a.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 10 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunnya Lal. R2-8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 8a.; mounted on cloth and bound (in the Press). R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. R1-4.

Tyndall's Hand-Book of Specifications. R5.

The Indian Engineer's Pocket Book. 4a.

Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press).

Blasting under Water (2nd edition). 12a.

Waugh's Instructions for Topographical Surveying. R1-4.

Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 8a.

Tables for Degree Curve and Intersection Angles, from 90° to 180°, and for Fixed Tangents from 100 feet to 7,500 feet. By F. G. Brook Fox, Esq., M.I.C.E. R2-4.

Graphic Hydraulic Diagram for Channels in earth, etc. By R. G. Kennedy, Esq, Executive Engineer. R7-8

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width. R1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pie into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin² ½ P (for computing time). 4a.

Cape's Logarithms, with Tables of Squares, Cubes, etc. (in the Press).

Cape's Geometry. R1-4.

„ **Mechanics.** R1.

Military Topography. 8a.

* Originally published at R15, reduced to R8.

HINDUSTANI.

Elements of Hindustani Grammar (in the Press).

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in English-Urdu. R1.

History of India (*Itihas Timirnásak*), Hindi, Parts I and II, each part 4a.

Short Account of Ganges Canal (English and Urdu) 8a.

NOTE AND FIELD-BOOKS, etc.

Note-Books (Section paper), large and small. Each R1-4.

Surveying Field-Books (ruled). R1.

Levelling Field-Books (English Pattern). R1-8.

„ „ (Canal „). R1-8.

„ „ (College „). R2-0.

P. W. D. Note-Book. R1-4.

„ **Measurement Book.** R1-4.

Circular Card-board Protractors, 12 inches (exclusive of packing). R1-8.

GEORGE WATT,
Reporter on Economic Products to the Govt. of India.

CALCUTTA,
The 28th November, 1894.

FOR SALE.

Reports on the Inspection of Mines in India during 1893-94 and 1894-95. By JAMES GRUNDY, Inspector of Mines in India (1894 and 1896). Price R1 and R2, respectively.

To be had on application to the Registrar, Geological Survey of India, Calcutta.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870 —

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage.			With postage.

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

Ditto. Urdu version. Royal 8vo., stiff boards. 6a.

A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Volume VI, Parts I, II, III, & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names, habitat or source, history, properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

* Volume I contains the letters A and B, and consists of 559 royal 8vo pages, Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI), but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

Technical Art Series published up to 1894, together with their explanatory Text—

1886-87, 6 Plates with Text R1-8 a set (4a)
1888-89, 18 Plates with Text R4-8 a set (8a)

PART I.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Simla, the 7th October, 1896.

No. 1524.—Under the provisions of section 27 of the Indian Arms Act, 1878, the Governor General in Council is pleased to exempt the retainers of Raja Raghoji Rao of Deor in the Central Provinces from the operation of all prohibitions and directions contained in sections 13, 14, 15, and 16 of that Act, other than those referring to cannon, articles designed for torpedo service, war-rockets, and machinery for the manufacture of arms and ammunition, subject to such orders as the Chief Commissioner may issue regarding the number of weapons and of retainers to be included within this order of exemption.

ESTABLISHMENTS.

The 8th October, 1896.

No. 747.—Mr. J. R. Maconachie has been permitted to resign Her Majesty's Indian Civil Service, with effect from the 23rd August 1896.

The 9th October, 1896.

No. 753.—Mr. W. C. Benett is permitted to resign Her Majesty's Indian Civil Service, with effect from the 24th October 1896, or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave.

MEDICAL.

The 9th October, 1896.

No. 894.—With reference to the Notification in this Department No. 167, dated the 18th June 1895, Surgeon-Major S. J. Thomson, I.M.S. (Bengal), is confirmed in the appointment of Sanitary Commissioner, North-Western Provinces and Oudh, with effect from the date on which he assumed charge of the office from Brigade-Surgeon Lieutenant-Colonel G. Hutcheson, M.D.

SANITARY.

The 5th October, 1896.

No. 259.—In exercise of the power conferred by section 3 of the Pilgrim Ships Act (XIV of 1895), the Governor General in Council is pleased to appoint the sixth day of October, 1896, as the day on which the said Act shall come into force.

No. 260.—In exercise of the power conferred by section 19, sub-section (1), of the Pilgrim Ships Act (XIV of 1895), the Governor General in Council is pleased to order that every pilgrim ship shall contain, in the first or upper between-deck, at least twelve superficial feet and seventy-two cubic feet, and, in the second or lower between-deck, at least sixteen superficial feet and ninety-six cubic feet, of space available for each pilgrim.

No. 261.—In exercise of the power conferred by section 5, clause (1), of the Pilgrim Ships Act (XIV of 1895), the Governor General in Council is pleased to direct that, in the computation of pilgrims for the purposes of the said Act and the rules thereunder, two persons of the age of one year and upwards and under the age of twelve years shall, unless otherwise expressly provided, count as one pilgrim.

No. 262.—In exercise of the powers conferred by section 58 of the Pilgrim Ships Act (XIV of 1895), the Governor General in Council is pleased to make the following rules:

1. In these rules "the Inspector" means the officer appointed by the Local Government under section 8, or the person authorized by such officer as aforesaid under section 9, of the Pilgrim Ships Act (XIV of 1895), hereinafter referred to as "the Act," and "section" means a section of the said Act.

2. The Inspector shall, on receiving the notice required by section 8, himself proceed, or give written authority to some competent person on his behalf, to inspect the ship, her provisions, medical stores, equipments, ventilation, fittings, etc., and shall satisfy himself by such inspection that they meet all prescribed requirements.

3. The certificates A and B required under sections 11 and 12 shall be given in Forms Nos. I and II appended to these rules and that required under section 24 in Form III.

4. No certificate under section 12 shall be granted between May 20th and September 20th in any year in respect of a ship of a tonnage of less than 500 registered tons, or which is not capable of steaming at least eight knots an hour in ordinary monsoon weather; nor shall such a certificate be given unless all the arrangements required by these rules have been made to the entire satisfaction of the Inspector.

5. The Inspector shall see that in all cases where the number of pilgrims exceeds 100, the Medical Officer of the ship is present at the official inspection and that such Medical Officer has had an opportunity of satisfying himself as to the completeness of the arrangements made for the accommodation and care of the pilgrims under these rules; and shall require such Medical Officer to furnish a certificate to that effect in Form X and to sign the second of the certificates prescribed by rule 57.

Boats, anchors and cables.

6. (*1*) Every pilgrim ship shall be provided with boats, two of which shall be life-boats, according to the following scale :

Registered tonnage of steam-ship.	Number of boats not less than	Minimum cubic contents of life-boats. Feet	Minimum cubic contents of all the boats of the ship.
Less than 800 tons	5	330	1,730
800 tons and less than 1,000 tons	6	330	2,045
1,000 tons and less than 1,250 tons	6	900	2,545
1,250 tons and less than 1,500 tons	6	900	3,000
1,500 tons and upwards ...	7	928	3,600

NOTE —The cubic contents of the boats in the above table are ascertained by multiplying their outside length, their outside width and their inside depth together, and then the product by 0.6.

(*2*) Every boat shall be supplied with two fresh-water breakers, two small tin-lined lockers fitted under the side seats in the stern and each capable of holding about 50 lbs. of biscuit, and a tightly spread canvas cover.

(*3*) Every boat shall be provided, to the satisfaction of the Inspector, with masts, sails, painters, oars, rowlocks or tholes, rudder and tiller, boat hooks, plugs and breakers, all properly secured

(*4*) A hatchet or tomahawk shall be kept in each end of every life-boat, in good order and secured by a lanyard, a life-jacket or belt for each oarsman, and one for the cockswain, shall also be provided and a life-line in loops shall run round the outside of the boat and be securely made fast.

7. Boat drill shall be practised at least once a week.

8. Every pilgrim ship shall be provided with three bower anchors of such weight, and with cables of such length, size and material as are, in the judgment of the Inspector, sufficient.

Instruments for purposes of navigation.

9. Every pilgrim ship shall be provided with—

(*a*) not less than three good ship's compasses and two boat's compasses and with a record of the deviation of her compasses on every point, entered in the log-book ;

(*b*) Admiralty or Indian Government charts and sailing directions suitable for the voyage she is about to undertake ;

(*c*) Not less than two chronometers and not less than two sextants or quadrants and barometers, one of the latter being a mercurial barometer ;

(*d*) A deep-sea leadline and lead.

Apparatus for extinguishing fires and precautions against fire.

10. (*1*) Every pilgrim ship shall be provided with—

(*a*) hose capable of being connected with the engines of the ship, and adapted for extinguishing fire in any part thereof ; and

(*b*) fire-buckets in the proportion of three for every 100 tons of tonnage up to 600, and two for every 100 tons above 600 : Provided that not more than 50 fire-buckets need under any circumstances be carried.

(2) If fire-annihilators or fire-engines are carried, they shall be placed by the Master in charge of one of the principal officers of the ship and the ship's carpenter, who shall be held responsible that they, with the buckets and other fire apparatus, are kept in a state fit for immediate use *

11. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire; and fire-drill shall be practised at convenient times and at least once a week.

12. Immediately before leaving port, the passengers shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have with them.

13. No naked lights shall on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person shall be allowed to read in bed with a naked light. Smoking between-decks is strictly prohibited.

14. Cases containing spirits shall never be opened in the hold, but may be hoisted on deck for the purpose.

Appliances for saving life and making signals of distress.

15. Every pilgrim ship shall be provided, to the satisfaction of the Inspector, with a supply of life-buoys, with lines attached, of which not less than six shall be kept readily available on deck, and with inextinguishable lights fitted for attachment to the life-buoys. Every pilgrim ship shall also be supplied with an approved life-belt or other similar approved article of equal buoyancy suitable for being worn on the person, for each person on board, and such life-belts or other articles as aforesaid shall be so placed, to the satisfaction of the Inspector, as to be readily accessible.

EXPLANATION.—An "approved life belt" means a belt which does not require to be inflated before use and which is capable of floating in water for 24 hours with at least 15 lbs of iron suspended from it.†

16. Life-buoys shall be secured by toggle and becket or any similar method allowing of ready release, but shall not be lashed or seized to the vessel.

17. Every pilgrim ship shall carry such quantity of rockets and blue lights or other signals as the Inspector may deem adequate.

Fittings and other appliances to be provided in the upper and between-decks.

18. The Inspector shall see that sufficient ventilators are provided for the between-decks to give each pilgrim (a) in the first or upper between-deck 5 square inches, and (b) in the second or lower between-deck 10 square inches of ventilation-area exclusive of hatches and side scuttles, and so placed as to afford an equable diffusion of air through all parts. The ventilators of the second between-deck must act separately from those of the first between-deck, and, if pilgrims are carried on a second or lower between-deck, such lower between-deck shall be ventilated by artificial ventilation, such as Blackman's ventilator or a thermantidote approved of by the Inspector. The Inspector shall also see (i) that all air-holes affording a means of communication between the hold and the between-decks are closed so as to shut off, as completely as possible, the escape of foul air from the bilge, or steam from the cargo, into the between-decks; (ii) that the foul air from the hold and the between-decks respectively is carried in separate shafts above the uppermost deck; and (iii) that all ventilating shafts and tubes for the hold are so arranged as to act quite independently of those for the between-decks.

19. In the absence of hollow iron masts or other means of ventilating the hold, there shall be fitted at least four cowl-headed tubes (of a size to be approved by the Inspector) leading from the lower hold to the open air on the upper deck.

20 Every cowl-headed tube shall be provided with a strong plug for use, if necessary, in bad weather.

* Fire engines should be worked once a week to keep them in proper order.

† Life-belts should be cut out 2 inches under the armpits, and so fitted as to remain securely in place when put on.

21. Such provision shall be made for affording light to the between-decks as the circumstances of the case may, in the judgment of the Inspector, require. The pilgrims shall, moreover, have the free and unimpeded use of the whole of every hatchway situated over the space appropriated to their use, and over each hatchway there shall be erected such a booby-hatch or other substantial covering as shall, in the opinion of such Inspector, afford the greatest amount of light and air and of protection from sun and wet as the case will admit of.

22. The upper deck of every pilgrim ship shall be either of wood, or of iron or steel sheathed with wood and caulked.

23. Each hatchway shall be provided with a large tarpaulin tent which can in bad weather be spread well over it and securely fastened so as to keep out rain and let in fresh air, and in fine weather be rolled up and put out of the way; and shall, except where arrangements exist for lowering the derrick boom in a way which will serve the purpose, also be fitted with a strong iron or wooden A-shaped frame for the support of such tent.

24. Every pilgrim ship shall have poop, quarter deck, waist and forecastle awnings complete and in good order, and six windsails distributed as the Inspector may direct. The awning and windsails shall be kept up so long as the weather does not render this impossible.

25. Strong ladders 2½ feet wide with hand rails of a convenient height shall be provided for every hatchway used as such and not merely as a ventilator; and, as additional means for women and children to hold on by, knotted hand-ropes shall be fastened conveniently near the ladders.

26. Hooks for hanging the required number of lanterns shall be fixed at convenient distances apart.

27. The space to be occupied by pilgrims must be kept clear from obstruction of any kind whatever, thoroughly clean and dry; and nothing, except life-belts with the consent of the Inspector given under rule 15, shall be slung up or stowed away between the beams. Every day while the pilgrims are on deck the between-decks shall be carefully cleaned and scrubbed with dry sand mixed with suitable disinfectants.*

28. Bamboos, ropes or strong rails shall be securely fastened fore and aft to the midship stanchions on the between-deck.

29. No timber or cargo of any kind, and only the necessary fittings properly secured and live-stock for consumption on the voyage, shall be allowed on the upper deck, which shall, save as aforesaid, be exclusivly reserved for the pilgrims †

30. A set of water-vessels, such as buckets and tin mugs, required by topases or others for use in the latrines, shall be exclusively set apart for such purpose; and they shall be marked or painted so as to be clearly distinguishable from those used for cooking or drinking purposes.

Food, fuel and water-supply.

31. Every pilgrim ship shall be supplied in accordance with the following scale with food, fuel and water, of good quality, conveniently stored and in quantity sufficient to supply the pilgrims on board during the intended voyage (including such detention in quarantine as may be probable):

For each pilgrim daily—

Rice	1 lb.	Tamarind	1 oz.
Flour or ship's biscuit ...	4 oz.	Condiments, chillies, garlic, coriander seed or turmeric	½ „
Pulse, dall	4 „	Salt	½ „
Ghee or Oil	1 „	Firewood, dry	2 lbs.
Onions	2 „	Drinking-water from iron tanks	1 gal.
Pumpkins, yams, or other vegetables	2 „		

* Calvert's powder in the proportion of 10 per cent. should be used.
† Pilgrims should be encouraged to use the upper deck as much as possible.

Provided that, in the case of drinking-water, the allowance hereby prescribed shall be provided for each pilgrim irrespective of his age.

A table of the rations of food and water in Persian, Urdu and Gujarati shall be posted up in a public place on the ship to be approved of by the Inspector.

32. Excepting fuel and water, which shall always be found by the ship, the articles in the above scale need not be provided for those pilgrims who have satisfied the officer appointed in this behalf under section 18 that they have on board food sufficient for their own use.

33. Every pilgrim ship shall, in addition to the requirements of the two last foregoing rules, have on board, either as cargo or stores, food sufficient, in the opinion of the Inspector, to provide for the pilgrims in the event of an accident to the ship's machinery.

34. (*1*) Every pilgrim ship shall be provided with caboose accommodation sufficient to cook for the total number of pilgrims on board, and such accommodation shall in no case consist of less than two cabooses or cooking ranges placed on deck, properly housed and covered, to which the pilgrims shall have free access between the hours of 6 A.M. and to 9 P.M.

(*2*) All cooking ranges shall be made of substantial plate-iron lined inside with bricks and raised at least four inches from the deck, with an outlet or chimney at top for the escape of smoke. Each range shall contain five or six cooking places, and the Master shall see that fires adequate for cooking are kept lighted at them from 6 A.M. to 9 P.M. An additional range shall be provided for every 200 pilgrims carried in excess of 100. Cooking on board in pilgrims' private stoves is prohibited.

(*3*) The Inspector may require the Master to provide such number as such Inspector may think necessary of Muhammadan cooks, not exceeding three per hundred pilgrims (exclusive of pilgrims who have on board their own supplies and desire to cook for themselves).

35. The crew of the ship shall not be allowed to use the cooking ranges or latrines set apart for pilgrims while pilgrims are on board, but shall be provided with a separate cooking range and latrine.

36. Each ship shall be fitted with a condenser or distilling apparatus of sufficient capacity to produce at least one gallon of drinking-water a day for every person on board of whatever age, including the crew.

37. No certificate under section 13 shall be granted unless the condenser can not only supply the minimum quantity of water prescribed under rule 36 for each person on board, but also yield every 24 hours 500 gallons of pure, cold water fit to drink.

38. The tanks for storing drinking-water on board shall not be placed near the latrines. They shall be protected from all filth, and shall be so closed that the distribution of the water can be effected only by means of pumps or from taps with lock and key fitted to the tanks.

39. The water of any tank pronounced bad by the Medical Officer of the ship shall be immediately rejected and pumped out and the tank cleaned out before being refilled.

40. If there is any doubt as to the quality of the drinking-water stored, or as to the possibility of its pollution, either at its source or in the course of the voyage, it shall be well boiled; and it shall be thrown into the sea as soon as it is possible to obtain a purer supply. All water taken on board at any port and intended to be issued as drinking-water shall invariably be boiled before it is distributed.

41. Every condenser or distilling apparatus shall have a separate engine for working the circulating cold-water pump, and under no circumstances shall this engine be used for any other purpose than that of feeding the boiler of the condenser.

42. The arrangements for discharging the circulating water from the condenser shall be such that it can be delivered into buckets or connected with a hose for the purpose of washing decks, or extinguishing fire, as well as discharging over the ship's side. A suitable hose and connection shall also be provided.

43. Either upright or horizontal boilers may be used for condensers. Each boiler shall be furnished with a steam-gauge indexed to double the working pressure, a glass water-gauge and two separate gauge-cocks, one safety-valve and two mud-hole doors for the purposes of cleaning.

44. The boilers and all machinery connected with condensers shall be properly covered in, and every wooden bulkhead in the vicinity of the boilers of condensers shall be covered with sheet lead weighing 4½ lbs. per square foot and securely fastened to such bulkhead.

45. All the piping in connection with the condenser, especially the main suction and the condensed water discharge-pipe, shall be laid in position safe from accident or otherwise securely encased.

46. The Inspector shall satisfy himself by actual experiment that the condenser is capable of performing the work required of it.

47. The Chief Engineer or some other competent person, to be approved by the Inspector, shall be appointed to have charge of the distilling apparatus and machinery connected therewith during the voyage.

48. No ship shall put to sea before the decks have been cleared of any loose straw, hay or other inflammable material, and all the cargo has been properly stowed away.

Cargo.

49. No petroleum as defined in the Petroleum Act (XII of 1886), or explosive as described in the Indian Explosives Act (IV of 1884), nor any inflammable oils, spirits, jute or coal (except such coal as is required for the voyage and the return voyage to India), nor any commodity likely, by reason of its quantity, quality or mode of stowage, to be prejudicial to the safety of the pilgrims, shall be taken as cargo or part of the cargo.

Allotment of upper deck space.

50. No cabin shall be provided for any pilgrim on the upper deck unless space remains unallotted on that deck after providing the accommodation required for the permanent and temporary hospitals, latrines, and six superficial feet for every pilgrim carried in the between-decks. Such space as remains unallotted after making provision for these requirements may be reserved for the accommodation of pilgrims in cabins containing not less than 12 superficial and 72 cubic feet of space. No pilgrim shall be furnished with reserved accommodation on the upper deck except in a cabin.

51. The deck space may be distributed between the 1st and 2nd class pilgrims as the Master or owner may desire: provided that each pilgrim of the lowest class has six feet of deck space provided for him.

Amount and distribution of baggage.

52. Pilgrims' heavy baggage shall be registered and numbered under the supervision of the Master the day before the ship sails, and shall be deposited in the hold before the ship leaves her moorings. Pilgrims shall be allowed to keep with them only such articles as are absolutely necessary: Provided that the articles so kept do not exceed one maund (82 lbs.) in weight for each adult pilgrim or, in the case of pilgrims who, in accordance with the provisions of section 18, are allowed to provide their own food for the entire voyage, one maund and a half.

Hospital accommodation, medical stores, and arrangements for maintaining health, cleanliness and decency.

53. (*1*) The hospital accommodation required under section 21 shall be provided on the upper deck either in the poop or in a deck-house. A permanent

hospital shall be provided containing not less than six bunks, and having a deck area of at least 144 superficial feet and dimensions of not less than 864 cubic feet. On every pilgrim ship on which there are 50 or more female pilgrims, there shall be a separate permanent hospital, containing not less than two bunks with a deck area of at least 72 superficial feet and dimensions of not less than 288 cubic feet, which shall be reserved for the use of women and children under 12 years of age. The hospitals shall be lighted and ventilated to the satisfaction of the Inspector and shall be provided with permanent raised floors or platforms at least four inches off the deck. They shall be made as secure as any other deck-house, and the roof shall be well caulked and covered with painted canvas.* No case of small-pox, cholera, yellow fever or plague shall on any account be treated in a permanent hospital.

(2) Materials shall be carried for the construction on the upper deck of a separate temporary hospital for the treatment of such cases of sickness as it may be considered desirable specially to segregate (such as small-pox, cholera, yellow fever or plague) and for any general outbreak of sickness in the event of the permanent hospital accommodation becoming insufficient. The part of the upper deck upon which such hospital shall, if required, be erected, shall be pointed out and measured off by the Inspector. The frame-work of the hospital shall be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos The roof shall be tented, and both that and the side walls shall be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor† shall be not less than 144 square feet, and the floor shall be raised at least 4 inches from the deck In cases of sickness of the kind referred to in this rule, only the Medical Officer and the person or persons charged with the duty of looking after the patients shall have access to them, and, except the Medical Officer and medical attendants referred to in rule 69, none of those who have had access to such patients, shall be permitted to come into contact with the other persons on board.

54. A suitable dispensary to be approved by the Inspector shall be provided on the upper deck.

Medical stores, etc.

55. The following articles shall be provided according to the following scale and supplied gratuitously to the pilgrims on board at the discretion and by the direction of the Medical Officer, namely :

For any number of pilgrims not exceeding 100 (proportionate quantities to be provided for pilgrims in excess of that number)—

Sago	... 5 lbs.
Arrowroot in tin case	... 10 „
Preserved milk‡ (1 lb. tins)	... 1 dozen.
Liebig's extract of meat in 2 oz tins or jars ...	... 1 lb.
Sugar	... 5 lbs.
Rum	... 1 quart bottle.

56. The following medicines and medical appliances shall be provided on the scale indicated below in the case of each at the discretion and by the direction of the Medical Officer :

(Weights and measures of the British Pharmacopœia.)

Names of medicines, etc	Scale for 100 passengers.	Notes.
Acidum, boricum	2 oz.	MISCELLANEOUS ARTICLES FOR ONE HUNDRED PILGRIMS.
„ carbolicum (cryst.)	1 „	Fresh vaccine lymph, 6 tubes.
„ nitro-hydrochloricum dilutum ...	1 „	Adhesive plaster (in tin case), one yard.

* The fittings used in constructing permanent hospitals should be of iron in preference to wood.
† For flooring sheet iron is the best material.
‡ The contents of a pound tin of preserved milk mixed with half a gallon of water make good milk.

Names of medicines, etc.	Scale for 100 passengers
Acidum, sulphuricum dilutum ...	1 oz.
„ tartaricum	2 „
Æther sulphurus	½ „
Alumen (in powder) ...	2 „
Ammonii carbonas	2 „
Argenti nitras	¼ „
Borax	½ „
Calomel	¼ „
Chlorodyne	2 „
Chloroformum	1 „
Cocainæ solution, 10 per cent.... ...	¼ „
Copaiba	1 „
Creasotum	¼ „
Glycerinum	1 „
Hydrargyrum cum creta . .	½ „
Iodoformum	1 „
Ipecacuanha valoid, fluid extract	½ „
Linimentum camphoræ compositum ..	2 „
Lini farina	2 lbs in tin case.
Liquor ammoniæ	1 oz
Liquor ammonii acetatis .	6 „
Liquor epispasticus fortior	¼ „
Liquor morphinæ hydrochloratis .	½ „
Chrysarobinum	¼ „
Magnesii carbonas	¼ „
Magnesii sulphas in tins . ..	3 lbs
Oleum Caryophilli ..	¼ oz.
„ menthæ piperitæ	¼ „
„ ricini	2 pints
Phenacetin	¼ oz
Pilula assafœtidæ composita .. .	1 doz.
„ colocynthidis et hyoscyami ...	2 „
„ plumbi cum opio B. P.	4 „
„ scillæ composita	4 „
Potassii bromidum	1 oz
„ chloras	1 „
„ nitras	2 „
„ permanganas	2 „
Pulvis ipecacuanhæ, 5 gr. powders ...	1 doz.
„ ipecacuanhæ compositus in 5 gr. powders.	4 „
„ Jalapæ compositus ...	1 oz.
Quininæ sulphas in 3 gr. pills	4 doz.
„ sulphas in bulk	2 oz.

Notes.

MISCELLANEOUS ARTICLES FOR ONE HUNDRED PILGRIMS—*contd.*

Calico, two yards.

Flannel, ditto.

Lint, four ounces.

Bandages (roller), half a dozen.

Paper for powders, etc , one quire.

Corks for bottles, 1 dozen.

Cotton-wool (country), 1 lb.

Bed-pans (metal), one.

NOTE.—The preparations of ammonia, ether, chloroform, iodine, and all acids should be in well stoppered bottles.

Chloroform should be in blue glass or covered from light by dark paper.

All the drugs, etc., must be properly labelled with the quantities marked on each label.

"Poisons" should be specially distinguished by labels with the word "Poison," on them.

Pocket dressing case [to contain 1 probe, 1 director, 1 female catheter, 1 clinical thermometer (in case), 1 pair of scissors, 1 dressing forceps, plated, 6 suture-needles, 1 artery forceps, 1 Symes' abscess knife, 1 straight and 1 curved bistoury in 1 handle 1 lancet (bleeding) silk thread for sutures (20 grains)].

Table showing the quantities of medicines, etc., to be supplied according to the above scale for more than 100 pilgrims.

Number of pilgrims	Quantity.	
Above 100 to 250	½ more than	the quantity prescribed according to scale per 100 pilgrims and so on.
,, 250 to 350	Twice	
,, 350 to 450	Thrice	
,, 450 to 550 ...	Four times	
,, 550 to 650 ...	Five times	

57. The following certificates showing that medicines, etc., have been duly supplied and received according to the above scale shall be produced before the Inspector at the time of the inspection

(1) Certified that we have supplied medicines, etc., for——pilgrims proceeding to—— in the S.S ——according to the above scale, [or we have supplied medicines, etc., in making up deficiencies in existing stock up to the above scale].

Dated *Chemists.*

(2) Certified that I have carefully compared the above list with the medicines, etc., examined by me on board the pilgrim ship- and am satisfied that they are all correct.

Medical Officer.

Dated *Ship* *Health Officer.*

5[illegible]. (1) Every pilgrim ship shall carry a disinfecting stove approved by the Health Officer of the Port in British India at which the voyage is to commence.

(2) Articles of bedding, carpets and clothes used by patients who have been affected with cholera, as well as by persons who have had access to such patients, shall be immediately disinfected. Such of these articles as have little or no value shall be thrown into the sea, or, if the ship is in a port or canal, be destroyed by fire. All such articles as are not destroyed shall be carried to the disinfecting stove in impermeable bags sprinkled with a solution of corrosive sublimate.

(3) The excreta of the sick shall be collected in vessels containing a disinfecting solution and the latrines in which these vessels are emptied shall be thoroughly disinfected after each operation.

(4) Articles which have come into contact with persons suffering from cholera shall be thoroughly disinfected in the following manner:

(a) Articles so contaminated or suspected of being so contaminated shall, unless they are liable to be destroyed by exposure to heat, be disinfected in the disinfecting stove under pressure, the stove being maintained at a temperature (to be tested during each operation) of 220° Fahr. and the articles exposed to this temperature for 15 minutes.

(b) Articles liable to be destroyed by exposure to the heat of a disinfecting stove, such as metals, leather, tables, lockers, etc., shall be disinfected by being washed with a disinfecting solution.*

(5) Ships on which cases of cholera have occurred shall be disinfected in the following manner:

(a) The cabins† and all parts of the ship occupied by cholera patients or those suspected to be suffering from cholera shall be emptied, and all articles removed disinfected as above.

(b) The interior sides, bulkheads, floors and decks of the ship shall be washed with the corrosive sublimate solution with the addition of 10 per cent. of alcohol (i.e., one gallon of methylated alcohol to every 10 gallons of the corrosive sublimate solution),‡ and two hours after washing, scrubbed, and then thoroughly washed down with plenty of water.

(c) The hold of the ship shall be strewn from time to time with a sufficient quantity of iron sulphate to neutralize the sulphuretted

* One of the following disinfecting solutions should be used

(a) Corrosive sublimate in the following proportion:

Corrosive sublimate, ¼ oz

Hydrochloric acid, 1 oz.

Water, 3 gallons

Fuchsin or eosin, 5 grains.

(b) Pure phenic acid, five parts in 100 parts of water

(c) Fresh slaked lime.

The different disinfecting solutions are useful for the following purposes

(a) Linen clothes and articles soiled by the evacuations of cholera patients should be put into the corrosive sublimate solution

(b) Persons in attendance on the sick should use the corrosive sublimate solution, when washing themselves in the proportion of one part of the solution to 2,000 parts of water.

(c) Phenic acid should be used to disinfect articles which cannot be exposed to a temperature of 230° Fahr. or to contact with sublimate solutions, such as metals, instruments, etc.

(d) Slaked lime is specially useful to disinfect the evacuations of cholera patients; in the absence of slaked lime phenic acid will answer the same purpose. When slaked lime is used for disinfecting liquids, it should be used in the proportion of three lbs. of lime to ten gallons of the liquid to be disinfected.

† For the purpose of fumigating cabins and confined space, one ounce of sulphur should be burnt for every 30 cubic feet of the space to be fumigated, the cabin or other space being completely closed during the operation and kept so for twelve hours.

‡ The washing should commence from the top, horizontally and downwards, so that the whole surface becomes covered with a coating of the solution in fine drops.

hydrogen, and the water in the hold shall then, unless the ship is in dock, be pumped out, and the hold washed with sea-water and sprinkled with the corrosive sublimate solution.

59. Pilgrims shall air their clothing, blankets, etc., as often as required to do so by the Medical Officer.

60. The following articles and appliances shall be supplied on the scale shown below:

Iron boilers with covers—

For rice (large) .	According to the number of pilgrims to be fed by the ship.
,, dall or curry (small) .	

Iron ladles —

For rice (large)	According to the number of pilgrims to be fed by the ship.	
,, dall, etc (small) ...		
Iron spoons, tinned ..	4	To each 1 lg (?)
Curry-stones, with mullers	4	
Sieves for cleaning rice, etc	6	
Gallon measure	1	
Half gallon measure	1	
Quarter gallon measure ...	1	
Scales and weights or A spring balance	1	
Block-tin saucepans, for hospital use exclusively, from pint to 1 gallon	3	
Hatchets for cutting wood	2	
Knives	2	

Safety lanterns with lock and key to each. — Besides 3 for hatchways, 2 ,, latrines, 1 ,, hospital, and 1 ,, Surgeon which are to burn all night, there shall be one additional lantern for every 100 pilgrim on board and each such lantern shall burn for three hours every night.

Oil with wicks, or candles to fit lantern — Sufficient for seven lanterns to burn at least ten hours, and for the rest to burn at least three hours of every night of the voyage.

Soap	1 lb per pilgrim.
Buckets (galvanised iron)	2 for every 100 pilgrims.

Tubs (large) for bathing or washing ...	4	To each pilgrim ship. *All these should be specially marked for privy use.
*Tubs (smaller) for latrine use .	4	
*Tin pots for latrine .	12	
Tin pots for pilgrims suffering from sea-sickness	12	
Canvas bathing screens for the use of women	2	
A dirt-shoot, moveable	1	
Deck scrapers	12	
Sand	1 ton.	
Holystones or hard bricks ..	50	
Swabs or squeezers ...	18	
Brooms (country) ..	50	

61. (1) Every pilgrim ship shall be fitted with not less than two latrines, apart from those for the use of the crew, sufficiently screened from public view and readily accessible. If there be any females among the pilgrims, one latrine shall be screened off and set apart for the exclusive use of females. There shall be an additional latrine for every 100 pilgrims, or fraction of that number in excess of 100, and if there be more than 100 female pilgrims on board, the number of latrines reserved for their use shall be increased in the proportion they bear to the total number of pilgrims. The latrines shall be provided with seats at the rate of not less than three for the first 100 pilgrims and at the rate of three for every additional 100 pilgrims. No latrine shall be allowed either between-decks or in the hold.

(2) Every latrine shall be firmly secured in a convenient and accessible place on the upper deck and close to the bulwarks. It shall not project over the side of the ship, but shall be so placed that the soil-shoot of the latrine floor may lead directly out of a port or other opening, and well clear of the ship's side. Every latrine shall be divided into separate and private compartments. Each compartment shall be not less than three feet by two in size and shall have a separate entrance with door and be fitted with a seat or a pair of foot-boards having a free opening or hole in the centre. Every such opening shall communicate directly with the floor beneath common to all openings. The floor continued into the shoot, and having a good fall towards it, shall be made either of a continuous sheet of metal, or of wood continuously lined with sheet lead or zinc. The floors and shoots of the latrines shall be painted with coal tar liberally laid on. There shall be a troughed opening at each of the ends or sides of the latrines a little above the level of the floor, but below that of the seats of foot-boards, to enable the floors to be freely flushed from the outside. Every compartment shall be well ventilated by means of such openings as will not interfere with privacy, and shall be sufficiently lighted by means of a lantern so placed in the latrine as to throw light into the compartment.

(3) All latrines shall be kept in good order, and cleaned and disinfected three times a day. They shall be constantly flushed by pipes laid on to them, the deck immediately about them being enclosed with a ridge of wood about two inches high to prevent the water used for flushing from finding its way to other parts of the deck.

(4) Not less than two sweepers shall be employed on every pilgrim ship, and one additional sweeper shall be employed for every 100 pilgrims in excess of 100 up to a maximum of five sweepers when the total number of pilgrims does not exceed 1,000. For every 100 or fraction of 100 pilgrims in excess of 1,000 one additional sweeper shall be employed up to a maximum of eight sweepers.

(5) Every pilgrim vessel shall be provided with at least two urinals.

62. Every ship shall be provided with not less than one place for washing on each side of the deck, sufficiently screened from public view, whereof a full proportion, as prescribed in the case of latrine accommodation, shall be set apart exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea-water for purposes of ablution.

Medical Inspection.

63. The medical inspection of female pilgrims shall be carried out either by lady doctors or, under the supervision of the Medical Officer appointed by the Local Government under section 32, by women appointed by the Local Government in this behalf.

64. No articles found by the Medical Officer referred to in the last foregoing rule to have been contaminated by persons suffering from cholera or choleraic indisposition, or from a disease which in his opinion is dangerously infectious or contagious, or suspected by him to have been so contaminated, shall be taken on board a pilgrim ship until they have been disinfected under his orders in the manner prescribed by rule 58.

65. No pilgrim otherwise entitled shall be prevented from embarking save for any of the causes specified in section 32, sub-section (2).

Issue of tickets and refunds of passage-money.

66. (1) The ticket which every pilgrim is, under section 35, entitled to receive—

(a) shall be sold from a book with counterfoils,

(b) shall be denoted by a serial number which shall also be stamped on the counterfoil, and

(c) shall be of canvas paper or parchment, and not less than 4½ inches long by 3 inches wide.

(2) On the ticket and its counterfoil shall be inscribed:

(a) the name of the holder, or, if the holder be a female, the name of the pilgrim whom such female is accompanying, and

(b) the cost in words in Urdu, or in some other vernacular language approved by the Local Government.

The cost of a ticket shall not include any taxes other than the fixed dues leviable at Camaran and Jeddah.

67. (1) Every intending pilgrim who, having purchased a ticket, has not been permitted to embark under the provisions of section 32, sub-section (2), or who, having been received on board a pilgrim ship, has been removed from it in accordance with the provisions of section 33, sub-section (2), or who is from other unavoidable cause, such as the detention of any member of his family under either of the provisions aforesaid, prevented from proceeding to the Hedjaz, shall be entitled to receive back from the owner or agent of the ship the amount paid by him as passage-money.

Bombay Act III of 1887.

(2) It shall be the duty, in the case of pilgrims at Bombay, of the Protector of Pilgrims appointed under the Protection of Pilgrims Act, 1887, and in the case of pilgrims at any other port, of such officer as the Local Government may appoint in this behalf, to see that refunds of passage-money are promptly made to intending pilgrims entitled to them under this rule.

(3) The officer making an inspection under section 32 or section 33 shall, in case of such refund becoming due, impress on the pilgrim's ticket the words "Not permitted to proceed on voyage;" and such pilgrim shall thereupon be entitled, on presentation of the ticket so cancelled at the office of the owner or agent, to a refund of the passage-money paid by him.

The Master, Owner, etc.

68. Besides complying with the foregoing rules so far as they concern him, the Master shall give the notice required under section 8 in Form No. IV appended to these rules, and shall produce, before the Inspector at the time of his inspection, a certificate in the following form:

"Certified that it is proposed to issue tickets to pilgrims and to provide accommodation as follows.

"On the voyage of the pilgrim ship proceeding to——

Class of pilgrims.	Maximum number of tickets to be issued	Special accommodation and privileges (if any) to be reserved for each class.
Class I		
" II		
Pilgrims of the lowest class		

Dated

(Signed)————

Master.

69 In the event of a ship being engaged to carry more than 100 pilgrims, the owner, agent or Master shall appoint to it a Medical Officer licensed under rule 79. Such owner, agent or Master may make an application to the Local Government, in Form No. V appended to these rules, for a licensed Medical Officer to proceed in medical charge of the pilgrims with the ship, and the Local Government shall comply with such requisition. A second Medical Officer licensed under rule 79 shall be similarly appointed if the number of pilgrims exceeds one thousand. The owner, agent or Master shall also in the case of a ship engaged to carry more than 100 pilgrims appoint at least one male and, if there are any female pilgrims to be embarked, also one female attendant to assist the Medical Officer. In addition to the above attendants a compounder shall be engaged by the owner, agent or Master, if the ship is to carry more than 400 pilgrims. Such compounder and attendants must be approved of by the Health Officer at the port of departure and arrangements shall be made to the satisfaction of the Inspector for providing them with adequate accommodation on board ship.

70. The Master shall afford the Medical Officer every facility for examining the provisions, water and medical stores, and for making himself generally familiar with the arrangements made for the accommodation of the pilgrims about to be carried.

71. The Master shall cause the statements required by sections 22 and 25 to be prepared in Form No. VI appended to these rules.

72. The bond required by section 31 when a ship clears from any port in British India other than Aden for any port in the Red Sea shall be executed in Form No. VII appended to these rules.

73. Before sailing the Master shall obtain from the Port Health Officer a bill of health as prescribed in Form No. VIII appended to these rules.

74. The Master shall post up in the between-decks and in such other places accessible to the pilgrims as may be convenient copies of the Act and of these rules and all notices which he may be required so to post by the Commissioner of Police or other authorized officer at the port of first departure. All such copies shall be in English, French or German, and in Persian, Urdu and Gujrati. The Master shall afford every facility to the Port Officer, or other duly authorized officer or person, for making the official inspection of the ship, her equipment, ventilation, fittings, provisions and medical stores, and shall himself be present at such inspection.

75. The Master shall be jointly responsible with the Medical Officer for the care of the pilgrims on the voyage. He shall see that the special accommodation and privileges, if any, to which the pilgrims are entitled, are reserved to them without hindrance or diminution throughout the voyage; that the space in the upper and between-decks is not encroached upon; that all rules and regulations for securing cleanliness and order are carried out, and, as far as possible, that all reasonable requisitions of the Medical Officer are complied with.

76. The Master shall appoint one of the officers of the ship to the charge of the provisions and stores, to see to the punctual issue according to scale of the day's rations and water, and to assist the Medical Officer generally.

77. The Master shall, in the event of any pilgrim who is unaccompanied by any near relation dying on the voyage, if the ship returns direct from the Hedjaz to any British Indian port, take charge of the effects of the deceased and make them over, on the ship arriving in such port, with such particulars as to the name and residence of the deceased as he may have been able to gather, to the Commissioner of Police in Bombay, Madras or Calcutta, and elsewhere to the Magistrate of the District, or, in his absence, the Magistrate in charge. If the death occurs on the voyage to the Hedjaz, and the ship does not return direct to British India, the Master shall make over the effects, with particulars as above, to the British Consul at Jeddah.

78. The Master shall cause the supplementary statement, required by section 24 when additional pilgrims are taken on board at an intermediate port, to be

prepared in Form No. VI appended to these rules, the heading being altered to "Supplementary Statement required by section 24 of the Pilgrims Act, 1895."

The Medical Officer.

79. (1) Besides complying with the foregoing rules so far as they concern him, the Medical Officer of every pilgrim ship required by the Act to carry a Medical Officer shall be licensed by the Local Government and appointed by or on behalf of the owner of the pilgrim ship. Every person desiring to obtain a license to act as such Medical Officer shall apply for a license to the Local Civil Administrative Medical Officer of the province in which the port of first departure lies. At Jeddah such license may be granted, for the return voyage only, by the British Consul at that port.

(2) The license shall be renewable yearly, and shall be in Form No. IX appended to these rules.

(3) No person shall be eligible for appointment as a Medical Officer who is unable to write either English or French or German or Italian.

80. The Medical Officer shall, if not already attached to the ship, immediately on his being appointed to it, proceed on board, report himself to the Master, examine and check the medicines and medical stores, and inform himself generally as to the arrangements made for the accommodation of the pilgrims.

81. The Medical Officer shall also report himself personally to the Inspector with a view to receiving any instructions which that officer may have to give him in connection with his duties and the official inspection of the ship.

82. The Medical Officer shall be present at the final inspection, and, after it has been held and the ship and her arrangements approved, he shall, if satisfied regarding the arrangements for the care and comfort of the pilgrims made in accordance with the rules, furnish a certificate to that effect in Form No. X appended to these rules.

83. The Medical Officer shall provide himself with all the necessary instructions and forms required for the voyage.

84. The Medical Officer shall attend any Medical Officer appointed to inspect the pilgrims before embarkation under section 32, or after embarkation under section 33, and shall, with a view to special care or precautions on the voyage, watch those who may appear to be in an infirm or sickly state, and make a note regarding them in his diary.

85. The Medical Officer shall not leave the ship after the medical inspection has been completed. He shall see that the place set apart for the accommodation of the pilgrims is not encroached upon; that all the pilgrims have access to the upper deck; that good drinking-water is readily accessible and duly supplied; that the latrines are attended to by the ship's topases; that a supply of water is at hand for use in the latrines; that suitable hours have been fixed, in communication with the officer in charge of the stores, for the regular issue of daily rations to such of the pilgrims as have to be fed by the ship; and generally that every proper care is taken to secure cleanliness and good sanitary arrangements on board.

86. The Medical Officer shall satisfy himself that any additional passenger waiting to be taken on board at an intermediate port is not suffering from, or shows no signs or symptoms of choleraic indisposition or any disease which is, in his opinion, dangerously infectious or contagious.

87. The Medical Officer shall be jointly responsible with the Master for the care of the pilgrims on the voyage, and shall co-operate with the Master and officers of the ship for the welfare of the pilgrims.

88. During the voyage from any port in British India (except Aden) the Medical Officer shall for the first five days daily inspect the pilgrims and observe them individually to assure himself that none of them is affected with cholera, small-pox, yellow fever or plague.

89 The Medical Officer shall, if he has any doubt as to the quality of the drinking-water, draw the attention of the Master, in writing, to the provisions of rule 40.

90. The Medical Officer shall, should any case of infectious or contagious disease occur, satisfy himself that disinfection is performed in the manner prescribed by rule 58 and shall record in his diary the fact that he has done so.

91. (*1*) The Medical Officer shall keep up regularly, from day to day throughout the voyage, the following records in connection with his duties, *viz.*:

(*a*) a Medical Diary of the principal events of the voyage, briefly and accurately recording all facts in connection with the medical history of the pilgrims, including a record of any advice he may give to the Master, and of compliance with, or neglect of, such advice ;

(*b*) an Admission and Discharge Book of every case brought under treatment in Form No XI appended to these rules; and

(*c*) a Register of Deaths in Form No. XII appended to these rules.

(*2*) These records shall be written in either English, French, German or Italian.

92. On arrival at the port of debarkation in the Red Sea, the Medical Officer shall submit his diary and returns to the Consular authority there for transmission to the Government of India, and shall forward simultaneously a copy of them to the Inspector at the port in British India from which the voyage commenced, and on arrival at any British Indian port to the Chief Customs-officer, or to any officer authorized under section 25 to receive the statements referred to in that section.

No. I.

Certificate (A) under section 11 of the Pilgrim Ships Act, 1895.

I, , duly appointed and authorized to grant certificates under section 11 of the Pilgrim Ships Act, 1895, do hereby certify that the ship , register tonnage tons, being a pilgrim ship within the meaning of the said Act, and now riding at anchor at , and ready to proceed on a voyage to , is sea-worthy, properly equipped, fitted, and ventilated, and that she is capable of carrying pilgrims.

No. II.

Certificate (B) under section 12 of the Pilgrim Ships Act, 1895.

I, , duly appointed and authorized to grant certificates under section 12 of the Pilgrim Ships Act, 1895, do hereby certify that the ship of , being a pilgrim ship within the meaning of the said Act, and having on board pilgrims, lists of whose number and sex have been furnished by , the Master of the said ship, and ready to proceed on a voyage to , the intermediate ports at which she is intended to touch being , has the proper complement of officers and seamen, that she is principally propelled by steam, that (in cases when tonnage or steam-power have been prescribed) she is of the prescribed tonnage and steam power; that she has sufficient and suitable cooking, hospital, washing and latrine accommodation on board, that the provisions, fuel and pure water and other stores prescribed for such ships by the rules under the said Act, are of good quality and properly stowed or packed, and are sufficient according to the scale for the time being fixed by the said rules; and that the said provisions, fuel and water are sufficient for days, the probable duration of the said voyage, and also sufficient to provide the pilgrims with food in the event of an accident to her machinery; that is to say, water and fuel sufficient for the whole number of pilgrims and provisions sufficient for pilgrims, the remaining, *viz.*, pilgrims, finding their own provisions.

I also certify [in the case of a ship to carry more than 100 pilgrims] that she has on board the Medical Officer [or Officers as the case may be] required by section 27 of the Act, and the attendants prescribed by rule 69 of the rules thereunder

I also certify that the Master of the said ship holds Certificate A as required by section 11 of the Pilgrim Ships Act, 1895, and that there is no cargo on board contrary to the provisions of rule 49 of the rules thereunder.

I do further certify that the full space required by the said Act has been appropriated to pilgrims on board

No. III.

Supplementary Certificate B under section 24 of the Pilgrim Ships Act, 1895.

I, , duly appointed and authorized to grant certificates under section 12 of the Pilgrim Ships Act, 1895, do hereby certify that the number of additional pilgrims taken on board the pilgrim ship from the port of is ; that the provisions, fuel and pure water (over and above what is necessary for the crew), and the other stores prescribed for such ships by the rules under the said Act, are of good quality and properly stowed or packed, and are sufficient according to the scale for the time being fixed by the said rules, and that the said provisions, fuel and water are sufficient for days, the declared duration of the said voyage, and also sufficient to provide the pilgrims with food in the event of an accident to her machinery; that is to say, water and fuel sufficient for the whole number of pilgrims on board, and provisions sufficient for the pilgrims remaining, *viz.*, pilgrims, finding their own provisions.

Dated at this day of 189 .

The 9th October, 1896.

No. 3143-*I.B.*—In exercise of the powers conferred by sections 47, 84, 85 and 135 of the Indian Railways Act (IX of 1890), as applied by the Notification of the Government of India, in the Foreign Department, No. 910-E., dated the 2nd May, 1890, to that part of the North-Western Railway which lies within the territories administered by the Agent to the Governor-General in Baluchistan as such Agent, the Governor-General in Council is pleased to issue the following orders:

I.—The general rules for working open lines of railway administered by the Government which were published under the Notification of the Government of India, in the Public Works Department, No. 118, dated the 21st March, 1895, in the *Gazette of India* for 1895, Part I, page 173, shall, as modified for the time being and from time to time for British India, apply to all portions of the said line of railway for the time being used for the public carriage of passengers, animals or goods.

II.—Subject to the modification prescribed in the Circular of the Government of India, in the Public Works Department, No. 18, Railway, dated the 2nd November, 1895, published in the *Gazette of India* for 1895, Part I, page 948, and any further modifications which may from time to time be prescribed for British India, the rules which were published with the Circular of the Government of India, in the Public Works Department, No. 7, Railway, dated the 19th April, 1895, in the *Gazette of India* for 1895, Part I, pages 336 to 338, and the directions contained in paragraphs 2 and 3 of the Resolution embodied in that circular shall apply to the aforesaid railway.

III.—The provisions of the Notifications of the Government of India, in the Public Works Department, No. 270, dated the 12th June, 1890, published in the *Gazette of India* for 1890, Part I, page 438, and No. 136, dated the 5th April, 1893, published in the *Gazette of India* for 1893, Part I, page 190, declaring railway administrations in British India to be liable to pay certain taxes in aid of the funds of local authorities, shall apply and shall be deemed to have applied (save as regards any tax actually paid or accrued due before the date of this Notification) with effect from the dates which they bear, respectively, to the administration of the aforesaid railway.

IV.—Clause (*ii*) of the Notification of the Government of India, in the Foreign Department, No. 1662-I., dated the 12th May, 1893, is hereby cancelled.

No. 1634-*G*.—Major A. Masters, Indian Staff Corps, Commandant, Central India Horse, substantive *pro tempore*, is appointed to be Political Assistant at Goona, with effect from the 19th September, 1896, and until further orders, *vice* Captain E. E. Robertson.

H. S. BARNES,
Offg. Secretary to the Government of India.

No. 1633-*G*.

Extract from the Proceedings of the Government of India, in the Foreign Department, dated Simla, the 9th October, 1896.

Read—Resolution of the Government of India, in the Home Department, No. $\frac{1\text{-Examinations}}{18-82}$, dated the 18th January, 1896.

OBSERVATIONS.—The above Resolution recorded in the Home Department extends to military officers permanently in civil employ the rules in force for the encouragement of the study of oriental languages among the Junior Members of the Indian Civil Service. The Resolution states that separate orders will be issued by the Foreign Department regarding the examination of officers of the Political Department in vernacular languages and on the particular proposal of the Chief Commissioner of Coorg.

RESOLUTION.—The Governor-General in Council has decided to adopt the suggestion made by the Chief Commissioner of Coorg. In future therefore the rules of the 2nd January, 1880, will apply to all officers of the Political Department of the Government of India, including military officers in permanent Political employ. Officers of the Political Department, including military officers in permanent Political employ, will also be eligible, under the rules obtaining in the adjoining Presidency or Province, for rewards for passing examinations in the vernacular languages spoken in the Agency or Province in which they are serving.

2. In the case of military officers in permanent Political employ the limit of time specified in rule VI of the rules of 1880 within which an officer can earn a reward for passing the Higher Standard, High Proficiency and Honour examinations respectively, may, for special reasons, be extended by the Government of India on the recommendation of the Resident or Agent to the Governor-General under whom the officer is serving.

3. The Governor-General in Council will be glad if the Governments of Madras and Bombay will cause similar orders to be issued in respect of officers in local political employ.

ORDER.—Ordered that a copy of this Resolution be forwarded* to Local Governments and Administrations and Political Officers under the Foreign Department; and to the Military Department for information and guidance.

* The Chief Secretary to the Government of Fort St. George.
The Chief Secretary to the Government of Bombay.
The Chief Secretary to the Government of Bengal.
The Chief Secretary to the Government of the North-Western Provinces and Oudh.
The Chief Secretary to the Government of the Punjab.
The Chief Commissioner of Assam.
The Chief Commissioner of Burma.
The Chief Commissioner of the Central Provinces.
The Resident at Hyderabad.
The Resident in Mysore.
The Agent to the Governor-General in Central India.
The Agent to the Governor General in Rajputana.
The Agent to the Governor General in Baluchistan.
The Agent to the Governor-General in Khorassan.
The Agent to the Governor General at Baroda.
The Political Resident in the Persian Gulf.
The Political Resident in Turkish Arabia.
The Resident in Nepal.
The Resident in Kashmir.
The General Superintendent of Operations for the Suppression of Thagi and Dakaiti.
The Political Officer in charge of the ex-Amir.
The Political Officer with Sardar Ayub Khan.

Ordered also that a copy of this Resolution be forwarded to the Home Department for information and any action considered necessary with reference to that Department's Resolution above quoted.

Ordered also that the Resolution be published in the *Gazette of India* for general information.

Second-Lieutenant Addington Dawsonne Strong, attached 36th (Sikh) Regiment of Bengal Infantry,—27th July 1896.

CANTONMENTS.

REGULATIONS.

No. 1117.—In exercise of the powers conferred by section 26, clauses (13) and (20), and section 27 of the Cantonments Act (XIII of 1889), the Governor-General in Council is pleased to make the following rules and to direct that they shall apply to the Cantonment of Kirkee:

1. The Cantonment Authority may, by notice in writing,—

Cesspools, receptacles for filth, and soaking of foul water, etc.

(1) require any person having control, whether as grantee, owner or occupier, of any land or building—

(a) to close any offensive cesspool belonging to the land or building, or

(b) to provide a receptacle (of a pattern, if any, approved by the Cantonment Authority) for filth accumulating on or in the land or building, or

(c) to keep in a cleanly condition (in such manner, if any, as may be prescribed by the notice) any receptacle provided for such filth, or

(d) to prevent the water of any private latrine, urinal, sink or bath-room, or any other offensive matter, from soaking, draining, flowing or being put from the land or building upon any road or public place or into any water-course or into any drain not intended for the purpose; or

Putting private latrine or urinal to public use.

(2) require the owner or other person having the control of any private latrine or urinal not to put the same to public use; or,

Conformity of private latrines and urinals with standard plan.

(3) if any plan for the construction of private latrines or urinals has been approved by the Cantonment Authority,—

(e) require any person repairing or constructing a private latrine or urinal not to allow the same to be used until it has been inspected by or under the direction of the Cantonment Magistrate and approved by him as conforming with such plan, or

(f) require any person having the control of a private latrine or urinal to rebuild or alter the same in accordance with such plan:

Provided that, on the application of any person to whom a notice under clause (e) or clause (f) of this rule is addressed, a copy of the approved plan shall be given to him by the Cantonment Magistrate free of charge; or

Removal of private latrine or urinal.

(4) require the owner or other person having the control of any private latrine or urinal which, in the opinion of the Cantonment Authority, creates a nuisance, to remove the latrine or urinal, and to substitute fresh earth, to such a depth, not exceeding two feet, as may be specified in the notice, for the earth on which the latrine or urinal stood; or

Roofing, etc., of private latrine, or cleansing of private latrine or urinal.

(5) require any person having control, whether as grantee, owner or occupier, of any land or building,—

(g) to have any latrine provided for the same shut out by a sufficient roof and wall or fence from the view of persons passing by or dwelling or working in the neighbourhood, or

(h) to cleanse with deodorants any latrine or urinal belonging to the land or building; or

Collection of offensive matter and rubbish for public removal.

(6) require any persons having control, whether as grantees, owners or occupiers, of any lands or buildings, who have allowed any offensive matter or rubbish to accumulate or remain thereon or therein, to collect the same and deposit it, for removal by the public conservancy establishments, at such times and in such receptacles or places as may be specified in the notice;

Provided that no person shall be required to deposit any offensive matter or rubbish in any receptacle or place situate at a greater distance than one hundred and fifty feet from the nearest boundary of his premises; or,

Provision of sufficient drainage.

(7) where any land or building is situate within one hundred feet of a public drain or of some other place set apart for the discharge of drainage, and the drains belonging to such land or building are, in the opinion of the Cantonment Authority, insufficient, require

any person having control of the land or building, whether as grantee or owner, or,

in the case of neighbouring lands or buildings, the several grantees or owners having control of the lands or buildings, conjointly,

to provide sufficient drainage within fifteen days from the service of the notice; or

Making or altering a private drain leading into a public drain.

(8) require any person to desist from making or altering any drain leading into a public drain; or

Altering, etc., public drain, or neglecting to provide culvert, or keeping insufficient culvert.

(9) require any person who is creating or likely to create a nuisance by—

(j) altering, obstructing or encroaching upon a public drain, or

(k) altering any path leading to his premises or any culvert under such path so as to obstruct the flow of water in or into any public drain, or

(l) impeding the flow of water owing to the absence or insufficiency of any culvert or water-course which he has undertaken to construct or is by law liable to construct or maintain,

to desist therefrom; or

Construction of private drain.

(10) require any person who is constructing or laying a drain to obey any directions which the Cantonment Authority may, on the advice of the Executive Engineer, think fit to give in order to ensure the completion of the work to its satisfaction; or

Covering of private drains.

(11) require any person or persons, being the owner or owners, and having control, of any drain or drains to provide and apply to the same within ten days from the service of the notice such covering as may be specified in the notice; or

Cleansing, etc., of private drain.

(12) require any person having the control of a drain,

within a period to be specified in the notice, to remove any obstruction from the drain, or to cleanse, purify, repair or alter the drain, or otherwise to put the same in good order.

Penalties.

2. Whoever fails to comply with any notice issued under rule 1 shall be punishable with fine which may extend to fifty rupees, and, in case of a continuing failure, with an additional fine which may extend to five rupees for every day after the date of the first conviction on which the failure is proved to have been persisted in;

and, if any person required by any such notice to perform any act fails to perform it, the Cantonment Authority may cause the Act to be performed and recover the cost from him.

Licenses required for carrying on of certain occupations.

3. (1) No persons of any of the following classes, namely:

(a) butchers and sellers of poultry, game or fish,

(b) persons keeping pigs for profit, and dealers in the flesh of pigs which have been slaughtered in India,

(c) persons keeping milch cattle or milch goats for profit,

(d) persons keeping for profit any animals other than pigs, milch cattle or milch goats,

(e) dairymen and buttermen,

(f) makers of bread, biscuits or cake, and sellers of bread, biscuits or cake made in India,

(g) sellers of fruit or vegetables,

(h) manufacturers of aërated or other potable waters, or ice, and sellers of the same,

(j) sellers of any medicines, drugs or articles of food or drink for human consumption (other than the flesh of pigs, milk, butter, bread, biscuits, cake, fruit, vegetables, aërated or other potable waters, or ice) which are of a perishable nature,

(k) sellers of water to be used for drinking purposes,

(l) washermen,

(m) dealers in hay, straw, wood, charcoal or other inflammable material,

(n) dealers in fire-works, kerosine oil, petroleum or any other inflammable oil or spirit,

(o) tanners and dyers,

(p) persons carrying on any trade or occupation from which offensive or unwholesome smells arise,

shall reside in any part of the cantonment for the purpose of carrying on their trades, callings or occupations, unless they have obtained a license from the Cantonment Authority:

(2) Provided as follows:

(i) a license shall not be withheld if the applicant is willing to comply with such conditions as the Cantonment Authority may consider it necessary to impose under rule 4;

(ii) no person who may, when these rules come into force, be carrying on his trade, calling or occupation in any part of the cantonment shall be bound to obtain a license for carrying on such trade, calling or occupation in that part until he has received from the Cantonment Authority not less than three months' notice of his obligation to do so;

(iii) if the Cantonment Authority refuses to grant a license to any person mentioned in clause (ii) to carry on his

trade, calling or occupation in such place, it shall pay him reasonable compensation for any loss incurred by reason only of such refusal.

(3) No charge shall be made for any license granted under this rule.

Conditions which may be entered in such licenses.

4. A license granted to any person under rule 3 shall specify the part of the cantonment in which the licensee shall reside for the purpose of carrying on his trade, calling or occupation, and may contain any conditions which the Cantonment Authority may think fit to impose with respect to the following matters, namely:

(a) in the case of butchers, and sellers of poultry, game or fish,—

(1) the apparatus and coverings to be used in the operations of their trade,

(2) the places at which, and the manner in which, meat, poultry game or fish may be exposed for sale, and

(3) the disposal of meat, poultry, game or fish when found to be unfit for human consumption:

EXPLANATION.—Meat which has been subjected to the process of blowing shall be presumed to be unfit for human consumption.

(b) In the case of persons keeping pigs for profit, and dealers in the flesh of pigs which have been slaughtered in India,—

(4) the places at which pigs may be kept,

(5) the number of pigs which may be kept at any one place,

(6) the season and the places at which pigs may be slaughtered and the flesh offered for sale,

(7) the manner in which pigs shall be inspected prior to slaughter, and

(8) the manner in which the flesh thereof shall be inspected and marked prior to sale, and disposed of, when found to be unfit for human consumption;

(c) in the case of persons keeping milch cattle or milch goats for profit,—

(9) the places at which such animals may be kept,

(10) the number of such animals which may be kept at any one place,

(11) the sources from which such animals shall be watered,

(12) the segregation of any sick or diseased animals, and

(13) the taking of any other measures which the Cantonment Authority may consider necessary for maintaining the premises in a clean and sanitary state;

(d) in the case of persons keeping for profit any animals other than pigs, milch cattle or milch goats,—

(14) the places at which such animals may be kept,

(15) the number of such animals which may be kept at any one place, and

(16) the manner of keeping the animals so as to prevent their becoming a public nuisance or injurious to the public health;

(e) in the case of dairymen and buttermen,—

(17) the vessels and other apparatus to be used in the operations of their trade,

(18) the places at which and the manner in which milk or butter may be prepared and kept for sale, and

(19) the taking of any other measures which the Cantonment Authority may consider necessary for keeping the premises and all vessels and apparatus in a cleanly and sanitary state,

(f) in the case of makers of bread, biscuits or cake, and sellers of bread, biscuits or cake made in India,—

(20) the apparatus and the water, flour and other ingredients which may be used in the operations of their trade,

(21) the places at which bread, biscuits or cake may be prepared and kept for sale,

(22) the inspection to be exercised over the making of such articles, and

(23) the disposal of any such articles which may be found to be unwholesome;

(g) in the case of sellers of fruit or vegetables,—

(24) the places and seasons at which fruit or vegetables, or any specified kinds of fruit or vegetable, may be sold, and

(25) the disposal of any fruit or vegetables which may be found to be unwholesome, or of which the sale has been prohibited under clause (24) of this rule;

(h) in the case of manufacturers of aërated or other potable waters, or ice, and sellers of the same,—

(26) the sources from which water used in such manufacture shall be taken,

(27) the machinery, chemicals and ingredients which may be used in such manufacture,

(28) the measures to be taken in order to ensure the proper filtering of the water used and the cleanliness of all apparatus and receptacles used, and

(29) the attachment of labels or the adoption of other means for the purpose of identifying the factory at which each article was made;

(j) in the case of sellers of any medicines, drugs or articles of food or drink for human consumption (other than the flesh of pigs, milk, butter, bread, biscuits, cake, fruit, vegetables, aërated or other potable waters, or ice) which are of a perishable nature,—

(30) the disposal of any articles which may be found to be unwholesome;

(k) in the case of sellers of water to be used for drinking purposes,—

(31) the sources from which such water shall be taken, and

(32) the taking of measures to ensure the cleanliness of mussucks or any other vessels or utensils used for carrying such water;

(*l*) in the case of washermen,—

(*33*) the places at which clothes may be washed, dried or kept;

(*m*) in the case of dealers in hay, straw, wood, charcoal or other inflammable material,—

(*34*) the places at which such materials may be kept,

(*35*) the quantity which may be stored at any one place, and the manner of storing, and

(*36*) the precautions against fire to be taken by the dealer or the person in charge of the business;

(*n*) in the case of dealers in fire-works, petroleum, kerosine oil or any other inflammable oil or spirit,—

(*37*) the places at which, and the quantities in which, any such article may be stored or kept for sale, and

(*38*) the taking of any measures which the Cantonment Authority may consider necessary for the prevention of danger to life or property;

(*o*) in the case of tanners and dyers,—

(*39*) the taking of measures for regulating the discharge of refuse matter from their premises and for abating any nuisance arising from such premises;

(*p*) in the case of persons carrying on any trade or occupation from which offensive or unwholesome smells arise,—

(*40*) the taking of any measures which the Cantonment Authority may consider necessary for the abatement of any nuisance arising from the premises.

Feeding animals on filth, etc.

5. No person holding a license under rule 3 for keeping for profit milch cattle or milch goats, or pigs or any other animal which may be used for human consumption, shall allow the same—

(*a*) to be fed upon refuse or any filthy or deleterious substance, or

(*b*) to graze in any place in which grazing has for sanitary reasons been prohibited by public notice issued by the Cantonment Authority.

Adulteration of milk.

6. No dairyman holding a license under rule 3 shall mix water with, or otherwise adulterate, any milk intended for sale.

Adulteration of butter.

7. No butterman holding a license under rule 3 shall adulterate any butter intended for sale.

Selling food or drink unfit for human consumption.

8. No person holding a license under rule 3 shall sell any article of food or drink for human consumption which is unfit for that purpose.

Removal of brothels or prostitutes.

9. The Cantonment Authority may, by notice in writing, prohibit—

(*a*) the keeping of a brothel, or

(*b*) the residence of a public prostitute,

in any part of the cantonment other than the part or parts specified in the notice.

Power to suspend or withdraw license.

10. (*1*) If any person holding a license under rule 3 fails to comply with any condition imposed upon him under rule 4, or does any act in contravention of rules 5, 6, 7 or 8,

the Cantonment Authority may, in addition to any punishment which may be inflicted under rule 11, by order, suspend the license for any period specified in such order, or withdraw the license.

(*2*) No person who has obtained a license under these rules for carrying on a trade, calling or occupation in any part of the cantonment shall carry on such trade, calling or occupation in that part while such license is suspended or after the same has been withdrawn.

Penalties.

11. (*1*) Whoever fails to observe any condition imposed under rule 4, clauses 1 to 16, 20 to 25, 30, or 34 to 39, all inclusive, shall be punishable with fine which may extend to twenty rupees, or with imprisonment for a term which may extend to four days, and, in case of a continuing failure, with an additional fine which may extend to five rupees for every day after the date of first conviction on which the failure is proved to have been persisted in.

(*2*) Whoever—

(*a*) commits any breach of rule 3 or rule 4, clause (*2*), or

(*b*) fails to comply with any condition imposed under rule 4, clauses (*17*), (*18*), (*19*), (*26*), (*27*), (*28*), (*29*), (*31*), (*32*), (*33*) or (*40*), or

(*c*) does any act in contravention of rules 5, 6, 7 or 8, or

(*d*) disregards any prohibition made by notice under rule 9,

shall be punishable with fine which may extend to fifty rupees, or with imprisonment for a term which may extend to eight days, and, in case of a continuing offence of failure, with an additional fine which may extend to five rupees for every day after the date of first conviction on which the offence or failure is proved to have been persisted in.

The 7th October, 1896.

No. 413.—The following is published for general information:

No. 764 R. T., dated Simla, the 2nd October, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules for all open lines of railway in British India administered by the Government, therewith promulgated.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Letter from the Government of Bombay, Public Works Department, Railway Branch, No. 2267, dated the 17th September 1896, forwarding letter from the Agent, Great Indian Peninsula Railway Company, No. 12066, dated the 7th September 1896.

OBSERVATIONS.—The Agent, Great Indian Peninsula Railway Company, has applied that the General Rules for working open lines of railway in British India, administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated 22nd May 1896, published under Public Works Department notification No. 257, dated the 28th May 1896 (*vide* the *Gazette of India* of the 30th May 1896), may be made applicable to the Great Indian Peninsula Railway and the lines worked by it.

RESOLUTION.—The Governor General in Council is pleased to sanction, with effect from the 1st November 1896, the application to such portions of the Great Indian Peninsula Railway and the lines worked by it as are situate in British territory, of the General Rules for working open lines of railway in British India, administered by the Government, which are cited in the foregoing observations, in supersession of the rules now in force.

ORDER.—Ordered, that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered also, that this resolution be communicated to the Government of Bombay, Public Works Department, Railway Branch, for information and guidance.

The 9th October, 1896.

No. 418.—The following is published for general information:

No. 227 T., dated Simla, the 7th October, 1896.

RESOLUTION—By the Government of India, Public Works Department.

Review of the Administration Report of the Indian Telegraph Department for the year 1895-96.

Read—

Letter from the Director General of Telegraphs, No. 45 T., dated the 19th August 1896, and its enclosure, being the Administration Report of the Indian Telegraph Department for the year 1895-96.

OBSERVATIONS.—The Administration Report of the Indian Telegraph Department deals with the whole of the operations under the control of the Director General.

2. The expenditure of the year charged to Capital Account amounted to Rs. 13,84,286. The capital outlay to the close of the year under review amounted to Rs. 5,87,68,582, divided as follows:

	Rs.	Percentage of net total.
Lines	4,58,21,940	78·0
Buildings	55,95,120	9·5
Apparatus and plant	22,74,063	3·8
Stores and suspense	30,26,771	5·2
Exchange on expenditure in England previous to 1887-88	24,09,440	4·1
Total	5,91,27,334	
Deduct—		
Receipts on Capital Account (including interest on Workshop Capital)	3,58,752	0·6
Total ...	5,87,68,582	

3. The net additions made during the year to the systems maintained by the Telegraph Department comprised 1,727 miles of line and 4,670 miles of wire. There has been a decrease of 8 miles in the mileage of cable in use.

4. The following statement shows, for a period of five years, the progress that has been made in extending public telegraphic communication:

	Capital expenditure.	Miles of line.	Miles of wire.	Miles of cable.	Offices opened.		
					Departmental, ordinary and postal combined.	Railway and canal.	Total.
	Rs.						
Up to beginning of 1891-92	5,02,41,676	37,070	1,13,512	251	949	1,428	2,377
During 1891-92	19,42,128	1,555	6,647	2	52	—33	19
" 1892-93	21,62,811	2,405	6,092	21	99	58	157
" 1893-94	22,54,374	1,677	8,004	...	124	58	182
" 1894-95	7,83,307	1,941	4,001	—3	138	10	148
" 1895-96	13,84,286	1,727	4,670	—8	99	12	111
To end of 1895-96	5,87,68,582	46,375	1,42,926	263	1,461	1,533	2,994

5. The operations of the Department during the year under review continue satisfactory. The Revenue receipts amounted to Rs. 89,74,949, being an increase of Rs. 9,35,274 over the figures for the previous year. This, however, does not correctly represent the result of the year under report. As explained in paragraph 5 of the review for 1894-95, the gross revenue of that year was reduced by a credit of Rs. 3,48,762 on account of rebate due to the East Indian railway for which the Revenue Accounts of that year were not responsible. Excluding this sum, the net increase in receipts during 1895-96 amounted to Rs. 5,86,512.

The Revenue expenditure amounted to Rs. 57,83,726, being an increase of Rs. 90,508. The net receipts thus amounted to Rs. 31,91,223, showing an increase of Rs. 8,44,766. The Revenue receipts include Rs. 13,24,937 on account of State messages, and Rs. 1,14,226 on account of news-free and other *pro formâ* revenue; including the receipts on account of State messages and excluding the *pro formâ* revenue, the net receipts amounted to 5·24 per cent. on the Capital outlay.

6. The revenue receipts are made up as follows

	Rs.
Message revenue, including State messages ...	70,75,599
Rent of lines, etc., on railways and canals ...	15,03,843
Rent of private lines, etc.	2,15,866
Sale of books, gazettes, etc.	20,128
Miscellaneous	45,287
Total	88,60,723
News-free and *pro formâ* revenue ...	1,14,226
Grand Total	89,74,949

The increase occurred chiefly under "message revenue" and was mainly due to an improvement in private messages.

7. The following statement summarises the Revenue receipts and charges during the last five years:

Year.	Gross receipts excluding *pro formâ* revenue.	Charges.	Net receipts.	Percentage of net to gross receipts.	Return on capital.
	Rs.	Rs.	Rs.		
1891-92 ...	73,80,285	48,34,295	25,45,990	34·5	4·88
1892-93 ...	75,31,726	51,56,998	23 74,728	31·5	4·37
1893-94 ...	79,18,526	53,04,761	26,13,765	33·0	4·61
1894-95 ...	79,25,103	56,93,218	22,31,885	28·2	3·89
1895-96 ...	88,60,723	57,83,726	30,76,997	34·7	5·24

8. The following figures show for the last two years the division of the traffic between State and Private and between Inland and Foreign messages respectively:

Class of telegrams.	1894-95.		1895-96.	
	No.	Value.	No.	Value.
		Rs.		Rs.
State, Inland ..	585,571	11,52,852	603,366	12,61,667
„ Foreign ..	6,804	56,993	6,985	63,270
Total State ..	592,375	12,09,845	610,351	13,24,937
Private, Inland ..	3,231,555	32,15,974	3,491,571	34,75,316
„ Foreign ...	567,296	20,16,053	634,812	22,75,346
Total Private ..	3,798,851	52,32,027	4,126,383	57,50,662
Grand Total ..	4,391,226	64,41,872	4,736,734	70,75,599

The private traffic still continues to exhibit rapid progress. In the year under review, there was a rise of 327,532 in the number of private messages and of Rs. 5,18,635 in their value.

The State inland telegrams also exhibited an increase of 17,795 or 3·04 per cent. in number and of Rs. 1,08,815 or 9·44 per cent. in value. The increase was due to the military operations in connection with the Chitral Relief Force.

The revenue from trans-Indian traffic rose to Rs. 9,97,056 in the year under review, thus exceeding by Rs. 2,65,503 the figure of Rs. 7,31,553, at which the revenue stood in 1890-91 prior to the reduction in the transit rates.

9. The following table gives the percentages of traffic in number and value due to each class of message:

Class of telegram.	Inland.		Foreign.		Total.	
	No.	Value.	No.	Value.	No.	Value.
		Rs.		Rs.		Rs.
State	12·74	17·83	0·15	0·90	12·89	18·73
Private	73·71	49·12	13·40	32·15	87·11	81·27
Total ...	86·45	66·95	13·55	33·05	100·00	100·00

10. The following figures show the division of the inland traffic into the three classes of Urgent, Ordinary, and Deferred during the last two years:

	Percentages.					
	Urgent.		Ordinary.		Deferred.	
	1894-95.	1895-96.	1894-95.	1895-96.	1894-95.	1895-96.
State ...	11·40	13·00	21·39	22·07	67·21	64·93
Private	5·83	6·01	40·09	40·20	54·08	53·79
Press ...	5·21	7·19	21·44	18·55	73·35	74·26

11. The growth of inland private traffic in a period of ten years is shown by the following figures:

	Number of messages.	Value. Rs.
1886-87	1,683,758	18,17,798
1895-96	3,491,571	34,75,316
Increase ...	1,807,813	16,57,518

During the ten-year period the number of messages has increased by over 107 per cent. and their value by over 91 per cent.

12. The following statement gives the distribution of the revenue charges during the last five years under the principal heads:

Year.	Line Maintenance. Establishment.	Repairs to lines and buildings.	Office stores and miscellaneous.	Total.	Signalling. Establishment.	Repairs to buildings.	Office stores and miscellaneous.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1891-92 ...	8,79,200	3,70,357	72,080	13,21,637	32,45,459	64,596	2,02,603	35,12,658
1892-93 ...	9,07,049	4,82,482	83,617	14,73,148	34,02,114	59,414	2,22,322	36,83,850
1893-94 ...	9,75,007	4,37,270	63,623	14,75,900	35,31,694	56,038	2,41,129	38,28,861
1894-95 ...	10,44,014	5,21,736	63,373	16,29,123	37,81,817	53,545	2,28,733	40,64,095
1895-96 ...	10,29,601	5,12,178	76,691	16,18,470	38,71,077	56,515	2,37,664	41,65,256

13. The strength of the signalling establishment at the close of the year was 3,546, of whom 1,660 were departmental officers, 328 British military signallers and 1,535 postal clerks.

14. The following table shows the average time intervals taken in the transmission of telegrams (excluding *deferred*) over some of the principal main routes during the last five years. The average of these averages indicates the steady annual improvement that has taken place.

Section.	Number of miles.	1891-92. H.	1891-92. M.	1892-93. H.	1892-93. M.	1893-94. H.	1893-94. M.	1894-95. H.	1894-95. M.	1895-96. H.	1895-96. M.

There has been an improvement in the speed of transmission of messages over the principal main routes except between Calcutta and Rangoon. The improvement in speed is most marked between Bombay and Calcutta and Calcutta and Kurrachee, and in a less degree between Bombay and Madras and Bombay and Kurrachee.

The great improvement in speed between Bombay and Calcutta was mainly due to the excellent service rendered by two new copper wires *viâ* the Bengal-Nagpur railway, that between Calcutta and Kurrachee to rearrangement of the circuit between Calcutta and Agra and that between Bombay and Madras to the fast service afforded by the introduction of direct working with Melhuish transformers on three additional circuits during the year.

The falling off in speed between Calcutta and Rangoon was due to a severe cyclone which completely wrecked telegraph lines between Akyab and Maungdaw from the 25th April to the 5th May 1895.

15. The number of complaints received relating to the Indian Telegraph Department was 1,568 equivalent to 0·030 per cent. of the total number of paid messages, of which 817 were admitted. Of those admitted, 179 applied to non-delivery, 180 to delay, and 256 to mistakes. The number of messages that for various causes could not be delivered, amounted to 15,166 equivalent to 0·258 per cent. of the total number received for transmission.

16. The total number of interruptions to communications amounted to 2,177 which shows a slight decrease over the previous year, the total duration of the interruptions was also less.

17. The number of telegraphic money orders rose to 129,912 from 121,618 in the previous year.

On the 1st May 1893, the exchange of telegraphic money orders with Ceylon was commenced, and in addition to the figures given above the total number of orders sent and received during the year under review amounted to 8,183 as compared with 4,546 during 1894-95 and 1,949 during the eleven months of 1893-94.

18. The Inland Press telegrams sent numbered 24,892, of the value of Rs. 96,168, against 26,202 valued at Rs. 1,02,804 in the previous year.

The Foreign Press messages numbered 3,422 and the Indian share of the charges thereon amounted to Rs. 19,864.

19. As regards electrical improvements, experiments in simultaneous Morse and Vibrator working over a single wire were carried out with the result that a combination of induction coils and condensers was adopted for trial. These are still under experiment.

Cardew's vibrating sounders which, as noticed in the review of the report for 1894-95, proved so valuable in maintaining communications through the faulty Ceylon cables, maintained communication between Bunji and Chilas, when a portion of the line was buried under the snow and also between Moné and Kengtung over the temporary uninsulated line of 197 miles when, owing to heavy rain, the line would have been unworkable with ordinary instruments.

The carrying capacity and utility of some of the long circuits worked duplex were increased by an ingenious arrangement, made by Mr. Melhuish, by which intermediate offices were enabled to use the through circuit for short intervals when it was not being worked by the terminal offices. This arrangement has proved useful in reducing delays and affording additional facilities to intermediate stations without any expense for new wires.

20. The use of the telephone continues to show satisfactory progress.

At the end of the year 1895 there were 1,537 subscribers and 1,546 exchange connections to the Telephone Companies at Bombay, Calcutta, Kurrachee, Madras, Moulmein and Rangoon. There were also 31 exchanges and 265 exchange connections under the control of the Telegraph Department.

21. The construction of a telegraph line between Moné, the most easterly telegraph station in the Southern Shan States, and Kengtung, 197 miles to the east

having been decided on, a temporary line was started by the end of May 1895. Work was rapidly pushed on simultaneously in three different directions and a telegraph office was opened at Kengtung in the beginning of July 1895, intermediate offices having been opened at Saihkau and Mongping by the end of June 1895.

Telegraphic communication with Kengtung was maintained by Cardew's vibrating sounders up to the end of the year, by which time the work of reconstructing the line in a permanent manner was well advanced.

22. In Kashmir the line from Ramghat to Jalipur was reconstructed and an extension from Jalipur to Chilas, 24 miles, was completed during the year under review.

On the Murree-Srinagar and Srinagar-Gilgit sections, special attention was paid to the removal of line from localities in which it had suffered in previous years from avalanches with the result that no interruption was caused by avalanches on the former section and only seven on the latter.

23. The Administration Report was received from the Director General of Telegraphs on 20th August, about the same date as last year. It has been carefully prepared, and presents results which the Governor General in Council considers highly satisfactory and creditable to the administration of the Director General, as well as to the working of the staff of the Department.

24. For the efficient manner in which he carried out the field telegraph operations in Chitral, Mr. F. E. Dempster has received the honour of a Companionship of the Order of the Indian Empire and the Government of India are pleased to endorse the commendation accorded by the Director General to the telegraph officers employed with the Chitral expedition and to others specially mentioned in his report.

ORDER.—Ordered, that a copy of this Review and of the Report be forwarded to the Secretary of State and to the Local Governments and Administrations noted on the margin, and to the Government of Ceylon for information. Also that a copy of the Review be forwarded to the Director General of Telegraphs for information.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, Assam and Coorg.
The Residents at Hyderabad and in Mysore.
The Agents to the Governor General in Central India, Rajputana, and Baluchistan.

Ordered also that a copy of the Review and of the Report and Appendices A, B and F, be forwarded to the Home Department of the Government of India for information, and that the Review be published in Part I of the *Gazette of India*.

W. S. S. BISSET, *Colonel, R.E.,*
Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

No. 41.} SIMLA, SATURDAY, OCTOBER 10, 1896.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, October 3rd, 1896.

A gradual but considerable and important change occurred in the distribution of pressure and in the weather over India during the week under review. During the early part of the week pressure was high and considerably above the normal average over Northern and North-Eastern India, while it was low and in moderate to considerable defect of the normal in Southern India. As a consequence of these conditions very fine weather prevailed over North-Western and Central India, while the showers which prevailed in North-Eastern India at the commencement of the week gradually decreased both in amount and extent, and by Thursday, the 1st of October, had practically ceased. On the other hand, in Southern India, where, as stated above, pressure was low both with regard to the actual distribution and with regard to the normal the rainfall was general, daily and exceptionally heavy for the time of year. On Tuesday, the 29th of September, the barometer began to fall in North-Western India, and this fall continuing the three last days of the week saw a complete alteration in the pressure conditions, the barometer becoming lowest in North-Western India and highest over the Peninsula. Accompanying this there occurred a considerable falling off in the amount and extent of the showers in the Peninsula, while showers began on the North-West Himalayas and extended to the submontane districts of the Punjab by the close of the week. The temperature distribution agreed with the distribution of rain. There was a deficiency throughout the week in Madras and during a considerable part of the week in North-Eastern India, while in other places, where the weather was dry, there was a marked and in places large excess of heat. On Thursday, however, the mean temperature fell below the normal at Murree, and this fall of temperature, which occurred concurrently with the showers on the North-West Himalayas, subsequently extended to the west and north of the Punjab and to Baluchistan.

A

Daily Summary.—*Sunday, September 27th.*—The barometer had risen, except in the centre and west of the Peninsula, where it had been steady or fallen slightly. Readings were high over North-Western and North-Eastern India and low over the west of the Bay, and pressure exceeded the normal average, except over the south of the Peninsula. The winds were light and irregular everywhere. The mean temperature was low in Madras, part of North-Eastern India and the North Punjab and excessive elsewhere. The abnormal excess was largest, over 4°, in the Agra and Jhansi districts of the North-Western Provinces and over Hyderabad (Deccan). Local showers had fallen over parts of Bengal and Burma and general showers over the southern half of the Peninsula. The heaviest fall in the former area was 4·3 inches at Saugor Island and in the latter 1·3 inches at Trivandrum.

Monday, September 28th.—The barometer had risen almost everywhere. The change had been brisk to rapid in North-Western India and brisk in parts of North-Eastern India. The distribution was unchanged. Readings were high in the north-west and north-east and low in the south. The pressure largely exceeded the normal in the north-west and north-east. The winds remained very irregular generally, but were south-easterly and easterly in the east of the Bay and the east of the Arabian Sea. The mean temperature had risen, except in Burma, Bengal and Madras, and the distribution, relatively to the normal, was the same as on the 27th. The hottest area, relatively to the average, was the Deccan, where Sholapur reported an excess of 6·1°. Showers had been received in Burma and the coast districts of Bengal and of Orissa. In Southern India the showers continued general and were somewhat heavier.

Tuesday, September 29th.—Pressure had generally changed slightly and irregularly, but in the North Punjab a brisk fall had commenced. Readings were lowest along the west coast and were relatively low over part of North-Western India. The winds were easterly over the west of the Peninsula and remained light and irregular elsewhere. The temperature had been steady in the North-Western and Central Provinces and Madras and had risen elsewhere. The mean temperature remained low in Madras and excessive in nearly all other places. The greatest excess was reported from the Bombay Deccan. General showers were again reported from the southern half of the Peninsula and a few local showers from parts of Bengal and of Burma.

Wednesday, September 30th.—The barometer was still falling briskly in part of the Punjab, but elsewhere the pressure changes were slight. A slight low pressure area was appearing in the north-west, but in all other places readings were very uniform. The winds were generally between north-east and south-east over the Peninsula and variable elsewhere; the force was light. The mean temperature had risen a little in the Punjab, but had been steady elsewhere. The temperature was lower than usual in Madras and Bengal and higher in all other places. Fairly general showers occurred over Burma, Assam and Bengal, as well as over the south of the Peninsula.

Thursday, October 1st.—The barometer had been steady over the west and south of the Peninsula and had fallen elsewhere. The fall had been brisk to rapid in the north. Pressure was highest over the west of the Peninsula and lowest over North-Western India, where a shallow depression was shown. The winds were feebly cyclonic in North-Western India and were variable elsewhere. The force remained light or moderate. The mean temperature was low in Madras and high almost everywhere else. In the Bombay Deccan, Kathiawar and the Southern Punjab the abnormal excess was over 6°. Light scattered showers had been received by a few stations in the north-east, and light rain had fallen at Srinagar, Rawalpindi and Sialkot. In the south of the Peninsula showers continued general.

Friday, October 2nd.—The barometer had fallen everywhere, the changes having been slight to brisk. The shallow depression, with its centre near Sirsa, was still shown over North-Western India, while readings were high over the west of the Peninsula and over the Assam Valley. The pressure differences were, however, small. Cyclonic winds continued to prevail in the north-west and variable winds in other parts of the country. The force had risen somewhat along the North Bombay coasts and in Baluchistan. The rainfall distribution

was the same as on the 1st. Light showers had fallen at a few places in Assam and North Bengal, as well as at Sialkot and Chirat in the Punjab, while moderate rain had fallen in the Kashmir Valley. General showers continued to be reported from the south.

Saturday, October 3rd.—The barometer had risen over by far the greater part of the country, the change in the north-west having been brisk to rapid. There had, however, been no general change in the conditions. Readings were relatively high over the north of the Peninsula and the Central Provinces and relatively low over the Punjab. The pressure differences were small. Strong westerly winds had blown over Gujarat and strong squally winds over North-Western India, but elsewhere there was no change. The mean temperature was excessive, except in the west and north of the Punjab, South Madras and part of North-Eastern India. The excess was greatest over Rajputana, Central India and Berar. Showers had again been received over Kashmir and part of the North Punjab, as well as at a few places in North-Eastern India and at several places in the south of the Punjab.

Temperature.—As mentioned above the mean temperature has been excessive, except over those tracts of country, where showers have been received. Of these showery regions the most important has been Madras, where deficient heat has prevailed throughout the greater part of the week.

The following table gives the variations of the mean temperature from the normal in different provinces of India :

Province.	September 1896.				October 1896.			Mean variation of week.
	27th	28th	29th	30th	1st	2nd	3rd	
	°	°	°	°	°	°	°	°
Burma	+1·6	+1·0	+2·1	+1·8	+1·6	+2·2	+2·2	+1·8
Bengal and Assam . .	+1·0	−0·3	+0·5	−0·2	+0·7	+1·1	+2·0	+0·7
North-Western Provinces and Oudh	+2·2	+2·6	+2·3	+2·7	+2·9	+4·5	+4·6	+3·1
Punjab	+0·7	+1·0	+2·0	+3·0	+3·1	+2·8	+1·7	+2·0
Bombay	+2·0	+2·3	+4·1	+4·0	+3·3	+3·7	+3·1	+3·2
Central Provinces and Berar	+1·1	+2·7	+2·8	+3·0	+3·1	+3·9	+4·6	+3·0
Central India and Gujarat .	+1·3	+2·4	+3·1	+3·7	+5·1	+5·6	+4·9	+3·7
Sind and Rajputana . .	+1·5	+2·7	+3·8	+3·6	+4·3	+6·4	+5·4	+4·0
Madras	−1·4	−1·7	−2·1	−1·9	−0·8	+0·2	+0·6	−1·0
Mean for whole of India .	+1·1	+1·4	+2·1	+2·2	+2·6	+3·4	+3·2	+2·3

The above figures show that the mean temperature of the whole country was excessive on each day of the week. The abnormal excess was least (1·1°) on the 27th and was greatest (3·4°) on 2nd October. In Burma, the North-Western Provinces, the Punjab, Bombay, the Central Provinces, Central India and Gujarat, Sind and Rajputana the heat was excessive on each day, but in Bengal and Assam there were two days, *viz.*, 28th and 30th of September, and in Madras five days, *viz.*, 27th September to 1st October, in which the mean temperature was lower than usual. The provincial variations show that the hottest region, relatively to the normal, was Sind and Rajputana, where the excess amounted to 4·0°.

The following were the highest temperatures recorded throughout India on each day of the week and their variations from the normal of the day :

September 27th	102°·8 + 3°·8	at Sirsa.
,, 28th	104°·1 + 5°·2	,, Bickaneer.
,, 29th	103°·9 + 8°·6	,, Deesa.
,, 30th	106°·7 + 8°·5	,, Hyderabad (Sind).
October 1st	107°·7 + 9°·0	,, ,, ,,
,, 2nd	110°·2 + 11°·1	,, ,, ,,
,, 3rd	106°·2 + 7°·2	,, ,, ,,
	106°·0 + 11°·8	,, Agra.

Rain.—During the week under review rain was received within three areas. The first and most important was the Peninsula, over the southern half of which rain was received daily. This rainfall was apparently due to a feeble monsoon influence to the south of the Indian region, so that the fall was heaviest in the extreme south, and this influence was apparently felt throughout the whole week. The second area of rainfall was shown over Burma and parts of Assam and of Bengal. Within this region the air currents were very irregular, southerly and northerly winds prevailing in different parts of the area and often replacing each other quickly at the same station. As a consequence thundery weather prevailed over the whole region, and scattered thundershowers, giving in some cases heavy rain, were very frequent. On the 27th Saugor Island reported a local fall of over four inches, on the 28th Rangoon reported over two inches, on the 29th Mymensingh reported three and a half inches and on the 30th Berhampore reported nearly two inches. After the 30th September the falls became lighter, and on the last three days of the week the rainfall over this area became light and insignificant. The third rainfall area was the extreme north-west of India, but in this region the fall was much smaller than in the two preceding regions. The fall was connected with an area of unsettled weather and low barometer which apparently advanced to North-Western India from the north-westward. The sky became overcast in Kashmir on the morning of September 30th, and on October 1st light rain was reported from Srinagar and a few drops from Sialkot and Rawalpindi. On the following day Srinagar reported 1·79 inches of rain and Chirat and Sialkot a few drops, while, on the 3rd, Srinagar reported half an inch of rain and Chirat, Simla, Chakrata, Dera Ismail Khan, Sialkot, Rawalpindi and Umballa light showers. Outside these three areas the weather was steadily fine and hot. The concluding table gives the rainfall data. No rain whatever was received during the week in the North-Western Provinces, the south-east of the Punjab, Berar, the Central Provinces, Gujarat, Sind, Central India or Rajputana, and only an insignificant amount in Chota Nagpur, Bihar, the Punjab [except the Punjab (North)], Khandesh, Kathiawar, Baluchistan and Hyderabad (South). On the other hand, effective rain was received over Burma, Assam, Bengal proper and nearly the whole of the Peninsula, though, except in the southern half of the Peninsula, the week's rainfall was less than the anticipated fall. The only divisions reporting any important excess for the week were Malabar, Madras (South-Central and South), Coorg, Mysore and the East Coast (Central and South). In the case of Madras (South-Central) and Coorg the excess was over 3 inches and in the case of Malabar and of Madras (South) was over 1 inch. The largest cases of deficiency were 3·83 inches in Tenasserim, 2·90 inches in Arakan and over 1 inch in Lower Burma, Central Burma, Assam (Surma), Bengal (Hills), Bihar (North and South), the Konkan, the Bombay Deccan, Khandesh and the East Coast (North). This generally deficient fall of rain has emphasized the seasonal deficiency already prevailing, and except in parts of Burma, in Orissa and Chota Nagpur, in the east of the Central Provinces and in the west and south of the Peninsula, the monsoon rainfall of the present season is almost everywhere deficient. The most serious cases of deficiency, *i.e.*, where the seasonal defect equals or exceeds 40 per cent. are Oudh (South), the North-Western Provinces (Central) and the Punjab (South and West). In Oudh (South) the worst district is Rae Bareilly with a total fall for the season of 14·94 inches, as compared with a normal fall of 32·44 inches ; in the North-Western Provinces (Central) the worst district is Banda with a total of 14·12 inches and a normal of 36·74 inches; in the Punjab (South) the worst district is Ferozepore with a total of 5·33 inches and a normal of 13·46 inches, while in the Punjab (West), Muzaffargarh and Dera Ismail Khan have received no rain throughout the season. In these two districts, however, the anticipated fall is only 5 inches.

There are no large totals reported this week, but Dinhatta (Cooch Behar) received 6·84 inches, Karkal (Mangalore) 7·54 inches and Coonoor (Nilgiris) 8·82 inches.

W. L. DALLAS,

Asst. Meteorological Reporter to the Government of India.

SIMLA, *8th October, 1896.*

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 3rd October.*—Rainfall light in the Circars and Deccan and good elsewhere. More rain is wanted in most districts. The water-supply is still insufficient in most places. Sowing continues. The standing crops generally are in good condition. Pasture is improving and fodder is available. The condition of cattle is good. Prices are rising in the Circars and Deccan; elsewhere prices are easier or stationary.

Bombay.—*For week ending 7th October.*—Rainfall generally slight in parts of the Konkan, Deccan and Karnatic. The crops have benefited in parts of Poona, Dharwar and Kanara, but more rain is urgently wanted throughout the Presidency for the standing crops or late sowings. The crops are withering in fourteen districts, and damage by rats, locusts or other insects is reported from Sindh. Preparations for the late crops or sowings are progressing in eleven, and reaping of the early crops in ten, districts. Water is deficient in Sindh and Sholapur. Fodder is insufficient in five districts. Agricultural stock are healthy, except in four districts. Prices are rising in seventeen districts.

Bengal.—*For week ending 5th October.*—There was general rain in Orissa and over a great part of Bengal during the week. In Bihar no rain fell, except a light shower at Darbhanga. The prospects of the winter rice crop continue generally fair, but in Bihar and in Midnapore, Khulna and Pubna more rain is urgently required, especially for high lands. In Cuttack the winter rice is being injured by insects. Early rice and jute are still being harvested in some districts. Sugarcane is doing well. The preparation of lands for the spring sowings is in progress. Prices continue generally high in Bihar and they are reported to be rising rapidly, owing to heavy exports up-country.

North-Western Provinces and Oudh.—*For week ending 7th October.*—Scattered showers have fallen in some districts, chiefly in the Meerut division, but the week has been practically rainless. The autumn crops have suffered greatly from the continued drought and have failed to a great extent, except in irrigated tracts. Rain is urgently needed and is most anxiously looked for to enable sowings for the spring crops to be made. Prospects are unfavourable. Flights of locusts passed over a few districts and caused slight damage to the crops in Allahabad. The numbers employed on relief works and in receipt of gratuitous relief on Saturday, October 3rd, were: Banda 3,167, Hamirpur 2,477, Jhansi 1,018, Jalaun 990, Hardoi 6,302—total 13,954; of these 739 were dependants gratuitously relieved on the works and 8,978 persons were gratuitously relieved under other provisions of the Famine Code. Supplies and fodder are reported to be deficient in several places. Prices are very high and are still rising.

Punjab.—*For week ending 7th October.*—Slight rain has fallen in Hissar, Ferozepore, Amritsar, Sialkot, Mooltan, Rawalpindi, Dera Ismail Khan and Gurgaon. Harvesting of the autumn crops has commenced in Jullundur, Amritsar, Sialkot, Mooltan, Rawalpindi and Gurgaon. Sowings of the spring crops continue in Delhi, Lahore, Mooltan, Rawalpindi and Gurgaon. Cotton is being picked in Dera Ismail Khan and Amritsar. More rain is wanted for sowings everywhere. The prospects of the autumn crops are generally from good to average, but the crops dependent on rain in some places have suffered considerably. The stock of food-grains is sufficient in Delhi, Rohtak, Mooltan and in parts of the Ferozepore and Peshawar districts. Insects have destroyed the crops watered by wells and canals in parts of the Ferozepore and Lahore districts. Locusts visited Lahore but did no damage. Cattle have begun to

suffer in Hissar, Ferozepore, Sialkot and Gujranwala. Their condition is poor in Jullundur and fair to good elsewhere. Fodder is sufficient in Amritsar, Mooltan, Dera Ismail Khan, Peshawar and Rohtak only. The aggregate number of persons on relief works in Gujrat on Saturday evening was 4,930, including non-working children. Prices rule high throughout the province and wheat is sold at rates varying from 8 to 11¼ seers per rupee.

Central Provinces.—*For week ending 7th October.*—No rain during the week. The weather is generally clear and very hot until the last two days. Owing to the long continued drought much damage has been caused to the autumn crops and prospects daily deteriorate. Unirrigated rice on the higher lands and lighter soils, also the later sown millets *kodo* and *kutki* will yield but little. Irrigated rice and that grown on the richer black soils are faring better. *Jowar* (*Sorghum vulgare*) is suffering even in the soils more retentive of moisture. Sowings of the spring crops are much retarded, and in some districts have come to a standstill. Many fields are too dry to plough, and defective germination is to be feared in the area sown. A lack of seed grain is reported from the Harda tahsil. Altogether prospects are very unfavourable. In the Jubbulpore district there is considerable distress, and in Raipur some employment has had to be afforded to the poorer classes. Fodder is sufficient, except in the Hoshangabad tahsil. Prices are rising throughout the provinces, and are specially high in the Jubbulpore division where wheat is now selling at 8 to 9 seers per rupee.

Burma.—*For week ending 3rd October.*—In Lower Burma the transplanting of the main wet-weather paddy continues in Henzada and Amherst. Reaping of hill-side paddy has commenced in Prome. The standing crops are healthy, and prospects are good except in parts of Prome where more rain is needed and in parts of Thongwa, Amherst and Tavoy on account of floods. In Upper Burma reaping of the early wet-weather paddy, early sessamum and picking of cotton are nearly completed where grown. Transplanting of the main wet-weather paddy is completed in Upper Chindwin, Bhamo, Ruby Mines and Thayetmyo. Ploughing for and sowing of miscellaneous crops continue in many districts. Fair rainfall during the week has revived the standing crops in all districts of the dry zone, but more rain is required in the northern half of Yamethin, the Wundwin township of Meiktila, the Taungtha township of Myingyan and in parts of Minbu bordering on the Mon and Irrawaddy rivers. Except in the unirrigated tracts of the dry zone prospects are generally very good. In the Wundwin township, Meiktila district, 555 persons were employed on famine relief works at the close of the week. Test works are attracting labour in the Taungtha township, Myingyan district. The price of paddy has risen slightly in Mandalay, Akyab and Rangoon, but has fallen slightly in Bassein, Henzada and Prome and considerably in Thaton; elsewhere prices are stationary.

Assam.—*For week ending 6th October.*—The weather is hot. Prospects have improved in Kamrup, but are unsatisfactory in Nowgong where more rain is wanted; elsewhere prospects are generally fair. Tea is doing well. Transplanting of the late rice is nearly finished. The condition of cattle is fair. Fodder and water are sufficient.

Mysore and Coorg.—*For week ending 7th October.*—MYSORE.—Rainfall general all over the State. The crops are in good condition. Paddy has been harvested in the Hassan district. Prices have risen in Hassan, Kadur and Kolar.

COORG.—Rainfall moderate. The crops are in good condition. Reaping of *ragi* (*Eleusine coracana*) and picking of cardamoms are in progress. The coffee berries are maturing. Water and fodder for cattle are sufficient. Prices of food-grains are normal.

Berar and Hyderabad.—*For week ending 7th October.*—BERAR.—The weather continues warm. The standing crops are suffering throughout the

province for want of rain. Breaking up of land for the winter crop is in progress and sowings have commenced in some districts. Fodder and water are generally insufficient. The prices of food-grains are rising steadily in all districts, particularly in Akola where relief works appear likely to be necessary.

HYDERABAD.—Rainfall moderate. The autumn crops are drying up in all districts. Agricultural prospects are unfavourable. The water-supply is decreasing, and in parts of the Gulburga division difficulty is felt in obtaining drinking water. Fodder and pasture are scarce. Prices are rising.

Central India.—*For week ending 7th October.*—No rain fell during the week. Rain is badly wanted throughout Central India. Agricultural operations for the winter crops are in progress, except in Baghelkhand. The crops have been damaged for want of rain in all Agencies and the outturn will be below average. Agricultural stock are in indifferent condition in Baghelkhand, Goona and in most parts of Gwalior, but are fairly good elsewhere. Pasturage is good and sufficient in all Agencies, except in Baghelkhand and most parts of Gwalior. Prices are above normal and are rising in all Agencies. The numbers employed on relief works were: 81 in Gwalior, 886 in Bundelkhand, 570 in Baghelkhand and 10,500 on the railway. The numbers on gratuitous relief were: 28 in Gwalior, 1,329 in Bundelkhand and 1,206 in Baghelkhand.

Rajputana.—*For week ending 7th October.*—No rain, except slight showers in Bikanir. Rain is much wanted throughout Rajputana. Agricultural operations are unsatisfactory in Dholpur and Jaisalmere, but are satisfactory elsewhere. The unirrigated crops are withering or suffering throughout Rajputana, except in Sirohi, Kherwara, Pertabgarh, Meywar, Jhallawar and Shahpura. The prospects of the harvest are poor in Dholpur, not good in Bhurtpore and unfavourable in Jeypore. Relief works will have to be opened in Bhurtpore, Bikanir and Meywar. Locusts have damaged the crops in parts of Jaisalmere. Agricultural stock are generally in good condition. Pasturage and fodder are generally sufficient, except in Tonk and in parts of Jeypore. Fodder is failing in Dholpur and Bhurtpore. Prices are rising almost throughout Rajputana. The numbers employed on relief works were: Jaisalmere 95. The figures for Sironj, Tonk State, and Marwar have not been reported.

Kashmir.—KASHMIR VALLEY.—*For week ending 6th October.*—Rainfall incessant during the first five days of the week. Prices continue normal.

JAMMU PROVINCE.—*For week ending 7th October.*—Slight rain. The autumn crops are suffering. Cattle are in good condition. Fodder is scanty. Prices are rising.

Nepal.—*For week ending 3rd October.*—Night fogs have commenced, but the days are fine and dry. Harvesting of upland rice is finished; the outturn is poor.

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

No. 4236-S. R.

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

Simla, the 6th October, 1896.

Read-

Customs Circulars Nos. XX and XXI of 1896.

Ordered, that the Circulars be published for general information in the Supplement to the *Gazette of India.*

J. F. FINLAY,

Secretary to the Government of India.

Customs Circular No. XX of 1896.

RESOLUTION—By the Government of India, Finance and Commerce Department, No. 4044-S. R., dated the 22nd September 1896.

With the despatch of the 26th December 1895 the Secretary of State forwarded a memorial from certain firms of Scotch dyers complaining that hanks of Turkey-red yarn of lengths less than the minimum prescribed by Rule IV of the rules under the Merchandise Marks Act, 1889 (published in Home Department Notification No. 1474, dated the 13th November 1891) are imported into India from Germany and Switzerland. The memorialists suggested that such importations, being clear evasions of the law, should be prohibited by the issue, if necessary, of new or amended regulations.

2. From the replies of the local Governments to whom the matter was referred for enquiry and report, it appears that such yarns are not imported into Madras and Burma, that they have not been imported into Bombay since 1893, and that imports into Bengal have also recently ceased.

3. Such imports are distinctly in contravention of the rule which has the force of law, and the consumer, it is understood, is deceived by goods so described. These imports should therefore be dealt with, in case of renewal, in accordance with law. No amendment of existing rules is necessary.

Customs Circular No. XXI of 1896.

RESOLUTION—By the Government of India, Finance and Commerce Department, No. 4057-S. R., dated the 23rd September 1896.

In March 1896 the Government of Bengal referred for orders a representation made by the Calcutta agent of the Standard Oil Company of New York on the subject of the calculation of the contents of kerosine-oil cans for the purpose of the levy of import duty on the oil. He objected to the practice at Calcutta of assessing the duty on an assumed quantity of $8\frac{1}{3}$ gallons in each case of two cans, and suggested that either the quantity to be assumed should not exceed eight gallons to the case, or the quantity should be actually measured. The Board of Revenue having ascertained that at Bombay it was the practice to assume eight gallons as the contents of a case, recommended that either weight, not volume, might be taken as the basis in estimating quantity, or the quantity might be determined, as a basis, by the examination of a few test cargoes.

2. The Government of India requested that the second of these courses might be adopted and the result reported, and meanwhile the practice at Madras, Karachi, and Rangoon was ascertained.

3. The result of the examination of test cargoes made in Bengal is that the average actual contents of a case have been found to be almost exactly 8⅓ Imperial gallons, and the local Government recommend that this quantity should be taken in future as the basis of assessment to customs duty.

4. At Karachi the practice is the same as at Bombay, namely, the assessment is made on an assumed quantity of eight gallons per case, duty being charged on any excess over that quantity beyond the limit of five per cent. At Madras and Rangoon the practice is to test a certain number of cases in each consignment, the assessment of the consignment being based on the average obtained.

5. It is evident from the examination which has been made at Calcutta that the practice hitherto in existence at that port cannot be continued, the assumed quantity having been proved to be greater than the actual quantity. The practice need not, however, be replaced by another equally based on an assumption. It is clear that whatever practice is adopted must be uniform at all ports in India, and it would not be expedient to order the introduction at other ports of the practice which is now suggested for Calcutta; for though importers might possibly be content at Calcutta with an assumption which reduces the burden imposed on them, it is certain that importers at Bombay and Karachi will not be content with the introduction there of an assumption which will impose a heavier burden on them, and will demand a system of actual testing instead of an assumption. At Madras again it appears that actual measurements hitherto have shown the contents of cases there to be in excess on the whole of the assumed contents proposed for Calcutta.

6. It will be best, in the opinion of the Governor General in Council, that the assessment of mineral oil to duty should be based on actual measurement instead of on assumptions. As it seems from the experience at all ports other than Calcutta, that there is no special difficulty in actual test, and as moreover bulk oil, which competes with case oil, is assessed on the basis of actual measurement, His Excellency in Council is of opinion that in future the practice which has been in force in Madras and Rangoon should be adopted at all ports, importations of mineral oil in cases being assessed to duty on the test of a certain number of cases in each consignment. The local authorities will determine in each case what percentage of cases need ordinarily be tested.

No. 4334-S. R.

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

STATISTICS AND COMMERCE.
CUSTOMS.

Simla, the 9th October, 1896.

Read—

Customs Circular No. XXII of 1896.

Ordered, that the Circular be published for general information in the Supplement to the *Gazette of India.*

J. F. FINLAY,
Secretary to the Government India.

Customs Circular No. XXII of 1893.

RESOLUTION—By the Government of India, Finance and Commerce Department, No. 4146-S. R., dated the 30th September 1896.

* * * The Government of Madras referred, for orders, a question as to the trade descriptions which should be affixed, under the Indian Merchandise Marks Act, IV of 1889, on packages containing adulterated goods, such as oils, turpentine, paints ; and the attention of the Government of India was drawn to the diversity of practice at Madras and Calcutta in the matter of amending the descriptions on such packages.

2. At Madras packages containing adulterated linseed oil and red lead are not permitted to pass into consumption unless the word "adulterated" is plainly stencilled on the drums containing the articles, whereas at Calcutta such goods are passed if they are marked "reduced," "mixed," or "mineral," on every label describing them.

3. On enquiry from the Government of Bombay it has been ascertained that at the Bombay Custom-house no objection is taken to the importation of packages of adulterated linseed oil and red lead if they are described as "boiled" oil and "reduced" red lead. It is stated, however, that the term "reduced" used in connection with red lead is only applied to a composition which contains at least fifty per cent of red lead ; if the quantity of red lead is less than fifty per cent, the actual percentage of red lead must be indicated on the drums.

4. The practices at Bombay and at Calcutta are substantially the same and they appear sufficiently to carry into effect the provisions of the Merchandise Marks Act. As there should be uniformity in such matters it is expedient that the practice should be adopted at all other ports in India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 9th October 1896.

NOTIFICATIONS.

No. 2930 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, during the week ending 3rd October 1896, under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888 :—

No. 337 of 1896.—Joseph George Nash, engineer, of Hindmarsh Square, and Arthur Onslow Whitington, accountant, of Currie street, both in Adelaide, in the province of South Australia, for improvements in apparatus for automatically indicating numbers or changes of numbers simultaneously with the action of a press for marking or embossing tickets.

No. 338 of 1896.—John Henry Bernard D'Cruze, gentleman, of 4, Church street, in the town of Serampore, district Hooghly, Bengal, for mechanically actuating punkahs—a manufacture to be called "D'Cruze's punkah apparatus."

No. 339 of 1896.—Montague Herbert Churchill Shann, and Richard Ernest Churchill Shann, both engineers, of 18, Aldgate avenue, in the county of Middlesex, for improvements in or relating to the bending or setting of ship frames.

No. 340 of 1896.—John George Gough, and William Edward Harding, both of Young, in the colony of New South Wales, for improvements in driving-gear for cycles and for other purposes.

No. 341 of 1896.—John Milton Brown, gentleman, of Mosman's, near Sydney, in the colony of New South Wales, and Numa Augustus Joubert, steam boat proprietor, of Hunter's hill, near Sydney, aforesaid, for improvements in apparatus for producing ice-cream and the like.

No. 342 of 1896.—John David Jones, mechanical engineer and proprietor of the Mica works, No. 70, Dobson's road, Howrah, for an improved non-conducting composition for the covering of boilers, steam pipes, and the like.

No. 343 of 1896.—Cuthbert McCallum, merchant, of 23, St. Mary Axe, in the city of London, for improvements in or connected with collapsible or folding boxes.

No. 344 of 1896.—Ernest Harry Archer, tea dealer, of 23, St. Mary Axe, in the city of London, for improvements in or connected with collapsible or other boxes or cases.

No. 345 of 1896.—William Alfred Gibbs, gentleman, of Gilwell Park, Chingford, England, and Gilbert William Sutton, civil engineer, of Rothmans, Great Baddow, Chelmsford, England, for improvements in apparatus for drying tea and other substances.

No. 2931 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888. Copies have been sent to the Governments of Fort St. George and Bombay, the Chief Commissioner of Burma, and the Director, Department of Land Records and Agriculture, North-Western Provinces and Oudh. A copy of every specification is open to public inspection, from 11 A.M. to 4 P.M., at the office of the Secretary, in the Imperial Secretariat Buildings, Government Place, West, Calcutta, upon payment of a fee of one rupee. A certified copy of any specification will be given to any person requiring the same on payment of the expense of copying:—

No. 214 of 1894.—W. G. Miller, mechanical engineer, Central India ice factory, Mhow, for a method of refrigeration to be called "The combined duplicate tube freezing moulds." (Specification filed 11th May 1896.)

No. 381 of 1895.—Alexander Ironside Littlejohn and Peter Still, scientific instrument makers, both of 42, Lambton quay, in the city of Wellington, in the colony of New Zealand, for an improved traversing and levelling head for theodolites or other instruments. (Specification filed 22nd September 1896.)

No. 387 of 1895.—James Edward Whiting, civil engineer, of Poona, Bombay presidency, for improved apparatus to indicate the varying levels of liquids in cisterns, tanks, rivers and tideways. (Specification filed 15th July 1896.)

No. 112 of 1896.—Albert Sheldon Weaver, piano manufacturer, of the city of Hamilton, in the county of Wentworth and province of Ontario, Canada, and William Jefferson Goold, clerk, of the city of Toronto, in the county of York and said province of Ontario, for certain new and useful improvements in bicycles. (Specification filed 25th September 1896.)

No. 116 of 1896.—Paul Joseph Schlicht, physicist, and citizen, residing at "The Maples," Norwood Avenue, Summit, in the county of Union and state of New Jersey, one of the United States of America, for improvements in, and relating to, art of and apparatus for producing combustion. (Specification filed 16th September 1896.)

No. 277 of 1896.—John Foster Stephenson, reservoir superintendent, of Cranmore street, Glenferrie, Hawthorn, in the colony of Victoria, for an improved apparatus for automatically removing solid matter from water or analogous liquid. (Specification filed 1st October 1896.)

No. 2932 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 269 of 1890.—Alfred Nobel, engineer, of 53, Avenue Malakoff, Paris, for improvements in the preparation of explosive compounds. (From 6th October 1896 to 5th October 1897.)

No. 164 of 1891.—Augustus Harper Raiguel Guiley, physician, of South Easton, in the county of Northampton and state of

Pennsylvania, United States of America, for improvements in electrical block systems for railways. (From 1st October 1896 to 30th September 1897.)

No. 169 of 1891.—Alfred Nobel, engineer, of 53, Avenue Malakoff, Paris, for improvements in the preparation and application of explosive compounds. (From 6th October 1896 to 5th October 1897.)

No. 170 of 1891.—Alfred Nobel, engineer, of 53, Avenue Malakoff, Paris, for improvements in the preparation of explosive compounds. (From 6th October 1896 to 5th October 1897.)

No. 177 of 1891.—Christopher Wyndham Wilson, deputy lieutenant and justice of the peace, of Rigmaden Park, Kirkby Lonsdale, in the county of Westmoreland, for improvements in type-writers. (From 5th October 1896 to 4th October 1897.)

No. 238 of 1891.—Alexander Stanley Elmore, electro-metallurgist, of Spring Grove, Hunslet, Leeds, in the county of York, for improvements in the manufacture of metallic articles by electrolysis, and apparatus for that purpose. (From 26th October 1896 to 25th October 1897.)

No. 198 of 1892.—Francis Edward Elmore and Alexander Stanley Elmore, electro-metallurgists, both of Spring Grove, Hunslet, Leeds, in the county of York, for an improvement in the manufacture of tubes by electrolysis. (From 24th October 1896 to 23rd October 1897.)

No. 2933 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth Schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorizing others so to do has ceased :—

No. 23 of 1892.—Mr. J. Hodge's invention for an improved inside leak stopper, principally applicable to inland steamers, vessels, flats, steam launches, and the like. (Specification filed 2nd July 1892.)

No. 25 of 1892.—Mr. W. L. Foster's invention for a new or improved holder for the guards of carving forks. (Specification filed 30th June 1892.)

No. 61 of 1892.—Mr. A. Adam's invention for improvements in or relating to targets. (Specification filed 30th June 1892.)

Fee in respect of the continuance of an exclusive privilege—

(a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the said inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office, are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

A. T. PRINGLE,
Offg. Secy. under the Inventions and Designs Act, V of 1888.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1896, the price of this Quinine will be as follows:—

1-pound tin, R18, or, post free, R18-12.
½ „ R 9, „ R9-8.
¼ „ R4-8, „ R5.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৬ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন . ১৮, বা ডাকমাশুল বিনা ১৮৸৹
॥ আধ „ „ ৯, „ ৯॥৹
। সিকি „ „ ৪॥৹, „ ৫,

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্ট কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments (electrum) are available at the College Book Depot at R62 per box. Drawing Instruments, drawing materials, etc., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I.	Building Materials	(1895),	R2-0.
„	II.	Masonry	(1891),	R1-4.
„	III.	Carpentry	(1889),	R1-4.
„	IV.	Earthwork	(1892),	R1-4.
„	V.	Tools and Plant (never published).		

VOLUME II.*

Section	VI.	Buildings	(1891),	R1 4.
„	VII.	Bridges	(in the Press).	
„	VIII.	Roads	(in the Press).	
„	IX.	Railways	(1891),	R1-4.
„	X.	Irrigation Works	(1873),	R1-2.

Roorkee Treatise on Civil Engineering, Vol. II (1867 edition). R3.

* Date of Edition on sale.

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R8.
„ II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition), with Curve Table (in the Press).

XIII. **Drawing** (by Lieut. R. Pulford, R.E.).* R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics** (2nd edition), Parts I and II in one. R3.

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition) (in the Press).

XVI. **Earthwork Estimating,** with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. 4a.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 10 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunnya Lal. R2-8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 8a.; mounted on cloth and bound (in the Press). R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. R1-4.

Tyndall's Hand-Book of Specifications. R5.

The Indian Engineer's Pocket Book. 4a.

Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press).

Blasting under Water (2nd edition). 12a.

Waugh's Instructions for Topographical Surveying. R1-4.

Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 0a.

Tables for Degree Curve and Intersection Angles, from 90° to 180°, and for Fixed Tangents from 100 feet to 7,500 feet. By F. G. Brook Fox, Esq., M.I.C.E. R2-4.

Graphic Hydraulic Diagram for Channels in earth, etc. By. R. G. Kennedy, Esq, Executive Engineer. R7-8

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width. R1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pie into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin² ½ P (for computing time) 4a.

Cape's Logarithms, with Tables of Squares, Cubes, etc. (in the Press).

Cape's Geometry. R1-4.
„ **Mechanics.** R1.

Military Topography. 8a.

* Originally published at R15, reduced to R8.

Graphic Hydraulic Diagrams for channels in earth giving Discharges and mean Velocities for varying bed widths, depths, and slopes By R G Kennedy, Executive Engineer. R7-8.

PLANS OF STATIONS

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale, and prepared between 1864 and 1868 for the Government of India, P W Department. (Useful for Executive Engineers and Superintending Engineers' Offices.)

Bengal, 51 Plans,
Madras, 99 Plans,
Bombay, 91 Plans,
N.-W. Provinces, 104 Plans,
Oudh, 21 Plans,
Rajputana, 4 Plans,
British Burma, 19 Plans,
Central Provinces,

each 8*a*

* These include Question Papers for entrance to Engineer and Upper-Subordinate Classes and Superior Accounts Branch, Public Works Department.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (Quarterly Nos. 1 to 5), bound R2, original price R18.

Quarterly Nos. 1, 2, 3, 4, and 5, at R1 each, original price R4 each.

Vol. II, Quarterly Nos. 6 and 7, at R1 each.

" III, " No. 13, R1.

" V, " Nos. 18, 19, 20, and 21, R1 each

" VI, " Nos. 22, 23, 24, and 25, R1 each.

" VII, " Nos. 26, 27, 28, and 29, R1 each.

Extra No., April 1870, R1.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, VIII, IX and XI of the Series at R1 each

Quarterly Number 41A of Vol X, at R1 each.

Cloth covers for Volumes 1st and 2nd Series, at As 8 each.

(THIRD SERIES.)

Quarterly Numbers 5, 7, 8, 11, 12, 13, 14, and 15, at R1 each

Index to Professional Papers, and loose Papers, 1st and 2nd Series, at 2a each

FERROTYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depôt Application to be made to the Curator

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent

CIRCULARS.

Circulars containing the Rules of Admission to the different Classes of the College will be forwarded to applicants

J CLIBBORN, *Lieut.-Col., I S C*,
Principal, Thomason College, Roorkee

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870 —

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . R22-8

	Without postage R	a	p.	With postage. R	a	p
For the Calcutta Series . .	10	0	0	12	8	0
" each of the Madras, Bombay, and Allahabad Series .	6	0	0	7	0	0
" a part of the Calcutta Series purchased separately, *inclusive of postage in India*				2	0	0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit —

	For town. R	a.	p.	For mofussil. R	a	p.
For the Calcutta Series, per copy .	0	8	9	0	10	3
" each of the Madras, Bombay, and Allahabad Series, per copy . . .	0	5	3	0	5	9
" the Calcutta Series. For the year .	7	2	0	8	6	3
" each of the Madras, Bombay, and Allahabad Series. For the year . .	4	4	6	4	11	3

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance:—

	One page.	*Half page.*	*Quarter page.*

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

BOOKS AND PUBLICATIONS

HOME DEPARTMENT.

NOTIFICATION.

SANITARY.

No. 300.

Simla, the 12th October, 1896.

The following rules for quarantine against plague which have been made by the Bombay Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The Rules have effect from the 5th October 1896, as a temporary measure, in the Ports of Aden, Perim and the Somáli Coast :

I.—The Commander of every vessel, including buggalows or other native craft, arriving at Aden, Perim and the Somáli Coast from Bombay shall, before entering the harbour, hoist a yellow flag (or if entering a port at night time, show whatever quarantine light signals are customary in the port) and indicate by signal the port from which such vessel has come, and shall keep such flag and signals flying until permitted to take them down as hereinafter provided. The pilot on going alongside a vessel from Bombay shall direct the flag prescribed above to be hoisted, if it has not already been done.

II.—Such Commander shall not, without first having obtained permission as hereinafter provided, allow any communication, except orally, with the shore or any other vessel or boat, excepting with the boat supplying pilots, and in that case communication shall be limited to receiving on board the pilot, his servant and baggage.

III.—On any such arrival being signalled, the Health Officer of the Port shall, as soon as possible, go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague, and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage

has suffered, from plague, and if the ship carries a qualified Medical Officer, quatantine shall be dispensed with, and partique granted.

If the vessel does not carry a qualified Medical Officer, he shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified by the Resident, and there to remain for a period of eight clear days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels and boats in the harbour.

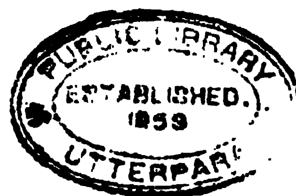
IV.—If the Health Officer, as the result of the enquiry made under paragraph III above, shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of termination of the last case either by death, recovery or removal from the vessel and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of eight days, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.



IX.—All vessels arriving at Aden, Perim and the Somáli Coast which may have communicated with vessels coming from Bombay, shall be subjected to the same rules as vessels arriving at Aden, Perim and the Somáli Coast from Bombay.

The 16th October, 1896.

No. 777.—Mr. J. A. Hopkins has been permitted to resign Her Majesty's Indian Civil Service, with effect from the 11th October 1896.

SANITARY.

The 12th October, 1896.

No. 300.—The following rules for quarantine against plague which have been made by the Bombay Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The Rules have effect from the 5th October 1896, as a temporary measure, in the Ports of Aden, Perim, and the Somáli Coast:

I.—The Commander of every vessel, including buggalows or other native craft, arriving at Aden, Perim, and the Somáli Coast from Bombay shall, before entering the harbour, hoist a yellow flag (or if entering a port at night time, show whatever quarantine light signals are customary in the port) and indicate by signal the port from which such vessel has come, and shall keep such flag and signals flying until permitted to take them down as hereinafter provided. The pilot on going alongside a vessel from Bombay shall direct the flag prescribed above to be hoisted, if it has not already been done.

II.—Such Commander shall not, without first having obtained permission as hereinafter provided, allow any communication, except orally, with the shore or any other vessel or boat, excepting with the boat supplying pilots, and in that case communication shall be limited to receiving on board the pilot, his servant and baggage.

III.—On any such arrival being signalled, the Health Officer of the Port shall, as soon as possible, go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague, and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, and if the ship carries a qualified Medical Officer, quarantine shall be dispensed with, and pratique granted.

If the vessel does not carry a qualified Medical Officer, he shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified by the Resident, and there to remain for a period of eight clear days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels and boats in the harbour.

IV.—If the Health Officer, as the result of the enquiry made under paragraph III above, shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the

vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of termination of the last case either by death, recovery or removal from the vessel and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of eight days, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somáli Coast which may have communicated with vessels coming from Bombay, shall be subjected to the same rules as vessels arriving at Aden, Perim, and the Somáli Coast from Bombay.

POLICE.

The 10th October, 1896.

No. 560.—The services of Captain A. M. Lloyd, 24th Madras Infantry, a Commandant in the Burma Military Police are replaced at the disposal of His Excellency the Commander-in-Chief

H. J. S. COTTON,

The 14th October, 1896.

No. 422—The Governor General in Council is pleased to permit Mr. A. Hullah, Chief Superintendent, Class IV, Indian Telegraph Department, to retire from the service, with effect from the forenoon of the 15th September 1896.

The 15th October, 1896.

No. 427.—The following is published for general information :

No. 795 R. T., dated Simla, the 9th October, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules for all open lines of railway in British India administered by the Government, therewith promulgated.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Letter from the Consulting Engineer to the Government of India for Railways, Calcutta, No. 3385, dated the 5th September 1896, forwarding letter from the Agent, East Indian Railway Company, No. 962 G., dated the 3rd September 1896.

OBSERVATIONS.—The Agent, East Indian Railway Company, has applied that the General Rules for working open lines of railway in British India, administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated 22nd May 1896, published under Public Works Department notification No. 257, dated the 28th May

1896 (*vide* the *Gazette of India* of the 30th May 1896), may be made applicable to the East Indian Railway and the lines worked by it.

RESOLUTION.—The Governor General in Council is pleased to sanction, with effect from the 1st November 1896, the application to the East Indian Railway and to such portions of the lines worked by it, as are situate in British territory, of the General Rules for working open lines of railway in British India, administered by the Government, which are cited in the foregoing observations, in supersession of the rules now in force.

ORDER.—Ordered, that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Consulting Engineer to the Government of India for Railways, Calcutta, for information and guidance.

W. S. S. BISSET, *Colonel, R.E.*,
Secretary to the Government of India.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 16th October, 1896, and is hereby promulgated for general information:

ACT NO. XX OF 1896.

THE SINDH INCUMBERED ESTATES ACT, 1896.

CONTENTS.

CHAPTER I.

PRELIMINARY.

CHAPTER II.

OF THE APPLICATION AND PRELIMINARY INQUIRY.

CHAPTER III.

OF THE ORDER OF MANAGEMENT.

CHAPTER IV.

PROOF OF DEBTS AND SCHEME FOR LIQUIDATION.

CHAPTER V.

OF THE PROCEEDINGS SUBSEQUENT TO SANCTION OF THE LIQUIDATION-SCHEME.

The Sindh Incumbered Estates Act, 1896.

(Chapter I.—Preliminary.—Sections 1-2. Chapter II.—Of the Application and Preliminary Inquiry.—Sections 3-6.)

An Act to amend the law providing for the relief of Jágírdárs and Zamíndárs in Sindh.

WHEREAS it is expedient to amend the law providing for the relief of jágírdárs and zamíndárs in Sindh; It is hereby enacted as follows:

CHAPTER I.

PRELIMINARY.

Title and commencement.

1. (1) This Act may be called the Sindh Incumbered Estates Act, 1896; and

(2) It shall come into force at once.

Definitions.

2. In this Act—

(1) "jágír land" includes also a share held hereditarily of the revenues of a Government village, but does not include *siri* or *mámul* or garden grants:

(2) "jágírdár" means a person who, or whose ancestor, was found in possession of jágír land in Sindh on the seventeenth day of February, 1843, and to whom the said land, or a portion of the same, or other land in lieu thereof, has been continued by the British Government, and to whom, or to whose ancestor, a sanad has been, or hereafter may be, granted confirming such continuance:

(3) "zamíndár" means a person holding lands in Sindh on the aggregate of which he or his ancestor has been assessed by the Government, on account of land-revenue for any one of the five revenue years next before the commencement of this Act, a sum not less than three hundred rupees; and a person holding lands in Sindh which, having been comprised in the jágír lands of a jágírdár, and having ceased to be jágír lands, are assessed by the Government on account of land-revenue at a sum not less than three hundred rupees per year, and, where a joint family or any other body of co-owners hold lands of either of those descriptions, each member of that family or body who would be entitled to demand a partition of the lands: and

(4) "Commissioner' means the Commissioner in Sindh.

CHAPTER II.

OF THE APPLICATION AND PRELIMINARY INQUIRY.

Application for the benefit of this Act.

3 (1) At any time after the commencement of this Act, any jágírdár or zamíndár, or any person who would be sole heir or one of the heirs to such jágírdár or zamíndár if he then died intestate, may apply in writing to the Commissioner, stating that such jágírdár or zamíndár is subject to debts or liabilities, other than debts due, or liabilities incurred, to Government, or that his immoveable property is charged with debts or liabilities other than as aforesaid, and requesting that the provisions of this Act be applied to his case.

(2) When any jágírdár, zamíndár or other person entitled to make an application under this section is a minor, or of unsound mind, or an idiot, such application may be made on his behalf by the guardian or other legal curator of his person, or by the legally constituted administrator or manager of his estate.

Order to inquire.

4. (1) When any such application is made by or on behalf of a jágírdár, or the person who would be his sole heir if he then died, the Commissioner shall direct an inquiry to be made by such officer as he thinks fit into the nature and amount of such debts and liabilities, and the sufficiency of the debtor's property, whether moveable or immoveable, to discharge the same.

(2) When such an application is made in any other case, it shall be in the discretion of the Commissioner, subject to any general rules which may from time to time be made by the Governor of Bombay in Council in this behalf, either to reject such application or to direct an inquiry to be made as aforesaid.

Interim order of protection

5. When the Commissioner has directed an inquiry under section 4, he may, if he thinks fit, further direct that, until he dismisses the application or appoints an officer under section 7, sub-section (2), clause (c),—

(a) all proceedings then pending in any Civil or Revenue Court or Office in British India, in respect of any of the debts and liabilities to which the debtor is subject, or which are charged on the whole or any part of his immoveable property, shall be stayed, and the operation of all processes, executions and attachments then in force for, or in respect of, such debts and liabilities shall be suspended; and

(b) no fresh proceedings, processes, executions or attachments shall be instituted in, or issued by, any Civil Court or Revenue Court or Office in British India in respect of such debts and liabilities.

Verified statement to be submitted.

6. (1) When an inquiry has been directed under section 4, the applicant shall, within a period to be fixed by the Commissioner, submit to the officer appointed to make

The Sindh Incumbered Estates Act, 1869.

(Chapter II.—Of the Application and Preliminary Inquiry.—Section 7. Chapter III.—Of the Order of Management.—Sections 8-11.)

such inquiry a statement duly verified by the said applicant, or by some other competent person, in the manner required by law for the verification of plaints, and containing, so far as may be practicable, such details as to the debts and liabilities, and as to the sufficiency of the debtor's property, whether moveable or immoveable, to meet the same, as the Commissioner, or the said officer subject to his control, may require.

(2) If any such statement contains any averment which the person making the verification knows or believes to be false, or does not know or believe to be true, such person shall be deemed to have intentionally given false evidence within the meaning of the Indian Penal Code. XLV of 1860.

Report of inquiry and proceedings thereon.

7. (1) The officer so appointed, after making inquiry, shall submit a report of the proceedings to the Commissioner.

(2) On receipt of such report, the Commissioner may—

(a) direct a further inquiry ; or

(b) dismiss the application ; or

(c) by order published in the Sindh Official Gazette, appoint an officer (hereinafter called the manager) to manage the immoveable property of the debtor, and to arrange for the liquidation of his debts in manner hereinafter provided.

CHAPTER III.

OF THE ORDER OF MANAGEMENT.

Order of management.

8. (1) An order made under section 7, sub-section (2), clause (c), (hereinafter called "the order of management") shall extend to all immoveable property, including any interest in joint immoveable property, of or to which the debtor is on the date of its publication possessed or entitled in his own right, or which he is entitled to redeem, or which may be acquired by or devolve on him during the continuance of the management, and to all debts and liabilities to which he is subject, or which are charged on the whole or any part of his immoveable property on the said date, and to the amount of any loan which may be received by the manager in the manner hereinafter provided.

(2) The management shall be deemed to commence from the date on which the order is published.

Effect of order of management.

9. On the publication of the order of management the following consequences shall ensue:

(1) all proceedings then pending in any Civil Court or Revenue Court or Office in British India in respect to the debts and liabilities mentioned in section 8 shall be stayed; and the operation of all processes, executions and attachments then in force for or in respect of, such debts and liabilities shall be suspended;

(2) so long as the management continues, no fresh proceedings, processes, executions or attachments shall be instituted in or issued by any Civil Court or Revenue Court or Office in British India in respect of such debts and liabilities;

(3) so long as the management continues, the debtor shall be incompetent—

(a) to enter into any contract involving him in pecuniary liability, or

(b) to mortgage, charge, lease or alienate the property under management or any part thereof, or

(c) to grant valid receipts for the rents and profits arising or accruing therefrom :

Provided that nothing contained in this clause shall be deemed to preclude the manager from letting, and the debtor from taking, the whole or any part of such property on such terms consistent with this Act as may be agreed upon between the parties ;

(4) so long as the management continues, no person other than the manager shall be competent to mortgage, charge, lease or alienate such property or any part thereof.

Powers of manager.

10. The manager shall, during the management of the property, have all powers which the owner thereof might, as such, have legally exercised, and shall receive and recover all rents and profits due in respect of the property under management, and for the purpose of recovering such rents and profits shall have, in addition to any powers possessed by a jágírdár or zamíndár, as the case may be, all the powers possessed by a Collector under the law for the time being in force for the recovery of land-revenue due to Government :

Provided that he shall not, before the liquidation-scheme hereinafter mentioned has been sanctioned, demise the property under management, or any part thereof, for any term exceeding two years, to take effect in possession.

Payments to be made by manager and order thereof.

11. (1) From the sums received or recovered under section 10, the manager shall pay—

first, the costs of the management, including the costs of necessary repairs ;

secondly, the Government revenue and all debts and liabilities for the time being due or incurred to Government in respect of the property under management ;

thirdly, the rent (if any) due to the jágírdar or other superior holder in respect of the said property ;

fourthly, such periodical allowances as the Commissioner may from time to time fix for the maintenance of the debtor and his family ;

fifthly, the cost of such improvements of the said property as he thinks necessary, and are approved by the Commissioner.

(2) The residue shall be retained by the manager for the liquidation, in manner hereinafter provided, of the debts and liabilities mentioned in section 8 other than those so due or

The Sindh Incumbered Estates Act, 1896.

(Chapter IV.—Proof of Debts and Scheme for Liquidation.—Sections 12-19.)

incurred to Government, and also for the repayment, either before or after the liquidation of such debts and liabilities, of any loan received by the manager under this Act.

CHAPTER IV.

PROOF OF DEBTS AND SCHEME FOR LIQUIDATION.

Notice to claimants against debtor.

12. On the publication of the order of management, the manager shall publish in the Sindh Official Gazette a notice in English and Sindhí, calling upon all persons having claims against the debtor, or the property under management, to notify the same in writing to such manager within six months from the date of the publication, and shall also cause copies of such notice to be exhibited at the mukhtiárkárs' kachahrís in the district in which the said property lies, and at such other places as he thinks fit.

Claimant to present full particulars and documents.

13. (*1*) Every such claimant shall, along with his claim, present full particulars thereof.

(*2*) Every document on which the claimant founds his claim, or on which he relies in support thereof, shall be delivered to the manager along with the claim.

(*3*) If the document is an entry in any book, the claimant shall produce the book to the manager, together with a copy of the entry on which he relies. The manager shall mark the book for the purpose of identification, and, after examining and comparing the copy with the original, shall return the book to the claimant.

(*4*) If any document in the possession or under the control of the claimant is not delivered or produced by him to the manager along with the claim, the manager may refuse to receive such document in evidence on the claimant's behalf at the investigation of the case.

Claim not duly notified to be barred.

14. Every such claim (other than claims of the Government) not notified to the manager within the time and in the manner required by such notice shall, except as provided in section 19, clause (*d*), be deemed for all purposes and on all occasions, whether during the continuance of the management or afterwards, to have been duly discharged :

Provided that, when proof is made to the manager that the claimant was unable to comply with the provisions of section 12, the manager may receive such claim within the further period of six months from the expiration of the original period of six months.

Determination of debts and liabilities.

15. The manager shall inquire into the history and merits of every claim received under sections 12 and 14, and shall, in accordance with the rules to be made under this Act, determine the amount of the debts and liabilities (if any) justly due to the several claimants.

Power to rank debts and to fix interest.

16. If such amount cannot be paid at once, the manager shall then proceed to rank such debts and liabilities according to the order in which they shall be paid, and to fix the interest (if any) to be paid thereon, respectively, from the date of the final decision thereon to the date of the payment and discharge thereof.

"Liquidation-scheme."

17. (*1*) When the total amount of the debts and liabilities (including those due and incurred to Government) has been finally determined, the manager shall prepare and submit to the Commissioner a schedule of such debts and liabilities, and a scheme (hereinafter called the liquidation-scheme) showing the mode in which it is proposed to pay and discharge the same, whether from the income of the property under management, or with the aid of funds raised under the powers hereinafter conferred, or partly in one of such ways and partly in the other.

(*2*) Every liquidation-scheme shall further provide for the continuance of the payments to be made by the manager under section 11, and for the repayment of the money (if any) which the manager proposes to borrow under this Act; and may provide for the improvement of the property under management either from the said income or with the aid of the funds raised as aforesaid, or partly in one of such ways and partly in the other.

Proceedings of Commissioner on submission of liquidation-scheme.

18. The Commissioner may—

(*a*) as often as he thinks fit send back such scheme to the manager for revision, and direct him to make such further inquiry as may be requisite for the proper preparation of the scheme, or

(*b*) sanction any liquidation-scheme or any revised liquidation-scheme submitted to him, either as it stands, or subject to such modifications as he may deem expedient.

Power to relinquish management.

19. (*1*) At any time before he has sanctioned a liquidation-scheme under section 18, the Commissioner may, by an order published in the Sindh Official Gazette, direct that on a date fixed by such order the management shall be relinquished.

(*2*) On the date so fixed—

(*a*) the management shall terminate ;

(*b*) the owner of the property under management shall be restored to the possession thereof, subject to any leases granted under section 10;

(*c*) any residue of the rents and profits of the said property retained under section 11, sub-section (*2*), shall be paid to him ; and

(*d*) the proceedings, processes, executions and attachments stayed and suspended under section 9, and the debts and liabilities barred by section 14, shall revive.

(*3*) In calculating the periods of limitation applicable to suits to recover and enforce debts and liabilities revived under this section, the time during which the management has continued shall be excluded.

The Sindh Incumbered Estates Act, 1896.

(Chapter V.—Of the Proceedings subsequent to Sanction of the Liquidation-scheme.—Sections 20-28.)

CHAPTER V.

OF THE PROCEEDINGS SUBSEQUENT TO SANCTION OF THE LIQUIDATION-SCHEME.

Effects of sanctioning scheme.

20. When the Commissioner sanctions the liquidation-scheme, he shall notify the fact of such sanction at such places and in such manner as the Local Government may from time to time by rule direct, and thereupon—

(1) all proceedings, processes, executions and attachments stayed or suspended under section 9 shall be for ever barred, and

(2) every debt or liability due or owing to any person which was proveable before the manager shall be extinguished, and such person shall be entitled to receive under the liquidation scheme the amount (if any) finally awarded to him under Chapter IV in respect of such debt or liability.

Power to remove mortgagee in possession.

21. (1) If the property under management or any part thereof is in the possession of a mortgagee or conditional vendee, the manager, at any time after the liquidation-scheme has been sanctioned as aforesaid, may, by an order in writing require such incumbrancer to deliver up possession of the same to him at the end of the then current revenue year.

(2) If such incumbrancer refuses or neglects to obey such order, the manager may without resorting to a Civil Court, enter upon the property and summarily evict therefrom the said incumbrancer and any other person obstructing or resisting on his behalf.

(3) Nothing in this section shall be held to affect the right of any incumbrancer to receive under the liquidation scheme, the amount (if any) awarded to him under Chapter IV.

Power to inquire into consideration given for leases.

22. If the property under management or any part thereof is in the possession of any person claiming to hold under a lease dated within the three years immediately preceding the commencement of the management, the manager, with the sanction of the Commissioner, may enquire into the sufficiency of the consideration for which the lease was granted, and, if such consideration appears to him insufficient, may by written order, at any time after the liquidation-scheme has been sanctioned as aforesaid, either set aside the lease or require the person so in possession to pay such consideration for the said lease as the manager thinks fit, and in default of such payment the lease shall be cancelled.

Power to lease.

23 Subject to the rules made under section 33, the manager, after the liquidation-scheme has been sanctioned as aforesaid, shall have power to demise all or any part of the property under management for any term of years not exceeding twenty years absolute, to take effect in possession, in consideration of the payment to him of any fine, or without fine, and reserving such rents, and under such conditions, as may be agreed upon

Power to raise money by mortgage or sale.

24. At any time after the liquidation-scheme has been sanctioned as aforesaid, the manager, with the previous assent of the Commissioner, shall have power to raise any money which may be required for carrying out such scheme—

(a) by demising by way of mortgage the whole or any part of the property under management for a term not exceeding twenty years from the publication of the order of management, or

(b) by selling, by public auction or by private contract, and upon such terms as the manager thinks fit, such portion of the said property as may appear expedient, or

(c) by borrowing money at such rate of interest as appears reasonable to the Local Government.

Separation of part of jágír lands subject to lapse.

25 When jágír land under management is held on this condition, that on the happening of a certain event a share of the land shall lapse, but that it shall be in the discretion of the person then entitled as jágírdár to divide off and relinquish in respect of the lapse such part of the land being a fair equivalent of that share, as he thinks fit, the manager may, if he deems it convenient for the better exercise of the powers conferred by sections 23 and 24, at any time, after such consultation with persons interested as he thinks necessary, allot by written order, for relinquishment on the happening of the event, such part of the land as he thinks fit, and thereupon that part and no other shall, on the happening of the event, be relinquished.

Manager's receipt to be a discharge.

26 The manager's receipt for any moneys, rents or profits raised or received by him under this Act shall discharge the person paying the same therefrom and from being concerned to see to the application thereof.

Termination of management.

27 (1) When the debts and liabilities mentioned in the liquidation-scheme and the amount of any loan received under section 24, clause (c), together with the interest (if any) due thereon, have been paid and discharged, the manager shall publish in the Sindh Official Gazette a notice fixing a date for the termination of the management

(2) On the date so fixed the management shall terminate, and the owner shall be restored to the possession and enjoyment of the property under management, or of such part thereof as has not been sold by the manager under the power conferred by section 24 but subject to the leases and mortgages (if any) granted and made by the manager under the powers conferred by sections 10, 23 and 24.

Death of debtor during management.

28 If the debtor dies after the publication of the order of management and before the management has been terminated in either of the modes hereinbefore provided,—

(1) the management shall continue and proceed in all respects as if such debtor were still living;

(2) any person succeeding to the whole or any portion of the property under

The Sindh Incumbered Estates Act, 1896.
(Chapter V.—Of the Proceedings subsequent to Sanction of the Liquidation-scheme.—Sections 29-30. Chapter VI.—Of Appeal and Revision.—Sections 31-32. Chapter VII.—Miscellaneous.—Sections 33-39.)

management shall, while such management continues, be subject in respect of such property to the disabilities imposed by section 9, clause (3), sub-clauses (*b*) and (*c*); and

(3) no Civil Court or Revenue Court or Office in British India shall, during the continuance of the management, issue any attachment or other process against any portion of the property under management for, or in respect of, any debt or liability incurred by any such person whether before or after his said succession.

Mortgages, &c., made by restored jágírdár valid only for his life.

29. When a jágírdár or zamíndár has been restored under section 27, sub-section (2), to the possession of any property, no mortgage, charge, lease or alienation of such property, or of any part thereof, made or granted by such jágírdár or zamíndár shall be valid as to any time beyond his natural life.

Power to revise liquidation-scheme.

30. Notwithstanding anything contained in this Act, the Commissioner may, at any time after he has, whether before or after the commencement of this Act, sanctioned the liquidation-scheme, revise and modify the same, but not so as to affect the right of any person to receive in full before the termination of the management the amount finally awarded to him under Chapter IV.

CHAPTER VI.

OF APPEAL AND REVISION.

Appeal.

31. (1) An appeal against any decision or order under sections 14, 15, 16 and 22, and imposing a fine or imprisonment in exercise of the powers conferred by section 37, shall lie to the Commissioner, if preferred within six weeks from the date of such decision or order.

(2) There shall be no appeal against the decision of the Commissioner on such appeal.

Power to call for proceedings and pass order thereon.

32. The Commissioner may, of his own motion or on the application of any person concerned, call for the proceedings in any case under this Act, and pass such order thereon consistent with the provisions of this Act as he thinks fit.

CHAPTER VII.

MISCELLANEOUS.

Power to make rules.

33. (1) The Commissioner, with the previous sanction of the Governor of Bombay in Council, may, from time to time, make rules consistent with this Act—

(*a*) to regulate the security to be required from subordinate officers under this Act;

(*b*) to regulate the procedure in all cases under this Act;

(*c*) for the guidance of officers enquiring into and determining on claims under Chapter IV; and in particular as to the allowance of interest (if any) on each of the principal debts and liabilities so determined, from the date on which it was incurred down to the date of the determination, and on the aggregate amount of such debts and liabilities from the date of the determination down to the date of payment, and as to the order of paying debts and liabilities and repaying any loan received hereunder;

(*d*) for investing any moneys received or raised by the manager under this Act in any Government securities of British India, and for the sale of such securities, and

(*e*) generally to carry out the provisions of this Act.

(2) Such rules shall be published in the Sindh Official Gazette, and shall thereupon have the force of law.

Power to appoint new manager.

34. Whenever the Commissioner thinks fit, he may suspend or remove any manager, and may appoint any officer in the stead of any manager appointed under this Act; and thereupon the management then vested under this Act in the former manager shall become vested in the new manager, and the new manager shall have the same powers as if he had been originally appointed.

Managers to be public servants.

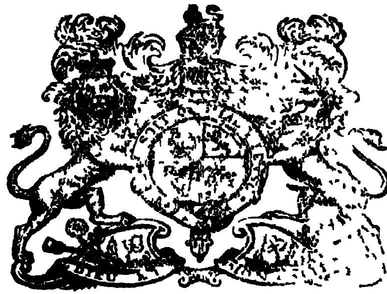
35. Every manager appointed under this Act shall be deemed a public servant within the meaning of the Indian Penal Code. XLV of 1860.

Investigation to be deemed a judicial proceeding.

36. Every investigation conducted by the manager with reference to any claim preferred before him under this Act, or to any matter connected with any such claim, shall be taken to be a judicial proceeding within the meaning of the Indian Penal Code. XLV of 1860.

Power to summon witnesses and compel production of documents.

37. For the purposes of this Act, the manager may summon and enforce the attendance of witnesses and compel them to give evidence, and compel the production of documents, by the same means and, as far as possible, in the same manner, as is provided in the case of a Civil Court by the Code of Civil Procedure. XIV of 1882.



Bar of suits.

38. No suit or other proceeding shall be maintained against any person in respect of anything done by him *bonâ fide* pursuant to this Act.

Saving of jurisdiction of Courts in Sindh in respect of certain suits.

39. Nothing in this Act precludes the Courts in Sindh having jurisdiction in suits relating to the succession to any immoveable property brought under the operation of this Act from entertaining and disposing of such suits; but to all such suits the manager of such property shall be made a party.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th October, 1896.

NO. 26 OF 1896.

A Bill to provide for the exemption from the operation of municipal laws of certain buildings and lands which are the property, or in the occupation, of Government and situate within the limits of a municipality.

WHEREAS it is expedient to provide for the exemption from the operation of municipal laws of certain buildings and lands which are the property, or in the occupation, of Government and situate within the limits of a municipality; It is hereby enacted as follows:

Title, extent and commencement.

1. (*1*) This Act may be called the Government Buildings Act, 1896.

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force at once.

Definitions.

2. In this Act the expression "Municipal Committee" includes a Municipal Corporation or a body of Municipal Commissioners constituted by or under the provisions of any law or enactment for the time being in force; and the expression "Government" includes a Local Government as well as the Government of India.

Exemption of Government buildings from municipal laws to regulate the erection, etc., of buildings within municipalities.

3. (*1*) Nothing contained in any law or enactment for the time being in force to regulate the erection, re-erection, construction, alteration or maintenance of buildings within the limits of any municipality shall apply to any building which is the property, or in the occupation, of Government, or which is to be erected on land which is the property, or in the occupation, of Government.

(*2*) When the erection, re-erection or alteration of any such building as aforesaid is contemplated, reasonable notice of the proposed work shall be given to the Municipal Committee before the work of erection, re-erection or alteration is commenced.

[illegible]

(*1*) In the case of any such building as is mentioned in the last preceding section, the Municipal Committee of such municipality, or any person authorized by it in this behalf, may, with the permission of the Local Government previously obtained, but not otherwise, and subject to any restrictions or conditions which may, by general or special order, be imposed by the Local Government, inspect the said land and building and all plans connected with its erection, re-erection, construction, alteration or maintenance, as the case may be, and may submit to the Local Government a statement in writing of any objections or suggestions which such Municipal Committee may deem fit to make with reference to such erection, re-erection, construction, alteration or maintenance.

(*2*) Every objection or suggestion submitted as aforesaid shall be considered by the Local Government, which shall, after such investigation, if any, as it shall think advisable, pass orders thereon, and the building referred to therein shall be erected, re-erected, constructed, altered or maintained, as the case may be, in accordance with such orders.

Provided that, if the Local Government overrules or disregards any such objection or suggestion as aforesaid, it shall give its reasons for so doing in writing.

(*3*) Every order passed by the Local Government under this section shall be subject to revision by the Governor General in Council, but not otherwise, and the decision of the Governor General in Council thereon shall be final.

STATEMENT OF OBJECTS AND REASONS.

THE provisions of the various Acts in force regarding the regulation of buildings in municipalities rest in the main on the necessity for controlling building and the maintenance of buildings with due regard to engineering and sanitary exigencies, and the powers conferred upon Municipal Committees with this object in the several Municipal Acts are wide and more or less absolute It has been on several occasions represented to the Government of India that in the case of Government buildings this necessity does not exist, as the requirements in question are secured by departmental regulations and the advice of the experts who are employed by the State for the proper execution and supervision of public works. Moreover, as regards works relating to imperial defence, it is evident that, if direct control is to be effectively exercised by Municipal Committees, the power of inspection must extend to the examination, on demand, of plans and records, which may be of a strictly confidential character, and this examination is inconsistent with the secrecy which, for obvious reasons, is essential in these matters. It will be generally admitted that the Government cannot permit its designs for the improvement of its coast batteries, magazines or arsenals to become practically public property merely because such designs have to be carried out within a municipal area in which the local law requires their submission to the municipal authorities and admits of extraneous and, it may be, arbitrary interference with them.

2. The object of this Bill is, therefore, to exempt from such regulations all buildings which are situate within municipalities and are, or are to be erected upon land which is, the property, or in the occupation, of the Government The Government of India have, however, no desire to ignore the internal arrangements and general administration of municipalities. On the contrary, they consider it incumbent on the Administration to frame its projects with full consideration for the general plans of any municipal body concerned; and they consider it reasonable and right that municipal bodies should have opportunities of criticizing such projects, but the final judgment on objections and suggestions must rest with the Local Government which has undertaken them, and not with a Municipal Board, which is itself under the control of the Local Government. It is proposed in the Bill, therefore, to provide that reasonable notice of any work which it is intended by the Government to undertake, shall be given to the municipality concerned, that the Municipal Committee shall be permitted, subject to suitable safeguards, to inspect the land and the plans; that any representation such municipal Committee may think fit to make with reference thereto shall be received and considered by the Local Government; that the work shall be executed in strict accordance with the orders passed by the Local Government on such a representation, and that every order so passed shall be liable, in the last resort, to revision by the Governor General in Council.

The 10th October, 1896. J. WOODBURN.

PART VI.

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at the Viceregal Lodge, Simla, on Thursday, the 15th October, 1896.

PRESENT:

His Excellency the Earl of Elgin, Viceroy and Governor General of India, P.C., G.M.S I., G.M.I.E., LL.D., *presiding*.

His Excellency General Sir G. S. White, G.C.I.E., K.C.B., V.C., Commander-in-Chief in India.

The Hon'ble Sir J. Westland, K C.S.I.

The Hon'ble J. Woodburn, C.S I.

The Hon'ble M. D. Chalmers.

The Hon'ble Major-General Sir E. H. H. Collen, K C.I.E.

The Hon'ble A. C. Trevor, C.S.I.

The Hon'ble Sir A. S. Lethbridge, K.C.S.I., M.D.

The Hon'ble C. M. Rivaz, C.S.I.

SINDH INCUMBERED ESTATES BILL.

The Hon'ble MR. WOODBURN moved that the Bill to amend the law providing for the relief of Jágírdárs and Zamíndárs in Sindh be taken into consideration. He said :—" Since the Bill was introduced only one comment upon it has been received. It was referred to the Government of Bombay for opinion, and they have expressed their earnest desire that the Bill should be passed into law without delay. They apprehend that any delay may lead to foreclosures of mortgages in Sindh which they are very anxious to avoid. It is unnecessary

that I should recapitulate the reasons for this measure which I gave in Council the other day. The course of events since has shown the great necessity of Government husbanding its imperial resources and of calling into play all those local aids which it may be presumed are available in Sindh. I have little doubt, as I said on the previous occasion, that in Sindh, as in other parts of the country, abundant opportunities will be given to the Collectors of getting local loans at reasonable rates of interest as is done in other parts of the country."

The motion was put and agreed to.

The Hon'ble MR. WOODBURN also moved that the Bill be passed.

The motion was put and agreed to.

The Hon'ble MR. WOODBURN moved for leave to introduce a Bill to provide for the exemption from the operation of municipal laws of certain buildings and lands which are the property, or in the occupation, of Government and situate within the limits of a municipality. He said:—"In a case which occurred some little time ago the municipal authorities claimed the right of inspecting and pronouncing upon the propriety of the alteration of the plans of certain buildings within a defensive work which happened to be situated inside the municipal area. The plans were shown as the buildings were unimportant, but very strong representations were made to the Government of India that the precedent was inconvenient, and that the Military Department should have the right of refusing to submit to public inspection and criticism the plans of works which, from the very nature of the case, are ordinarily confidential. In another case the Local Government took exception to the claim made by a Municipal Committee to examine and modify plans of State buildings which it had been proposed to erect within municipal limits They represented that these plans had been prepared and matured by the best Engineers that were available in the Province, and that it was inconsistent that plans so prepared should be modified at the instance of other professional advisers who certainly had not equal experience and reputation. Municipal Committees, like all other administrative bodies and functionaries, are under the control and guidance of the Executive Government, and it was urged that it is right that the supreme authority and the final decision in respect to the character and form of State buildings within municipal limits should be, not with the Municipal Committee, but with the Government itself. These arguments appear to the Government of India to be reasonable, and the Bill which I have to ask leave to introduce to-day provides that the supreme authority in such matters shall rest with the Government. At the same time it is right and reasonable that Municipal Committees should have the fullest knowledge of the intention to construct buildings within their jurisdiction, whether these buildings are private or State buildings They have large responsibilities and they have very important interests to consider and protect. The comfort and convenience of the citizens may be affected by these buildings, and sanitary conditions have to be maintained. It is, therefore, as I have said, only right that Municipal Committees should have the fullest opportunity of ascertaining and of objecting to any detail of such plans which may interfere with the general scheme of municipal administration. The Bill accordingly provides that ample notice shall be given to Municipal Committees of the intention of Government to erect any State buildings, or public edifices, within municipal areas. It provides, except in those special cases where, for military reasons, it is impossible to disclose plans, that the plans shall be shown to the Municipal Committee. It provides that Committees shall have an opportunity of stating to the Government any objections they entertain to those plans, and it provides that, if those objections are overruled, the reasons for overruling them shall be explained to the Committees. The Bill does take power to reserve to the Government a supreme authority in the decision of matters of the kind, but the Municipal Committee may rest assured that the fullest weight will be given to any representations they may have to make."

The motion was put and agreed to.

The Hon'ble MR. WOODBURN introduced the Bill.

The Hon'ble MR. WOODBURN moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the

local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

FISHERIES BILL.

The Hon'ble MR. WOODBURN said :—" I have to ask Your Excellency's permission to make a statement in regard to the Fisheries Bill which has been on the books of the Legislative Council since 1893. The Bill as it was then introduced consisted of two parts. The first had the object of preventing, or at least restraining, wanton or wasteful methods of fish capture, and the other had the object of protecting the owners' rights in private fisheries. The Government of India have come to the conclusion that the second part of that Bill should not be proceeded with, and I wish to take this opportunity of explaining very briefly the reasons which have led to that conclusion.

" Legislation which affects the daily and domestic life of the poorer classes is always difficult and doubtful, because one can never be very certain of the precise effect of that legislation. In this present matter it has been represented to the Government of India that, in large tracts of the country, the poorer classes are in the habit of fishing, without let or hindrance, in waters which certainly cannot be legally described as public waters. It is difficult to say how far this custom of the people is a right exercised by the permission of the proprietors, but it is apparently the fact that in very large areas it is the practice of the people to fish freely in those waters, and in the exercise of this custom, whether it is a right or a privilege, multitudes of poor people have the opportunity of adding very largely to their food resources and of adding a very welcome and wholesome change to their ordinary diet. It might be possible to frame a measure in such terms as to secure to the people where this practice is the outcome of ancient habit the continuance of their privilege in the matter, but it would be difficult to do so, and a law which increased the protection of private owners in their fisheries might suggest the prohibition of a practice which otherwise it would not have occurred to the owners to refuse.

" It has also been represented to the Government of India that there has been no special claim made on the part of the owners for this new and additional protection. In Bengal, in 1889, a law was passed of a somewhat similar tenor to the second portion of the present Bill, but that law has since remained practically inoperative, and in other parts of the country there has been no claim set forward by the owners that they require and ask for an extension of similar terms in their own provinces Further, it does not appear from the papers that there has been any very noticeable diminution in the supply of fish, in the lower parts of the country at least, and the case does not appear to the Government of India a very strong one for carrying out this portion of the Bill.

" Lastly, there is the consideration that to enforce effectively the provisions of the Bill as introduced would require the entertainment of a preventive establishment which would be quite outside our financial resources. The enforcement of these provisions would, therefore, lie with the ordinary police of the country, to whose functions it is not desirable to make any addition, and in a matter so indefinite as the rights and privileges of the people in fishing there is danger that the action of the police would become, if not oppressive, at least extremely harrassing to them. It is for these reasons that the Government of India have come to the conclusion that the second part of the Bill should not be proceeded with, and when a Select Committee is appointed in Calcutta, as I hope it shortly will be, they will be invited to confine themselves to the consideration of those provisions which have been devised for the prevention of wasteful or wanton methods of fish capture, especially in the spawning season and in spawning places."

AGRICULTURAL PROSPECTS.

The Hon'ble MR. WOODBURN said :—" I have also to ask Your Excellency's permission to make a statement in regard to the failure of the crops which has occurred this season, and the measures that are being taken by the Imperial Government and the Local Governments.

"In view of the fact that this year's monsoon, like that of last year, has ceased prematurely, the Government of India have been in communication with Local Governments regarding the probability of approaching distress. The autumn crop-inspections are only just over, and no detailed forecast can be prepared till the end of the month. But the Governor General in Council has thought it well that the public should be informed without delay of the general aspect of affairs, so far as it can be gathered from the information at present available.

"Broadly speaking, it may be said that, if no rain falls in time for the sowing of the spring crops, severe distress may not improbably be felt in most of the Oudh districts, in those parts of the Agra and Allahabad divisions which are not protected by irrigation, in parts of the Benares, Gorakhpur and Rohilkhand divisions, in a great part of the Cis-Sutlej portion of the Punjab and in the tract lying immediately north-west of Lahore.

"In the Central Provinces, prospects are less discouraging; but it is apprehended that, in the absence of further rain, relief may be required in Saugor, Jubbulpur, Narsinghpur and Hoshangabad, in the four plateau districts and in a part of Raipur. In two districts of Upper Burma, also, distress is apprehended unless an early fall of rain brings relief; while the state of the crops in parts of the Bombay Presidency is such as to cause anxiety.

"Even where the local crops have not failed, the high prices which already prevail may, if they continue to rise, render necessary in some cases measures for the assistance and relief of the poorer classes.

"It will be seen that the portion of India over which the possibility of severe scarcity is to be apprehended corresponds closely with the famine area of 1877-78. But during the twenty years that have elapsed since then, much has been done to strengthen the hands of Government in combating distress. Since 1877 the mileage of completed perennial canals has increased in the Punjab from 500 to 1,850 for main channels and from 1,650 to 8,500 for distributaries; while the irrigating capacity of all canals has risen from 1½ to 3⅓ millions of acres, and will reach 4 millions within the next six months. In the North-Western Provinces, the length of main channels has increased from 950 to 1,400 and of distributaries from 4,650 to 6,900 miles while the irrigating capacity has risen from 1½ to 2 millions of acres. There are now over ten millions of acres irrigated from various sources in the North-Western Provinces and Oudh; while in the Punjab the total irrigated area has risen since 1877 from 5 to 7½ millions of acres. During the same interval, the open miles of rail have increased from 505 to 1,143 in the Central Provinces, from 618 to 2,296 in the Punjab and from 1,337 to 2,795 in the North-Western Provinces and Oudh, or in all from 2,460 to 6,234; while the cost of carriage by rail has been greatly reduced. I might mention in this connection incidentally that, last night, I was informed that the Bombay railways have voluntarily reduced their freights on all up-country imports.

"The famine of 1877-78 in the north had been immediately preceded by one of intensity in the south of the country, which had depleted the food-stocks throughout India—an element of difficulty which is now happily absent. Indeed, apart from the supply of grain which will flow to the distressed districts from other and more favoured parts of India, we find on the present occasion that, for the first time in the history of Indian famines, our resources are about to be supplemented by supplies from abroad, as indeed the Famine Commission foretold would be the case—India receiving in her need as she gives in her abundance. It is understood that wheat has already been imported into India from California, and that further supplies may be expected from the same source. It has been calculated that, at present prices, Californian wheat can be landed at Calcutta at about 10 seers per rupee, which would represent a rate of 8¾ seers at Allahabad. The surplus supplies upon which we are thus about to draw are enormous. In a single year within the last few years, the United States (in which California is included) have exported as much as 18 crores, Argentina 3½ crores and Canada 1½ crores, or in all 23 crores, of maunds of wheat; in addition to which Russia and the Balkan States have exported 13 and Australia 13¾ crores more. If, as seems probable, a steady supply from abroad pours into India, it is

impossible that prices should ever approach such rates as have ruled in previous famines, when, even so late as 1865, coarse rice has been known to reach 5 seers per rupee.

"The Famine Commission estimated that under the most unfavourable circumstances that need be apprehended, and providing for relief on almost double the scale of 1877-78, the greatest number that was ever likely to be in receipt of relief from Government in any one famine would be $2\frac{1}{4}$ millions of people for an average period of one year, for whose support about one crore of maunds of grain would suffice.

"The Government of India and the Local Governments concerned are alike alive to the possibility of scarcity on a considerable scale, and to the importance of making timely preparation to meet it. The Supreme Government have recently indicated to the Governments of the North-Western Provinces and the Punjab that there are nine schemes of railway construction where the line of the alignment is tolerably certain, upon which they are prepared to sanction the immediate commencement by the Local Government of earthworks as relief-works should necessity arise, quite apart from any consideration of the final completion of the railway lines, and have made preparations for the rapid completion of the surveys where these are not already complete. The Local Governments are preparing canal projects and lists of minor public works which can be utilised for purposes of relief in those districts in which distress is apprehended. Ten lakhs of rupees have just been added to the already large grant at the disposal of the Government of the North-Western Provinces and Oudh, to be spent in advances for the construction of temporary wells, which can in many parts of the country be dug with great expedition and at small expense. Meanwhile, test relief-works and poor-houses have already been opened wherever they seemed to be required.

"It is unfortunately certain, unless good rain comes very shortly, that scarcity in the coming winter will be spread over a wide area of Upper India; but active measures have already been concerted for giving work and relief wherever necessary, and there are circumstances on the present occasion which will we may confidently hope, prevent distress from reaching the proportions it attained in 1877."

His Excellency THE PRESIDENT said:—"The statement of the Hon'ble Member will, I hope, be an assurance, if assurance be needed, that the Government of India are fully alive to their responsibilities in a matter so serious as any threatening of the approach of famine. Famine which is the result of a sudden failure of our accustomed rainfall is a foe the approach of which no Government can foretell and no prescience can altogether avert; but at the same time it is a foe which can be faced and overcome by prudence and foresight. This is a case in which the Government is fighting the people's battle, and that is the spirit which has animated the Hon'ble Member's statement, which has set forth for the information of all, frankly and without reserve, both the apprehensions we entertain and the reasons for our confident hope that the difficulties will be surmounted.

"I desire to endorse what the Hon'ble Member has said, and to add one more reason for the hope which I share with him. He has pointed out the great advantages of our position as contrasted with that of the Government in 1877-78. But, though we have been so fortunate as to escape for nearly twenty years from the severer form of distress, we shall not, if we have now to face it, enter the combat wholly unready or untried. In the first place, we have at hand the results of former experience, in the plans carefully thought out and elaborated when the necessities were still fresh in the minds of men. But, besides, the approach of an enemy is often heralded by a skirmish at the outposts, and our skirmish with famine this summer was sharp and decisive. The distress which prevailed in the North-West Provinces this summer assumed dimensions which in other times would infallibly have had disastrous consequences. But the Government of the North-West Provinces unaided, without any dislocation of business, provided for a population so large that the numbers on relief-works for a considerable time exceeded 300,000, in so complete a manner that I think their achievement has never obtained the applause it merited, simply because so few realised what had been done.

"This great work was rendered possible by the very circumstances which, as the Hon'ble Member has said, have so much strengthened the hands of Government since 1877, more especially by the increased means of communication. It is to be remembered that in our reliance on our improved means of communication we are enunciating no new opinion. It was the opinion deliberately formed, with the experience of the great famine of 1877 fresh upon them, by the Government of Lord Lytton, who laid it down in the most precise terms that in increase of railways and canals, but especially of railways, lay the only means open to the Government of meeting attacks of famine on more favourable conditions. I draw attention to it now, both because I am desirous not to let this my first opportunity pass of alluding publicly to what Sir A. MacDonnell and his officers have done, but because it cannot be denied that what they have done can be done again and on a larger scale if necessary. It is upon the Local Government that, whatever happens, we must rely to carry out the measures that may become necessary, and knowing, as we do, that we can look to the Governments of the Punjab and the Central Provinces with the same confidence that the North-West Government have taught us to expect, we are justified I think in our belief that the work will be done, and will be done well.

"And as to the share of the Government of India, it is not for us ourselves to enter into the arena and to take charge of the operations. We should hamper the proper authorities, and not assist them. Our duty is to devise means for helping the Local Governments with the wider knowledge of the whole circumstances available to us, and to supply the sinews of war where required. The Hon'ble Member has stated how we are already doing all we can in this direction, and I am certain that the North-West Government from their recent experience will bear me out if I engage on the part of the Government of India that, if this is our share of the work, it will be done ungrudgingly and without hesitation.

"One word I should like to add as to non-official co-operation. I have seen with much satisfaction that in Delhi, and I think elsewhere, those who possess means have taken steps to combine for the alleviation of the distress of their poorer neighbours. I shall not be suspected of any desire of shirking official responsibility if I welcome most cordially efforts of this kind. In this country the Government must undertake the relief of the people as a whole, and the rules under which it works have been framed so as to reach the really necessitous, both the able-bodied poor and those unable to share in the ordinary forms of active employment by reason of infirmities of body, of sex, or even of social custom; but still, here, as in every country, private benevolence has a long arm which can reach further than the official one, and I rejoice to think that, if need be, it will be outstretched on this occasion. It will be an example of the neighbourly kindness for which the people of India are distinguished.

"If, therefore, the worst comes to the worst, I hope we shall have no difficulty in bringing every influence to bear in the common cause. If I may speak from my own feeling in the matter, there is not a man who would not strain his utmost to prevent the loss of a single life. But, just because I feel this so strongly, I also feel that at this present moment our first duty is to keep cool, and not to excite unnecessary fears. The Government, I must repeat, have fearlessly and frankly taken the public into their confidence, and I hope that this confidence will be reciprocated, and all who have a share in controlling public opinion, or in distributing information, will avoid exaggeration, and rather lead the people to believe that everything that can be done will be done both to warn and relieve them."

The Council adjourned to Thursday, the 29th October, 1896.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

PROCEDURE GOVERNING THE SUBMISSION OF APPLICATIONS FOR LEAVE OR FURLOUGH (OTHER THAN PRIVILEGE LEAVE) BY MILITARY OFFICERS OFFICIATING AS CANTONMENT MAGISTRATES.

No. $\frac{\text{12-Judicial}}{\text{1298—1305}}$.

Extract from the Proceedings of the Government of India in the Home Department (Judicial),—under date Simla, the 9th October, 1896.

Read again—

Home Department Resolution No. $\frac{\text{9 Judicial}}{\text{774—784}}$, dated 18th July 1894, on the subject of the reorganization of the Cantonment Magistrates' Department in India.

RESOLUTION.

BY the orders issued with Home Department Resolution of the 18th July 1894, officers serving in the Cantonment Magistracies specified in the list appended to that Resolution were formed into an Imperial service under the Home Department of the Government of India. It was added that applications for leave of absence for more than three months should be made through the Local Government to the Home Department, to which also all communications concerning vacancies of more than that period should be addressed.

2. In the practical application of these orders in the case of officers who are not permanent in the Cantonment Magistrates' Department and whose appointment as Cantonment Magistrates would cease on taking furlough or leave other than privilege leave certain difficulties have arisen owing to the fact that leave to such officers has to be sanctioned and notified by the Military authorities. With a view to avoiding the inconvenience which might arise if the Home Department first considered the application, and the Military authorities after the officer's services were replaced at their disposal found it inexpedient to grant the leave, the Governor General in Council has decided that the orders of the 18th July 1894 require modification, and is pleased to direct that Cantonment Magistrates who have not been confirmed in the Department shall in future submit their applications for leave or furlough other than privilege leave (with Controller's statement) through the District Magistrate (and, where such an officer exists, the Commissioner) to the Deputy Adjutant General of the Command to which they belong for transmission to the Local Government with a note as to whether there is, or is not, any objection to the leave. On receipt of the application the Local Government should, if there is no objection on their part to the leave being granted, address the Home Department of the Government of India with a view to the officer's transfer to Military employ and the appointment of a successor, and at the same time return the application for leave to the Lieutenant-General Commanding for formal sanction as soon as the officer's services are placed at his disposal.

ORDER.—Ordered, that this Resolution be communicated to the Local Governments and Administrations marginally noted, and the Foreign and Military Departments and Department of Finance and Commerce for information, and that it be published in the Supplement to the *Gazette of India*.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, October 10th, 1896.

The weather during the week under review has been very quiet and fine, and the rainfall has been more or less confined to a few stations quite in the south of the Indian region. The weather changes during the week, though resulting in very little rain, have not, however, been without interest, the principal change being the appearance of a fairly well defined depression over Burma and the north of the Bay. On the first day of the week the barometer rose briskly to rapidly over North-Western India, and the shallow low pressure area which had occasioned unsettled showery weather on the hills and over the submontane districts of the Punjab disappeared, and clear weather set in which lasted uninterruptedly until the close of the week. Concurrently with the disappearance of this depression a low pressure area made its appearance over Burma. At first the wind was northerly, and the weather, though cloudy, was fine, but later in the week, as the area of low pressure was transferred westward to the north of the Bay, southerly winds set in on the coasts of the Gulf of Martaban, and moderate rain occurred over Lower Burma. Over the Peninsula conditions have been the same as those reported during the past two weeks, *i.e.*, the weather has been generally fine, but with occasional showers of rain generally accompanying slight thunderstorms. On the 6th the chart showed that a small shallow low pressure area had been developed over the Bombay Deccan, and this disturbance gave light showers to its neighbourhood on the above and the following day, but, with this exception, the showers have been largely confined to the extreme south of the Peninsula and Ceylon, and the weather over the Peninsula to the north of Lat. 12° N. has been generally fine. In most parts of the country the weather has been hotter than usual, but in the Punjab, Sind and Rajputana the depression of temperature produced by the showery unsettled weather which prevailed at the close of the past and the beginning of the present week held during the greater part of the week under review, and the mean temperature of North-Western India for the week was below the normal average.

Daily Summary.—*Sunday, October 4th.*—The barometer had fallen over North-Eastern India and the northern half of the Bay, but had risen elsewhere. The rise had been brisk to rapid in the north-west, and the low pressure area noticed at the close of the previous week had filled up and been replaced by a high pressure area. The lowest pressures were reported from Lower Burma. The winds were between north-west and north-east over a large part of North-Western and Western India and in Burma, while they were generally south-west to west elsewhere. The mean temperature was low in North-Western India and in the extreme south of the Peninsula and was excessive elsewhere. The principal variations were —5°·3 at Ludhiana, +9°·0 at Jhansi and —3°·3 at Madura. Thunder-showers had occurred over the Himalayas and a considerable part of the Punjab, the heaviest rainfall in this region being 0·43″ at Chakrata. Showers had occurred in North Bengal and one or two places in Burma. In the south of the Peninsula and Ceylon general showers had been received, of which the most important was 1·31″ at Madura.

Monday, October 5th.—The barometer had fallen almost everywhere. The principal change was over North-Eastern India and Burma, and the low pressure area over Lower Burma had become better defined. The centre of the low pressure area was apparently near Rangoon. Readings were high over the Western desert, and pressure was slightly to considerably above the normal average in the north-west, while it was largely below over the Gulf of Martaban. North-westerly and westerly winds prevailed over the greater part of the Bay and of Burma and also over North-Western India, while in the Peninsula the

directions were variable. The force was fresh at Diamond Island. The distribution of the mean temperature with respect to the normal was generally similar to that reported on the 4th, but the hottest area was Berar, where the mean was 9° above the normal. The rainfall was very light, but showers had been received over the North-West Himalayas, the Sikkim Himalayas and at one or two stations in Tenasserim, in the south of the Peninsula and in Ceylon.

Tuesday, October 6th.—The barometer had again fallen very generally, but the general conditions were unchanged. The wind had shifted to south-west at Moulmein and the centre of the Burma low pressure area apparently lay between Toungoo and Moulmein. Pressure was 0·20 inch below the normal at Rangoon. Elsewhere conditions were little changed. The mean temperature remained low over North-Western India and the extreme south of the Peninsula and excessive elsewhere, the hottest area being Berar and the Bombay Deccan. The rainfall had been unimportant, but one or two showers had been received in parts of Burma, of the south of the Peninsula and of Ceylon.

Wednesday, October 7th.—The pressure changes had been generally small and unimportant, but a slight rise had occurred in Burma. The general conditions were still unchanged. Readings were high over the central parts of the country and were low over Burma. The abnormal depression of the barometer over Lower Burma had decreased to 0·18 inch, and the low pressure area was filling up. South-westerly winds continued to prevail on the Tenasserim Coast and the winds elsewhere were unaltered. The north-west wind at Diamond Island remained fresh. The area of depressed temperature conditions had extended eastward and covered the whole of Northern India, but in Burma and the Peninsula the heat was excessive. Only a few light scattered showers were reported.

Thursday, October 8th.—The barometer had risen everywhere. The rise had been brisk in Burma and greater over that province than over India. As a consequence the low pressure area had been transferred westward and covered the Burma coast and the north of the Bay. South-west to south-east winds had appeared over Burma, but elsewhere the winds were practically unaltered and the force remained low. The distribution of the mean temperature was unchanged, the heat remaining excessive over the Peninsula and Burma and less than usual over Northern and Central India. The hottest area was the Carnatic. Thunderstorms had given rain to parts of the Peninsula, and light showers had been received at Gnatong and at some stations in Burma.

Friday, October 9th.—The barometer had continued to rise. The rise had been brisk over Burma and the Bay and slight elsewhere. Readings were highest over the central parts of the country and lowest over the north of the Bay, but the difference was small. Light westerly to north-westerly or variable winds prevailed generally. The heat was less than usual over Bengal and the east of the Central Provinces and greater than usual over Burma and the Peninsula. The hottest area was again the Carnatic. Showers had been received over Burma and the southern half of the Peninsula.

Saturday, October 10th.—The changes in pressure were slight and unimportant and the general distribution was unaltered. The winds were also unchanged and were light in force almost everywhere. The variations of the mean temperature from the normal were generally moderate or small, and the only rainfall was a few showers in Lower Burma, in Southern India and in Ceylon.

Temperature.—At the commencement of the week the mean temperature was low over the Punjab, Western Rajputana and Sind and was excessive in almost all other places. As the week advanced this area of low temperature extended. On the 5th it included, besides the areas noticed above, the east of Rajputana and Gujarat, by the 6th it had reached Jubbulpur, by the 7th Narayanganj in the east and Khandwa and Raipur in the south, by the 8th it had reached Malegaon and Chanda in the south, but was unchanged in the east. On the 9th and 10th it was unaltered as regards extent, but was becoming less well defined and less intense. Over Burma and the Peninsula there was a general excess, which over the coast districts of Madras was on occasions very large.

The following table gives the variations of the mean temperature from the normal in the different provinces of India

PROVINCE	October 1896							Mean variation of week.
	4th	5th	6th	7th	8th	9th	10th	
	°	°	°	°	°	°	°	°
Burma	+3·0	+3·2	+3·5	+3·0	+2·7	+1·6	+1·3	+2·6
Bengal and Assam . .	+2·4	+2·6	+2·3	−0·3	−1·0	−0·8	−0·2	+0·7
North-Western Provinces and Oudh . .	+5·1	+3·4	−0·1	−1·1	−0·5	−0·4	−0·3	+0·9
Punjab . . .	−2·6	−3·0	−2·1	−0·9	−0·2	−0·2	+0·2	−1·3
Bombay . . .	+4·3	+4·3	+4·8	+3·3	+2·5	+2·0	+1·7	+3·3
Central Provinces and Berar	+5·1	+5·9	+3·4	−0·6	−1·6	−0·8	−1·0	+1·5

Sind and Rajputana .	+0·9	−3·6	−4·8	−3·9	−2·8	−1·5	+0·7	−2·1
Madras . . .	+1·2	+1·4	+2·3	+3·9	+3·5	+1·9	+1·1	+2·2
Mean for whole of India .	+2·6	+1·8	+0·9	+0·3	+0·2	+0·2	+0·4	+0·9

The mean temperature of the whole country was excessive on each day, the excess ranging from 2°·6 on the 4th to only 0°·2 on the 8th and 9th. In the provincial variations an excess for the week is shown in the case of all provinces, except the Punjab (—1°·3) and Sind and Rajputana (—2°·1). The greatest excess was 3°·3 in Bombay, followed by 2°·6 in Burma and 2°·2 in Madras. In the case of these three provinces the mean temperature was steadily and continuously excessive throughout the week, but in the remaining provinces the variations from the normal altered, as the area of depressed temperature noticed above crossed the country.

The following were the highest temperatures recorded throughout India on each day of the week and their variations from the normal of the day

October 4th	Allahabad	104°·6	+	13°·1
	Mainpuri	104°·8		...
„ 5th	Allahabad	104°·1	+	12°·8
	Mainpuri	104°·8		...

„ 7th	Bellary	102°·2	+	11°·4
„ 8th	Cuddapah	102°·2	+	10°·4
„ 9th	Jacobabad	102°·5	+	2°·1
„ 10th	„	102°·5	+	2°·0

Rainfall.—The distribution and extent of the rainfall of the week under review was similar in many respects to that reported last week. The rainfall then was confined to three regions, *viz.*, North-Western India, North-Eastern India and Burma and the southern half of the Peninsula and was heaviest and most extensive in the last region. Similarly, in the present week there has been slight scattered rainfall over Upper India and moderate general rain over Lower Burma and over the south of the Peninsula and Ceylon. In Lower Burma rain fell more or less throughout the week, in Upper India the fall occured mainly on the first and second days, and in the south of the Peninsula the fall was heaviest and most general on the first and last three days of the week. The rainfall in the north occurred during thunderstorms which were the result of the pressure disturbance which appeared over the Punjab at the close of the last week; the rainfall in Burma was largely brought up by the southerly breezes which set in after the appearance of a slight barometric depression over Lower Burma and the Gulf of Martaban, while the rainfall over the Peninsula was due in the south to unsettled weather which prevailed over Equatorial regions and which slightly

affected Ceylon and the south of the Peninsula and in the Deccan to a very slight local pressure disturbance which appeared over that region on the 6th. In nearly all cases, but particularly in the north, the rainfall was light or moderate, but the southerly winds in Burma gave a few heavyish falls, while in the Deccan and Mysore, considering the slightness of the barometric disturbance which affected that area, it was remarkable what considerable falls of rain were received. The concluding table gives the rainfall data. Effective rainfall was received during the week at seventeen of the rainfall divisions, while fourteen more received a few drops, the total for the week amounting to less than one-tenth of an inch. In all other places absolutely no rain was received. The absolutely rainless area included Upper Burma, East Bengal, Assam (Surma and Brahmaputra), the Bengal Hills and the divisions in West and South-West Bengal, the East, West and Submontane (East) divisions of the North-Western Provinces, the Punjab (South-East and Hills), the Central Provinces, the North Bombay divisions, Central India and Rajputana and Hyderabad, while the divisions which received effective rain, *i.e.*, totals exceeding one-tenth of an inch were:—Tenasserim, Deltaic Burma, Central Burma, Arakan, Bengal (North), the North-Western Provinces (Hills), the Punjab (South), Malabar, Madras (South-Central), Coorg, Mysore, the Konkan, the Bombay Deccan, Khandesh, Madras (Central), the East Coast (South) and Madras (South). The heaviest average actual rainfall was 2·90 inches in Tenasserim, but Lower Burma, Arakan and Madras (South-Central and South) all had an average fall for the district of over one inch. The third column of the table shows that, except in Tenasserim, the Punjab (South and West) and Madras (South), the week's fall was below the normal. The greatest deficiency was 2·24 inches in Malabar, but the deficiency exceeded one inch in a large number of the divisions. The excess reported from the two Punjab divisions was small and unimportant.

The three concluding columns show no change in the general conditions of the monsoon rainfall. In a large part of Burma there is now, as there was last week, an excess of rain, in Orissa there is an excess, in the south and west of the Peninsula there is an excess and in the east of the Central Provinces there is an excess. In all other parts of the country the rainfall at best is about normal and at worst is in large defect. The abnormal deficiency equals or exceeds 40 per cent. in Oudh (South), the North-Western Provinces (Central), the Punjab (South and West) and Madras (Central), and is greatest, 50 per cent., in the Punjab (South). In Upper Burma, where there has been no rain during the present week, the rainfall of the whole monsoon season is very light in some places, the total at Yamethin being only 1·38 inches and at Magwe only 11·73 inches.

The following largish totals were received during the week:—Thatôn (Tenasserim) 5·33 inches, Malur (Kolar) 4·67 inches and Dharwar 4·62 inches.

W. L. DALLAS,

Asst. Meteorological Reporter to the Government of India.

SIMLA, *15th October, 1896.*

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 10th October.*—Rainfall fair and seasonable in the greater part of the Central and Southern districts; very little or no rain elsewhere. During the last four weeks the rainfall in the Deccan districts was less than half the expected average and want of rain is seriously felt there. The water-supply is generally scanty, but has improved in the greater portion of the southern half of the Presidency. Sowings are progressing in the latter area and to some extent elsewhere. The standing crops in the northern half are suffering severely and need more rain everywhere. Pasture and fodder are generally sufficient, but the supply is growing scarce in several districts. The condition of cattle is good. Prices have risen sharply in the Circars and Deccan districts and now exceed warning rates in the Deccan and in Godaveri whence special reports have been called for or are promised. In the remaining districts fluctuations are generally slight and rates are nearly stationary, except in the Southern districts where rates are easier.

Bombay.—*For week ending 14th October.*—Rainfall generally slight in parts of the Konkan, Deccan and Karnatik and in one taluka of Surat. More rain is urgently wanted throughout the Presidency Proper for the late sowings or standing crops which are withering in twelve districts. The crops have been damaged by locusts or other causes in part of Sindh and by insects in one taluka of Sholapur. Preparations for, and sowings of, the late crops are progressing in ten, and reaping of the early crops in twelve, districts. Cotton-picking has commenced in parts of Khandesh. Water is deficient in Sindh and Sholapur. Fodder is insufficient in four districts. Agricultural stock are healthy, except in three districts. Prices are rising in eighteen districts.

Bengal.—*For week ending 12th October.*—With the exception of a shower at Chittagong there was practically no rain in any other district during the week. Rain is urgently wanted for the winter rice crop, which is beginning to wither on high lands in the Patna division and in other parts. The reports from North and East Bengal continue satisfactory. In Cuttack insects have done damage to the *laghu* rice which is ripening. The harvesting of early rice and the washing of jute are still going on in some districts. The preparation of land for the spring crops is proceeding. The price of common rice continues abnormally high throughout the province, but there has been no material rise since last week.

North-Western Provinces and Oudh.—*For week ending 14th October.*—Fine clear weather has prevailed during the week. The autumn crops are reported to have failed to a very great extent, except in the irrigated tracts. Rain is most urgently required and the want of it has retarded the sowings for the spring crops. Prospects are now altogether unfavourable. Advances are being liberally distributed for digging of *kachcha* wells and purchase of seed. Flights of locusts passed over several districts and caused damage to the crops in Aligarh, Muttra, Cawnpore, Fatehpur, Hamirpur and Jalaun. The numbers employed on relief works and in receipt of gratuitous relief on Saturday, October 10th, were: Banda 3,388, Hamirpur 3,081, Jhansi 1,167, Jalaun 1,208, Hardoi 5,509—total 14,353; of these 667 were dependants gratuitously relieved on the works and 10,167 persons were gratuitously relieved under other provisions of the Famine Code. The distress in Banda and Hardoi is increasing. Test relief works have been opened in some districts and poor houses have been established for the reception of homeless wanderers, whom the contraction of private charity has sent adrift; but there is no substantial sign as yet that the rural population generally does not find sufficient employment in the ordinary agricultural operations of the season. The number of districts in which supplies and fodder are reported to be deficient is increasing. Prices are high and are still rising.

Punjab.—*For week ending 14th October.*—Slight rain has fallen in Jullundur, Ferozepore, Sialkot, Rawalpindi and Dera Ismail Khan. Harvesting of the autumn crops is in progress, except in Hissar, Ferozepore, Peshawar and Gujranwala. Sowings of the spring crops have generally commenced, but more rain is needed to moisten the land everywhere. The prospects of the autumn crops generally are from good to average, but the crops on lands dependent on rain have suffered considerably in some places. The stock of grain is sufficient in Delhi, Sialkot, Lahore and in parts of Amritsar and Ferozepore, and average in Peshawar. Insects have destroyed the crops in parts of the Ferozepore and Lahore districts and hail and locusts have done some damage in the Gurgaon and Karnal districts. Cattle have began to suffer in Hissar, Ferozepore, Sialkot, Rawalpindi and Gujranwala. Their condition is poor in Jullundur, but fair to good elsewhere. Fodder is sufficient in Amritsar, Mooltan, Dera Ismail Khan, Peshawar and Rohtak only. The aggregate number of persons on relief works in Gujrat on Saturday evening was 4,806, including non-working children. In Karnal 400 persons were on test works. Prices are ruling high in the province. Wheat is being sold from 8 to 11¼ seers.

Central Provinces.—*For week ending 14th October.*—A week of bright sunshine, days unusually warm, and nights cool. The autumn crops are suffering from the drought in all districts and irreparable damage has been caused in the high-lying and poorer soils. The yield will be generally insignificant except in the case of the early sown millets which are not very important. In the richer soils also the crops are suffering from lack of moisture. The expected outturn of *jowar* (*Sorghum vulgare*) in the Plateau districts and Nimar ranges between 4 and 8 annas, though the better soils may yield 10 annas. *Kodo* (*Paspalum scrobiculatum*) only promises 4 to 7 annas. In Seoni only a 4-anna rice crop is expected, while in Mandla and Sambalpur 8 and 11 annas is estimated. The worst feature is the retardation of spring sowings which must necessarily be much restricted if no rain falls. The soil is drying fast and only the better fields can be sown with any reasonable prospect of successful germination. The withering of the linseed seedlings in Wardha is a serious matter. Altogether prospects are decidedly gloomy and the situation is becoming very grave. Prices continue to rise in most districts. In the Nagpur country, Raipur and Nimar there is a considerable advance. In Damoh wheat and rice are now selling at 7½ seers per rupee.

Burma.—*For week ending 10th October.*—In Lower Burma transplanting of maize and wet-weather paddy is completed in all districts, except in the low-lands of Amherst where replanting continues. Reaping of the early crops has commenced in Tavoy. Prospects are generally good, but more rain is wanted in Prome. In Upper Burma reaping of maize and early sesamum is completed and that of early wet-weather paddy is in progress. Transplanting of maize and wet-weather paddy continues in parts of Myitkyina, Katha, Kyaukse and the Southern Shan States. Operations for the dry-weather crops have commenced in most districts. Slight rain fell in Yamethin, Thayetmyo and the Southern Shan States. In the irrigated areas the standing crops are thriving; elsewhere more rain is required and crop prospects are poor in Meiktila, Yamethin and in portions of Pakokku, Magwe and Minbu. In the Wundwin township, Meiktila district, 768 persons were employed on relief works at the close of the week. The price of paddy has risen largely in Mandalay and has fallen considerably in the Upper Chindwin and Henzada. In most of the other districts the price has been stationary.

Assam.—*For week ending 13th October.*—The weather is hot. Prospects of the crops are poor in Nowgong. In Kamrup, Cachar and Sylhet also the crops have suffered for want of rain. Prospects are good in the Upper Brahmaputra Valley. Transplanting of late rice is nearly finished. Ploughing for the mustard crop has commenced. The condition of cattle is good. Fodder and water are sufficient.

Mysore and Coorg.—*For week ending 14th October.*—MYSORE.—Rain throughout the State; good in parts. Prospects are favourable. Prices have risen in Hassan and Mysore, but have fallen in Kolar, Kadur, Chitaldrug and Shimoga.

COORG.—The rice crop is in good condition. Reaping of *ragi* (*Eleusine coracana*) and picking of cardamoms still continue. Water and fodder for cattle are sufficient. Prices are normal.

Berar and Hyderabad.—*For week ending 14th October.*—BERAR.—The days are warm and the nights cool. Crop prospects throughout the province are decidedly unfavourable from want of rain. Ploughing of fields for the winter crop is nearing completion. Sowings of wheat, linseed and gram are in progress. Scarcity of fodder and water prevails in most districts. The high prices for food-grains reported last week continue. The condition of the agricultural population appears precarious and distress is anticipated.

HYDERABAD.—Rainfall slight. The autumn crops are drying up in all districts. The spring sowings have been deferred for want of rain. The water-supply is decreasing. Scarcity of fodder is general. Scarcity is apprehended should the north-east monsoon fail. Prices are rising.

Central India.—*For week ending 14th October.*—No rain fell in Central India during the week, except slight showers in a few villages in the Bhopawar Agency. Rain is badly wanted throughout Central India. Agricultural operations for the winter crops are in progress in Gwalior, Bhopal and Bhopawar to a limited extent, but are retarded in Bundelkhand. The autumn crops have been damaged for want of rain in all Agencies and the outturn will be much below average. Agricultural stock are suffering in Gwalior, but their condition is fairly good elsewhere. Pasturage is good and sufficient, except in Gwalior and Bundelkhand. Prices are above normal in all Agencies and are rising everywhere. The numbers employed on relief works were:—1,096 in Gwalior, 862 in Bundelkhand and 8,994 on the railway. The numbers on gratuitous relief were:—28 in Gwalior and 1,145 in Bundelkhand. The figures for Baghelkhand have not been reported.

Rajputana.—*For week ending 14th October.*—No rain throughout Rajputana. Agricultural operations are satisfactory, except in Dholpur and Jaisalmere. Rain is urgently required for the spring crops generally. The standing crops are good in Pertabgurh and Jhallawar and fair in Shahpura and Sirohi; elsewhere the crops are withering or drying for want of rain. The harvest is poor in Dholpur, not good in Kerowli and unfavourable in Jeypur. Rice and small grain have been damaged in Kherwara and *jowar* (*Sorghum vulgare*) in Jhallawar. The unirrigated crops have been damaged in Haraoti, Ajmere, Dholpur and Jaisalmere. Agricultural stock are in good condition. Pasturage and fodder are sufficient, except in Tonk and some parts of Jeypur. Fodder is failing in Dholpur and Bhurtpore. Prices of food-grains have slightly fallen at Kishengurh, but are rising elsewhere. Test relief works have been ordered to be opened in Bhurtpore. The number of persons on relief works was:—Sironj, Tonk State, 306, Dholpur 10,000, Jaisalmere 89. Reports from Marwar and Meywar have not been received. On the whole the autumn crop is tolerable in Rajputana, but there is danger that the spring crops will fail.

Kashmir.—KASHMIR VALLEY.—*For week ending 13th October.* Slight rain has fallen during the week. Reaping of the rice and maize crops is in progress in a few places, and threshing has also commenced. Sowing of rapeseed is finished. Prices continue normal.

JAMMU PROVINCE.—*For week ending 14th October.*—Report not received.

Nepal.—*For week ending 10th October.*—The weather is unusually dry without prospect of any more rain. Low-land rice, except where irrigated, is withering.

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

No. $\frac{10}{7-10}$.

Extract from the Proceedings of the Government of India in the Department of Revenue and Agriculture (Geology and Minerals),—dated Simla, the 9th October, 1896.

Read again—

1. Resolution of the Government of India, No. 8-26—13, dated 7th May 1895, appointing a Committee to consider and advise upon the regulation by Government of mines in India.

Read also—

2. Letter from the Government of Bengal, No. 48 (Marine), dated 8th January 1896, forwarding the Report of the Committee and the draft Mines Act and draft General Rules framed by them.
3. Letter from the Director, Geological Survey of India, No. 189, dated 13th February 1896, forwarding a Memorandum by Mr James Grundy, Inspector of Mines to the Government of India, containing his remarks upon the draft Act and draft Rules.
4. Annual Report of the Inspector of Mines for the year ending 30th June 1895.

RESOLUTION.

The question of the inspection and regulation of mining operations in India has been under the consideration of the Government of India for many years past, and has formed the subject of several references to Local Governments. No action was taken upon the early proposals for legislation; but in 1890 the question was again raised by Lord Cross, then Secretary of State, who forwarded a copy of the Proceedings of the Berlin Conference of 1890, and asked the Government of India to consider the advisability of undertaking legislation for the inspection of mines and for the regulation of the employment therein of women, young persons, and children. After considering the views of Local Governments upon this question, the Government of India decided that before taking any action it was advisable to obtain a fuller knowledge of the conditions of labour in Indian mines; and for this purpose Mr. Grundy, one of Her Majesty's Inspectors of Mines in England, was appointed to inspect Indian mines and to report what regulations he would recommend for the protection of the miners. Mr. Grundy's first report for the year ending the 30th June 1894 satisfied the Government of India that some regulation of the working and sanitation of mines was necessary, though they preferred to take no action upon his recommendations regarding female and child labour until they were in possession of his views based upon a wider experience of the country generally. A Committee was therefore appointed, consisting of Mr. Williams I.C.S., as President, and of two members nominated by the Bengal Chamber of Commerce and the Indian Mining Association respectively, one representative of native coal-mine owners, and the Inspector of Mines. They were requested to frame general rules applicable to all mines; to frame special skeleton rules to be applied to individual mines or groups of mines; and to specify the heads on which legislation was desirable and the provisions which they would suggest under each.

They were also instructed that the end desired was, to afford full protection to the mining population in all matters in which they have a reasonable claim to protection; to limit interference as far as may be possible consistent with the attainment of that object; and to pay due regard to the interests of small mines and of native mine-owners.

2. The Government of India have now considered the report of the Committee, and they congratulate its members on the successful manner in which

they have accomplished the difficult task of steering a wise course between over-interference on the one hand and insufficient protection to the workmen on the other. They are unable to accept the proposition put forward by Kumar Dakhineshvar Malia in his note of dissent, that no mining regulation is yet needed. The two reports by Mr. Grundy furnish abundant evidence to the contrary; and the Government of India regard the fact that definite proposals for such regulation have been framed by a Committee on which the Bengal mining industry at any rate was strongly represented, with no protest or dissent save by a single member, as an indication that the necessity for some such action is now generally accepted by those who are most closely concerned in the matter.

3. At the same time the Government of India recognise the force of the Kumar's contention that the proposed rules might, if applied to them in their entirety, press hardly upon the owners of the smaller mines which are numerous in some parts of India, and with the circumstances of which it is believed that no other member of the Committee had any minute acquaintance. Indeed the most difficult portion of the problem to be solved, and the one in the solution of which the Committee have been able to afford Government less information and help than in other matters, is how to relax in favour of small mines the regulations which are essential in the case of large ones, so as to prevent their being ruinously burdensome, and at the same time to secure the necessary protection to their workmen. The Act being in the main an empowering Act, the Government of India agree with the Committee that the definition of "mine" given in section 2 (1) of the draft, broad and comprehensive as it is, should stand; the necessary relaxations and exemptions being provided for by empowering sections, and in the rules which can easily be altered at any time as experience of their working is acquired. It is true that it is not desirable to bring a *kankar* pit 11 feet deep under the operation of the Act; but it is no less true that open workings of no very great depth may be so extensive, or carried on under such dangerous conditions, as to require regulation for the safety of the workmen. They think, however, that Open Pits and Quarries should be defined in the Act as distinct from Coal Mines [section 2 (20)] and Mineral Mines [section 2 (21)], thus following the classification of the English Acts, and that different sets of General Rules should be framed for each of these three classes. The distinction between coal and mineral mines followed in England seems to be based upon whether the mine penetrates stratified measures or igneous rocks (see page xix of the appendices to the Committee's report). It does not appear that any mines of the former class, other than coal mines proper, exist at present in India. But it would be well to give power to the Governor General in Council to declare that any mine or description of mines falls within the definition of section 2 (20) for the purposes of the Act, and to the Local Government to decide conclusively to which class any particular mine belongs.

4. The classification of mines being thus provided for, very wide powers of exemption will be required; and the more so, because the Committee have included in their General Rules many matters that are in England dealt with by Special Rules applying only to individual mines or groups of mines. They were probably wise in doing so, since Special Rules will take some time to establish, and Indian mines are in an earlier stage, and therefore probably more uniform in their conditions than English mines. In the first place, the Government of India think that all mines—

(1) in which not more than 50 persons are employed below-ground during any 24 consecutive hours; and

(2) in which not more than 100 persons in all are employed at any one time; or

(3) in which, being wholly open workings, not more than 200 persons are employed at any one time;

might be exempted at once from the operation of the greater number of the General Rules. They are of opinion that *all* under-ground mines, however small, which fall within the definition of section 2 (1) of the Draft Bill, and all quarries

that are anything more than casual pits, should be subject to some simple rules regarding the fencing of shafts, the security of means (when used) for lifting and lowering workmen, the protection and examination of machinery (when used), the safety of passages and means of access, the use of safety-lamps in the presence of inflammable gas, the examination of working-places, the ventilation of under-ground workings, the use of explosives, and the reporting of serious accidents. They therefore think that the rules noted in the margin as class A should ordinarily apply to all mines without exception; and they are inclined to add to them those enumerated as class B, and perhaps those shown as class C also. But on this point they will be glad of opinions and advice. They think that the small mines specified above might then be exempted from the remainder of the General Rules; power, however, being reserved to the Local Government to exclude any particular mine, and to the Governor General in Council to exclude any particular class of mines at any time from the benefits of this exemption. Besides this general exemption, the Local Government and the Governor General in Council should have power to exclude mines as above from the operation of any or all of the general rules. Finally, it is suggested that in order to meet the case of *kankar* pits and the like, the District Officer should have power, by written order in each case, to exempt entirely any wholly open workings from the operation of the Act.

Class A.—32 to 44, 48, 53, 59, 65 (first half only) 67, 84 to 89, 91, 92, 95, 96, 103, 104, 106 107.
Class B.—31, 40, 60 to 63, 64 (first part only) 66 to 69, 72 to 75, 108, 110, 111, 129, 136.
Class C.—27 (*a*) (with or without the proviso) 27 (*b*), 45, 46 (first part only) 56, 57.

The proposal of the Committee (paragraph 52 of the Report) that no punishments should be inflicted under the Act for a year after it comes into force is accepted by the Government of India; and an addition will be made to the Act suspending the operation of the penal sections accordingly.

5. The two important subjects of the employment under-ground of women and of young children were not expressly referred for the consideration of the Committee, who have, however, briefly noticed both. The whole question of the employment under-ground of female labour, which was referred for the opinion of Local Governments in* May 1891, is still under the consideration of the Government of India. As regards the under-ground employment of young children, the Government of India recognise that many of the arguments by which its prohibition in Europe is supported do not apply to India. On the other hand, they find that it is already prohibited in some of the larger mines. The Committee point out that such prohibition may injure the small mines, upon which the regulations which it is necessary to impose may, it is feared, weigh heavily in some cases, especially at the first; and they state as the general opinion that under-ground work does not injure children. It is true that children form an integral part of the family-gang system of labour; but it appears to the Government of India that their labour is valuable, rather as accustoming them at an early age to the work by which they will have to earn their living than on account of the actual work done by them. It would seem that the employment under-ground of growing children must tend to produce stunted bodies and impaired health, while its prohibition would not appreciably hamper the mining industry. But the actual employment of children is not the only question to be considered. It must also be decided whether they are to be prevented from going below-ground, even if not employed. This question is closely connected with that of the employment of women; as it is possible that to forbid the mothers to take their young children below with them might, in some cases at least, practically amount to preventing them from going down themselves. The Government of India would be glad to receive opinions on both these points; as also upon the limits of age to be adopted if prohibition is to be enforced in either case. So far as information is available at present, twelve years would appear to be a suitable limit. They would also ask Local Governments to procure for them as full information as can be readily obtained, regarding the number and ages of children now employed above and below ground and the educational facilities available at the several mines within their jurisdiction.

* Circular No. $\frac{1124}{25-2}$, dated 29th May 1891.

6. In paragraphs 131 to 134 and 137 of their report, the Committee express the opinion that the demand for labour is so great in the case of Indian mines, that no such protection as is afforded by law in England, and as is proposed by Mr. Grundy* in the important matters of payment of wages and hours of work is needed, at any rate for the present. Before expressing an opinion on this subject, the Government of India would be glad if Local Governments would collect information regarding the local systems of payment, the hours of work, the existence of any discontent, and so forth.

* Page 44 of his Memorandum and Rule 7, page 48, and paragraph 7, page 49.

The Government of India agree with the view of the Committee expressed in paragraphs 128-129 of their report, that no general rule can be framed for the compulsory provision of latrines at mines, and that the matter of sanitation will be best dealt with by special rules; but they are inclined to add a general rule that, in the absence of any special rule on the subject, the Manager shall make such provision in the shape of latrines or sweepers, or both, as may be directed by the District Magistrate on the report of the Civil Surgeon, subject to an appeal to the Commissioner.

7. The Act and Rules as drafted will require to be entirely recast; but it is proposed at the present stage to leave questions of form for future settlement, and to discuss only those alterations in substance which appear necessary or advisable. Many of these affect points of detail only, and will be found noted in the margin of the draft Act and Rules. It will be sufficient here to notice the larger matters.

8. *Responsibility of Owners and Agents.*—The Committee in paragraph 50 of their report urge that the Manager, and not the Owner, should be primarily responsible if any offence is committed. But the Government of India are inclined to think that the principle upon which the English law on the subject is based, and which is embodied in the first part of section 30 of the draft Act, should be strictly adhered to; and that no Owner, Agent or Contractor should be able, by the mere appointment of a Manager, to relieve himself of personal responsibility for seeing as far as in him lies that the Manager does his duty. This point is noticed in paragraph 2 at page 49 of Mr. Grundy's Memorandum on the draft Act and Rules, and the Government of India think that the proviso to section 30 of the draft Act is wrong in principle. It is, indeed, in direct contradiction of the principle upon which section 19 is based, and of which the Government of India approve, that it is for the authorities of the mine, and not for the Inspector, to enforce the observance of the rules upon the workmen, by prosecution if necessary; and that if they fail to do so, it will be they whom the Inspector will prosecute, and not the workmen.

9. *Certificated Managers.*—Strong exception has been taken by Kumar Dakhineshvar Malia to the provision that all mines above a certain size must be supervised by certificated Managers. That some such provision is urgently required is abundantly evident from the facts regarding the number of accidents in the mines of India as compared with those of England which have been furnished by Mr. Grundy. It is true that the comparative frequency of accidents in the former is only what might be expected. Miners in England are for the most part a hereditary class who represent the training and experience of generations; while mining by English methods is new to India and to Indian miners. But this very fact makes skilled supervision and management all the more necessary for the protection of the latter against their own ignorance. The argument that skilled persons are less common in India than in England, tells almost as much for as against the necessity for their employment. Whether the precise limits fixed by Rules 1 to 6 should be maintained, or whether they will press too hardly upon small mines, is a point upon which opinions are specially invited, regard being had to the moderation of the Rules (12 to 25) regarding the grant of certificates. In England a certificated manager is required for every coal mine in which more than 30 persons are employed under-ground. Perhaps a higher limit might be fixed for metalliferous mines than for coal mines.

10. *Contractors.*—In paragraph 57 of their report the Committee discuss the important question whether a separate manager is required for a mine

let out on contract. Their recommendation as embodied in their draft rule No. 9 is that where the contractor holds a certificate, he may be appointed Manager on the application of the Owner, and with the special sanction of the Local Government, but not otherwise. The Government of India accept the proposal, even thus limited, with hesitation. The interest of the Owner in his mine is at least permanent, and he is always at hand to answer for himself. The interest of the contractor is confined to making as much money as possible out of the mine within a given time, after which he may disappear entirely, and is generally diametrically opposed to those interests which it is the object of the measures now under discussion to protect.

Section 2 (7) of the draft Act excludes from the definition of contractor all persons employing fewer than 50 persons under-ground; and in paragraph 8 of their report the Committee explain that their object was to discourage the small contractor. The Government of India are unable to follow the argument. The section referred to imposes a liability upon the contractor, but not so as to relieve the Owner, while Rules 9 and 77 (the only Rules which deal with contractors) impose disabilities upon them. Thus it appears that the only result of the limitation to the definition is to exempt small contractors from a liability and disabilities which apply to large ones, and thus to encourage rather than to discourage the former. The Government of India think that the defining portion of section 2 (7) should run—

(7) "Contractor" means a person working a mine or a part of a mine under a contract with the Owner of the mine, so as to profit directly by the amount of work done or mineral raised (*cf.* Rule 9).

11. *Arbitration*—The desirability of constituting a Court of Arbitration is discussed by the Committee in paragraph 117 of their report. The Government of India see great difficulties in working such an institution, but they think that some such provision is absolutely necessary. The matters to be dealt with are of a highly technical nature, there is little expert advice available to Government save that of the Inspector, and in the absence of any appeal, such as is now suggested, the Inspector would practically be able, by proposing Special Rules, to legislate for India in mining matters under the name of the Government of India. The constitution and powers of the Court should be settled in the Act, its procedure only being dealt with by Rule; it might consist of five members in the more and of three in the less important cases; and service upon it should be compulsory upon the persons mentioned in rule 122, since the Court is constituted in their interests.

The Committee recommend, and the draft Act contemplates, that an appeal should lie to the Court of Arbitration from an order of a Magistrate dismissing a Criminal information under the Act. The Government of India are not, however, prepared to give the Court of Arbitration jurisdiction of any sort over the Criminal Courts of the country. The power of referring to the Court of Arbitration for advice which is secured to the Magistrate sufficiently meets the object which the Committee had in view.

Kumar Dakhineshvar Malia, in paragraph 10 of his note of dissent on the Committee's report, suggests an appeal from the decision of the Court. It appears to the Government of India that the power of appeal is inconsistent with the idea of arbitration. But it is obviously desirable that the decisions of the Court should be subject to some form of control, and it is proposed to empower the Local Government to revise them on the application of the President or any two members of the Court, or of the Inspector of Mines.

It seems necessary to provide for the carrying out of orders pending a reference to the Court; and it has been suggested that all such orders should remain in force until reversed or modified by the Court, provided that the President should have power to suspend their operation, pending decision, in whole or in part, except when the Inspector certifies that to do so would "threaten or tend to the bodily injury of any person" (*cf* Section 29 of the draft Act).

12. *Protection of Railways.*—The necessity for protecting railways against risk from undermining has repeatedly been brought to the notice of the Government of India. They think that in addition to the provisions already embodied

in the draft rules regarding the maintenance of plans of mines, and to the powers of entry and inspection which they confer, it will be necessary and sufficient for the due protection of railways to provide that whenever any under-ground working first approaches within 500 feet of the metals of a railway, the distance being measured horizontally between vertical lines, notice shall at once be given by the Manager of the mine to the Inspector of Mines and to the Agent or Manager of the railway concerned. This provision may conveniently be added to General Rule 109.

13. In a matter of this nature which so intimately affects numerous interests, many of them small ones, and which is essentially a matter of detail of a highly technical nature, the Government of India are anxious for the fullest discussion; and they invite free criticism of the views expressed in this Resolution, which are open to reconsideration in the light of fuller knowledge. Indian miners must be protected; and the Governor General in Council believes that all mine-owners, whether great or small, will accept without murmuring the burden of whatever measures may be reasonably necessary to that end. But he asks for their assistance in rendering those measures as little burdensome as possible, and desires, by the fullest publicity, to associate them with himself in the task. To this end a pamphlet consisting of this Resolution, the Report of the Committee with appendices, the draft Act and Rules, and Mr. Grundy's Memorandum, will be printed and supplied gratis by the Inspector of Mines to the Manager of every small mine that he may have on his register, and to the Owner or Manager of any mine in India on application. It will also be for sale to the public.

Especially does His Excellency in Council desire to obtain the assistance and advice of the mine-owners of Hyderabad and Mysore. It may be that when the new law is in working order and the benefits of it have become apparent, the Darbars of those States may desire to adopt similar measures of regulation. But however that may be, interests in coal mines alone were represented upon the Committee, and as the most important metalliferous mines in India are situated outside British Territory, the Governor General in Council desires to have the assistance of the mining industry in Native States in criticising the present proposals as applicable to that class of mine.

14. The Government of India have pleasure in recording their high appreciation of the services rendered by the President and the other members of the Committee. Their acknowledgments are more especially due to its non-official members for the great help afforded by them at the cost of much time and trouble. They also notice with satisfaction the remarks made by the President regarding the assistance received from Mr. James Grundy, the Inspector of Mines, whose proposals and suggestions were considered to be of the greatest value.

ORDER.—Ordered, that a copy of the foregoing Resolution, with a copy of the report of the Committee, of the draft Act and Rules, and of Mr. Grundy's Memorandum, be forwarded to all Local Governments and Administrations, with the request that, after consulting such officials and non-officials as they may think fit, and especially owners of metalliferous mines (if any) and of small mines, they will furnish the Government of India with a full expression of their opinion.

Ordered also, that a copy of the Resolution and of the papers mentioned in the preceding order be forwarded to the Foreign Department, for favour of communication to the Agent to the Governor General, Baluchistan, and with a request that the mine-owners of Hyderabad and Mysore may be consulted through the Residents at those States.

Ordered also, that the Resolution be published in the Supplement to the Gazette of India, and that copies be forwarded (1) to the Government of Bengal for communication to Mr. Williams, the Bengal Chamber of Commerce, the Indian Mining Association, and the members of the Committee, and (2) to the Director, Geological Survey, for communication to Mr. Grundy with reference to the last paragraph.

[True Extract.]

DENZIL IBBETSON,

Offg. Secretary to the Govt. of India.

RESOLUTION

Simla the 16th October, 1896

Read the reports of the Registrars of Joint Stock Companies on the working of the Indian Companies Act, VI of 1882, during the official year 1895-96, received with the letters noted below

From the Government of Madras No 1074, dated the [illegible]th June 1896

From the Government of Bombay No 62[illegible]5 dated the [illegible] August 1896

From the Government of Bengal No 2167-I dated the 9th July 1896

From the Government of the North Western Provinces and Oudh, No 696—VII—117 I, dated the 3rd June 1896

From the Government of the Punjab No [illegible]7 dated the 12th June 1896.

From the Chief Commissioner, Central Provinces, No 5210, dated the 4th August 1896

From the Chief Commissioner, Burma, No 363—I I S, dated the 14th May 1896

From the Chief Commissioner, Assam No 757-Misc — 924-G, dated the 11th May 1896.

From the Chief Commissioner Ajmere-Merwara, No. 75[illegible]—817, dated the 27th June 1896

From the Chief Commissioner, Coorg No 9[illegible]2 dated the 1[illegible]th July 1896

From the Secretary for Berar to the Resident, Hyderabad, No 129, dated the 1[illegible]th May 1896

From the Resident in Mysore Nos 23[illegible] and [illegible] dated respectively the 30th June and 1st August 1896

RESOLUTION — The number of companies and the capital invested in them stood as follows at the end of each of the last two years

		1894-95	1895-96
Number of companies	..	1 204	1 309
Nominal capital, Rs	.	38 158 518	41 891 447
Paid-up capital Rs.	..	27 608 773	29 387,273

There was thus an increase of 105 in the number of companies, being at the rate of 8 7 per cent, and of Rs 3,732,929 in the nominal capital, being at the rate of 9 8 per cent

The changes made in the year, which produced the results shewn above, were

(1) the capital of 141 companies was increased by (nominal) Rs 359,612, (paid-up) Rs 1 886,212

(2) the capital of 11 companies was reduced by (nominal) Rs. 15,000, (paid-up) Rs 72 106

(3) 63 companies with a nominal and paid-up capital of Rs. 1,366,995 and Rs 951,454 respectively, ceased to work, and

(4) 168 new companies with a nominal and paid-up capital of Rs 4,755 312 and Rs. 855,854 respectively, were registered during the year.

2. The following table shews the number of companies and the amount of paid-up capital in each of the provinces in the last two years :

Province.	Number of Companies.		Paid-up Capital		Increase or decrease per cent in capital in 1895-96.	Provincial proportion of paid-up capital to all paid-up capital in 1895-96.
	1894-95.	1895-96.	1894-95.	1895-96		
			Rx.	Rx		
Bengal	508	560	12,537,148	13,143,632	+ 4·8	44·7
Bombay	204	295	10,913,857	11,667,420	+ 6·9	39·7
Madras	200	217	1,922,610	2,041,162	+ 6·17	7·
North Western Provinces and Oudh	61	64	931,802	1,122,639	+ 20·5	3·8
Panjab	20	20	4 8,100	522,761	+ 9·3	1·8
Burma	16	17	171,974	182,937	+ 6·4	·6
Central Provinces ...	12	12	264,007	266,305	+ ·60	·9
Assam	2	2	1,116	1,142	+ 2·3	...
Mysore	105	105	369,056	360,510	— 2·3	1·2
Hyderabad Assigned Districts	3	3	2,991	2,991	..	...
Ajmere-Merwara ...	7	8	75,506	75,648	+ ·19	·3
TOTAL*	1,204	1,309	27,668,773	29,387,279	+ 6·2	100

The foregoing table shews that the increase in paid-up capital in the year was Rx. 1,718,506 : in Bombay Rx. 753,569, in Bengal Rx. 606,484, and in Madras Rx. 118,546. Bombay and Bengal between them have between 84 and 85 per cent of the whole paid-up capital. There was a relatively large increase in the North-Western Provinces and Oudh (Rx. 190,837), but it was in some measure due to the inclusion of Rx. 87,800, the paid-up capital of the Dehra Dun Tea Company, Limited, the registered office of which company was transferred during the year from Bengal to the North-Western Provinces and Oudh.

3. The largest number of companies is registered in Bengal, but the ratio of capital to the number of companies is much higher in Bombay. This ratio varies greatly in the different provinces as will be seen from the subjoined figures of the average capital of each company :

	Rx.
Bombay	39,550
Bengal	23,470
Central Provinces	22,197
Panjab	20,106
North-Western Provinces and Oudh	17,541
Burma	10,764
Madras ...	9,406

The two companies registered in Assam have a capital for both of only Rx. 1,142.

The reason why capital in Bengal is, compared with Bombay, in such small proportion to the number of companies is to be found in the mushroom growth in the last two or three years of so-called "provident" Companies in some of the eastern districts. As many as 179 such companies have been registered since 1893 with an aggregate paid-up capital of only Rx. 7,579, giving an average of under Rx. 43 to each company. Only one out of the whole number has declared a paid-up capital of Rx. 1,200 and only two others reach as much as Rx. 700. All the others that have a paid-up capital shew even more trifling sums, while as many as 101 have no paid-up capital at all. The number of registrations of such companies has, however, fallen off, only 28 having been registered last year against 87 in 1894-95 and 64 in 1893-94. In regard to these companies the following remarks occur in the report on the working of the Act in Bengal :

"The year under review may be characterised by the opening of a kind of provident funds quite unknown to the people of Bengal, such as "Reen Sodh Funds" (which literally means liquidation of debts), "Tingriha-nirman Sahaya Samiti" (literally meaning a fund to help the erection of tin or corrugated iron sheds) and "Krisi Sahaya Bhandar" (meaning a fund to help agricultural works). It is also remarkable that there were ten marriage funds with the express object of affording help to the shareholders on occasions of marriage of their children."

In paragraph 2 of the Resolution reviewing the reports for 1893-94 (No. 5306, dated the 31st October 1894) the Government of India suggested that such companies were probably unable to comply with all the requirements of the law—requirements specially imposed for the protection of the public—and that there might be reason to apprehend abuses if careful attention were not given to their

working. The Government of India understand that there is some ground for believing that abuses have in fact occurred, and that fraud has been practised on ignorant persons. It seems necessary therefore that compliance with all the requirements of the law should be strictly enforced in the case of such companies, and the Government of India trust that His Honour the Lieutenant-Governor will give instructions to this end.

In Madras, and also in Mysore, the small proportion of capital to the number of companies is due to the application in recent years of the principle of limited liability to swarms of small moneylending concerns, pawnshops in fact. In Burma many companies have started with small capital for the construction and maintenance of bazars, which is a favourite and profitable form of native enterprise in that province.

4. The following table shews the distribution of the aggregate capital in the principal classes of joint stock enterprise:

Companies.		Number	Nominal Capital.	Paid-up Capital.
			Rx.	Rx.
Banking, Loan, and Insurance	Banking and loan	297	6,683,256	4,045,721
	Insurance ...	183	572,797	89,901
	Total	480	7,256,053	4,135,622
Trading	Merchants and traders ...	168	3,458,707	2,220,955
	Navigation	9	1,211,500	874,546
	Railways and tramways ...	14	1,326,000	897,110
	Co-operative associations ...	26	97,040	59,441
	Shipping, landing, and warehousing ...	5	71,060	47,760
	Total	222	6,164,307	4,099,812
Mills and Presses	Cotton mills ...	62	5,937,125	4,917,042
	Jute mills	19	2,564,225	1,722,196
	Mills for cotton, jute, wool, silk, hemp, etc.	84	6,813,263	4,727,458
	Cotton and jute screws and presses	111	1,784,550	1,519,258

	Total	172	4,716,449	3,674,464
Mining and quarrying		63	2,763,850	1,923,798
Ice manufacture		11	217,875	172,827
Sugar manufacture		6	337,500	223,299
Breweries ...		3	170,000	170,000
Others ...		30	1,838,300	1,299,658
	Grand Total	1,309	41,891,447	29,387,279

Over 46 per cent of the paid-up capital is invested in mills and presses, chiefly for working or pressing cotton, jute, wool, and silk. The greater number of these are registered in Bombay, that Presidency representing under this head a paid-up capital of Rx. 8,835,680, being nearly two-thirds of the whole, most of it invested in cotton mills and presses. Rx. 3,102,332 represent the paid-up capital invested in mills and presses registered in Bengal, a large number of them being jute mills and presses.

The paid-up capital invested in banking, loan, and insurance companies amounts to Rx. 4,135,622, of which Rx. 2,391,329 are in Bengal and Rx. 1,035,007 in Madras.

Trading companies have a paid-up capital of Rx. 4,099,812, of which Rx. 874,546 are invested in coasting and river steamer companies, and Rx. 897,110 in railways and tramways. The bulk of the railway and tramway capital is invested as follows:

	Rx.
Bombay Tramways ...	309,800
Darjeeling-Himalayan Railway	175,000
Tarkessar Railway ...	175,000
Rangoon Steam Tramway	60,000
Powayan Steam Tramway	29,400
Deogarh Railway ...	27,500
Bengal Provincial Railway	79,000
Tezpur-Balipara Tramway	40,000

These figures are still quite trifling, but it is hoped that future returns will include an increasing number of companies locally formed for the construction of railways.

In tea, coffee, and other plantations Rx. 3,674,464 of paid-up capital are invested, of which Rx. 3,419,037 are held in Bengal, most of the tea companies working gardens in Northern and Eastern India being registered in Calcutta.

Of the Rx. 1,923,798 invested in mining and quarrying companies, Rx. 1,704,495 are in companies registered in Bengal, of which Rx. 930,088 are in coal-mining companies, and about Rx. 690,000 in gold-mining companies.

5. The figures below compare the paid-up capital of each of the last two years under each of the principal groups :

	Paid up in—	
	1894-95. Rx.	1895-96. Rx.
Banking and loan	3,985,833	4,045,721
Merchants and traders	1,925,918	2,220,955
Mills for cotton, jute, wool, silk, and hemp	10,741,194	11,366,696
Cotton and jute presses	1,424,316	1,519,258
Tea	3,672,356	3,522,059
Mining and quarrying	1,801,163	·1,923,798
Navigation	874,546	874,546
Railways and tramways	820,675	897,110

Under the head of tea there was a decrease of 4 per cent, and under navigation there was no change. Under each of the other heads there was an appreciable increase in the investment of capital.

6. The following table shews the number of companies in each class during the last five years :

Companies.		1891-92.	1892-93.	1893-94.	1894-95.	1895-96.
Banking, Loan, and Insurance.	Banking and loan .	259	256	266	290	297
	Insurance	14	8	72	161	183
	Total ...	273	264	338	451	480
Trading	Merchants and traders ...	119	117	120	143	168
	Navigation	8	7	8	8	9
	Railways and tramways ...	11	10	12	10	14
	Co-operative associations ..	24	24	25	24	26
	Shipping, landing, and warehousing	6	5	7	5	5
	Total ...	168	163	172	190	222
Mills and Presses ...	Cotton mills	57	59	57	57	62
	Jute mills	11	12	12	13	19
	Mills for working cotton, jute, wool, silk, hemp, etc.	63	68	71	75	84
	Cotton and jute screws and presses.	83	87	101	105	111
	Other mills and presses ...	31	37	43	40	46
	Total ...	245	263	284	290	322
Tea and other Planting Companies.	Tea	144	142	148	154	156
	Coffee and chinchona ...	5	5	5	5	3
	Others	9	10	12	13	13
	Total ...	158	157	165	172	172
Mining and quarrying		57	54	52	58	63
Ice manufacture		12	12	10	11	11
Sugar manufacture		2	3	3	5	6
Breweries		3	3	3	3	3
Others		32	37	38	24	30
	GRAND TOTAL ...	950	956	1,065	1,204	1,309

The classification in the foregoing table of "cotton mills," "jute mills," and "mills for working cotton, jute, wool, silk, hemp, etc.," is taken from the articles of association; but of the mills in the last of these three groups, the largest number are cotton mills.

7. The following table shews, so far as reported, the total number of joint stock companies at work in India with their nominal and paid-up capital at the end of each of the last twelve years :

YEAR.	Companies at work.	Nominal capital	Paid up capital	Increase or decrease of paid-up capital.
		Rs.	Rs.	Rs.
1884-85	694	27,887,691	20,635,844	1,885,233=10 %
1885-86	800	28,543,437	21,002,568	366,724= 2 "
1886-87	886	29,136,165	21,380,442	377,874= 2 "
1887-88	910	[illegible]	22,326,192	945,750= 4 "
1888-89	805	31,339,845	22,997,508	671,316= 3 "
1889-90	886	32,321,731	23,684,202	686,694= 3 "
1890-91	928	35,058,770	24,458,445	774,243= 3 "
1891-92	950	36,023,238	26,585,481	2,127,036= 9 "
1892-93	[illegible]	[illegible]	26,793,180	207,705 =0·78 "
1893-94	1,065	36,251,158	27,510,059	716,873 =2·68 "
1894-95	1,204	[illegible]	27,668,773	158,714 =0·58 "
1895-96	1,309	41,891,447	29,387,279	1,718,506 =6 "

8. The statistics of companies limited by guarantee, so far as they go, shew that there were 44 such companies at the close of 1894-95, and that, with the addition of 29 companies registered in 1895-96 and the deduction of 3 companies which ceased to work during the year, there were 70 such companies at the close of the year. As many as 20 of the 29 companies registered during the year were registered in Bengal, 18 of them in the district of Rangpur. The objects of these companies are the same as those of the companies referred to in paragraph 3 of this Resolution, namely, the "liquidation of debts" and "marriage funds."

9. The fees realised and the expenditure in each province last year were :

PROVINCE.	Fees.			Expenditure		
	Rs.	a	p.	Rs.	a.	p.
Bengal	29,631	8	0	564	0	0
Bombay	16,800	12	0	1,041	14	11

No. 4459-S. R.

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

STATISTICS AND COMMERCE.
CUSTOMS.

RESOLUTION.

Simla, the 17th October, 1896.

Read the following reports on the proceedings taken by Customs officials under the Indian Merchandise Marks Act, 1889, during the year 1895-96:

From the Chief Commissioner of Burma, No. 405—1 C.—7, dated the 16th June 1896.

From the Government of Bengal, No. 3649-S. R., dated the 8th July 1896.

From the Government of Bombay, No. 6020, dated the 1st August 1896.

From the Government of Madras, No. 416-A., dated the 19th August 1896.

RESOLUTION.—The imposition of import duties has been followed by closer attention on the part of the Customs staff, which has been largely augmented, to the examination of goods in view to their assessment to duty. Such closer and more extended examination has been followed by the discovery in greatly increased number of infringements of the Merchandise Marks Act, which is in the main a part of the Sea Customs Act. The aggregate number of detentions under the Act during the year was 1,622 against 955 in 1894-95 and 1,287 in 1893-94, the increase on the preceding year being nearly 70 per cent. This large increase was general to all provinces except Sind, where there was a material decline in the number of cases dealt with. The increase in Bombay, where it was largest, is attributed by the local authorities to the extended examination of goods having been rendered possible by the additional staff employed since the re-imposition of the import duties, and also to many importations from Japan and other countries not having been stamped in accordance with the provisions of the Act. The decline in the number of detentions at Karachi is reported to be due to the fact that the requirements of the Act have become more generally known, but it is obvious that they must also have become more generally known at other ports where, however, the number of detentions has greatly increased. Karachi is also singular in respect of the large proportion of cases released without fine.

2. The following table shews the number of detentions at each port at which detentions were made in the last five years :

Ports.		Number of cases in which detention was ordered	Detention followed by confiscation	Detention followed by release — With fine	Detention followed by release — Without fine	Detention ordered on information received	Detention ordered without information
Calcutta	1891-92	454	4	92	351	2	452

3. The cases in which detention was ordered in 1895-96 may be classified as follows

(1) Under clause (*d*), sub-section 1, section 10 of the Act, which relates to goods bearing counterfeit trade marks or false trade descriptions :

755 cases against 403 in the preceding year, the proportion to the total number of detentions being 47 per cent in 1895-96 and 43 per cent in 1894-95.

(2) Under clause (*e*) of the same sub-section relating to non-description or false description of origin :

494 cases against 210 in 1894-95, or about 30 per cent of the whole against 22 per cent in the previous year.

(3) Under clause (*f*) sub-section 2 of the same section, which requires that the length should be stamped on piece-goods :

373 cases, being about 23 per cent of the whole. Such cases amounted to 337 in 1894-95, being 35 per cent of the whole

The total number of cases in 1895-96 under class (1) includes two cases which infringed both clauses (*d*) and (*f*), and 35 cases which infringed both clauses (*d*) and (*e*) of section 10.

4. The number of cases in which detention was followed by confiscation was 3, the same as in 1894-95, against 11 in 1893-94 and 15 in 1892-93. Fines were imposed in nearly 83 per cent of the cases; in 25 cases permission was given to re-ship the detained goods, in 12 cases with and in 13 without payment of fine. In the remaining cases no penalties were imposed, the goods being passed with a warning.

ORDER.—Ordered that the foregoing Resolution and the papers read in the preamble be published in the Supplement to the *Gazette of India* for general information, and that copy be forwarded to the Governments of Madras, Bombay, and Bengal, and the Chief Commissioner of Burma.

J. F. FINLAY,

Secretary to the Government of India.

BURMA.

No 405-1C. 7, dated the 16th June 1896.

From—F. C. Gates, Esq., Revenue Secretary to the Chief Commissioner, Burma,

To—The Secretary to the Government of India, Finance and Commerce Department.

With reference to paragraph 4 of the instructions annexed to Finance and Commerce Department letter No 295-S, dated the 28th November 1890, I am directed to submit, for the information of the Government of India, a copy of letter No. 46-8, dated the 30th April 1896, from the Chief Collector of Customs, Burma, to the Financial Commissioner, containing a report on the working of the Indian Merchandise Marks Act, 1889, in this province during the year 1895-96. I am also to submit a copy of this office letter No 539-1 C.—7, dated the 22nd May 1896, to the Financial Commissioner, and his reply thereto, letter No. 160-1T.—14, dated the 5th June 1896, with enclosure.

No 46-8, dated the 30th April 1896.

From—The Chief Collector of Customs, Burma, Rangoon,

To—The Secretary to the Financial Commissioner, Burma

I have the honour to submit the report on the working of the Indian Merchandise Marks Act in Burma during the official year 1895-96, with a statement showing the number of cases disposed of under the Act during that period:

1. There were 74 detentions under the Act (all at Rangoon) during the year under review, against 41* detentions for all ports in the previous year, or an increase of 80·5 per cent, chiefly due to closer circumspection and care on the part of the appraising staff.

* 40 at Rangoon, 1 at Moulmein.

2. Of the total number of detentions during the year, 47, or nearly 64 per cent of the whole, were under section 10, sub-section 2, clause (*f*) of the Act, which requires all piece-goods to be stamped with their lengths, while in the preceding year there were only 35 such detentions. In 41 out of the 47 cases fines ranging from Rs 5 to Rs 100 were imposed on the importers and the goods were passed after the requirements of the Act had been complied with. In the remaining 6 cases the goods were released with a warning to the importers after being duly stamped.

3. As in the preceding year, there was only one detention under the head of "False trade descriptions" This case was one of a consignment of 85 gross of cotton thread on cards from Calcutta. Each card bore the inscription 'warranted 50 yards," whereas the thread was found on measurement to average from 9 to 10 yards only. The goods were accordingly confiscated, but the importer was allowed to redeem them on paying a fine of Rs. 50 and the ends of the cards on which the inscription appeared were cut off under Customs supervision.

4. The detentions for non description or false description of place of origin under section 10, sub-section 1, clause (*e*) of the Act were 26 in number, against five in 1894-95. Fines ranging from Rs. 10 to Rs. 50 were inflicted in 13 cases and the goods were released after being duly stamped with the place of origin. In the remaining 13 cases no penalty was imposed, but in 12 instances the goods were passed on the requirements of the law being fulfilled, and in one case re-shipment was allowed to a continental port.

5. No information was received from importers or consignees in connection with any of the cases reported on, all the detentions having been made by the Customs appraisers in the ordinary course of their duties.

6. The aggregate amount of the fines imposed and realised during the year was Rs. 1,435 against Rs. 1,000 in 1894-95.

Statement showing the number of cases dealt with under the Indian Merchandise Marks Act during the years 1894-95 and 1895-96.

RANGOON CUSTOM HOUSE;
The 30th April 1896.

G. C. KYNOCH,
Chief Collector of Customs, Burma.

No. 539-1C—7, dated the 22nd May 1896.

From—F. C. GATES, Esq., Revenue Secretary to the Chief Commissioner, Burma,

To—The Financial Commissioner, Burma.

I am directed to acknowledge the receipt of your letter No. 2-6-1T—14, dated the 8th May 1896, forwarding a report from the Chief Collector of Customs on the administration of the Merchandise Marks Act, 1889, in Burma during the year 1895-96.

2. With reference to the concluding portion of paragraph 3 of Mr. Kynoch's report regarding the action taken in the case of 85 gross of cotton thread described as "warranted 50 yards" when the length actually averaged from 9 to 10 yards only, I am to enquire why such undue leniency was shown.

The false description was not only technically but also actually a fraud, and in such cases the penalty should be severe.

No. 160-1T—14, dated the 5th June 1896.

From—The Secretary to the Financial Commissioner, Burma,

To—The Revenue Secretary to the Chief Commissioner, Burma.

In reply to your letter No 539-1C.—7, dated the 22nd May 1896, I am directed to forward a copy of letter No. 120-8, dated the 29th idem, and of its enclosure, from the Chief Collector of Customs, Burma, and to say that as the Chief Collector of Customs has not placed on record his reasons for the undue leniency shown in the case of false trade description under reference, the Financial Commissioner is unable to say why such a deliberate instance of fraud was so lightly dealt with by Mr. Darlington.

No. 120-8, dated the 29th May 1896.

From—The Chief Collector of Customs, Burma,

To—The Secretary to the Financial Commissioner, Burma.

With reference to paragraph 2 of your Financial Department letter No. 789-1T.—14, dated the 27th instant, regarding the case of the false trade description of the 85 gross of cotton thread reported in this office letter No. 46-8, dated the 30th April 1896, I have the honour to submit herewith, for the Financial Commissioner's information, a copy of the Head Appraiser's report on the case and of the orders passed thereon by my predecessor.

Report

————————has imported from Calcutta 85 gross of cotton thread on cards. The cards are stamped "warranted 50 yards." On measurement the cards contain only nine to ten yards. The trade description of length is therefore false under section 2 of the Merchandise Marks Act, 1889, sub-section 2, clause (*a*), and the importation of the goods is in contravention of section 18, clause (*d*) of the Sea Customs Act, 1878, as amended by section 10 of the Indian Merchandise Marks Act.

RANGOON CUSTOM HOUSE, *The 18th April 1895.* — E. WHITE, *Head Appraiser.*

The importation of goods of this kind is prohibited. I therefore confiscate the consignment, but under section 183 of the Customs Act, I give the importer the option of paying a fine of Rs. 50, and I direct that the ends of the cards containing the words "warranted 50 yards" be cut off before delivery of the goods.

E DARLINGTON,
Customs Collector.

The 18th April 1895.

BENGAL.

No. 3649 S R, dated the 8th July 1896.

From—H. H RISLEY, Esq, C I E, Secretary to the Government of Bengal,

To—The Secretary to the Government of India, Finance and Commerce Department.

In accordance with the orders conveyed in paragraph 4 of the enclosure of the Finance and Commerce Department letter No. 295-S., dated the 28th November 1890, I am directed to submit, for the information of the Government of India, the accompanying copy of a letter from the Board of Revenue, No. 508 B, dated the 11th June 1896, and its enclosure, from the Collector of Customs, Calcutta, reporting on the working of the Merchandise Marks Act, IV of 1889, in the port of Calcutta during the year 1895-96. No proceedings were taken under the Act by the Collectors of Customs at Chittagong, Naraingunge, and the Orissa ports during the year.

2. The correspondence referred to in paragraph 2 of the Board's letter relates to the fraudulent importation by certain German and Swiss firms of Turkey-red yarn of lengths

less than the minimum 819 yards, regarding which the Government of India asked for a report in Finance and Commerce Department letter No. 581-S.R., dated the 4th February 1896. A separate letter is being addressed to the Government of India on the subject.

3. Another case arising out of the working of the Merchandise Marks Act relates to the complaint made by the Bengal Chamber of Commerce regarding the insufficiency of the test of measurement applied at the Calcutta Custom house to imported yarns on which the Government of India called for a report in Finance and Commerce Department letter No. 3102-S.R, dated the 2nd July 1895. In this office letter No. 6293-S R., dated the 14th December 1895, it was reported, for the information of the Government of India, that the Lieutenant-Governor was awaiting the opinion of the Bengal Chamber of Commerce on certain points raised by the Collector of Customs in his report on the subject. A copy of my letter No. 202-T F., dated 24th August 1895, to the Chamber of Commerce, and of its enclosure, is now annexed for the information of the Government of India No reply has been received from the Chamber of Commerce though numerous reminders have been addressed to them.

No. 508-B., dated the 11th June 1896.

From—E. H. C. WALSH, Esq., Offg. Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

With reference to Government order No. C 1A/1 16, dated the 8th December 1890, and paragraph 4 of the instructions of the Government of India therein enclosed, I am directed by the Board of Revenue to submit, for the information of Government, with the following remarks, the accompanying copy of a report, No 235, dated the 1st April 1896, from the Collector of Customs, Calcutta, on the proceedings taken by him under the Merchandise Marks Act, IV of 1889, during the year 1895 96.

2. The total number of cases in which the goods were detained for infringement of the Act rose from 285 in 1894-95 to 393 in 1895 96. The increase of 108 cases, or 38 per cent, is principally due to a larger number of cases of false trade description under clause (*d*), section 18 of the Sea Customs Act, as amended by section 10 of the Merchandise Marks Act. It will be observed that cases of importation of piece-goods without proper stamp, coming under clause (*f*) of the same section, have not appreciably diminished, and that these two kinds of cases form 51 per cent and 46 per cent respectively of the whole, the cases falling under clause (*e*) being very insignificant, namely, 11, against 3 in the year preceding the year under report. In 49 cases the goods were released without fine against 37 in the year 1894-95. Simultaneously, with the increase in the number of cases, the amount of fines realised was larger by Rs. 4,700. With the exception of one case, all the other cases were detected without information, and the year's operations indicate greater vigilance and activity on the part of the examining and appraising staff of the Calcutta Custom house. From the correspondence noted in the margin it will be seen that the practice of short reeling noticed in paragraph 8 of the Collector's report is now under enquiry.

Board's letter to Government, No 374 B, dated 30th April 1896, and Government order No. 84-T.F., dated 15th May 1896.

3. As in previous years, no proceedings were taken under the Act by any of the Collectors of Customs at the outports.

No. 235, dated the 1st April 1896.

From—F. H. B. SKRINE, Esq., Collector of Customs, Calcutta,

To—The Secretary to the Board of Revenue, L.P.

I have the honour to submit my Annual Report for the year 1895 96 on the working of the Indian Merchandise Marks Act.

2. The attached statement shows the number of cases adjudicated on under each of the clauses (*d*), (*e*) and (*f*) of section 10.

3. There were 393 cases during the year, of which 201 came under clause (*d*), 11 under clause (*e*) and 181 under clause (*f*). The corresponding figures for 1894-95 were 285, 91, 3 and 191.

4. In 321, penalties were imposed, which were regulated by the gravity of the offence.

5 In 49, the goods were released with a warning and after due compliance with the law. In 21, re-shipment was ordered, in 10 cases with, and in 11 without, penalty, and 2 are still undisposed of. The latter are included in the 201 shown in the statement as detained under clause (*d*).

6. The bulk of these goods came from Germany, having labels printed with English words or otherwise simulating British make, often unaccompanied by any indication of origin.

7. In 47 cases under clause (*d*) the goods were released without penalty, because some attempt had been made to comply with the law. In 133, moderate fines were inflicted, and in 19 re-shipments were ordered, in 9 without and 10 on payment of, penalties.

8. Of these 19 re-shipments, 14 were consignments of yarn, which after reeling, were found to be false in a material respect both in regard to count and length. The action of the Custom house in this respect met with the general approval of the trade, and it has been effectual in putting down the practice of short reeling which had become scandalously common.

9. Of the 11 cases under clause (*e*), 9 were released after proper stamping under penalty, and in 2 cases the importation was prohibited, but the circumstances did not justify the imposition of a penalty.

10. There were 181 infringements of clause (*f*). These were piece-goods, some of which were not stamped with lengths in yards, and others only in numerals or with chalk or other effaceable material.

11. In 179 cases fines were inflicted, and in 2 stamping was allowed with a warning.

12 With the exception of one case, regarding which private information was received all were detected by Customs officers.

13. The year's operations show a considerable advance on those of any previous year, and indicate that a determined effort has been made to put down fraudulent practices. A large amount of my time has been given to the exercise of the large powers conveyed by the Merchandise Marks Act of 1889. We now have a room filled with the latest and most approved apparatus for testing yarns ; and a system of registering trade marks which was introduced in December last and is working well

14. The total amount realised in fines during the year is Rs. 6,790.

15. My acknowledgments are due to Mr C. C. Bonnaud and Mr. H Erskine Girard of the Appraising Department for the zeal they have brought to bear on this important branch of their duties.

Statement showing the number of cases dealt with under the Indian Merchandise Marks Act during the official year 1895-96.

No. 202-T.F, dated the 24th August 1895.

From—H. H. RISLEY, Esq., C I E, Secretary to the Government of Bengal,

To—The Secretary to the Bengal Chamber of Commerce

On receipt of your letter No. 697, dated the 27th May 1895, complaining of the working of the test of measurement applied by the Calcutta Custom house to imported yarns in the administration of the Merchandise Marks Act, correspondence ensued with the Government of India and with the Board of Revenue and Collector of Customs in Calcutta, and I am now directed to forward a copy of a letter from the Collector of Customs, dated 20th July 1895, together with the following remarks.

2. There are in your letter five specific complaints against the existing practice, and two proposals as to changes in the practice, each of which has received the careful attention of Government.

3. It is mentioned in paragraph 3 of the Chamber's letter that, in consequence of the test applied by the Calcutta Custom house, " nearly every firm engaged in importing yarn has had its goods stopped." The Collector at paragraph 8 of his letter shows that

since the beginning of the year 1895, in 55 cases the tests have been applied and in 19 cases the length has been found deficient. From these figures the conclusion might be drawn that the friction and inconvenience caused to the trade have not been very extensive, and the Lieutenant-Governor would be glad to know if he is to understand that nearly every importing firm was concerned in one or other of these 19 cases.

4. It is further alleged in the same paragraph that yarn tested to more than the full length at Manchester has, when tested at the Custom house, been found short. I am to enquire to which of the 19 cases does this allegation apply, whether it was proved before the Collector that the yarn he found short had been found full length in Manchester, whether he paid no attention to this argument, and, if so, why the firms concerned did not appeal.

5. The Chamber go on to state in the same paragraph that the test employed is not applied by experts. This seems to have been written under a misapprehension. The Collector has shown in his 6th paragraph that the officials who apply the test are experts, and that representatives of the importing firms were present and did not impeach the accuracy of the measurement, and the Board of Revenue write that Mr Wolferstein was recommended by the late President of the Chamber of Commerce as being the best man to be got, and thoroughly conversant with Manchester goods.

6. It is next asserted that the test, through not being applied by experts, is imperfect, besides being insufficient in itself. To this the Collector replies in paragraph 10 that in at least two cases the yarns were sent back and retested in Manchester with the same results as were arrived at when tested in the Calcutta Custom house.

7. The Chamber contend in their fourth paragraph that the Collector should proceed on general evidence as to whether there exists on the part of the importer or spinner an intention to defraud. The Collector explains in his sixth paragraph that such suspicion was felt by the appraisers charged with the supervision of imported yarns, and that the test was applied on the strength of this suspicion.

8. In their fifth paragraph the Committee propose that the question of the fairness of the existing test should be referred to experts and to the various Indian Chambers and the Manchester Chamber. The Lieutenant-Governor is informed by the Government of India that the test to which the Chamber takes exception was proposed by their representative, Mr. Ashworth, on the Committee which was appointed in 1890 to frame rules under the Merchandise Marks Act, and was referred to and approved by the Calcutta and other Indian Chambers of Commerce. No complaint against it has come from any other quarter than Calcutta. Any objections taken to the way in which the rules are carried out in practice will, if substantiated, be met by an amendment of the practice. If valid objections are raised to the principles on which the rules are based, the whole question might be reopened, as the Chamber propose, but the Lieutenant-Governor does not at present understand that such objections exist or that any alternative principles are suggested.

9. The Chamber will observe that in the case mentioned in Messrs. ————'s letter of the 25th April 1895, addressed to them, the average length was 814$\frac{3}{10}$ yards, and not a single instance occurred in which the hank was equal or near to its professed length. This seems to have been a flagrant case, and hardly justifies a complaint against the working of the Custom house officials or the principles on which the rules are based, unless it can be shown that the test measurement brought out a false result. It is to be presumed that if Messrs. ———— had been satisfied that the result was incorrect, they would have demanded a ten per cent test, as provided by the rules.

10 It is suggested by the Chamber in paragraph 5 that, pending such reconsideration of the whole subject, the rules under which Customs officials now work should be relaxed so as to bring them into accord with those contained in the notification of the Home Department, No. 1474, dated the 13th November 1891. The details of the suggestion are not explained, and the Lieutenant-Governor is not aware in what respect the two notifications of 6th April and 13th November 1891 are held not to be in accord; but he would point out that the two notifications are not exactly parallel, as the latter one prescribes a more searching test which would justify a criminal prosecution.

11. Unless the Collector's statements can be rebutted or explained away, it seems to the Lieutenant-Governor that the test operations have disclosed the existence of somewhat widely prevalent trade frauds which must be as injurious to the Chamber of Commerce as to the petty consumers of yarn, and the frustration of which ought to be hailed by the Chamber with satisfaction.

12. Finally, I am to add that, if the Chamber of Commerce support it, the Lieutenant-Governor is prepared to accept the Collector's proposal in paragraph 14 of his letter, that he should be empowered to pass goods, where the deficiency is accidental and less than 2 per cent, subject to the proviso mentioned by him, that if the particular mark is found short a second time, the indulgence should not be repeated.

No. 497, dated the 20th July 1895.

From—F. H. B. SKRINE, Esq., Officiating Collector of Customs, Calcutta,

To—The Secretary to the Board of Revenue, Lower Provinces.

I have the honour to submit the report called for in your endorsement No. 441-B., dated 15th instant, on the subject of the testing of grey yarns.

2. The competition in these goods is so keen that there is a constant temptation before needy and unscrupulous spinners to shorten their hanks and to gain an advantage over rivals. This fact is fully recognised by the Manchester Chamber of Commerce which maintains a special testing and makes prompt enquiries in case of shortage. It is generally found that the cause is defective machinery. It is the practice of the Chamber to send an inspector immediately to mills when yarn reels short on test, with instructions to enquire as to the number of teeth in the wrap-reels. If they are fewer than 80, the proprietor receives a warning which it is dangerous to disregard. For, in spite of the allegation contra of Messrs.*——— it is perfectly possible to give full length. This is placed beyond cavil by an affidavit filed on 6th March last by the Manager, Glasgow Cotton Spinning Company, Limited, and it is admitted by the trade. Some hanks reel 842 yards, and I know one that gives 860 yards.

3. India was the market which first experienced the bad results of these practices. Imported yarns have killed the native production; and not only mills, but native weavers throughout the country, are dependant on European yarns. The millowners can take care of themselves. They soon became aware that certain marks were short of the obligatory 840 yards per hank, and prices in the wholesale market varied accordingly. Not so that most wretched handicraftsman, the Indian weaver. He was shamefully defrauded by the middleman into whose hands the short yarns had passed, and his scanty profits were cruelly curtailed.

4. It was in view of protecting this class, as well as in the interest of our local cotton mills, that tests similar to those employed in Manchester were imposed in this country in 1891 under the provisions of the Merchandise Marks Act of 1889. Our test was framed by the Special Cotton Committee of the Calcutta Chamber of Commerce, and approved of by the similar bodies in Bombay and Manchester.

5. For three years, however, this mechanism remained a dead letter, for yarn passed duty-free, and the bales were never opened at the Custom house. Information was not given us of fraudulent practices, for the necessity of depositing security and the fear of actions for defamation deterred honest traders from coming forward. On the re-imposition of cotton duties, however, an opportunity presented itself of asserting a most wholesome procedure. It was necessary to open bales for the purpose of appraisement, and marks suspected of being short were freely tested.

6. The suspicion referred to in paragraph 6 of the rules for testing yarn was felt by the appraisers charged with the supervision of cotton imports, Messrs. Erskine Girard and Wolferstein. Both are experts, Mr. Girard having come to us last year from the trade, and Mr. Wolferstein having mill experience. Mr. Girard was born and bred in Manchester, and has a thorough knowledge of spinning and cotton weaving. Mr. Amos, the Assistant Collector, who was consulted on every occasion of the kind, is also a Manchester man. Their special knowledge led them to put their finger on the fraudulent marks with tolerable certainty.

7. The test was conducted by these gentlemen with the Chamber of Commerce's own wrap-reel. In nearly every instance assistants representing the importing firm were present and helped in the weighing and testing. They were conducted with the utmost care; and though the results in many cases were disastrous to spinners and importers, their accuracy has never been impeached.

8. I will now give statistics showing month by month the outcome of the tests employed:—

Month.		Number of tests applied.	Number in which yarn reeled short.	Number in which a penalty and re-shipment were ordered.	Number in which re-shipment was ordered.
		2	3	4	5

Percentage of yarn reeling short = 34%.

9. I took over charge on the 29th April, and none of the tests previous to May were ordered or adjudicated on by me. In only two cases have I imposed a penalty; in one the yarn was Messrs. ———'s whose stuff, supplied to three leading importers, failed to satisfy our test, the shortage in the case in which I levied a penalty being such as to preclude the possibility of accident. The other case in which I mulcted the importer was that of the ——— Company of Colombo, who have admitted that they reel short habitually. Messrs. ——— are also short spinners and known to be so in the trade.

10. Further, in the case of two importers of yarns, Messrs. ——— and ———, the yarns sent back were retested in Manchester and the Calcutta measurements were found correct *within a yard*. Messrs. ———, who have suffered severely from re-shipments, have not informed me officially of the result of the measures taken by them to test our procedure; but I hear privately that they have nothing to complain of except their own consignor's conduct. Not a single appeal to the higher revenue authorities has been filed against any orders of ours in this respect.

11. These facts dispose of the statement that our operations are conducted by unskilled hands.

12. In point of fact, the action of the Calcutta Custom house has been greeted with satisfaction by honest spinners throughout the producing districts. I can produce evidence of this; and, if necessary, refer to Messrs. ——— and Messrs. ——— besides other large importers, for corroboration.

13. Its effect on the trade and on the weaving industry has indeed been most beneficial. It is much to be wished that the moral courage shown by my subordinates in grappling with a great and growing evil was more widely imitated in these times, when fear of responsibility seems so widespread.

14. The only defect in the rules, in my humble opinion, is their inelasticity. No discretion is left with the Collector, however trivial the shortage. It is possible that a test of nine hanks per bundle may occasionally reveal a shortage which is purely accidental; and I think it possible that cases of hardship have occurred on this score. I would advocate their modification in this respect. A proviso might run this: "Provided that, when the deficiency, as disclosed by the tests, is less than two per cent, it shall be competent to the Collector to pass the yarn on payment by the importer of a penalty not exceeding the duty on the whole consignment." This proviso would relieve much heart-burning and save importers from heavy losses. If a particular mark, after being so treated, were to be found reeling short a second time, the indulgence would not be repeated. In order to lessen the friction in the meantime, I have introduced the use of the quadrant, an instrument which marks the counts of a yarn on accurate weighment of a lea, or the seventh part of a hank. If a primary test of nine hanks by this means, and weighment of an entire bundle, give satisfactory results, we will not proceed to reeling, which is a cumbrous and costly process.

15. It is on the latter ground that I strongly disapprove of the Chamber's proposal to adopt the bundle as a unit of test. It is *á fortiori* impracticable.

BOMBAY AND SIND.

No. 6020, dated the 1st August 1896.

From—J. W. P. MUIR-MACKENZIE, Esq., I.C.S., Acting Secretary to the Government of Bombay,

To—The Secretary to the Government of India, Finance and Commerce Department.

I am directed to forward, for the information of the Government of India, a copy of the papers noted in the margin containing the reports received from the Collectors of Customs, Bombay and Karachi, on the working of the Merchandise Marks Act, IV of 1889, during the year 1895-96, together with a copy of the Resolution No. 5815, dated 25th July 1896, recorded on the reports by this Government.

Memorandum from the Commissioner in Sind, No. 1639, dated 5th May 1896, and its accompaniments.

Memorandum from the Commissioner of Customs, Salt, Opium, and Abkari, No. 3041, dated 6th July 1896, and its accompaniments.

No. 1534, dated the 28th April 1896.

From—W. E. YOUNG, Esq., Collector of Customs, Karachi,

To—The Commissioner in Sind.

I have the honour to submit my sixth annual report on the working of the Indian Merchandise Marks Act, IV of 1889, during the year 1895-96.

2. As will be seen from the attached statement, 136 cases were adjudicated during the year, namely,

102 under clause (*d*),
17 under clause (*e*), and
17 under clause (*f*)

of section 10.

3 Most of the 102 cases under clause (*d*) were infringements of its provisions in respect of omission of origin on foreign goods bearing English descriptions. In 68 cases the goods were passed on payment of fines after the indication of origin was duly stamped, and in the remaining 34 cases the goods were passed with a warning after indication of origin was marked on the goods.

4 The 17 cases under clause (*e*) were of omissions of origin on foreign made goods bearing the names of British or British Indian dealers. In five instances the goods were passed on payment of nominal fines after the country of origin was marked on the goods, and in 12 cases no fine was imposed, the goods being passed after the requirements of the Act were complied with.

5. The number of infringements of clause (*f*) in respect of piece-goods having lengths marked in chalk was 12, on separate slips attached to the pieces 1, and in 4 cases the lengths were not marked at all. In 13 cases small fines were inflicted and the goods passed after compliance with the law; and in the other 4 cases the goods were passed with a warning after the lengths were marked thereon

6 The number of cases during the year has fallen considerably, from 223 in the previous year to 136 during this year, and is attributable to the provisions of the Indian Merchandise Marks Act having become more generally known.

7. There were two cases of appeal against the decision of the Collector. One was in respect of several consignments of woollen shawls imported in 1894 95, made up in imitation of Amritsar shawls bearing two separate labels, one showing description of the material in English and in vernacular, and the other origin in English and in vernacular Fines were imposed in these cases and the goods required to show indication of origin on the same labels which bore the description The appeal was from a branch firm of the shippers in India, asking for a refund of the fines inflicted The case went up for the decision of the Government of Bombay, who upheld the Collector's decision.

8. The other case of appeal was in respect of 125 kegs of bicarbonate of soda imported in 1895 96 which were marked as containing 1 cwt, whereas the actual contents were found to be 125 lbs. The kegs were passed after the incorrect stamping was removed and the correct quantity was marked thereon, on payment of a fine of Rs 20 and another fine of Rs 20 in lieu of confiscation The Commissioner in Sind on appeal retained the fine of Rs. 20 and remitted the fine imposed in lieu of confiscation.

9 The only cases calling for special mention are those connected with the importation of German made imitation gold and silver thread falling under clause (*d*) of section 10 of the Act. The thread was imported with labels applied to it in exact imitation of the labels originally and still generally applied to thread manufactured in Russia, and which have in consequence come to be commonly taken by the retail dealer and consumer to indicate Russian manufacture, thread manufactured in which country is noted for its excellence and realises a higher price than that manufactured in Germany Not only was the design on the Russian labels imitated, but also the inscription in Russian, including the name "Moscow." On some labels there was a statement in English of German manufacture, while on others there were two different statements as to origin, one indicating German and the other Russian manufacture. The statement of German manufacture was in each case in English, while that of Russian manufacture was on some labels in English such as "Manufacture of Ivan Shamshin's successor, Moscow," and on others in Persian, namely, "Gold thread manufactured in the town of Moscow in Russia" Persian is the language commonly in use in Peshawar for which place the thread was mostly imported, and the use of that language on the labels to indicate Russian manufacture clearly shows an intention to dispose of the thread as manufactured in that country. In some cases the importers, on being called upon for an explanation, stated that they had sent labels from Peshawar (apparently taken off bundles of real Russian thread) to the manufacturers in Germany to be copied, but that the manufacturers had failed to carry out the instructions sent them to omit from the labels the statement of Russian manufacture. There were in all 47 such cases in which fines varying from Rs 10 to Rs. 100 were imposed and the thread passed after the labels had been removed or effectually obliterated. Some importers are now using entirely different labels which do not contravene the Act, but others have merely altered the objectionable labels, the only alterations being the omission of the Russian inscriptions (their place being taken by English inscriptions) and the statement of Russian manufacture. The design on the labels is the same and though there is a statement on the labels in English of German manufacture, still, looking to the fact that the retail dealers and consumers are a class of people who cannot read English and would be guided entirely by the design on the labels, this statement is not sufficient to prevent their being led to believe that the thread is of Russian manufacture. I am therefore requiring these labels to be stamped with the indication of German manufacture in Persian and Urdu, the latter being the language commonly in use in Amritsar, for which place also some of the thread is imported·

10. All the detentions were made by Customs officers in the ordinary course of their duty.

Statement showing the number of cases dealt with under section 18 of the Sea Customs Act, VIII of 1878, as amended by the Indian Merchandise Marks Act of 1889, during 1895-96

KARACHI CUSTOM HOUSE; The 28th April 1896

W. E. YOUNG, *Collector of Customs*

No 10382 C, dated the 1st July 1896

From—J POLLEN Esq, B A, LL D, I C S, Collector of Land Revenue, Customs, and Opium, Bombay,

To—The Commissioner of Customs, Salt, Opium, and Abkari

I have the honour to submit the report for the official year 1895-96 being the sixth annual report on the administration of the Indian Merchandise Marks Act which came into operation on the 1st April 1889.

2. Statement A The accompanying statement marked A has been prepared in accordance with the instructions of the Government of India conveyed in Government Resolution No. 8960, dated the 15th December 1890, in the Revenue Department. It shows that the total number of cases under the Merchandise Marks Act during the year was 918 against 352 in 1894-95, showing an increase of 566 This large increase in the number of cases under each of the clauses (d), (e) and (f) of section 10 of the Act is due to an extended examination of goods which has been possible in consequence of the additional establishment employed on the re imposition of the import duties It is also due to a large number of new imports from Japan and other places being not stamped in accordance with the provisions of the Merchandise Marks Act

3. During the year under report 431 infringements of clause (d), 383 of clause (e) and 104 of clause (f) of section 18 of the Sea Customs Act, as amended by section 10 of the Indian Merchandise Marks Act, were detected. Only five of the 918 cases shown in statement A referred to goods imported by parcel post. Fines and confiscations were inflicted in 818 cases. In the remaining 100 cases, the goods under detention were passed without penalties after such qualification as seemed necessary, as the requirements of the Act were held to have been partly complied with The 818 cases include the case of paper, which, as stated in last year's report, was under enquiry before the Chief Presidency Magistrate. It was held in this case that the goods had a false trade mark applied to them. On this decision the goods, which were under detention at the Custom house, were ordered to be confiscated subject to a redemption penalty of Rs. 250 which was paid and the paper passed on the removal of the false trade mark which consisted of an elephant surmounted by a mailed arm and a shield bearing the letter S in old English character.

4. Except 15 cases which infringed both clauses (d) and (e) all the cases adjudicated were under clauses (d), (e), or (f) of section 18 of the Sea Customs Act, as amended by section 10 of the Indian Merchandise Marks Act.

5. Under clause (d) of section 18, two cases occurred of importations of goods with false trade marks, in addition to the case of paper mentioned in paragraph 3 above. The goods in these two cases consisted of alizarine dye, the casks and kegs bearing labels with

the representation of a *Ganpati*, which is the registered trade mark of Messrs. ———. The owners of the trade mark were informed of the importations, and, on their giving an indemnity bond holding the Customs Department harmless against the consequences of the detention, the goods were not allowed to be passed, pending the institution of a suit and the decision of the High Court thereon. Legal proceedings were commenced, but the matter in dispute was compromised with the importers who removed the objectionable labels before the goods were allowed to be cleared from the Custom house. On the other hand several cases of false trade descriptions were detected, chiefly as regards place of manufacture, material, number, weight, or measure. Other false trade descriptions consisted of the application to goods of descriptive expressions in languages (mostly in English) other than those of the country of origin.

6. The 104 cases under clause (*f*) of section 18 of the Sea Customs Act, as amended by the Indian Merchandise Marks Act, consisted mostly of piece-goods not stamped with their length and some with length stamps which were only a pretence of stamping. In all except two cases fines were adjudged and the goods passed on the pieces being conspicuously stamped with their length at the Custom house.

7. Statement B. The statement B shows that of the 918 seizures 55 were adjudicated by the Collector, 5 by the First Assistant Collector, and 858 by the Assistant Collector in charge of the Branch Custom house at the Docks. Thirteen appeals were preferred, 12 to the Collector and one to the Commissioner, against the decisions of the Assistant Collector at the Docks, with the result that the orders passed by the Assistant Collector were upheld by the appellate authority. There were no appeals against the decisions of the Collector and the First Assistant Collector. The total recoveries under fines and penalties in lieu of confiscation amounted to Rs. 7,599, showing an increase of Rs. 2,880 over the last year's realisations, which amounted to Rs. 4,719.

8. During the year, 40,353 packages of different kinds of goods, 3,857 bundles and plates of steel and iron, 497 bars of iron, and 4,682 bars of steel were detained. Statement C shows in detail the disposal of the detained packages.

9. The following notes of some of the cases disposed of during the last year will be found interesting

(1) Messrs. ——— imported from London a large consignment of so-called quinine, which was labelled "Quinine C." It was suspected to be not quinine, and a sample was accordingly forwarded to the Chemical Analyser to Government, who reported that not only was the quinine not genuine, but that it contained no quinine at all. The Medical Storekeeper also stated that there was no such thing as quinine C in the British Pharmacopœia, nor was any such article known by that name in the trade. He further expressed an opinion that if there was no quinine in the composition of the article, the manufacturers had no right to call it quinine or quinine C, and that the name was apparently coined by the manufacturers to mislead the public into the belief that they were buying quinine when the article was really a cheap alkaloid of the cinchona bark. The contention of the manufacturers that, so long as they did not call the article quinine, no offence was committed, could not be seriously entertained. The consignment was confiscated subject to a redemption penalty on payment of which the goods were passed on the necessary alteration being made in the labels.

(2) There were several consignments of imitation gold and silver thread made in Germany imported by a clearing agent in Bombay for dealers up-country. The bundles bore labels with the name of a Russian manufacturer and the words "Real Silver Factory Vladimir Alexiena of Moscow," in Russian characters. The label was also similar to that applied to the Russian manufacturer's real silver and gold thread. As a mere pretence of compliance with the requirements of the Act, the indication of origin, "made in Germany," was stamped in a corner in very inconspicuous type. There could be no doubt that the whole get-up of the label was with the object of deceiving purchasers as to the origin of the thread. All the consignments were subjected to penalties which varied according to the circumstances and values of each consignment, and the goods were passed on the destruction of the offending labels.

(3) A large number of cases occurred of the importation of so-called vermilion labelled—" Best 100 B touch Mexican Vermilion," or in similar terms. These consignments were detained as it was found that the 1 lb. packet to which the name Mexican vermilion was applied contained no vermilion at all. Mexico is one of the countries which produces cinnabar, a natural sulphide of mercury (vermilion), in very great abundance, and therefore to label pigments manufactured in the United Kingdom, and admitted

to be cheap substitutes made from red lead and barytes with a colouring of aniline dye, is no doubt a fraud upon the public, for vermilion according to standard authorities is known to be a specific term for the sulphide of mercury, pigment produced naturally as well as artificially. It is not a generic term for any pigment of a red or vermilion colour, and it was therefore held that the application of the term vermilion to cheap pigments which did not contain sulphide of mercury constituted a false trade description within the meaning of the Act. The contention of the importers and manufacturers that the term had been in universal use for over a quarter of a century, and that the application of the term vermilion did not imply that the pigments were actually vermilion, but that the article was coloured to a vermilion tint, was of course not accepted. It may be stated that the real vermilion is five times more expensive than the counterfeit article. In all these cases fines were imposed and the goods passed on the required qualification of marks. The so-called vermilion is now imported as "red colour vermilion tint," or "Mexican or Persian red, made in England."

4. There were several cases of imports of pencils, clocks, soaps, umbrellas, and matches from Japan, many of which were marked in contravention of the Merchandise Marks Act. The pencils were marked "The English Pencils of the Eagle Pencil Manufacturing Company, New York," a bold statement to make on Japanese pencils. The clocks were also marked in some instances "The Waterbury Clock Company, U. S. A.", and so on. The soaps are not only made to resemble the soaps manufactured on the continent of Europe, but they bear French and other expressions calculated to mislead as to their origin. The umbrellas and matches have been marked with English expressions. The infliction of fines in all these cases has had the desired effect, and Japanese shippers and manufacturers have begun to realise the necessity of conforming to the requirements of the Act.

5. As in previous years, there were several consignments imported of red lead, white lead, and white zinc paint which infringed the Act, the articles being not genuine and containing only small percentages of red lead, white lead, and white zinc in their compositions. All the consignments were subjected to penalties. These articles are in many cases now imported without any description applied to them, and are probably sold in the market as genuine.

6. Among medicinal preparations imported from Germany it has been found that a large quantity of so-called *Balsam Copaibæ* has been imported which has been discovered to be not what it is stated to be, *i e*, an oil distilled from copaiva balsam, but a cheap substitute for the above oil, which is really *Oleum Dipterocarpi*, an oil distilled from gurjun balsam, otherwise known as wood oil. The manufacturer has contended through his Bombay agents, that, as this oil serves the purpose of *Balsam Copaibæ* equally well, there is no harm in calling the oil by that name, and that the Custom house should not hamper the importation of cheap substitutes, which are a boon to the public. The contention is quite in keeping with the contention of some German importers who claimed an allowance on iron nails on the ground of shrinkage. All the consignments of so-called *Balsam Copaibæ* were confiscated, but were allowed to be redeemed on payment of penalties in lieu of confiscation, the oil being marked in conformity with the Act.

7. Another false trade description was discovered during the year through an action of the English manufacturers themselves. Messrs. ————, the manufacturers of Belmont sperm candles, wrote to point out that though they called their candles sperm candles, they were really not sperm candles made from spermaceti but from palm oil and tallow without a particle of spermaceti in their composition. They therefore requested that their candles should not be assessed for duty at the higher tariff rate for sperm candles, but at the lower rate for all other candles. They, however, represented that they could not discontinue to describe the candles as sperm candles, as they had been known by that name for several years. Their plea that Belmont being the name of their works, the word "sperm" used in conjunction with "Belmont" is generally understood to indicate that the candles are not sperm or spermaceti, was too good to be accepted. The manufacturers were told that if their candles were not "sperm," they would be most certainly assessed as stearine candles, but it was also pointed out to them that the application of the term "sperm," whether in conjunction with "Belmont" or without, to candles which did not contain any sperm constituted a false trade description within the meaning of the Act, and that even if they agreed to pay duty on them as sperm candles, the use of that expression could not be allowed under the Merchandise Marks Act. The manufacturers at once realised their position, and their candles, which come in large quantities to Bombay, are now marked Belmont stearine candles on the boxes and packets. It will be seen that it was under peculiar circumstances that the false

trade description was discovered and a stop put to the importation and sale of cheap candles as a superior article under a false name.

8. A consignment of nine cases of mixed saffron was imported from Marseilles. The cases contained tins of saffron with labels bearing descriptions which to all outward appearance were free from objection. On careful examination of a tin it was discovered that the lower portion of the label was skilfully concealed by a smaller label of the same colour as the original being pasted over it, which smaller label was capable of being easily removed. It was found that the concealed portion of the label had the importer's name and the description "Azafran" (saffron). It was held that the importer's name, without an indication of origin accompanying, constituted a breach of clause (*c*), section 10 of the Merchandise Marks Act, and that the description "Azafran" by itself conveyed the idea that the saffron was pure, a breach of clause (*d*) of section 10. The consignment was confiscated subject to a redemption penalty on payment of which the goods were passed after the labels were removed.

9. It will be seen that the appraising, gauging, and inspecting staff have performed with care and diligence the duties imposed upon them by the Act. The bulk of the work of adjudication has fallen upon Mr. Jehangir Dosabhoy Framji, and the small number of appeals from his decisions shows that his judgment has generally been accepted by the importers themselves, while the fact that none of his decisions have been reversed in appeal is proof of the care and intelligence he brought to the work. Mr. Almon has also done well the part of the work that fell to his share.

BOMBAY CUSTOM HOUSE, The 1st July 1896 } J. POLLEN, *Collector of Land Revenue, Customs, and Opium.*

No. 3041, dated the 6th August 1896

Memorandum by A. WINGATE, Esq., Acting Commissioner of Customs, Salt, Opium, and Abkari

Submitted to Government in the Revenue Department.

2. The number of cases in which detention of goods was ordered under the provisions of the Indian Merchandise Marks Act during the year 1895-96 was 918 compared with 352 cases in 1894-95 and 647 in 1893-94, under clause (d) of section 10 the cases more than doubled, while under each of the clauses (e) and (f) they were thrice as many as in the year before. In that year the total of cases dropped very considerably, and the present increase is probably rightly attributed to the extended examination of goods which has been possible in consequence of the additional establishment employed since the re-imposition of import duties. There were also a large number of new imports from Japan and other places which were not properly stamped. That the increased vigilance was necessary is evidenced by the notes of the more important cases disposed of. These notes also indicate the minute attention, knowledge, and discrimination required for the successful working of the Act. These qualities appear to be possessed in a high degree by Mr. Jehangir Dosabhoy Framji, the Assistant Collector at Prince's Dock. Fines and confiscations were inflicted in 818 cases. In the remaining 100 cases, the detained goods were passed without penalties, after the requirements of the Act had been met. The total recoveries under fines and penalties in lieu of confiscation amounted to Rs 7,590 against Rs. 4,719 last year. Notwithstanding the great increase of work and the important nature of some of the cases, there were only 13 appeals, and in all of them the decision of the Assistant Collector was upheld. The praise bestowed by the Collector on the appraising, gauging and inspecting staff, and specially on Mr. Jehangir Dosabhoy Framji, appears to be merited. Mr. Almon is also favourably mentioned.

Extract from the Proceedings of the Government of Bombay, Revenue Department, No. 5815, dated 25th July 1896.

Read—

Memorandum from the Commissioner in Sind, No. 1639, dated 5th May 1896—Submitting a report No. 1534, dated 28th April 1896, from the Collector of Customs and Salt Revenue in Sind, on the working of the Indian Merchandise Marks Act, IV of 1889, during the year 1895-96.

Memorandum from the Commissioner of Customs, Salt, Opium, and Abkari, No. 3041, dated 6th July 1896—Submitting a report No 10382-C, dated 1st idem, from the Collector of Land Revenue, Customs, and Opium, Bombay, on the administration of the Indian Merchandise Marks Act, IV of 1889, during the year 1895 96.

RESOLUTION.—The number of cases of breaches of provisions of the Merchandise Marks Act dealt with at Bombay and Karachi during the year 1895-96 was 1,054 as compared with 575 in the preceding year. There was a decrease of 87 in the number of cases dealt with at Karachi, which is attributed to the fact that the provisions of the Act have become more generally known. There was a large increase of 566 in the number of cases dealt with at Bombay. This result is due to an extended examination of goods, which has been possible in consequence of the additional establishment employed since the re-imposition of import duties and also to a large number of new imports from Japan and other places which were not properly marked. As might be expected with the large increase in the number of cases dealt with at Bombay, the total number of appeals preferred rose from 1 to 13. The fact that in no single case was the original order interfered with is evidence of the exercise of careful discrimination on the part of the officers concerned. Government consider that the working of the Act at both Karachi and Bombay was satisfactory.

2 Government notice with pleasure the commendation bestowed by the Collector of Land Revenue, Customs, and Opium, Bombay, and the Commissioner of Customs, Salt, Opium, and Abkari, on the appraising, gauging and inspecting staff, on Mr. Almon, and specially on Mr. Jehangir Dosabhai Framji.

3. A copy of the papers and of this Resolution should be forwarded to the Government of India for information.

MADRAS.

Extract from the Proceedings of the Government of Madras, Revenue Department, No. 416, dated the 19th August 1896

READ—The following proceedings of the Board of Revenue (Separate Revenue), No. 207, dated 27th July 1896:

Read again—The following proceedings of the Board of Revenue (Separate Revenue), Routine No. 1851, dated 23rd June 1896:

Read—The following letter from W P. Austin, Esq , Collector of Sea Customs, Madras, to the Secretary to the Commissioner of Salt, Abkari, and Separate Revenue, dated 20th June 1896, No. 3271-G.:

I have the honour to submit the following report on the working of the Merchandise Marks Act (IV of 1889) at this port during the year 1895-96, and to enclose the usual statement showing the number of cases dealt with under the Act during the year.

There were 99 cases, detected by the Department, of infringements under the Act, the total amount of penalties realised being Rs. 894-12-0. In 3 out of the 99 cases the goods were confiscated as shown in paragraph 6 (2), 6 (9) and 6 (13) of this report. 3,711 packages were opened during the year, being an excess of 2,541 over last year, and a greater number of detections have consequently taken place.

2. The cases are distributed as follows, and in no case was outside information received, all detections having been made by the appraising staff.

Under section 10, clause (*d*), 20 cases
" " (*e*), 57 "
" " (*f*), 22 "

3. In 20 cases adjudicated under clause (*d*), 19 were for silver or copper gilt thread and 1 was a sample case of German perfumery. The latter was confiscated

4. Of the 57 cases under clause (*e*), 14 were for silver or copper gilt thread, and 43 for wines, spirits, ale, liqueurs, and sundry goods which are detailed below. Some of the goods were stamped with the name of the *town* instead of the country of origin, but the majority were unstamped. As all the labels in the case of foreign goods were in the English language, penalties were imposed in most cases, the goods being correctly stamped before being permitted to leave the Custom house.

5. The 22 cases under clause (*f*) were for cotton and woollen piece-goods which were either not stamped with the lengths or were insufficiently stamped. Most of the

cases were those of tailors and haberdashers including several bazaar dealers, although one wholesale piece-goods merchant was also in fault.

6. The details of the principal cases are as follows :

(1) Nineteen cases of silver or copper gilt thread bore the false trade description of "gold thread," intended no doubt to lead purchasers into believing that the article was real gold thread. On the 30th May 1895, a circular was issued to the trade by the Custom house that if this false trade description were not altered, serious notice would be taken of the matter, and sufficient time was allowed to enable importers to communicate with shippers with a view to the alteration of the description to "silver gilt," "copper gilt," or "imitation gold thread." The shipments meanwhile, as they came to hand, were allowed to be correctly stamped before leaving the Custom house. After the expiry of the notice above mentioned, more serious action was taken and penalties imposed in all cases in which false trade descriptions were found.

(2) In a case of samples of German perfumery, the general get-up of some of the phials was French and of others American, the phials bearing the words "Paris" and "New York" respectively. The explanation of the importers being unsatisfactory, the perfumery was confiscated.

(3) In all the 57 cases under clause (*e*) the labels were in English, some of them bearing the names of British or British Indian traders, but without sufficient indication of the country of origin. Fourteen of these were for gilt thread, and they were penalised and ordered to be stamped.

(4) In three cases in which samples of German beer were imported, the labels were stamped "Brewed in Bremen" or "Brewed in Germany" in characters very much smaller than those on the labels. Being only samples, they were passed, importers being warned that when ordering consignments, they should be careful to see that the country (not town) of origin was stamped in large and conspicuous letters.

(5) Fifty dozen bottles of brandy were found to be stamped with the words "Made in Germany" at the bottom of the labels with a large space between the stamp and the description of the liquor. As the words indicating country of origin were easily removable by cutting away the lower portion of the labels, the latter were stamped across with the words "Made in Germany" and the brandy passed.

(6) In a case of claret, the main labels were in French indicating French make, while a separate label on the necks of the bottles showed the country of origin to be Germany. The separate labels were removed and the main labels stamped on a penalty of Rs. 5.

(7) The bottles in thirty cases of gin bore the words "Old Tom Gin—James Furgeson—Hamburg." As *Furgeson* was evidently intended for *Ferguson*, a Scotch name on Old Tom, a British liquor, and as the word Hamburg was an insufficient indication of country of origin, the words "Made in Germany" were allowed to be stamped across the labels on payment of a penalty of one rupee per case.

(8) Seventy cases of port wine, sherry, and brandy bore the words—

Fine old port.
Superior old port
Fine pale dry sherry.
Superior old sherry
Fine old pale brandy.

None of these bottles bore the name of the country of origin although in the bill of entry the port and sherry were declared to be the product of Spain and the brandy that of France. All these were allowed to be stamped with the country of origin as declared in the bill of entry on payment of annas 8 per case.

(9) A case contained two bottles each of German whisky, sherry, and port and two pints of whisky. The labels on the whisky were in order, but those on the Old Tom were a close imitation of 'Boord and Sons' Those on the sherry, "Old Sherry No. 1" and on the port "Vinho de Porto" As they did not bear the name of the country of origin while they were acknowledged to be of German make, they were confiscated, the whisky only being passed.

(10) A consignment of 80 cases of Bull brandy had the labels in order, but the corks and capsules also were stamped with the name of a British Indian dealer without that of country of origin as required by the order of the Government of India. The consignment was detained, but released on explanation, as a special case, by the Board with the remark that the trader should have taken measures to comply with the order.

(11) In four consignments of Belgian note paper the outer labels on the ream packets described the goods in English in addition to having the initials of Edward Lloyd and Co., an English firm, without the qualification of the country of origin, while the inner or five-quire packets were correctly stamped. As the paper was imported by a wholesale dealer to be sold by the ream, the outer packets were allowed to be stamped with the country of origin on payment in each case of a penalty of Rs. 5.

(12) Nine consignments of Edam cheese bearing the names of British traders were detained, the name of the country of origin of the cheese being wanting. The labels were either removed or stamped "Made in Holland" on payment of small fines before delivery.

(13) A consignment of Japan-made soap bearing English words, but without the qualification of the country of origin, was imported, and with it was found some packets of matches landed without a special permit. This consignment was confiscated.

(14) German labels (intended for use on liquor bottled in this country) with English words and the word "Gin" on them were detained, but ultimately passed on their being stamped in the Custom house with the name of the country of origin.

(15) Another lot of labels bearing the words "Pure old brandy," with the name of a British Indian trader, but stamped in very small characters with the name of the country of origin, was detained, because it was evident the labels were intended to be used on liquor bottled in this country. The labels were ordered to be re-shipped, but on appeal to the Board the order was cancelled and the labels passed.

(16) A case containing labels for cigar boxes, the labels bearing English and Spanish words, the trade mark and name of a British Indian trader, was passed, as they were intended for use on cigars made in this country and the name of the British Indian trader was a sufficient guarantee that the cigars could not be mistaken for a foreign production.

(17) A case of Australian perfumery was ordered to be re-shipped, as the labels on the bottles bore English and French descriptions without the requisite qualification of country of origin.

(18) A consignment of German medicine phials with English words blown in the glass, but without any indication of the country of origin, was ordered to be re-shipped on payment of a penalty of Rs 10. Similar goods are now being imported with the words indicating country of origin blown in the glass.

(19) A consignment of tobacco in tins was stamped with the name of the country of origin on a side other than that on which the English description appeared. The name of the country of origin, Germany, was allowed to be stamped on the proper side on payment of a small fine.

(20) A German made fruit evaporating machine was stamped inside the machine with the name of the country of origin. As this stamp was invisible when the machine was in position, the name of the country was allowed to be marked on the outside and a small fine imposed.

(21) Some sample Japanese made cotton jerseys bore the words "Best Merino." They were allowed to be stamped "made in Japan" and passed.

(22) Samples of German litho-prints with descriptive words in the vernacular were detained, as a few of them were not marked with the country of origin. Being samples only, they were passed with a warning that similar consignments if imported should be correctly stamped or serious notice would be taken of the omission.

(23) A case of hardware (dog chains) was found with descriptive words and country of origin on separate pasted labels. They were stamped across both labels and passed on a small penalty.

(24) A case of German made saws (hardware) was found with descriptive English words on the saws, but without the name of the country of origin. Allowed to be stamped on payment of a small fine.

(25) Hams from Australia were found marked with English words but without the name of the country of production. Allowed to be stamped and passed.

(26) Italian made foolscap paper with the words "extra strong" and the figure of Britannia, without any indication of the country of origin, was confiscated and the importer fined Rs. 25 for the importation. It was subsequently released and allowed to be re-shipped on payment of another penalty of Rs. 25.

(27) Another consignment of Italian paper with the description in English, but with the country of origin in very small characters, placed in a position where it was not easily seen was ordered to be conspicuously stamped on a small penalty.

(28) A consignment of German-made spoons and forks (hardware) with descriptive English words was found. Some of the packets were qualified with the name of the country of origin and some were not. The latter were allowed to be stamped and a small penalty imposed.

The other cases were unimportant and need not be cited.

7. The reeling of yarns under this Act has, on the whole, been satisfactory, and the complaints of the Scotch dyers of the importation into India of foreign dyed yarns in lengths shorter than that laid down in the Government Notification No. 1474, dated 13th November 1891, namely, 819 yards, have been found not to apply to importations to this port.

RESOLUTION —Routine No 1841, dated 23rd June 1896

Recorded pending receipt of reports from other Collectors.

READ—also the following proceedings of the Board of Revenue (Separate Revenue), Mis No 2174, dated 22nd May 1896 —

Read—the following letter from H MOBERLY, Esq , Acting Collector of Tanjore, to the Secretary to the Commissioner of Salt, Abkari, and Separate Revenue, dated 16th May 1896, No. 1005 —

I have the honour to report on the working of the Indian Merchandise Marks Act, IV of 1889, during 1895 96 A statement in the form prescribed in Board's Proceedings, No 29 dated 30th January 1891 showing the cases disposed of during the official year 1895-96 is enclosed

2. In the year under report there were two cases of infringement of the provisions of the Act against one in the previous year One case and one parcel containing 230 pieces of cambric which were imported into Negapatam from the Straits were detained, as none of the pieces was stamped with the length thereof in standard yards [section 10, sub section 2 (*f*) (1)] The importers were permitted to clear the consignments after having each piece duly stamped in English numerals They were warned that a recurrence of such infringements of the law would entail a heavy fine

3 During the year there was no instance of importation of goods bearing a counterfeit trade mark or a false trade description

4 The working of the Act appears to have been satisfactory

Statement showing the working of the Merchandise Marks Act in the Tanjore District during the year 1895-96.

[Clause (*f*) (1), sub-section 2 of section 10 of Act IV of 1889]					

RESOLUTION —Mis. No 2174, dated 22nd May 1896

Recorded pending compilation of the report for the Presidency

— — — —

RESOLUTION —No. 297, dated 27th July 1896

The reports of the Collector of Sea Customs, Madras, and the Collector of Tanjore on the administration of the Merchandise Marks Act (IV of 1889) during 1895-96 are submitted to Government. There were no detentions under the Act in the other districts.

2 The total number of detentions under the Act during the year was 101 (against 54 in 1894-95) Of these, twenty were cases of false trade descriptions under section 18 (*d*) of the Sea Customs Act as amended by section 10 of the Merchandise Marks Act, fifty-seven were under section 18 (*e*) which requires the country of manufacture to be stated on the labels of certain goods, and twenty-four were under section 18 (*f*) which

requires all piece-goods to be stamped with their length. The following statement shows the particulars of detention :

Districts and ports.	Detention ordered.	Detention followed by confiscation.	Detention followed by release.		Detention ordered on information received.	Detention ordered without information.
			With fine.	Without fine.		
Madras	99	3	63	33	...	99
Tanjore (Negapatam)	2	...	...	2	...	2
Total ...	101	3	63	35	...	101

Of the ninety-nine cases of detention in Madras, twenty were cases of false trade descriptions. These related mainly to importations of silver or copper gilt thread. Before taking more serious action against infringements of clause (*d*), a circular was issued by the Collector to the trade regarding the alteration of the false trade descriptions, and time was allowed to enable importers to communicate with the shippers. After the expiry of a reasonable time penalties were imposed in all cases of false trade descriptions. A sample case of German perfumery was confiscated.

In fifty-seven cases detention was ordered under clause (*e*) of imported liquors, gilt thread, and sundry goods on the ground that, while they had been made or produced beyond the limits of the United Kingdom and British India, the labels on them were in English and there was no sufficient indication of the country of origin. Fines were imposed in most cases and the goods were passed after being properly stamped; in two cases the goods were confiscated; in one case permission was granted for re-shipment; two other consignments were allowed to be re-shipped on payment of fines.

The remaining twenty-two cases of detention in Madras were under clause (*f*) and, with the exception of one case in which a wholesale piece goods merchant was in fault, related to importations of cotton and woollen piece-goods by tailors, haberdashers, and others.

Two cases are reported from Tanjore under clause (*f*). They related to consignments of cambric from the Straits Settlements imported into Negapatam. The importers were warned and the goods were passed after each piece had been duly stamped with its length.

3. It is reported by the Collector of Sea Customs, Madras, that the complaint of the Scotch dyers regarding the importation into India of foreign dyed yarn in lengths shorter than the minimum of 819 yards has been found not to apply to importations at the port of Madras.

(True Copies and Extract.)

D. D. MURDOCH,

Secretary

Order thereon by the Government of Madras, No. 416-Revenue, dated 19th August 1896.

Ordered to be forwarded to the Government of India.

No. 416-A., dated 19th August 1896.

Endorsed by the Secretary to the Government of Madras, Revenue Department

Copy to the Government of India, Department of Finance and Commerce.

HOME DEPARTMENT.

NOTIFICATIONS.

MEDICAL.

Simla, the 20th October, 1896.

No. 918.—The services of Brigade-Surgeon Lieutenant-Colonel F. A. Smyth, late officiating Civil Surgeon of Jhansi, are replaced at the disposal of the Military Department, with effect from the 24th September 1896.

The 21st October, 1896.

No. 920.—The services of Surgeon-Captain B. G. Seton, I.M.S. (Bengal), are placed temporarily at the disposal of the Government of the Punjab, with effect from the date on which he may assume charge of his duties under that Government.

SANITARY.

The 21st October, 1896.

No. 351.—The services of the undermentioned officers are placed temporarily at the disposal of the Government of Bengal:

(1) Surgeon-Lieutenant E. S. Peck, M.B., B.S.

(2) Surgeon-Lieutenant C. D. Dawes.

The 22nd October, 1896.

No. 353.—The following rules for quarantine against plague which have been made by the Bombay Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The rules have effect from the 3rd October 1896, as a temporary measure in the Ports of Aden, Perim and the Somali Coast:

I.—The Commander of every vessel, including buggalows or other native craft, arriving at Aden, Perim and the Somali Coast from Assyr between Lith and Lohaja shall, before entering the harbour, hoist a yellow flag (or if entering a port at night time, show whatever quarantine light signals are customary in the port) and indicate by signal the port from which such vessel has come, and shall keep such flag and signals flying until permitted to take them down as hereinafter provided. The pilot on going alongside a vessel from Assyr between Lith and Lohaja shall direct the flag prescribed above to be hoisted, if it has not already been done.

II.—Such Commander shall not, without first having obtained permission as hereinafter provided, allow any communication, except orally, with the shore or any other vessel or boat, excepting with the boat supplying pilots, and in that case communication shall be limited to receiving on board the pilot, his servant and baggage.

III.—On any such arrival being signalled, the Health Officer of the port shall, as soon as possible, go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague, and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, and if the ship carries a qualified Medical Officer, quarantine shall be dispensed with, and pratique granted.

If the vessel does not carry a qualified Medical Officer, he shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified by the Resident, and there to remain for a period of eight clear days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels and boats in the harbour.

IV.—If the Health Officer, as the result of the enquiry made under paragraph III above, shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days' intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of termination of the last case either by death, recovery or removal from the vessel, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of eight days, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period,

they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim and the Somali Coast, which may have communicated with vessels coming from Assyr between Lith and Lohaja, shall be subjected to the same rules as vessels arriving at Aden, Perim and the Somali Coast from Assyr between Lith and Lohaja.

No. 354.—The following rules for quarantine against plague which have been made by the Bombay Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The rules have effect from the 13th October 1896 as a temporary measure at the port of Karachi :

I.—The Commander of every vessel, including buggalows or other native craft, arriving at Karachi from Bombay shall, before entering the harbour, hoist a yellow flag (or if entering a port at night time, show whatever quarantine light signals are customary in the port) and indicate by signal the port from which such vessel has come, and shall keep such flag and signals flying until permitted to take them down as hereinafter provided. The pilot on going alongside a vessel from Bombay shall direct the flag prescribed above to be hoisted, if it has not already been done.

II.—Such Commander shall not, without first having obtained permission as hereinafter provided, allow any communication, except orally, with the shore or any other vessel or boat, excepting with the boat supplying pilots, and in that case communication shall be limited to receiving on board the pilot, his servant and baggage.

III.—On any such arrival being signalled, the Health Officer of the Port shall, as soon as possible, go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague, and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, and if the ship carries a qualified Medical Officer, quarantine shall be dispensed with, and pratique granted.

If the vessel does not carry a qualified Medical Officer, he shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified by the Commissioner in Sind, and there to remain for a period of eight clear days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels and boats in the harbour.

IV.—If the Health Officer, as the result of the enquiry made under paragraph III above, shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days' intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of termination of the last case either by death, recovery or removal from the vessel and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Commissioner in Sind as places of quarantine, there to remain for a period of eight days, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Karachi which may have communicated with vessels coming from Bombay, shall be subjected to the same rules as vessels arriving at Karachi from Bombay.

The 23rd October, 1896.

No. 359.—The following rules for quarantine against plague which have been made by the Bengal Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The rules have effect from the 21st October 1896, as a temporary measure, at the Port of Calcutta:

I.—The Commander of every vessel, including buggalows or other native craft arriving from Bombay, shall, on arrival at the Sandheads, hoist a yellow flag, and indicate by signal the port from which she has come, and shall keep such flag and signal flying until permitted to take it down as hereinafter provided. The pilot on going alongside a vessel from Bombay shall direct the flag prescribed above to be hoisted if it has not already been done.

II.—The Commander shall not, without first having obtained permission as hereinafter provided, allow any communication except orally with the shore or any other vessel or boat, excepting only with the boat supplying the Pilots* from the Pilot Brig, and in that case communication shall be limited to receiving on board the Pilot, his Leadsman, servant and baggage.

* *N.B.*—Pilotage is compulsory for all vessels over 100 tons in the Port of Calcutta.

III.—If there is any case of sickness on board, and the Pilot has reason to believe that it is plague, he shall telegraph to the Port Officer from Saugor, and not proceed beyond Diamond Harbour without the permission of the Port Officer.

IV.—If the Pilot has no reason to believe that there is any one suffering from plague on board, he shall bring the vessel up the river to Mateeabrooj, and shall anchor it there till the Health Officer has visited it.

V.—The Health Officer, as soon as he has received information of the arrival of the vessel at Mateeabrooj, shall visit it, and ascertain by enquiry from the Commander or the Medical Officer on board, or other sources of information, whether any person on board is suffering or has suffered from plague.

VI.—If the Health Officer is satisfied that no one is suffering from plague, or has suffered from plague since the vessel left Bombay, and if the vessel has been allowed pratique at any intermediate port including Colombo, he shall allow the passengers to land, but shall detain the vessel at Mateeabrooj till such measures have been taken for the disinfection of the mails and cargo and hold as he may consider necessary.

VII.—When he is satisfied that the necessary measures have been taken for the disinfection of the mails, cargo and hold, he shall allow the mails and cargo to be landed, and shall by writing under his hand, to be delivered to the Commander, permit such

vessel to haul down the yellow flag, and to proceed upwards in the Port, and to hold free communication with the shore and with vessels and boats in Port.

VIII.—If the vessel has not been allowed pratique at Colombo or other intermediate ports, or if through her not carrying a qualified Medical Officer, or for other reasons, the Health Officer is not satisfied that no one on board has suffered during the voyage from plague, he shall direct the Commander to take the vessel to the quarantine anchorage at Mateeabrooj or elsewhere duly appointed by the Port Officer, there to remain for a period of eight days from the date of arrival in harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels or boats in the harbour.

IX.—If the Health Officer, as the result of the enquiry made under paragraph V above, shall have reason to believe, at the time when the vessel arrives in the harbour, that any person on board is suffering from plague, or if during the time the ship is in quarantine at Mateeabrooj under Rule VIII, any case of the disease breaks out, he shall direct the Commander to take the vessel to the quarantine anchorage at Diamond Harbour or elsewhere duly appointed by the Port Officer, there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days, intercourse between the vessel detained under this Rule, or Rule III, and the shore or other vessels or boats in the harbour, shall be prohibited as provided in Rule II.

X.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule IX.

XI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Port Officer as places of quarantine, there to remain for a period of eight days if under Rule VIII, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

XII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

PORT BLAIR.

The 20th October, 1896.

JUDICIAL.

No 1160.—In exercise of the powers conferred by section 25 of the Cantonments Act (XIII of 1889), the Governor-General in Council is pleased to extend to the Cantonment of Poona the provisions of section 434, sub-section (*1*), and section 473 of the City of Bombay Municipal Act (III Bo. C. of 1888) in the modified form set forth below, namely;—

"(1) In the event of the Cantonment of Poona being at any time visited or threatened by an outbreak of any dangerous disease among the inhabitants thereof, the General Officer of the Command, if he thinks that the provisions of the law at the time in force are insufficient for the purpose, may, with the previous sanction of the Local Government,—

(*a*) take such special measures, and

(*b*) by public notice, prescribe such temporary regulations to be observed by the public or by any person or class of persons,

as he may think necessary to prevent the outbreak of such disease or the spread thereof.

"(2) Whoever commits a breach of any such temporary regulation prescribed as aforesaid shall be deemed to have committed an offence punishable under section 188 of the Indian Penal Code."

XLV of 1860.

Connan, W.	Superintending Engineer, 2nd Class	Superintending Engineer, 1st Class	Temporary	8th September 1896
Groves, E.	Superintending Engineer, 3rd Class	Superintending Engineer, 2nd Class	Sub *pro tem*	8th September 1896
Harington, H. S.	Superintending Engineer, 3rd Class, temporary rank	Superintending Engineer, 3rd Class	Sub *pro tem*	8th September 1896

No. 442.—Mr. J. H. M. Smith, Executive Engineer, 3rd Grade, State Railways, Officiating Assistant Secretary to the Government of India in the Public Works Department, is transferred to the establishment under the Director General of Railways, for employment on the Oudh and Rohilkhand Railway, as Assistant Manager.

No. 443.—That portion of Notification No. 430, dated the 16th October 1896, regarding the transfer of Mr. P. C. Mole, Deputy Examiner of Accounts, to the Eastern Bengal State Railway, is hereby cancelled.

No. 444.—On the return to duty of Major E. A. Waller, R.E., Mr. F. G. Heaven, officiating Examiner of Guaranteed Railway Accounts, Madras, is posted to the Office of the Government Examiner of Accounts, East Indian Railway.

No. 445.—Mr. J. B. Braddon is, on return to duty, appointed to officiate as Deputy Accountant General, Public Works Department, for inspection duty.

TELEGRAPH.

The 21st August, 1896.

No. 433.—The Governor General in Council is pleased to order the following reversion in the Superior Establishment of the Indian Telegraph Department, with effect from the date specified:

Name.	From	To	Date.
Mr. R. L. D. Gompertz	Chief Superintendent, Class IV, temporary.	Superintendent, Class V, 1st Grade.	15th September 1896.

The 23rd October, 1896.

No. 437.—The following is published for general information:

No. 817 R. T., dated Simla, the 19th October, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules for all open lines of railway in British India, administered by the Government, therewith promulgated.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Letter from the Director General of Railways, No. 517 T., dated the 13th October 1896.

OBSERVATIONS.—The Director General of Railways has applied that the General Rules for working open lines of railway in British India, administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated 22nd May 1896, published under Public Works Department notification No. 257, dated the 28th May 1896 (*vide* the *Gazette of India* of the 30th May 1896), may be made applicable to the Burhwal-Daliganj and Lucknow-Cawnpore sections of the Cawnpore-Lucknow-Gogra metre gauge railway.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules for working open lines of railway in British India, administered by the Government, which are cited in the foregoing observations, to the Burhwal-Daliganj and Lucknow-Cawnpore sections of the Cawnpore-Lucknow-Gogra metre gauge Railway from the respective dates on which they may be opened for the public carriage of passengers, animals or goods.

ORDER.—Ordered, that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Director General of Railways, for information and guidance.

No. 438.—The following is published for general information :

No. 828 R. T., dated Simla, the 21st October, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules for all open lines of railway in British India administered by the Government, therewith promulgated.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Letter from the Consulting Engineer to the Government of India for Railways, Lucknow, No. 4200, dated the 29th September 1896, forwarding letter from the Agent, Bengal and North-Western Railway Company, No. 7022, dated the 24th September 1896.

Letter from the Consulting Engineer to the Government of India for Railways, Lucknow, No. 4206, dated the 29th September 1896, forwarding letter from the Agent, Bengal and North-Western Railway Company, No. 6987, dated the 24th September 1896.

OBSERVATIONS.—The Agent, Bengal and North-Western Railway Company, has applied that the General Rules for working open lines of railway in British India, administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated 22nd May 1896, published under Public Works Department notification No. 257, dated the 28th May 1896 (*vide* the *Gazette of India* of the 30th May 1896), may be made applicable to the Bengal and North-Western Railway, its branches and extensions and the lines worked by it.

RESOLUTION.—The Governor General in Council is pleased to sanction, with effect from the 1st November 1896, the application to the Bengal and North-Western Railway, and the lines worked by it which are open for traffic and to the Bhatni-Turtipur branch and Nanpara-Katania Ghat extension from the dates on which they may respectively be opened for the public carriage of passengers, animals or goods, of the General Rules for working open lines of railway in British India, administered by the Government, which are cited in the foregoing observations, in supersession of the rules now in force.

ORDER.—Ordered, that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered also, that this resolution be communicated to the Consulting Engineer to the Government of India for Railways, Lucknow, for information and guidance.

W. S. S. BISSET, *Colonel, R.E.,*
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, October 17th, 1896.

The barometer has read above the normal almost everywhere throughout the week under review. The abnormal excess has been slight in the north of India, but has been considerable to large in the south. This excess of pressure has been accompanied with generally fine weather, and the only region where there has been any considerable rainfall has been Burma. In this province during the first four days of the week variable winds prevailed with scattered showers of rain, mostly accompanying thunderstorms, but on Thursday, the 15th, southerly winds set in, which were probably connected with a slight advance of the monsoon current up the Malay Peninsula and Tenasserim. These winds gave general rain, which extended as far north as Kindat and Bhamo, the amounts received being in several cases considerable. In the Peninsula a few scattered showers only have been received At first these were due either to local causes or to the existence of unsettled conditions to the south of the Indian region, but on the 15th and 16th a slight low pressure area appeared over the south-west of the Bay, which drew the retreating south-west monsoon into north-east and on to the Madras Coast, and gave showers to Masulipatam, Nellore, Madras and Tinnevelly. On these two days it appeared as though the usual conditions were about to be established over the Bay and the Madras coast districts, but on the following day the barometer was rising over the Bay, and the promising conditions were disappearing. In all other parts of India the weather has been steadily fine and dry and the mean temperature excessive

Daily Summary.—*Sunday, October 11th*—The barometer was falling in western and rising in eastern India. The changes were slight or small, except at Mooltan, where the fall had been brisk. Pressure was very uniform generally, but was slightly lower over north-western India and over Burma than on other parts of the Indian region. The winds were variable and light and calms numerous. The mean temperature was low in south-west Bengal, high in the west coast districts and nearly normal elsewhere. Some scattered rainfall was reported over Lower Burma and Arakan and a few showers from the south of the Peninsula.

Monday, October 12th—The barometer had risen everywhere, the change over a large part of the country having been brisk. The low pressure area over north-western India had developed somewhat and exhibited a slight central area near Mooltan, but that over Burma had almost filled up. The winds were feebly cyclonic in the north-west and were very variable elsewhere. The mean temperature was slightly lower than usual over south-west Bengal and the Central Provinces, as well as over Kathiawar, but was excessive elsewhere. Moderate rain had fallen at a few stations in Lower Burma, in the south of the Peninsula and in Ceylon.

Tuesday, October 13th.—The barometer had changed slightly and irregularly. The low pressure area in the north-west had passed eastward and extended to part of the Gangetic Plain, while that over Burma was slightly larger than on the 12th, but neither system exercised any important influence on the weather. The winds were irregular everywhere. The force had, however, been fresh at some of the north-western hill stations. The mean temperature was

low over the Indus Valley and the east of the Peninsula and excessive elsewhere. Rain had been received in Lower Burma and moderate showers in Ceylon, and a few drops of rain had fallen in Kashmir.

Wednesday, October 14th.—The pressure changes continued slight or small. The low pressure area in the north had continued to drift slowly eastward down the Gangetic Plain, while, on the contrary, the low pressure area over Burma was moving westward out into the Bay. The pressure differences remained very slight, and the principal feature in the pressure distribution was its extreme uniformity. Westerly winds prevailed down the Gangetic Plain and north-westerly winds over the Peninsula, but elsewhere the directions were very variable. The force was light or moderate. The mean temperature was excessive, except in Baluchistan and the Indus Valley. Rain had again occurred over Lower Burma, the south of the Peninsula and Ceylon, but was confined to these regions.

Thursday, October 15th.—The barometer had risen over Burma, been steady over Bengal and the Gangetic Plain and fallen slightly elsewhere. A high pressure area had appeared over Tenasserim and Lower Burma and a slight low pressure area over the south-west of the Bay, but these were the only changes of importance. Pressure generally remained very uniform. Southerly and south-easterly winds had appeared in Burma, and the wind was shifting towards north along the Madras Coast, but there was no other change of importance. The mean temperature was low over Lower Burma, Orissa and Ganjam, but remained excessive generally. There had been a sudden extension of rain over Burma, and between one and two inches was received over Lower Burma and showers over Upper Burma. Some scattered showers were reported from the Peninsula and Ceylon.

Friday, October 16th—Pressure had increased briskly over the west of the Punjab and Upper Sind and decreased briskly in Malabar, but elsewhere the changes were slight. The low pressure area over the south-west of the Bay was better defined, but this was the only change of consequence. South-easterly winds continued in Burma, and the wind had become more generally northerly on the Madras Coast and was increasing slightly in force. The mean temperature was low over Burma, south-west Bengal and the extreme north-west of India and Baluchistan. Rain had been received over nearly the whole of Burma, the only stations not reporting showers being Tavoy and Bhamo. Light snow had fallen in Kashmir and light rain showers in the south of the Peninsula.

Saturday, October 17th—There had been a further brisk rise of the barometer over the Indus Valley, but elsewhere the pressure changes remained slight. The low pressure area over the south-west of the Bay had, however, disappeared. Readings were relatively high over Tenasserim and over the extreme north-west of the Punjab and were very uniform in other places. South-south-east winds continued to blow over Burma, and north-easterly winds had commenced on the central Madras coasts. The force was, however, still light or moderate everywhere. The mean temperature remained low over Burma and the extreme north-west of India. Burma had again received general rain, and the north-east winds on the Madras Coast had given showers to Masulipatam, Nellore, Madras and Tinnevelly.

Temperature.—On the first day of the week the mean temperature was fairly normal, but on the 12th a rise set in and the mean was excessive throughout the rest of the week. The hottest area has been shown steadily during the week over the Central Provinces, Central India, Khandesh and the central parts of the Peninsula, and within this region the excess has been daily more than 5°. As was the case last week, the days have been hotter than usual in all parts of the country, while the nights have been almost equally generally cooler than usual.

The following table gives the variations of the mean temperature from the normal in the different provinces of India :

PROVINCE.	October 1896.							Mean variation of week.
	11th	12th	13th	14th	15th	16th	17th	
	°	°	°	°	°	°		
Burma	+1·1	+1·9	+0·5	+1·2	−0·4	−1·8	−1·2	+0·2
Bengal and Assam . .	+0·2	+0·5	+0·7	+0·8	+0·8	−0·7	+0·5	+0·4
North-Western Provinces and Oudh	+0·2	+0·9	+1·3	+1·9	+1·5	+0·5	+0·7	+1·0
Punjab	+0·4	+2·3	+1·6	+0·8	+0·6	+1·3	+1·6	+1·2
Bombay	+2·3	+1·8	+2·4	+2·1	+2·7	+2·7	+3·0	+2·4
Central Provinces and Berar	+0·1	+0·5	+1·0	+2·3	+3·0	+3·0	+2·4	+1·8
Central India and Gujarat .	+0·2	+0·1	+1·1	+1·4	+2·0	+2·1	+1·8	+1·2
Sind and Rajputana . .	+0·5	+1·2	+1·4	+0·2	−0·4	+0·7	+0·9	+0·6
Madras	+0·2	+0·9	+1·4	+2·6	+1·8	+1·4	+2·6	+1·6
Mean for whole of India	+0·6	+1·1	+1·3	+1·5	+1·3	+1·0		+1·2

The mean temperature of the whole country was excessive on each day of the week, the variation ranging from 0°·6 on the 11th to 1°·5 on the 14th. The provincial variations exhibit an excess for the week in all provinces, but in Burma, Bengal, Assam, Sind and Rajputana the excess was unimportant. The hottest area was Bombay.

The following were the highest temperatures recorded throughout India on each day of the week and their variations from the normal maximum of the day :

October	11th	Jacobabad	101°·5	+ 1°·1
,,	12th	,, ...	102°·5	+ 2°·0
,,	13th	Sirsa	101°·8	+ 3°·7
,,	14th	Cawnpur	101°·4	+ 2°·2
		Allahabad	100°·6	+ 10°·3
,,	15th	Hyderabad Sind	102°·7	+ 3°·6
,,	16th	Montgomery	100°·4	.
,,	17th	Deesa	100°·4	+ 3°·5

Rainfall.—During the week under review the rainfall of India has been extremely light and confined to two districts, *viz.*, Burma and the southern half of the Peninsula. During the first four days of the week the rainfall occurred in these two localities as scattered showers falling mainly during thunderstorms, but on the last three days a change occurred. An advance of monsoon winds apparently took place along the coast of the Malay Peninsula. A portion of this current passed northward over Burma and gave general rain to that province. On Thursday there was a fall of about one inch from Tavoy northward to Toungoo, over the dry region represented by the stations of Minbu and Yamethin there was only a fall of 0·20 inch, but further north at Mandalay and Taunggyi there was moderate rain. On Friday the fall became more general, and rain was reported from all places, except Tavoy and Bhamo, though in the dry regions of Upper and Central Burma the amount received was generally small. On Saturday there was again general rain, and on this day the amounts were larger in the dry areas. Another portion of the monsoon current appears to have traversed the Bay, and curving round struck the Madras Coast as a north-east wind. This portion of the advance was very slight and feeble, but gave rain to Masulipatam, Nellore, Madras and Tinnevelly. In all parts of India, except Burma and the Peninsula, the weather was fine almost throughout and no rain whatever was received, except in the Assam Valley and Bengal (proper), where one or two light local showers were reported. The concluding table gives the rainfall data.

Effective rain was received in eleven of the rainfall divisions, *viz.*, all the Burma divisions, Assam (Brahmaputra), Malabar, Madras (South-Central), Coorg, the East Coast (South) and Madras (South), and a few drops of rain were received in East Bengal, Deltaic Bengal, Central Bengal, North Bengal, Mysore, the Bombay Deccan and the East Coast (Central). Except in these divisions no rain whatever was reported. In Burma the average actual rainfall varied between 1·45 inches in Upper Burma to 3·83 inches in Tenasserim, and in Malabar and Madras (South) the average fall was about 1·30 inches, but these were the largest amounts, and in all other divisions the rainfall was probably unimportant. The third column of the table shows that the average actual rainfall was in excess of the average normal fall all over Burma by amounts varying from 0·69 inch in Central Burma to 1·63 inches in Tenasserim, but that in all other parts of the Indian region, even where rain fell, the amount was less than usual. The greatest deficiency was 2·40 inches in the East Coast (Central), but all over Assam, Bengal (proper) and the greater part of the Peninsula the deficiency exceeded one inch. In Upper India the anticipated fall is very small, in many cases less than 0·10 inch, and the absence of rain is only important on account of the long preceding drought.

The three concluding columns show the state of the seasonal rainfall, and with the present table is closed the monsoon period of 1896. The concluding column shows that the rainfall has been excessive, *i.e.*, more than 20 per cent. in excess only in Lower Burma, Orissa, Madras (South-Central), Coorg, the Bombay Deccan and the Central Provinces (East), and it must not be forgotten that even in these cases of excess the heavy rainfall which occasioned it occurred early in the season, and that the cessation of the monsoon occurred unusually early. In the following divisions the rainfall of the season has been about normal, *i.e.*, has varied by 20 per cent. or less from the average, *viz.*, Tenasserim, Central Burma, Arakan, Deltaic Bengal, Bengal Hills, Chota Nagpur, Punjab (Hills), the Punjab (North), Malabar, Mysore, the Konkan, Khandesh, the Central Provinces (Central and West), Gujarat, Kathiawar, Sind, Baluchistan, Central India (East), Rajputana (West), the East Coast [North and North (*a*)], the East Coast (Central) and Madras (South). In all the remaining divisions the rainfall has been short by amounts exceeding 20 per cent., and in the case of Oudh (South), of the North-Western Provinces (Central), of the Punjab (South and West) and Madras (Central) by amounts exceeding 40 per cent.

Some of the most marked cases of deficiency in the districts which form the rainfall divisions are as follows:—The Khasia and Jantia Hills received only 116 inches, which was 78 inches less than the normal; Jalpaiguri 72 inches, which was 32 inches short; Rai Bareilly 15 inches, which was 18 inches short; Mainpuri 13 inches, which was 18 inches short; Ferozepore 5 inches, which was 8 inches short; and Muzaffargarh and Dera Ghazi Khan which received no rain throughout the monsoon season.

PROVINCE.	DIVISION.	Rainfall data for week ending October 17th, 1896.			Rainfall data from May 31st to October 17th, 1896.

W. L. DALLAS,

Asst. Meteorological Reporter to the Government of India.

SIMLA, *22nd October, 1896.*

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 17th October.*—Rainfall *nil* in the Circars, Deccan and Carnatic, except a few scattered showers in Nellore and South Arcot. Moderate falls on the West Coast, in the Southern districts and Trichinopoly, and light showers in the rest of the Central districts. Rain is urgently required everywhere. The water-supply is generally insufficient for irrigation, except in Madura. Agricultural operations have been retarded, except in the Southern districts. The standing crops are withering over large areas in the Deccan and parts of the Circars and Carnatic, and are in fair condition only in the Southern, and West Coast, and parts of the Central districts. Pasture is wanting in many places and is decreasing in others. Supplies of fodder are getting exhausted, but cattle are generally in good condition. Prices have again risen sharply in the Circars and Deccan and also in Nellore, and slightly in the remainder of the Carnatic and in North Arcot and Salem as well as on the West Coast; elsewhere prices are steady or easier. Rice and some dry grains are dearer than warning rates in the Circars and Deccan, whilst in the latter the principal dry-grain is approaching the scarcity rate in Bellary and Kurnool and has exceeded it at some stations. The rise is partly caused by the anticipated demand for export northwards.

Bombay.—*For week ending 21st October.*—Slight rain in parts of Belgaum, Dharwar and Kanara; no rain elsewhere. More rain is urgently wanted everywhere for the late sowings. The standing crops have withered or are withering in fourteen districts, and the crops have been damaged by locusts or other causes in Sindh and by insects in Kolaba, Ahmednagar and Sholapur. Preparations for the late crops or sowings are progressing in eleven, and reaping of the early crops in twelve, districts. Cotton-picking continues in Khandesh. Water is deficient in Hyderabad, Sholapur and Belgaum. Fodder is insufficient in nine districts. Agricultural stock are healthy, except in five districts. Prices are rising generally.

Bengal.—*For week ending 19th October.*—There was no rain during the week with the exception of showers at Rungpur, Pubna, Noakhali, Chittagong and Jhenidah in Jessore. Rain is urgently needed all over the province. The winter rice crop has already suffered severely in all but a few districts for want of rain and the spring sowings are in many places retarded from the same cause. In Cuttack the insects which had been infesting the rice crop are disappearing, but they are still doing damage in Balasore. The harvesting of early rice, and the washing of jute are still proceeding in some districts. The price of common rice is unusually high and is said in several districts to be rising owing to heavy exports.

North-Western Provinces and Oudh.—*For week ending 21st October.*—The weather continues fine. Detailed reports of the autumn crops so far as harvested show that the outturn is generally good in the Meerut division and

better than was expected in the Benares and Rohilkhand divisions, but in the rest of the provinces, a few localities excepted, the early autumn crops have very largely failed, while the prospects of the later autumn crops are very bad. Rain is most urgently wanted for the spring sowings which are greatly retarded. Irrigation in the canal districts is most active and *kachcha* wells are being largely made from advances which are being liberally distributed. Flights of locusts have caused damage in some districts. The numbers on relief have increased; they stood as follows on 17th October: Banda 3,570, Hamirpur 3,927, Jhansi 1,188, Jalaun 1,365, Hardoi 5,917, Allahabad 1,689—total 17,657; of these 767 were dependants particularly relieved on the works and 12,051 were gratuitously relieved in poor houses and under other provisions of the Famine Code. Prices are high and are rising.

Punjab.—*For week ending 21st October.*—No rain. Harvesting of the autumn crops and picking of cotton are progressing in most districts. Threshing has commenced in Jullundur. Ploughings for and sowings of the spring crops have commenced in certain districts. Rain is badly wanted throughout the province. The irrigated crops are reported to be in fair condition in Hissar and Amritsar, but are below average in Rohtak, owing to insufficiency of water. Their condition is average in other districts. The prospects of the crops dependent on rain are very poor throughout the province. The stock of food-grains is insufficient in Hissar, Jullundur, Rawalpindi and in parts of Ferozepore, Amritsar and Shahpur and average in Peshawar. It is holding out so far in Gujranwala, but conditions generally are grave and threatening. The prices now ruling are being felt by the poor in Jullundur, but no general distress is apparent. The *sailaba* flood crops have been destroyed in Hissar for want of water and the irrigated crops in parts of Ferozepore by insects. Sugarcane, maize and millet are said to have been damaged by caterpillars in parts of Lahore, and a flight of locusts also passed over one tahsil, but did no damage. Cattle are reported to be in poor condition in Hissar, Jullundur, Ferozepore, Sialkot, Lahore and Gujranwala for want of fodder. They are dying of starvation in parts of Ferozepore. Fodder is scarce in most districts. It is sufficient in Rohtak, but dear; it is also sufficient in Hissar, Mooltan and Peshawar. The aggregate number of persons employed on relief works in Gujrat on Saturday, the 10th October, inclusive of non-working children, was 4,732. Three hundred men were employed on test works in Karnal. It is also reported that relief works will soon be commenced in Hissar. Prices are ruling high throughout the province and are still rising in Delhi, Rohtak and Gujranwala. Wheat is selling from 8 to 11¼ seers, *bajra* (Bulrush millet) 8 to 12 seers, gram 9 to 11 seers, maize 11½ to 14 seers, rice 7¾ to 9 seers, and *jowar* (Great millet) 11 to 12½ seers per rupee.

Central Provinces.—*For week ending 21st October.*—No rain. The weather is clear with slight cloud at places on the 20th. The days are unusually hot, but the nights are cool. The autumn crops continue to wither and the damage increases daily. Lower outturns are now estimated in Mandla and Sambalpur, but in the rich black soil area of Jubbulpore a yield of 8 to 10 annas is anticipated, which exceeds previous expectations. Cotton is suffering in Chhindwara, but picking has commenced in one tahsil of Wardha. Sowings of the spring crops are in progress in most districts, but within restricted areas where moisture suffices. In Chanda, Seoni and Balaghat these operations have come practically to a standstill owing to the hardness of the soil. Germination

is reported deficient in Saugor and the young seedlings are endangered in Betul. Scarcity of fodder is apprehended in Hoshangabad and Wardha. Prices are very high and have risen in Hoshangabad and Nimar. Gram has reached 9½ seers in Saugor. In Chanda rice is selling at 7½ seers to the rupee and in Bilaspur, another rice growing tract, at 9 seers which is double the average of the past three years. Test relief works have been started in Raipur, Bilaspur and Jubbulpore, and similar measures will probably be required before long in other districts to the north of the provinces.

Burma.—*For week ending 17th October.*—In Lower Burma rain has fallen in all districts. Replanting of low-lands in Amherst is nearly completed. Reaping of early paddy has commenced in Tavoy. Prospects are good, but more rain is wanted in parts of Prome. In Upper Burma reaping of early paddy, transplanting of wet-weather paddy, and ploughing for and sowing of the dry-weather crops continue. Island cultivation has commenced. Rain fell in all districts and has benefited the standing crops, especially in the dry zone. The crops are withering in the Singu township of Mandalay, in parts of Katha and in Upper Chindwin and are backward in the riverain tract, the Ruby Mines and in parts of Pakkoku. In Meiktila the number on relief works was 425 and on gratuitous relief 43. In Yamethin the total number on relief works was 1,086. The price of paddy has risen slightly in Myaungmya and nearly 20 per cent. in Mandalay; elsewhere prices are stationary.

Assam.—*For week ending 20th October.*—The weather is hot. More rain is wanted in Cachar, Sylhet, Kamrup and Nowgong where the prospects of the crops are unsatisfactory. Transplanting of late rice is finished. Ploughing for the mustard crop continues. The condition of cattle is fair. Fodder and water are sufficient.

Mysore and Coorg.—*For week ending 21st October.*—MYSORE.—Slight rain in parts of Kadur and Shimoga. The standing crops are generally good, except in parts where rain is needed. Prospects are fair. Prices have risen in the Bangalore, Kolar, Tumkur, Mysore and Chitaldrug districts.

COORG.—Rainfall moderate. The rice crop is in good condition. Reaping of *ragi* (*Eleusine coracana*) and picking of cardamoms continue. The price of food-grains is normal. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 21st October.*—BERAR.—The weather is warm. No rain during the week. The standing crops are in fair condition on black soil, but the crops on high land and rocky soil are withering for want of rain. Preparation of the land for the ensuing winter crop is in progress. Sowings of wheat, linseed and gram continue. Fodder and water are generally insufficient. High prices for food-grains prevail, and relief works appear necessary in Akola and Amraoti.

HYDERABAD.—No rain. The autumn and irrigated crops are withering. Prospects of the spring crops depend entirely upon the north-east monsoon. The water-supply is decreasing. Fodder is scarce. Prices are rising.

Central India.—*For week ending 21st October.*—No rain fell during the week. Rain is badly wanted everywhere. The spring sowings have commenced

in Malwa and continue in Bhopawar, but they are retarded in Bundelkhand. The autumn crops have been damaged for want of rain in all Agencies. The condition of agricultural stock is fairly good. Prices are above normal and are rising throughout Central India. The numbers employed on relief works in Bundelkhand were 906 and on gratuitous relief 1,196. The figures for Gwalior and Baghelkhand have not been reported.

Rajputana.—*For week ending 21st October.*—No rain. Agricultural operations are unsatisfactory in Dholpur and Jaisalmere. The unirrigated crops are good in Pertabgurh and Jhallawar, fair in Shahpura, Serohi, Meywar and Kotah, but have withered elsewhere or have been damaged for want of rain which is badly wanted for the standing crops and for the spring crops. The harvest is good in Shahpura and average in Ajmere-Merwara, fair in Serohi and part of Marwar, unfavourable in Jeypore, poor or not good elsewhere. Sesamum, *moong* (*Phaseolus mungo*) and *kolath* in Serohi, rice and small grain in Kherwara and *jowar* (*Sorghum vulgare*) in Jhallawar have been damaged. Considerable damage has been done by locusts in the eastern pergana of Jaisalmere. Locusts also appeared in Bhurtpore city and some tehsils. Cattle are generally in good condition. Pasturage and fodder are failing in Dholpur, Bhurtpore and Jaisalmere; scarce in Tonk, Ulwar and parts of Meywar and Jeypore. Prices of grain are ruling high generally, but are falling in Serohi. Test relief works have been ordered to be opened in six tehsils of Bhurtpore and have been opened in parts of Bikanir. The numbers on relief works were:—Dholpur 1,500; Jaisalmere 87. The figures for Sironj, Tonk State, have not been reported. During the week 1,024 persons with 1,320 head of cattle left Jaisalmere for Marwar, Sindh and Bikanir.

Kashmir.—KASHMIR VALLEY.—*For week ending 20th October.*—The weather is cloudy. Threshing of the rice and maize crops is going on. Sowings of the spring crops are still in progress in a few places. Prices continue normal.

JAMMU PROVINCE.—*For week ending 14th October.*—No rain. The autumn crops are suffering. Cattle are in good condition. Fodder is scanty. Prices are rising.

For week ending 21st October.—Report not received.

Nepal.—*For week ending 17th October.*—The weather is fine and pleasant. Harvesting of low-land rice has commenced.

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

Publisher, Gazette of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 15th October 1896.

NOTIFICATIONS.

No. 2946 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, during the week ending 10th October 1896, under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888:—

No. 346 of 1896.—Messrs. Redlhammer, Brothers, manufacturers, of Gablonz, Bohemia, for improvements in bracelets, necklaces, and the like.

No. 347 of 1896.—Shaikh Karim Bakhsh contractor, son of Shaikh Husain Bakhsh, residing at Turkman gate, Delhi, for improvements in sugar-cane mills.

No. 348 of 1896.—Andrew Pillatt, of the firm of A. Pillatt and Company, furnace engineers, of Queen's road works, Queen's road, in the town and county of the town of Nottingham, for improvements in furnaces, and in rocking grate-bars for the same.

No. 349 of 1896.—Charles Tellier, civil engineer, of 74, Rue d' Auteuil, Paris, for improvements in the manufacture of ice, and in the production of cold, and in apparatus therefor

No 350 of 1896.—Romeo Grilli, cycle manufacturer, of 15 Sumskaia, Charkov, Russia, for improvements in or relating to bicycles.

No. 351 of 1896—Walter Augustus Gaskins, gentleman, of Cheltenham, in the county of Gloucester, for improved chair wedges for railways and tramways.

No. 352 of 1896.—John Melrose Arnot, F.C.S., of Bally, Uttarpara, Calcutta, for improvements in or connected with the closing of boxes, jars, canisters, and the like.

No. 2947 P.—A SPECIFICATION of the undermentioned invention has been filed under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888. Copies have been sent to the Governments of Fort St. George and Bombay, the Chief Commissioner of Burma, and the Director, Department of Land Records and Agriculture, North-Western Provinces and Oudh. A copy of every specification is open to public inspection, from 11 A.M. to 4 P.M., at the office of the Secretary, in the Imperial Secretariat Buildings, Government Place, West, Calcutta, upon payment of a fee of one rupee. A certified copy of any specification will be given to any person requiring the same on payment of the expense of copying:—

No. 83 of 1896.—Edmund Harry Cocksedge, engineer, Eagle foundry, Ipswich, England, for an improved noiseless punkah wheel, to be called the "Eclipse punkah wheel." (Specification filed 2nd October 1896.)

No. 2948 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 49 of 1890.—James Raper Thame, engineer, late of 3, Winders road, Battersea, in the county of Surrey, now of Two Waters mill, Boxmoor, in the county of Herts, for improvements in barrels, boxes, cases or receptacles or like articles manufactured from paper or like pulp, and in the means or apparatus employed in their manufacture. (From 30th October 1896 to 29th October 1897.)

No. 144 of 1891.—James Edward Platt, engineer, of Hartford Works, Oldham, in the county of Lancaster, and Joseph Wardle, machinist, of the same place, for improvements in machinery or apparatus for fixing or securing fasteners by means of which the card clothing is secured to the flats of carding engines for carding cotton and other fibrous materials. (From 7th October 1896 to 6th October 1897.)

No. 11 of 1892.—Edward Lennon Cantwell, civil engineer and patent agent, of No. 5, old Post Office street, Calcutta, for a vessel for holding or storing fluids under air pressure, which can be applied to various useful purposes. (From 2nd August 1896 to 1st August 1897.)

No. 82 of 1892.—Samuel Cleland Davidson, merchant, of Sirocco Works, Belfast, for improvements in the means or apparatus for transmitting rotary motion from one shaft to another revolving at right angles thereto. (From 11th October 1896 to 10th October 1897.)

No. 2949 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888) the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorising others so to do has ceased :—

No. 175 of 1891.—James Townsley Pearson's invention for improved means of and apparatus for humidifying fibrous substances. (Specification filed 4th July 1892.)

No. 235 of 1891.—Tom Sayers' invention for improvements in railway joint chairs. (Specification filed 7th July 1892.)

No. 245 of 1891.—Albany Washington Carr's invention for improvements in tobacco pipes. (Specification filed 4th July 1892.)

No. 247 of 1891.—John Edward Vaughan Foss's invention for a new or improved medicinal preparation for the cure of sea-sickness. (Specification filed 4th July 1892.)

No. 302 of 1891.—Robert Melville Scott's invention for improvements in methods of and apparatus for removing harbour and river bars and shoals and subaqueous sand-banks and other deposits of a like nature, and preventing the formation of the same, etc. (Specification filed 7th July 1892.)

No. 310 of 1891.—Charles F. Miller's invention for improvements in refrigerators. (Specification filed 8th July 1892.)

No. 328 of 1891.—Lewis William Shedden and William Geary Yeatman's invention for improvements connected with actuating punkahs. (Specification filed 7th July 1892.)

No. 27 of 1892.—Francis Teague's invention for improvements in electricity meters. (Specification filed 8th July 1892.)

No. 37 of 1892.—James Mackintire's invention for improvements in the manufacture of steel and iron. (Specification filed 9th July 1892.)

No. 38 of 1892.—James Howarth Parkinson's invention for improvements in extracting and utilising heat for motive power. (Specification filed 7th July 1892.)

No. 77 of 1892.—John Daper's invention for improvements in the method of and means for removing and preventing scales or incrustations in steam boilers, etc. (Specification filed 5th July 1892.)

No. 78 of 1892.—John Daper's invention for improvements in the mode of preventing scales or incrustations in steam boilers. (Specification filed 4th July 1892.)

No. 83 of 1892.—Johannes Leeman-Abderhalden's invention for improved punkah apparatus or machine. (Specification filed 7th July 1892.)

No. 101 of 1892.—John Tyack Sandell's invention for an improvement in the manufacture of sensitive plates and films or other media for photographic purposes. (Specification filed 4th July 1892.)

Fee in respect of the continuance of an exclusive privilege—

(a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the said inventions.

No. 46 of 1891.—Henry Bohls' invention for improvements in cigarette machines. (Specification filed 7th July 1891.)

Fee in respect of the continuance of an exclusive privilege—

(b) After the filing of the specification and before the expiration of the fifth year from the date of the filing thereof—

The sum of R50 for the said invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office, are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

A. T. PRINGLE,

Offg. Secy. under the Inventions and Designs Act, 1888.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1896, the price of this Quinine will be as follows.—

1-pound tin,	R18,	or, post free,	R18-12.
½	,,	R 9,	,,	R9-8.
¼	,,	R4-8,	,,	R5.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৬ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	.	১৮৲	বা ডাকমাশুল দিয়া	১৮৸৹
॥ আধ	" "	৯৲	"	৯৷৹
। সিকি	" "	৪৷৹	"	৫৲

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (Quarterly Nos. 1 to 5), bound R2, original price R18.

Quarterly Nos. 1, 2, 3, 4, and 5, at R1 each, original price R4 each.

Vol. II, Quarterly Nos. 6 and 7, at R1 each.

" III, " No. 13, R1.

" V, " Nos. 18, 19, 20, and 21, R1 each.

" VI, " Nos. 22, 23, 24, and 25, R1 each.

" VII, " Nos. 26, 27, 28, and 29, R1 each.

Extra No., April 1870, R1.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, VIII, IX and XI of the Series at R1 each.

Quarterly Number 41A of Vol. X, at R1 each.

Cloth covers for Volumes 1st and 2nd Series, at As. 8 each.

* These include Question Papers for entrance to Engineer and Upper Subordinate Classes and Reports Accounts Branch, Public Works Department.

(THIRD SERIES.)

Quarterly Numbers 8, 11, 12, 13, 14, and 15, at R1 each.

Index to Professional Papers, and loose Papers, 1st and 2nd Series, at Rs. each.

FERROTYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depôt. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of Admission to the different Classes of the College will be forwarded to applicants.

J. CLIBBORN, *Lieut.-Col., I.S.C.*,
Principal, Thomason College, Roorkee

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage.			With postage		
	R	a.	p.	R	a.	p.
For the Calcutta Series	10	0	0	12	8	0
" each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
" a part of the Calcutta Series purchased separately, *inclusive of postage in India*	..			2	0	0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.			For mofussil.		
	R	a.	p.	R	a.	p.
For the Calcutta Series; per copy . .	0	8	9	0	10	3
" each of the Madras, Bombay, and Allahabad Series; per copy . . .	0	5	3	0	5	9
" the Calcutta Series. For the year .	7	2	6	8	6	3
" each of the Madras, Bombay, and Allahabad Series. For the year . .	4	4	6	4	11	3

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance —

	One page.	*Half page.*	*Quarter page.*
For one issue . . .	R 26	R 14	R 9
" three issues . . .	" 55	" 36	" 24
" six " . . .	" 100	" 68	" 45
" nine " . . .	" 145	" 96	" 64
" twelve " . . .	" 180	" 126	" 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates —

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
Bengal Law Reports, for one year . .	20	0	0	22	8	0
Single copies, R2 per copy.						
Full Bench Rulings, Parts I and II . .	20	0	0	22	8	0

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, Rs22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

BOOKS AND PUBLICATIONS

FOR SALE BY THE

SUPERINTENDENT OF GOVERNMENT PRINTING, INDIA,

8, HASTINGS STREET, CALCUTTA.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

CIVIL WORKS.

Irrigation.

REVIEW OF THE REVENUE AND EXPENDITURE RECODRED UNDER THE HEAD "IRRIGATION WORKS" IN THE ACCOUNTS OF THE GOVERNMENT OF INDIA FOR 1894-95.

No. 191-I., dated Simla, the 23rd September 1896.

RESOLUTION—By the Government of India, Public Works Department.

READ—

Note by A. R. BECHER, Esq , Officiating Accountant General, Public Works Department, upon the Accounts of Revenue and Expenditure of Irrigation Works in India for 1894-95

RESOLUTION —The Irrigation Works in India are divided into Major Works and Minor Works.

Major Works are sub-divided into—

(*a*) Productive Works, the capital of which has been provided from borrowed money.

(*b*) Protective Works, the capital of which has been provided from the General Revenue of India.

Minor Works, for the purpose of the Accountant General's note, are sub-divided into—

(*a*) Works for which Capital and Revenue Accounts are kept.

(*b*) Works for which Capital Accounts are not kept.

2. Capital and Revenue Accounts are kept for all Major Irrigation Works, of which there were 46 during 1894-95 as compared with 44 during the previous year. The two new Major Works are the Jamrao Canal in Sind and the Fatehpur Branch of the Lower Ganges Canal in the North-Western Provinces.

Of these 46 Works, 38 were sanctioned as Productive Public Works and 8 as Protective Works.

Under the head of Minor Works, there were 76 projects for which Capital and Revenue Accounts are kept as compared with 75 in the previous year.

The extra work is the Munniyeru Project on which there was no outlay during 1893-94.

For the remaining Minor Works one account only is kept in which are entered the receipts and charges for each work or group of works.

3. The following statement shows the return derived from the Irrigation system for which Capital and Revenue Accounts are kept. Purely navigation systems are excluded :—

Class of work	Number of works.	Direct and Indirect Capital outlay to end of 1894-95	Gross Revenue	Working expenses, including indirect charges	Net revenue	Irrigated area.	Percentage of net revenue on Capital outlay.
IRRIGATION		Rx	Rx	Rx	Rx	Acres	
I.—*Major Works*—

II.—*Minor Works*—							
Works for which Capital and Revenue Accounts are kept	‡70	3,003,492	§613,861	235,034	378,827	2,194,441	12·61
GRAND TOTAL	115	34,492,660	3,216,592	1,166,473	2,050,119	8,454,311	5·94

* Excludes the Hijili Tidal Canal (Bengal).

† Includes outlay on Gokak Canal, 1st Section, which is now classed as a Minor Work and combined with Gokak Storage Works.

‡ Excluding two navigation canals in Bengal (the "Calcutta and Eastern," and the "Orissa Coast" Canals) and four navigation canals in Madras (the Chilka Lake, Buckingham, Vedaranniyam, Ganjam-Gopalpur Canals).

§ Includes share due to old irrigation in Madras and in Sind.

4. The net revenue derived from Major Works as a whole was Rx. 39,204 more than that of the previous year.

The increase occurred principally in the Punjab and is due to extension of irrigation on the Western Jumna, Bari Doab and Chenab Canals.

The net revenue derived from Minor Works was Rx. 58,081 less than that of the previous year.

The decrease was chiefly due to a falling off of the net revenue from the Upper Sutlej Inundation Canals in the Punjab and the Cheyaru Anicut system in Madras.

On the Upper Sutlej Canals there was a decrease in net revenue of Rx. 9,490 due principally to the small rabi of the previous year and to heavy remission for the kharif of 1894 on account of damage to crops done by grass-hoppers. There was also an increase of Rx. 5,159 in working expenses due to certain liabilities incurred in the previous year having had to be met in 1894-95 and to Revenue having to bear an increased share of establishment charges.

On the Cheyaru Anicut system the decrease in net revenue was due to the net revenue during the previous year having been unusually large owing to the write back of expenditure on certain works from Revenue to Capital.

The Periyar Project, the Jamrao Canal and the Fatehpur Branch of the Lower Ganges Canal have not yet begun to earn revenue. The Chenab Canal, the

Rushikulya project and others which have been recently opened for irrigation are not yet earning the revenue which may ultimately be expected from them. The capital expenditure on all these works is included in the figures on which the net revenue percentage is calculated so that when these works are in full operation the percentage of net revenue on capital expenditure should be better than that indicated in paragraph 3 above The total net profit on all Major Works up to the end of 1894-95 amounted to nearly 3·2 millions of Rx.

5. The following statement shows the area irrigated by and the gross revenue derived from the Major and Minor Irrigation Works during the last 5 years —

YEAR	MAJOR WORKS.		MINOR WORKS.		TOTAL	
	Area irrigated	Gross revenue realized	Area irrigated	Gross revenue realized	Area irrigated	Gross revenue realized
	Acres	Rx	Acres	Rx.	Acres.	Rx.
1890 91	7,172,468	2,312,787	2,101,586	483,127	9,274,054	2,795,914
1891-92	7,560,484	2,395,372	2,123,659	*431,279	9,684,143	2,826,651
1892 93	7,043 2'6	2,552,415	2,272,091	†607,549	‡9,315,377	3 159,964
1893-94	6,949,381	*2,417 757	2,116,964	636,372	‡9,066 345	3,054,149
1894-95	6,259,870	2,602,731	2,194,441	613,861	‡8,454,311	3,216,592

* Exclusive of figures for certain works in Madras, which were not given in the Revenue Report for 1891-92

† The increase was due to the inclusion in the accounts for 1892 93 of irrigation revenue of certain works in Madras pertaining to the year 1891-92 *vide* note* above

‡ Exclusive of the area irrigated in Native States in the Punjab.

The area irrigated shows a falling off as compared with the previous year, but there was an increase in the gross revenue realized.

The area irrigated in Native States in the Punjab from the portions of the canals constructed from funds contributed by the States amounted to 149,387 acres.

6. The estimated value of the crops irrigated from the Major and Minor Works during 1894 95 amounted to Rx. 23,224,312, being an average of Rx. 2·75 per acre.

7. The average rate of revenue assessed per acre irrigated during 1894-95 was Rx. 0·36 and Rx. 0·22 for Major and Minor Works respectively. The corresponding figures for 1893-94 was Rx. 0·35 and Rx. 0·24 respectively.

For Major Works the rate varies from Rx. 0·56 in Bombay (excluding Sind) to Rx. 0·18 in Bengal and Sind, and for Minor Works from Rx. 0·43 in Baluchistan to Rx. 0·10 in the Punjab.

8. The areas of the principal crops irrigated during 1894-95 in the various Provinces by the works for which Capital and Revenue Accounts are kept are given in the following statement :—

PROVINCE	Rice	Wheat	Jowar and chari (*sorghum vulgare*)	Bajra (*Penicilaria spicata*)	Sugar-cane	Cotton	Barley	Indigo	Maize	Ragi (*Eleusine coracana*)
	Acres.	Acres	Acres	Acres	Acres	Acres	Acres.	Acres	Acres.	Acres
Bombay (excluding Sind)	6,187	8,833	19,955	6,7[illegible]	14,624	265	482		1,924	
Sind	417,624	166,128	220,428	210,037	.	59,967	2,329		.	...
Punjab	149,285	942,522	174,253	23,724	71,425	304,873	25,763	77,431	101,462	.
Bengal	452,865	3,830			46,016	147	10,020	1,971		
Madras	2,647,119	..		.	..					50,079
North-Western Provinces	126,826	83,973	12,223	251	218,006	50,378	6,385	308,832	8,895	...

9. The following are the percentages on gross revenue of the cost of revenue management (including collection charges) and of the up-keep of the works for Major Works in the different Provinces :—

Province.	Revenue management, per cent.	Up-keep, per cent.	Total per cent.
Madras	8·6	10·4	19·0
North-Western Provinces	14·2	24·3	38·5
Punjab	15·4	29·0	44·4
Bombay	18·7	32·1	50·8
Sind	10·0	31·1	41·1
Bengal	31·1	65·1	96·2

10. The following statement shows the total cost of working per acre irrigated by the Major Works in the different Provinces :—

	1894-95.	
Sind	·07	Including old maintenance charges.
Madras	·08	
Punjab	·15	
Bengal	·28	Excluding maintenance of Tidal canal.
North-Western Provinces . . .	·31	
Bombay	·38	

The figures are practically the same as those of the previous year except in the case of the North-Western Provinces where the cost of working per acre irrigated has risen from Rx. 0·17 in 1893-94 to Rx. 0·31 in 1894-95. The total working expenses in this Province were slightly below the total of the previous year; but as the irrigated area was but little more than half that of the previous year, the working expenses per acre irrigated were nearly doubled.

11. The following statement gives for the principal canals in each Province details of the length of channels, of canal discharge, of area irrigated, and of the duty of water:—

Province.	Canals.	Length of completed main and branch canal. (Miles.)	Length of completed distributaries. (Miles.)	Maximum discharge at head of canals (cubic feet per second).	Average discharge at head (cubic feet per second). Kharif	Rabi.	Area irrigated (acres). Kharif.	Rabi.	Total.	Flow.	Lift.	Area irrigated per cubic foot per second of average discharge at head (acres). Kharif.	Rabi.

N.B.—The figures in brackets in columns 13 and 14 denote the number of days on which the irrigating duty is calculated.

12. The following statement shows the return derived from Navigation Works proper, for which Capital and Revenue Accounts are kept. Works in which navigation is combined with irrigation are included in the statement in paragraph 3:—

CLASS OF WORKS.	Number of works.	Direct and indirect Capital outlay to end of 1894-95.	Gross revenue.	Working expenses, including indirect charges.	Net revenue.	Percentage of net revenue on capital outlay.
		Rx.	Rx.	Rx.	Rx.	
NAVIGATION.						
I.—Major works—						
(a) Productive	1	242,818	5,853	4,743	1,110	·46
II.—Minor works	6	1,846,241	61,951	48,235	13,716	·74
TOTAL	7	2,089,059	67,804	52,978	14,826	·71

The percentage of net revenue on capital outlay was 0·71 as compared with 0·56 and 1·04 during 1893-94 and 1892-93 respectively.

13. The following statement gives some details of the navigation operations of the year. Works on which navigation is combined with irrigation are included :—

PROVINCES.	Length of canal open for navigation	Ton-mileage.	Estimated value of cargoes.	Estimated value of rafts.	Number of passengers carried.
1	2	3	4	5	6
	Miles	Millions.	Thousands of Rx.	Thousands of Rx.	
Punjab	432	..	...	236	6,695
Bengal	673	37·914	9,084	55	546,448
Madras	1,252	50·527	4,861	427	467,774
North-Western Provinces	535	8·393	262	107	404
TOTAL	2,892	96·834	14,207	825	1,021,321

The figures show a falling off compared with those of the previous year except in the estimated value of rafts. There was an increase of 10 miles in the length of canal open for navigation in Madras.

14. The direct outlay on works for which only Revenue Accounts are kept and for which neither Capital nor Revenue Accounts are kept including those maintained by the Civil Department was Rx. 671,546 as compared with Rx. 633,398 during the previous year. The direct receipts were Rx. 78,001 against Rx. 67,465.

A large portion of the revenue derived from this class of works is assessed and collected with the Land Revenue and is accounted for under that head in the Civil Accounts. The direct receipts comprise only the sums realized by the Public Works Department which alone are credited in the Public Works Accounts.

The figures in the following statement which relates to these works are extracted from the Irrigation Revenue Reports of the different Provinces.

Certain receipts, *e.g.*, those realized by Civil Officers from irrigation works under their charge, do not appear in the Reports, so that the figures are approximate only. Figures relating to works classed as " Agricultural " are excluded.

PROVINCE.	WORKS FOR WHICH CAPITAL ACCOUNTS ARE NOT KEPT.			
	Gross revenue from all sources, direct and indirect, as recorded in Irrigation Revenue Reports.	Working expenses including collection charges.	Net Revenue.	Area irrigated.
	Rx.	Rx.	Rx.	Acres.
Bombay excluding Sind	54,742	27,890	26,852	143,907
Sind	251,933	*123,610	128,323	1,138,571
Punjab	44,338	25,857	18,481	304,730
Bengal	17,278	22,993	—5,715	25,908
Madras	844,849	228,351	616,498	3,234,633
TOTAL	1,213,140	428,701	784,439	4,847,749

* Exclusive of Indirect charges.

The total area irrigated by these works in 1894-95 amounted to 57·3 per cent. of that irrigated by the Major and Minor Works as shown in paragraph 5.

15. The total area irrigated from all works during 1894-95 amounted to 13⅓ million acres.

If the value per acre of the irrigated crops be taken at the estimated rate of Rx. 2·75 per acre as given in paragraph 6, the total value of the produce from irrigated lands amounted to 36⅔ millions of Rx.

16. The following statement gives particulars of works which were under construction :—

PROJECT.	Amount of Estimate (direct outlay).	Expenditure to end of 1894-95 (direct outlay).	Ultimate area to be irrigated.	Ultimate estimated revenue.	Estimated percentage of net revenue on direct Capital outlay.	REMARKS.
Productive.	Rx.	Rx.	Acres.	Rx.		
Chenab Canal (complete project of 1891).	2,568,417	1,458,327	1,100,000	535,911	16·1

Rushikulya	436,800	368,068	117,250	24,671	4·3	Second Revised Estimate sanctioned in Secretary of State's Despatch No. 34 P. W., dated 19th July 1894.

17. The following statement gives particulars of important irrigation projects, the estimates of which had been sanctioned but upon which work had not been begun up to the end of 1894-95:—

Project.	Amount of estimate (direct outlay).	Ultimate area to be irrigated.	Ultimate estimated revenue.	Estimated percentage of net revenue on direct capital outlay.	Date of sanction.
PRODUCTIVE WORKS.	Rx	Acres.	Rx.		
Jhelum canal . . .	1,202,407	423,360	154,875	8·2	8th November 1888.
Kalingaroyen channal . . .	82,500	23,000	6,650	6·7	29th January 1891.

18. In reviewing the Revenue Reports of the different Provinces the Government of India have noticed the approval expressed by Local Governments of the manner in which the officers of the Irrigation Department have performed their duties, and the Governor General in Council, in reviewing the irrigation operations throughout India during 1894-95, desires to express his appreciation of the results exhibited in the Accountant General's note and this Review.

ORDER.—Ordered, that the foregoing, with a copy of the note by the Accountant General, Public Works Department, be forwarded to the Local Governments and Administrations in the Public Works Department, noted on the margin for information.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor General for Central India, Rajputana, and Beluchistan
The Accountant General, Public Works Department.

Ordered also, that a copy of the Review and note be forwarded to the Revenue and Agricultural and Finance Departments, and that the papers be published in the Supplement to the *Gazette of India.*

Ordered further, that a copy of the Review and note be forwarded to Her Majesty's Secretary of State for India for information.

W. S. S. BISSET, *Colonel R.E.*,
Secretary to the Government of India.

Document accompanying.

Note by the Accountant General, Public Works Department, dated 21st May 1896.

Accompaniment to P. W. D. Review No. 101 I. of 1896.

Note by A. B. Becher, Esq., Offg. Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure of Irrigation Works in India for 1894-95.

The figures in the accounts submitted herewith agree with the Finance and Revenue accounts of the Government of India, but in this note certain figures are added from the Administrative accounts of the Public Works Department, Irrigation Branch, the Revenue Reports of Irrigation Works and the Annual Statement of the Financial Results of Irrigation Operations in India.

2. The Irrigation works in India are divided into two main classes, *viz.*, Major Works and Minor Works.

Major Works are sub-divided into—

(*a*) Productive Works, the Capital of which has been provided from borrowed money; and

(*b*) Protective Works, the Capital of which has been provided out of the general revenues of India.

Minor Works are for the purpose of this note sub-divided into—

(*a*) Works for which Capital and Revenue accounts are kept; and

(*b*) Works for which Capital accounts are not kept.

3. Capital and Revenue accounts are kept for all Major Irrigation Works. There are 46 projects classed as Major Works, of which one, *viz.*, the Hijili Tidal Canal in Bengal, is a purely navigation canal.

Of these, 38 were sanctioned as works expected to be remunerative, *i.e.*, estimated to pay the cost of up-keep and interest on the Capital outlay. They were or are being constructed from funds provided from sources outside the general revenues. The remaining eight projects * were sanctioned as works of protection against famine, and the cost of their construction has been or is being paid for out of annual grants made from general revenues under the head of famine insurance.

* *North-Western Provinces and Oudh*
1. Betwa Canal.
Punjab.
2. Swat River Canal.
Madras.
3. Rushikulya Project.
Bombay, Deccan and Gujarat.
4. Nira Canal
5. Mhaswad Tank.
6. Chankapur Tank.
7. Maladevi Tank.
8. † Gokak Canal, 1st section.

† Now classed as a minor work and combined with the Gokak Storage Works.

4. The works classed as Minor Irrigation Works are numerous. Capital and Revenue accounts are kept for 76 separate projects of this class; for the others only one account of receipts and charges for each work or group of works is kept. Of the 76 projects for which Capital and Revenue accounts are kept, 6 are purely navigation canals, *viz.*, 2 in Bengal and 4 in Madras.

5. The general results of all works for which Capital and Revenue accounts are kept are as follows:—

	Major Works.	Minor Works.	TOTAL.
Capital outlay.	Rx.	Rx.	Rx.
During 1894-95	695,032	70,531	765,563
To end of 1894-95	31,731,986	4,849,733	36,581,719
Revenue Account, 1894-95.			
Gross Revenue	2,182,413	536,014	2,718,427
Maintenance and Working	888,558	262,070	1,150,628
Net Revenue	1,293,855	273,944	1,567,799
Interest	1,194,111	...	...
Net profit after paying interest on Capital	99,744	...	...
Percentage of net Revenue of the year on the Capital outlay to end of the year	4·08	5·65	4·29
Against in 1893-94	4·04	6·89	4·42
" 1892-93	4·59	6·48	4·84

6. The net revenue derived from Major Works is Rx. 39,204 better than that of the previous year. The increase occurred principally in the Punjab and is due to the extension of irrigation from the Western Jumna, Bari Doab and the Chenab Canals. The interest charges during 1894-95 have, however, also increased by Rx. 28,557 owing to additional Capital outlay, so that the increase in the net profit is Rx. 10,647.

7. The net profit should be considerably increased when the Fatehpur Branch of the Lower Ganges Canal, the Chenab Canal, the Periyar and Rushikulya Projects and the Jamrao Canal are completed, and the irrigation from them and other projects have been fully developed. So far the works in Bengal and Deccan have failed to pay the interest on the Capital invested in them.

8. The net revenue from Minor Works was less than that of the previous year by Rx. 58,081. The largest items contributing towards this decrease are referred to in paragraph 32 below.

9. The receipts and charges of the year 1894-95 on Revenue account, exclusive of the figures relating to Minor Works for which Capital accounts are not kept, are detailed in the following statement by funds and provinces :—

1894-95.

	Imperial					Provincial					Local			Total

10. This table shows that after paying interest on borrowed money expended in the construction of Major Irrigation Works, the highest net profits are, as in the previous two years, obtained from irrigation projects in Madras. Next follow the North-Western Provinces and Oudh, the Punjab, and Bombay. In the Punjab the revenue is gradually increasing, as the new irrigation projects are completed. The Chenab Canal will probably be completed in 1897-98. In Bengal the loss is, as explained in last year's report, due to the permanent settlements rendering enhancement of land revenue impracticable.

Major Works.

11. The following statement shows in detail the financial results of individual Major Irrigation Works during and to the end of 1894-95 :—

Number of works.	Major Works.	Capital outlay to end of 1894-95. Direct.	Indirect.	Total.	Revenue Account for 1894-95. Gross revenue	Maintenance and working.	Net revenue	Interest.	Net profit.	Percentage of net revenue on the Capital outlay	Revenue Account to end of 1894-95. Gross revenue.	Maintenance and working.	Net revenue.	Interest.	Net profit.
	Productive.	Rx.	Rx.	Rx.	Rx.	Rx.	Rx	Rx.	Rx.	R x.	Rx.	Rx.	Rx.	Rx.	Rx.

(a) Excludes Rx 2,086 on account of old irrigation revenue.
(b) This is now classed as a minor work and combined with Gokak Storage Works.

12. Taken collectively by provinces the percentages of net revenue on the Capital outlay upon Major Works for the last three years are as follows:—

	1894-95.	1893-94.	1892-93.
1. Madras	6·75	6·70	6·46
2. Bombay—Sind	6·00	6·54	7·65
3. North-Western Provinces and Oudh	5·22	5·37	5·22
4. Punjab	4·33	3·95	6 24
5. Bombay—Deccan and Gujarat	1·18	1·27	1·19
6. Bengal	·09	·19	·63
Total	4·08	4·04	4·59

13. The percentage in Madras would be considerably higher but that the Karnul Canal, which was made by a company, seldom pays its working expenses and maintenance. The cost of this canal is nearly one-third of the total expenditure on Major Irrigation works in Madras. Omitting this canal the figures for Madras would be:—

	Per cent.
1894-95	9·97
1893-94	10·06
1892-93	9·91

14. The systems which in 1894-95 paid over 4 per cent. are arranged below in the order of the rate paid, and are compared with the results in the two previous years:—

	Rate Paid.		
	1894-95.	1893-94.	1892-93.
1. Cauvery Delta System	45·06	45·76	39·00
2. Eastern Jumna Canal	22·78	24·60	20·14
3. Sidhnai Canal	16·16	19 09	14·95
4. Begari Canal	16·09	17·12	17·71
5. Godavari Delta System	14·55	14·04	13·73
6. Kistna „ „	12·74	12·68	12·53
7. Bari Doab Canal	9 31	9·47	10·26
8. Unharwah Project	8·67	8·50	8·81
9. Ganges Canal	7·39	7·23	7·17
10. Penner Anicut	7·35	7·23	7·40
11. Western Jumna Canal	5 39	2·92	4·90
12. Srivaikuntham Anicut System	5·21	5·43	2·59
13. Swat River Canal	5·07	4·42	5·20
14. Krishna Canal	4·83	2·76	4·85
15. Lower Sohag and Para Canal	4·47	·75	...
16. Eastern Nara Works	4·41	5·50	5·92

15 The systems that have, up to the end of 1894-95, paid off the accumulated interest on the Capital expended on them are noted below:—

	Surplus. Rx.
1. Western Jumna Canal, including Sirsa Branch	3,077,767
2. Godavari Delta System	2,991,689
3. Cauvery „ „	2,027,159
4. Eastern Jumna Canal	1,679,959
5. Kistna Delta System	1,550,615
6. Ganges Canal	252,752
7. Bari Doab Canal	485,286
8. Begari „	206,276
9. Penner Anicut System	89,489
10. Sidhnai Canal	70,860
11. Desert „	56,820
12. Unharwah	18,008
13. Srivaikuntham Anicut System	4,862
Assuming that the works are still worth the amount charged in each case to the Capital account, this represents a net profit to the State at the end of 1894-95 on these systems of	12,511,542
The charge to the State on other Major Works is	9,327,613
And this leaves a net profit to date on all Major Works of	3,183,929

16. The following statement shows the net charge to the State to the end of each year for the last five years on account of further projects, which are expected eventually to pay off the accumulated interest on their Capital cost :—

	Date of Completion	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.

NOTE.—The projects which have not yet been opened for irrigation have been excluded from this statement.

In all these projects the debit against them should be decreasing.

17. The continued steady decrease against the Eastern Nara before completion of the project is satisfactory

18. The continued increase against the Lower Ganges Canal is not altogether satisfactory ; this canal has been opened 16 years, and has not yet begun to pay the annual interest charges. This unsatisfactory result is chiefly due to the destruction of the Kali Nadi aqueduct and to a succession of wet years from 1884 to 1895. The Government of the North-Western Provinces and Oudh however expects that the ultimate revenue from the canal will amount to 5 per cent. on the Capital outlay. The Sirhind and Lower Sohag and Para Canals have not been opened for 10 years ; the irrigation from these projects has not had time to develop fully. When full credit is given for the indirect revenue due to the Lower Sohag and Para Canal, it is expected that the net revenue will more than cover the annual interest charges

The decrease in the debit against the Sangam Anicut System is a satisfactory sign.

19. The undernoted works, which were allowed to be constructed from borrowed money prior to the introduction of the rules laying down the conditions which must now be fulfilled before a work may be classed as Productive, are not expected to repay the accumulated interest charges on the Capital invested in them :—

	Capital outlay to end of 1894-95.	Net gain or loss in working each year.				
		1890-91.	1891-92	1892-93.	1893-94.	1894-95.

TOTAL	7,486,252	8,096	36,411	57,906	34,348	26,890

In addition to the above, the Karnul Canal in Madras, which was purchased from the Madras Irrigation and Canal Company in 1882, is not likely ever to be a financial success, and the Barur tank also will probably not pay the interest on the capital outlay. Under the rules contained in Public Works Department Code, Volume II, Chapter V, para 35, clause VIII, the current expenditure on these works is being provided out of the general revenues.

20. The sources from which the revenue of the Major Works was derived during 1894-95 are exhibited in the following statement in comparison with those of the four previous years :—

	Irrigation Revenue													Totals of previous four years.			
	Share of enhanced land revenue due to irrigation works.	Water-rates	Owners rates on irrigated lands	Sale of water.	Water-supply of towns.	Plantations	Other canal produce.	Water-power.	Navigation receipts.	Rents of buildings	Fines	Miscellaneous.	Total.	1893-94.	1892-93.	1891-92.	1890-91.

21. The total revenue of 1894-95 was better than that of the previous year by Rx. 52,142, owing to the extension of irrigation from the Western Jumna, Bari Doab and the Chenab Canals in the Punjab and from the Godavari Delta System in Madras, and partly to a good water-supply in the Upper Sind Frontier District. The increase in the Punjab would have been larger had it not been for a falling off in the water-rate collections from the Sirhind Canal. The favourable rainfall on lands traversed by this canal reduced the demand for canal water.

22. The decrease in Bengal was due partly to the large recovery of arrears in 1893-94 having swelled the receipts of that year and partly to abundant and seasonable rainfall having reduced the demand for canal water.

23. The decrease in the North-Western Provinces and Oudh was mainly due to a falling off of the water-rate collections on the Lower Ganges Canal, owing to the small area irrigated in the *rabi* season of the previous year.

24. The following statement shows, for each Major Work for the five years ending 1894-95, the gross revenue, the irrigated area, and the mileage of canals completed at the end of each year :—

Total	2,231,107	6,259,870	·36	·35	·32

There is an increase in the North-Western Provinces and Oudh.

26. The charges for maintenance and working for the year 1894-95 are detailed in the following statement and compared with the outlay of the previous four years:—

	Extensions and improvements.	Maintenance and repairs.	Establishment	Tools and plant.	Profit and loss.	Suspense	Total Direct charges	Indirect charges.	TOTAL.	Totals of previous four years. 1893-94.	1892-93.	1891-92.	1890-91.

27. The total working expenses during 1894-95 exceeded those of the previous year by Rx. 12,938. The increase is the net result of increases and decreases in different provinces. The differences are explained as follows:—

Bengal.—The decrease of Rx. 7,909 was due to diminished outlay on works and repairs on the Orissa and Sone Canals.

North-Western Provinces and Oudh.—The decrease of Rx. 8,420 was due chiefly to the share of establishment charged to the revenue account being smaller than in the previous year, the increased capital outlay causing a proportionate decrease in the revenue share of these charges, and partly to smaller expenditure on extensions and improvements.

Punjab.—The increase of Rx. 20,549 was due partly to repairs to undersluices at the head of the Western Jumna Canal, and partly to the increased cost of maintenance of the Bari Doab and Chenab Canals. This increase in the working expenses was more than counterbalanced by the increase of revenue which amounted to Rx. 61,464.

Madras.—The decrease of Rx. 5,507 is attributed to the curtailment of the charges for maintenance of the Kistna Delta, Srivaikuntham Anicut, Sangam Anicut and Karnul Canal projects.

Bombay.—The increase of Rx. 14,225 was due chiefly to special repairs to the Desert Canal and to certain bunds in connection with the Eastern Nara project which were damaged by floods. The increase was to a great extent counterbalanced by the increase of revenue.

28. The cost of maintenance and working per acre irrigated in the different provinces during the five years ending 1894-95, and the percentage of the outlay upon maintenance and working on gross revenue, are as follows:—

Cost of maintenance and working per irrigated acre.

Provinces.	1890-91.	1891-92	1892-93	1893-94.	1894-95.	Remarks.
	Rx.	Rx.	Rx.	Rx.	Rx.	
1. Bombay—Sind	·06	·07	·06	·06	·07	Including old maintenance charges.
2. Madras	·08	·08	·08	·08	·08	
3. Punjab	·12	·11	·14	·14	·15	
4. Bengal	·25	·19	·22	·27	·28	Excluding maintenance of Tidal Canal.
5. North-Western Provinces and Oudh	·15	·14	·16	·17	·31	
6. Bombay—Deccan and Gujarat	·35	·29	·51	·38	·38	

The provinces are arranged in the order of smallness of charge; the variations are considerable.

Percentage of maintenance and working on gross revenue.

	Rx.	Rx.	Rx.	Rx.	Rx.	
1. Madras	23·8	23·0	23·0	21·7	19·0	Including old revenue and working expenses.
2. North-Western Provinces and Oudh	42 1	38·0	39·5	38·8	38·5	
3. Bombay—Sind	32·3	46·7	33·7	32·8	41·1	Ditto ditto.
4. Punjab	37·8	37·3	36·0	45·7	44·4	
5. Bombay—Deccan and Gujarat	48·6	48·0	51·4	47·2	50·8	
6. Bengal	106·9	89·9	78·9	92·6	96·2	

The variations indicated here are also very marked.

29. The percentages of the cost of revenue management on the revenue collected in the different provinces during the five years ending 1894-95 were as follows:—

N.B.—In the term revenue management are included shares of Direction, Executive and Navigation Establishments and also a share of collection establishment.

Provinces.	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	Remarks.
	Rx.	Rx.	Rx.	Rx.	Rx.	
1. Madras	8·8	8·8	8·9	9·0	8 6	
2 Bombay—Sind	10·9	11·4	10·4	10·6	10·0	
3. North-Western Provinces and Oudh	14 3	12·8	13 6	14·5	14·2	
4. Punjab	13 0	12·1	13·0	16·9	15·4

(a) Exclusive of the Capital outlay on the Vedaranlem Canal, which has not yet been ascertained.
(b) Excludes Rx. 7[illegible]474, share due to old irrigation.
(c) Do. Rx 99,125 do. do.
(d) Exclusive of Rx. 41,267, expenditure incurred from the grant under 33—Construction of Protective Irrigation Works which is shown under Major Works.

32. The net revenue derived in 1894-95 from the works constructed for irrigation purposes (excluding navigation) taken collectively amounted to 8·66 per cent. on the Capital outlay to end of the year against 10·70 in the previous year. The decrease was chiefly due to a falling off of the net revenue from the Upper Sutlej Inundation Canals in the Punjab and the Cheyaru Anicut System in Madras. On the Upper Sutlej Inundation Canals, while there was a fall in gross revenue by Rx. 9,490, there was an increase of Rx. 5,159 in working expenses over those of the previous year, thus showing a decrease of Rx. 14,649 in the net revenue. The falling off of the gross revenue was due to the small *rabi* of 1893-94 consequent on the low state of the river in August 1893; to heavy remissions for the *kharif* of 1894 on account of damage done by grass-hoppers; to suspensions of the demand for the same crops in villages in the Lahore district and to abnormal credits in the previous year. The increase in the working expenses was due to certain liabilities incurred in the previous year having had to be met in 1894-95 and to Revenue having to bear an increased share of establishment charges. The decrease in the net revenue from the Cheyaru Anicut System was Rx. 9,171: this was due to the net revenue during 1893-94 having been unusually large owing to the expenditure on certain works on the project amounting to Rx. 9,807 having been written back from Revenue to Capital.

33. The revenue from the navigation canals exceeded the working expenses by Rx. 13,716 against the corresponding figure of Rx. 11,285 in the previous year. The increase is the net result of an increase of revenue from the Calcutta and Eastern Canals in Bengal and of a reduced expenditure on the Buckingham Canal in Madras.

34. There was a net revenue of Rx. 789 on the Buckingham Canal against a loss of Rx. 1,620 in working the canal during 1893-94.

35. The revenue derived from Minor Works for which Capital and Revenue accounts are kept during 1894-95 is detailed in the following statement, and compared with the revenue of the previous four years :—

	Irrigation Revenue			Sale of water	Water-supply of towns	Plantations	Other canal produce	Water power	Navigation receipts	Rents of buildings	Fines	Miscellaneous	Total	Totals of previous four years			
	Share of enhanced land revenue due to irrigation works	Water rates	Owner's rates											1893-94	1892-93	1891-92	1890-91

36. The best return on the Capital expended is shown by the Punjab. Bengal shows the worst result. Bombay and the North-Western Provinces are steady, and Madras has also done well.

In Baluchistan where the revenue is collected in kind, that of 1894-95 was affected by a considerable fall in the prices of grains and bhoosa.

37. The decrease in the revenue during 1894-95, as compared with that of the previous year, occurred chiefly in the Punjab and was due partly to the revenue during 1893-94 having been swollen by arrear collections on the Indus canals and partly to a falling off of the revenue from the Upper Sutlej canals for the reasons explained in paragraph 32 of this note. The assessments for the year 1894-95 on certain canals were not recovered in full before the close of the year.

38. The working expenses of the year 1894-95 and of the previous four years are shown in the following statement:—

	Extensions and improvements.	Maintenance and repairs.	Establishment.	Tools and plant.	Profit and loss.	Suspense	Total Direct charges.	Indirect charges	Total.	Totals of previous four years.

39. The total increase of Rx. 88,289, as compared with 1893-94, occurred chiefly in the following provinces :—

Lower Burma.—The increase is due to large outlay on the earthwork in the Henzada Division of the Irrawaddy embankments.

Punjab.—The increase occurred on the Upper and Lower Sutlej Inundation canals. On the Upper Sutlej canals the increase has already been explained in paragraph 32. The increase on the Lower Sutlej canals is mainly due to a number of charges against the Zar-i-nagha fund account which were incurred in the previous year having been adjusted in 1894-95, and to an increase in the sanctions against this account.

Madras.—The increase is nominal. It is due to an expenditure of Rx. 9,807 on the Cheyaru Anicut System having been written back from Revenue to Capital in the accounts for 1893 94.

Bombay.—The increase is mainly due to the construction of certain new works in connection with the Sukkar and Fuleli canals chargeable to Revenue account. The cost of maintenance and repairs of the Sukkar canal was also larger than in the previous year.

40. The following table gives the percentages of expenditure on revenue in each province during the five years ending 1894-95 :—

Provinces.	1890-91.			1891-92.			1892-93.			1893-94.			1894-95.

41. The percentage of expenditure on revenue for the whole of India during the year shows a slight increase as compared with 1893-94. The figures for the respective provinces as a rule show uneven results.

42 The rates per irrigated acre in the different provinces during the year 1894-95 were as follows:—

	Irrigation revenue. (Assessed.)	Irrigated acreage.	Rate of revenue per acre.	Compared with rate in 1893-94.	Compared with rate in 1892-93.

Total	575,829				

(a) Represents actual collections

NOTE.—No acreage is quoted against Lower Burma as the works concerned are only river embankments

Works for which Capital Accounts are not kept.

43. The receipts and expenditure on account of these works during 1894-95, as recorded in the Finance and Revenue accounts, are shown in the following statement, in comparison with the transactions of the previous four years:—

Works for which Capital Accounts are not kept.

	Imperial.		Provincial.		Local.		Total.

1891-92	6,711	215,147	47,658	487,639	8,421	8,918	62,790	711,704
1890-91	5,840	156,076	46,102	423,563	6,192	7,834	58,134	587,473

44. The foregoing table shows that the direct receipts realized from this class of Minor Works have been increasing steadily. A large portion of the revenue derived from this class of works is assessed and collected with the Land Revenue and is accounted for under the head I.—Land Revenue in the Civil accounts. It is only in the Irrigation revenue reports of the Public Works Department that credit for such indirect receipts is taken.

45. The increase in the expenditure from Imperial funds during 1894-95, as compared with that of the previous year, occurred chiefly in Bombay, but partly in Upper Burma and Punjab. The increase in Bombay is to a great extent due to repairs to bunds in Sind which were damaged by floods. In Upper Burma the increase is due to additional expenditure on the completion of certain works. The increase in the Punjab is due to the construction of certain urgent works in connection with the Muzaffargurh canals and the new Sahiwal canal.

46. Under this head appear at present the whole of the irrigation works in Upper Burma. Orders have been issued by the Government of India for the preparation of Capital and Revenue Accounts of all important works. Only one project estimate for the Kyauksi Tank has been sanctioned by the Government of India, in Public Works Department letter No. 41I., dated 11th February 1895. The estimates of the Mandalay canal are now under consideration by the Government of India.

SIMLA;
The 21st May 1896.

A. R. BECHER,
Offg. Accountant General, P. W. Dept.

Document accompanying.

Abstract Account of Revenue and Expenditure on Irrigation Works during 1894-95.

No. 16I., dated 21st May 1896.

Submitted to the Government of India, Public Works Department.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, OCTOBER 24, 1896.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

BOARD OF REVENUE, MADRAS.

NOTIFICATION UNDER SECTION 30 OF ACT XII OF 1882.

(*The Indian Salt Act.*)

In exercise of the powers conferred by the 2nd paragraph of Notification No. 769, dated 11th February, 1888, issued by the Governor General of India in Council (in the Department of Finance and Commerce), under Section 28 of Act XII of 1882, and published at pages 67—72 of the *Gazette of India*, dated 11th February, 1888, the Commissioner of Salt, Abkari and Separate Revenue, Madras Presidency, under Section 30 of Act XII of 1882, authorizes each of the persons named below to exercise the powers of a Salt Revenue Officer :—

Locality.	Name.	Rank.	Powers to be conferred on each.	REMARKS.
Province of Orissa .	Gausy Mahamad . .	3rd grade peon.	Salt Revenue Officer	*Vice* Sanatan Das, forfeited appointment.
Ditto . .	Subhan Mahamad . .	Ditto . .	Ditto . .	*Vice* Rahim Khan, dismissed.

BOARD OF REVENUE,
(SEPARATE REVENUE);
The 9th October, 1896.

U. S. BRODIE,
Ag. Secretary.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office, are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

A. T. PRINGLE,
Offg. Secy. under the Inventions and Designs Act, V of 1888.

II A2

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

The 17th October 1896.

No. 864-*T. F.*—In exercise of the powers conferred by sections 11, clauses (*a*) and (*b*), and 12 of the Sea Customs Act (VIII of 1878), the Lieutenant-Governor of Bengal is pleased to declare Nillah on the Naaf river to be a port for the carrying on of coasting trade with the customs ports of Akyab and Chittagong only, and for no other purpose, and to define the limits of the said port as follows :—

On the South—A straight line drawn from the south-eastern end of Shapur Island in the direction of a pillar on point Cypress as far as the mid-channel of the Naaf river.

On the North—A straight line drawn from the mouth of the Ucha stream in the direction of the mouth of the Gaungdaung stream as far as the mid-channel of the Naaf river.

On the West—A line drawn parallel to and fifty yards to the west of the high-water mark of the Naaf river.

On the East—A line drawn down the mid-channel of the Naaf river.

No. 865-*T. F.*—In exercise of the power conferred by section 6 of the Sea Customs Act (VIII of 1878), the Lieutenant-Governor of Bengal is pleased to appoint Meeah Babu Khan, the Superintendent of Customs at the Port of Maungdaw in Burma, to be Superintendent of Customs at the port of Nillah, in the Chittagong district of Bengal, and to exercise the powers conferred and to perform the duties imposed by the said Act on such officers.

H. H. RISLEY,
Secy. to the Govt. of Bengal

AGENT TO THE GOVR.-GENERAL IN BALUCHISTAN.

NOTIFICATIONS.

Quetta, the 16th October, 1896.

District	Perganah.	Village	AMOUNT REQUIRED.									Purpose for which the land is required	REMARKS
			FOR OCCUPATION.						TOTAL				
			Permanent			Temporary.							
			Acre	Rood	Pole	Acre.	Rood.	Pole.	Acre.	Rood.	Pole.		
Ajmere .	Ajmere .	Ajmere .	..		$\frac{1}{8}$	.	..		.	.	$\frac{1}{8}$	The plot of land to be acquired is required for widening and improving the street in Canendishpura Mohalla within the limits of the Ajmere Municipality, and is about $24\frac{1}{8}$ feet long and broad from $1\frac{5}{8}$ to $2\frac{1}{8}$ feet It belongs to Wazir Khan, son of Ajmeri Khan. It is bounded on the north by street and the south by Bhajanlal's land, on the east by Wazir Khan's house and on the west by street.	

R. R. PULFORD, *Colonel, R.E.,*

Secretary to the Agent, Governor-General and Chief Commissioner in the Public Works Department, Rajputana and Central India.

CHIEF COMMISSIONER OF AJMERE-MERWARA.

NOTIFICATION

Abu, the 14th October, 1896.

No. 1267—930—In exercise of the powers conferred by sections 3 and 4 of the Ajmere Village Sanitation Regulation (IV of 1895), and with the previous sanction of the Governor-General in Council, the Chief Commissioner is pleased to make the following rules for the improvement of sanitation in villages in Ajmere-Merwara:

I. With the previous approval of the Commissioner, the Assistant Commissioner may, by order in writing—

(1) prohibit the performance of offices of nature in any specified area within or immediately adjoining the inhabited site of any village, if such prohibition is, in his opinion, necessary for the protection of the water-supply or for the comfort of the majority of the inhabitants;

(2) direct that any well shall be surrounded by a parapet wall not less than $2\frac{1}{2}$ feet high,

(3) prohibit bathing or washing upon the parapet of any well used for drinking purposes, or the tethering of animals, or the deposit of filth or refuse, or the performance of offices of nature within such distance from the well not exceeding 15 feet, as he may specify;

(4) direct that the carcasses of all animals which die within the limits of a village shall be removed to places, which may be fixed by him, at a distance of not less than 300 yards from the inhabited portion of the village,

(5) direct that all prickly pear or other undergrowth, in or near a village, shall be cleared away wherever he may consider this desirable on sanitary grounds;

(6) direct that in the case of Khalsa villages the cost of demarcating an area, or building a parapet wall, under rule I (1) and (2), shall be borne by Village Shamlat funds, or, in the case of Istimrari and Jagir villages, by the Istimrardar or Jagirdar concerned.

II. Every order made under the preceding rules shall be in writing, and a copy in the vernacular shall be posted in the *Hattai* of the village.

III. The village headman shall obey all orders issued under these rules, and, as far as possible,

enforce the observance of the rules by other persons. He shall report breaches of the rules to the Assistant Commissioner or other officer when he inspects the village as required by rule VI.

IV. (1) Any person who—

(a) acts in contravention of an order issued under these rules.

(b) defiles the water in a well, and

(2) Any village headman who neglects any of the duties devolving on him under rule III, shall, on conviction before a Magistrate, be liable to a fine not exceeding R10.

Persons in charge of infants, or of sick or infirm persons, shall be held responsible for preventing any public nuisance being committed by or arising in connection with such infants or persons.

V. No complaint against any person for breach of these rules, whether preferred by a public servant or by a private person shall be entertained by a Magistrate, except on an occasion of his actually visiting the village, or on the report of an officer not invested with magisterial powers made after inspection of the village under rule VI.

VI. The Tehsildar or Naib Tehsildar, as the case may be, shall inspect each village in respect of which any order has been issued under these rules at least once in every three months, and the Assistant Commissioner shall inspect the same at least once a year.

By Order,

L. IMPEY, *Captain*,

First Assistant to the Governor-General's Agent, Rajputana, and Chief Commissioner, Ajmere-Merwara.

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনী- ডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments (electrum) are available at the College Book Depôt at R62 per box. Drawing Instruments, drawing materials, etc., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I.	**Building Materials**	(1895),	R2-0.
"	II.	**Masonry**	(1891),	R1-4.
"	III.	**Carpentry**	(1889),	R1-4.
"	IV.	**Earthwork**	(1892),	R1-4.
"	V.	**Tools and Plant** (never published).		

VOLUME II.*

Section	VI.	**Buildings**	(1891),	R1-4.
"	VII.	**Bridges**	(in the Press).	
"	VIII.	**Roads**	(in the Press).	
"	IX.	**Railways**	(1891),	R1-4.
"	X.	**Irrigation Works**	(1873),	R1-8.

Roorkee Treatise on Civil Engineering, Vol. II (1867 edition). R3.

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R8.

" II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition), with Curve Table (in the Press).

XIII. **Drawing** (by Lieut. R. Pulford, R.E.).† R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics** (2nd edition), Parts I and II in one. R3.

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition) (in the Press).

XVI. **Earthwork Estimating,** with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. 4a.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

* Date of Edition on sale.

† Originally published at R15, reduced to R8.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 8a.; mounted on cloth and bound (in the Press). R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. R1-4.

Tyndall's Hand-Book of Specifications. R5.

The Indian Engineer's Pocket Book. 4a.

Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press).

Blasting under Water (2nd edition). 12a.

Waugh's Instructions for Topographical Surveying. R1-4.

Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 6a.

Tables for Degree Curve and Intersection Angles, from 90° to 180°, and for Fixed Tangents from 100 feet to 7,500 feet. By F. G. Brook Fox, Esq., M.I.C.E. R2-4.

Graphic Hydraulic Diagram for Channels in earth, etc. By R. G. Kennedy, Esq., Executive Engineer. R7-8

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width. R1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pie into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin² ½ P (for computing time) 4a.

Cape's Logarithms, with Tables of Squares, Cubes, etc. (in the Press).

Cape's Geometry. R1-4.

" **Mechanics.** R1.

Military Topography. 8a.

HINDUSTANI.

Elements of Hindustani Grammar (in the Press).

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in English-Urdu. R1.

History of India (*Itihas Timirnásak*), Hindi, Parts I and II, each part 4a.

Short Account of Ganges Canal (English and Urdu) 8a.

NOTE AND FIELD-BOOKS, etc.

Note-Books (Section paper), large and small. Each R1-4

Surveying Field-Books (ruled). R1.

Levelling Field-Books (English Pattern). R1-8.

" " (Canal "). R1-8.

" " (College "). R2-0.

P. W. D. Note-Book. R1-4.

" **Measurement Book.** R1-4.

Circular Card-board Protractors, 12 inches (exclusive of packing). R1-6.

MISCELLANEOUS.

Distributary Velocity and Discharge Table. By Capt. Allan Cunningham. 8a.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India") R1-8.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (Quarterly Nos. 1 to 5), bound R2, original price R18.
Quarterly Nos. 1, 2, 3, 4, and 5, at R1 each, original price R4 each.
Vol. II, Quarterly Nos. 6 and 7, at R1 each.
,, III, ,, No. 13, R1.
,, V, ,, Nos. 18, 19, 20, and 21, R1 each.
,, VI, ,, Nos. 22, 23, 24, and 25, R1 each.
,, VII, ,, Nos. 26, 27, 28, and 29, R1 each.
Extra No., April 1870, R1.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, VIII, IX and XI of the Series at R1 each.
Quarterly Number 41A of Vol. X, at R1 each.
Cloth covers for Volumes 1st and 2nd Series, at As. 8 each.

(THIRD SERIES.)

Quarterly Numbers 5, 7, 8, 11, 12, 13, 14, and 15, at R1 each.
Index to Professional Papers, and loose Papers, 1st and 2nd Series, at 2a. each.

FERROTYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depôt. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of Admission to the different Classes of the College will be forwarded to applicants.

* These include Question Papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

J. CLIBBORN, *Lieut.-Col., I.S.C.,*
Principal, Thomason College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
For the Calcutta Series	10	0	0	12	8	0
,, each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
,, a part of the Calcutta Series purchased separately, *inclusive of postage in India*				2	0	
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*				1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.			For mofussil.		
	R	a.	p.	R	a.	p.
For the Calcutta Series; per copy . .	0	8	9	0	10	3
,, each of the Madras, Bombay, and Allahabad Series; per copy . . .	0	5	3	0	5	9
,, the Calcutta Series. For the year .	7	2	6	8	6	3
,, each of the Madras, Bombay, and Allahabad Series. For the year . .	4	4	6	4	11	3

Persons desiring to subscribe for, or purchase, the Report should apply to—
Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue	R 20	R 14	R 9
,, three issues	,, 55	,, 36	,, 24
,, six ,,	,, 100	,, 68	,, 45
,, nine ,,	,, 145	,, 96	,, 64
,, twelve ,,	,, 180	,, 120	,, 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
Bengal Law Reports, for one year . .	20	0	0	22	8	0
Single copies, R2 per copy.						
Full Bench Rulings, Parts I and II . . .	20	0	0	22	8	0

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

BOOKS AND PUBLICATIONS

FOR SALE BY THE

SUPERINTENDENT OF GOVERNMENT PRINTING, INDIA,

8, HASTINGS STREET, CALCUTTA.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

RAILWAY STATISTICS.

RETURNS OF ACCIDENTS ON INDIAN RAILWAYS FOR THE TWELVE MONTHS ENDING WITH THE 31st DECEMBER 1895.

No. 402 R. Stat., dated Simla, the 9th October 1896.

RESOLUTION—By the Government of India, Public Works Department.

Read again—

Government of India resolution No. 402 R. Stat., dated the 31st August 1892.

Government of India resolution No. 300 R. Stat., dated the 3rd August 1893.

Government of India resolution No. 293 R. Stat., dated the 30th July 1894.

Government of India resolution No. 378 R. Stat., dated the 6th September 1895.

Read also—

Note by the Director General of Railways, No. 394 Stat., dated the 25th September 1896, with abstract returns of accidents to trains, etc., on the open lines of railway in India for the twelve months ending with the 31st December 1895.

OBSERVATIONS—

I.—Accidents to trains, rolling-stock, permanent-way, etc.

Accidents to trains, rolling-stock, permanent-way, etc., during the twelve months ending with the 31st December 1895, as shewn under Abstract No. 4,

on pages 14 and 15 of the accompanying returns, caused the death of 24 and injury to 81 persons. The number of casualties was very much below the average of the four previous years, while the number of accidents was only slightly above the average, as will be seen from the following table, which compares the total number of accidents and the casualties resulting therefrom with the average of the four previous years under the heads "Standard gauge," "Metre gauge" and "Special gauges." The large decrease in the number of casualties was due to the occurrence of serious accidents, involving considerable loss of life and injury to passengers, at Okára on the North Western (state) railway, and Khápri on the Great Indian Peninsula railway in 1891, and at Periyanaikanpalayam on the Madras railway in 1893.

	Number.			Number of passengers and others.		Number of servants.		Total all classes.	
	Accidents reported to Local Governments under section 83 of the Indian Railways Act (IX of 1890).	Other accidents.	Total.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard gauge.									
Twelve months ending with the 31st December 1895	86	2,274	2,360	(a)11	(b)41	5	19	16	60
Average of the four previous years	112	2,262	2,374	(c)31	(a)66	10	50	41	116
Metre gauge.

Average of the four previous years	40	1,912	1,952	(f)3	(a)26	7	15	10	41
Special gauges.									
Twelve months ending with the 31st December 1895	3	68	71	...	(d)1	...	3	...	4
Average of the four previous years	5	61	66	...	...	...	1	...	1
Total all gauges for the twelve months ending with the 31st December 1895	161	4,245	4,406	(e)13	(g)51	11	30	24	81
Average of the four previous years	157	4,235	4,392	(d)34	(h)92	17	66	51	158

2. It will be seen, however, from the table below that the increase in the number of accidents was small in comparison with the increase in the mean mileage worked and in the train-mileage run during the twelve months ending with the 31st December 1895, as compared with the average of the four previous years:—

	Increase or decrrease, as compared with the average of 1891, 1892, 1893 and 1894.					
	Accidents.		Main mileage.		Train-mileage.	
	No.	Per cent.	Miles.	Per cent.	Miles.	Per cent.
Standard	—14	—0·59	+610	+5·83	+2,241,428	+5·26

Special	+5	+7·58	+3	+1·14	+2,059	+0·47
Total	+14	+0·32	+1,131	+6·30	+3,454,106	+5·54

(a) Of these, three were not passengers.
(b) Of these, eight were not passengers.
(c) Of these, four were not passengers.
(d) Not passengers.
(e) Of these five, were not passengers.
(f) Of these, one was not a passenger.
(g) Of these, fourteen were not passengers.
(h) Of these, six were not passengers.

3. Although the general total was slightly above the average, there were large variations on the standard and metre-gauge railways in the number of accidents of different classes, as compared with the average of the four previous years, as will be seen from the following statement which exhibits them under the different classes :—

Gauge and classification.	Increase or decrease.			Percentage of increase or decrease.
	Serious.	Minor.	Total.	
Standard gauge.				
Collisions between passenger trains and goods or mineral trains, engines and vehicles standing foul of the line	−8	−4	−12	−38·71
Collisions between goods trains or parts of goods trains	+2	+15	+17	+25·76
Passenger trains or parts of passenger trains leaving the rails	−9	−4	−13	−27·66
Goods trains or parts of goods trains, engines, etc., leaving the rails		−42	−42	−20·69
Trains or engines travelling in the wrong direction through points	−1	+15	+14	+29·79
Trains running over cattle on the line	−1	+57	+56	+6·19
Trains running over obstructions on the line	+4	+16	+20	+21·51
The bursting of tubes, etc., of engines	+1	+35	+36	+41·38
The flooding of portions of permanent-way	−5	−12	−17	−30·36
Slips in cuttings or embankments	−5	−22	−27	−65·85
Fire in trains	+1	−12	−11	−11·96
Under the head "Other accidents"	−3	−28	−31	−18·56
Metre gauge.				
Passenger trains or parts of passenger trains leaving the rails	+10	+6	+16	+41·03
Goods trains or parts of goods trains, engines, etc., leaving the rails	−2	−31	−33	−27·50
Trains or engines travelling in the wrong direction through points	+7	+18	+25	+100·00
Trains running over cattle on the line	+1	−24	−23	−2·23
Trains running over obstructions on the line	+10	+6	+16	+28·07
The bursting of tubes, etc., of engines		−15	−15	−19·48
The failure of machinery, springs, etc., of engines		−15	−15	−9·15
The flooding of portions of permanent-way	−6	−4	−10	−19·23
Fire in trains	+1	+24	+25	+56·82
Under the head "Other accidents"	+10	+16	+26	+46·43

It will be observed from the foregoing, that the principal increases on the standard gauge lines occurred under "Trains running over cattle on the line," 56 accidents or 6·19 per cent.; under "Trains running over obstructions on the line," 20 accidents or 21·51 per cent.; and under "The bursting of tubes, etc., of engines," 36 accidents or 41·38 per cent.; and on the metre gauge railways under "Trains or engines travelling in the wrong direction through points," 25 accidents or 100·00 per cent.; under "Fire in trains," 25 accidents or 56·82 per cent. and under the head "Other accidents," 26 accidents or 46·43 per cent.

4. The number of cattle accident was largest on the Southern Mahratta railway, *viz.*, 296; next to that line comes the South Indian railway with 272, then the Rajputana-Malwa railway with 197, the North Western (state) railway with 181, the East Indian railway with 152, the Madras railway with 129, the Nizam's Guaranteed State railway with 107, the Great Indian Peninsula railway with 80, and the Eastern Bengal (state) railway (standard gauge section) with 75.

In relation to the train-mileage run, the number was highest on the Cooch Behar railway which gave an average of 1 accident in 5,554 train-miles run; the Nizam's Guaranteed State railway coming next with an average of 1 in 7,099; then the Dibru-Sadiya, the Southern Mahratta, the South Indian and the Jorhát (state) railways with averages of 1 in 8,619, 1 in 11,311, 1 in 12,706 and 1 in 12,628 respectively.

The lowest number recorded relatively to the train-mileage run was on the Darjeeling-Himalayan railway, *viz.*, 1 in 160,603 train-miles, the Great Indian Peninsula railway coming next with 1 in 109,401, then the East Indian railway with 1 in 75,641, the Bombay, Baroda and Central India railway with 1 in 74,216, the North-Western (state) railway with 1 in 53,458, and the Bengal and North-Western railway with 1 in 52,637.

5. Under the head "Trains running over obstructions on the line," the largest number, *viz.*, 30, occurred on the East Indian railway, next to that line coming the Great Indian Peninsula and the North-Western (state) railways with 29 and 25 accidents respectively; under the head "The bursting of tubes, etc., of engines" the largest number recorded is 54 on the North-Western (state) railway; under the head "Trains or engines travelling in the wrong direction through points" the largest number, *viz.*, 17, occurred on the Rajputana-Malwa railway; and under "Fire in trains" the largest number, *viz.*, 28, occurred on the South Indian railway, next to this line on the metre gauge comes the Burma (state) railway with 23 accidents, although the next highest number, *viz.*, 26 occurred on the Great Indian Peninsula railway, standard gauge. Under the head "Other accidents" although the largest number of accidents occurred on the North Western (state) railway, standard gauge, *viz.*, 44, the increase was confined to metre gauge lines, the largest number on these railways having occurred on the Burma (state) railway, *viz.*, 37.

In relation to the train-mileage run, the total number of accidents was highest on the Jorhát (state) railway which gave an average of 1 accident in 702 train-miles; next to that line comes the Cooch Behar railway with an average of 1 in 2,083; then the Dibru-Sadiya, the Nizam's Guaranteed State, the Bengal Dooars and the Southern Mahratta railways with averages of 1 in 2,129, 1 in 4,777, 1 in 5,552 and 1 in 6,847 respectively.

The lowest number recorded relatively to the train-mileage run was on the East Indian railway, *viz.*, 1 in 30,019 train-miles, the Great Indian Peninsula railway coming next with 1 in 24,793, then the Oudh and Rohilkhand (state) railway with 1 in 24,046, the Indian Midland railway with 1 in 19,079, the Eastern Bengal (state) railway metre gauge sections with 1 in 17,701 and the Bombay, Baroda and Central India railway with 1 in 17,127.

II.—Accidents from other causes not involving accidents to trains, etc.

6. In addition to those included in Division I, the casualties to passengers, servants in the employ of railways or of contractors and to others from causes not involving accidents to trains (which are detailed in abstract No. 2) are com-

pared, separately, for each gauge, with the average of the four previous years in the table below :—

Gauges.	Twelve months ending with the 31st December 1895.								Average of the four previous years.							
	Passengers.		Servants.		Others.		Total.		Passengers.		Servants.		Others.		Total.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard	59	120	112	272	316	76	487	468	49	130	129	324	251	65	429	519
Metre	16	53	40	81	124	59	180	193	11	47	39	98	99	47	149	192
Special	...	1	...	7	2	1	2	9	...	2	1	...	1	1	2	3
Total .	75	174	152	360	442	136	669	670	60	179	169	422	351	113	580	714

It will be seen from the foregoing table, that, except under "Passengers killed" and "Others," the number of casualties has been less than the average of the four previous years.

III.—Statistical results.

7.—The following table gives certain statistical results for the period under review, comparing the number of passengers killed and injured by accidents to trains and from all causes with the number carried and the number of passenger units carried one mile. Comparative results for previous years are also given :—

Particulars.		Twelve months ending with the 31st December 1895.				Average of the four previous years.			
		Standard.	Metre.	Special.	Total.	Standard.	Metre.	Special.	Total.
Mean mileage worked . .	Miles.	11,073	7,753	266	19,092	10,463	7,235	263	17,961

Proportion of above to number carried . . .	No.	1 in 2,922,391	1 in 13,591,978	...	1 in 4,100,64	1 in 1,385,346	1 in 1,963,748	...	1 in 1,550,038
Number of passengers killed from all causes . .	No.	67	16	...	83	76	13	...	89
Proportion of above to number carried . . .	No.	1 in 1,439,390	1 in 3,397,994	...	1 in 1,828,000	1 in 1,148,380	1 in 3,474,323	...	1 in 1,497,789
Number of passengers injured from all causes .	No.	153	57	1	211	193	70	2	265
Proportion of above to number carried . . .	No.	1 in 630,321	1 in 953,823	1 in 916,918	1 in 719,071	1 in 452,212	1 in 645,213	1 in 430,109	1 in 503,031
Number of passengers killed and injured from all causes	No.	220	73	1	294	269	83	2	354
Proportion of above to number carried . . .	No.	1 in 438,360	1 in 744,766	1 in 916,918	1 in 516,068	1 in 324,449	1 in 544,171	1 in 430,109	1 in 376,563
Proportion of passengers killed and injured from all causes to number of passenger units carried one mile	No.	1 in 18,559,690	1 in 28,161,801	1 in 24,770,696	1 in 20,965,013	1 in 13,848,921	1 in 21,356,435	1 in 11,093,303	1 in 15,590,564

It will be seen that the proportion of casualties under the several heads compares very favourably with the average of the four previous years.

8. From abstract No. 5 it appears that during the year 1895, the proportion of passengers killed from causes beyond their own control was high as compared with the ten preceding years, excepting 1889, 1891, 1892 and 1893, the proportion of passengers injured compares very favourably excepting 1890.

IV—Casualties resulting from accidents to rains, rolling-stock, etc., for the fourth quarter of 1895.

9. The following table gives the number of accidents, as classified in abstract No. 4 of the returns, which resulted in loss of or injury to life and limb, and shows the railways on which they occurred :—

Railway.	Number of accidents reported during the 4th quarter of 1895.	Passengers and others.		Servants.		Total.	
		Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard gauge.							
East Indian				...	2	...	3
North Western (state) . .				...	...	...	2
Great Indian Peninsula . .				...	...	...	1
Bombay, Baroda and Central India .				...	1	...	1
Metre gauge.							
Bengal and North-Western . .				1	...	1	...
Assam-Bengal				...	1	...	1
Bhávnagar-Gondal-Junágarh-Porbandar				...	...	...	1
TOTAL .	9			1	4	1	9
Average of the four corresponding quarters of 1891, 1892, 1893 and 1894 .	14	27	44	5	23	32	67

The cause of the large decrease in the total number of casualties during the fourth quarter of 1895, as compared with the average of the corresponding quarters of the four previous years, is given in paragraph 1.

10. A brief description of accidents referred to in the previous paragraph is given below:

East Indian Railway.—On the 27th October 1895, a light engine running from Dinapore to Nawádih ran into a trolly at mile 234 inside the up distant signal at Gidhaur. Two men were injured in getting off the trolly.

On the 22nd December 1895, a bullock cart was run into by a goods train at the level-crossing at mile $\frac{771}{8}$ near Etáwah. The cartman was injured.

North Western (state) railway.—On the 19th November 1895, during shunting, while the engine was backing on to a horse-box standing on the main line in the Saháranpur yard, an axle-box of the vehicle was broken and a syce fell down on the floor and was injured.

On the 11th December 1895, during shunting, a third class carriage collided with a mail van in the Lahore yard, through the carelessness of the traffic staff. One of the postal sorters was slightly injured.

Great Indian Peninsula railway.—On the 21st November 1895, at mileage 35, near Kalyan, a window pane of a second class carriage attached to an up passenger train was broken by a stone thrown at the train by a boy. A passenger was slightly injured.

Bombay, Baroda and Central India railway.—On the 6th December 1895, a collision took place between a light engine standing on a siding in the running shed yard at Parel and another coming in, resulting in the derailment of the latter. A railway servant was injured.

Bengal and North-Western railway.—On the 1st November 1895, while a down mela special train was approaching Kánti station, the quilt of the pointsman who had fallen asleep at the facing points got entangled in the axle guard of a wagon. The pointsman was run over and killed, and the wagon was derailed.

Assam-Bengal railway.—On the 2nd October 1895, during a cyclone a covered goods wagon was blown away from Kumira station and ran to mile 37. A gangman was knocked down and slightly injured.

Bhávnagar-Gondal-Jundgarh-Porbandar railway.—On the 21st November 1895, a mail train ran into a cart at the level-crossing at mile $\frac{54}{8}$, between Láthi and Dhasa. The cartman was slightly injured.

RESOLUTION.—The Government of India notices that, with an increase of 1,131 miles or 6·30 per cent. in the mean mileage worked and of 3,454,106 miles or 5·54 per cent. in the train-mileage run, the number of accidents to trains, rolling-stock, permanent-way, etc., on Indian railways during 1895, shows an increase of 14 accidents or 0·32 per cent, only as compared with the average of the four previous years.

2. The number of passengers killed and injured by accidents to trains, etc., were 8 and 37 respectively against 29 and 86, the averages of the four previous years; while the numbers of passengers killed and injured from causes other than accidents to trains, etc., were 75 and 174 respectively against 60 and 179.

3. Out of a total of 151,723,981 passengers travelling, there were 83 killed and 211 injured, or an average of 1 killed in 1,828,000 and 1 injured in 719,071.

The proportion of passengers killed and injured by train accidents from causes beyond their own control, as compared with the numbers travelling, was 1 killed out of 18,965,498 and 1 injured out of 4,100,648.

4. The casualties to servants in the employ of railways or of contractors from accidents to trains, etc., were 11 killed and 30 injured, against 17 and 66, respectively, the average of the four previous years. From causes other than accidents to trains, etc., the casualties were 152 killed and 360 injured, against 169 killed and 422 injured.

5. With an increase of 6·30 per cent. in the mean mileage worked and 5·54 per cent. in the train-mileage run, it is observed that the total number of casualties from all causes over the whole of the Indian railway system, as compared with the average of the four previous years, increased under killed from 631 to 693 or by 9·83 per cent. and decreased under injured from 872 to 751 or by 13·88 per cent.

ORDER.—Ordered, that this resolution, with the abstract returns and appendices thereto, be communicated, for information, to the Local Governments and Administrations, and to the Officers noted in the margin.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg.
The Resident at Hyderabad.
The Resident in Mysore.
The Agents to the Governor General for Rajputana, Central India, and Baluchistan.
The Director General of Railways.
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow, and Assam.

Ordered, also, that copies be forwarded for the information of Her Majesty's Government.

Ordered, further, that this Resolution, with the abstract returns, be published in the Supplement to the *Gazette of India*.

G. A. ANDERSON,
Offg. Under Secretary.

Document accompanying.

Abstract returns of accidents for the twelve months ending with the 31st December 1895.

Enclosure to Government of India No. 402R. Stat., dated the 9th October 1896.

ABSTRACT No. 1.

General Total.

Number of persons reported, during the twelve months ending with the 31st December 1895, as killed or injured on all railways open for traffic in India, distinguishing between passengers, railway servants, and other persons; and distinguishing also, in the case of the two former classes, between accidents caused by accidents to trains, rolling-stock, permanent-way, etc., and accidents happening otherwise.

	Standard gauge lines		Metre gauge lines		Special gauge lines		Total all gauges.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 29th October 1896.

NOTIFICATIONS.

No. 3092 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, during the week ending 24th October 1896, under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888:—

No. 353 of 1896.—Emil Lawrence Oppermann, engineer, of 27, Martin's Lane, Cannon Street, London, for a new or improved apparatus for use with a mercury vapour process.

No. 354 of 1896.—Charles Wylde Hughes, wine merchant, of 27, Martin's Lane, Cannon Street, London, for improvements in hair pins.

No. 355 of 1896.—Bishambar Nath, assistant engineer, Provincial Works, Multan, for a country oil-lamp.

No. 356 of 1896.—William Lindsay, contractor, of Ann Street, Brisbane, in the colony of Queensland, for an enlarging bit for well boring by the cable or pole system.

No. 357 of 1896.—Andrew Campbell, works manager, and James Urie, engineer, of Rangoon, British Burma, for an apparatus for filling oil tins.

No. 358 of 1896.—Henry William Smith, cotton spinner, Goosery Cotton Mills, Goosery, near Calcutta, for an improved bottle.

No. 359 of 1896.—Francis Gascoigne Lynde, civil engineer, residing at Glenview Hotel, Coonoor, Madras presidency, for protecting the contents of bottles.

No. 360 of 1896.—Jahar Lal Dhar, scientist, of 97, Beadon Street, Calcutta, for a smokeless kerosine lamp.

No. 361 of 1896.—Daniel Mayer, pianoforte maker, of 18, Great Marlborough Street, in the county of London, for improvements in or relating to resonators for stringed instruments, particularly pianofortes.

No. 362 of 1896.—Charles Frederick Cross, analytical chemist, of No. 4, New Court, Carey Street, in the county of London, for improvements in the manufacture of alkali cellulose.

No. 363 of 1896.—Herbert Samuel Elworthy, F.C.S., M.S.C.I., technical and analytical chemist, of Bombay, for improvements in the manufacture of carbonic acid gas, and in apparatus therefor.

No. 364 of 1896.—William Hugh Woodcock, civil engineer, of 25, Auckland Hill, West Norwood, in the county of Surrey, for improvements in roller bearings.

No. 365 of 1896.—Charles Frederick Cross, analytical chemist, of No. 4, New Court, Carey Street, in the county of London, for the manufacture of soluble cellulose, and of products therefrom.

No. 3093 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of Act V of 1888, in the office of the Secretary appointed under the Inventions and Designs Act, 1888. Copies have been sent to the Governments of Fort St. George and Bombay, the Chief Commissioner of Burma, and the Director, Department of Land Records and Agriculture, North-Western Provinces and Oudh. A copy of every specification is open to public inspection, from 11 A.M. to 4 P.M., at the office of the Secretary, appointed under the Inventions and Designs Act, 1888, in the Imperial Secretariat Buildings, Government Place, West, Calcutta, upon payment of a fee of one rupee. A certified copy of any specification will be given to any person requiring the same on payment of the expense of copying:—

No. 239 of 1895.—William L. Strange, executive engineer, Public Works Department, for an improved latrine for natives. (Specification filed 18th August 1896.)

No. 375 of 1895.—Henry Berry, mechanical engineer, of the Croydon Works, Hunslet, Leeds, in the county of York, for an improved bale extractor for cotton presses. (Specification filed 8th October 1896.)

No. 21 of 1896.—Arthur Harry Briggs, spinner and manufacturer, of Bradford, in the county of York, for improvements in rollers for drawing and spinning machinery. (Specification filed 8th October 1896.)

No. 41 of 1896.—Henry George Hills, tea planter, at present manager of the Silcoorie tea estate, residing at Silcoorie, in the district of Cachar, Assam, for a tea sifter or sorter for the sorting of green or "kachcha" tea leaf. (Specification filed 9th October 1896.)

No. 45 of 1896.—Alfred George Browning, gas engineer, of 19, Duke Street, Moss side, Manchester, for improvements in pumps. (Specification filed 8th October 1896.)

No. 123 of 1896.—Gustaf Ferdinand Flodman, engineer, of 85B, Folkkungagatan, Stockholm, Sweden, for improvements in diaphragm pumps driven by steam. (Specification filed 8th October 1896.)

No. 128 of 1896.—Michael Kirshner, machinist and mechanical engineer, of Salem, Virginia, United States of America, for improvements in cigarette machines. (Specification filed 8th October 1896.)

No. 156 of 1896.—John Isaac Thornycroft, engineer, of Church Wharf, Chiswick, in the county of Middlesex, for improvements in water-tube boilers. (Specification filed 8th October 1896.)

No. 146 of 1896.—Wasudeo Balwant Soman, head clerk, Indo-China Mills, residing at No. 20, Parel Road, Cross Lane, Bombay, for an improved sizing machine. (Specification filed 7th October 1896.)

No. 159 of 1896.—Adolf Schmidt, director of the Aktiengesellschaft für Trebertrocknung, of 49, Koelnische Strasse, Cassel, in the German Empire, for improvements in the dry distillation of wood, wood waste and like materials, and in apparatus therefor. (Specification filed 8th October 1896.)

No. 161 of 1896.—William Henry Coward, engineer, of Hastings Villa, Bexley Road, Erith, in the county of Kent, for improvements in crushing and grinding mills. (Specification filed 8th October 1896.)

No. 162 of 1896.—William Henry Coward, engineer, of Hastings Villa, Bexley Road, Erith, in the county of Kent, for improvements in apparatus for concentrating, grading or classifying crushed ore and other matters. (Specification filed 8th October 1896.)

No. 183 of 1896.—Kedarnath Chakravarti, teacher, South Suburban School, Bhowanipore, residing at No. 21, Rani Sunkari's Lane, Kalighat, for an apparatus for printing, entitled "The easy Printer." (Specification filed 7th October 1896.)

No. 189 of 1896.—Andrew Pillatt, mechanical engineer, of 2, Notintone Place, Sneinton, in the town and county of the town of Nottingham, for improvements in or relating to furnace fire bars. (Specification filed 8th October 1896.)

No. 278 of 1896.—Henry Bingham, dentist, of Ascot Vale, in the colony of Victoria, for improvements in bicycle and like tyres. (Specification filed 9th October 1896.)

No. 298 of 1896.—Surgeon-Lieutenant-Colonel Henry W. B. Boyd, Indian Medical Service, residing at Colaba, Bombay, for an improved warning bell or alarm for vehicles.

No. 3094 P.—THE fee prescribed in Schedule 4 of Act V of 1888 has been paid for the continuance of exclusive privilege in respect of the undermentioned invention for the period shown against it:—

No. 75 of 1892.—Sir William Thomson (Lord Kelvin), professor of natural philosophy in the university of Glasgow, in the county of Lanark, for improvements in valves for water, steam, and other liquids or gases. (From 5th November 1896 to 4th November 1897.)

No. 3095 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling and using the said inventions in British India and of authorizing others so to do has ceased:—

No. 188 of 1891.—M. Muhammad Husain's invention for a hand-power road picking and ramming machine. (Specification filed 13th July 1892.)

No. 288 of 1891.—John MacPherson's invention for the improvement and better construction of water closet pans and traps, called the "Anti-splash closet." (Specification filed 13th July 1892.)

No. 314 of 1891.—A. Coulomb's invention for improving the means usually employed for the removal of oil paints and varnish, and French polish. (Specification filed 22nd July 1892.)

No. 344 of 1891.—Joseph Yates' invention for an appliance to facilitate taking pills. (Specification filed 19th July 1892)

No. 345 of 1891.—Archibald Constable's invention for improvements in means for the protection of books. (Specification filed 15th July 1892.)

No. 40 of 1892.—Eleanor Lotinga's invention for improvements in the construction of go-carts and other like vehicles whereby they are rendered convertible from one form of vehicle to another. (Specification filed 12th July 1892.)

No. 79 of 1892.—Jules Ferdinand Théophile Schwalb's invention for improvements in apparatus for regulating or controlling the passage of the heated gases in the tubes of locomotive or other steam boilers. (Specification filed 22nd July 1892.)

No. 84 of 1892.—Charles Augustus Pooley's invention for automatic couplings for railway coaches, trucks, wagons, cars and like vehicles (Specification filed 18th July 1892.)

No. 92 of 1892.—The Noble Mining and Milling Company's invention for a new and improved mode of saving and collecting gold and silver from their ores, and of treating ores and saving and collecting fine and float gold. (Specification filed 23rd July 1892.)

No. 93 of 1892.—William Priessnitz Bonwick's invention for improvements in bottle stoppers. (Specification filed 16th July 1892.)

No. 122 of 1892.—Albert Priestley and Alfred Butterworth's invention for improvements in match making. (Specification filed 13th July 1892.)

Fee in respect of the continuance of an exclusive privilege—

(a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the said inventions.

No. 193 of 1890.—The Mechanical Spirit Maturing Syndicate's invention for improvements in maturing spirits and other liquors, and apparatus connected therewith. (Specification filed 21st July 1891.)

Fee in respect of the continuance of an exclusive privilege—

(b) After the filing of the specification and before the expiration of the fifth year from the date of the filing thereof—

The sum of R50 for the said invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office, are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

A. T. PRINGLE,

Offg. Secy. under the Inventions and Designs Act, V of 1888.

Akyab, Kyaukpyu, Sandoway, and Rangoon	4th „	Ditto.
Port Blair	3rd „	*Viâ* Rangoon.
Mauritius, Réunion, Mayotte, Nossi Be, Delagoa Bay, Natal, and Cape Colony.	6th „	*Viâ* Tuticorin and Colombo.

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the Steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any Steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a Steamer not belonging to one of the regular lines.

N.B.—The latest hour of posting at the General Post Office for (*a*) Benares, Jaunpur, Azamgarh, Fyzabad, Sultanpur, Bara Banki, Baraich, Lucknow, and other places served through the Oudh and Rohilkhand Railway between Moghalserai and Lucknow, and (*b*) for Durbhungha, Mozaffurpur, Matihari, and other places served through the Tirhut Section of the Bengal and North-Western Railway will stand as at present, *i.e.*, 7 P.M., without a late fee, 7 to 7-30 P.M. with a late fee of half anna, and 7-30 to 8-15 P.M. with a late fee of one anna.

The letter-box for Inland articles (including articles for Burma and Port Blair and for Ceylon by land route) will be cleared for the last time for articles without the late fee at 7-30 P.M. precisely; after which hour Inland letters and papers fully prepaid and bearing an extra postage stamp of half anna will be received up to 8 P.M. and up to 8-45 P.M. with a late letter fee of 1 anna for the Chord Mail only.

On the day of despatch of the Mail for the Australasian Colonies and the Far East *viâ* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 8-30 P.M., and late letters and papers fully prepaid will be received up to 9 P.M.

On the day of despatch of the Mail for Europe, the letter-box for Foreign articles will be cleared for the last time for articles without the late-fee at 9 P.M., and late letters and papers fully prepaid will be received up to 9-30 P.M. On other days the letter-box for Foreign articles will be cleared for the last time for articles without the late-fee at 7-30 P.M., and late letters and papers will be received up to 9 P.M. for despatch by any Foreign Mails despatched the same night. The late-fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

JOHN OWENS,
Presidency Postmaster, Calcutta.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1896, the price of this Quinine will be as follows:—

1-pound tin,	R18,	or, post free,	R18-12.
½	,,	R 9,	,,	R9-8.
¼	,,	R4-8,	,,	R5.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৬ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	.	১৮৲ বা ডাকমাশুল বিনা	১৮৸৹
½ আধ ,,	,,	৯৲	,,	৯।৹
¼ সিকি ,,	,,	৪।৹৲	,,	৫৲

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনিডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments (electrum) are available at the College Book Depôt at R62 per box. Drawing Instruments, drawing materials, etc., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I*

Section	I.	**Building Materials**	(1895),	R2-0.
"	II.	**Masonry**	(1891),	R1-4.*
"	III.	**Carpentry**	(1889),	R1-4.
"	IV.	**Earthwork**	(1892),	R1-4.
"	V.	**Tools and Plant** (never published).		

VOLUME II*

Section	VI.	**Buildings**	(1891),	R1-4.
"	VII.	**Bridges**	(in the Press).	
"	VIII.	**Roads**	(in the Press).	
"	IX.	**Railways**	(1891),	R1-4.
"	X.	**Irrigation Works**	(1873),	R1-2.

Roorkee Treatise on Civil Engineering, Vol. II (1867 edition). R3.

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R6.

" II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition), with Curve Table (in the Press).

XIII **Drawing** (by Lieut. R. Pulford, R.E.).† R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics** (2nd edition), Parts I and II in one. R3.

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition) (in the Press).

XVI. **Earthwork Estimating**, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. 4a.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 10 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

* Date of Edition on sale.

† Originally published at R15, reduced to R8.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.

Principal, Thomason College, Roorkee

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage*. . . . R22-8.

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
For the Calcutta Series	10	0	0	12	8	0
" each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
" a part of the Calcutta Series purchased separately, *inclusive of postage in India*	...			2	0	0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.			For mofussil.		
	R	a.	p.	R	a.	p.
For the Calcutta Series; per copy . .	0	8	9	0	10	3
" each of the Madras, Bombay, and Allahabad Series; per copy . . .	0	5	3	0	5	9
" the Calcutta Series. For the year .	7	2	6	8	6	3
" each of the Madras, Bombay, and Allahabad Series. For the year . .	4	4	6	4	11	3

Persons desiring to subscribe for, or purchase, the Report should apply to—
Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue . . .	R 20	R 14	R 9
" three issues . . .	" 55	" 36	" 24
" six " . . .	" 100	" 68	" 45
" nine " . . .	" 145	" 96	" 64
" twelve " . . .	" 180	" 120	" 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
Bengal Law Reports, for one year . .	20	0	0	22	8	0
Single copies. R2 per copy.						
Full Bench Rulings, Parts I and II . .	20	0	0	22	8	0

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, OCTOBER 31, 1896.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Lost or Stolen.

Debenture No. 14975, of the 5 per cent. Bombay Municipality Tansa Water Works Loan, for R500, originally standing in the name of the Agra Bank, Limited, and Debentures Nos. 15542, 15543, 15544, 15545 and 15546, of the 5 per cent. Bombay Municipality Tansa Water Works Loan, for R500 each, originally standing in the name of the Hongkong and Sanghai Banking Corporation, and last endorsed to Krishnabai, widow of Bapuji Vishwanath Kale, the proprietress, by whom they were never endorsed to any other person. Payment of the above Debentures and the interest thereupon have been stopped at the Bank of Bombay, and application is about to be made to Municipal Commissioner for the city of Bombay, for payment of interest and the issue of duplicates.

KRISHNABAI,

Widow of Bapuji Vishwanath Kale,
Shanwar Peith, Gadgil's Wada,
opposite Bara Jotilinga, Poona.

SUPPLEMENT TO

The Gazette of India.

No. 44.} CALCUTTA, SATURDAY, OCTOBER 31, 1896.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

PART I.

Government of India Notifications, Appointments, Promotions, &c.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Simla, the 28th October, 1896.

No. 23.—The Meeting of the Council of the Governor General for the purpose of making Laws and Regulations which was fixed for Thursday, the 29th instant, will, by order of His Excellency the Governor General, not be held.

In exercise of the power conferred on him by section 17 of the Indian Councils Act, 1861 (24 & 25 Vict., cap. 67), the Governor General in Council has been pleased to direct that the Council be adjourned till further orders.

The 29th October, 1896.

No. 24.—His Excellency the Governor General has been pleased to accept the resignation by the Honourable Mr. C. M. Rivaz, C.S.I., of his office of Additional Member of the Council of the Governor General for the purpose of making Laws and Regulations.

S. HARVEY JAMES,
Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Simla, the 30th October, 1896.

No. 1713.—In exercise of the power conferred by the Statute 33, Viet., Cap. 3, section 6, and in continuation of the rules published in the Notifications marginally noted, the Governor General in Council has been pleased to make the following rule which has been sanctioned by the Secretary of State in Council with the concurrence of a majority of the members present:—

No. 2150, dated 2nd November 1892.
No. 17, dated 24th January 1895.
No. 1859, dated 8th November 1895.
No. 601, dated 20th March 1896.

The Government of Bombay may appoint any Subordinate Judge, being a member of the Provincial Civil Service and a Native of India of proved merit and ability, to be also an Assistant Sessions Judge.

ESTABLISHMENTS.

The 24th October, 1896.

No. 802.—The services of Mr. H. J. S. Cotton, C.S.I., of the Indian Civil Service, are replaced at the disposal of the Government of Bengal.

The 29th October, 1896.

No. 806.—Mr. S. Harvey James is permitted to resign Her Majesty's Indian Civil Service with effect from the 8th November 1896, or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave.

The 30th October, 1896.

No. 811.—Mr. W. Crooke has been permitted to resign Her Majesty's Indian Civil Service, with effect from the 28th August 1896.

EXAMINATIONS.

The 29th October, 1896.

No. 409.—With reference to Rules 5 and 10 of the Rules published with Home Department Resolution No. 2 Ex.—188—199, dated 5th June 1894, and to Rules 2 and 6 published with the Resolution of the Government of Bengal, No. 364 T.-F., dated 10th October 1894, it is hereby notified that the examination prescribed for filling up vacancies in the Lower Division of the Secretariat Clerical Service of the Government of India and attached offices and in the Clerical Establishments of the offices subordinate to the Government of Bengal, will be held at Calcutta in the Senate House of the Calcutta University, and at Allahabad and Lahore at the places to be appointed by the Governments of the North-Western Provinces and Oudh, and the Punjab, respectively, in January 1897. The exact dates will be notified hereafter. The hours of examination will be from 10 A.M. to 1 P.M., and from 1-30 P.M. to 4-30 P.M., daily.

The probable number of vacancies in the Lower Division of the Secretariat Clerical Service of the Government of India and attached offices to be competed for is eighteen. Of these, nine will be reserved for candidates domiciled in the North-Western Provinces and Oudh, the Punjab, the Central Provinces, Rajputana, Central India, and Baluchistan, provided that a sufficient number of such candidates, duly qualified, appear for the examination to be held at Allahabad and Lahore. The remaining nine vacancies will be offered for competition among the candidates examined at Calcutta, and such candidates, temporarily resident but not domiciled in any of the Provinces enumerated above, as may be permitted to present themselves for examination at Allahabad and Lahore.

The probable number of vacancies in the offices subordinate to the Government of Bengal is nine. These will be reserved for candidates examined at Calcutta.

Candidates should pay the prescribed fee (Rs 10) into the nearest Treasury and forward the Treasury receipt to the Secretary to the Board of Examiners, Calcutta. Candidates paying their fees in Calcutta should pay them into the Bank of Bengal.

Application for permission to appear at the examination should be made to the Secretary to the Board of Examiners, Calcutta, between the date of this Notification and the 15th December next (inclusive).

The attention of intending candidates is called to Rule 9 of the Rules published with the Home Department Resolution of the 5th June 1894, and to Rule 5 of the Rules published with the Resolution of the Government of Bengal of the 10th October 1894, as amended by Notification No. 877-T.-F., dated 17th October 1896, prescribing the particulars and documents* which should accompany the application for permission to appear at the examination.

* *Particulars and documents prescribed in Rule 9 of the Rules published with the Home Department Resolution of 5th June 1894.*

(1) Evidence that the candidate at the date of making his application is not less than 18 and not more than 24 years of age. The date of the candidate's birth must be stated.

(2) In case the candidate has been educated at a school in which students' good conduct registers are kept, the candidate's register for the last year of his attendance at school when a year has not elapsed since he left school. In other cases, a certificate that the candidate is of good moral character from the head of the institution in which he has last been educated, or from some respectable householder to whom he is well known in private life, and who is himself known to a District or Sub-Divisional Magistrate or to the head of some Government office—this last fact being certified by the countersignature of the officer in question.

Particulars and documents prescribed in Rule 5 of the Rules published with the Resolution of the Bengal Government of the 10th October 1894, as amended by Notification No. 877-T.-F., dated 17th October 1896.

(1) The candidate's certificate of the Entrance or any higher University Examination, or of standard VII prescribed by the Code for European Schools.

(2) Evidence that the candidate at the date of making his application is not less than 18 and not more than 24 years of age. The date of the candidate's birth must be stated.

(3) In case the candidate has been educated at a school in which students' good-conduct registers are kept, and in case a year has not elapsed since he left school, a copy of the candidate's register for the last year of his attendance at school certified by the Head Master. In other cases a certificate that the candidate is of good moral character from the head of the institution in which he has last been educated, or from some respectable householder to whom he is well known in private life, and who is himself known to a District or Sub-Divisional Magistrate or to the head of some Government office—this last fact being certified by the countersignature of the officer in question.

MEDICAL.

The 30th October, 1896.

No. 945.—Surgeon-Major H. Headly, I.M.S. (Bengal), Civil Surgeon, Dharmsala, to be Joint Medical Officer of Simla, in succession to Surgeon-Major J. Moorhead, with effect from the date on which he may assume charge of his duties.

No. 946.—The services of Surgeon-Major J. Moorhead, M.D., I.M.S., Bengal, are replaced at the disposal of the Government of Bengal, with effect from the date on which he may be relieved of his present duties.

SANITARY.

The 2[illegible]th October, 1896.

No. 369.—The following rules for quarantine against plague which have been made by the Chief Commissioner of Burma in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information.

The rules have effect from the 2[illegible]th October 1896, as a temporary measure in the Port of Rangoon:

I.—The commander of every vessel, including junks or other native craft, arriving from Bombay, shall, on arrival at the pilot brig hoist a yellow flag and indicate by signal the port from which she has come.

II.—Such commander shall not, except as hereinafter provided, allow any communication either with the shore or with any other vessel or boat except with the boat supplying a pilot from the pilot brig, and in that case communication shall be limited to receiving on board the pilot, his servant, if any, and baggage.

III.—The pilot shall not take such vessel higher than Elephant point, but shall anchor it there until the Health Officer of the Port has visited it and ascertained by enquiry from the commander whether any person on board is suffering, or has during the voyage suffered, from plague. If the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, or if the vessel has undergone since leaving Bombay a quarantine which is properly proved for not less than eight days at Colombo or some other British port, the Health Officer shall, by writing under his hand to be delivered to the commander, permit such vessel to haul down the yellow flag and proceed upwards in the port and hold free communication with the shore and with vessels and boats in port. If the ship has not undergone eight days' quarantine at Colombo or some other British port since leaving Bombay, the Health Officer shall direct the commander to take the vessel to the quarantine anchorage and there to remain for a period of eight days from the date of arrival in the harbour. The Health Officer shall also

direct the commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for between such vessel and the shore, or other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days' intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Chief Commissioner as places of quarantine, there to remain for a period of eight days, or, if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Conservator of the Port to facilitate the conveyance to all vessels in quarantine or such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Rangoon, which may have communicated with any vessel coming from Bombay, shall be subjected to the same quarantine as vessels arriving at Rangoon from Bombay, unless the communication was held after the vessel from Bombay was released from quarantine.

ECCLESIASTICAL.

The 30th October, 1896.

No. 307.—The services of the Reverend J. P. Dyer, Chaplain of Dagshai, are replaced at the disposal of the Chief Commissioner of Burma, with effect from the date on which he may be relieved of his present duties.

No. 308.—The services of the Reverend C. H. Richards, a Junior Chaplain on the Bengal (Rangoon) Ecclesiastical Establishment, are placed at the disposal of the Government of the Punjab, with effect from the date on which he may receive charge at Dagshai.

J. P. HEWETT,
Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

The 29th October, 1896.

No 1737-*G.*—Lieutenant F. C. Webb Ware, Indian Staff Corps, Squadron Officer, 7th Bombay Lancers, is appointed to officiate as a Political Assistant of the 3rd Class, and is posted as Assistant Political Agent in Zhob, with effect from the 25th August 1896.

No. 1742-*G.*—Surgeon-Captain W. E. A. Armstrong, Indian Medical Service (Madras), officiating Residency Surgeon, Nepal, is appointed to be Medical Officer of the Erinpura Irregular Force, with effect from the 5th September, 1896, *vice* Surgeon-Major W. H. Neilson, M.B., appointed Civil Surgeon of Bikanir.

Surgeon-Captain Armstrong will continue to officiate as Residency Surgeon in Nepal.

No. 1746-*G.*—The undermentioned officer has been granted an extension of leave by the Secretary of State for India:

Lieutenant S. A. Cooke, Indian Staff Corps, Squadron Officer, 2nd Regiment, Central India Horse (p. a), for fourteen days.

No. 2937-*F.*—Mr. W. S. Davis, Assistant Political Officer for Dir and Swat, is appointed to officiate as Political Officer for Dir and Swat, with effect from the date of assuming charge and during the absence on privilege leave of Major H. A. Deane, C.S.I., Indian Staff Corps, or until further orders.

The 30th October, 1896.

No. 1755-*G.*—Lieutenant W. J. P. Preston, 2nd Battalion, The Duke of Cambridge's Own (Middlesex Regiment), is appointed to officiate as Wing Officer (on probation), Mewar Bhil Corps, with effect from the 24th October, 1896.

The 31st October, 1896.

No. 3387-*I.-B.*—In exercise of the powers conferred by sections 16, 47, 84, 85 and 135 of the Indian Railways Act (IX of 1890), read with section 148, sub-section (1) of the same Act, as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department, No. 3352-I., dated the 23rd March, 1891, the Governor-General in Council is pleased to issue the following orders:

I.—The use of locomotive engines or other motive power, and rolling stock to be drawn or propelled thereby is sanctioned on all railways within the aforesaid districts whether they are for the time being—(*a*) used for the public carriage of passengers, animals or goods; or (*b*) under construction or sanctioned for construction.

II.—The general rules for working open lines of railway which were published under the Notification of the Government of India in the Public Works Department, No. 118, dated the 21st March, 1895, in the *Gazette of India* for 1895, Part I, page 173, shall, subject to such modifications as may from time to time be prescribed in respect of their application to the Great Indian Peninsular Railway, apply to all railways in the aforesaid districts, and for the time being used for the public carriage of passengers, animals or goods.

III.—The general rules for working railways under construction and not used for the public carriage of passengers, animals or goods, which were published under the Notification of the Government of India in the Public Works Department, No. 480½, dated the 30th October, 1890, in the *Gazette of India* for 1890, Part I, page 795, shall apply to such portions of the railways in the aforesaid districts as may for the time being be under construction or sanctioned for construction.

IV.—Subject to the modification prescribed in the Circular of the Government of India in the Public Works Department, No. 18, Railway, dated the 2nd November, 1895, published in the *Gazette of India* for 1895, Part I, page 948, and any further modifications which may from time to time be prescribed for British India, the rules which were published with the Circular of the Government of India in the Public Works Department, No. 7, Railway, dated the 19th April, 1895, in the *Gazette of India* for 1895, Part I,

pages 336 to 338, and the directions contained in paragraphs 2 and 3 of the Resolution embodied in that Circular shall apply to the railways in the aforesaid districts.

V.—The provisions of the Notifications of the Government of India in the Public Works Department, No. 270, dated the 12th June, 1890, published in the *Gazette of India* for 1890, Part I, page 438, and No. 136, dated the 5th April, 1893, published in the *Gazette of India* for 1893, Part I, page 190, declaring railway administrations in British India to be liable to pay certain taxes in aid of the funds of local authorities, shall apply and shall be deemed to have applied (save as regards any tax actually paid or accrued due before the date of this Notification) with effect from the dates which they bear, respectively, to the administrations of the railways existing in the aforesaid districts.

VI.—The Resolution of the Government of India in the Public Works Department, No. 240-R. T., dated the 14th June, 1889, is hereby cancelled in so far as it relates to railways in the aforesaid districts.

H. S. BARNES,

Offg. Secretary to the Government of India.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read—

Despatch to Her Majesty's Secretary of State, No. 169, dated 6th June 1893.

Despatch from Her Majesty's Secretary of State, No. 188 (Financial), dated 21st September 1893.

Despatch to Her Majesty's Secretary of State, No. 324, dated 6th November 1895.

Despatch from Her Majesty's Secretary of State, No. 228, dated 26th December 1895.

Resolution in the Finance Department, No. 2881-P., dated 1st July 1896.

RESOLUTION.—The Governor General in Council is pleased to announce that all officers on the graded list of the Geological Survey Department are

admitted to subscribe to the Forest Officers' Provident Fund, the institution of which was sanctioned in the Resolution in the Finance and Commerce Department, No. 2881-P., dated 1st July 1896, under the rules appended to that Resolution.

2. Subscription to the Fund will be voluntary in the case of officers already in the service on the date of this Resolution, but will be obligatory in the case of all officers joining the graded list of the Geological Survey Department after the date of this Resolution.

3. Subscriptions to the Fund by deduction will begin with that payable on salaries becoming due on the 1st December 1896, but any officer may, before January 1st, 1897, pay up arrears, reckoning from the salary due on August 1st, 1896.

4. The Comptroller of India Treasuries will keep the accounts of all officers on the graded list of the Geological Survey Department.

ORDER.—Ordered that this Resolution be forwarded to the Revenue and Agricultural Department; to all Local Governments and Administrations; to the Comptroller and Auditor-General; and to all Accountants-General and Comptrollers for information.

Ordered also that the Resolution be published in the *Gazette of India*.

J. F. FINLAY,

Secretary to the Government of India.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working open lines of railway in British India administered by the Government.

Addition to Rule 7, Chapter II, Part II.

Read—

Section 47 of the Indian Railways Act, IX of 1890.

Government of India Circular No. 6 Ry., dated 12th March 1895, promulgating general rules for working open lines of railway in British India administered by the Government.

Public Works Department notification No. 118, dated 21st March 1895, publishing in the *Gazette of India* of the 23rd March 1895 the circular and the General Rules read above.

Government of India Circular No. 3 Ry., dated 22nd May 1896, promulgating certain modifications of the general rules referred to above.

Public Works Department notification No. 257, dated 20th May 1896, publishing in the *Gazette of India* of the 30th May 1896 the circular and modifications read above.

Read also—

Letter from the Director General of Railways, No. 528 T., dated the 17th October 1896.

OBSERVATIONS.—The Director General of Railways has recommended that "Bubonic fever" be added to the list of infectious or contagious disorders mentioned in rule 7, Chapter II, Part II of the general rules promulgated under Government of India Circular No. 6 Ry, dated 12th March 1895.

RESOLUTION.—The Governor General in Council is accordingly pleased, under section 47 of the Indian Railways Act, IX of 1890, to sanction the following addition to the open line general rules of 1895 being applied to the open lines of all State railways administered directly by the Government :

Rule 7, Chapter II, Part II.

Before the word " Cholera " add " Bubonic fever."

ORDER.—Ordered, that the general rules which have already been published in the *Gazettes of India* of the 23rd March 1895 and 30th May 1896 be further notified to the railway servants and to the public by a copy thereof, as herein modified, being kept open to inspection free of any charge at the stations on the several railways concerned.

Ordered, also, that a copy of this Resolution be communicated to the Chief Commissioners of Burma and Assam and the Director General of Railways for information and guidance; and that it be published under a notification in Part I of the *Gazette of India*.

The 29th October, 1896.

No. 456.—The following is published for general information :

No. 840 R. T., dated Simla, the 28th October, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules for Railways under construction.

Read—

Sections 3 (4), 16 (2), 47 and 148 (1) of the Indian Railways Act (IX) of 1890.

Government of India, Public Works Department, notification No. 480½, dated the 30th October 1890, publishing in the *Gazette of India* of the 8th November 1890, the Government of India resolution No 736 R. T., dated the 17th October 1890, and the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods.

Letter from the Government of Bombay, Public Works Department, Railway Branch, No. 2467, dated the 7th October 1896, forwarding letter No. 11346 T., dated the 29th September 1896, from the Agent, Bombay, Baroda and Central India Railway Company.

OBSERVATIONS.—The Agent, Bombay, Baroda and Central India Railway Company, has applied for leave to adopt, on the Tapti Valley Railway, the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods, which rules were published in the

4

Gazette of India of 8th November 1890, under Public Works Department notification No. 480½, dated the 30th October 1890.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules which are referred to in the foregoing observations, to such portions of the Surat-Amalner section of the Tapti Valley Railway as are situate in British territory, and which have been sanctioned for construction.

ORDER.—Ordered, that the General Rules, which have already been published in the *Gazette of India* of the 8th November 1890, be further notified to the railway servants and to the public by a copy thereof being kept open to inspection, free of any charge, in the office of the engineer in charge of the construction of the railway.

Ordered, also, that this resolution be communicated to the Government of Bombay, Public Works Department, Railway Branch, for information and guidance, and that it be published under a notification in Part I of the *Gazette of India.*

W. S. S. BISSET, *Colonel, R.E.,*
Secretary to the Government of India.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

REVIEW OF MUNICIPAL ADMINISTRATION.

No. 1-Municipalities / 140—64.

Extract from the Proceedings of the Government of India in the Home Department (Municipalities),—under date Simla, the 24th October, 1896.

Read—

The Municipal Reports of Local Governments and Administrations for the year 1894-95.

RESOLUTION.

As a sufficient period has now elapsed to enable some judgment to be formed on the results of the legislation which in 1883-85, following on the Resolution in the Home Department Nos. 17—747-759, dated 18th May 1882, systematised throughout India the methods of Local Self-Government in force in the different Provinces, it appears to the Governor General in Council desirable that a general review of the several systems, and of the outcome of their work, should be circulated for the information of Local Governments and Administrations. In order to render this review of greater utility, and with a view to partially explaining the differences which characterise the methods in force, a short summary is given of the laws in the different Provinces and of the changes which have been effected in them since 1887. The present Resolution is confined to a review of municipal administration; and the subject of Local Boards administration will be examined in orders to be issued hereafter.

2. The municipal enactments in force in 1882 outside the Presidency towns were, in *Madras*, Madras Act III of 1871 (the Towns Improvement Act), in *Bombay*, Bombay Act VI of 1873, in *Bengal*, Act V of 1876 (B.C.), in the *North-Western Provinces and Oudh*, Act XV of 1873, in the *Punjab*, Act IV of 1873, in the *Central Provinces*, Act XI of 1873 and in *Burma*, Act VII of 1874. In *Assam* the Bengal Codifying Act, V of 1876 (B.C.), was applied and remains in force there to the present day in eleven out of the fourteen Municipalities of the Province. In only three has it been found desirable to apply Act III (B.C.) of 1884. Act XV of 1873 (the North-Western Provinces and Oudh Municipal Act) was applied to *Ajmere* in 1874 and to *Coorg* in 1882. Finally the Municipalities in the *Berars* were organised under the Punjab Act, IV of 1873.

3. The issue of the orders contained in the Resolution of the 18th May 1882 led to a general remodelling of the law so as to make its provisions conform to the principles enunciated by the Government of India. The Acts noted in the margin* of the several legislatures were the immediate result, and remain to the present time the basis of municipal government in the different Provinces concerned. In Coorg the Municipalities continue to be administered under Act XV of 1873, while in the Hyderabad Assigned Districts the "Berar Municipal Law" was introduced by a Notification in the Foreign Department No. 3938-I., dated 5th November 1886.

* Madras: Madras Act IV of 1884.
Bombay: Bombay Act II of 1884.
Bengal: Act III of 1884 (B.C.).
† N.-W. P. and Oudh: Act XV of 1883.
† Punjab: Act XIII of 1884.
Burma: Act XVII of 1884.

† These Acts did not repeal Acts XV of 1873 and IV of 1873, but constituted *with them* the law under which, Municipal administration was conducted in the North-Western Provinces and Oudh and in the Punjab. In the latter Province Act IV of 1873 fell into desuetude on the passing of the Act of 1884 and was repealed by Act No. XII of 1891, prior to the passing of Act XX of the same year.

4. Under the laws in force prior to 1882 the principle of election had in a few cases only been adopted in mofussil Municipalities. One of the most important changes introduced into the legislation subsequent to that date was the general recognition and adoption of this principle in the administration of municipal towns. The principle had not been brought into practical operation in Madras before 1879, and then only experimentally in a few places; in Bombay no effect had been given to it until 1881, and in Bengal it had been tried under

Act II of 1873 (B.C.), only in the three towns of Serampore, Burdwan and Kishnaghar. In the North-Western Provinces the principle had been in operation since 1873, but was not systematically enforced, and the Central Provinces were practically the only portion of India in which popular representation was reported, up to that time, to have been successfully introduced. It was by the laws enacted during 1883 and 1884 that the policy of appointing an unofficial Chairman and Vice-Chairman, elected by the Commissioners themselves, was definitely established.

5. The following is an outline of the changes in the law which have been introduced in the different Provinces since 1884:

In Madras the District Municipal Act, IV of 1884, is now being amended by the Madras Legislative Council; but there has as yet been no change in the municipal law of that Presidency.

In Bombay Acts IV of 1885 and I of 1888, respectively, introduced some minor modifications into (*a*) the disqualifications for the office of Municipal Commissioners, and (*b*) their term of office, whether appointed or elected.

In Bengal, Act III (B.C.) of 1886 introduced into Act III of 1884 certain provisions in regard to the sale of adulterated food, and conferred on the Commissioners powers of entry for the inspection and seizure of unwholesome articles; but the only really important legislation which has been undertaken since 1884 in Bengal in modification of the law relating to mofussil Municipalities is Act IV (B.C.) of 1894. Under that Act the franchise is extended and the Bengal Sanitary Board is formally recognised as an agency by means of which facilities are afforded to Municipal Committees in arranging for the furtherance of schemes of drainage and water-supply. Provision is made for the co-operation of two or more Municipal Committees in such matters and for the allotment of costs between the Joint Committees; additional powers are given to Municipal Commissioners to intervene to prevent danger to the public health or safety, and the authority of the Commissioners in regard to building regulations is more clearly set forth. During the current year a further amending Bill has been under the consideration of the Bengal Council.

Act XIX of 1888.
" XXI of 1891.
" XIV of 1894.

Act I of 1895 passed by the North-Western Provinces and Oudh Legislative Council did not materially affect Acts XV of 1873 and XV of 1883 and none of the Acts noted in the margin, amending the Burma Municipal Act, 1884, introduced any change in principle. For Upper Burma, however, a Regulation (V of 1887) was passed enabling Committees to be formed, but leaving the appointment of members, and the imposition of taxes, entirely in the hands of Government. In the Punjab and the Central Provinces only have the municipal laws which were in force ten years ago been entirely superseded by fresh enactments. In the former Province Act XIII of 1884 has given place to Act XX of 1891, while in the latter Act XI of 1873 has been repealed by Act XVIII of 1889, which is now the law governing the administration of Municipalities in the Central Provinces. The changes effected in the Punjab municipal law by the legislation of 1891 did not affect the principles upon which the Act of 1884 had been framed, but aimed at rendering the provisions of the latter less complex, and more easily adaptable to the very widely differing circumstances obtaining in the Municipalities established at hill stations and in large commercial centres such as Delhi and Amritsar, and in the numerous country towns with a small and backward population. Although Act XVIII of 1889 differs widely from the law which it superseded in the Central Provinces, it is in all essential principles, the same as the Punjab Act XX of 1891.

6. In order to enable Local Governments and Administrations to compare their own system and its results with those of other Provinces three statements have been prepared and are annexed to this Resolution showing the constitution, income and expenditure of Municipal Boards in 1886-87, the earliest year for which full information is available, and in 1894-95. From these statements the Municipalities of Upper Burma have been omitted. It is also necessary to explain that all reference to the Municipalities of the Presidency Towns of Calcutta, Bombay and Madras and also of Rangoon is excluded from this Resolution and from the statements annexed to it which are intended to afford a comparative view of the progress made in mofussil Municipalities only. The figures for

Bengal also exclude the Suburban Municipality which was amalgamated with the Calcutta Corporation in 1888.

7. The most noticeable feature in the first of these statements is the fact that the aggregate number of Municipalities in India has not increased. On the contrary there has been a small decrease in the North-Western Provinces and Oudh, the Punjab and the Central Provinces. In the Punjab the decrease is from 190 to 149, but the number of the remaining Municipalities, notwithstanding this considerable reduction, is larger than in any other Province except Bombay. The population of the 41 places in which the municipal system of administration was discontinued was only 25,000. They were in fact, as in the few similar cases in the North-Western Provinces and Central Provinces, mere villages to which a simpler plan of management was better suited. This is not, therefore, a result which indicates any failure in the experiment of Local Self-Government. In some places, as was to be expected at the initiation of a new policy, the mistake was made of extending the municipal law without sufficient regard to the fitness of the townspeople to carry out a somewhat elaborate organization. In other provinces, where the authorities were more cautious in admitting towns to the municipal system, there has since been a steady development of it. Madras has added two Municipalities since 1886; Bombay 13; Bengal 9; and Burma 10; and there will doubtless be in the future a circumspect but regular advance throughout India to meet the needs of the growing town populations. Although there has been a decrease in the total number of Municipalities in India from 747 to 733, the total population within municipal limits has increased from 12,154,465 to 13,298,613.

8. The number of Municipalities, relatively to the population of the Province, is very much larger in the Bombay Presidency than elsewhere. The proportion of the population living within municipal limits to the whole population of Presidency is 12·6. Assam, Bengal and Madras are, in the order named, the Provinces in which, compared with the general population, municipal population is least. This is accounted for by the small number of towns in those Provinces. On the other hand, the elective principle is less developed in Bombay. The Municipalities of the North-Western Provinces and Oudh and the Central Provinces contain the largest proportion of elected members. The percentage of Native members on the Boards, which, however, varies very little, is largest in the Punjab, Bombay, the Central Provinces and Bengal. It is small in Madras where the percentage of European members is 16·6.

9. The second statement attached to this Resolution compares the various sources of income enjoyed by the Municipalities of the different Provinces.

It will be seen that the income from mofussil municipal taxation throughout India has in seven years increased from a little over a crore, to about a crore and-a-half, of rupees, and that the total income from all sources together has increased from Rs. 1,59,53,858 to Rs. 2,48,92,308. The increase in the one case is 35·1 per cent. and in the other 56 per cent. Nothing could show more clearly the great expansion of municipal administration which has taken place during this short period. By way of comparison it may be stated that in 1876-77 the income from taxation alone was Rs 97,12,153 and from all sources Rs. 1,23,72,210. The ratio of increase has therefore been very much more rapid since the development of municipal institutions under Lord Ripon's legislation.

The incidence of taxation per head of municipal population has increased from Re. 0-14-1 to Rs. 1-1-5. The rate is highest in the Punjab where it amounts to Rs. 1-6-6, in Bombay Rs. 1-5-6, and in Assam Rs. 1-2-11. Excluding the Assigned Districts and Coorg the rate is lowest in Bengal where it amounts to only Re. 0-13-7 and in Madras where it is Re. 0-13-10. The proportionate rate of increase during the past seven years is lowest in Bombay and Madras and is highest in Assam.

10. Of the items of taxation contributing to the general increase, the conservancy-cess, which forms a larger proportion of the total in Bengal than elsewhere, has increased by 120·9 per cent. Of the classified taxes it is satisfactory to notice that the smallest increase has been due to tolls, while the taxes on houses and lands, and on animals and vehicles, realised, together, Rs. 31,50,598

in 1894-95 against Rs. 21,96,563 in 1886-87. The increase in the house and land-tax was largest in Bombay, where, however, it still forms an inconsiderable proportion of the total income. Of the "Miscellaneous receipts" the most noteworthy are those from "markets and slaughter-houses," the large increase from Rs. 7,58,109 to Rs. 11,32,100 being chiefly due to Burma.

11. The increase of loan receipts from Rs. 4,00,991 to Rs. 28,52,153 is the result of the impulse lately given to the construction of waterworks in the larger Municipalities, and it will be observed that there is a corresponding increase under the head of water-rates from Rs. 56,605 to Rs. 5,52,391. The fees from educational and medical institutions, which now furnish a considerable income to the Municipalities of the Bombay Presidency and the Punjab, had no existence in 1886-87.

12. A comparison of the sources of taxation and general income in the different Provinces, is conveniently shown in the following summary of the second statement appended to this Resolution :

	Percentage of total income from Municipal Rates and Taxes derived from								Percentage of total income excluding loans and advances derived from				
		Tax on Houses and lands.	Tax on animals and vehicles.	Tax on professions and trades.	Tolls.	Water rate.	Conservancy Tax.	Other Taxes.	Taxation.	Under special Acts.*	Municipal property.†	Grants from Government and other sources.	Miscellaneous.

* Pounds, Hackney Carriages, Licenses for sale of spirits &c.
† Rents of lands, conservancy-receipts, fees from markets, Municipal fines, interest on investments &c.

The most striking features of this table are—

(*a*) the very large proportion of the municipal income derived from octroi in the Bombay Presidency, the North-Western Provinces and Oudh, the Punjab and the Central Provinces, while elsewhere octroi does not form an item of municipal revenue;

(*b*) the large proportion of the income derived in Madras, Bengal, Burma, Assam and Coorg from the tax on houses and lands;

(*c*) the fact that only in Madras, Coorg and the Hyderabad Assigned Districts does the tax on professions and trades form an appreciable part of the revenue;

(*d*) the large proportion of the income derived from tolls on roads and ferries in Madras and Assam;

(*e*) the lightness of municipal taxation in Burma and the Assigned Districts, where a large portion of the income is derived from the rent of lands, markets and the like; and

(*f*) the large contributions by Government to the municipal income in Madras and Assam, and by Local Funds in the Assigned Districts.

13. These remarkable differences in the methods of municipal taxation are for the most part an inheritance of past customs, which on the whole are probably most suitable to the locality and have at least the sanction and support of usage. But it is interesting and useful that these marked differences of system should be

plainly on record, and Local Governments have now a convenient opportunity of noting the methods of municipal administration which have been pursued more or less successfully in other parts of India. It was observed in paragraph 26 of the circular letter from the Home Department No. 2—96 to 103, dated the 28th September 1877, that—

In 1870 the reports showed that there was a want of fertility in devising new forms of municipal taxation, and some inclination was evinced to copy the Imperial income-tax and introduce it for municipal purposes. Such a tax is, however, not suitable for municipalities. Within the past five years the Government of India have been assured by Local Governments and Administrations of the rapid advance of the members of municipal committees in self-government and of the great and growing interest they exhibit in municipal taxation and other matters. It would, therefore, seem that members of the municipal corporations should best be able to interpret the views of their fellow citizens, and that they should not find it difficult to devise suitable forms of local self-taxation.

14. Octroi has the merit of being one of the least unpalatable forms of taxation to the people at large. It is an indirect tax, paid to the tax collectors at the barriers by traders, who are accustomed to it and quite able to resist illegal exaction, but it is exposed to the danger of becoming, unless carefully watched and controlled, a tax on through traffic. The principles which should govern the administration of this tax were laid down in Circular No. 4440—4447, dated 6th November 1868, and were reiterated at length in the orders of 1877 already quoted. In addressing the Secretary of State, in a Despatch reviewing the whole subject of octroi taxation, on 8th September 1888, it was observed that—

The standards of consumption of the various taxable commodities which Local Governments prescribe cannot claim to be accurate, but they afford a rough and approximate test of the extent to which any particular article may legitimately be subjected to octroi in each municipality. Wherever the rates of consumption of any taxable commodity in towns situated on the main trade routes show an excess above the prescribed standard of consumption, the excess is assumed to be in a rough way the measure of the extent to which the octroi on that article is becoming a transit duty; and we urge in those cases either the establishment of bonded warehouses for the protection of the through trade, or the abolition of the octroi on the through traffic in the commodity in question. In towns off the main trade routes, where the trade is more distributory than through, the standards are not so rigidly insisted on, because the people who use the market, roads, etc., may reasonably be expected, even though they do not live in the town, to contribute to a certain extent to municipal expenditure devoted to the maintenance of those objects of which they reap full advantage. At the same time we insist on low rates of octroi in such towns, and provide that any one claiming a refund, unless it be of an insignificant amount, shall receive it. The maximum non-refundable duty is fixed so low that no appreciable hardship is inflicted on the contributor.

15. These maxims govern the administration of octroi, wherever that system is in use. Bonded warehouses have everywhere been established, and wherever refunds on any article bear a proportion so high to the receipts as to prove the existence of a large through traffic, the habitual course is to exclude that article of trade from the octroi schedule. It has already been stated that the working of octroi needs careful control, but the Governor General in Council is satisfied from the reports which come annually before him that the necessary supervision and vigilance are exercised in the interests of trade.

16. The tax on "houses and lands" forms a large percentage of the municipal income in Provinces where octroi is not levied. This tax is, in Madras, levied under section 63 of Madras Act IV of 1884, at the rate of 7½ per cent. on the annual value of the property, and in Bengal, under section 85 (*b*) of Act III of 1884 (B.C.), at the same rate. In the Madras Presidency it realised Rs. 6,79,473, or 46·9 per cent. of the total income, while in Bengal where it amounted to Rs. 8,16,912, it represented only 35·3 per cent. In Bengal, however, there is an alternative tax levied under section 85 (*a*) of the Act, "upon persons occupying holdings within the Municipality according to their circumstances and property," which yielded no less than Rs. 5,89,379 and is included in column 10 of the second statement under the head of "Other taxes." This tax is of very old standing in the Province and is found to be applicable to the circumstances of small Municipalities. It partakes partly of the nature of the tax under section 85 (*b*), "a rate on the annual value of all holdings," and partly of the nature

of a "tax on profession and trades." Taking the two taxes levied under section 85 together the proceeds amount, in Bengal, to no less than 60·7 of the total income from municipal rates and taxes.

In Burma, Assam and Coorg the tax on houses and lands is also one of the most important sources of the municipal income.

Of the 41 Municipalities in Burma (excluding Rangoon), 26 were constituted under Act XVII of 1884, and 15 under the Upper Burma Municipal Regulation V of 1887. The latter leaves the nature of taxation which may be imposed under it entirely to the discretion, subject to the orders of the Governor General in Council, of the Local Government, and the taxes imposed have naturally followed, as far as circumstances have admitted, those imposed under the Burma Municipal Law in the older part of the Province. Owing to the divergence of the conditions of Lower Burma, Chapter IV of the Burma Municipalities Act XVII of 1884, which deals with taxation, differs considerably from the corresponding portions of the laws in force in India. Section 41 (1) (*A*) provides only for different forms of direct taxation, and sections 42, 43 and 44 for a "water-tax," a "lighting-tax" and a "scavenging-tax" respectively; and though section 41 (1) (*B*) admits of the imposition, with the previous sanction of the Local Government and of the Governor General in Council, of "any other tax," a reference to the statement attached will show that this provision has practically not been resorted to. In Lower Burma 58·8 per cent. of the income from taxation comes under the heading of a tax on houses and lands.

17. It is only in Madras, Coorg and the Hyderabad Assigned Districts that the tax on "professions and trades" forms a considerable proportion of the income from taxation. This rate finds a place in the system in every Province except Burma and Assam, but the Madras Presidency is the only one of the larger Provinces in which it forms a material item of the total revenue. The receipts under this head amount to 16·8 per cent. of the taxation imposed. The essential difference between the tax as levied in the Madras Presidency and elsewhere is that in the former the profession-tax, described in section 47 (i) of Act IV of 1884, as "a yearly tax on arts, professions, trades and callings, and on offices and appointments" at the rates specified in schedule A to the Act, is in effect a graduated income-tax, whereas in the other large Provinces it is in the nature of a fixed license-tax. There are, as has been observed above, material objections to any municipal rate which covers precisely the same ground as an imperial tax.

In Coorg the tax is a license-fee. Section 41 of the Berar Municipal Law, 1886, follows, in form, section 41 of the Burma Municipalities Act, but includes provision for a tax "on persons practising any profession or art or carrying on any trade or calling in the Municipalities."

18. The next remarkable feature noticed in paragraph 12 of this Resolution was the comparatively large proportion of the municipal income which is derived in Madras and Assam from "tolls (on roads and ferries)." No explanation of this is suggested by a perusal of the papers connected with the several reports, and attention is drawn to the circumstance in order that, should the question of modifying the system of taxation arise, Local Governments may be in possession of information as to any striking differences in the items composing municipal revenue in different Provinces.

19. The amount of income derived from a water-rate is nowhere at present, except in the Assigned Districts, a large proportion of the total revenue. But with the progress of water-works in the larger Municipalities this item, which already represents a considerable sum in the Bombay Presidency and the North-Western Provinces and Oudh, may be expected to steadily increase.

20. A scavenging-tax, entered in column 3 as a "conservancy-cess," is levied everywhere except in Madras and Coorg. In Bengal the realisations amount to over Rs. 4½ lakhs, or 19·5 per cent. of the total revenue from taxation, while in the Bombay Presidency they are nearly Rs. 2⅜ lakhs and by general consent this is a most suitable and proper form of municipal taxation.

The amount of contributions from Local Governments and Local Funds to Municipalities fluctuates very much in the different Provinces and depends principally on the assistance rendered in particular years towards costly projects of water-supply and drainage. The amount has shown a continued tendency to increase in Madras and Assam and the Assigned Districts.

21. Passing on now to the statement of municipal expenditure the Governor General in Council observes that the total expenditure increased during the seven years under review from Rs. 1,57,54,721 to Rs. 2,37,91,286 or by 51 per cent. It is satisfactory to notice that the increase, during the same period, in the cost of office establishments 31·2 per cent. and of collection of taxes 18·3 per cent., has been in much lower proportion than that of the general expenditure. The increase in the annual expenditure on the maintenance of medical institutions, etc., now amounting to Rs. 15¾ lakhs, has been no less than 65·4 per cent., while that on water-works (establishment and repairs) exceeds 100 per cent., and on conservancy 39·9 per cent. The total outlay on the last two objects of municipal expenditure amounted in 1894-95, exclusive of new works, to Rs. 50,83,402 as compared with Rs. 34,47,911 in 1886-87. In regard to "Refunds" the Governor General in Council has in frequent orders recorded his views on the necessity for affording every facility to claimants of refunds of octroi. It is therefore satisfactory to observe that large sums are so expended in the four Provinces levying octroi. An exact comparison between the sums refunded in 1886-87 and in 1894-95 cannot be made, as the statements for the former year were not in this respect uniformly compiled. The refunds for 1894-95 were as follows: Bombay Rs. 7,40,653, North-Western Provinces and Oudh Rs. 7,31,390, Punjab Rs. 2,03,947 and Central Provinces Rs. 1,57,166.

22. As in the case of municipal income a comparative statement is given below of municipal expenditure in the several provinces—

Provinces.	PERCENTAGE OF MUNICIPAL EXPENDITURE ON							
	General administration.	Public safety.	Water-supply and drainage.	Conservancy.	Public Works.	Other measures for Public health and convenience.	Public Instruction.	Miscellaneous.
Madras	7·8	4·4	17·0	20·3	17·0	14·6	13·2	5·7
Bombay	10·1	5·6	20·8	18·4	13·5	10·6	14·7	6·3
Bengal	9·0	5·4	28·0	23·4	16·0	10·1	3·6	4·5
North-Western Provinces and Oudh	10·6	13·1	25·5	19·7	12·0	6·3	3·0	9·8
Punjab	11·8	16·3	8·1	13·6	10·0	14·3	15·3	10·6
Central Provinces	13·3	0·9	20·4	21·8	13·0	11·5	12·7	6·4
Lower Burma	11·9	5·3	1·4	20·6	22·6	28·8	7·4	2·0
Assam	10·0	2·9	21·7	28·8	20·8	9·7	3·2	2·9
Hyderabad Assigned Districts ...	7·4	5·3	12·3	28·0	15·0	20·3	7·9	3·8
Coorg	5·8	2·4	32·8	17·9	7·0	25·9	6·5	1·7

The expenditure on general administration appears to be singularly uniform, averaging about 9 or 10 per cent., on the income throughout India. Improvidence in the expenditure on establishments is not unknown in the administration of Committees in other countries and the Governor General in Council observes with satisfaction that in India generally it has been kept within very moderate limits. The expenditure on watch and ward is very high in the Punjab and North-West Provinces. In the Central Provinces the whole of the police charges for the Municipalities has been assumed by the Local Government. Except in the Punjab, Burma and the Assigned Districts a large portion of the annual

expenditure everywhere is now concerned with projects of water-supply and drainage. The Municipalities of the North-Western Provinces, Assam and Bengal are very backward in their contributions to the municipal schools; it will be seen that in this matter the Punjab Municipalities head the list, and in no other province is so much done for the local hospitals. Expenditure on markets and slaughter-houses has been large in recent years in Burma, while the rents derived therefrom have correspondingly increased.

23. It will be observed that under the heading "Public safety" the Municipalities in the Punjab and the North-Western Provinces and Oudh contribute to Police Rs. 5,38,986 and Rs. 4,66,765, respectively, representing a percentage on their total expenditure of 13·3 and 10·2, while in other Provinces the contributions are insignificant. The explanation of this distinction is as follows. In accordance with the principle adopted by the Government of India in 1864 that the expense of police for town populations should be defrayed by local funds, Municipalities were required to defray the cost of all police employed on duties the performance of which is necessitated solely by the existence of the town. These are commonly designated "Watch and Ward" in contradistinction to those of "Law and Order." This policy continued till the year 1881, when the orders issued to Local Governments on the 10th and 13th October were published by the Finance Department for general information by Notification* No. 3622, dated 13th October 1881. The purport of those orders was, as expressed in the letter to the Bengal Government, "to see municipal bodies relieved altogether of the charge for police, an equal amount of expenditure on education, medical charity and, if possible, public works of local interest, being transferred to them with as full control as may be practically expedient over the details of such expenditure." The relief from the burden of police charges was thus made contingent on its being arranged that Municipalities should undertake an equal charge under other heads of expenditure.

Resolution No. 2245, dated 31st August 1864.

* Pages 492 to 499 of the *Gazette of India*, 1881.

The Government of the North-Western Provinces and Oudh did not, however, act on those orders, and considered that Municipalities should at any rate pay for watch and ward, and on this principle the municipal police charges continue to be borne by Municipalities in those Provinces.

In the Punjab it was first of all intended to act on the views enunciated by the Government of India, but to provide for the contingency of Municipalities not accepting equivalent charges, section 74 of the Punjab Municipal Act, XIII of 1884, made Municipal Committees liable for the requisite police establishment, while section 75 only permitted the Local Government to relieve the committees of such charges in the event of their contracting, on such terms as might be agreed on, to undertake equivalent charges under other heads. These provisions have been reproduced in sections 79 and 80 of the Punjab Municipal Act, XX of 1891.

The municipal expenditure in Upper Burma is not shown in the statements; but it may be stated that section 9 (*a*) of the Upper Burma Municipal Regulation V of 1887 makes the police establishment a first charge on the Municipal Fund on the principle that the responsibility for protection should be enforced in the case of Municipalities in their earliest stage of development and until adequate arrangements can be made for transferring other equivalent charges for other services, together with the responsibility for their administration. In Upper Burma therefore the Municipalities contribute Rs. 1,11,021 for the maintenance of the police.

With the exception of Municipalities in the North-Western Provinces and Oudh, the Punjab and Upper Burma, municipal bodies have been largely relieved of police charges in accordance with the views expressed in 1881.

24. The expenditure on account of road construction appears to have been everywhere satisfactory and to show an increase over previous year's disbursements. It has been noticed that the municipal income from tolls was, in the Madras Presidency, relatively greater than elsewhere. It was laid down by the Government of India in paragraph 21 of the Resolution in the Home Department Nos. 4440 to 4447, dated 6th November 1868, and in paragraph 4 of

Home Department Circular Nos. 2-96 to 103, dated 28th September 1877, that tolls should not be levied except for the use of some means of communication provided at the expense of the Municipality; and it was more definitely stated, in letter No. 28, dated 8th March 1886, to the Bombay Government that the revenue derived from the levy of tolls should be exclusively laid out in road improvements. In view of these orders the sums expended by Municipalities in the Madras Presidency on roads do not appear to have been on a sufficiently liberal scale. A reference to column 7 of statement 2 and to column 19 of statement 3 will show that in the Madras Presidency only did the disbursements on roadmaking fall short of the receipts from tolls. Elsewhere the expenditure was—in some cases largely—in excess of the receipts.

25. The Governor General in Council believes that these details of comparative income and expenditure will be of interest and value, not only to Local Governments, but to Municipal Committees and to all who are interested in municipal affairs, and will give material for considering possible improvements in local methods of taxation and in methods of expenditure. He has observed with much satisfaction the marked advance in self-government during the last ten years, which this examination has disclosed, and the activity, intelligence and general economy with which the municipal bodies have improved the conservancy-services, the water-supply, the drainage, the street-paving, the lighting, and the many conveniences of the towns in their charge. These objects are all excellent and some of them absolutely necessary to the health and comfort of the residents, and he is assured that in the furtherance of all such projects the committees will continue to show the energy and assiduity which they have shewn in the past to the great advantage and benefit of their fellow citizens. He is, however, also assured that where municipal taxation has been lately and considerably increased, projects which involve an addition to it will be considered with circumspection and a careful regard to the circumstances of the tax-payers.

ORDER.—Ordered, that a copy of the above Resolution, with a copy of the statements referred to in paragraph 6, be forwarded for information to Local Governments and Administrations; and that copy be also forwarded to the Departments of the Government of India and to the heads of offices under the Home Department marginally noted.

Director-General of the Indian Medical Service.
Sanitary Commissioner with the Government of India.

Ordered also that a copy be published in the *Gazette of India* for information.

[True Extract.]

H. J. S. COTTON,

Offg. Secretary to the Government of India.

Statement showing the population and constitution of Mofussil Municipalities in India during the years 1886-87 and 1894-95.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, October 24th, 1896.

Very quiet weather has continued to prevail throughout the Indian region. The barometer has read above the normal average almost everywhere and on all days of the week, while on nearly all days barometric pressure has been exceedingly uniform everywhere. There have been practically no storms during the week, but on Tuesday, the 20th, a slight barometric depression appeared over the Indus Valley. This depression drifted slowly northward, but filled up as it advanced. On the 22nd the centre lay to the east of Mooltan, on the morning of the 23rd it was close to Lahore and later in the day it passed into the hills between Sialkot and Ludhiana. On reaching the hills it occasioned a fall of hail on the outer and of snow on the higher ranges, but during its previous course its effect on the weather was very slight. In Burma general rain was falling on the first day of the week, but as the week advanced the rainfall fell off, and on the last day the only rain reported was a light shower at Thyetmyo and a few drops at Kindat. In the south of the Peninsula light thunderstorms gave a few scattered showers, but the favourable conditions for rain which were present towards the close of last week in Madras were at no time present during the week under review. With the above exceptions the weather was fine and hot throughout the country, and the mean temperature of the whole country was steadily excessive, the amount of the abnormal excess increasing as the week progressed.

Daily Summary.—*Sunday, October 18th.*—The barometer had risen over Southern and Central and fallen over Northern India, but, except in the Punjab, where the fall had been brisk to rapid, the changes were unimportant. The barometer read above the normal average everywhere and readings were very uniform. The winds varied a good deal in direction and the force was moderate or light. The mean temperature was generally excessive, except in the Indus Valley and Burma. Showers had occurred over Burma and in the Assam Valley and light showers at a few places in the south-west and south-east of the Peninsula.

Monday, October 19th.—The barometer had risen almost everywhere. Pressure remained very uniform and exceeded the normal average everywhere. Easterly winds prevailed over the centre and west of the Peninsula and south-easterly winds in the Punjab, but elsewhere the directions remained variable. The force was unchanged. The mean temperature was lower than usual over North-Eastern India and the North Gangetic Plain and was excessive elsewhere—most so over the central parts of the Peninsula. Rain had continued in Lower and Central Burma, but had ceased in Upper Burma. Showers had fallen over the south of the Peninsula and Ceylon, and the amounts were larger than on the preceding day.

Tuesday, October 20th.—The barometric changes were small but generally downward. A slight depression had appeared in Lower Sind, but elsewhere readings were exceedingly uniform. They exceeded the normal average everywhere. Calms and variable breezes were reported from the greater part of the country, but in the north-west of India and over the centre and west of the Peninsula the winds were unchanged. Moderate rain had been received in Lower Burma and showers continued in the south-west and south-east of the Peninsula.

Wednesday, October 21st.—The barometric changes were very small. The slight depression in the north-west had drifted slightly northward, but this was the only important alteration, and pressure generally was excessively uniform. The winds were feebly cyclonic over North-Western India, but were very variable generally. The mean temperature remained excessive, except in Burma and

Bengal. Light drizzling rain had been received at Chirat, Murree and Srinagar, and showers continued to fall over Lower Burma and the south of the Peninsula.

Thursday, October 22nd.—There had been no change in the barometric conditions, except that the slight depression in the north-west had continued to drift northwards and was close to Montgomery. The winds remained feebly cyclonic in the north-west and very variable elsewhere. The mean temperature was low in Lower Burma, in Bengal and in South Madras and excessive in all other places. Light showers had fallen over the North-West Himalayas and over parts of Burma and of Assam. More general rain had been received over the southern half of the Peninsula.

Friday, October 23rd.—The barometer had fallen almost everywhere, and the depression in the north-west had reached the neighbourhood of Lahore. The winds were cyclonic near the depression, but remained very variable elsewhere. The temperature changes had been irregular, and the mean temperature remained excessive, except over Burma, Bengal and South Madras. Showers had occurred on the Himalayas as well as at a few stations in Assam, Burma, the Peninsula and Rajputana.

Saturday, October 24th.—The barometer had been steady over the west and south of the Peninsula, Burma and North-Eastern India, but had risen elsewhere, the change having been brisk to rapid over the Punjab. The small depression had disappeared and a high pressure area had been established over the Punjab. Readings were relatively low over the Arabian Sea and the Bay. Calms and light variable airs were reported very generally. The mean temperature remained low over Assam, Arakan and at a few stations in the east of the Peninsula. In all other places it was still excessive. Showers of hail and of rain had occurred over the North-West Himalayas and Kashmir, and local showers had fallen at a few places in North-Eastern India, Burma and the south of the Peninsula.

Temperature.—The distribution of the mean temperature with respect to the normal has agreed closely with the distribution of rainfall. In Burma showers were fairly general and frequent, in Assam and North Bengal they occurred occasionally and over the southern half of the Peninsula they also occurred fairly frequently. In these regions consequently the mean temperature has been relatively low, while in all other places it has been steadily excessive.

The following table gives the variations of the mean temperature from the normal in the different provinces of India :

On each day of the week the mean temperature of the whole country was excessive, the variations ranging from +1°·0 on the 19th to +2°·4 on the 24th.

Over the greater part of the country the heat was steadily excessive, but in Burma the mean temperature was below the normal from the 18th to the 22nd, in Bengal and Assam from the 19th to the 21st and in Madras on the 22nd. The provincial variations show that the heat was normal in Bengal and Assam, below the normal in Burma and excessive in all the remaining provinces. The greatest abnormal excess was reported from the Central Provinces and Bombay, where it was more than 3°.

The following were the highest temperatures recorded throughout India on each day of the week and their variations from the normal maximum of the day:

October	18th	Deesa	101°·9	+ 5°·5
„	19th	„	101°·4	+ 5°·3
„	20th	Ahmedabad	100°·8	...
„	21st	Jacobabad	100°·5	+ 4°·9
„	22nd	Hyderabad Sind	100°·2	+ 4°·2
„	23rd	Agra	100°·0	+ 8°·0
„	24th	Jhansi	98°·6	+ 7°·1

Rain.—The rainfall of the past week has been generally similar to that reported last week, except in Upper India, where, under the influence of a slight depression which advanced north-north-eastward through Sind, Rajputana and the Punjab, some light showers were received towards the close of the week. With this exception, which was not very important, the returns show that rain was received in moderate amounts over the southern portions of the Indian region, *viz.,* Lower Burma and the south of the Peninsula, and in light amounts over the regions immediately to the northward, *viz.,* Upper Burma and the central districts of the Peninsula. In addition slightly unsettled conditions were reported from the Eastern Himalayas, and these unsettled conditions were accompanied with showers in Assam and North Bengal. In Burma the weather was reported as showery to fine, and the greater part of the rainfall within this area was due to the advance of moist southerly winds which set in during last week. Consequently most of the rainfall occurred during the earlier part of the week, while this current was still blowing, and as these conditions disappeared so did the amount of rain decrease. On the contrary, in the south of the Peninsula, the rainfall appears to have been due to local storms, as on almost all days thunder was reported from this area, and the large variations in the amount of the rainfall at neighbouring stations point to the occurrence of small local storms affecting limited portions of the country. The concluding table gives the rainfall data. The first column shows that effective rainfall was received during the week in eighteen of the rainfall divisions. These eighteen divisions include all the Burma divisions, the Assam Valley, North Bengal and the Bengal Hills, the Punjab Hills, Malabar, Madras (South-Central and South), Coorg, Mysore, the Konkan, the Bombay Deccan and the East Coast (Central and South). Within these divisions the actual average rainfall varied from 2·23 inches in Tenasserim and Malabar and 2·21 inches in Lower Burma to 0·13 inch in the Punjab Hills. In addition to the above there were eight rainfall divisions which had showers during the week, but in each case the total of the week did not give an average actual rainfall of one-tenth of an inch. Hence in all parts of India, except within the eighteen divisions noted above, the rainfall of the country for the week under review was actually or practically *nil.* The third column of the table shows the excess or defect in the week's rain. In the case of Tenasserim, of Lower Burma and of Central Burma the actual rainfall was about one inch in excess of the normal, in Malabar it was half an inch in excess and in all the remaining divisions it was at the best about normal and at the worst in considerable defect. In Upper India from North Oudh westward across the North-Western Provinces, the Punjab, Rajputana and Central India as far as the Indus the anticipated fall during the present week is

Bengal. Light drizzling rain had been received at Chirat, Murree and Srinagar, and showers continued to fall over Lower Burma and the south of the Peninsula.

Thursday, October 22nd.—There had been no change in the barometric conditions, except that the slight depression in the north-west had continued to drift northwards and was close to Montgomery. The winds remained feebly cyclonic in the north-west and very variable elsewhere. The mean temperature was low in Lower Burma, in Bengal and in South Madras and excessive in all other places. Light showers had fallen over the North-West Himalayas and over parts of Burma and of Assam. More general rain had been received over the southern half of the Peninsula.

Friday, October 23rd.—The barometer had fallen almost everywhere, and the depression in the north-west had reached the neighbourhood of Lahore. The winds were cyclonic near the depression, but remained very variable elsewhere. The temperature changes had been irregular, and the mean temperature remained excessive, except over Burma, Bengal and South Madras. Showers had occurred on the Himalayas as well as at a few stations in Assam, Burma, the Peninsula and Rajputana.

Saturday, October 24th.—The barometer had been steady over the west and south of the Peninsula, Burma and North-Eastern India, but had risen elsewhere, the change having been brisk to rapid over the Punjab. The small depression had disappeared and a high pressure area had been established over the Punjab. Readings were relatively low over the Arabian Sea and the Bay. Calms and light variable airs were reported very generally. The mean temperature remained low over Assam, Arakan and at a few stations in the east of the Peninsula. In all other places it was still excessive. Showers of hail and of rain had occurred over the North-West Himalayas and Kashmir, and local showers had fallen at a few places in North-Eastern India, Burma and the south of the Peninsula.

Temperature.—The distribution of the mean temperature with respect to the normal has agreed closely with the distribution of rainfall. In Burma showers were fairly general and frequent, in Assam and North Bengal they occurred occasionally and over the southern half of the Peninsula they also occurred fairly frequently. In these regions consequently the mean temperature has been relatively low, while in all other places it has been steadily excessive.

The following table gives the variations of the mean temperature from the normal in the different provinces of India :

PROVINCE.	October 1896.							Mean variation of week.

Rain.—The rainfall of the past week has been generally similar to that reported last week, except in Upper India, where, under the influence of a slight depression which advanced north-north-eastward through Sind, Rajputana and the Punjab, some light showers were received towards the close of the week. With this exception, which was not very important, the returns show that rain was received in moderate amounts over the southern portions of the Indian region, *viz.*, Lower Burma and the south of the Peninsula, and in light amounts over the regions immediately to the northward, *viz.*, Upper Burma and the central districts of the Peninsula. In addition slightly unsettled conditions were reported from the Eastern Himalayas, and these unsettled conditions were accompanied with showers in Assam and North Bengal. In Burma the weather was reported as showery to fine, and the greater part of the rainfall within this area was due to the advance of moist southerly winds which set in during last week. Consequently most of the rainfall occurred during the earlier part of the week, while this current was still blowing, and as these conditions disappeared so did the amount of rain decrease. On the contrary, in the south of the Peninsula, the rainfall appears to have been due to local storms, as on almost all days thunder was reported from this area, and the large variations in the amount of the rainfall at neighbouring stations point to the occurrence of small local storms affecting limited portions of the country. The concluding table gives the rainfall data. The first column shows that effective rainfall was received during the week in eighteen of the rainfall divisions. These eighteen divisions include all the Burma divisions, the Assam Valley, North Bengal and the Bengal Hills, the Punjab Hills, Malabar, Madras (South-Central and South), Coorg, Mysore, the Konkan, the Bombay Deccan and the East Coast (Central and South). Within these divisions the actual average rainfall varied from 2·23 inches in Tenasserim and Malabar and 2·21 inches in Lower Burma to 0·13 inch in the Punjab Hills. In addition to the above there were eight rainfall divisions which had showers during the week, but in each case the total of the week did not give an average actual rainfall of one-tenth of an inch. Hence in all parts of India, except within the eighteen divisions noted above, the rainfall of the country for the week under review was actually or practically *nil*. The third column of the table shows the excess or defect in the week's rain. In the case of Tenasserim, of Lower Burma and of Central Burma the actual rainfall was about one inch in excess of the normal, in Malabar it was half an inch in excess and in all the remaining divisions it was at the best about normal and at the worst in considerable defect. In Upper India from North Oudh westward across the North-Western Provinces, the Punjab, Rajputana and Central India as far as the Indus the anticipated fall during the present week is

small and the abnormal deficiency is also small, but in Bengal (including Bihar and Orissa) the anticipated rainfall varies between half an inch and one inch and a quarter, and the deficiency practically amounts to about the same amount. In the Peninsula and the central parts of the country similar conditions prevail. The anticipated rainfall varies over this area, roughly from ¼ of an inch in the east and centre of the Central Provinces to 1¾ inches on the Ganjam Coast, and in the majority of cases there has been no rain, so that the deficiency amounts to 1·77 inches in the East Coast (North), 1·41 inches in the East Coast (Central) and 1·09 inches in the East Coast (South).

The three concluding columns of the table give the same information as the first three.

The only cases of considerable totals during the week are reported from Burma and the south of the Peninsula, but in addition there have been fair falls of rain over the Bombay Deccan districts. The following are the more important falls:—Bilin (Thatôn) 3·22 inches, Pyuntaza (Pegu) 4·01 inches, Toungoo 3·18 inches, Kyangin (Henzada) 5·50 inches, Sagaing 4·00 inches, Permlelma (Malabar) 5·90 inches, Karkala (Mangalore) 6·37 inches, Tiruchengod (Salem) 4·04 inches, Perambalur (Trichinopoly) 6·46 inches and Dindigul (Madura) 4·37 inches.

W. L. DALLAS,
Asst. Meteorological Reporter to the Government of India.

SIMLA, *29th October, 1896.*

DENZIL IBBETSON,
Offg. Secretary to the Government of India.

F

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 24th October.*—No rain in the Circars, only a few light scattered showers in the Deccan, and light falls in the southern part of Nellore and remainder of the Carnatic, North Arcot and Salem. Good rain in Coimbatore, Trichinopoly and the Southern districts and on the West Coast. The water-supply for irrigation in the Circars, Deccan and Carnatic is very deficient and the large rivers are very low; the supply is also deficient in parts of the Central districts, but is sufficient elsewhere. Sowings are going on briskly in the Southern and parts of the Central districts, but are almost at a standstill elsewhere. The standing crops are good generally in the Southern, West Coast and parts of the Central districts. In the Carnatic they are withering, and still more damage has been done by drought in the Deccan and Circars. Harvesting of the early crops is proceeding with poor to middling outturn, but much of the crop is very bad in the Deccan and Circars. Cattle are in fair condition, though suffering in parts of the Deccan. Pasturage is scarce or wanting in many places and fodder is rapidly decreasing in parts where the rains have failed. Prices are again considerably dearer in the Circars, Deccan and Nellore and slightly so in the rest of the Carnatic and Central districts, easier in the Southern districts, but dearer in the West Coast districts. The rise in the price of staple dry food-grains in the last three weeks is from 40 to 60 per cent. in the Deccan and 20 to 50 per cent. in the Circars. The opening of test relief works in one part of Kurnool has been ordered where employment is reported to be required. Since Sunday there has been moderate rain near the coast in the Carnatic.

Bombay.—*For week ending 28th October.*—Slight rain in parts of Khandesh, Kolaba, Ratnagiri, Poona, Satara, Belgaum, Dharwar and Kanara; no rain elsewhere. More rain is urgently wanted generally for the late sowings. The standing crops have withered or are withering in thirteen districts, and they have been damaged by locusts or other causes in Sindh and by insects in Broach and Ahmednagar. Preparations for the late crops or sowings are progressing in twelve, and reaping of the early crops in ten, districts. Cotton picking continues in Khandesh. Water is deficient in Belgaum. Fodder is insufficient in ten districts. Agricultural stock are healthy, except in five districts. Prices are rising generally.

Bengal.—*For week ending 26th October.*—No rain fell during the week, with the exception of a few showers in the extreme north of the province. Rain is urgently needed in all districts for the winter rice. This crop is said to be doing well in irrigated lands in the Patna division and in low-lands in Northern Bengal, but in other parts of the province the rice on high lands is withering. The spring sowings are being generally delayed on account of the drought, but a commencement has been made in some districts. In parts of Cuttack and Balasore insects are still injuring the rice crop. The price of common rice is abnormally high and is steadily rising in several districts owing to exports.

North-Western Provinces and Oudh.—*For week ending 28th October.*—With the exception of showers in two districts the weather has been fine. The want of rain is most severely felt, and sowings for the spring crops are greatly retarded. Such sowings are, however, being actively carried on in tracts where irrigation is available and are in these latter tracts reported to have so far germinated well. The prospects of the later autumn crops are very bad. Advantage is being largely taken of the liberal advances for *kachcha* wells and seed. Locusts have caused slight damage in a few districts. The numbers on relief works are increasing; they stood as follows on Saturday, October 24th :—Banda 4,009, Hamirpur 4,610, Jhansi, no details, Jalaun 1,499, Allahabad, no details, Hardoi 7,705, Rae Bareili 8,551—total 26,374; of these 1,285 were dependants gratuitously relieved on the works and 11,823 were gratuitously relieved under other provisions of the Famine Code. Supplies and fodder are becoming deficient in places. Prices are still high and are rising.

Punjab.—*For week ending 28th October.*—Slight rain has fallen in parts of Hissar, Rawalpindi and Gurgaon. Harvesting of the autumn crops and picking of cotton are in progress. Ploughings for and sowings of the spring crops continue in irrigated lands. Unirrigated lands are mostly lying unsown, owing to insufficiency of rain and want of floods. Rain is badly wanted throughout the province. The prospects of the crops are said to be unfavourable in Delhi. The condition of the standing irrigated crops is average in Jullundur, Amritsar, Lahore, Mooltan, Peshawar and Gujranwala and fair in Dera Ismail Khan, and that of unirrigated crops is poor in Amritsar, Lahore and Dera Ismail Khan. The outturn of cotton is reported to be below average in Dera Ismail Khan and Gujranwala and of rice, maize and *jowar* (Great millet) middling in Gujranwala. Certain autumn crops have been damaged by insects in parts of Ferozepore and Dera Ismail Khan, by caterpillars in parts of Lahore and by locusts in parts of Gurgaon. Locusts also appeared in parts of Lahore but did no damage. The stock of food-grains is insufficient in Hissar, Jullundur, Amritsar, Rawalpindi and parts of Ferozepore and Shahpur; it is average in Peshawar. Seed grain is also said to be insufficient in Dera Ismail Khan. The high prices are being felt by the people, but no general distress is yet apparent. Cattle are reported to be in poor condition in Hissar, Ferozepore, Lahore, Rawalpindi and Gujranwala. Fodder is scarce in most districts; it is sufficient but dear in Rohtak, and a sufficient quantity of fodder is only reported from Peshawar. The aggregate number of persons employed on relief works in Gujrat on Saturday, 24th October, was 4,697, inclusive of non-working children. Famine works are about to commence in Hissar. Prices are ruling high throughout the province and are still rising in Peshawar and Gujranwala. Wheat is selling from 8 to 11 seers, *bajra* (Bulrush millet) 8 seers 12 chataks to 12 seers, gram 10 to 10½ seers, maize 11¾ to 13 seers, rice 7¾ to 9 seers, and *jowar* (Great millet) 11½ seers per rupee.

Central Provinces.—*For week ending 28th October.*—Weather generally clear with slight clouds. The days are still very hot. The autumn crops continue to wither. Rice is suffering in Bhandara, and *jowar* (*Sorghum vulgare*) and cotton even in the rich soils of Wardha and the Sansar tahsil of Chhindwara. Smut has attacked *jowar* in Saugor. Sowings of the spring crops continue within limited areas, but the seedlings are sorely tried by drought and insect pests. Fodder is growing scarce in Wardha, Chhindwara and Seoni. Prices are easier

in the Damoh tahsil and Hoshangabad, but are still rising in Jubbulpore, Seoni and Bhandara. The general outlook continues serious.

Burma.—*For week ending 24th October.*—In Lower Burma the early paddy is being reaped in Tavoy and Tharrawaddy. Prospects of the main paddy crop are good, but more rain is wanted in parts of Prome. In Upper Burma reaping of early paddy and ploughing for and sowing of the dry weather crops continue. Transplanting of wet-weather paddy is nearly completed. Rain fell in Mandalay, Sagaing and Myingyan, but there was no rain in Bhamo, Magwe, Katha and Yamethin and but little elsewhere. The late planted crops are fair, but more rain is wanted both in the dry zone and in the Northern districts. The numbers employed on relief works were: Meiktila 478, Myingyan 889, Yamethin 1,005; in addition the following numbers were gratuitously relieved:—Meiktila 81, Myingyan 50, Yamethin 208. The price ofpaddy has risen largely in Henzada and slightly in Bassein and the Upper Chindwin, but it has fallen in Rangoon and Tavoy and largely in Mandalay.

Assam.—*For week ending 27th October.*—The weather in the Surma Valley is hot and dry. Prospects of the crops are unsatisfactory in Cachar and on high lands in Sylhet. In the Brahmaputra Valley prospects have been improved by the recent rainfall, but are not good in Kamrup and Nowgong. Ploughing for the mustard crop continues. Fodder is sufficient, except in parts of Cachar. Water is sufficient.

Mysore and Coorg.—*For week ending 28th October.*—MYSORE.—Slight rain nearly all over the State. The standing crops, though generally good, are withering in parts. Prospects of the season are uncertain in the Bangalore, Kolar, Tumkur and Chitaldrug districts and fair in other parts. Prices have risen, except in the Hassan district.

COORG.—Rainfall moderate. Reaping of *ragi* (*Eleusine coracana*) is almost completed. Picking of cardamoms still continues. Water and fodder for cattle are sufficient. Prices of food-grains are normal.

Berar and Hyderabad.—*For week ending 28th October.*—BERAR.—The weather is warm. Prospects of the autumn crop are decidedly unfavourable from want of rain. Breaking up of the land for the winter crop continues. Sowing operations are in progress in the Basim district only. Fodder and water are insufficient in most parts of the province. Prices of food-grains are rising steadily and relief works appear likely to be necessary in all districts, except Ellichpur.

HYDERABAD.—Rainfall moderate. Agricultural prospects are gloomy owing to continued absence of rain. The autumn and irrigated crops are withering in all districts. Sowing of the spring crops has been attempted in some taluks, but no progress has been made for want of rain. The water-supply is decreasing. Fodder and pasture are scarce. Prices are rising.

Central India.—*For week ending 28th October.*—No rain during the week. Rain is urgently wanted in all Agencies. The spring sowings have commenced in Malwa and Bundelkhand and continue in Bhopal. The autumn crops have been damaged for want of rain in all Agencies. Cattle are in fairly good condition in all Agencies, except Bhopawar. Pasturage is fair in Bhopal,

good in Malwa, sufficient for the present in Bhopawar and indifferent in other Agencies. Prices are above normal and are rising in all Agencies, except in Bhopawar. The numbers employed on relief works were :—Gwalior 2,005, Bundelkhand 855, Baghelkhand 575 and on the railway 10,564. The numbers on gratuitous relief were :—Gwalior 38, Bundelkhand 2,138 and Baghelkhand 1,353.

Rajputana.—*For week ending 28th October.*—Rainfall moderate in Jeypore and Ulwar. Agricultural operations are generally satisfactory, except in Jaisalmere. Reaping of the autumn crops is going on in Serohi and Ajmere. Sowing of the spring crops has begun in Meywar, one tehsil of Kotah and in Marwar. The unirrigated crops are fair, except in Deoli, Tonk, Ajmere, Jeypore, Kerowli, Bickanir and Jaisalmere where they have withered or are damaged for want of rain. Sesamum, *moong* (*Phaseolus mungo*) and *kolath* has been damaged in Serohi; rice and other petty corns in Kherwara and *jowar* (*Sorghum vulgare*) in Jhallawar. Agricultural stock are in good condition, except in Bhurtpore where they are suffering from want of fodder. Pasturage and fodder are sufficient, except in parts of Meywar, Jeypore, Dholpur, Bhurtpore and Ulwar. Prices are steady in Serohi, Jeypore, Dholpur and Bhurtpore, but are fluctuating in Pertabgurh and rising elsewhere. Test relief works have been ordered to be opened in Bhurtpore and small relief works have been sanctioned in three Nizamuts, in Kotah. The aggregate number of persons on relief works in Seronj, Tonk State, during the previous week, was 382. The number of persons on relief during the present week was :—Dholpur 1,206, Bikanir 905 and Jaisalmere 118. The number on gratuitous relief in Bikanir was 272.

Kashmir.—KASHMIR VALLEY.—*For week ending 27th October.*—Slight rain has fallen, and it has done good to the spring sowings. The weather is now fine. The rice and maize crops have been stacked. Prices are below normal.

JAMMU PROVINCE.—*For week ending 28th October.*—No rain. The autumn crops are suffering. Cattle are in good condition. Fodder is scanty. Prices are rising.

Nepal.—*For week ending 24th October.*—One slight shower has fallen during the week. Low-land rice is still being reaped.

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Simla, the 4th November, 1896.

No. 25.—Whereas by Resolution passed by the Secretary of State for India in Council on the eighth day of November, 1887, the provisions of the 33rd of Vict., Chap. 3, Sec. 1, were declared applicable to the territories for the time being under the administration of the Chief Commissioner of British Baluchistan, inclusive of the tracts known as Pishin, Shorarud, Kach, Kawas, Harnai, Sibi, and Thal-Chotiali, from the first day of November, 1887;

And whereas the Chief Commissioner of British Baluchistan has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft, and the same has received the Governor General's assent on the thirtieth day of October, 1896;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* and local Gazette for British Baluchistan.

REGULATION NO. VIII OF 1896.

THE BRITISH BALUCHISTAN CRIMINAL JUSTICE REGULATION, 1896.

CONTENTS.

THE SCHEDULE.

MODIFICATIONS SUBJECT TO WHICH THE CODE IS TO EXTEND TO BRITISH BALUCHISTAN.

SECTIONS.

A Regulation to consolidate and amend the law relating to the administration of Criminal Justice in British Baluchistan.

WHEREAS it is expedient to consolidate and amend the law relating to the administration of Criminal Justice in British Baluchistan;

And whereas Her Majesty's Secretary of State for India in Council has sanctioned the exercise by the Chief Court of the Punjab of criminal jurisdiction over European British subjects in British Baluchistan;

It is hereby enacted as follows:

Title and commencement.

1. (*1*) This Regulation may be called the British Baluchistan Criminal Justice Regulation, 1896; and

(*2*) It shall come into force at once.

III of 1890.

Repeal.

2. (*1*) The British Baluchistan Criminal Justice Regulation, 1890, and Regulation II of 1893 are repealed.

Saving.

(*2*) But all proceedings commenced, officers appointed or authorized, all jurisdictions and powers conferred, rules made and orders issued under any of the provisions of the said Regulations shall be continued and, as far as may be, be deemed to have been respectively commenced, appointed or authorized, conferred, made and issued under this Regulation, and any enactment or document referring to any of the said provisions shall, as far as may be, be construed to refer to this Regulation or to the corresponding portion thereof.

Application of the Code of Criminal Procedure, 1882.

X of 1882.

3. Subject to the modifications set forth in the schedule, the Code of Criminal Procedure, 1882, (hereinafter referred to as "the Code",) shall extend to the whole of British Baluchistan, so far as it can be made applicable in the circumstances for the time being.

THE SCHEDULE.

(See section 3)

MODIFICATIONS SUBJECT TO WHICH THE CODE IS TO EXTEND TO BRITISH BALUCHISTAN.

"High Court." (Section 4, cl. (j).)

1. "High Court" shall mean,—

(*i*) in reference to proceedings against European British subjects or persons jointly charged with such subjects, the Chief Court of the Punjab; and,

(*ii*) in reference to proceedings against other persons, the Judicial Commissioner:

Provided that every sentence of death passed or confirmed by the Judicial Commissioner shall be submitted to the Chief Commissioner and shall not be executed unless and until it has been confirmed by the Chief Commissioner, who in every case so submitted to him shall exercise all the powers of a High Court described in Chapter XXVII of the Code.

"Pleader." (Section 4, cl. (r).)

2. "Pleader," used with reference to any proceeding in any Court, means a legal practitioner having authority from the Chief Commissioner to act in such proceeding or practise in such Court.

Court of Session. (Sections 7, 9 and 193, and Chapter XXIII.)

3. (*1*) Each district shall be a Sessions Division, the Court of the District Magistrate shall be the Court of Session for that Division, and the District Magistrate shall be the Judge of that Court.

(*2*) As Judge of a Court of Session a District Magistrate may take cognizance of any offence as a Court of original jurisdiction without the accused person being committed to him by a Magistrate, and, when so taking cognizance of an offence shall, subject to the provisions of this Regulation, follow the procedure prescribed for the trial of warrant cases by Magistrates.

(*3*) A trial before a Court of Session may be without jury or aid of assessors.

Conferment of magisterial powers on police-officers. (Section 14.)

4. Notwithstanding anything in Act V of 1861, or in any other enactment for the time being in force, the Chief Commissioner may confer on any police-officer all or any of the powers conferred or conferable by or under the Code on any Magistrate, in regard to particular cases, or to a particular class or particular classes of cases, or to cases generally.

Powers of Magistrates. (Sections 36, 37 and 260.)

5. (*1*) Magistrates described in the first column of the following table shall have the powers severally specified against

them in the second column thereof, without being further empowered in that behalf :

Magistrates.	Powers.
Magistrates of the first class.	To require security for good behaviour, section 110.
	To make orders as to local nuisances, section 133.
Magistrates of the first or second class.	To make orders prohibiting repetition of nuisances, section 143.
	To make orders under section 144.
Magistrates of the first, second or third class.	To entertain complaints, section 191.
	To receive police-reports, section 191.
	To entertain cases without complaint, section 191.
Sub-divisional Magistrates.	To call for records, section 435.

(2) The Chief Commissioner may empower a Magistrate of any class to try in a summary way under Chapter XXII any offence mentioned in section 260 which under section 29 he is competent to try.

Power to any police-officer to act under section 55. (Section 55.)

6. Any police-officer may exercise the powers conferred by section 55 on an officer in charge of a police-station.

Detention by police. (Sections 57 and 61.)

7. (1) Notwithstanding anything in section 57 or section 61, an officer in charge of a police-station may detain a person arrested without warrant so long as in all the circumstances of the case is reasonable :

(2) But when the officer of his own authority detains any such person in custody for a longer period than twenty-four hours exclusive of the time necessary for the journey from the place of arrest to the nearest Magistrate's Court, he shall state in the report prescribed in section 62 his reasons for prolonging the detention of the person, and, where the detention extends beyond three days, shall submit further reports of the reasons therefor at such intervals as the Magistrate to whom the report under section 62 was submitted may by general or special order direct.

Complement to British Baluchistan Laws Regulation, 1890, s. 4, cl. (2). (Section 162.)

8. Nothing in the first paragraph of section 162 shall be construed to apply to a statement made to a police-officer who is a Magistrate.

State offences and false evidence by person to whom pardon has been tendered. (Sections 196 and 339.)

9. A prosecution for an offence against the State, or for the offence of giving false evidence in respect of a statement made by a person who has accepted a tender of pardon, may be entertained upon complaint made by order of, or under authority from, the District Magistrate.

Tender of pardon. (Section 337.)

10. A Magistrate tendering a pardon to an accomplice under section 337 need not record his reasons for so doing, and, notwithstanding anything in that section, may try the case himself.

Recording of evidence. (Chapter XXV.)

11. In inquiries and trials (other than summary trials) by or before a Magistrate or Court of Session, it shall be sufficient if the Magistrate or Court makes a memorandum of the substance of the evidence of each witness as the examination of the witness proceeds.

Execution of sentence of imprisonment for six months or less. (Section 383.)

12. In the case of a sentence of imprisonment for a term not exceeding six months, the Court passing the sentence may forward the accused with a warrant to the District Magistrate, who may in his discretion either cause the prisoner to be employed in any part of the district as a labourer on roads or other works of public utility, or forward him to the nearest jail.

Appeal to High Court and limitation therefor. (Section 408.)

13. (1) A person convicted on a trial held by a District Magistrate may appeal to the High Court.

(2) Notwithstanding anything in the Indian Limitation Act, 1877, the period of limitation for an appeal to the High Court shall, except in the cases provided for by No. 150 and No. 157 of the second schedule to that Act, be thirty days from the date of the conviction. XV of 1877.

Restrictions on appeal. (Sections 413 and 414.)

14. (1) Notwithstanding anything in this schedule or in the Code, an appeal shall not lie—

(a) in a case in which a Magistrate of the first class passes a sentence of imprisonment for a term not exceeding six months only, or of fine not exceeding five hundred rupees only, or of whipping only ; or

(b) in a case in which a District Magistrate or Court of Session passes a sentence of imprisonment for a term not exceeding one year, or of fine not exceeding one thousand rupees, or of whipping, or of all or any of those punishments combined.

(2) The Governor General in Council may at any time, by notification in the *Gazette of India*, direct that this section shall cease to be in force in any district with effect from a date to be specified in the notification.

Enhancement of punishment on appeal. (Section 423.)

15. In any case in which an appeal lies, the Appellate Court may enhance any punishment which has been awarded :

Provided that, if the appeal is from the sentence of a Magistrate of any class, the Appellate Court shall not inflict a greater punishment than might have been inflicted by a Magistrate of the first class.

Contempt and offences against public justice or relating to documents. (Section 487.)

16. Where an offence referred to in section 195 is committed before a Judge of a Criminal Court or Magistrate, or in contempt of his authority, or is brought to his notice in the

course of a judicial proceeding, he may himself try for the offence the person accused thereof.

17. Notwithstanding anything in section 495, a Court may allow any police-officer to conduct a prosecution.

Conduct of prosecutions. (Section 495.)

18. Notwithstanding anything in section 526, the High Court may, of its own motion or on any representation, whether supported by affidavit or not, by special or general order, direct that any criminal case or appeal, or class of criminal cases or appeals, be transferred to, and tried before, itself, or that an accused person, or accused persons, be committed for trial to itself.

Transfer of cases. (Section 526.)

19. Notwithstanding anything in the Code, a finding, sentence or order shall not be reversed or altered on appeal or revision on account of any irregularity of procedure, unless the irregularity has occasioned a failure of justice.

Orders not reversible on technical grounds alone. (Section 537.)

20. (1) With the previous sanction of the Chief Commissioner, rules may be made under section 553, clause (c), for the regulation of the following among other matters, namely:

Process and copying fees, and admission of pleaders and petition-writers. (Section 553.)

(a) the fees to be paid for processes;

(b) the fees to be paid for copies and inspection of records;

(c) the qualifications to be possessed by, and the conditions to be imposed on, legal practitioners applying to the Chief Commissioner for authority to practise in Criminal Courts, and the fees, if any, to be paid for the concession of such authority; and

(d) the licensing of petition-writers and regulation of their conduct.

(2) Whoever breaks any rule under clause (d) of sub-section (1) may, subject to the provisions of any rule under that clause, be suspended or removed from practice or be punished with fine which may extend to fifty rupees.

21. Nothing in this schedule with respect to procedure in inquiries or trials, or with respect to sentences or appeals therefrom or the enhancement or execution thereof, shall be construed to affect the Code in its application to European British subjects or persons jointly charged with such subjects.

Saving of provisions relating to European British subjects.

No. 26.—Whereas by Resolution passed by the Secretary of State for India in Council on the eighth day of November, 1887, the provisions of the 33rd of Vict., Chap. 3, Sec. 1, were declared applicable to the territories for the time being under the administration of the Chief Commissioner of British Baluchistan, inclusive of the tracts known as Pishin, Shorarud, Kach, Kawas, Harnai, Sibi, and Thal-Chotiali, from the first day of November, 1887;

And whereas the Chief Commissioner of British Baluchistan has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft, and the same has received the Governor General's assent on the thirtieth day of October, 1896;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* and local Gazette for British Baluchistan.

REGULATION NO. IX OF 1896.

SECTIONS.

A Regulation to consolidate and amend the law relating to the administration of Civil Justice in British Baluchistan.

WHEREAS it is expedient to consolidate and amend the law relating to the administration of civil justice in British Baluchistan; It is hereby enacted as follows:

CHAPTER I.

PRELIMINARY.

Title and commencement.

1. (*1*) This Regulation may be called the British Baluchistan Civil Justice Regulation, 1896; and

(*2*) It shall come into force at once.

Repeal.

2. (*1*) The Regulations specified in the schedule are repealed to the extent mentioned in the fourth column thereof.

Saving.

(*2*) But, subject to the provisions of section 88, all officers appointed or authorized, jurisdictions and powers conferred, rules made and orders issued under any of the provisions so repealed shall be continued and, as far as may be, be deemed to have been respectively appointed or authorized, conferred, made and issued under this Regulation, and any enactment or document referring to any of the said provisions shall, as far as may be, be construed to refer to this Regulation or to the corresponding portion thereof.

CHAPTER II.

THE COURTS.

Grades of Civil Courts.

3. Besides the Courts established under any other enactment for the time being in force, the Civil Courts in British Baluchistan shall be of five grades, namely:

(*1*) the Court of the Judicial Commissioner;

(*2*) the Court of the Deputy Commissioner;

(*3*) the Courts of the Assistant Commissioner and Extra Assistant Commissioner;

(*4*) the Courts of the Tahsildár and Munsif; and

(*5*) the Court of the Naib-tahsildár.

Appointment of presiding officers.

4. (*1*) The presiding officers of the Courts of the first, second and third grades shall be appointed and may be removed by the Governor General in Council.

(*2*) The presiding officers of the Courts of the fourth and fifth grades shall be appointed and may be removed by the Chief Commissioner subject to the control of the Governor General in Council.

(*3*) Any appointment under this section may be made either by name or by virtue of office.

Number of Courts of second, third, fourth and fifth grades and power to fix local limits of their jurisdiction.

5. (*1*) The Chief Commissioner may, with the previous sanction of the Governor General in Council, fix and vary the number of Courts of the second, third, fourth and fifth grades.

(*2*) The Chief Commissioner, by notification in the *Gazette of India*, may, with the previous sanction of the Governor General in Council, fix and vary the local limits of the jurisdiction of the Courts aforesaid.

Original jurisdiction of Courts.

6. Except as otherwise provided by any other enactment for the time being in force,—

(*a*) the Court of the Naib-tahsildár shall have jurisdiction to try suits of value not exceeding fifty rupees and of the nature cognizable by a Court of Small Causes established under the Provincial Small Cause Courts Act, 1887; IX of 1887.

(*b*) the Courts of the Tahsildár and Munsif shall have jurisdiction to try original suits of such value, not exceeding one thousand rupees, as the Chief Commissioner may in the case of each Tahsildár or Munsif direct, or if no such direction has been made, then original suits of value not exceeding three hundred rupees;

(*c*) the Courts of the Assistant Commissioner and Extra Assistant Commissioner shall have jurisdiction to try original suits of value not exceeding ten thousand rupees; and

(*d*) the Court of the Deputy Commissioner, and the Court of any Assistant Commissioner or Extra Assistant Commissioner whom the Chief Commissioner may, by notification in the *Gazette of India*,

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter II.—The Courts.—Sections 7-8. Chapter III.—Civil Procedure.—Sections 9-21.)

specify in this behalf, shall have jurisdiction to try original suits without limit as regards the value.

High Court and District Court.

7. (1) Subject to the provisions of this section and of any other enactment for the time being in force, the Court of the Judicial Commissioner shall, for the purpose of all enactments relating to civil jurisdiction for the time being in force, be deemed to be the High Court for British Baluchistan.

(2) The Court of the Deputy Commissioner shall, for the same purposes, be deemed to be the principal Civil Court of original jurisdiction and the District Court for the local area within its jurisdiction.

(3) For the purposes of the Indian Divorce Act the Chief Court of the Punjab and the Deputy Commissioner shall be deemed to be the High Court and the District Judge, respectively.

IV of 1869.

Control over Civil Courts.

8. (1) The general superintendence and control over all other Civil Courts shall be vested in, and all such Courts shall be subordinate to, the Court of the Judicial Commissioner.

(2) Subject to the general superintendence and control of the Court of the Judicial Commissioner, the Deputy Commissioner shall control all other Civil Courts in the local area within his jurisdiction.

CHAPTER III.

CIVIL PROCEDURE.

General Rule.

Procedure to be observed in Civil Courts.

9. Except as otherwise provided by any other enactment for the time being in force, the provisions of this Chapter shall apply to all suits and other proceedings in the Civil Courts of British Baluchistan.

Prior Adjudications and Pending Suits.

Effect of prior adjudication.

10. A Court shall not try any suit in which the matter in issue has been heard and finally decided by a Court of competent jurisdiction in a former suit between the same parties in the same rights, or between parties under whom they, or any of them, claim.

Effect of pending suits.

11. A Court shall not try any suit in which the matter in issue is also in issue in another suit between the same parties, or between parties under whom they, or any of them, claim, pending in the same or any other Court, whether superior or inferior, in British India.

Appearances, Applications and Acts by Parties.

Appearance in person or by representative.

12. (1) The Court may in its discretion, for any sufficient reason, permit any appearance, application or act, required to be made or done by a party under this Regulation, to be made or done by the party through an authorized agent, or through a legal practitioner having authority from the Chief Commissioner to plead and act for parties with the permission of the Court under this sub-section.

(2) Permission under this section shall in all cases be granted to persons exempt from personal appearance in Court.

(3) Except with the permission of the Court granted under the foregoing provisions of this section, every appearance, application or act under this Regulation shall be made or done by a party in person.

(4) When the permission mentioned in this section is granted to a party, the agent or legal practitioner must, unless, in the case of a legal practitioner, he is an advocate of a High Court established by Royal Charter or of the Chief Court of the Punjab, be appointed by the party by instrument in writing, and that instrument must be filed in Court.

Withdrawal of permission to appoint representative.

13. In any case in which the Court has permitted a party not being a person exempt from personal appearance in Court to appear by an agent or a legal practitioner, it may, for reasons to be recorded in writing, withdraw the permission at any stage of the proceedings, and require the party to attend in person.

Consequences of not appearing in person when required.

14. A party required to attend in person under the last foregoing section, and failing so to attend, shall be subject to the provisions of this Regulation applicable to parties who do not appear.

Institution of Suits.

Mode of beginning suit.

15. The plaintiff must begin his suit by presenting to the Court a written plaint.

Examination of plaintiff.

16. On a plaint being so presented, the Court shall register the suit and examine the plaintiff, or his agent or legal practitioner, as to the merits of the case.

Summary dismissal of suit.

17. If upon the examination it appears that there is no substantial cause of action, or that the claim is one which from its nature is not a proper subject of litigation in a Civil Court, the Court may dismiss the suit.

Issue of summons.

18. If upon the examination it is found that the plaintiff sets forth a good cause of action, the Court shall issue a summons to the defendant to appear and answer at a certain time and place.

Service of Summons on Defendants.

Mode of of summons.

19. Service of the summons shall be made by delivering or tendering a copy thereof signed by the Judge or such officer as he appoints in this behalf, and sealed with the seal of the Court, and, when there are more defendants than one, service of the summons shall be made on each defendant.

Service on defendant in person.

20. Whenever it is practicable, the service shall be on the defendant in person.

Service when defendant cannot be found.

21. When the defendant cannot be found the service may be on any adult male member of his family residing with him or, where the defendant is a member of a tribe, on the head of the tribe.

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter III.—Civil Procedure.—Sections 22-32.)

Endorsement of summons by person served.

22. (*1*) Where the summons is served on the defendant personally, or on any person on his behalf the person on whom the service is made shall be required to sign an acknowledgment of service to be endorsed on the original summons or on a copy thereof under the seal of the Court.

(*2*) If the person refuses to sign the acknowledgment, the service of the summons shall nevertheless be held sufficient if it is otherwise proved to the satisfaction of the Court.

Service by posting copy of summons on door of ordinary residence.

23. When the defendant cannot be found, and there is no person on whom the service can be made the service may be effected by posting the copy of the summons on the outer door of the house in which the defendant ordinarily resides if he ordinarily resides at any place within the local limits of the jurisdiction of the Court.

Endorsement of summons by person serving.

24. The person serving a summons shall in all cases in which the summons has been served, endorse on the original summons, or on a copy thereof, under the seal of the Court the time when, and the manner in which, it was served.

Substituted service when summons is returned unserved.

25. (*1*) When a summons is returned to the Court without having been served, if the plaintiff satisfies the Court that there is reasonable ground for believing that the defendant is keeping out of the way for the purpose of avoiding the service of the summons, or that for any other reason the summons cannot be served in the ordinary way, the Court shall order the summons to be served—

(*a*) by posting a copy thereof on some conspicuous place in the court-house and also on the door of the house in which the defendant last resided, if it is known where he last resided, or

(*b*) in such other manner as the Court thinks proper.

(*2*) A service in the manner ordered by the Court under clause (*b*) of sub-section (*1*) shall be as effectual as if it had been made in the manner specified in clause (*a*) of that sub-section.

Fixing of time for appearance in case of substituted service.

26. When service is substituted by order of the Court under the last foregoing section, the Court shall fix such time and place for the appearance of the defendant as the case may require.

Service on defendant residing out of jurisdiction and having no agent.

27. If the defendant ordinarily resides beyond the local limits of the jurisdiction of the Court in which the suit is instituted, and has not within those limits an agent empowered to accept the service, the Court shall transmit the summons for service to a Court having jurisdiction at the place where the defendant resides.

Service on defendant residing out of British India and having no agent.

28. (*1*) If the defendant resides out of British India and has not in British India an agent empowered to accept the service, the summons shall be addressed to the defendant at the place where he resides, and be forwarded to him by post or otherwise.

(*2*) If at the time fixed for the hearing of the suit, or at any time subsequent thereto to which the hearing may be adjourned, a defendant to whom a summons has been forwarded under sub-section (*1*) does not appear the Court may, on the application of the plaintiff, direct that the plaintiff shall be at liberty to proceed with his suit in such manner, and subject to such conditions, as the Court thinks fit.

Service on agent in charge of immoveable property.

29. When the suit is for land or other immoveable property, and the summons for any reason cannot be served on the defendant in person, the summons may be served on any agent of the defendant in charge of the land or other property.

Consequences of non-appearance of Parties.

Dismissal of suit on non-appearance of either party.

30 (*1*) If, at the time fixed for the defendant to appear and answer, or at any time subsequent thereto to which the hearing of the suit may be adjourned, neither party appears when called upon by the Court, the suit shall be dismissed.

(*2*) When a suit is dismissed under sub-section (*1*), the plaintiff may bring a fresh suit, or, if within a period of thirty days from the date of the dismissal of the suit he satisfies the Court that there was sufficient cause for his failure to appear the Court may issue a fresh summons upon the plaint already filed.

Procedure on non-appearance of defendant when summons was duly served.

31. (*1*) If the plaintiff appears and the defendant does not appear and it is approved to the satisfaction of the Court that the summons was duly served, the Court shall proceed to hear the suit *ex parte*.

(*2*) If the defendant appears at any subsequent time to which the hearing of the suit may be adjourned, and assigns good cause for his previous failure to appear, he may, upon such terms as the Court may direct as to payment of costs or otherwise, be heard in answer to the suit in like manner as if he had appeared at the time fixed for his appearance.

Procedure on non-appearance of defendant when summons was not duly served or not served in due time.

32. (*1*) If the plaintiff appears and the defendant does not appear, and it is not proved to the satisfaction of the Court that the summons was duly served in any of the modes of service provided by this Regulation, the Court may direct a second summons to the defendant to be issued in any of those modes.

(*2*) If the plaintiff appears, and it is proved to the satisfaction of the Court that the summons was duly served on the defendant, but was served on him too late to admit of his appearing of and answering at the time fixed in the summons, the Court shall postpone the hearing of the suit to a future time to be fixed by the Court, and may direct notice of that time to be given to the defendant.

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter III.—Civil Procedure.—Sections 33-45.)

33. (*1*) If the defendant appears and the plaintiff does not appear, the Court shall pass judgment against the plaintiff by default, unless the defendant admits the claim, in which case the Court shall pass judgment against the defendant upon the admission.

Judgment by default against plaintiff not appearing or against defendant on admission.

(*2*) When judgment is passed against a plaintiff by default, he shall be precluded from bringing a fresh suit in respect of the same cause of action.

34. If there are two or more plaintiffs, and appearance is made by one or more of them and not by the other or others, the Court may, at the instance of the plaintiff or plaintiffs appearing, proceed with the suit in the same way as if all the plaintiffs had appeared, and pass such order as is just and proper in the circumstances of the case.

Consequence of non-appearance of one or more of several plaintiffs.

35. If there are two or more defendants and appearance is made by one or more of them and not by the other or others, the Court shall proceed with the suit to judgment, and shall, at the time of passing judgment, make such order with respect to the defendant or defendants by whom appearance has not been made as is just and proper in the circumstances of the case.

Consequence of non-appearance of one or more of several defendants.

36. (*1*) Where judgment is passed *ex parte* against a defendant, he may apply at any time, not later than thirty days from the date on which any process for enforcing the judgment has been executed, to the Court by which the judgment was passed, for an order setting it aside.

Setting aside judgment *ex parte* against defendant.

(*2*) If it is proved to the satisfaction of the Court that the summons was not duly served or that the defendant was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment and appoint a time for proceeding with the suit.

37. (*1*) Where the judgment is passed against a plaintiff by default he may apply, within thirty days from the date of the judgment, for an order setting it aside.

Setting aside judgment against plaintiff by default.

(*2*) If it is proved to the satisfaction of the Court that the plaintiff was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment by default and appoint a time for proceeding with the suit.

38. A judgment shall not be set aside on an application under either of the two last foregoing sections unless notice of the application has been served on the opposite party.

Judgment not to be set aside without notice.

Fixing Issues and Preparations for the Hearing.

39. If both parties are present at the time fixed for the defendant to appear and answer or at any time subsequent thereto to which the proceedings are adjourned for the purposes of this section, the Judge shall examine them with a view to ascertaining upon what questions of law and fact the parties are at issue, and, having with his own hand made a note of the examination, shall frame and record the issues of law and fact on which the right decision of the case depends.

Framing of issues.

40. (*1*) If the parties are at issue on a question of fact, the Court shall then further examine them as to the evidence they intend to adduce upon the question, and shall either proceed at once to hear the suit or appoint a time and place for the hearing thereof.

Procedure when parties are at issue on a question of fact.

(*2*) Upon such sums being deposited for the expenses of witnesses as, subject to any rules under this Regulation, the Court thinks reasonable, the Court shall issue such summonses for the attendance of witnesses and the production of documents as the parties may desire.

41. A summons to a witness shall be signed, sealed and served as nearly as may be in the manner provided by this Regulation for the signing, sealing and service of a summons on a defendant.

Service of summons on witnesses.

42. If a witness on whom a summons has been so served neglects or refuses to appear at the time and place appointed and does not offer reasonable excuse for the neglect or refusal, the Court may issue a warrant to bring the witness before it to give his evidence.

Arrest of witness neglecting to attend.

The Hearing.

43. (*1*) At the time for the hearing of the suit, or at some time subsequent thereto to which the hearing may be adjourned, the evidence of the witnesses, and of any parties to the suit appearing as witnesses, shall be taken by the Judge orally in open Court and in presence of the parties.

Mode of taking evidence.

(*2*) Any evidence given in a language not understood by a party to the suit shall be interpreted to that party as the examination proceeds.

(*3*) Each party may examine the opposite party and all witnesses.

44. A memorandum of all evidence taken shall be recorded by the Judge with his own hand as the examination proceeds, either in English or in the language prescribed by the Chief Commissioner as the language of the Court, as the Judge thinks fit.

Recording of evidence.

45. At any stage of the suit the Court may examine as a witness any person present in Court or call upon him to produce any document or other thing, or may summon any person to give evidence or produce any document or other thing, if it considers that the evidence of the person or the production of the thing is likely to aid it in the decision of the matters in dispute.

Power for Court to examine witness or require production of document.

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter III.—Civil Procedure.—Sections 46-60.)

Judgments.

Delivery of judgment.

46. When the documentary evidence, if any, has been perused, and the witnesses have been examined and the parties heard, the Court shall, either immediately or at some subsequent time, of which due notice shall be given to the parties, deliver its judgment.

Judgment to be in writing.

47. The judgment shall be written by the Judge with his own hand either in English or in the language prescribed by the Chief Commissioner as the language of the Court, as the Judge thinks fit, and it shall be dated and signed by the Judge at the time it is delivered.

Contents of judgment.

48. The judgment shall contain the decision of the Court upon each issue, together with the grounds of the decision, and shall conclude with a decree clearly stating the relief granted or other determination of the suit:

Provided that, when the decision upon one or more issues is sufficient for the disposal of the suit, the Court may, in its discretion, abstain from pronouncing any decision upon the remaining issues.

Costs.

49. (1) The decree shall specify the costs payable and the parties by whom they are to be paid.

(2) In determining the amount of costs the Court shall not allow the remuneration of agents or legal practitioners permitted under section 12 to plead or act.

Allowance of interest.

50. When the suit is for a sum of money due to the plaintiff, the Court may in the decree order simple interest at such rate as it thinks fit to be paid on the principal sum adjudged from the date of suit to the date of decree in addition to any interest adjudged on the principal sum for any period prior to the date of suit, with further simple interest, at a rate not exceeding six per centum yearly, on the aggregate sum so adjudged and on the costs of the suit from the date of the decree to the date of payment.

Payment of amount of decree by instalments.

51. In a decree for the payment of money the Court may, for any sufficient reason, order that the amount due under the decree shall be paid by instalments with or without interest.

Contents of decree for moveable property.

52. Where in a suit for moveable property the decree is for the delivery of the property, the Court shall fix an amount of money to be paid as an alternative if delivery cannot be made.

Copies of judgment to be furnished to parties.

53. Certified copies of the judgment, and, in cases where the judgment is required to be translated, of the translation thereof, shall be furnished to the parties on their application and on payment by them of the cost of the copies.

Procedure in special cases.

Injunction against waste, damage or alienation of property in dispute.

54. If at any stage of a suit before judgment a Court is satisfied, upon such inquiry as it considers necessary, that any property which is in dispute in the suit is in danger of being wasted, damaged or alienated by a party to the suit, it may, on such terms as may appear to it to be just, issue an injunction to that party commanding him to refrain from the act of waste, damage or alienation, or make such order for the purpose of staying and preventing him from wasting damaging or alienating the property, or for the care and custody thereof, as it thinks fit.

Injunction against breach of contract or committal of injury.

55. In any suit for restraining the defendant from the committal of any breach of contract or other injury, the Court may at any time after the commencement of the suit, and either before or after judgment, and on such terms as may appear to it to be just, issue an injunction restraining the defendant from the repetition or continuance of the breach of contract or the injury or the committal of any similar breach of contract or injury.

Enforcement of injunctions by attachment of property.

56. In case of disobedience to an injunction issued under either of the two last foregoing sections, the injunction may be enforced by attaching the property of the party to whom the injunction was addressed and retaining it under attachment until he obeys the injunction.

Power to vary or set aside orders under sections 54 and 55, and to adjudge compensation to party injured.

57. The Court may at any time vary or set aside an order made by it under section 54 or section 55; and, if it is satisfied that any such order has been applied for and procured by any party on grounds known to the party to be insufficient, it may award against the party in its decree such amount as it deems a reasonable compensation to the party aggrieved by the order.

Power to add parties.

58. (1) If at any hearing of a suit it appears to the Court desirable that any person not already a party to the suit should be made a party thereto, it may direct that the person be made a plaintiff or defendant, as the case may be.

(2) Where a person is so made a plaintiff or defendant, the Court shall cause a summons to be served on him in the manner provided by this Regulation for the service of a summons on a defendant.

Certain suits triable with the aid of assessors.

59. Where a suit involves any question regarding succession, inheritance, pre-emption, marriage or caste, or any religious usage or institution, it may be heard with the aid of assessors selected by the Court from the class to which the parties belong.

Miscellaneous.

Exemption of women from appearance in person.

60. Women who, according to the customs and manners of the class to which they belong, ought not to be compelled to

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter III.—Civil Procedure.—Sections 61-69.)

appear in public, shall be exempt from personal appearance in Court, whether as parties or as witnesses.

Power to Chief Commissioner to exempt from appearance in person.

61. The Chief Commissioner may, by notification in the *Gazette of India*, exempt from personal appearance in Court, whether as a party or as a witness, any person whose rank appears to entitle him to the privilege of exemption, and may, by like notification, withdraw the privilege.

Filing of documents admitted in evidence.

62. (*1*) All documents admitted as evidence in a suit, other than entries in shop-books or other books, shall be filed with the record and shall not be returned to the parties without the written permission of the Court.

(*2*) A certified copy of any document to be so returned within three months from the date of the disposal of the suit shall be made at the expense of the person applying for the return of the document and be filed with the record.

1870. (*3*) No fee shall be payable under the Court-fees Act, 1870, in respect of an application for the return of a document, or in respect of a certified copy to be filed with the record, under this section.

Mode of admission in evidence of entry in book.

63. (*1*) When a party desires to put in evidence an entry in a shop-book or other book, he shall produce the book to the Court, together with a copy of the entry on which he relies.

(*2*) The Court shall forthwith mark the entry for the purpose of identification, and, having examined and compared the copy with it, shall file the copy with the record and return the book to the party producing it, unless there seems to the Court to be cause for impounding it.

Execution of Decrees.

Mode of execution of decrees.

64. (*1*) The Court shall, on application made by the decree-holder in writing, execute its decrees in the following manner, that is to say:

(*a*) a decree for property in the possession of the judgment-debtor, by giving possession of the property to the decree-holder, or

when the property is moveable, and possession of it cannot from any cause be given, by levying in the manner provided by this sub-section for the execution of a decree for money the amount fixed as an alternative under section 52;

(*b*) a decree for partition, by dividing the property and giving the decree-holder possession of his portion;

VI of 1858. (*c*) a decree for money, by arresting and imprisoning the judgment-debtor subject to the provisions of the Debtors Act, 1858, or by attaching his property and selling it, or by both means;

(*d*) a decree for the performance of any act by the judgment-debtor, by arresting and imprisoning him or by attaching his property and retaining it under attachment, or by both means.

(*2*) No person shall be imprisoned in execution of a decree for a longer period than six months in any case, or for a longer period than six weeks if the decree is for a sum of money not exceeding fifty rupees.

(*3*) No property in land shall be sold in execution of any decree without the previous sanction of the Chief Commissioner.

(*4*) In the last foregoing sub-section the word "land" means land which is not occupied as the site of any building in a town or village and is occupied or has been let for agricultural purposes or for purposes subservient to agriculture, or for pasture, and includes the sites of buildings and other structures on such land.

Decree against surety.

65. Whenever a person has become liable as surety for the performance of a decree or of any part of a decree, the decree may be executed against him to the extent to which he has rendered himself liable, in the same manner as a decree may be enforced against a judgment-debtor.

Execution of *ex parte* decrees.

66. When an application is made for the execution of an *ex parte* decree, the Court may in its discretion, before ordering execution, require the applicant to give such security as it deems sufficient for compensation for any injury that may be done in the course of the execution, or may issue a notice to the judgment-debtor to show cause why the decree should not be executed.

Appeal.

Appeals from Courts of Tahsildárs, Munsifs, Assistant Commissioners and Extra Assistant Commissioners.

67. (*1*) A decree or order made in an original suit of value not exceeding fifty rupees by a Tahsildár or Munsif, or in an original suit of value not exceeding one hundred rupees by an Assistant Commissioner or Extra Assistant Commissioner, shall, subject to the provisions of this Regulation with respect to revision, be final.

(*2*) From every other decree or order of a Tahsildár, Munsif, Assistant Commissioner or Extra Assistant Commissioner in an original suit, and from every decree or order of a Naib-tahsildár in such a suit, an appeal shall lie to the Court of the Deputy Commissioner.

Appeal from Court of Deputy Commissioner.

68. (*1*) A decree or order made in an original suit of value not exceeding five hundred rupees by a Deputy Commissioner shall, subject to the provisions of this Regulation with respect to revision, be final.

(*2*) From every other decree or order of a Deputy Commissioner in an original suit an appeal shall lie to the Court of the Judicial Commissioner.

Appeals from appellate decrees and orders.

69. (*1*) Save as provided by this section, and subject to the provisions of this Regulation with respect to revision, an appellate decree or order of a Deputy Commissioner shall be final.

(*2*) An appeal from an appellate decree or order of a Deputy Commissioner in a suit of value exceeding one thousand rupees shall lie to the Court of the Judicial Commissioner.

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter III.—Civil Procedure.—Sections 70-73. Chapter IV.—Reference to Arbitration.—Sections 74-83.)

Revision.

Revision.

70. The Judicial Commissioner or, subject to any general or special directions of the Judicial Commissioner, the Deputy Commissioner may, of his own motion or otherwise, call for the record of any case decided by a Court under his control in which an appeal does not lie or in which, for cause shown to his satisfaction, on appeal has not been preferred within the time limited therefor, and may pass such order in the case as he thinks fit.

Distribution of Business and transfer of Proceedings.

Power for Deputy Commissioner to distribute business.

71. Notwithstanding anything in the Code of Civil Procedure or the Provincial Small Cause Courts Act, 1887, a Deputy Commissioner may, by order, direct that any civil business cognizable by his Court and the Courts under his control shall be distributed among those Courts in such manner as he thinks fit:

XIV of 1882

IX of 1878.

Provided that, except so far as it may affect the exclusive jurisdiction of a Court of Small Causes or Court invested with the jurisdiction of a Court of Small Causes, a direction given under this section shall not empower any Court to exercise any powers or deal with any business beyond the limits of its proper jurisdiction.

Power for Judicial Commissioner and Deputy Commissioner to transfer proceedings.

72. The Judicial Commissioner or Deputy Commissioner may withdraw any suit or other proceeding pending in any Court under his control and try it himself or refer it for disposal to any other Court under his control and competent to try it.

Review.

Review.

73. (*1*) The Judicial Commissioner may, for sufficient reason, review any decree or order which has been passed by himself and from which an appeal has not been preferred to Her Majesty in Council.

(*2*) A Court subordinate to the Court of the Judicial Commissioner shall not review any decree or order made by it, except for the purpose of correcting a clerical error or other error manifestly the result of an oversight, without previously obtaining,—

(*a*) in the case of any Court subordinate to the Deputy Commissioner, the permission of the Deputy Commissioner;

(*b*) in the case of the Court of a Deputy Commissioner, the permission of the Judicial Commissioner.

CHAPTER IV.

REFERENCE TO ARBITRATION.

Making and Contents of References.

Making of reference.

74. Any Court may, with the consent of the parties, by order, refer any dispute before it to aribitration.

Contents of order of reference.

75. In referring any such dispute to arbitration, the Court making the reference shall specify, in the order of reference, the precise matter submitted to the arbitrators or arbitrator and such period as it may think reasonable for the delivery of the award, and the Court may from time to time extend such period.

References to several Arbitrators.

Appointment of arbitrators where reference is to more than one arbitrator.

76. The parties to the case may each nominate either one or two arbitrators: Provided that each party shall nominate the same number

and a third or fifth arbitrator (as the case may be) shall be appointed by the Court making the reference.

Power to excuse arbitrator from serving and to call for nomination of substitute.

77. Every Court making a reference under this Chapter may, on good cause shown, excuse any person from serving as an arbitrator, and may call on the party who nominated such person to nominate another in the place of the person so excused.

Nomination of new arbitrator in place of one dying or failing to act.

78. If an arbitrator dies, desires to be discharged or refuses or becomes incapable to act, the party who nominated him shall nominate another person in his place.

Nomination by Court on default of parties.

79. If in any of the cases provided for by section 77 or section 78 any party fails for a week to nominate in manner aforesaid, the Court making the reference shall appoint some person to act as arbitrator.

Award.

80. The arbitrators shall determine and award concerning the matter referred to them for arbitration.

Summoning parties to give evidence.

81. If the arbitrators require the presence of the parties, or any other persons whose evidence may be necessary, they may apply to the Court making the reference, and the Court shall summon such parties or persons;

and all such parties or persons shall be bound to attend, either in person or by agent, as the arbitrators may require, and to state the truth and to produce such documents and other things as may be required before the arbitrators.

Preparation and submission of award.

82. The award shall be made in writing under the hands of the arbitrators and shall be submitted by them to the Court making the reference, and the Court shall cause notice to be served on the parties to attend and hear the award.

Remission of award to arbitrators.

83. The Court making the reference may remit the award or any matter referred to arbitration to the reconsideration of the same arbitrators—

(*a*) if the award has left undetermined any matter referred to arbitration, or if it has determined a matter not referred to arbitration;

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter IV.—Reference to Arbitration.—Sections 84-87. Chapter V.—Supplemental Provisions.—Sections 88-93.)

(*b*) if the award is so indefinite as to be incapable of execution ; or

(*c*) if an objection to the legality of the award is apparent upon the face of the award.

Grounds for setting aside award.

84. (*1*) No award shall be liable to be set aside except on the ground of corruption or misconduct of all or any of the arbitrators.

(*2*) Any application to set aside an award shall be made within ten days after the day appointed for hearing the award.

Decision according to award.

85. If the Court making the reference sees no cause for remitting or further remitting the award or any matter referred to arbitration for reconsideration in the manner aforesaid,

and if no application has been made to set aside the award,

or if the Court has refused such application,

the Court shall decide in accordance with the award of the majority of the arbitrators,

and shall fix the amount to be allowed for the expenses of the arbitration, and direct by and to whom, and in what manner, the same shall be paid.

Bar to appeal and suit.

86. Such decision shall not be open to appeal, and shall be at once carried out ;

and no Court shall entertain any suit for the purpose of setting it aside or against the arbitrators on account of their award.

References to a single Arbitrator.

Reference to single arbitrator.

87. If the parties desire that the matter in dispute be referred to one arbitrator instead of to three or five arbitrators under section 76, the matter may be so referred, and the provisions of sections 77 to 86, both inclusive, shall then apply, so far as they can be made applicable, to the single arbitrator and to the proceedings before him and his award.

CHAPTER V.

SUPPLEMENTAL PROVISIONS.

Disposal of pending cases.

88. (*1*) Cases pending at the commencement of this Regulation shall be disposed of by such of the Courts under this Regulation as the Judicial Commissioner may direct, and shall be dealt with as nearly as may be in accordance with the provisions of this Regulation.

(*2*) But if in any such case it appears to the Court that the application of any provision in this Regulation would deprive any party of any right which, but for this Regulation, would have belonged to him, the Court may proceed as if this Regulation were not in force.

Law to be administered.

89. (*1*) When in any suit it is necessary for a Court under this Regulation to decide any question regarding succession, inheritance, pre-emption, marriage or caste, or any religious usage or institution,—

the Muhammadan law in cases where the parties are Muhammadans, and

the Hindu law in cases where the parties are Hindus,

shall form the rule of decision, except in so far as that law has been altered or abolished by legislative enactment, or is opposed to any custom having the force of law in British Baluchistan.

(*2*) In cases not provided for by sub-section (*1*) or by any other law for the time being in force, the Court shall act according to justice, equity and good conscience.

Power for Judicial Commissioner to make rules.

90. (*1*) The Judicial Commissioner may make rules consistent with this Regulation for regulating the practice and proceedings of his own Court and the Courts subordinate thereto.

(*2*) With the previous sanction of the Chief Commissioner, rules may be made under sub-section (*1*) for the regulation of the following among other matters, namely :—

(*a*) the fees to be paid for processes ;

(*b*) the fees to be paid for copies and inspection of records ;

(*c*) the travelling and other expenses of witnesses ;

(*d*) the qualifications to be possessed by, and the conditions to be imposed on, legal practitioners applying to the Chief Commissioner for authority to plead and act for parties under this Regulation, and the fees, if any, to be paid for the concession of such authority ; and

(*e*) the licensing of petition-writers and regulation of their conduct.

(*f*) generally for the purpose of carrying into effect the provisions of this Regulation in matters not expressly provided for by this section.

(*3*) Whoever breaks any rule under clause (*e*) of sub-section (*2*) may, subject to the provisions of any rule under that clause, be suspended or removed from practice or be punished with fine which may extend to fifty rupees.

Miscellaneous proceedings.

91. The procedure to be observed by any Court under this Regulation in suits shall be followed, so far as it can be made applicable, in all proceedings in that Court other than suits.

Decrees and orders not reversible on technical grounds alone.

92. Notwithstanding anything in this Regulation, a decree or order shall not be reversed or altered on appeal or revision on account of any irregularity of procedure unless the irregularity has occasioned, or is likely to occasion, a failure of justice.

Conferment of powers of Deputy Commissioner.

93. (*1*) Subject to the other provisions of this Regulation, the Chief Commissioner may, by order in writing, invest any Assistant Commissioner or Extra Assistant Commissioner with all or any of the powers of a Deputy Commissioner under this Regulation and declare that the powers with which he is so invested are to be exercised

The British Baluchistan Civil Justice Regulation, 1896.

(Chapter V.—Supplemental Provisions.—Sections 94-95. The Schedule.)

within any specified local area and with respect to any particular class or particular classes of cases or with respect to cases generally.

(2) The Court of an Assistant Commissioner or Extra Assistant Commissioner so invested shall, for all purposes connected with the exercise of the said powers, be deemed to be the Court of a Deputy Commissioner.

(3) The Judicial Commissioner may, by order in writing, direct how business is to be distributed between the Deputy Commissioner and any Assistant Commissioner or Extra Assistant Commissioner invested as aforesaid.

Power to confer Small Cause Court jurisdiction.

94. (1) The Chief Commissioner may confer, within such local limits as it may prescribe in this behalf, upon any Tahsildár, Munsif, Assistant Commissioner or Extra Assistant Commissioner the jurisdiction of a Judge of a Court of Small Causes under the Provincial Small Cause Courts Act, 1887, for the trial of suits cognizable by such Courts up to such value not exceeding one hundred rupees in the case of a Tahsildár or Munsif, or five hundred rupees in the case of an Assistant Commissioner or Extra Assistant Commissioner, as it thinks fit, and may withdraw any jurisdiction so conferred. IX of 1887.

(2) The Judicial Commissioner may make rules for regulating the distribution of business between any Tahsildár or Munsif and any Assistant Commissioner or Extra Assistant Commissioner upon whom jurisdiction may be conferred within the same local limits under sub-section (1).

Limitation for appeals and applications under this Regulation.

XIV of 1882. 95. Where the Code of Civil Procedure or any part thereof is referred to in the second or third division of the second schedule to the Indian Limitation Act, 1877, the reference shall be construed as applying to this Regulation or the corresponding part thereof, if any. XV of 1877.

No. 28.—Mr. H. W. C. Carnduff, of the Indian Civil Service, Officiating Deputy Secretary to the Government of India in the Legislative Department, is appointed substantively *pro tempore* Secretary to the Government of India in that Department, with effect from the afternoon of this date until the subsequent date on which he is relieved by Mr. J. M. Macpherson.

A. B. WILSON,

Registrar,

for *Secretary to the Government of India.*

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Simla, the 5th November, 1896.

No. 1727.—Under the provisions of section 9 of the Statute 24 and 25 Victoria, Chapter 67, the Governor General in Council is pleased to direct that His Excellency's Council shall assemble at Calcutta in the jurisdiction of the Lieutenant-Governor of Bengal.

MEDICAL.

The 4th November, 1896.

No. 997.—The services of Surgeon-Captain E. C. Hare, I.M.S. (Bengal), are placed permanently at the disposal of the Chief Commissioner of Assam, with effect from the 9th March 1896.

The 5th November, 1896.

No. 1000.—The services of Surgeon-Captain D. T. Lane, I.M.S. (Bengal), are placed permanently at the disposal of the Government of the Punjab, with effect from the 31st August 1896.

No. 1002.—The services of Surgeon-Captain E. Wilkinson, I.M.S. (Bengal), are placed temporarily at the disposal of the Government of the Punjab, with effect from the date on which he may assume charge of his duties under that Government.

SANITARY.

The 3rd November, 1896.

No. 386.—The following rule for quarantine against plague which has been made by the Chief Commissioner of Burma in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, is published for general information in substitution of Rule III of the rules for quarantine against plague published in Notification No. 369, dated 29th October 1896:

III.—The pilot shall not take such vessel higher than Elephant Point, but shall anchor it there until the Health Officer of the Port has visited it and ascertained by enquiry from the commander whether any person on board is suffering, or has during the voyage suffered, from plague. If the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, the Health Officer *may*, by writing under his hand to be delivered to the commander, permit such vessel to haul down the yellow flag and proceed upwards in the port and hold free communication with the shore and with vessels and boats in port. Provided that, if the vessel has undergone since leaving Bombay a quarantine, which is properly proved, for not less than eight days at Colombo, or som other British port, the Health Officer *shall* grant such permission as aforesaid.

If the vessel has not undergone eight days' quarantine at Colombo or some other British port since leaving Bombay, the Health Officer *may* direct the commander to take the vessel to the quarantine anchorage and there to remain for a period of eight days from the date of arrival in the harbour. In such case the Health Officer shall also direct the commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for between such vessel and the shore, or other vessels and boats in the harbour.

The 4th November, 1896.

No. 387.—The following rules for quarantine against plague, which have been made by the Madras Government in exercise of the power conferred by section 1, Act I of 1870, with the previous sanction of the Governor General in Council, are published for general information :

The rules have effect from the 28th October 1896 as a temporary measure at the port of Madras.

I. The Commander of every vessel arriving from Bombay shall, before entering the port, indicate his arrival by signal.

II. Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the port.

III. Immediately on any such arrival being signalled, the Health (or other Medical) Officer of the port shall go alongside the vessel and ascertain by inquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague. If there is no case of plague on board, pratique may be granted at the discretion of the Health Officer whether the vessel carries a qualified Medical Officer or not. Pratique granted at Colombo will be recognised.

IV. If the Health Officer shall have reason to believe at the time when the vessel arrives in the port that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage, and there to remain for a period of fifteen days from the day of arrival in the port ; and shall further direct that, during such fifteen days, intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited.

V. If, during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in rule IV.

VI. When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected as places of quarantine, there to remain for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII. Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII. It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores or other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX. All vessels arriving at the port which may have communicated with infected vessels coming from Bombay shall be subjected to the same quarantine as vessels arriving from Bombay with plague on board.

The 6th November, 1896.

No. 403.—The services of Surgeon-Captain J. M. Cadell, M.B., I.M.S. (Bengal), are placed permanently at the disposal of the Government of the North-Western Provinces and Oudh, with effect from the 8th July 1896.

POLICE.

The 5th November, 1896.

No. 606.—The services of Captain G. H. Turner, 26th Bombay Infantry, an Assistant Commandant in the Burma Military Police, are replaced at the disposal of His Excellency the Commander-in-Chief, with effect from the 24th November 1896.

ECCLESIASTICAL.

The 5th November, 1896.

No. 319.—The services of the Reverend A. Ferrier, Senior Chaplain of the Church of Scotland, are placed at the disposal of the Government of the Punjab, with effect from the 4th November 1896.

J. P. HEWETT,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

FORESTS.

Simla, the 3rd November, 1896.

No. 994—129-18-*F.*—With reference to the notifications of this Department No. 468-F., dated the 5th June 1896, and No. 873-F., dated the 18th September last, Mr. G. F. Prevost, officiating Conservator of Forests, Tenasserim Circle, Burma, is granted extraordinary leave without pay, under article 366(*i*) of the Civil Service Regulations, from the 31st August to the 8th September 1896 (both dates inclusive).

CIVIL VETERINARY ADMINISTRATION.

The 5th November, 1896.

No. 2020—78-13.—Veterinary-Lieutenant F. S. H. Baldrey, Assistant Principal, Bombay Veterinary College, is granted furlough on medical certificate, under Article 343, Civil Service Regulations, together with the usual subsidiary leave, with effect from the date on which he made over charge of his appointment.

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 6th November, 1896.

No. 3447-*I. B.*—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act (XXI of 1879) and of all other powers enabling him in this behalf, the Governor General in Council is pleased to apply the provisions of the Petroleum Act (XII of 1886) to the Hyderabad Assigned Districts :

Provided that, for the purpose of facilitating the application of the provisions of the enactment hereby applied, any Court in the Hyderabad Assigned Districts may construe them with such alterations, not affecting the substance, as may be necessary or proper to adapt them to the matter before the Court :

Provided also that references to Local Government shall be read as referring to the Resident at Hyderabad and references to British India or territories subject to a Local Government as referring to the Hyderabad Assigned Districts :

Provided further that, with reference to the provisions of section 26 of the Enactment hereby applied, the Resident at Hyderabad shall, before making rules under the

Act so applied, publish a draft of the proposed rules in the Hyderabad Residency Orders in English and such other language or languages as he may consider necessary.

II. The notification of the Government of India in the Foreign Department No. 1482-I., dated the 3rd May, 1894 is hereby cancelled, in so far as it relates to railway lands in the Hyderabad Assigned Districts.

No. 1956-*E. A*.—In exercise of the powers enabling him in this behalf, the Governor General in Council is pleased, in supersession of the Notifications of the Government of India in the Foreign Department, Nos. 255-E. and 390-E., dated the 31st January, 1890, and the 10th February, 1893, respectively, to make the following Law to provide for the administration of Criminal Justice in the territories administered by the Agent to the Governor General in Baluchistan:

THE BALUCHISTAN AGENCY CRIMINAL JUSTICE LAW, 1896.

CONTENTS.

A Law to consolidate and amend the law for the administration of Criminal Justice in the territories administered by the Agent to the Governor General in Baluchistan.

WHEREAS it is expedient to consolidate and amend the law for the administration of criminal justice in the territories administered by the Agent to the Governor General in Baluchistan as such Agent; It is hereby enacted as follows:—

Title and commencement.

1. (*1*) This Law may be called the Baluchistan Agency Criminal Justice Law, 1896; and

(*2*) It shall come into force at once.

Saving.

2. All proceedings commenced, officers appointed or authorized, powers conferred, rules made and orders issued in pursuance of any of the provisions (hereby superseded) of the Baluchistan Agency Criminal Justice Law, 1890, as amended by the Notification of the Government of India in the Foreign Department, No. 390-E., dated the 10th February, 1893, shall, as far as may be, be deemed to have been respectively commenced, appointed or authorized, conferred, made and issued under this Law, and any law or document referring to any of the said provisions shall, as far as may be, be construed to refer to this Law or to the corresponding portion thereof.

Definitions.

3. In this Law—

(*1*) the expression "Agent to the Governor General" means the Agent to the Governor General in Baluchistan;

(*2*) the expression "Judicial Commissioner" means the Judicial Commissioner in Baluchistan; and

(*3*) the expression "the said territories" means the territories for the time being administered by the Agent to the Governor General in Baluchistan as such Agent.

Application of the Code of Criminal Procedure, 1882.

4. Subject to the modifications set forth in the schedule, the Code of Criminal Procedure, 1882, (hereinafter referred to as "the Code"), shall apply to the whole of the said territories, so far as it can be made applicable in the circumstances for the time being. X o

THE SCHEDULE.

(See section 4.)

MODIFICATIONS SUBJECT TO WHICH THE CODE IS TO APPLY TO THE BALUCHISTAN AGENCY TERRITORIES.

"High Court." (Section 4, cl. (i). See also section 6, Act XXI, 1879.)

1. "High Court" shall mean,—

(*i*) in reference to proceedings against European British subjects or persons jointly charged with such subjects, the Chief Court of the Punjab; and,

(*ii*) in reference to proceedings against other persons, the Judicial Commissioner:

Provided that every sentence of death passed or confirmed by the Judicial Commissioner shall

be submitted to the Agent to the Governor General and shall not be executed unless and until it has been confirmed by the said Agent to the Governor General, who, in every case so submitted to him, shall exercise all the powers of a High Court described in Chapter XXVII of the Code.

"Pleader." (Section 4, cl. (*n*).)

2. "Pleader", used with reference to any proceeding in any Court, means a legal practitioner having authority from the Agent to the Governor General to act in such proceeding or practise in such Court.

Court of Session. (Sections 7, 9 and 193, and Chapter XXIII.)

3. (*1*) Each district shall be a Sessions Division, the Court of the District Magistrate shall be the Court of Session for that Division, and the District Magistrate shall be the Judge of that Court.

(*2*) As Judge of a Court of Session, a District Magistrate may take cognizance of any offence as a Court of Original Jurisdiction without the accused person being committed to him by a Magistrate, and, when so taking cognizance of an offence, shall, subject to the provisions of this Law, follow the procedure prescribed for the trial of warrant-cases by Magistrates.

(*3*) A trial before a Court of Session may be without jury or aid of assessors.

Conferment of magisterial powers on police-officers. (Section 14.)

4. Notwithstanding anything in Act V of 1861, or in any other enactment for the time being in force, the Agent to the Governor General may confer on any police-officer all or any of the powers conferred or conferable by or under the Code on any Magistrate, in regard to particular cases, or to a particular class or particular classes of cases, or to cases generally.

Powers of Magistrates. (Sections 36, 37 and 260.)

5. (*1*) Magistrates described in the first column of the following table shall have the powers severally specified against them in the second column thereof without being further empowered in that behalf:

Magistrates.	Powers.
1	2
Magistrates of the first class.	To require security for good behaviour, section 110; To make orders as to local nuisances, section 133.
Magistrate of the first or second class.	To make orders prohibiting repetition of nuisances, section 143; To make orders under section 144.
Magistrates of the first, second or third class.	To entertain complaints, section 191; To receive police-reports, section 191; To entertain cases without complaint, section 191.
Sub-divisional Magistrates.	To call for records, section 435.

(*2*) The Agent to the Governor General may empower a Magistrate of any class to try in a summary way under Chapter XXII any offence mentioned in section 260 which under section 29 he is competent to try.

Power to any police-officer to act under section 55. (Section 55.)

6. Any police-officer may exercise the powers conferred by section 55 on an officer in charge of a police-station.

Detention by police. (Sections 57 and 61.)

7. (*1*) Notwithstanding anything in section 57 or section 61, an officer in charge of a police-station may detain a person arrested without warrant so long as in all the circumstances of the case is reasonable:

(*2*) But when the officer of his own authority detains any such person in custody for a longer period than twenty-four hours exclusive of the time necessary for the journey from the place of arrest to the nearest Magistrate's Court, he shall state in the report prescribed in section 62 his reasons for prolonging the detention of the person, and, where the detention extends beyond three days, shall submit further reports of the reasons therefor at such intervals as the Magistrate to whom the report under section 62 was submitted may by general or special order direct.

Complement to the Baluchistan Agency Laws Law, 1890, s. 5, cl. (2). (Section 162.)

8. Nothing in the first paragraph of section 162 shall be construed to apply to a statement made to a police-officer who is a Magistrate.

State offences and false evidence by person to whom pardon has been tendered. (Sections 196 and 339.)

9. A prosecution for an offence against the State, or for the offence of giving false evidence in respect of a statement made by a person who has accepted a tender of pardon, may be entertained upon complaint made by order of, or under authority from, the District Magistrate.

Tender of pardon. (Section 337.)

10. A Magistrate tendering a pardon to an accomplice under section 337 need not record his reasons for so doing, and, notwithstanding anything in that section, may try the case himself.

Recording of evidence. (Chapter XXV.)

11. In inquiries and trials (other than summary trials) by or before a Magistrate or Court of Session, it shall be sufficient if the Magistrate or Court makes a memorandum of the substance of the evidence of each witness as the examination of the witness proceeds.

Execution of sentence of imprisonment for six months or less. (Section 383.)

12. In the case of a sentence of imprisonment for a term not exceeding six months, the Court passing the sentence may forward the accused with a warrant to the District Magistrate, who may in his discretion either cause the prisoner to be employed in any part of the district as a labourer on roads or other works of public utility, or forward him to the nearest jail.

Appeal to High Court and limitation therefor. (Section 408.)

13. (*1*) A person convicted on a trial held by a District Magistrate may appeal to the High Court.

(*2*) Notwithstanding anything in the Indian Limitation Act, 1877, the period of limitation for XV of 1877.

an appeal to the High Court shall, except in the cases provided for by No. 150 and No. 157 of the second schedule to that Act, be thirty days from the date of the conviction.

Restrictions on appeal. (Sections 413 and 414.)

14. (*1*) Notwithstanding anything in this schedule or in the Code, an appeal shall not lie—

(*a*) in a case in which a Magistrate of the first class passes a sentence of imprisonment for a term not exceeding six months only, or of fine not exceeding five hundred rupees only, or of whipping only; or

(*b*) in a case in which a District Magistrate or Court of Session passes a sentence of imprisonment for a term not exceeding one year, or of fine not exceeding one thousand rupees, or of whipping, or of all or any of those punishments combined.

(*2*) The Governor General in Council may at any time, by notification in the *Gazette of India*, direct that this section shall cease to be in force in any district with effect from a date to be specified in the notification.

Enhancement of punishment on appeal. (Section 423.)

15. In any case in which an appeal lies, the Appellate Court may enhance any punishment which has been awarded:

Provided that, if the appeal is from the sentence of a Magistrate of any class, the Appellate Court shall not inflict a greater punishment than might have been inflicted by a Magistrate of the first class.

Contempt and offences against public justice or relating to documents. (Section 487.)

16. Where an offence referred to in section 195 is committed before a Judge of a Criminal Court or Magistrate, or in contempt of his authority, or is brought to his notice in the course of a judicial proceeding, he may himself try for the offence the person accused thereof.

Conduct of prosecutions. (Section 495.)

17. Notwithstanding anything in section 495, a Court may allow any police-officer to conduct a prosecution.

Transfer of cases. (Section 526.)

18. Notwithstanding anything in section 526, the High Court may, of its own motion or on any representation, whether supported by affidavit or not, by special or general order, direct that any criminal case or appeal, or class of criminal cases or appeals, be transferred to, and tried before, itself, or that an accused person, or accused persons, be committed for trial to itself.

Orders not reversible on technical grounds alone. (Section 537.)

19. Notwithstanding anything in the Code, a finding, sentence or order shall not be reversed or altered on appeal or revision on account of any irregularity of procedure, unless the irregularity has occasioned a failure of justice.

Process and copying fees, and admission of pleaders and petition-writers. (Section 553.)

20. (*1*) With the previous sanction of the Agent to the Governor General, rules may be made under section 553, clause (*c*), for the regulation of the following, among other matters, namely:

(*a*) the fees to be paid for processes;

(*b*) the fees to be paid for copies and inspection of records;

(*c*) the qualifications to be possessed by, and the conditions to be imposed on, legal practitioners applying to the Agent to the Governor General for authority to practise in Criminal Courts, and the fees, if any, to be paid for the concession of such authority; and

(*d*) the licensing of petition-writers and regulation of their conduct.

(*2*) Whoever breaks any rule under clause (*d*) of sub-section (*1*) may, subject to the provisions of any rule under that clause, be suspended or removed from practice or be punished with fine which may extend to fifty rupees.

Saving of provisions relating to European British subjects.

21. Nothing in this schedule with respect to procedure in inquiries or trials, or with respect to sentences or appeals therefrom or the enhancement or execution thereof, shall be construed to affect the Code in its application to European British subjects or persons jointly charged with such subjects.

No. 1957-E. A.—In exercise of the powers enabling him in this behalf, the Governor General in Council is pleased, in supersession of the Notifications of the Government of India in the Foreign Department Nos. 255-E. and 391-E., dated the 31st January, 1890, and the 10th February, 1893, respectively, to make the following Law for the administration of Civil Justice in the territories administered by the Agent to the Governor General in Baluchistan:

THE BALUCHISTAN AGENCY CIVIL JUSTICE LAW, 1896.

CONTENTS.

CHAPTER I.

PRELIMINARY.

SECTIONS.

CHAPTER II.

THE COURTS.

CHAPTER III.

CIVIL PROCEDURE.

General Rule.

References to several Arbitrators.

SECTIONS.

76. Appointment of arbitrators where reference is to more than one arbitrator.
77. Power to excuse arbitrator from serving and to call for nomination of substitute.
78. Nomination of new arbitrator in place of one dying or failing to act.
79. Nomination by Court on default of parties.
80. Award.
81. Summoning parties to give evidence.
82. Preparation and submission of award.
83. Remission of award to arbitrators.
84. Grounds for setting aside award.
85. Decision according to award.
86. Bar to appeal and suit.

References to a single Arbitrator.

87. Reference to single arbitrator.

CHAPTER V.

SUPPLEMENTAL PROVISIONS.

88. Disposal of pending cases.
89. Law to be administered.
90. Power for Judicial Commissioner to make rules.
91. Miscellaneous proceedings.
92. Decrees and orders not reversible on technical grounds alone.
93. Conferment of powers of Political Agent.
94. Power to confer Small Cause Court jurisdiction.
95. Limitation for appeals and applications under this Law.

A Law to consolidate and amend the law relating to the administration of Civil Justice in the territories administered by the Agent to the Governor General in Baluchistan.

WHEREAS it is expedient to consolidate and amend the law relating to the administration of civil justice in the territories administered by the Agent to the Governor General in Baluchistan as such Agent; it is hereby enacted as follows:

CHAPTER I.

PRELIMINARY.

Title, commencement and definitions.

1. (*1*). This Law may be called the Baluchistan Agency Civil Justice Law, 1896; and

(*2*) It shall come into force at once.

(*3*) In this Law—

(*a*) the expression "Agent to the Governor General" means the Agent to the Governor General in Baluchistan;

(*b*) the expression "Judicial Commissioner" means the Judicial Commissioner in Baluchistan; and

(*c*) the expression "the said territories" means the territories for the time being administered by the Agent to the Governor General in Baluchistan as such Agent.

Saving.

2. Subject to the provisions of section 88, all officers appointed or authorized, powers conferred, rules made and orders issued under any of the provisions (hereby superseded) of the Baluchistan Agency Civil Justice Law, 1890, as amended by the Notification of the Government of India in the Foreign Department No. 391-E., dated the 10th February, 1893, shall, as far as may be, be deemed to have been respectively appointed or authorized, conferred, made and issued under this Law, and every law or document referring to any of the said provisions shall, as far as may be, be construed to refer to this Law or to the corresponding portion thereof.

CHAPTER II.

THE COURTS.

Grades of Civil Courts.

3. Besides the Courts established under any other enactment for the time being in force, the Civil Courts in the said territories shall be of five grades, namely:

(*1*) the Court of the Judicial Commissioner;

(*2*) the Court of the Political Agent;

(*3*) the Courts of the Assistant Political Agent, any Cantonment Magistrate or other officer vested by the Governor General in Council with the powers in respect of any local area of the Assistant Political Agent in this behalf, the Extra Assistant Commissioner and the Native Assistant;

(*4*) the Courts of the Tahsildár and the Munsif; and

(*5*) the Court of the Náib-tahsildár.

Appointment of presiding officers.

4. (*1*) The presiding officers of the Courts of the first, second and third grades shall be appointed and may be removed by the Governor General in Council.

(*2*) The presiding officers of the Courts of the fourth and fifth grades shall be appointed and may be removed by the Agent to the Governor General subject to the control of the Governor General in Council.

(*3*) Any appointment under this section may be made either by name or by virtue of office.

Number of Courts of second, third, fourth and fifth grades and power to fix local limits of their jurisdiction.

(*1*) The Agent to the Governor General may, with the previous sanction of the Governor General in Council, fix and vary the number of Courts of the second, third, fourth and fifth grades.

(*2*) The Agent to the Governor General, by notification in the *Gazette of India*, may, with the previous sanction of the Governor General in Council, fix and vary the local limits of the jurisdiction of the Courts aforesaid.

Original jurisdiction of Courts.

6. Except as otherwise provided by any other enactment for the time being in force—

(*a*) the Court of the Náib-tahsildár shall have jurisdiction to try suits of value not exceeding fifty rupees and of the nature cognizable by a Court of Small Causes established under the Provincial Small Cause Courts Act, 1887; IX of 1887

(*b*) the Courts of the Tahsildár and the Munsif shall have jurisdiction to try original suits of such value, not exceeding one thousand rupees, as the Agent to the Governor General may in the case of each Tahsildár or Munsif direct, or if no such direction has been made, then original suits of value not exceeding three hundred rupees;

(*c*) the Courts of the Assistant Political Agent, any Cantonment Magistrate or other officer vested by the Governor General in Council with the powers of the Assistant Political Agent under section 3, clause (3), the Extra Assistant Commissioner and the Native Assistant shall have jurisdiction to try original suits of value not exceeding ten thousand rupees; and

(*d*) the Court of the Political Agent and the Court of any Assistant Political Agent, Extra Assistant Commissioner or Native Assistant whom the Agent to the Governor General may, by notification in the *Gazette of India*, specify in this behalf, shall have jurisdiction to try original suits without limit as regards the value.

High Court and District Court.

7. (*1*) Subject to the provisions of this section and of any other enactment for the time being in force, the Court of the Judicial Commissioner shall, for the purposes of all enactments relating to civil jurisdiction for the time being in force, be deemed to be the High Court for the said territories.

(*2*) The Court of the Political Agent shall, for the same purposes, be deemed to be the principal Civil Court of original jurisdiction and the District Court for the local area within its jurisdiction.

IV of 1869. (*3*) For the purposes of the Indian Divorce Act the Chief Court of the Punjab and the Political Agent shall be de[illegible]d to be the High Court and the District Judge, respectively.

Control over Civil Courts.

8. (*1*) The general superintendence and control over all other Civil Courts shall be vested in, and all such Courts shall be subordinate to, the Court of the Agent to the Governor General.

(*2*) Subject to the general superintendence and control of the Court of the Judicial Commissioner, the Political Agent shall control all other Civil Courts in the local area within his jurisdiction.

CHAPTER III.

CIVIL PROCEDURE.

General Rule.

Procedure to be observed to Civil Courts.

9. Except as otherwise provided by any other enactment for the time being in force, the provisions of this Chapter shall apply to all suits and other proceedings in the Civil Courts of the said territories.

Prior Adjudications and Pending Suits.

Effect of prior adjudication.

10. A Court shall not try any suit in which the matter in issue has been heard and finally decided by a Court of competent jurisdiction in a former suit between the same parties in the same rights, or between parties under whom they, or any of them, claim.

Effect of pending suits.

11. A Court shall not try any suit in which the matter in issue is also in issue in another suit between the same parties, or between parties under whom they, or any of them, claim, pending in the same or any other Court, whether superior or inferior, in British India or in the said territories.

Appearances, Applications and Acts by Parties.

Appearance in person or by representative.

12. (*1*) The Court may in its discretion, for any sufficient reason, permit any appearance, application or act, required to be made or done by a party under this Law, to be made or done by the party through an authorized agent, or through a legal practitioner having authority from the Agent to the Governor General to plead and act for parties with the permission of the Court under this sub-section.

(*2*) Permission under this section shall in all cases be granted to persons exempt from personal appearance in Court.

(*3*) Except with the permission of the Court granted under the foregoing provisions of this section, every appearance, application or act under this Law shall be made or done by a party in person.

(*4*) When the permission mentioned in this section is granted to a party, the agent or legal practitioner must, unless, in the case of a legal practitioner, he is an advocate of a High Court established by Royal Charter or of the Chief Court of the Punjab, be appointed by the party by instrument in writing, and that instrument must be filed in Court.

Withdrawal of permission to appoint representative.

13 In any case in which the Court has permitted a party not being a person exempt from personal appearance in Court to appear by an agent or a legal practitioner, it may, for reasons to be recorded in writing, withdraw the permission at any stage of the proceedings, and require the party to attend in person.

Consequences of not appearing in person when required.

14. A party required to attend in person under the last foregoing section, and failing so to attend, shall be subject to the provisions of this Law applicable to parties who do not appear.

Institution of Suits.

Mode of beginning suit.

15. The plaintiff must begin his suit by presenting to the Court a written plaint.

Examination of plaintiff.

16. On a plaint being so presented, the Court shall register the suit and examine the plaintiff, or his agent or legal practitioner, as to the merits of the case.

17. If upon the examination it appears that there is no substantial cause of action, or that the claim is one which from its nature is not a proper subject of litigation in a Civil Court, the Court may dismiss the suit.

Summary dismissal of suit.

18. If upon the examination it is found that the plaintiff sets forth a good cause of action, the Court shall issue a summons to the defendant to appear and answer at a certain time and place.

Issue of summons.

Service of Summons on Defendants.

19. Service of the summons shall be made by delivering or tendering a copy thereof signed by the Judge or such officer as he appoints in this behalf, and sealed with the seal of the Court, and, when there are more defendants than one, service of the summons shall be made on each defendant.

Mode of service of summons.

20. Whenever it is practicable, the service shall be on the defendant in person.

Service on defendant in person.

21. When the defendant cannot be found the service may be on any adult male member of his family residing with him or, where the defendant is a member of a tribe, on the head of the tribe.

Service when defendant cannot be found.

22. (*1*) Where the summons is served on the defendant personally, or on any person on his behalf, the person on whom the service is made shall be required to sign an acknowledgment of service, to be endorsed on the original summons or on a copy thereof under the seal of the Court.

Endorsement of summons by person served.

(*2*) If the person refuses to sign the acknowledgment, the service of the summons shall nevertheless be held sufficient if it is otherwise proved to the satisfaction of the Court.

23. When the defendant cannot be found, and there is no person on whom the service can be made, the service may be effected by posting the copy of the summons on the outer door of the house in which the defendant ordinarily resides, if he ordinarily resides at any place within the local limits of the jurisdiction of the Court.

Service by posting copy of summons on door of ordinary residence.

24. The person serving a summons shall, in all cases in which the summons has been served, endorse on the original summons, or on a copy thereof under the seal of the Court, the time when, and the manner in which, it was served.

Endorsement of summons by person serving.

25. (*1*) When a summons is returned to the Court without having been served, if the plaintiff satisfies the Court that there is reasonable ground for believing that the defendant is keeping out of the way for the purpose of avoiding the service of the summons, or that for any other reason the summons cannot be served in the ordinary way, the Court shall order the summons to be served—

Substituted service when summons is returned unserved.

(*a*) by posting a copy thereof on some conspicuous place in the court-house and also on the door of the house in which the defendant last resided, if it is known where he last resided, or

(*b*) in such other manner as the Court thinks proper

(*2*) A service in the manner ordered by the Court under clause (*b*) of sub-section (*1*) shall be as effectual as if it had been made in the manner specified in clause (*a*) of that sub-section.

26. When service is substituted by order of the Court under the last foregoing section the Court shall fix such time and place for the appearance of the defendant as the case may require.

Fixing of time for appearance in case of substituted service.

27. If the defendant ordinarily resides beyond the local limits of the jurisdiction of the Court in which the suit is instituted, and has not within those limits an agent empowered to accept the service, the Court shall transmit the summons for service to a Court having jurisdiction at the place where the defendant resides.

Service on defendant residing out of jurisdiction and having no agent.

28. (*1*) If the defendant resides out of British India and the said territories and has not therein an agent empowered to accept the service, the summons shall be addressed to the defendant at the place where he resides, and be forwarded to him by post or otherwise.

Service on defendant residing out of British India and Baluchistan Agency and having no agent.

(*2*) If at the time fixed for the hearing of the suit, or at any time subsequent thereto to which the hearing may be adjourned a defendant to whom a summons has been forwarded under sub-section (*1*) does not appear, the Court may, on the application of the plaintiff, direct that the plaintiff shall be at liberty to proceed with his suit in such manner, and subject to such conditions, as the Court thinks fit.

29. When the suit is for land or other immoveable property, and the summons for any reason cannot be served on the defendant in person, the summons may be served on any agent of the defendant in charge of the land or other property.

Service on agent in charge of immoveable property.

Consequences of non-appearance of Parties.

30. (*1*) If, at the time fixed for the defendant to appear and answer, or at any time subsequent thereto to which the hearing of the suit may be adjourned, neither party appears when called upon by the Court, the suit shall be dismissed.

Dismissal of suit on non appearance of either party.

(*2*) When a suit is dismissed under sub-section (*1*), the plaintiff may bring a fresh suit, or, if within a period of thirty days from the date of the dismissal of the suit, he satisfies the Court that there was sufficient cause for his failure to appear, the Court may issue a fresh summons upon the plaint already filed.

31. (*1*) If the plaintiff appears and the defendant does not appear, and it is proved to the satisfaction of the Court that the summons was duly served, the Court shall proceed to hear the suit *ex parte*.

Procedure on non-appearance of defendant when summons was duly served.

(2) If the defendant appears at any subsequent time to which the hearing of the suit may be adjourned, and assigns good cause for his previous failure to appear, he may, upon such terms as the Court may direct as to payment of costs or otherwise, be heard in answer to the suit in like manner as if he had appeared at the time fixed for his appearance.

Procedure on non-appearance of defendant when summons was not duly served or not served in due time.

32. (1) If the plaintiff appears and the defendant does not appear, and it is not proved to the satisfaction of the Court that the summons was duly served in any of the modes of service provided by this Law, the Court may direct a second summons to the defendant to be issued in any of those modes.

(2) If the plaintiff appears, and it is proved to the satisfaction of the Court that the summons was served on the defendant, but was served on him too late to admit of his appearing and answering at the time fixed in the summons, the Court shall postpone the hearing of the suit to a future time to be fixed by the Court and may direct notice of that time to be given to the defendant.

Judgment by default against plaintiff not appearing or against defendant on admission.

33. (1) If the defendant appears and the plaintiff does not appear, the Court shall pass judgment against the plaintiff by default, unless the defendant admits the claim, in which case the Court shall pass judgment against the defendant upon the admission.

(2) When judgment is passed against a plaintiff by default, he shall be precluded from bringing a fresh suit in respect of the same cause of action.

Consequence of non-appearance of one or more of several plaintiffs.

34. If there are two or more plaintiffs, and appearance is made by one or more of them and not by the other or others, the Court may, at the instance of the plaintiff or plaintiffs appearing, proceed with the suit in the same way as if all the plaintiffs had appeared, and pass such order as is just and proper in the circumstances of the case.

Consequence of non-appearance of one or more of several defendants.

35. If there are two or more defendants, and appearance is made by one or more of them and not by the other or others, the Court shall proceed with the suit to judgment and shall, at the time of passing judgment, make such order with respect to the defendant or defendants by whom appearance has not been made as is just and proper in the circumstances of the case.

Setting aside judgment *ex parte* against defendant.

36. (1) Where judgment is passed *ex parte* against a defendant, he may apply at any time, not later than thirty days from the date on which any process for enforcing the judgment has been executed, to the Court by which the judgment was passed, for an order setting it aside.

(2) If it is proved to the satisfaction of the Court that the summons was not duly served, or that the defendant was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment and appoint a time for proceeding with the suit.

Setting aside judgment against plaintiff by default.

37. (1) Where judgment is passed against a plaintiff by default he may apply, within thirty days from the date of the judgment, for an order setting it aside.

(2) If it is proved to the satisfaction of the Court that the plaintiff was prevented by sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order setting aside the judgment by default and appoint a time for proceeding with the suit.

Judgment not to be set aside without notice.

38. A judgment shall not be set aside on an application under either of the two last foregoing sections unless notice of the application has been served on the opposite party.

Fixing Issues and Preparations for the Hearing.

Framing of issues.

39. If both parties are present at the time fixed for the defendant to appear and answer, or at any time subsequent thereto to which the proceedings are adjourned for the purposes of this section, the Judge shall examine them with a view to ascertaining upon what questions of law and fact the parties are at issue, and, having with his own hand made a note of the examination, shall frame and record the issues of law and fact on which the right decision of the case depends.

Procedure when parties are at issue on a question of fact.

40. (1) If the parties are at issue on a question of fact, the Court shall then further examine them as to the evidence they intend to adduce upon the question, and shall either proceed at once to hear the suit or appoint a time and place for the hearing thereof.

(2) Upon such sums being deposited for the expenses of witnesses as, subject to any rules under this Law, the Court thinks reasonable, the Court shall issue such summonses for the attendance of witnesses and the production of documents as the parties may desire.

Service of summons on witnesses.

41. A summons to a witness shall be signed, sealed and served as nearly as may be in the manner provided by this Law for the signing, sealing and service of a summons on a defendant.

Arrest of witness neglecting to attend.

42. If a witness on whom a summons has been so served neglects or refuses to appear at the time and place appointed and does not offer reasonable excuse for the neglect or refusal, the Court may issue a warrant to bring the witness before it to give his evidence.

The Hearing.

Mode of taking evidence.

43. (1) At the time for the hearing of the suit or at some time subsequent thereto to which the hearing may be adjourned, the evidence of the witnesses, and of any parties to the suit appearing as witnesses, shall be taken

by the Judge orally in open Court and in presence of the parties.

(2) Any evidence given in a language not understood by a party to the suit shall be enterpreted to that party as the examination proceeds.

(3) Each party may examine the opposite party and all witnesses.

Recording of evidence.

44. A memorandum of all evidence taken shall be recorded by the Judge with his own hand as the examination proceeds, either in English or in the language prescribed by the Agent to the Governor General as the language of the Court, as the Judge thinks fit.

Power for Court to examine witness or require production of document.

45. At any stage of the suit the Court may examine as a witness any person present in Court or call upon him to produce any document or other thing, or may summon any person to give evidence or produce any document or other thing, if it considers that the evidence of the person, or the production of the thing, is likely to aid it in the decision of the matters in dispute.

Judgments.

Delivery of judgment.

46. When the documentary evidence, if any has been perused, and the witnesses have been examined and the parties heard, the Court shall, either immediately or at some subsequent time of which due notice shall be given to the parties, deliver its judgment.

Judgment to be in writing.

47. The judgment shall be written by the Judge with his own hand either in English or in the language prescribed by the Agent to the Governor General as the language of the Court, as the Judge thinks fit, and it shall be dated and signed by the Judge at the time it is delivered.

Contents of judgment.

48. The judgment shall contain the decision of the Court upon each issue, together with the grounds of the decision, and shall conclude with a decree clearly stating the relief granted or other determination of the suit:

Provided that, when the decision upon one or more issues is sufficient for the disposal of the suit, the Court may, in its discretion, abstain from pronouncing any decision upon the remaining issues.

Costs.

49. (1) The decree shall specify the costs payable and the parties by whom they are to be paid.

(2) In determining the amount of costs the Court shall not allow the remuneration of agents or legal practitioners permitted under section 12 to plead or act.

Allowance of interest.

50. When the suit is for a sum of money due to the plaintiff, the Court may in the decree order simple interest at such rate as it thinks fit to be paid on the principal sum adjudged from the date of suit to the date of decree in addition to any interest adjudged on the principal sum for any period prior to the date of suit, with further simple interest, at a rate not exceeding six per centum yearly, on the aggregate sum so adjudged and on the costs of the suit from the date of the decree to the date of payment.

Payment of amount of decree by instalments.

51. In a decree for the payment of money the Courts may, for any sufficient reason, order that the amount due under the decree shall be paid by instalments with or without interest.

Contents of decree for moveable property.

52. Where in a suit for moveable property the decree is for the delivery of the property, the Court shall fix an amount of money to be paid as an alternative if delivery cannot be made.

Copies of judgment to be furnished to parties.

53. Certified copies of the judgment, and, in cases where the judgment is required to be translated, of the translation thereof, shall be furnished to the parties on their application and on payment by them of the cost of the copies.

Procedure in Special Cases.

Injunction against waste, damage or alienation of property in dispute.

54. If at any stage of a suit before judgment a Court is satisfied, upon such inquiry as it considers necessary, that any property which is in dispute in the suit is in danger of being wasted, damaged or alienated by a party to the suit, it may, on such terms as may appear to it to be just, issue an injunction to that party commanding him to refrain from the act of waste, damage or alienation, or make such order for the purpose of staying and preventing him from wasting, damaging or alienating the property, or for the care and custody thereof, as it thinks fit.

Injunction against breach of contract or committal of injury.

55. In any suit for restraining the defendant from the committal of any breach of contract or other injury, the Court may at any time after the commencement of the suit, and either before or after judgment, and on such terms as may appear to it to be just, issue an injunction restraining the defendant from the repetition or continuance of the breach of contract or the injury or the committal of any similar breach of contract or injury.

Enforcement of injunctions by attachment of property.

56. In case of disobedience to an injunction issued under either of the two last foregoing sections, the injunction may be enforced by attaching the property of the party to whom the injunction was addressed and retaining it under attachment until he obeys the injunction.

Powers to vary or set aside orders under sections 54 and 55, and to adjudge compensation to party injured.

57. The Court may at any time vary or set aside an order made by it under section 54 or section 55; and, if it is satisfied that any such order has been applied for and procured by any party on grounds known to the party to be insufficient, it may award against the party in its decree such amount as it deems a reasonable compensation to the party aggrieved by the order.

58. (*1*) If at any hearing of a suit it appears to the Court desirable that any person not already a party to the suit should be made a party thereto, it may direct that the person be made a plaintiff or defendant, as the case may be.

Power to add parties.

(*2*) Where a person is so made a plaintiff or defendant, the Court shall cause a summons to be served on him in the manner provided by this Law for the service of a summons on a defendant.

59. Where a suit involves any question regarding succession, inheritance, pre-emption, marriage or caste, or any religious usage or institution, it may be heard with the aid of assessors selected by the Court from the class to which the parties belong.

Certain suits triable with the aid of assessors.

Miscellaneous.

60. Women who, according to the customs and manners of the class to which they belong, ought not to be compelled to appear in public, shall be exempt from personal appearance in Court, whether as parties or as witnesses.

Exemption of women from appearance in person.

61. The Agent to the Governor General may by notification in the *Gazette of India*, exempt from personal appearance in Court, whether as a party or as a witness, any person whose rank appears to entitle him to the privilege of exemption, and may, by like notification, withdraw the privilege.

Power to Agent to the Governor General to exempt from appearance in person.

62. (*1*) All documents admitted as evidence in a suit, other than entries in shop-books or other books, shall be filed with the record and shall not be returned to the parties without the written permission of the Court.

Filings of documents admitted in evidence.

(*2*) A certified copy of any document to be so returned within three months from the date of the disposal of the suit shall be made at the expense of the person applying for the return of the document, and be filed with the record.

(*3*) No fee shall be payable under the Court-fees Act, 1870, in respect of an application for the return of a document, or in respect of a certified copy to be filed with the record, under this section.

[VII] of 1870.

63. (*1*) When a party desires to put in evidence an entry in a shop-book or other book, he shall produce the book to the Court, together with a copy of the entry on which he relies.

Mode of admission in evidence of entry in book.

(*2*) The Court shall forthwith mark the entry for the purpose of identification, and, having examined and compared the copy with it, shall file the copy with the record and return the book to the party producing it, unless there seems to the Court to be cause for impounding it.

Execution of Decrees.

64. (*1*) The Court shall, on application made by the decree-holder in writing, execute its decrees in the following manner, that is to say:

Mode of execution of decrees.

(*a*) a decree for property in the possession of the judgment-debtor, by giving possession of the property to the decree-holder, or

when the property is moveable, and possession of it cannot from any cause be given, by levying in the manner provided by this sub-section for the execution of a decree for money the amount fixed as an alternative under section 52;

(*b*) a decree for partition, by dividing the property and giving the decree-holder possession of his portion;

(*c*) a decree for money, by arresting and imprisoning the judgment-debtor subject to the provisions of the Debtors Act, 1888, or by attaching his property and selling it, or by both means;

VI of 1888.

(*d*) a decree for the performance of any act by the judgment-debtor, by arresting and imprisoning him or by attaching his property and retaining it under attachment, or by both means.

(*2*) No person shall be imprisoned in execution of a decree for a longer period than six months in any case, or for a longer period than six weeks if the decree is for a sum of money not exceeding fifty rupees.

(*3*) No property in land shall be sold in execution of any decree without the previous sanction of the Agent to the Governor General.

(*4*) In the last foregoing sub-section the word "land" means land which is not occupied as the site of any building in a town or village and is occupied or has been let for agricultural purposes or for purposes subservient to agriculture, or for pasture, and includes the sites of buildings and other structures on such land.

65. Whenever a person has become liable as surety for the performance of a decree or of any part of a decree, the decree may be executed against him to the extent to which he has rendered himself liable, in the same manner as a decree may be enforced against a judgment-debtor.

Decree against surety.

66. When an application is made for the execution of an *ex parte* decree, the Court may in its discretion, before ordering execution, require the applicant to give such security as it deems sufficient for compensation for any injury that may be done in the course of the execution, or may issue a notice to the judgment-debtor to show cause why the decree should not be executed.

Execution of *ex parte* decrees.

Appeal.

67. (*1*) A decree or order made in an original suit of value not exceeding fifty rupees by a Tahsildár or Munsif, or in an original suit of value not exceeding one hundred rupees by an Assistant Political Agent, Extra Assistant Commissioner or Native Assistant, shall, subject to the provisions of this Law with respect to revision, be final.

Appeals from Courts of Tahsildárs, Munsifs, Assistant Political Agents, Extra Assistant Commissioners and Native Assistant.

(2) From every other decree or order of a Tahsildár, Munsif, Assistant Political Agent, Extra Assistant Commissioner or Native Assistant in an original suit, and from every decree or order of a Náib-tahsildár in such a suit, an appeal shall lie to the Court of the Political Agent.

Appeal from Court of Political Agent.

68. (1) A decree or order made in an original suit of value not exceeding five hundred rupees by a Political Agent shall, subject to the provisions of this Law with respect to revision, be final.

(2) From every other decree or order of a Political Agent in an original suit an appeal shall lie to the Court of the Judicial Commissioner.

Appeals from appellate decrees and orders.

69. (1) Save as provided by this section, and subject to the provisions of this Law with respect to revision, an appellate decree or order of a Political Agent shall be final.

(2) An appeal from an appellate decree or order of a Political Agent in a suit of value exceeding one thousand rupees shall lie to the Court of the Judicial Commissioner.

Revision.

Revision.

70. The Judicial Commissioner or, subject to any general or special directions of the Judicial Commissioner, the Political Agent may, of his own motion or otherwise, call for the record of any case decided by a Court under his control in which an appeal does not lie or in which, for cause shown to his satisfaction, an appeal has not been preferred within the time limited therefor, and may pass such order in the case as he thinks fit.

Distribution of Business and Transfer of Proceedings.

XIV of 1882. IX of 1887.

Power for Political Agent to distribute business.

71. Notwithstanding anything in the Code of Civil Procedure or the Provincial Small Cause Courts Act, 1887, as applied to the said territories, a Political Agent may, by order, direct that any civil business cognizable by his Court and the Courts under his control shall be distributed among those Courts in such manner as he thinks fit:

Provided that, except so far as it may affect the exclusive jurisdiction of a Court of Small Causes or Court invested with the jurisdiction of a Court of Small Causes, a direction given under this section shall not empower any Court to exercise any powers or deal with any business beyond the limits of its proper jurisdiction.

Power for Judicial Commissioner and Political Agent to transfer proceedings.

72. The Judicial Commissioner or Political Agent may withdraw any suit or other proceeding pending in any Court under his control and try it himself or refer it for disposal to any other Court under his control and competent to try it.

Review.

Review.

73. (1) The Judicial Commissioner may, for sufficient reason, review any decree or order which has been passed by himself and from which an appeal has not been preferred to Her Majesty in Council.

(2) A Court subordinate to the Court of the Judicial Commissioner shall not review any decree or order made by it, except for the purpose of correcting a clerical error or other error manifestly the result of an oversight, without previously obtaining,—

(a) in the case of any Court subordinate to the Political Agent, the permission of the Political Agent;

(b) in the case of the Court of a Political Agent, the permission of the Judicial Commissioner.

CHAPTER IV.

REFERENCE TO ARBITRATION.

Making and Contents of References.

Making of reference.

74. Any Court may, with the consent of the parties, by order, refer any dispute before it to arbitration.

Contents of order of reference.

75. In referring any such dispute to arbitration, the Court making the reference shall specify, in the order of reference, the precise matter submitted to the arbitrators or arbitrator, and such period as it may think reasonable for the delivery of the award, and the Court may from time to time extend such period.

References to several Arbitrators.

Appointment of arbitrators where reference is to more than one arbitrator.

76. The parties to the case may each nominate either one or two arbitrators: Provided that each party shall nominate the same number;

and a third or fifth arbitrator (as the case may be) shall be appointed by the Court making the reference.

Power to excuse arbitrator from serving and to call for nomination of substitute.

77. Every Court making a reference under this Chapter may, on good cause shown, excuse any person from serving as an arbitrator, and may call on the party who nominated such person to nominate another in the place of the person so excused.

Nomination of new arbitrator in place of one dying or failing to act.

78. If an arbitrator dies, desires to be discharged or refuses or becomes incapable to act, the party who nominated him shall nominate another person in his place.

Nomination by Court on default of parties.

79. If in any of the cases provided for by section 77 or section 78 any party fails for a week to nominate in manner aforesaid, the Court making the reference shall appoint some person to act as arbitrator.

Award.

80. The arbitrators shall determine and award concerning the matter referred to them for arbitration.

Summoning parties to give evidence.

81. If the arbitrators require the presence of the parties, or any other persons whose evidence may be necessary, they may apply to the Court making the reference,

and the Court shall summon such parties or persons;

and all such parties or persons shall be bound to attend, either in person or by agent, as the arbitrators may require, and to state the truth and to produce such documents and other things as may be required before the arbitrators.

Preparation and submission of award.

82. The award shall be made in writing under the hands of the arbitrators, and shall be submitted by them to the Court making the reference, and the Court shall cause notice to be served on the parties to attend and hear the award.

Remission of award to arbitrators.

83. The Court making the reference may remit the award or any matter referred to arbitration to the re-consideration of the same arbitrators—

(a) if the award has left undetermined any matter referred to arbitration or if it has determined a matter not referred to arbitration;

(b) if the award is so indefinite as to be incapable of execution; or

(c) if an objection to the legality of the award is apparent upon the face of the award.

Grounds for setting aside award.

84. (1) No award shall be liable to be set aside except on the ground of corruption or misconduct of all or any of the arbitrators.

(2) Any application to set aside an award shall be made within ten days after the day appointed for hearing the award.

Decision according to award.

85. If the Court making the reference sees no cause for remitting or further remitting the award or any matter referred to arbitration for re-consideration in the manner aforesaid,

and if no application has been made to set aside the award,

or if the Court has refused such application,

the Court shall decide in accordance with the award of the majority of the arbitrators,

and shall fix the amount to be allowed for the expenses of the arbitration, and direct by and to whom, and in what manner, the same shall be paid.

Bar to appeal and suit.

86. Such decision shall not be open to appeal and shall be at once carried out;

and no Court shall entertain any suit for the purpose of setting it aside or against the arbitrators on account of their award.

References to a single Arbitrator.

Reference to single arbitrator.

87. If the parties desire that the matter in dispute be referred to one arbitrator instead of to three or five arbitrators under section 76, the matter may be so referred, and the provisions of sections 77 to 86, both inclusive, shall then apply, so far as they can be made applicable, to the single arbitrator and to the proceedings before him and his award.

CHAPTER V.

SUPPLEMENTAL PROVISIONS.

Disposal of pending cases.

88. (1) Cases pending at the commencement of this Law shall be disposed of by such of the Courts under this Law as the Judicial Commissioner may direct, and shall be dealt with as nearly as may be in accordance with the provisions of this Law.

(2) But if in any such case it appears to the Court that the application of any provision in this Law would deprive any party of any right which, but for this Law, would have belonged to him, the Court may proceed as if this Law were not in force.

Law to be administered.

89. (1) When in any suit it is necessary for a Court under this Law to decide any question regarding succession, inheritance, pre-emption, marriage or caste, or any religious usage or institution,—

the Muhammadan law in cases where the parties are Muhammadans, and

the Hindu law in cases where the parties are Hindus,

shall form the rule of decision, except in so far as that law has been altered or abolished by any enactment, or is opposed to any custom having the force of law in the said territories.

(2) In cases not provided for by sub-section (1) or by any other law for the time being in force, the Court shall act according to justice, equity and good conscience.

Power for Judicial Commissioner to make rule.

90. (1) The Judicial Commissioner may make rules consistent with this Law for regulating the practice and proceedings of his own Court and the Courts subordinate thereto.

(2) With the previous sanction of the Agent to the Governor General, rules may be made under sub-section (1) for the regulation of the following among other matters, namely:—

(a) the fees to be paid for processes;

(b) the fees to be paid for copies and inspection of records;

(c) the travelling and other expenses of witnesses;

(d) the qualifications to be possessed by, and the conditions to be imposed on, legal practitioners applying to the Agent to the Governor General for authority to plead and act for parties under this Law, and the fees, if any, to be paid for the concession of such authority; and

(e) the licensing of petition-writers and regulation of their conduct.

(f) generally for the purpose of carrying into effect the provisions of this Law in matters not expressly provided for by this section.

(3) Whoever breaks any rule under clause (e) of sub-section (2) may, subject to the provisions of any rule under that clause, be suspended or removed from practice or be punished with fine which may extend to fifty rupees.

91. The procedure to be observed by any Court under this Law in suits shall be followed, so far as it can be made applicable, in all proceedings in that Court other than suits.

Miscellaneous proceedings.

92. Notwithstanding anything in this Law, a decree or order shall not be reversed or altered on appeal or revision on account of any irregularity of procedure unless the irregularity has occasioned, or is likely to occasion, a failure of justice.

Decrees and orders not reversible on technical grounds alone.

93. (1) Subject to the other provisions of this Law, the Agent to the Governor General may, by order in writing, invest any Assistant Political Agent, Extra Assistant Commissioner or Native Assistant with all or any of the powers of a Political Agent under this Law and declare that the powers with which he is so invested are to be exercised within any specified local area and with respect to any particular class or particular classes of cases or with respect to cases generally.

Conferment of powers of Political Agent.

(2) The Court of an Assistant Political Agent, Extra Assistant Commissioner or Native Assistant so invested shall, for all purposes connected with the exercise of the said powers, be deemed to be the Court of a Political Agent.

(3) The Judicial Commissioner may, by order in writing, direct how business is to be distributed between the Political Agent and any Assistant Political Agent, Extra Assistant Commissioner or Native Assistant invested as aforesaid.

94. (1) The Agent to the Governor General may confer, within such local limits as he may prescribe in this behalf, upon any Tahsildár, Munsif, Assistant Political Agent, Extra Assistant Commissioner or Native Assistant the jurisdiction of a Judge of a Court of Small Causes under the Provincial Small Cause
IX of 1887. Courts Act, 1887, as applied to the said territories, for the trial of suits cognizable by such Courts up to such value not exceeding one hundred rupees in the case of a Tahsildár or Munsif, or five hundred rupees in the case of an Assistant Political Agent, Extra Assistant Commissioner or Native Assistant, as the said Agent thinks fit, and may withdraw any jurisdiction so conferred.

Power to confer Small Cause Court jurisdiction.

(2) The Judicial Commissioner may make rules for regulating the distribution of business between any Tahsildár or Munsif and any Assistant Political Agent, Extra Assistant Commissioner or Native Assistant upon whom jurisdiction may be conferred within the same local limits under sub-section (1).

95. Where the Code of Civil Procedure or any part thereof is referred to in the second or third division of the second schedule to the Indian Limitation Act, 1877, as applied to the said territories, the reference shall be construed as applying to this Law or the corresponding part thereof, if any. XIV of 1 XV of 18

Limitation for appeals and applications under this Law.

No. 1958-*E.-A.*—The following extract from the *London Gazette*, dated the 1st September, 1896, is published for general information:

FOREIGN OFFICE;
August 31st, 1896.

It is hereby notified for public information that all the territories in East Africa, now under the Protectorate of Her Majesty, except the Islands of Zanzibar and Pemba and the Uganda Protectorate, are for the purposes of administration included in one Protectorate, under the name of the East Africa Protectorate.

This Protectorate includes the territories bounded on the north by the River Juba, on the east by the Indian Ocean, on the south by the German sphere, on the west by the Uganda Protectorate, and also all adjacent islands between the mouths of the Rivers Juba and Umba.

No. 1783-*G.*—The undermentioned officer has been granted an extension of leave by the Secretary of State for India:

Surgeon-Captain T. W. Shaw, M.B., Indian Medical Service (Bombay), Medical Officer of the 1st Regiment, Central India Horse, (p. a.) for sixteen days.

No. 1787-*G.*—The services of Mr. E. P. Chapman, of the Indian Civil Service, officiating Political Assistant of the 1st Class, and Assistant Secretary to the Government of India in the Foreign Department, are replaced at the disposal of the Home Department, with effect from the 6th November, 1896.

No. 4817-*S. R.*

The 6th November, 1896.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read—

Letter from Messrs. Mackinnon, Mackenzie & Co., Managing Agents of the British India Steam Navigation Company, Limited, No. 192, dated the 5th August 1895.

Letter to the Chief Commissioner of Burma, No. 4058, dated the 23rd August 1895.

Letter to Messrs. Mackinnon, Mackenzie & Co., No. 4059, dated the 23rd August 1895.

Letter from Messrs. Turner, Morrison & Co., Managing Agents of the Asiatic Steam Navigation Company, Limited, dated the 19th August 1895.

Letter to Messrs. Turner, Morrison & Co., No. 4127, dated the 27th August 1895.

Letter from the Chief Commissioner of Burma, No. 373-H—7, dated the 14th March 1896, and enclosure.

Letter to the Chief Commissioner of Burma, No. 1672, dated the 15th April 1896.

Letter from the Chief Commissioner of Burma, No. 153-H—7, dated the 6th August 1896, and enclosures.

Letter to the Chief Commissioner of Burma, No. 3735, dated the 2nd September 1896.

Letter from the Chief Commissioner of Burma, No. 58-H—7, dated the 6th October 1896.

It has been represented to the Government of India that the Government derive large profits at the expense of shipowners in connection with the maintenance of the lighthouses and light-vessels in Burma, and that a reduction should therefore be made in the Burma coast light dues. This representation is based on a consideration of the figures shown in the statements of receipts and charges of the Burma coast lights published in the *Gazette of India* under Section 16 of Act IX of 1879.

2. The Governor General in Council considers it necessary to explain that the statements alluded to in the preceding paragraph do not include the indirect charges, of which the most important is the interest on the capital expenditure on the construction of the lighthouses and light-vessels. Including interest at 4 per cent. on the capital expenditure, the surplus which has accrued to the Government during the 12 years ending 1895-96 amounted only to Rs. 40,297, or Rs. 3,358 a year on the average, as shown in the subjoined statement.

Years.	Capital expenditure to end of each year.	Interest at 4 per cent.	Excess of annual receipts over the annual establishment and maintenance charges.	Profit or loss.
	Rs.	Rs.	Rs.	Rs.
1884-85	26,13,355	1,04,534	66,257	— 38,277
1885-86	26,14,134	1,04,565	1,07,230	+ 2,665
1886 87	26,19,124	1,04,764	93,024	— 11,740
1887-88	26,31,709	1,05,268	90,[illegible]73	— 14,495
1888-89	26,39,871	1,05,594	55,539	— 50,055
1889-90	27,31,936	1,09,277	1,17,123	+ 7,846
1890 91	28,37,787	1,13,511	1,31,624	+ 18,113
1891-92	29,76,579	1,19,063	1,59,620	+ 40,557
1892-93	30,45,051	1,21,802	1,36,567	+ 14,765
1893-94	31,44,444	1,25,777	1,32,310	+ 6,533
1894-95	31,91,591	1,27,664	1,58,842	+ 31,178
1895-96	33,33,281	1,33,331	1,66,538	+ 33,207
			Total ...	+ 1,54,864 — 1,14,567
			Net profit ...	40,297
			Annual average	3,358

It should be added that the establishment and maintenance charges shown in the accounts published annually and included in the above statement are exclusive of the general charges of supervision of the lights by the Port Officer of Rangoon as Superintendent of lighthouses and by other administrative officers of the Government and of the cost of pensions to establishments.

3. In these circumstances the Governor General in Council considers that the annual receipts do not more than repay the burden borne by the public treasury, and that there is no case for a reduction in the Burma coast light dues.

Ordered that this Resolution be published in the *Gazette of India* for general information.

J. F. FINLAY,
Secretary to the Government of India.

MILITARY DEPARTMENT.

Simla, the 6th November, 1896.

APPOINTMENTS.

David Edmond William Leighton, Gentleman, to be Second-Lieutenant, to complete the establishment.

No. 1226.—*Cawnpore Volunteer Rifle Corps*—

Thomas Edward Harwood, Gentleman, to be Second-Lieutenant., with effect from the 27th October 1896, *vice* Priestley, promoted.

No. 1227.—*Shillong Volunteer Rifle Corps*—

William Patrick Henderson, Gentleman, to be Lieutenant, with effect from the 17th September 1896, *vice* Cole, transferred to the Supernumerary List.

No. 1228.—*South Indian Railway Volunteer Rifle Corps*—

Captain Archibald Douglas Graham Shelley, Royal Engineers, to be Major, with effect from the 1st April 1896, *vice* Spalding, promoted.

No. 1229.—*Dacca Volunteer Rifle Corps*—

Thomas Patrick Butler, Gentleman, to be Lieutenant, to complete the establishment.

No. 1230.—*Presidency Volunteer Rifle Battalion*—

The Hon'ble William Henry Grimley to be Honorary Colonel.

PROMOTIONS.

No. 1231.—*Punjab Light Horse*—

Lieutenant Sydney Maddock Robinson to be Captain, to complete the establishment.

No. 1232.—*Berar Volunteer Rifle Corps*—

In G. G. O. No. 996 of 1896, notifying the promotion of Lieutenant J. T. B. D. Sewell to the rank of Captain, *for* "*vice* Davies, promoted," *read* "*vice* Davies, retired."

Second-Lieutenant Percy Earle Raven to be Lieutenant, *vice* Sewell, promoted.

RESIGNATIONS.

No. 1233.—*Rangoon Naval Volunteers*—

Lieutenant P. H. Moore resigns his commission.

No. 1234.—*Madras Artillery Volunteers*—

Second-Lieutenant J. J. Forster resigns his commission.

No. 1235.—*Rangoon Volunteer Engineers*—

Lieutenant W. Laidlaw resigns his commission.

No. 1236.—*Rangoon Volunteer Rifle Corps*—

Captain B. Mahon resigns his commission.

No. 1237.—*Sind Volunteer Rifle Corps*—

Lieutenant W. R. Hoonahan resigns his commission, with effect from the 27th November 1894.

No. 1238—*Madras Railway Volunteers*—

Captain G. Wallington resigns his commission.

No. 1239.—*East Coast Rifle Volunteers*—

Lieutenant-Colonel C. H. Cowie (Captain, Royal Engineers), commandant, resigns his appointment.

MILITARY WORKS DEPARTMENT.

PROMOTIONS.

No. 1240.—The following promotions and reversions are made in the Engineer Establishment of the Military Works Department, with effect from the dates specified:

Names.	From	To	Nature of promotion, etc.	With effect from
Major H. W. Duperier, R.E.	Executive Engineer, 1st grade, and Superintending Engineer, class II, *temporary*.	Superintending Engineer, class III.	Permanent	25th July 1896.
Major J. Kellie, R.E.	Executive Engineer, 1st grade	Superintending Engineer, class III.	Officiating	27th August 1896.
Colonel W. L. Greenstreet, R.E.	Chief Engineer, class I, *temporary*.	Chief Engineer, class II	Reversion	28th August 1896.
Colonel S. C. Turner, R.E.	Chief Engineer, class II, *temporary*.	Chief Engineer, class III	Reversion	28th August 1896.
Lieutenant-Colonel J. E. Broadbent, R.E.	Chief Engineer, class III, *temporary*.	Superintending Engineer, class I.	Reversion	28th August 1896.
Colonel W. T. Shone, D.S.O., R.E.	Superintending Engineer, class I, *temporary*.	Superintending Engineer, class II, *temporary*.	Reversion	28th August 1896.
Lieutenant-Colonel W. Peacocke, C.M.G., R.E.	Superintending Engineer, class II, *temporary*.	Superintending Engineer, class III, *temporary*.	Reversion	28th August 1896.
Lieutenant-Colonel H. H. Hart, R.E.	Superintending Engineer, class III, *temporary*.	Executive Engineer, 1st grade.	Reversion	28th August 1896.
Major S. Grant, R.E.	Superintending Engineer, class III, *temporary*.	Superintending Engineer, class II.	Temporary	25th September 1896.
Lieutenant-Colonel W. Peacocke, C.M.G., R.E.	Superintending Engineer, class III, *temporary*.	Superintending Engineer, class II.	Officiating	25th September 1896.
Major J. Kellie, R.E.	Superintending Engineer, class III, *officiating*.	Superintending Engineer, class III.	Temporary	25th September 1896.
Colonel H. A. Graves, Indian Staff Corps.	Executive Engineer, 1st grade.	Superintending Engineer, class III.	Temporary	25th September 1896.

MARINE DEPARTMENT.

FURLOUGH AND LEAVE.

No. 70.—Lieutenant C. G. Sinclair, Royal Indian Marine, Assistant Surveyor, 2nd class, Marine Survey of India, is granted furlough out of India (m. c.) for one year, under paragraph 130, Marine Regulations, Vol. I, Part II.

P. J. MAITLAND, *Major-General,*
Secretary to the Government of India.

MILITARY DEPARTMENT.

NOTIFICATION.

Simla, the 6th November, 1896.

Under clause 53 of the Regulations appended to the Regimental Debts Act of 1893, it is notified that reports of the deaths of the undermentioned commissioned officers, on the dates specified, were received in the Military Department between the 31st October and the 6th November 1896:

Corps.	Rank and Names.	Date of decease.	Place of decease.	Testate or Intestate.	Remarks.
Royal Engineers	Lieutenant R. H. M. Yeates	29th October 1896.	Fort Sandeman.		
Indian Staff Corps (7th Bombay Lancers).	Lieutenant O. L. Downes	29th October 1896.	Fort Sandeman.		

P. J. MAITLAND, *Major-General,*
Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 30th October, 1896.

No. 462.—Mr. W. A. Inglis, Executive Engineer, 1st Grade, Bengal, officiated as a Superintending Engineer from the afternoon of the 15th to the 20th July 1896.

The 2nd November, 1896.

No. 463.—The services of Mr. F. B. Hebbert, Superintending Engineer, 2nd Class, temporary rank, on special duty with the Government of India, are lent to the Burma Railways Company, Limited, with effect from the forenoon of the 21st October 1896.

The 3rd November, 1896.

No. 464.—In exercise of the powers conferred by clause (*s*) of the second Schedule to the Indian Railways Act (IX of 1890), the Governor General in Council is pleased to declare that the following articles shall be added to the said Schedule, namely, jade, jade stone and amber.

No. 465.—Mr. R. G. Macdonald, Accountant General and Deputy Secretary to the Government of India, Public Works Department, has been granted, by Her Majesty's Secretary of State for India, furlough for six months, in extension of that granted in Public Works Department Notification No. 405, dated 9th November 1895.

No. 467.—Mr. F. J. E. Spring, C.I.E., Superintending Engineer, 2nd Class, State Railways, and Consulting Engineer for Railways, Assam, officiated as a Chief Engineer, 3rd Class, with effect from the 23rd June to 18th August 1896, both days inclusive, and again from the 8th to 16th September 1896, during the absence on privilege leave of Mr. H. L. Monk.

This cancels Notification No. 348, dated 14th August 1896.

No. 468.—Mr. Campbell Thomson, Superintending Engineer, 2nd Class, is, on return from furlough, appointed Engineer-in-Chief of the Frontier Section, North Western Railway.

The 4th November, 1896.

No. 469.—Lalla Nehal Chund, Accountant, 3rd Grade, attached to the Office of the Examiner of Accounts, Mari-Attock Extension Railway and Frontier Railway Surveys, officiated as Assistant Examiner of Accounts from the 8th September to the 7th October 1896, inclusive.

The 5th November, 1896.

No. 470.—It is hereby notified for general information that His Excellency the Governor General in Council has sanctioned the survey for a through line of railway from Agra to Delhi, a distance of about 124 miles.

The survey has been placed under the control of the Director General of Railways and will be known as the Agra-Delhi chord line survey.

No. 471.—With reference to Public Works Department Notification No. 435, dated 21st October 1896, Mr. W. G. Gilchrist, Superintending Engineer, 2nd Class, temporary rank, is appointed Engineer-in-Chief of the Singhia-Madaripur-Chandpore Railway Survey.

No. 472.—Mr. G. B. Reynolds, Executive Engineer, 1st Grade, is granted, by Her Majesty's Secretary of State for India, nine months' furlough in extension of that published in Central Provinces Public Works Department Notification No. 18, dated the 22nd April 1896.

The 3rd November, 1896.

No. 466.—The following is published for general information:

No. 859 R. T., dated Simla, the 30th October, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules for open lines of railway in British India administered by the Government, therewith promulgated.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules, therewith promulgated.

Government of India, Public Works Department, notification No. 310, dated the 15th July 1896, publishing—in the *Gazette of India* of the 18th July 1896—the Government of India resolution No. 528 R. T., dated the 10th July 1896.

Government of India, Public Works Department, notification No. 325, dated the 22nd July 1896, publishing—in the *Gazette of India* of the 25th July 1896—the Government of India resolution No. 535 R. T., dated the 14th July 1896.

Letter from the Consulting Engineer to the Government of India for Railways, Calcutta, No. 266 C., dated the 24th June 1896, forwarding letter from the Agent and Chief Engineer, Bengal Nagpur Railway Company, No. 4483, dated the 15th June 1896.

Letter from the Consulting Engineer to the Government of India for Railways, Calcutta, No. 403 T., dated the 9th October 1896, forwarding letter from the Agent and Chief Engineer, Bengal Nagpur Railway Company, No. 7728, dated the 3rd October 1896.

OBSERVATIONS.—The Agent and Chief Engineer, Bengal Nagpur Railway Company, has applied that the General Rules for working open lines of railway in British India administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated the 22nd May 1896, published under Public Works Department, notification No. 257, dated the 28th May 1896 (*vide* the *Gazette of India* of the 30th May 1896); and the Government of India resolutions Nos. 528 R. T. and 535 R. T., dated, respectively, the 10th and 14th July 1896, published under Public Works Department notifications Nos. 310 and 325, dated the 15th and 22nd July 1896 (*vide* the *Gazettes of India* of the 18th and 25th July 1896), may be made applicable to the Bengal Nagpur Railway.

RESOLUTION.—The Governor General in Council is pleased to sanction, with effect from the 1st November 1896, the application to such portions of the Bengal Nagpur Railway as are situate in British territory, of the General Rules for working open lines of railway in British India administered by the Government, which are cited in the foregoing observations, in supersession of the rules now in force.

ORDER.—Ordered, that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Consulting Engineer to the Government of India for Railways, Calcutta, for information and guidance.

The 6th November, 1896.

No. 473.—The following is published for general information :

No. 877 R. T., dated Simla, the 4th November, 1896.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 267, dated the 11th June 1890, appointing the Director General of Railways as the officer who,

under section 47 of the Indian Railways Act, 1890, is to make General Rules for railways administered by the Government.

Government of India, Public Works Department, notification No. 118. dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules, therewith promulgated, for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Letter from the Director General of Railways, No. 554 T., dated the 28th October 1896.

OBSERVATIONS.—The Director General of Railways has applied that the General Rules for working open lines of railway in British India administered by the Government, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circular No. 3 Railway, dated 22nd May 1896, and published under Public Works Department notification No. 257, dated the 28th May 1896 (*vide* the *Gazette of India* of the 30th May 1896), with such other modifications as may be, for the time being, in force on the main line, may be made applicable to the Najibabad-Kotdwara branch of the Oudh and Rohilkhand railway from the date on which the branch may be opened for the public carriage of passengers, animals or goods.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules which may be, for the time being, in force on the main line, to the Najibabad-Kotdwara branch of the Oudh and Rohilkhand railway, from such date as the branch is opened for the public carriage of passengers, animals or goods.

ORDER.—Ordered that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Director General of Railways, for information and guidance.

W. S. S. BISSET, *Colonel, R.E.*,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, October 31st, 1896.

There has been no change in the weather during the week under review. The barometer has changed very little from day to day, the general distribution and the circulation of the winds have hence been very steady, and practically the only rainfall has been a few showers which have occurred at some stations in North-Eastern India, in Burma and in the south of the Peninsula. In the two former regions the amount of rain received during these showers has been very small, but in the Peninsula the fall has been heavier, and at some stations, for example, Negapatam, Cochin and Coimbatore the rain on some days was heavy and continuous. In all other parts of the country the weather has been uninterruptedly fine througout the week, and the mean temperature of all provinces has exceeded the normal average.

Daily Summary.—*Sunday, October 25th.*—The barometer had risen almost everywhere. Readings were highest over the north of the Punjab, relatively high over the Assam Valley and lowest over the Arabian Sea and the south of the Bay. Pressure was very uniform over the central parts of the country and the head of the Peninsula. Westerly to north-westerly winds prevailed down the Gangetic Plain, north-easterly and north-westerly winds on the Madras Coast and easterly winds over the centre and west of the Peninsula. The mean temperature was excessive, except in Assam and Arakan. There had been a little rain in North Bengal and Sikkim and local showers at Yamethin, Tavoy, Madras and Trivandrum.

Monday, October 26th.—Pressure had been steady almost everywhere and the distribution was practically unchanged. The barometer read above the normal average everywhere, but especially so over Sind and the Madras Coast. The winds were unchanged. The mean temperature was lower than usual over the Assam Valley, North Bengal, Arakan and Baluchistan, but was excessive elsewhere—most so over the central parts of the country. Rain had fallen locally over Sikkim and Lower Burma, while fair general rain had been received over the Madras coast districts from Nellore to Negapatam.

Tuesday, October 27th.—The barometer had fallen slightly over Northern India, but had been steady elsewhere. Pressure had become exceedingly uniform, though readings were still relatively high in the north-west and north-east and relatively low in the south. Calms were reported from the north-west and centre, but elsewhere the directions were unchanged. The distribution of the mean temperature with respect to the normal was unaltered. Local rain showers were again reported from Sikkim, Assam and Lower Burma, while fair general showers had been received over the south of the Peninsula.

Wednesday, October 28th.—The pressure changes had been very small, but were, on the whole, downward. Readings remained very uniform generally, but a slight low pressure area had begun to appear over North Bihar. The barometer was still abnormally high everywhere, but the excess was only slight over the North Gangetic Plain. The winds were the same as on the preceding day. The mean temperature was slightly lower than usual in Assam, Arakan, the south of the Peninsula and Baluchistan. Excessive elsewhere—most so at the more central stations. Light showers had fallen in Kashmir, otherwise the rainfall area was the same as on the 27th.

Thursday, October 29th.—Th barometer had fallen briskly in Bihar, and pressure over the Gangetic Plain and Bihar was below the normal average; otherwise conditions were unchanged and pressure generally was very uniform, though somewhat higher in the extreme north-west and extreme north-east than elsewhere. Northerly winds were appearing over the north-west of India, but in other places the directions were the same as on the preceding day. The areas of relatively low temperature in the north-east, south and north-west of India were becoming more marked, but in other parts of the country the excess held steadily. A few scattered showers had been received, but, except at Negapatam, the amounts were small.

Friday, October 30th.—Pressure had continued to fall in Bihar and a low pressure area had been developed over that region. In consequence the westerly winds down the Gangetic Plain had increased in force, but, except in this instance, the winds were practically unchanged. The deficiency of temperature in the north-west and north-east of India was increasing both in extent and intensity, while there was still a large excess of temperature over the central parts of the country. A few light scattered showers of rain were reported and a heavyish snowstorm was in progress at Gnatong.

Saturday, October 31st.—The barometer had risen in most places—especially along the foot of the eastern Himalayas. The changes had not, however, affected the general distribution of pressure. Northerly winds prevailed along the east and easterly winds along the west coast of the Peninsula, but elsewhere the directions were variable and calms were numerous. The distribution of the mean temperature, relatively to the normal, was similar to that reported on the 30th. Negapatam had received 3·78 inches and Colombo 1·01 inches of rain, and a few light scattered showers had fallen at some other stations.

Temperature.—The heat has been generally less than usual at some stations in the extreme north-west and north-east of India and also at a few places along the Madras Coast, but in all other regions the heat has been excessive. This has been more particularly the case over the central parts of India, Khandesh and the Bombay Deccan, where the excess has been large to very large.

The following table gives the variations of the mean temperature from the normal in the different provinces of India :

Province.	October 1896.							Mean variation of week.
	25th	26th	27th	28th	29th	30th	31st	
	°	°	°	°	°	°	°	°
Burma	+0·2	+0·6	+0·9	+1·1	+0·4	+0·6	+0·6	+0·6
Bengal and Assam . .	+0·7	+1·2	+1·9	+2·5	+2·3	+3·1	+3·0	+2·1
North-Western Provinces and Oudh	+3·8	+5·3	+4·3	+5·1	+5·8	+5·5	+3·5	+4·8
Punjab	+3·2	+2·6	+4·0	+2·9	+2·1	+1·4	+0·1	+2·3
Bombay	+3·4	+3·8	+3·4	+3·3	+2·9	+4·2	+3·6	+3·5
Central Provinces and Berar	+5·1	+6·0	+5·9	+6·1	+6·3	+5·9	+5·8	+5·9
Central India and Gujarat .	+3·7	+4·1	+4·6	+5·3	+4·8	+4·4	+3·3	+4·3
Sind and Rajputana . .	+4·5	+2·9	+3·3	+3·9	+2·2	+0·4	+0·1	+2·5
Madras	+1·5	+2·0	+1·2	+1·3	+1·3	+1·5	+1·7	+1·5
Mean for whole of India	+2·9	+3·2	+3·3	+3·5	+3·1	+3·0	+2·4	+3·1

The above shows that the mean temperature, both of the whole country and of each province, exceeded the normal average on every day of the week. The hottest area was the North-Western Provinces and Oudh, Central Provinces, Central India, Berar and Gujarat, where the excess of heat was very large.

The following were the highest temperatures recorded throughout India on each day of the week and their variations from the normal maximum of the day:

October	25th	Allahabad	99°·6	+ 10°·7
"	26th	Deesa	100°·4	+ 5°·2
"	27th	Ahmedabad	101°·8	...
"	28th	Deesa	101°·4	+ 6°·2
"	29th	Ahmedabad	100°·8	...
"	30th	"	100°·3	...
	31st	"	98°·7	

Rainfall.—The general distribution of rain during the week under review has been similar to that reported last week, but the amount has been almost everywhere less. Thus, moderate showers have been received over the greater part of Burma, but the heaviest actual average fall has been only 0·94 inch in Deltaic Burma as compared with 2·21 inches last week, while Upper Burma has been rainless. Light showers have been received in Assam and some districts in Bengal, very light showers on and near the hills in Upper India and moderate showers again in the south of the Peninsula. In the last area the heaviest actual average fall has been 1·46 inches in Madras (South), while last week the heaviest average fall in this region was 2·23 inches in Malabar, so that the returns show that, while the area of rainfall in the two weeks was generally fairly similar, the amount of the rainfall was considerably smaller in the present than in the previous week. In the majority of cases the rainfall appears to have occurred during thunderstorms or showers, and was temporary and local in character, but in the case of Negapatam there appears to have been steady continuous rain on several days, though apparently these falls did not extend much beyond the station. The concluding table gives the rainfall data. Effective rain was received during the week in thirteen of the rainfall divisions, the average actual amount ranging from 1·46 inches in Madras (South) and 1·39 inches in the East Coast (South) to 0·12 inch in Assam (Surma). The divisions which received this effective rainfall were Lower and Central Burma, the three Assam divisions, the hill and north divisions of Bengal, Malabar, the south-central and south divisions of Madras, Coorg and the East Coast (Central and South). Except within these divisions the rainfall of the week was actually or practically *nil*. The third column of the table shows that there are a few cases of trifling and unimportant excess, but over by far the greater part of the country the deficiency which has characterised the rainfall returns for so long has been maintained. As was stated last week the anticipated rainfall at this period of the year is small over Northern and Central India, and its absence, under ordinary conditions, would be a matter of no moment, but in many of the more southern divisions, as, for example, Tenasserim, Lower Burma, Arakan, Orissa, Malabar, South Madras, Coorg, Mysore and the East Coast divisions the anticipated rainfall ranges from between 1·0 inch and 2·70 inches, and in these divisions the deficiency is large and important. The three concluding columns of the table give the rainfall for the latter half of the month of October. In Lower and Central Burma the rainfall has been heavier than usual, and in Tenasserim, Malabar and the south of Madras the fall for the two weeks has been about normal, but in all the remaining divisions, where rainfall of any consequence is anticipated, the fall has been in defect, and over a large part of the country there has been no rain whatever.

There have been a few moderate totals during the week, of which the principal were—5·38 inches at Myanaung (Henzada), 4·18 inches at Cochin and 7·36 inches at Negapatam.

PROVINCE.	DIVISION.	Rainfall data for week ending October 31st, 1896. Average actual rainfall of division.	Average normal rainfall of division.	Excess or defect in inches. W. L. DALLAS,

Asst. Meteorological Reporter to the Government of India.

SIMLA, *5th November, 1896.*

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 31st October.*—No rain in the Circars and Deccan, moderate rainfall in the Carnatic from Nellore southwards, but chiefly near the coast, lighter falls inland and in the Central districts; good rain in the Southern districts and parts of the Nilgiris and Malabar. The rainfall of October in the Circars and Deccan scarcely averaged half-an-inch in any district and this drought followed a very dry September. In the Carnatic and North Arcot also the October rainfall was exceptionally light. The water-supply in the northern half of the Presidency and in the Carnatic is generally very deficient or exhausted, except under the largest rivers and in some channels. Tanks in the Carnatic and North Arcot are mostly empty. In the south supplies are adequate. Sowings are at a standstill, except in the Southern and parts of the Central and West Coast districts. The standing crops are withering or have withered over large areas and are in a precarious state in others, except in the Carnatic, Southern, Central and West Coast districts, in some of which recent showers have benefited them. Pasturage is practically *nil*, save in forests in the Deccan and Circars and fodder supplies are low; elsewhere supplies of both are moderate. In the former areas cattle are reported to be suffering. Prices are rising generally and again sharply in the Circars, Deccan and Nellore; elsewhere slightly, but the rise has extended to Tinnevelly and is attributed to the demand for export coupled with the unfavourable season. The rates of staple dry-grains are dearer than the scarcity rate in Kurnool and Bellary and in parts of Anantapur and Cuddapah and the price of rice in Ganjam is very nearly that level. Test relief works have been ordered in all the Deccan districts.

Bombay.—*For week ending 4th November.*—Slight rain in one taluka of Ratnagiri and three of Dharwar; no rain elsewhere. More rain is urgently wanted generally for the late sowings. The standing crops have withered or are withering in ten districts and have been damaged by locusts or other causes in Sindh, by locusts in parts of Baroda territory, and by insects in Broach and Ahmednagar. Preparations for sowing the late crops are progressing in ten, and reaping of the early crops in twelve, districts. Cotton-picking continues in Thar and Parkar and Khandesh. Water is deficient in Bijapur. Fodder is insufficient in fifteen districts. Agricultural stock are healthy, except in six districts. Prices are rising in twelve districts, stationary in seven and lower in others. Distress due to failure of harvest is apprehended in parts of the Deccan, Karnatak and Konkan. Test works have been ordered to be opened.

Bengal.—*For week ending 2nd November.*—There was no rain during the week, with the exception of showers in Jalpaiguri and Darjeeling. The prospects of the rice and other standing crops grow everywhere more and more unfavourable with the continued drought and in many districts the spring sowings cannot be made for want of moisture. In some places too the seed sown has failed to germinate. Insects still infest the rice plants in parts of Cuttack. Damage by

insects is also reported from Jangipur in Murshidabad. Prices continue very high, and in many districts, especially those of Orissa, are said to be still rising.

North-Western Provinces and Oudh.—*For week ending 4th November.*—The weather has been fine throughout the week. Progress is being made with the spring sowings. The autumn crops are being harvested. The outturn for the provinces generally is not yet disclosed, but varies between extremes. The numbers on relief works on Saturday, October 31st, were:—Hamirpur 3,755, Jalaun 4,667, Hardoi 3,189, Rae Bareli 6,564—total 18,175; of these 2,891 were dependants gratuitously relieved on the works, there were besides 15,809 persons relieved under other provisions of the Famine Code. Test works have been opened in Azamgarh, Lucknow and Jaunpur. Supplies are sufficient, except in Azamgarh but pasturage is somewhat scanty in Bulandshahr, Etah and Unao. Fodder of other kinds is scarce in Agra, Etah, Fatehpur and Unao. Prices are still high and are rising in places.

Punjab.—*For week ending 4th November.*—No rain. Harvesting and threshing of the autumn crops and picking of cotton are going on. Sowings of the spring crops on irrigated lands are in progress, but are restricted owing to the deficient water-supply. Hardly any sowings on land solely dependent on rain. Rain is badly wanted throughout the province. The condition of the standing crops is reported to be average to poor. The outturn of the autumn crops is average in Gujranwala, below average in Dera Ismail Khan and poor in Karnal. The prospects of the spring crops are unfavourable in Delhi, but are favourable on land irrigated by canals and are fair on lands irrigated by wells in Gujranwala. The stock of food-grains is insufficient in Hissar, Amballa, Amritsar and parts of Jullundur and Ferozepore. It is getting low in Gujranwala. The autumn crops are said to have been damaged by insects in parts of Ferozepore and Dera Ismail Khan. Locusts appeared in parts of Lahore but did no damage. Cattle are reported to be in poor condition in Hissar, Ferozepore, Sialkot, Lahore, Rawalpindi, Dera Ismail Khan and Gujranwala. Fodder is generally scarce; it is sufficient, but dear in Rohtak. The aggregate number of persons employed on relief work in Gujrat, including non-working children, on Saturday, 31st October, was 5,332. Five hundred and seventy men are employed on test works in the Karnal tahsil. Famine relief work is about to commence in Hissar. Prices are rising in Sialkot, Peshawar, Karnal and Gujranwala and are high elsewhere. Wheat is selling from 8 to $10\frac{3}{4}$ seers, *bajra* (Bulrush millet) 9 to $12\frac{1}{2}$ seers, gram 9 to $10\frac{1}{2}$ seers, maize 10 to 13 seers, rice $7\frac{1}{2}$ to 9 seers and *jowar* (Great millet) 10 to $11\frac{1}{2}$ seers per rupee.

Central Provinces.—*For week ending 4th November.*—No rain. Slight clouds have hung about the plateau districts; elsewhere the sky is clear. The days are still very hot. The autumn crops continue to deteriorate. Reaping of the early rice and picking of cotton are in progress. In Nimar and Sambalpur the outturn is estimated at about 8 annas; in the Sansar tahsil of Chhindwara, *jowar* (*Sorghum vulgare*) and cotton promise 10 to 12 annas; in Bhandara and Balaghat the yield of unirrigated rice is very small; Bilaspur expects only 2 annas to 4 annas of an average rice crop. Sowings of the spring crops are approaching completion, but large areas have become too hard for ploughing. The young seedlings are in a very critical state. Prices have risen slightly in some districts,

but are somewhat easier in Nimar, Mandla and Bhandara. Prospects are very gloomy.

Burma.—*For week ending 31st October.*—In Lower Burma crop prospects are good everywhere, though more rain is required in some parts of the Prome district. Hill-side paddy is being reaped in Prome, Tavoy and Toungoo and early paddy in Tharrawaddy, Tavoy and Thatôn. The crops on 3,734 acres have been destroyed by floods in Toungoo. In Upper Burma no rain fell during the week in any district, except Yamethin where 18 cents were registered. The standing crops are as yet in good condition in Myitkyina, the Ruby Mines, Shwebo, Sagaing, Lower Chindwin, parts of Thayetmyo and Pakokku and the Pyinmana sub-division of Yamethin, but more rain is wanted in all. Some crops in the Kindat sub-division have failed for want of rain. Rain is urgently needed in Mindon, in the Thayetmyo and Taingda townships of Thayetmyo, in the Pakokku and Seikpyu townships of Pakokku, in the Yamethin sub-division, in Myingyan and in the unirrigated parts of Minbu and Magwé. Reports from Mandalay and Meiktila have not been received. The price of paddy has risen slightly in Rangoon and Myaungmya and fallen largely in Thongwa; elsewhere prices are stationary. The numbers on relief works in Yamethin and Myingyan were 2,847. The numbers on gratuitous relief were 151.

Assam.—*For week ending 3rd November.*—The weather is hot and dry in Sylhet. The crops are suffering from want of rain in Cachar, Sylhet, Kámrup and Nowgong. More rain is wanted for tea in Sylhet. Sowing of the mustard crop has commenced. Fodder and water are sufficient, except in the Surma Valley.

Mysore and Coorg.—*For week ending 4th November.*—MYSORE.—Slight rain in parts of Hassan and Kolar. Rain is much needed. The standing crops are withering. The price of *ragi* (*Eleusine coracana*) has risen all over the State.

COORG.—Rainfall moderate. The rice crop is in good condition. Reaping of *ragi* (*Eleusine coracana*) is over. Picking of cardamoms still continues. The coffee berries are maturing. Water and fodder for cattle are sufficient. Prices of food-grains are normal.

Berar and Hyderabad.—*For week ending 4th November.*—BERAR.—The weather is warm and clear. Crop prospects are unfavourable throughout the province and rain is urgently wanted. The land is being prepared for the ensuing winter crop. Sowings are in progress in some places. Fodder and water are generally insufficient. High prices of food-grains prevail and relief works appear likely to be necessary for the labouring classes.

HYDERABAD.—No rain. The autumn crop is withering in all divisions. Spring sowings are still deferred. The water-supply is decreasing. Fodder and pasture are scarce. Prices are rising.

Central India.—*For week ending 4th November.*—No rain fell in Central India during the week. Rain is urgently wanted everywhere. Agricultural operations are suspended in Baghelkhand, but are in progress in other Agencies. The autumn crops have been damaged for want of rain in all Agencies. Agricultural stock are in fairly good condition, except in Baghelkhand and in some

parts of Gwalior. Pasturage is fair in Bhopal and Malwa and in parts of Gwalior, but is indifferent in other Agencies. Prices are above normal and are rising in all Agencies. The numbers employed on relief works were:—Gwalior 80, Bundelkhand 942, Baghelkhand 639, on the railway 12,016. The numbers on gratuitous relief were:—Gwalior 35, Bundelkhand 1,127, Baghelkhand 1,130.

Rajputana.—*For week ending 4th November.*—Rainfall slight in Marwar and Bikanir. Agricultural operations are generally satisfactory, except in Jaisalmere. The unirrigated crops are fair, except in Deoli, Tonk, Ajmere, Jeypore and Bikanir where they have withered for want of rain. Sessamum, *moong* (*Phaseolus mungo*) and *kolath* have been damaged in Serohi; rice and other small grain and Indian-corn partially in Kherwara, and *jowar* (*Sorghum vulgare*) in Jhallawar. The prospects of the spring crops are gloomy in Kerowli and unsatisfactory in Kherwara. Agricultural stock are in good condition, except in Bhurtpore where they are lean for want of fodder. Pasturage and fodder are generally sufficient, except in Tonk, Ulwar and in parts of Meywar and Jeypore. Fodder is failing in Dholpur and Bhurtpore. Prices are steady in Pertabgurh, Jhallawar, Ajmere, Jeypore, Dholpur and Ulwar, but are rising elsewhere. Test relief works have been ordered to be opened in Bhurtpore. The aggregate number of persons on relief works was:—Sironj, Tonk State, 235, Dholpur 1,723, Bikanir 4,920 and Jaisalmere 115. The numbers on gratuitous relief were:—Bikanir 1,026.

Kashmir.—KASHMIR VALLEY.—*For week ending 3rd November.*—The weather is fine. Spring sowings are still in progress in some places. Prices continue normal.

JAMMU PROVINCE.—*For week ending 4th November.*—No rain. The autumn crops are suffering. Cattle are in good condition. Fodder is scanty. Prices are rising.

Nepal.—*For week ending 31st October.*—The weather is cold and fine. Harvesting of low-land rice continues. Prices are rising.

DENZIL IBBETSON,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

No. $\frac{26}{3-17}$.

Extract from the Proceedings of the Government of India in the Department of Revenue and Agriculture (Commercial Exhibitions),—dated Simla, the 31st October, 1896.

RESOLUTION.

The following papers relating to the International Exhibition, to be held at Brussels in 1897, are published for general information.

[True Extract.]

DENZIL IBBETSON,

Offg. Secy. to the Government of India.

BRUSSELS INTERNATIONAL EXHIBITION, 1897.

PATRON: HIS MAJESTY THE KING OF THE BELGIANS.

HONORARY PRESIDENT: HIS ROYAL HIGHNESS THE COUNT OF FLANDERS.

CIRCULAR OF EXECUTIVE COMMITTEE TO EXHIBITORS.

Brussels, 13th February, 1896.

Duration of Exhibition.

An International Exhibition will be opened in Brussels on the 24th of April, 1897, and will remain open during at least six months. The Executive Committee, however, reserve the right of keeping it open until the 15th of November.

Objects.

The Exhibition, under the patronage of His Majesty the King of the Belgians, with His Royal Highness the Count of Flanders as honorary president, organised with the assistance of the Government and the Municipality of Brussels, will include Works of Art, Scientific Works and Industrial and Agricultural Products of all nations, classed under the following sections :—

1st Section.—Fine Arts.
2nd Section.—Social Economy.
3rd Section.—Hygiene.—Medical and Pharmaceutical Arts.
4th Section.—Life Saving Apparatus.
5th Section.—Industrial and Decorative Arts.
6th Section.—Lighting, Heating, and applications thereof.
7th Section.—Electricity.—Traction.
8th Section.—Military Science.
9th Section.—Manufactures, Plant, Processes and Products.
10th Section.—Sporting Apparatus.
11th Section.—Sports.—Popular Games and Pastimes.
12th Section.—Temporary Agricultural and Horticultural Competitions.
13th Section.—Practical Teaching, Economical Institutions and Manual Labour of Women.
14th Section.—Commerce.—Colonies.

Competitions will be organised between exhibits.

The questions for competition in the various sections and the value of the money prizes corresponding to each question, will be published shortly.

Organisation.

As in former International Exhibitions, *National Compartments* will be organised where the exhibits of one and the same country will be divided into sections, groups, and classes according to a general classification.

In addition to these National Compartments, there will be erected in each section International Compartments in which are grouped the products and works of all countries competing for money prizes.

A detailed classification for the distribution in Sections, Groups, and Classes of the Works of Art, Scientific Works and Industrial and Agricultural Products to be placed in the National Compartments destined to the products of one and the same country, as also in the International Compartments specially reserved to competition, is annexed to this circular.

Special Sections.

The first section—Fine Arts—will include an exhibition of Pictures, Sculptures and Engravings and Architecture to which artists of all countries will be invited. This International Fine Art Section will be organised under special rules.

In the 14th section—Commerce and Colonies—will be classed the special exhibition of the Congo Free State, the importance of which will be in harmony with the interest which the Belgians take in the great work of their King.

Special Exhibitions, etc.

Additional Exhibitions, Temporary Exhibitions, Congresses, Lectures, Fetes, Singing and Musical Competitions, Concerts, etc., will be organised during the Exhibition.

Site of Exhibition.

The Exhibition will be held in the existing State Buildings and in new erections, in the Parc du Cinquantenaire and the Parc de Tervuren.

The Brussels halls will extend over more than a 100,000 square metres of ground under shelter; the Parc du Cinquantenaire has an area of 36 hectares and the Parc de Tervuren has an area of over 200 hectares, 96 of which, including ponds, etc., are specially reserved to the Exhibition.

The Exhibition Palace at Tervuren will extend over at least 3,000 square metres of ground.

The Parc de Tervuren, in which will be held the Congo Exhibition, and numerous Temporary Competitions, Sports, Popular Games, etc., will be connected with the Parc du Cinquantenaire by rapid means of communication.

The Exhibition buildings are connected with the State Railway by branch lines and the necessary rail are laid in the halls and in the gardens, so that all products may, inasmuch as possible, be placed on the very spot where they will be exhibited.

Organisation and management.

The Board of Directors of the "Bruxelles-Exposition" Company * has given full powers to an Executive Committee, the Chairman of which is Mr. Emile De Mot, Alderman of the City of Brussels, late Member of the Chamber of Representatives. This Committee undertakes the organisation and management, and will control all matters concerning receipts and expenses.

Although the Belgian Government has left to the Exhibition Company all responsibility in connection with financial arrangements and the direction of the Exhibition, it has yet accorded its high patronage to the undertaking, rightly regarding it as an enterprise of the highest national importance.

By Royal Decrees, dated 17th December, 1895, an organising commission with H. R. H. the Count of Flanders as honorary president, were appointed, as also a Commissariat General of the Government under the direction of Count A. d'Oultremont, late Commissary General of the Government to the World Exhibitions in Philadelphia, 1876, Paris, 1878 and 1881, Antwerp, 1885, etc.

---

* The Board of Directors is composed as follows: *Chairman:* M. Karel Buls, Mayor of Brussels, late Member of the Chamber of Representatives; *Vice-Chairmen:* MM. Georges Brugmann, General Consul of Sweden and Norway; Baron Adolphe Drion, late Member of the Chamber of Representatives; Knight Edouard Descamps, Senator; Achille Legrand, Senator; Jules Urban, Chairman of the Congo Company for Commerce and Industry; *Members:* Gédéon Bordiau, Architect; Pierre Caponillet, Manager of the Belgian General Insurance Company of Brussels; Léon d'Aoust, Banker; Julien Davignon, Gentleman; Emile De Mot, late Member of the Chamber of Representatives, Alderman of the City of Brussels; Edouard Dremel, Gentleman; Georges Dupret, Gentleman; Emile Éloy, Manufacturer; Maurice Lemonnier, Solicitor, late Member of the Chamber of Representatives, and of the Municipality; Jules Matthieu, jr., Banker; Edmond Nérincx, Solicitor, Member of the Chamber of Representative; Edmond Parmentier, Manufacturer; Charles Smedt, Merchant; Armand Steurs, late Senator, Mayor of Saint-Josse-ten-Noode; Albert Thys, Managing Director, General Manager of the Congo Commercial Companies; Count Charles van der Burch, Senator; Fernand Vanderstraeten-Solvay, Solicitor; Vercruysse, A., Senator; Jules Vimenet, Manufacturer.

Reception of the scheme in Belgium and abroad.

The three universal Exhibitions held in Belgium during the past ten years were a full success; the official publication as to the Brussels International Exhibition was warmly welcomed at home and most sympathetically received abroad.

His Majesty's Minister announced the organisation of this special exhibition to foreign Governments and invited them to nominate commissioners or official commissions to represent them officially.

France has already accepted officially; Spain, also, granted in principle its official contribution, and other countries will no doubt follow their example without delay.

Private committees are being formed in a large number of towns, both in Europe and in America, and gentlemen of high standing have consented to become members.

A large number of producers have joined these committees, who organise numerous particular and interesting sections.

Most of the leading Belgian manufacturers have decided to contribute on a large scale to this exhibition of national activity; they moreover were incited thereto by the warm appeal which the Minister of Industry and Labour made to them in his speech of the 15th January, 1896, at the installation of the organising Commission:

"May the International Exhibition of 1897, thanks to you and to the assistance of numerous intellectual and manual labourers, produce numerous progresses, may it erect still more numerous markets for your products, may it contribute to the pacific harmony which ought to exist between all labourers, and may it mark a new step on the way of Belgium's prosperity."

Documents annexed.

The Executive Committee annexes to this circular the General Rules, the Classification of Exhibits, Forms of Application for space in the properly so-called Exhibition, a form for the drawing up of the Official General Catalogue, and Plans of the Parcs of Brussels and of Tervuren.

The programme of the competition, forms of admission to the same and a form for the drawing up of the special catalogue of the competition will be sent shortly to intending exhibitors, on demand addressed to the Executive Committee.

Special Arrangements for Contribution.

The attention of intending exhibitors is specially called to the fact that the price charged for space includes the expense of decorating the Section and the fees for the handling of goods (see article 38 of General Rules). By this arrangement exhibitors may know exactly and in advance how to calculate their expenses under this head.

According to articles 38 and 43 of General Rules, special terms may be arranged with all countries officially represented, for the hire of large spaces, for handling goods and storing empties. The prices are fixed separately:

1. For the hire of halls without any decoration;
2. For handling goods;
3. For storing empties.

As regards the countries officially represented these arrangements will be drawn up through the intervention of the Commissary General of the Belgian Government.

Protection, etc.

Exceptional advantages will be assured to exhibitors as regards guarantee for Industrial, Scientific and Commercial Property as also the forwarding of Exhibits, Customs, etc.

Lottery.

A lottery will be organised under the sanction and inspection of the State. The prizes will be purchased from amongst the exhibits.

Official and International Jury for Awards.

An International Jury for Awards is formed, the work of which will be directed by the Commissary General of the Belgian Government, with the assistance of a special Commissary. The members of this Jury will be appointed by the Governments of their respective countries.

The awards to be allotted are specified by the General Rules. Exhibitors may receive diplomas or medals as awards. In addition to these, money prizes will be awarded for exhibits, which the International Jury for Awards may consider deserving, and complying satisfactorily and completely with the requirements of the competition.

Fetes and Attractions.

The Executive Committee proposes to organise fetes of all kinds to multiply the objects of attraction, in order to raise the credit of the Exhibition and to increase the number of visitors.

Such is the work to which we have acquired the patronage of His Majesty the King of the Belgians and to which the Belgian Government and the City of Brussels have granted their moral and material support.

Belgium, as a country in Central Europe, and enjoying the sympathies, and the confidence, of all nations, offer to scientists, artists, and industrial and commercial men of all countries, an admirable field for competition.

The Executive Committee of the "Bruxelles-Exposition" Company address a warm appeal to all nations; they invite them to take part in the exhibition of 1897, which, by their rivalry, will show the great progress accomplished for the good of humanity, in Art, Science, Industry, and Commerce.

The Executive Committee:

ÉMILE DE MOT, *Chairman;*

GEDEON BORDIAU, *Member;*

GEORGÉS DUPRET, do.

ÉMILE ELOY, do.

MAURICE LEMONNIER, do.

EDMOND NÉRINCX, do.

ALBERT THYS, do.

(Signed)

The Commissary General of the Belgian Government,

Count A. D'OULTREMONT.

MINISTERE DE L'INDUSTRIE ET DU TRAVAIL.

Exposition Internationale de Bruxelles en 1897.

(Extrait du *Moniteur belge* du 20 decembre 1895.)

Commission Organisatrice.

LÉOPOLD II, Roi des Belges,

A tous présents et à venir, SALUT.

Vu Notre arrêté de ce jour instituant la Commission organisatrice de l'Exposition internationale de Bruxelles en 1897;

Sur la proposition de Notre Ministre de l'Industrie et du Travail,

Nous avons arrêté et arrêtons :

Notre Frére bien-aimé, S. A. R. Monseigneur le Comte de Flandre, est nommé Président d'honneur de cette Commission;

Notre Ministre de l'Industrie et du Travail est chargé de l'exécution du présent arrêté.

Donné á Laeken, le 17 décembre 1895.

(*s.*) LÉOPOLD.

Par le Roi :
Le Ministre de l'Industrie
et du Travail,
(*s.*) A. NYSSENS.

LÉOPOLD II, Roi des Belges,

A tous présents et à venir, SALUT.

Vu Notre arrêté de ce jour instituant la Commission organisatrice de l'Éxposition internationale de Bruxelles en 1897;

Sur la proposition de Notre Ministre de l'Industrie et du Travail,

Nous avons arrêté et arrêtons :

S. A. R. Madame la Comtesse de Flandre est nommée Présidente d'honneur de la Commission de la 13e section (Ēnseignement pratique, industries et travail manuel de la femme);

Notre Ministre de l'Industrie et du Travail est chargé de l'exécution du présent arrêté.

Donné à Laeken, le 17 décember 1895.

(*s.*) LÉOPOLD.

Par le Roi :
Le Ministre de l'Industrie
et du Travail,
(*s.*) A. NYSSENS.

LÉOPOLD II, Roi des Belges,

A tous présents et à venir, SALUT.

Vu Notre arrêté de ce jour instituant la Commission organisatrice de l'Éxposition internationale de Bruxelles en 1897;

Sur la proposition de Notre Ministre de l'Industrie et du Travail,

Nous avons arrêté et arrêtons :

Notre Fille bien-aimée, S. A. R. Mme. la Princesse Clémentine de Belgique, est nommée Présidente d'honneur de la 5e section (Arts industriels et décoratifs).

Notre Ministre de l'Industrie et du Travail est chargé de l'exécution du présent arrêté.

Donné à Laeken, le 17 décembre 1895.

(*s.*) LÉOPOLD.

Par le Roi :
Le Ministre de l'Industrie
et du Travail,
(*s.*) A. NYSSENS.

LÉOPOLD II, Roi des Belges,

A tous présents et à venir, SALUT.

Considérant qu'une Exposition internationale aura lieu à Bruxelles en 1897; qu'il importe de favoriser cette entreprise et d'encourager la participation des producteurs belges;

Sur la proposition de Notre Ministre de l'Industrie et du Travail,

Nous avons arrêté et arrêtons :

Article premier.—Il est institué une Commission organisatrice de l'Exposition internationale de Bruxelles en 1897, divisée en quatorze sections, lesquelles ont séparement pour mission :

1° De déterminer la classification des œuvres, produits et travaux appelés à figurer dans ladite Exposition;

2° D'élaborer le programme des concours;

3° De proposer les désidérata à mettre au concours et de fixer l'importance des primes en espèces qui pourraient être accordées aux meilleures solutions.

4° D'encourager la participation des producteurs belges à ces différents concours ainsi qu'à ladite Exposition internationale;

5° De définir les questions à résoudre dans les congrès et d'organiser les conférences.

Art. 2.—Sont nommes:

Vice-Présidents d'honneur de la Commission organisatrice : M. le baron t'Kint de Roodenbeke, H., ministre d'État, président du Sénat,

D

M. Beernaert, A., ministre d'État, président de la Chambre des représentants;

M. Buls, Ch, bourgmestre de la ville de Bruxelles.

Président de la Commission organisatrice et du Comité central: M. Guillery, ministre d'État, président du Conseil d'administration et du comité exécutif de la Société anonyme "Bruxelles-Exposition," à Bruxelles.

E

BRUSSELS INTERNATIONAL EXHIBITION, 1897.

PATRON: HIS MAJESTY THE KING OF THE BELGIANS.

HONORARY PRESIDENT: HIS ROYAL HIGHNESS THE COUNT OF FLANDERS.

GENERAL RULES.

CHAPTER I.

General arrangements.

ART. I.—The Brussels International Exhibition under the patronage of His Majesty the King of the Belgians, with His Royal Highness the Count of Flanders as Honorary President, organised with the assistance of the Government and of the Municipality of Brussels, will include Works of Art, Scientific Works and Industrial and Agricultural Products of all nations, classed under the following Sections:—

1st Section. —Fine Arts (1).

2nd Section. —Social Economy.

3rd Section. —Hygiene. — Medical and Pharmaceutical Arts.

4th Section. —Life Saving Apparatus.

5th Section. —Industrial and Decorative Arts. —Liberal Arts. —Sciences.

6th Section. —Lighting, Heating, Ventilation, and applications thereof.

7th Section. —Electricity. —Traction.

8th Section. —Military Science.

9th Section. —Manufactures; Plant, Processes and Products.

10th Section. —Sporting Apparatus.

11th Section. —Sports. —Popular Games and pastimes.

12th Section. —Temporary Agricultural and Horticultural Competitions.

13th Section. —Practical Teaching, Economical institutions and manual labour for women.

14th Section. —Commerce. —Colonies.

A special Section will be devoted to Congresses and Lectures.

Competitions will be organised between exhibits, subject to the conditions mentioned in Chapter III. (Competitions.—Jury and Awards.)

ART. II.—The Exhibition will be held in the existing State buildings and in new erections, in the Parc du Cinquantenaire, and the Parc de Tervuren.

The halls will extend over more than a 100,000 square metres of ground under shelter. The Parc du Cinquantenaire has an area of 36 hectares and the Parc de Tervuren has an area of over 200 hectares.

The Parc de Tervuren, in which will be held the Congo Exhibition, and numerous competitions, will be connected with the Parc du Cinquantenaire by rapid means of communication.

The Exhibition buildings will be connected with the State Railway by branch lines, and the necessary rails are laid in the halls and in the gardens.

Fetes of all kinds will be organised during the Exhibition.

ART. III.—The Exhibition will be opened on Saturday, April 24th, 1897, and will remain open during at least six months. The Executive Committee, however, reserve the right of keeping it open until the 15th of November.

(1) The Fine Arts Section will be organised under special rules, and will comprise the works of artists living on January 1st, 1890. Copies and Paintings on China and Pottery are excluded but may be exhibited under the Section of Industrial and Decorative Arts.

ART. IV.—The Executive Committee holding full powers from the Board of Directors of the "Bruxelles-Exposition" Company, undertakes the organisation and management, and will control all matters concerning receipts and expenses.

Mr. Emile De Mot, Alderman of the City of Brussels and late Member of the Chamber of Representatives, is Chairman of this Committee.

ART. V.—A Commission is nominated by a Royal decree for drawing up the programme of competitions, questions and awards, and for encouraging Belgians to take part in the Exhibition.

His Royal Highness the Count of Flanders is Honorary President of this Commission.

This Commission elects a Central Committee from its own body.

The Committee is divided into Sections.

CHAPTER II.

General classification.

ART. VI.—Exhibits are arranged in Sections which are subdivided into groups and classes.

A detailed classification is annexed to these General Rules.

ART. VII.—Additional Exhibitions, temporary Exhibitions, Congresses, Lectures, Fetes, singing and musical Competitions, Concerts, etc., will be organised during the Exhibition.

ART. VIII.—In addition to the catalogue mentioned in Art. 15 the Executive Committee will issue an official and complete catalogue of exhibits of all nations, arranged systematically, with the names of the exhibitors, the description of the branch of industry and the place of origin.

The necessary information for the compilation of this catalogue will be furnished by the exhibitors themselves under their own responsibility. A special form to this effect is appended to this regulation.

ART. IX.—The Commissariats of the countries represented will be entitled to publish, at their own expense, a special catalogue of their national exhibits, for sale in their respective sections.

ART. X—Explosive or fulminating substances and all dangerous articles are excluded from the Exhibition.

Alcohol, Spirits, Oils, Essences and Corrosive Liquids, and all substances likely to endanger other exhibits or to inconvenience the public will only be admitted if enclosed in small and appropriate vessels.

Percussion caps, fireworks, matches and similar articles will only be admitted in imitation, without any inflammable matter whatever.

Exhibitors of obnoxious or insalubrious articles will have to comply with special regulations which will be drawn up with a view to public safety. The Executive Committee reserve the right to withdraw from the Exhibition all exhibits, from any source whatever, which from their nature or appearance may seem dangerous, unpleasant or not in accordance with the aim and object of the Exhibition.

CHAPTER III.

Competitions.—Jury and Awards.

ART. XI—An International Jury for Awards will be formed.

The rules of this Jury will be drawn up by the Central Committee in conjunction with the Executive Committee and submitted to the Commissary General of the Government for approval.

The work of this Jury will be directed by the Commissary General of the Government.

The members of the Jury will be named by the Governments of their respective countries.

The appointment of the members of the Jury will be confirmed by the Belgian Government on the demand of the Commissary General of the Government.

Should the Government of any country, taking part in the Exhibition, fail to name its representatives on the Jury in time, the Belgian Government will itself appoint them.

ART. XII.—The Jury will commence to officiate during the month of July 1897. The list of awards will be made known publicly before the close of the Exhibition.

ART. XIII.—Money prizes will be awarded for exhibits which the International Jury for awards may consider deserving, and complying with the requirements of the competition drawn up by the Commission mentioned in Art. V.

The value of the prizes to be awarded in each case will be fixed by the Central Committee of the said Commission. The total amount of these prizes provided by the Belgian Government may amount to a maximum sum of 300,000 francs.

A quarter of any prize money which may remain over will be divided amongst the prize winners at the *pro rata* of the value of the prizes they have already received.

The remaining three quarters of this sum will be at the disposal of the Minister of Industry and Labour.

In addition, exhibitors may also receive diplomas or medals.

ART. XIV.—In order to qualify for money prizes, exhibitors must state, in their application for space, with which of the questions drawn up their exhibits comply, and the latter must be immediately exhibited by the authors or producers.

ART. XV.—A special catalogue will then be prepared by the Commissary General of the Government for the guidance of the Jury of Awards.

ART. XVI.—Exhibits competing for money prizes will inasmuch as possible be exhibited in the International Sections in which are grouped the products of all countries coming under the heading of the questions for that same section. The exhibits which do not come within the range of the questions will be placed in the National Section in which all the products of any one country are grouped.

ART. XVII.—The questions for competition in the various sections, and the value of the prizes corresponding to each question, will be published ultimately.

CHAPTER IV.

Commissariat General of the Government.

ART. XVIII.—The Commissariat General of the Government is managed and conducted by Count Adrien d'Oultremont, assisted by a Commissary for the Foreign Sections, by a Commissary for the Jury of Awards, and by a Commissary for each of the International Sections, contained in the general classification.

The Commissary General of the Government represents the Government in its negotiations with the Executive Committee of the Company organising the Exhibition, and also with the representatives or delegates of foreign countries taking part in the Exhibition.

The Commissary General of the Government is the official referee, between the Company and the representatives or delegates of foreign countries and also between the latter and the Belgian Government in all matters affecting the interests of foreign exhibitors. All information and particulars may be obtained from him.

The Commissary General of the Government and the Executive Committee acting together decide all questions relating to plans of the Halls, the Parc du Cinquantenaire and the Parc de Tervuren, the allotment of space, for the sections of the various countries and the international sections, and all matters regarding passages for public circulation, general decoration, and joint rights in these various sections.

He also acts unofficially as referee, without responsibility, between the foreign representatives and the Executive Committee, for all agreements relating to hire of space, transport and handling of goods, storage of empties, etc., etc.

All conditions and regulations, especially those concerning transport and handling of Goods, Entries, Police, Setting up and Working of Machinery as also the halls of machinery and electricity, must be signed and accepted by him.

The functions and attributes of the members of the Commissariat General of the Government and also their relations with the organising Commission are determined by special regulations.

The Commissary General of the Government organises and supervises Belgian exhibits, and takes all requisite steps relating to the organisation, for which special regulations will be drawn up.

CHAPTER V.

Conditions to be complied with for exhibiting.

ART. XIX.—Foreign Governments have been officially notified that a Brussels International Exhibition will be held and they have been invited to delegate official Commissaries to represent them.

These Commissaries representing their respective nationalities and having charge of their interests, will arrange with the Executive Committee through the Commissary General of the Government, all questions relating to the allotment of space to their respective countries and to the arrangement of their exhibits.

Collective exhibitors belonging to countries, not officially represented, may be admitted with the consent of the Executive Committee and of the Commissary General of the Government.

Exhibitors may only correspond with the Executive Committee through the representatives or delegates of their respective countries. Exhibitors, however, from countries not officially represented, may correspond directly with the Executive Committee.

The latter will furnish all necessary information and will make known the rules to which representatives and delegates of foreign countries and exhibitors will have to conform.

ART. XX.—Interchange of allotted space between countries may only be made through the Executive Committee and with the sanction of the Commissary General of the Government.

ART. XXI.—All advertisements and notices, printed or otherwise, intended to be posted up or distributed within the Exhibition, must first be submitted to the Executive Committee for approval and sanction, which sanction the said Committee reserves the right of withdrawing at any time.

The Executive Committee concurrently with the Commissary General of the Government settles all matters relating to dimensions and placing of signboards.

Exhibitors will be required to submit plans of show cases, fixtures, and furniture they intend to use, to the Executive Committee for approval.

ART. XXII.—Application for admission must be made on special forms (see annexed form) supplied by the Executive Committee and must be sent in not later than October 1, 1896, duly signed, postage prepaid and addressed :

A. To the Commissary General of the Government (if the applicant is Belgian).

B. To the Commissary of that country, officially represented at the Exhibition, of which the applicant is a native (if the applicant is a foreigner).

C. To the Executive Committee (if the applicant is a native of a country not officially represented).

With regard to the latter, the Executive Committee itself decides upon applications for admission, and intending exhibitors may only send their exhibits after their application has been accepted, and a certificate of admission been sent to them.

ART. XXIII.—All exhibits will be shown under the name of the applicant who has signed the form of demand for admission. This rule will be strictly enforced.

ART. XXIV.—Exhibitors may add to their names or to that of their firm, the names of other persons who may have contributed to the production of the exhibits. These names, however, must be stated on the form of application for admission.

ART. XXV.—Exhibitors or contractors intending to erect buildings or stalls in the Parc du Cinquantenaire or in the Parc de Tervuren, will have to conform to the conditions to be stipulated by the Executive Committee.

Concessions for restaurants, bars, cigar stalls, sale of refreshments, etc., will be granted under special rules.

ART. XXVI.—Exhibits must be placed before April 15, 1897, failing which, the allotted space will be forfeited and the certificate of admission cancelled, and no rent will be returned by the Company, without any legal or other proceedings being necessary. In such a case the Executive Committee will have the right to remove any unfinished installations and to charge the cost to the defaulter.

The exhibitor or his agent must be on the spot when his packages arrive at the Exhibition to check their arrival and verify their contents, failing which, the Executive Committee will have the right to send them back or to unpack them at the expense, risks and peril of the parties interested.

All materials for fixtures must, before introduction in the Exhibition, be sanctioned by the Executive Committee.

ART. XXVII.—No exhibit can be withdrawn before the close of the Exhibition without a special written permit from the Executive Committee.

No exhibits may be covered during the hours fixed for public admission to the halls and galleries.

The repacking of exhibits will take place in the order settled by the Executive Committee.

Exhibits which require taking to pieces must be ready for removal not later than December 31, 1897.

Exhibits which are not packed or taken to pieces by December 31, 1897, will be removed and stored at the expense, risks and peril of exhibitors.

Articles which have not been removed by March 31, 1898, will be sold by public auction, and the Executive Committee will be entitled to dispose of the proceeds of the sale.

ART. XXVIII.—The flooring and paving of the halls will be designed to carry loads of 500 kilos per square metre, and in some parts as much as 1,500 killos per square metre.

Whatever alteration or strengthening the floors may require on account of heavy or special exhibits, must be done with the sanction of the Executive Committee and at the exhibitor's expense.

Exhibitors requiring other partitions than those rented from the Executive Committee must put them up at their own expense.

Exhibitors will be responsible for any damage which their exhibits may cause to the floors, partitions, etc., of which they have the use, and also for any wilful damage.

Exhibitors will not be allowed to remove their exhibits before having paid all charges accruing from rent, sale rights, dilapidations that may arise, etc.

ART. XXIX.—The Belgian Government guarantees :

A. Free carriage, both ways, on the State lines, for all Belgian exhibits sent to the Exhibition. This applies to all substances used in manufacture during the Exhibition, and also to empties and packing cases used for sending and returning the exhibits ;

B. Carriage of foreign exhibits on the State lines, under tariff No. 10 (this tariff implies full rates for carriage for sending the goods, and free carriage on the return journey).

Steps will be taken to induce Belgian and foreign railways working under concession and in connection with Belgian lines, to obtain the most favourable rates of transport.

Most of the regular navigation lines will reduce their ordinary freight rates.

C. A post, telegraph and telephone office at Brussels and at Tervuren.

ART. XXX.—All foreign exhibits will be admitted to the Exhibition in bond free of custom dues, provided they are re-exported, and conform to the regulations imposed by the Government.

ART. XXXI.—A lottery will be organised under sanction and inspection of the Government. Prizes will be purchased from amongst the exhibits.

ART. XXXII.—Exhibitors are requested to affix the sale price to their exhibits as a guide to the Jury and the Purchase Commission for the Lottery, as well as for the information of the public.

Exhibitors who intend showing Industrial Art productions, not designed or manufactured by them, must inform the Executive Committee and show due authorisation from the rightful owners.

ART. XXXIII.—The Government will take measures so that patentable inventions, drawings, working models and trade marks shown in the Exhibition may be duly protected in Belgium.

The attendants will be instructed to prevent drawings, copies, measurements, photograph models, etc., to be taken of exhibits, unless with the permission of the exhibitor. The Executive Committee, however, will not be responsible for any infringement of the above instructions, through the negligence or disobedience of the attendants. The Executive Committee reserve the right of allowing general views to be taken of exhibits, and exhibitors will not be entitled to offer any opposition to this.

ART. XXXIV.—Due precautions will be taken to protect all exhibits from accidents, but the Company will not be responsible in any case for accidents, fire, damage, theft, or dilapidation whatever may be the cause or importance.

Strict watch and guard will be established to prevent goods from being stolen, mislaid or damaged, without, however, any responsibility being incurred by the Executive Committee in this respect.

Exhibitors must insure their exhibits and packages themselves and at their own expense, if they consider such insurance necessary.

The Executive Committee of the Company will not accept any responsibility for any accidents which may occur to exhibits.

Exhibitors will be responsible towards the Executive Committee as well as towards other parties for any damage caused by their exhibits or by persons in their employ.

The Government, the Company and the Executive Committee will not be responsible for any prejudice which may be caused to exhibitors through accidents, fire, damage, dilapidation, theft, or any other cause whatever.

ART. XXXV.—Commissaries of countries taking part in the Exhibition, collective and single exhibitors will be entitled to make use, on their own responsibility, of keepers and special attendants.

The latter must be approved of by the Executive Committee and will be required to comply with the rules for admission to the Exhibition.

They will wear special badges, and may claim the help of the police and other guardians named by the Executive Committee.

ART. XXXVI.—Each exhibitor or his agent, will receive one free ticket of admission, not transferable, which will be withdrawn should it be lent to or used by other persons, without prejudice of further action. This free ticket must be signed by the exhibitor or his agent, must show the photograph of bearer and indicate the number of the section, group and class to which he belongs. It will bear the stamp of the Executive Committee.

It must be well understood that exhibitors' agents, whatever the number of exhibitors they may represent, will be entitled to one ticket only. Each exhibitor will be entitled to one or more free tickets for persons in his employ, available for the whole period of the Exhibition but giving admittance from 8 to 10 A. M. only.

The Commissary General of the Government and the Executive Committee will alone decide on the number of tickets to be given, and will withdraw them in case of misuse or fraud.

Special rules will apply to admission.

ART. XXXVII.—Subsequent rules will be drawn up for the sending, the receiving, the handling, the installation, and the re-exporting of exhibits, the organisation of attendants and watchmen, customs, admission to the Exhibition, rights of sale, and the naming and working of the International Jury of Awards.

ART. XXXIII.—Exhibitors will have to pay rent for the space occupied by their exhibits.

The charge for space, including *general decoration and handling of goods*, has been fixed according to position, as follows:—

I.—HALLS.

Collective Space.

Ground space:	*A*. Depth not exceeding 1 metre, per lineal metre frontage: 60 francs (sixty francs). *B*. Depth exceeding 1 metre, per square metre, ground surface: 60 francs (sixty francs).

Wall space: *C*. Per lineal metre frontage: 60 francs (sixty francs).

The charge for collective space allotted will in no case be less than 60 francs (sixty francs).

Detached Space.

A. Measured along the greatest dimension, the smallest being below 1 metre, per lineal metre frontage: 90 francs (ninety francs).

B. Both dimensions exceeding 1 metre, per square metre, ground surface: 90 francs (ninety francs).

The charge for detached spaces allotted will in no case be less than 90 francs (ninety francs).

Central Galleries.

In the central galleries the charge will be.	Collective space, per square metre: 90 francs (ninety francs): detached spaces per square metre: 130 francs (one hundred and thirty francs).
Charge for rooms having at least 5 metres frontage and 5 metres depth.	Single frontage, per square metre: 70 francs (seventy francs). Corner frontage, per square metre: 90 francs (ninety francs).

The allotted space will be measured along the greatest length and width above the floor.

II.—WORKING MACHINERY.

For all working machines, propelled by steam, water, gas, electricity or general transmission, a sum equivalent to 50 per cent. of the amount charged for space will be repaid to the exhibitor, upon production of proof of payment of at least as heavy a sum for force consumption.

The reduction will only be allowed if the machinery works at least five hours per diem and four days weekly.

The spaces allotted will be measured along the greatest length and width above the floor.

III.—GROUNDS.—SHEDS AND TENTS IN THE GROUNDS

Of whatever height:

A. The depth not exceeding 1 metre, per lineal metre frontage, 25 francs (twenty-five francs).

B. The depth exceeding 1 metre, per square metre, ground surface, 25 francs (twenty-five francs).

The charge for space allotted in this department will in no case be less than 25 francs (twenty-five francs).

For space allotted under sheds or tents, the above charges will be increased by 5 francs (five francs) per lineal or per square metre according to circumstances.

Payments.

Rent for space allotted will be collected by the Executive Committee. When above 1,000 francs it will be payable half on allotment and half on April 1st, 1897.

Rent below or equal to 1,000 francs will be payable in one sum on allotment.

Non-compliance with the terms will annul allotment.

Space rented can neither be ceded, exchanged or sublet without the special consent of the Executive Committee.

Raised flooring and extra foundations and strengthening of existing flooring for heavy exhibits will be made after approval by the Executive Committee at the expense of exhibitors, whether singly or collectively. The special arrangements thus entailed must be approved by the Executive Committee and by the Commissary General of the Government.

Special terms will be made for the hire of large spaces in the Halls and Grounds.

The passages for public circulation as shown on the plans annexed to the Building act must be reserved and strictly kept free, and no infringment in this respect will be tolerated.

The passages for public circulation comprised within a section of ground rented in one block, or the half of said passages for spaces rented in front of same, will be reckoned for in the measurement of hired spaces.

ART. XXXIX.—All special and private decoration will be at the expense of exhibitors, either singly or collectively and must be approved by the Executive Committee and the Commissary General of the Government.

ART. XL.—Exhibitors, either singly or collectively, must bear all special charges, such as private decoration, raising and strengthening of flooring, partitions and coverings, ceilings, blinds, supply of fixtures; installation, decoration, laying out of goods, preservation and cleaning of exhibits; foundations, fitting up, motive power, steam, water, gas, electricity, taking to pieces and unmounting; storage of empties; insurance; planting and special levellings; custom or excise duties, licenses for refreshments, etc, etc. All these arrangements must be approved by the Executive Committee and by the Commissary General of the Government.

Exhibitors who undertake to store their own empties must remove them immediately after unpacking, and must conform to the regulations of the Executive Committee.

If exhibitors desire it, the Executive Committee will undertake the storage of empties and their return for packing at the close of the Exhibition, but will not be responsible for the condition of the empties when returned.

Rent for storing empties will be charged at the rate of 2 fr. 50 c. per square metre of ground they occupy, measured along the greatest dimensions above ground, with a minimum charge of 2 fr. 50 c. for any empties, less than one square metre.

Contractors for hiring out showcases, mirrors, furniture, etc., and stall-keepers in the grounds will not be entitled to storage or sending back of empties. The Executive Committee will not take charge in any way of the above empties or packing cases.

ART. XLI.—Exhibitors must carry out, at their own expense, unpacking, installation, laying out and repacking of their exhibits, and also the repairs of the empties.

ART. XLII.—Exhibitors requiring steam, water, gas or electricity must state on the form of application for space the quantity of steam, water, gas or electricity they may require per hour.

When motive power is required, the speed and horsepower desired must be stated.

Motive power, electricity, water and gas will be supplied under special rules and special tariff.

Special regulations, which will be supplied on application, will govern the fitting up and working of machinery.

ART. XLIII.—When the Company undertakes the handling of goods the greatest precautions will be taken, but it is expressly stipulated that it will not be held responsible, in any case, for loss, shortage, damage, dilapidation, etc., that may happen to the packages or their contents.

The handling of goods comprises:

A. Receiving same within the Exhibition;

B. Delivering same on the spot where they are to be exhibited;

C. Removing of empties and packing cases;

D. Replacing the empties and packing cases on the spot for repacking;

E. Removing the goods when repacked.

Exhibitors must conform to the instructions of the Executive Committee to facilitate the removal of empties.

Special terms must be arranged with the Executive Committee for the handling of packages exceeding 1,500 kilos, also for any single objects exceeding that weight, such as blocks of stone, marble, iron, parts of machinery, guns, moveable engines, etc., also when the dimensions of packages exceed the surface of ordinary railway trucks, such as timber, bar iron, beams, etc., rolling-stock (locomotives, railway and tramway cars, wagons), boats, bulky goods and breakable articles. In special cases exhibitors may be required to assist or undertake entirely the handling of certain goods.

The Executive Committee reserve the right of making special terms, for handling goods and storing empties, with all countries officially represented, particularly with those countries with which special arrangements have been made regarding space hire.

ART. XLIV.—Articles of everyday sale, also those manufactured on the spot, may be sold and delivered to visitors on payment of a tax, to be fixed by agreement and subject to special regulations. No sale of this kind can take place inside the halls without special written permission from the Executive Committee.

No refreshments may be provided inside the halls unless by special permission of the Executive Committee. The sale of refreshments in the grounds and gardens of the Exhibition is subject to a tax and to special arrangements to be made with the Executive Committee.

ART. XLV.—Exhibitors as such, agree to these rules and regulations and to all special regulations which may hereafter be made.

Exhibitors or contractors must register an address in Brussels.

ART. XLVI.—**All communications relating to the Exhibition must be addressed post paid to the Chairman of the Executive Committee, 10, rue du Congres, Brussels.**

By order of the EXECUTIVE COMMITTEE, August 26, 1895.

Emile De Mot, *Chairman.*
Gedeon Bordiau, *Member.*

Count Adrien d'Oultremont.

G

BRUSSELS INTERNATIONAL EXHIBITION, 1897.

GENERAL CLASSIFICATION.

FIRST SECTION.

GROUP I.

FINE ARTS.

Class 1.—Pictures, Water colours, Pencillings, work on Enamel, Cartoons and Drawings.

Class 2.—Sculptures, Bas-reliefs, Medals, Cameos and Engraved Stones.

Class 3.—Engravings, Lithographies.

Class 4.—Architecture.—Plans, Drawings and Models; Photographs annexed to the Plans, Rough Models in Clay.

SECOND SECTION.

SOCIAL ECONOMY.

FIRST DIVISION.—LABOUR.

GROUP II.

The labour itself.

Class 5.—Instruction and Apprenticeship.—Primary Instruction in regard to the development of professional taste.—Professional Instruction.—Apprenticeship.

Class 6.—Organisation and Conditions of Work.—Organisation and Conditions of Work in the trade: Large Factory Work; Small Factory Work; Hand-Work, Home-Work, Co-operative Societies of Production.—Geographical Distribution of Industries, Displacement of Industries and of Workmen.

Class 7.—Professional Associations.—Offices of Placement, Labour Offices.—Professional Unions of Masters and Workmen, Guilds and Corporations.—Institutions of Conciliation and Arbitration.

GROUP III.

Safety and Ruling of Work.

Class 8.—Safety in the Yards.—Scaffoldings, Props, Precautions against the Downfall of Stones, Arrangements for Loading and Unloading, as also for the Handling of heavy objects, etc.

Class 9.—Safety in Industrial Establishments Generally.—Management of Workshops.—Protectors against burning and poisonous stuffs, etc.—Means of Precaution in working Steam Generators.—Measures of Protection relative to: 1st Steam Motors; 2nd Turbines and Hydraulic Wheels; 3rd Gas and Petroleum Motors; 4th Electric Motors; 5th all kinds of Motors.—Measures of Protection against Shafts, Bands and Gearings, Projecting Pieces fixed and movable, Coupling and Uncoupling.—Arrangements for replacing Bands.—Brake Apparatuses, Oiling Apparatuses.—Arrangements for the Safety of Apparatuses and Engine tools, Apparatuses for Leverage or Transport, Windlasses, Cranes, Hoists, Lifts.—Special Apparatuses for different trades (Engine Tools, Presses, Saws, Wood Turning Machines, Mills, Beaters' Carding, Lapping Machines, Delivering Rollers, Combing Machines, Jack Frames, Spinning Frames, Selfactings, Drying Machines, Mangles, Shearing Machines, Brass Rollers, etc., etc.

Class 10.—Organisation and Methods of work adopted in industries particularly dangerous.—Plans and models of the factories and workshops.

Class 11.—Safety in Mines and Quarries.—Protection against fallings in.—Use of Explosives.—Safety Appliances for the removal of men in pits and for underground transport.—Protection against injurious Gases, and Explosions, etc.

Class 12.—Safety in the industry of transports by land and water.—Railway Safety Appliances.—Lighting the Coasts, Banks, and Rivers. Preventatives against Collisions.—Safety Apparatuses in reference to transports by road, etc.

Class 13.—Results obtained from the improvement of the sanitary conditions in industrial establishments. Results due to the application of measures taken to prevent illnesses owing to the work.—Propaganda in favour of the safety in industrial establishments.—Free and official Associations.

GROUP IV.

Workmen's life.

Class 14.—Budget of working families.—Salaries and other resources of the workman.—Food.—Clothing.—Lodging.—Furniture.—Economical supply establishments.—Co-operative societies of consumption.

Class 15.—Types of workmen's houses and workmen's furniture.

Class 16.—Moral and intellectural life.—Workmen's clubs, Patronages, Libraries, etc.

GROUP V.

Legislation and history of labour.

Class 17.—Legislation of labour.—Laws and Rules concerning labour.—Results obtained.

Class 18.—History, Statistics and Bibliography of social economy.—History of labour.—Statistics.—Offices of labour.—Bibliography.—Museums of Social Economy.

SECOND DIVISION.—SOCIAL WORKS.

GROUP VI.

Saving and Provident Institutions.

Class 19.—Saving.—Instruction in Providence.—Intervention of Public Authorities in matter of Providence.

Class 20.—Insurances.—Personal Insurances: against illnesses, accidents, invalidity, old age, stoppage of work.—Life Insurance.—Mutualities.— Life annuities and Patrimonies.—Insurances of things.

GROUP vii.

Institutions of Credit. Patronal and Benevolent Institutions.

Class 21.—Institutions of credit.—Banks of credit, Rural Banks of credit.—Co-operative Societies of credit generally.—Pawn-brokers.

Class 22.—Building Societies for Workmen.—Free and official institutions.

Class 23.—Patronal and Benevolent Institutions.—Patronal Institutions.—Public and Private Benevolence.—Homes for Orphans.—Refuges, Asylums and Alms-houses.—Protection of infants.

THIRD SECTION.

HYGIENE.—MEDICAL AND PHARMACEUTICAL ARTS.

A.—HYGIENE.

GROUP viii.

Hygiene in general and prophylactic Hygiene.

Class 24.—Plans, Models and Ordonnance of laboratories for the study of hygiene and of sanitary technic.—Material in use.—Works and Publications referring there to.—(*a*) Analysis of food; (*b*) Infectious diseases; (*c*) Meteorologic, endogenic and atmospheric stations.

Class 25.—Works, Publications, plans, tables and studies relative to public health and sanitation.—National and International Institutions, Health offices, Demographic and medical

statistics, municipal and other Syndicates for the execution of Sanitary Works and organisation of Sanitary services.—Associations for the sanitary inspection of houses.

Class 26.—Works relative to the study of prophylactic measures and isolation, Plans and Models of posts of observation, Lazarets and Isolation Hospitals. Sanitary service of Ports. Material and mode of Disinfection and Vaccination. Plans and organisation of Disinfection Halls according to the importance of the locality. Sanitary Stations: Maritime, Bathing, Hydromineral, Climateric.

GROUP IX.

Urban and Rural Hygiene.

Class 27.—General plans of improved sanitary conditions and enlarging of agglomerations (Width of streets, plans for new Districts, establishment of Squares, height of Buildings, etc.). Modes of Protection of Public roads. Pavings. Carrying away, utilisation and destruction of refuse from the Roads and of rubbish from houses.

Mode of evacuation of excremental matters, waste liquids and surface water; Purification and utilisation of filthy water and of manufactory water. Ventilation of sewers, rendering wholesome of rivers, etc., draining of marshes. Plans and models of canalisations, Flush Reservoirs, etc. Wells and movable tanks. Material and systems of emptying.

Class 28.—Various systems of capitation, distribution of water, filtration and sterilisation, machines and apparatuses used thereto: pumps, conducts, meters, wells, etc.

Class 29.—Plans, models and material of Public Baths, Popular Baths, etc. Douche Baths, Public washing and drying houses.

Class 30.—Studies and selection of ground for cemeteries, plans of cemeteries. Mortuary Galleries, Apparatuses and modes of cremation, Crematory furnaces. Material and modes of transporting corpses. Material employed for inhumations. Plans and models of the installations of mortuary depôts. Mortuaries, Institutes of Anatomy, Inquest Rooms. Apparatuses for help in cases of apparent death. Modes for improvement of the sanitary conditions in mortuary depôts, Cemeteries, battlefields, etc. Modes and materials used for the conservation and disinfection of corpses.

GROUP X.

Hygiene of houses.

Class 31.—Plans and models of private houses and model dwellings, Public buildings, Churches, Government Buildings, Theatres, Meeting Halls, etc.

Preparation and pavement of the ground. Building and decoration materials, stones, bricks, tiles, metals, wood, colours, varnish, etc. Systems and installations of ventilation, heating and lighting. Distribution of drinkable water, filters. Drainage and removal of waste matters. Water-closets, urinals, sinks, basins for passing dirty Water, Wash stands, Baths. Furniture and utensils particularly interesting the hygiene of houses. Disinfection of private houses and model dwellings.

Class 32.—Plans and models of establishments of instruction. Primary schools, colleges, Superior schools and Universities. Institutions for deaf and dumb and blind people, backward children and idiots.

School furniture, teaching materials, forms, chairs, desks, blackboards, etc. Conditions of their good hygienic installation. Classic material for the use of pupils.

Class 33.—Plans and models of barracks, prisons, Depôts for beggars, Reform schools, Civil and Military hospitals, university and private clinical surgeries, maternities, lunatic asylums, Asylums for epileptics. Alms-houses, Homes for orphans, Convalescent homes, Maritime hospitals and Sanitoria, Lazarets or hospitals for contagious diseases, Temporary homes for persons without resources, drunkards, etc. Special furniture for these establishments from a hygienic point of view.

Class 34.—Arrangement of vehicles for the transportation and lodging of persons; vessels, boats, railway wagons, sleeping cars, dining cars, tramway carriages, Gipsy caravans, Ambulances, etc.

GROUP XI.

Corporal Hygiene.—Alimentary Hygiene.—Hygiene for Children.

Class 35.—Clothing in general and toilet requisites considered from a hygienic point of view: Clothing and equipments for certain professions or occupations (Army, Navy, Railwaymen, miners, tourists, workmen, and servants), Laundry.—Works relative to the bathing and exercising of corps, games, etc., from a hygienic point of view.—Gymnastics.

Class 36.—Samples, models, tables, Works and publications relative to the physiological study of the nourishment and illnesses produced by an insufficient, defective or unhealthy

alimentation.—Alcoholism.—Measures and modes for the inspection of the manufacture and sale of food.

Class. 37.—Unprepared animal and vegetable substances used as food.—Mineral table waters.—Material and processes, particularly recommended from a hygienic point of view, for the industrial preparation of those substances.—Modes for preserving and warehousing fresh articles of food of all kinds.—Preserves, methods and processes of manufacture.—Processes destined to prevent the deterioration of food.—Sterilisation.—Utilisation of food and new condiments and unknown goods.—Victualling.

Class 38.—Materials and modes of transport, by land and water of food to the places of consumption. (Cattle, poultry, fish, meat, fruit, vegetables and other victuals.)—Plans and models of markets, slaugther-houses, etc.—Shops, stalls, etc.

Class 39.—Immediate preparation of foods.—Economical cooking.—Regime of hospitals, alms-houses, Homes for orphans, prisons, etc.—Methods and Processes for perfectioning the preparation of food and drinks.—Kitchen utensils.

Class 40.—Hygiene for children.—Infantile alimentation (artificial feeding).—Clothing.—Habitation.—Asylums.

GROUP XII.

Industrial and Professional Hygiene.

Class 41.—Unhealthy industries; Plans and models of improved factories and workshops, etc.; Arrangements for Ventilation, heating, supply of fresh water, closets and refuse, disinfection, lighting, particular cares of the staff of these establishments, etc.—Washing houses, baths, douches, etc.

Apparatuses and modes of protection of workmen against the inherent inconvenience of the work: dust, irritant and poisonous vapours and gases, germs of transmissible affections, etc.

Apparatuses and modes for protecting the healthfulness of the neighbourhood.

Arrangements to prevent illnesses and infirmities, liable to intellectual, industrial and manual professions, etc.

Works and publications treating industrial and professional Hygiene.

B.—MEDICAL AND PHARMACEUTICAL ARTS.

GROUP XIII.

Medical and Pharmaceutical Arts.

Class 42.—Instruments for medical exploration.—Surgical instruments and apparatuses.—Dressing apparatuses.—Prothesis apparatuses plastic and mechanic.—Orthopædic apparatuses.—Bandages.—Electric apparatuses.—Pneumatic apparatuses.—Medical bath and hydropathic apparatuses.—Pulverisation and inhalation apparatuses.—Medical gymnastics and massage.—Ophthalmologic, gynecologic, laryngologic, otologic and rhinologic instruments, etc.—Optical instruments and apparatuses.—Dentists' instruments and apparatuses.—Material for the transport of ill and wounded persons.—Various apparatuses for ill and infirmed persons and lunatics.—Necessary objects for the medical and surgical service of hospitals and infirmaries.—Dressing boxes.—Cases and trousseaus of instruments.—Ambulances.

Class 43.—Material for the installation of Pharmacies.—Material for manufacture and work.—(Drugs —Vegetable drugs; officinal animal products; chemical products used in Pharmacies; mineral waters.)—Pharmaceutical preparations.—Patent medicines.—Pharmacy accessories.

Class 44.—Organisation of Veterinary medicine.—Instruments and apparatuses.—Hygiene of sheds and stables.—Prophylactic measures against epizooties.—Prevention of contagious diseases.

FOURTH SECTION.

LIFE SAVING APPARATUS.

GROUP XIV.

Fires.

Class 45.—Individual action.—Means of prevention in houses, farms, factories, theatres, etc.: Lamps, burners, stoves, canalisation of electricity and gas, matches, etc.

Precautions against spontaneous combustion, inflammability of all warehoused goods. Modes of rendering material, decorations, cloth, and constructions incombustible. Warning apparatuses. Means of extinction, pails, cloths, powders, sulphur, liquids, etc.; Automatic and other extinguishers, pumps, etc.

Ventilation, salvage, assistance.

Class 46.—General action.—Safety appliances, warnings, public education, visits to buildings, workshops, etc.; Alarms, Organisation : division of territories by zones ; distributions of posts and warning instruments, distribution of plant, communication between the posts and the authorities.

Class 47.—Means of action.—Reservoirs, wells, cisterns, plug holes, large extinguishers, hand and steam pumps; pipes, junctions, cocks, squirts; uniforms and equipments for men, horse harness, means of transport.

Class 48.—Means of assistance.—Ladders, ropes, hooks, sacks, parachutes, lighting and respiratory apparatuses.—Instruments for breathing and salvage in cellars, wells, etc.; Medical cases.

Class 49.—Library concerning everything in reference to fires.

GROUP XV.

Accidents on and under water.

Class 50.—Maritime salvage in general. Models of fixed and floating salvage stations. Life boats and other various articles.—Signals of all kinds.—Fog signals.—Means of preventing collisions, Machines for repairing leaks and other damages.—Fire extinguishers for ships. Life belts. Diving dresses and apparatuses.—Various rafts.

Class 51.—Salvage on Rivers and Shores.—Buoys not serving for coast marking. Salvage barges.—Cabins, Medical cases.—Salvage material for beaches; Rescuing perches, hooks and buoys.

Class 52.—Salvage in case of inundation, Rafts. Rescue on and under ice for ships as also persons.—Ladders and apparatuses in case of accidents on the ice. Apparatuses and machines for sounding.

Class 53.—Library concerning this group.

GROUP XVI.

Accidents on and under ground.

Class 54.—Salvage apparatuses relative to mines, quarries, metalworks and railways, which are not absolutely necessary for the working of these industries.—Library concerning this class.

Class 55.—Every apparatus, mode or organisation relative to all accidents not included in the preceding classes.

All means for *preventing* accidents not classed in another section.

1st Material and Rescuing apparatuses in case of accidents.

(*a*) In sewers and domestic wells;

(*b*) In Buildings;

(*c*) In case of explosions from Gas or Lightning;

(*d*) „ boiler explosions;

(*e*) „ accidents due to electric currents;

(*f*) „ tramway, carriage and cycle accidents.

2nd Carriages for the transport of wounded people, Assistance apparatuses in general boxes, hand-carts, ambulances; aid posts, tents, huts, etc.

Library concerning this class.

N.B.—All which concerns the Hospital and Life Saving service on battlefields is put in Section 8.

FIFTH SECTION.

INDUSTRIAL AND DECORATIVE ARTS.—LIBERAL ARTS SCIENCES.

A.—INDUSTRIAL AND DECORATIVE ARTS.

GROUP XVII.

Metal.—Glass.—Ceramic.

Class 56.—Diamond-cutting industry.—Preparation and cutting of diamonds.—Lapidary art in general.—Preparation of precious metals: Refinement, Stamping, etc.—Goldsmiths'

work of art, table and decoration work, etc.—Fine Goldsmith's work.—Jewellery.—Stone Mounting and Setting. Precious Metal chiselling.—Imitation Gold Works.—Fancy Work in Imitation Gold.—Clock and Watchmaking.

Class 57.—(*a*) Art Bronzes and Bronzes for furniture. Heating and Lighting Apparatuses as regards Models and from an Artistic and Decorative point of view. Art Tin-Work. Gravings. Damascening. Coins, Medals, Lockets, Applications of Galvanisation.

(*b*) Artistic Iron Castings. Objects in Copper, Bronze, Nickel, Zinc, etc., for the Building Industry. Cutlery. Kitchen Enamel Ware.

(*c*) Art Iron Works: Iron Forgings; Complete Armours and Panoplies, Artistic and Decorative.

Class 58.—White and coloured Window Panes of different thicknesses, Fluted, Convexed, Smoothed, Sanded, Frosted, Dull, Sheet Glass, and engraved Glass, Opals and Enamels, etc., White Glazings, Quicksilverings, Silverings, Smoothed and Engraved Articles, Bevellings, Framings, Smooth and Relieved Unpolished Glass, Pressed Pieces, in Glass, etc. Crystals and Glass Work of every kind. Lighting and Fancy Articles. Paintings on Glass.

Class 59.—Artistic Ceramic. Decorative Panels. White, Coloured and Decorated Earth-Work and Porcelain. Majolic, Biscuit, Pottery, Artistic Stone ware, Enamels of all kinds, Tiles for Walls, etc.; Paintings on Biscuit, Earth-Work and Porcelain.

GROUP XVIII.

Furniture and decoration for houses.

Class 60.—Furniture in general. Complete Suites and single Pieces of Furniture Hangings.

Class 61.—Decorative Paintings. Frescoes and Graffitoes. Wall Paper and Wall Cloth. Imitation of Embroideries and Tapestry painted on Linen and other Cloth. Imitation of Wood, Marble and Faience. Imitation of Paintings on Glass. Unvitrified Paintings on Glass, Ornaments in Plaster or Paste, Mouldings drawn in a rough state, Smoothed, Ornamented, Painted or Gilded. Frames for Glasses or Pictures, other than those in natural wood.

Class 62.—Stuffs, special Carpetting and Tapestry for House Furnishing such as Tissue Goods, Prints on Silk, Wool, Cotton, or other Stuffs. Embroidered, Stitched and Braided Velvets, Silks and Wools.—Smooth, Printed or Figured Velvets of all kinds in Wool, Goats hair, Flax or Jute. Cretonnes, Chintz. "Aubusson" and other Tapestry. Imitation Woven or Printed Tapestry. Hair, Aloe, or Felt goods, Repoussé or stamped Leather. Painted, Gilded, or Decorated, Carpets of all kinds and stuffs, Oil Cloths, Linoleum, etc.

Class 63.—Theatrical Art Material—Scenery, apparatuses, Lighting, costumes, etc.

GROUP XIX.

Architecture and Building Industry.

Class 64.—Plans and models of houses, villas, castles, public buildings, etc.,—Arrangement of outhouses.—Designs of fronts, and constructions of style.

Class 65.—Worked and sculptured marbles, chimneys, busts, statues, clocks, pedestals, objects in marble and metal combined.

Class 66.—Materials of construction from a decorative point of view.

Class 67.—Application of architectural and decorative art to the installations of the Exhibition, fronts of stalls, entries, and constructions erected in the gardens.

GROUP XX.

Church Art.

Class 68.—(*a*) Church Goldsmiths' work in general; (*b*) Bronzes, brass work, etc. Pictures, paintings on glass, and cartoons. Frescoes, decoration; (*c*) Sacerdotal ornaments, embroideries, symbolic stuffs; (*d*) Furniture for churches and temples, ivories; Covers for Evangile Books, Leaves for diptychs, triptychs, Reliquaries; (*e*) Designs and Rough Models in Clay of furniture, Sculptures; (*f*) Church architecture. Plans and Designs for the Construction and Restoration of Churches.

All these objects considered from the special point of view of their destination.

GROUP XXI.

Applied Art.

Class 69.—Rough Clay Models; Drawings and Models for the Industrial Application of Art.

Class 70.—Works executed by the artist alone or with assistance.

Class 71.—Industrial Products named in the General Official Catalogue of the Exhibition and being of an artistic character.

B.—LIBERAL ARTS.

GROUP XXII.

Graphic Arts.

Class 72.—Material for the Arts of Drawing and Painting.—Canvasses, Panels, Colours. Inks, Brushes, Pencils, etc.—Set Squares, Rulers, Compasses, etc.—Geometry and Architectury Instruments, etc. Stationery in general.

Class 73.—Photography: (*a*) Artistic Studies (Professional and Amateur); (*b*) Other Proofs of all kinds (ditto); (*c*) Scientific Photography; (*d*) Processes of Photo-copying and Photo-drawing; (*e*) Material and Products for Photography (Optics, Chemical Products, Cabinet Work and Accessories).

GROUP XXIII.

Printing and Book Industries.

Class 74.—Engraving and Casting Type. Steel, Copper, Lead, Wood and Stone engravings. Zincograph, Stereotype, Electrotype, and other plates for Lithograph and Typograph Printing. Inks and Varnish. Roller pastes.

Class 75.—Machines and Tools for different Printing, Lithographing, Stitching and Binding Departments, etc.—Printer's Furniture.

Class 76.—Typography.—Lithography.—Chromotypo and Lithography.—Autography.—Bible and Church Images.—Stamping.—Colouring.—Designs, and Lithographic stones.

Class 77.—Pamphlets.—Newspapers.—Books.—Periodical and other Publications.—Artistic Editions.

Class 78.—Stitching and Covering.—Registers.—Fancy and Ordinary Binding.—Gilding.—Requisites, Paper, Cardboard, Leathers, and Special Tissues.

GROUP XXIV.

Musical Instruments.—Musical Art.

Class 79.—I. Autophone Instruments: (*a*) Hand Organs, etc.; (*b*) Musical Boxes, etc.

II. Parchment Instruments: (*a*) Drums, etc.; (*b*) Tamborines, etc.

III. Wind Instruments: (*a*) Clarionets, etc.; (*b*) Flutes, etc.; (*c*) Church Organs, etc.; (*d*) Trumpets.

IV. Cord Instruments: (*a*) Violins, etc.; (*b*) Mandolins, etc.; (*c*) Pianos, etc.

V. Instrument Accessories, Detachable Pieces and Orchestra Material.—Tuning-Forks and Flutes and Acoustic Apparatuses.

VI.—Music Editions and Publications, Instrument Teaching Books. Works on the Theory of Music, and the Organography and History of the Art.—Musical Compositions edited since 1st January 1896.

C.—SCIENCES.

GROUP XXV.

A.—Physical and Mathematical Science.

Class 80.—Mathematics and Astronomy, Mathematics, Mechanics, Astronomy; Physic of the Globe and Meteorology; Geodesy; Topography.

Class 81.—Physic; Meteorology; Physic.

Class 82.—Chemistry; Physico-Chemistry; Techno-Chemistry; Photo-Chemistry.

B.—Natural Science.

Class 83.—Geology and Geography: Geology; Geogeny; Applied Geology; Mineralogy Petrography; Cristallography; Paleontology; Geography.

Class 84.—Biology; Botany; Zoology; Physiology; Bacteriology.

Class 85.—Anthropology.

Class 86.—Bibliography.

SIXTH SECTION.

LIGHTING, HEATING, VENTILATION AND APPLICATIONS THEREOF.

GROUP XXVI.

Lighting.

Class 87.—Illumination by Solid or Liquid Matters; by Threads, Ribbons, or Metallic Powders, by Mineral, Animal or Vegetable Oil.—Raw Materials and Manufactured Products.—Secondary Products.—Torches, Tallow, Wax, Stearine Candles, etc. Tapers, Night Lights, Matches.—Plant for Manufacture and Utilisation.

Class 88.—Illumination by Gas; Coal Gas.—Water Gas, Gas from Essences, etc.—Raw Materials, and Secondary products.—Plant for Manufacture, Distribution and Utilisation.

Class 89.—Electric Lighting.—Apparatuses for the Utilisation of Electricity for lighting; Arc and Incandescent Lamps, Various Lamps, Carbons, Wicks and Threads for Electric Light.—Various Accessories.

Class 90.—Apparatuses and Modes for Measuring, Controlling and Testing. Meters for Lighting substances.—Apparatuses and Modes of Testing and Controlling Solids, Liquids and Gases used for Lighting.—Apparatuses and modes of measuring light.

GROUP XXVII.

Heating and Ventilation.

Class 91.—Raw Materials and Manufactured Products for Heating.

Class 92.—Heating for Houses; Warmers, Kitcheners.—Bath Heaters.—Ovens, Roasting Stoves, Grilling Stoves, Coffee-burners.—Coffee-pots, Water-baths, etc.—Heating of Buildings by movable appliances: Chimneys, Stoves, etc.

Class 93.—Heating by distributing Apparatuses: Hot Air, Water, and Steam Stoves.—Mixed Heating Stoves.—Distributing Material and Accessories.

Class 94.—Industrial Heating: Boilers.—Safety Apparatuses and Accessories.—Modes of Heating and Heating Apparatuses used in the Industry: Metallurgy, Chemical Industries, Glass making. Manufacture of Ceramic. Products, etc.—Heating of Vehicles.

Class 95.—Apparatuses and Modes of Technical and scientific Heating.—Apparatuses and Modes of Measuring and Controlling.—Ovens and Heating apparatuses used in Laboratories.—Thermometers, Pyrometers, Calorimeters.—Apparatuses and Modes of Drawing and Ventilation applied to Heating and Lighting.—Chimneys and Ventilators.

GROUP XXVIII.

Special applications for Lighting and Heating.

Class 96.—Light projectors: Light-houses, Mines, Microscopy, and Photography.—Various Applications: Lighting by Natural light, etc.

Class 97.—Steam, Hot Air and Gas Thermic Motors, etc.—Electric Soldering and Forging.—Heating by Electricity.—Fire Warning Instruments.—Sundry Applications.—Apparatuses for utilising the Solar Heat.

Class 98.—Retrospective study of various means of Lighting and Heating from the most remote times.

N.B.—The Plans, Models and Apparatuses for the Distribution of Heat or Light in Houses from a hygienic point of view are classed in the Hygiene Section.

SEVENTH SECTION.

ELECTRICITY.—TRACTION.

GROUP xxix.

Electricity.

Class 99.—Generating Dynamos, Batteries, Accumulators; Reversers.

Class 100.—Measuring, Controlling and Safety Apparatuses. Distribution-Boards Circuit Breakers and Commutators. Electric Meters. Ammeters. Voltmeters. Wattmeters Current and Force Registers, etc. Sundry Accessories.

Class 101.—Apparatuses and Material for Transport and Distribution. Wire. Cables. Insulating Material. Various systems of Canalisation and Distribution. Posts, Insulators, Commutators, etc. Safety Appliances, etc. Instruments and Material for Laying lines.

Class 102.—Telegraphy. Telephony.

Class 103.—Electro-Chemistry: Electro-Metallurgy.

Class 104.—Sundry Applications not mentioned in the preceding classes, Electric Clock Work, Lightning Conductors, Signals, Detonators. Indicators. Registers, Bells, etc.

Class 105.—Historic and Bibliographic Collections. Apparatuses for the Study and Teaching of Electric Science.

The Life Saving Section will contain the Electric Apparatuses for the uses mentioned in the classification of this section.

GROUP xxx.

Traction.

Class 106.—Machines for Locomotion and application of different systems of Traction by Cable: Chain, Wire, Gearings, etc.—Various Roads.—Metals.—Aerial Roads, Funiculars, Inclined Planes, etc.

Class 107.—Electro-motors.

Class 108.—Transmission of movement, Driving apparatuses. Safety appliances, etc.

Class 109.—Machines for Locomotion, Horseless Carriages of all kinds; Electric, Steam, Gas, Essence, Petroleum, Mechanical, etc., for ordinary roads.

Class 110.—Locomotives and Self-propelling Carriages running on Rails.—Boats, etc.

Class 111.—Rolling Stock or Railways and Tramways.

EIGHTH SECTION.

MILITARY ART.

GROUP xxxi.

Ordnance.

Class 112.—Powders, Explosives, Primings; Powder magazines and Laboratories.—Apparatuses and Plant for Manufacture.—Testing and Examining Instruments, etc.

Class 113.—Small Arms; Swords, etc.—Fire Arms.—Ammunition.—Manufacture of Arms and Ammunition.—Instruments for Examining and Testing, etc.

Class 114.—Field Ordnance.—Pieces of Ordnance.—Projectiles, Charges, Primings.—Armaments, Accessories, etc.—Manufacture of Ordnance and Ammunition.—Rolling Material for Batteries and Ammunition Columns.—Material for Bridge equipment.

Class 115.—Siege, Place, Coast and Marine Ordnance.—Ordnance.—Carriages, Platforms —Projectiles, Charges, Primings.—Armaments and Accessories, etc.—Manufacture of Ordnance Pieces and Ammunition.—Instruments for manœuvres and Transports.—Modes of Packing Ammunition and Primings and Preserving them in Magazines.—Tools and Material for the construction of Batteries.—Sighting Apparatuses.

GROUP xxxii.

Engineer's Service.

Class 116.—Constructions and Barracking: Types, Plans and Designs of Buildings, Magazines, Barracks and Military Hospitals.

N. B.—Plans and Models of Barracks and Military Hospitals which interest the Hygien of habitations are classed in the third Section.

Class 117.—Service of Fortifications and Pioneer Service: Organisation of Fortresses.—Applications of Armour and Beton Revetments, etc., to Fortifications.—Turrets and Towers.—Blindings.—Defences.—Mines.—Material and Tools for Pioneers, Sappers and Miners.

Class 118.—Means of Observation, Transport and Communication; Electric projectors.—Photography.—Aerostation.—Bridges.—Railway Material.—Military Cycling, etc.—Telegraphy and Telephony.—Visual Signals, etc.—Pigeon Houses.

Class 119.—Naval Ships.—Means and material for under-water attacking and defending—Models of Ships, Torpedo Boats, Coast Guard-Ships, Launches, Ship's boats.—Torpedoes, etc.

GROUP xxxiii.

General Service.

Class 120.—Military Teaching, Instruction and Education.—Military Bibliography.—Military Cartography; Cards, Apparatuses, Instruments and Means used in the Cartography Service, and Reconnoitring; Field Glasses, Telescopes, Telemeters, Apparatuses for Photographing plans, etc.

Class 121.—Equipment and Encampment: Requirements for Large and Small Equipment.—Tents and Shelters for men and horses.—Covers and Canteens.—Sundry Objects.

Class 122.—Harnessing and Shoeing: Harness, Pack-saddles and means of attachment for Saddle. Draught and Pack Horses, and other animals of burden. Farrier's Tools and Material, etc.

Class 123.—Administration, alimentation: Post-Wagons, Travelling Offices; Various Wagons, Victual and Forage Wagons.—Transports of Victuals and Forage by Road, Railway, and water.—Portative or Rolling Kitchens and Ovens.—Alimentary Products and Material for their manufacture.

Class 124.—Rescuing Services: Army Hospital Services.—Material for the Army and Red Cross Field Hospital Service. Instruments and Dressing Material used by the Army and Red Cross Hospital Service —Ambulances.—Movable Hospitals.—Field Hospitals.—Stationary War Hospitals.—Sanitary Trains by Railway and Water.

NINTH SECTION.

MANUFACTURES: PLANT, PROCESS ES AND PRODUCTS.

GROUP xxxiv.

Mechanical Plant and Processes.

Class 125.—(*a*) Steam and Gas Generators, etc.—Purifiers.—Apparatuses and accessories for Generators.

(*b*) Steam, Gas. Petroleum or Essence, Compressed or Rarified Air, or Hot Air Motors, etc. Parts of, and Accessories for these Motors.

Methods of testing and controlling Steam Apparatuses.

Hydraulic Motors.—Wind motors and pananemones.

(*c*) Various Apparatuses for General Mechanism: Power transmitting Apparatuses, bands, etc.—Oiling, Weighing, and Lifting Machines, etc.—Liquid Raising Machines.

Class 126.—Metal Turning Machines: Rollers and Drawing plates; Lathes; Shaping, Planing, Cylinder Boring, Mortising and Punching Machines and Cutting Presses; Shearing Machines; Perforators, etc.; Grinding Machines. Plant and Various tools for Metal Works.

Class 127.—Wood Turning Machines.—Tree Felling and Slicing in forests and yards by means of machines worked by Steam. Gas, Electricity etc.—Sawing Machines for turning logs into trade wood.—Machines for the manufacture of Carpentering, furniture, Wagons, Railway Material, etc.—Stamping and Chasing Machines.—Machines and Apparatuses for Stucco, Paste Board, Ivory, Bone, Glue, Meerschaum and Amber Work.—Preparing Machines for sculptures, sculpturing machines, machines for reducing statues. Engraving and Rose Engines.—Plant and various Tools for the work of these matters.

GROUP XXXV.

Plant and Modes of Civil Engineering and Building.—Materials.

Class 128.—(*a*) Building Materials; Rock, Stone, Marble, Wood, Cork, Metal, Lime, Sand, Cement, Trass. Plaster, Mortar, Beton and Concrete. Artificial Stones. Asphalte,

Bricks, Tiles, Paving Stones, Artificial Sand Paving Stones, Pipes, Slates, Tar Board, Carton pierre, Cloth, etc., for roofing.

(b) Material and Plant for Earth-works, Foundations of all kinds, and other various Building Branches.

(c) Material and Products used for the preservation of Wood. Apparatuses and Modes of testing Building Material.

(d) Material and means of distributing Water and Gas.

(e) Material and Modes of Pneumatic and Compressed Air Telegraphy.

(f) Roads generally: Bridges, Viaducts, Aquaducts.

(g) Interior Navigation.

(h) Sea-Ports, Ship Canals, Lighting and Buoying the Coasts.

(i) Railways from the special point of view of direction line and Bridge Work.

(j) City Road System: Water Supplies, Gas Lighting. Sewage. Plantations, etc.

(k) Bibliography, Statistics, Publications referring to Building and Public Works.

Class 129.—Plastic Earth and Fireproof Products. Vases for Chemical Products. Gas Retorts, Muffles, etc.—Material for the manufacture of these Products.

GROUP XXXVI.

Mining.

Class 130.—Material, Modes and Products for the working of Mines, including modes of loading and unloading.

(a) Material and modes of underground Topography, prospecting and boring for Artesian Wells. Shaft Sinking and Timbering, Gallery Driving, Excavating and Blasting and Cutting, underground Conveyance. Extraction of Products, Lowering and Raising workmen, Draining, Airing, Lighting, Salvage, Exterior conveyances and handling of the extracted products, working of Salt and Petroleum Mines, etc.

Apparatuses for washing and Mechanical dressing of Ores, etc., for agglomerating and carbonising combustibles.

(b) Products.—Sundry Minerals. Gems. Precious Stones. Rock Salt. Raw Sulphur. Natural Mineral Colours, Natural Mineral Manure. Combustibles. Minerals, Turf. Brown Coal, etc., Petroleum, Raw Asphalte. Tar, etc.

Metallic Ores of all kinds.

Class 131.—Plant and Modes of extracting Quarry Products, including modes of loading and unloading.

(a) Plant and modes for working open and underground quarries, etc.

(b) Rocks, Buildings Stones.—Lime and Cement Stones.—Slate, Sand, Clay, etc.

GROUP XXXVII.

Metallurgy.

Class 132.—Plants, Modes and Products of Iron and Steel Metallurgy.—Worked Metals.—Hammered pieces, Wheels, Tyres, Springs, Pipes, Chains, etc.—Pig Iron, Iron Castings, etc.

Class 133.—Plant, Modes and Products of small Metallurgy.

Special Plant for Forges, Bolt Mills and Wire Drawers, Nail and Boiler Forges, Flatting Mills. Manufacture of Tin Boxes, Tin Plate Work, Black Iron Work, Iron Foundry Work, Ironmongery, Locksmith's Work, etc.

Products.—Various Hammered Pieces.—Bolts, screws.—Tacks, Nails, Pins, Needles.—Cables.—Lattice, etc. Chains.—Boilersmith's and Tin Work.—Worked Sheet Iron.—Iron Pottery.—Pipes.—Capsules.—Metallic Pens.—Springs.—Scythes, Bill Hooks, etc.,—Locks, Padlocks, Bolts, Keys.

Fine Locksmith's Work, Safes, Strong Rooms.

Class 134.—Material, Modes and Products from Metals other than Iron and Steel.

Treatment of Copper, Zinc, Lead, Tin, Aluminium, Nickel Silver, and Gold Ore, etc.

Products from the treatment of these ores.

Special alloys for Guns, Bells, etc.

GROUP XXXVIII.

Chemical Industries.

Class 135.—Plant, Processes, and Products of Chemical Industries, Oil, Stearine, Soap and Perfumery Manufacturing.

Laboratory Apparatuses.

Plant, Apparatuses and Modes of Manufacturing Chemical Products not classed in this group.—Application of Chemical Processes to Metallurgy.

Sundry Products from these Industries: Acids, Alcalis. Salts of all kinds, Refined Sulphur, Phosphorus, etc. Various Oils, Tallow Candles, Glycerine, Soap, Pomatums, Toilet Water, etc.

Class 136.—Plant, Processes, and Products of Paper Manufacturing.

Class 137.—Plant, Processes and Products of Dyeing, Cleaning, and Printing Cloths, etc.

Processes of Cleaning, Dyeing and Printing.

Dyeing Preparations.

Printed Carpets.—Oil Cloths. Linoleum.—Awnings, etc.

Class 138.—Plant, Processes and Products of Leather, Morocco Tanning and Dressing.

Class 139.—Plant and Modes of Manufacturing India-rubber, Gutta-percha, Amianthus and their substitutes.—Machines for the application of India-rubber to Clothing.—Raw India-rubber.—Manufactured goods of these different trades.—Cycle and carriage tyres.

GROUP XXXIX.

Alimentary and Consumable Industries.

Class 140.—Plant, modes and Products of Milling, and Manufacture of Pastes, Vermicelli, etc.

Class 141.—Plant, Modes and Products of Starch, Fecula and Rice Manufacture.

Class 142.—Plant, Modes and Products of Bakeries, Pastry Making, Ginger-Bread and English Biscuits.

Class 143.—Plant, Modes and Products of the Manufacture of alimentary products; Chicory, tinned Meat, Fish, Fruit, Vegetables, etc.—Condiments and Stimulants.

Class 144.—Plant, Modes and Products of Sugar Works and Refineries.

Class 145.—Plant, Modes and Products of Confectionery and Chocolate manufacture.—Sirups and Sweet Cordials.

Class 146.—Plant, Modes and Products of Brewery, Malt and Vinegar manufacture.

Class 147.—Plant, Modes and Products of Distillery.

Class 148.—Plant, Modes and Products of Wine Growing and other similar trades; Manufacture of Cider, Perry, Liquors, etc.

Class 149.—Plant, Modes and Products of the Manufacture of Tobacco, Cigars and Cigarettes.

GROUP XL.

Textile trades.

Class 150.—Cotton.—Plant, Modes and Products of Spinning and Weaving Frames for Smooth, Fancy and Figure weaving, etc.—Dyed or printed Threads and Tissues.

Class 151.—Wool, Silk.—Plant, Modes and Products of washing, cleaning, combing, spinning and weaving.—Frames for smooth, fancy and figure weaving, etc.—Dyed or printed Threads and Tissues.—Frames for the manufacture of Carpets, Tapestry and Felt.—Products of these Trades.

Class 152.—Hemp, Flax, Jute, Rameh, Rope making.—Plant, Modes and Products of Spinning and Weaving.—Frames for the Manufacture of these Products.—Dyed Threads and Tissues.—Plant, Modes and Products of Rope making.

Class 153.—Laces, Embroideries.—Plant, Modes and Products of the Manufacture of Laces, Machine and Hand-made Embroidery, and of Tulles.

Class 154.—Tulles, Trimmings.—Plant, Modes and Products of the Manufacture of Trimmings, Galloons, Borders and Ribbons.

GROUP XLI.

Clothing.

Class 155.—Material and Tools for Sewing and Clothes-making work-rooms: Sewing, Hemming, Stitching, Embroiding, Knitting Machines, etc.—Saws for cutting Cloth and Leather.—Shoe-making, Nailing and Screwing Machines.—Machines and Tools for Glove-making.—Machines and Tools for Hatter's workshops and accessory trades.

Frames and Gauzes for the Manufacture of Hosiery.—Machines for gauffering, plaiting Tissues, and wadding Wool and Silk.—Tools concerning the manufacture of artificial feathers and flowers.

Class 156.—Modes and Products of tailoring for both sexes.—Clothing for Men, Women and Children, Hats for Men and Women, artificial Flowers and Feathers.—Water-proof Clothing, Special Clothes for Sundry Professions, for Colonies, etc.—Furs.

Class 157.—Modes and Products of Hosiery and glove-making (Tissues and Leather).

Class 158.—Modes and Products of the Manufacture of Underclothing for both sexes.—Shirts, Linen, Petticoats, Neckties, Neckerchiefs, etc.

Class 159.—Modes and Products of Boot and Shoe-making.

Class 160.—Modes and Products of the Manufacture of Clothing Accessories: Buttons, Braces, Garters, Belts, etc.—Trimmings for Clothing.—Parasols. Walking Sticks, Umbrellas, Fans, etc.

Class 161.—Special Material, Modes and Products of Corset-making.—Accessories.

GROUP XLII.

Agriculture.

Class 162.—Agricultural and horticultural Tools, Engines and Material; Material for Dairies, Cheese-making, Apiculture, Aviculture, Conservatories, Early Vegetable Beds, etc.

Class 163.—Animal, Mineral and Vegetable Manure.—Feeding Materials and Concentrated Food for Cattle.—Turf, Tan, Wood, etc., used for Beds for Cattle.

Class 164.—Agricultural, Apicultural, Horticultural Products, etc.—New Varieties, Modes, Installations, Plans, Packings.

Class 165.—Agricultural and Horticultural Instruction and Technology.

Class 166.—Forestry: Tools, Instruments and Material.—Products: Seeds, Plants, Wood, etc. Teaching. Working. Technology.

GROUP XLIII.

Sundry Trades.

Class 167.—Material and Modes of Clock-making, Arms-making, Cutlery, Jewellery, Goldsmith's work, Cutting, etc., of Diamond and Precious Stones, etc.

Class 168.—Material, Modes and Products of the Manufacture of Small Ornaments, Toys, Morocco Leather, fine Carpenter's work, Basket-work, Brush-trade, Cooperage, Travelling and Camping Articles and of Boarding, etc.

Class 169.—Machines for Button manufacturing. Machines for packing, Stamping, lead sealing goods, etc.—Machines for the Manufacture of Letter-Covers and Paper-Bags.—Machines and Tools not denominated in the classification.

Class 170.—Utilisation of Waste from Manufactures.

TENTH SECTION.

SPORTING APPARATUS.

GROUP XLIV.

Riding and Driving.

Class 171.—Plans, Models, and Arrangement of Stables, and their dependences: Boxes and Stalls; Mangers. Racks. Troughs. Oat Boxes, etc.

Class 172.—Fancy and ordinary Harness, Saddles, Bridles, Halters.—Training and special apparatuses: Curbs, Longing Reins, Horse Locks. Dump-Jockeys, etc.—Rugs, Hoods and Horse Cloths, Surcingle, etc.—Various Accessories: Bits, Stirrups, Spurs, Canes, Whips for Driving and Riding, etc. Dresses for Grooms, Coachmen, Jockeys, etc.

Class 173.—Hygiene of Animals: Draining: Airing and Lighting Systems for Stables.—Dressing Instruments, Brushes, Curry-combs, etc.—Natural and Artificial Alimentary Products for Working Animals.—Rations.—Veterinary, Pharmaceutical and Medical Products.—Apparatuses, Instruments, and Processes of Veterinary.—All systems of shoeing.—Iron and Nails for shoeing, hooks and bolts, Roughing Nails. Pattens, Shoes, etc.—Farrier's and Clipper's Tools.

Class 174.—Couches; Carriages of all kinds, Drawings and Photographs of Carriages, Sleighs.—Coach House Accessories: Gins, Hooks, Greasing oils and Greases; Detachable pieces for Wagons, etc. Springs. Boxes and Axles.—Rims, Tyres, and Wheel Naves, etc.—Carriage Painting, Modes, Material Employed, Plant, etc.—Furniture: Cloths, Trimmings and Stuffings, etc.—Products from the carriage accessory Manufacturing Trade: Lanterns, Locks, Handles, Caps, etc.

Class 175.—Transporting Material: Wagons, Boxes.

GROUP XLV.

Hunting.

Class 176.—Game Snares.—Means of Destroying Noxious Animals.—Modes of re-stocking Hunting Grounds, and Game Breeding.—Stuffed Game, Skins and Furs.—Hair, Feathers, Down.—Teeth, Ivory, Horns, etc.—Hunter's dress.

Class 177.—Plans and Models of Kennels, and Dependences.—Kennels and Dog Baskets—Leads, Collars, Muzzles—Trumpets, Cornets and Whistles—Hunting and Shooting Arms.—Guns, Carbines, Pistols, Revolvers.—Throwing Arms: Slings. Harpoons and Lassos. Bows and Cross Bows. Ammunition: Powder and Shot, Balls, Cartridges. Caps, Arrows, etc.—Targets and other marks—Plans and Models of Shooting and Targets.—Trophies. Traps for Pigeon Shooting.—Poultry and Game Baskets.—Trunks, Portmanteaus, Game Bags, and Pouches—Powder and Shot Flasks. Cartridge Pouches, etc.

GROUP XLVI.

Cycling.

Class 178.—Cycles —Accessories: Spanners, Lanterns, Oil Cans, Brakes, Cyclometers Speed Registers, etc.—Construction Pieces: Frames, Rims, Tyres, Spokes, Axles, Chains, etc.—Cycling Costumes for both Sexes.

GROUP XLVII.

Fencing, Swimming, Gymnastics, Various Games.

Class 179.—Gymnastic and Swimming Apparatuses.—Furniture for Fencing Schools.—Gloves. Helmets and Masks. Swords, Sabres, Foils, etc.—Plant for Sea and River Baths and Swimming Basins.

Class 180.—Material for open air Games: Crocket, Cricket, Lawn-Tennis, Football, Ball, Skittles, Quoits.—Bow and Crossbow, high and distance shooting.—Ice Skates, Ice and Snow Shoes and Rolling Skates.—Plans of Ground for Games.

Class 181.—Material for Indoor Games.—Billiards, Chess, Dominoes.—Playing Cards, etc.

Clothing for the various sports of this group.

GROUP XLVIII.

Navigation.

Class 182.—Yachts.—Small Boats of all kinds, Racing and Pleasure Boats.—Rigging, Sails, Rope, Oars.—Propellors. Accessories; Instruments of Precision, Compasses, etc., Clothing for Gentlemen, Boatmen, Sailors, etc.

GROUP XLIX.

Fishing and Pisciculture.

Class 183.—Models and Designs of Sea and River Fishing Boats.—Fish Transporting Boats. Flat-bottom Boats, Pirogues, etc.—Armaments for Fishing Boats. Capstans, Nets, Drag Nets, Harpoons, Cannons, Drags, etc.—Models of Fishing Ports.—Protection of Underwater Telegraph Cables.—Rods, Lines, Floats, Traps, etc.—Clothing for Fishermen and Sailors.

Class 184.—Fishing Products. Fishes: Living Crustaceæ and Mollusks. Fresh, Preserved and Dry Fish.—Artificial Reproduction of Fish. Fishing Bait, etc.

Class 185.—Plans and Models of Pisciculture Establishments, Oyster and Lobster Beds, etc.—Accessories and Plant of these establishments.—Food for Fish. Modes of re-stocking Rivers and Ponds.—Salmon Runs and Cascades, etc.

GROUP L.

Pigeon Keeping.

Pigeons, Conveyance-Baskets, Accessories of this sport.—Training of Travelling pigeons, etc.

ELEVENTH SECTION.

Exercises.—Popular Games.

During the course of the Exhibition, Popular Games and Competitions will be organised, notably :

Riding and Driving Competitions. Horse Races, Polo-Football, Lawn-Tennis, Crocket Competitions, etc.

Cycle and Boat Races.

Target, Gun, Pistol, Bow, Crossbow and Pigeon Shooting.

Fencing, Foot-races, and Gymnastic Fetes.

Programmes of these fetes and Competitions will be published in good time.

TWELFTH SECTION.

Temporary Agricultural and Horticultural Competitions.

During the course of Exhibition, Agricultural and Horticultural Competitions of all kinds will be organised.—Horses of all breeds; Dogs.—Cattle; Bovine, Ovine and Porcine Breeds.—Aviculture—Apiculture.—Domestic and other Cultures.—Dairy.—Agricultural Machines and Instruments.—Competitions of Flowers and Plants on stalk, cut Flowers, etc.

Programmes of these Competitions will be published in good time, as they are organised.

THIRTEENTH SECTION.

PRACTICAL TEACHING, ECONOMICAL INSTITUTIONS AND MANUAL LABOUR OF WOMEN.

GROUP LI.

Teaching.

Class 186.—Infant Asylums.—Guardian Schools,—Infant Gardens.—House-Keeping Schools.—Professional School.—Dairy Keeping and Cheese-making Schools: Teaching Programmes and branches: Special Material.

GROUP LII.

Sciences, Arts, Economical Institutions.—Benevolence.

Class 187.—Works written by Women and concerning Sciences, Arts or Literature.—Statement of the various latest systems for the admission of women to public Offices and in liberal professions.—Work of women.—Organisation.—Publications.—Economical Institutions, Mutualities, Co-operatives, etc.

Class 188.—Several services rendered for Benevolence.

GROUP LIII.

Manual Work.

Class 189.—Laces.—Embroideries. Church Ornaments.—Trimmings and Pearls.—Artificial Flowers.—Feathers.—Linen and Dressmakings.—Cutting, Made Clothes.—Dresses, Mantels.—Corsets.—Milinery.—Glove-Stitching.—Hosiery.—Weaving of Cloth and Silk.—Carpets.—Fine Basket-Work.— Straw-Work.—Sundry Trades.—Paintings on Earth-Work, Porcelain, Silk, Ivory, Enamel, etc.

Class 190.—Special Tools for the Professions denominated in this Group.—Raw Materials, Products and Accessories used in these Professions.

FOURTEENTH SECTION.

COMMERCE.—COLONIES.

GROUP LIV.

Commerce.

Class 191.—Commercial Legislation.—Customs-tariffs.—Companies Acts.—Jurisprudence.—Commercial Statistics.—Commercial Bibliography.—Commercial Teaching (Methods, Books, Material, etc.).—Commercial Museums.

Class 192.—Studies, Projects and Works concerning: 1st Importation. Exportation and Transit; 2nd Bank and Change; 3rd Insurances, Interior and International Conveyances and Customs Tranports; 4th Posts considered in the following points of view: (a) Taxes, Freight and Means of Shipping; (b) Appliances, Regular Shipping Lines, Management, Quays and Sheds, Store Houses, Engines, etc.; (c) Means and prices for conveyance to the interior and zones of influence of the Ports.—Objects concerning the Management, Armament and Engines of Commercial Ports.—Material for Passengers and Goods traffic by Land and Water.—Armament and Fitting of Packet boats.

Class 193.—Products of the Soil and the Industry destined for export trade; prices, markets for the different Products.—Imported foreign Products; Prices, Origins.—Packings.

GROUP LV.

Colonies.

Class 194.—Products of Soil, Products of underground Soil, Animal Products.

Class 195.—Existing Branches of Industry, Branches of Industry to be introduced, Conveyance-Industry.

Class 196.—Importation, Trade by Barter, Commercial Companies.

GROUP LVI.

Colonial Studies.

Class 197.—The Country (Geography, Climatology, Meteorology, Geology, Minerology, Faune, Flora).

Class 198.—The Inhabitants (Anthropology, Ethnography, Linguistics).

Class 199.—Political and Moral Evolution.—History, Organisation and Administration.

The Commissary General of the Government,

Count A. D'OULTREMONT.

EXPOSITION INTERNATIONALE DE BRUXELLES.

N° d'ordre

OUVERTURE 24 AVRIL 1897.

Section :
Groupe :
Classe :

Economie sociale.—Hygiène.—Sauvetage.—Arts industriels et décoratifs.—Eclairage chauffage, ventilation et leurs applications.—Électricité-Traction.—Art militaire.—Fabrications industrielles : matériel, procédés et produits.—Matériel du sport.—Exercices-Jeux populaires.—Concours temporaires d'agriculture et d'horticulture.—Enseignement pratique, industries et travail manuel de la femme.—Commerce-Colonies.

JARDINS—AUVENTS DANS LES JARDINS.

DEMANDE D'ADMISSION.

ECRIRE TRES LISIBLEMENT.

Pays..

Ville ou localité..

Nom, prénoms ou raison sociale...

Domicile.................................... *rue* .... *N°* ....

Station de chemin de fer ou port d'expédition...

Nature de l'industrie..

Nom, prénoms et adresse du représentant que l'exposant désirerait accréditer...

N.B.—La présente demande d'admission doit être adressée en double expédition, franco sous enveloppe, dûment remplie et signée, au Comité exécutif de l'Exposition de Bruxelles, 1897, rue du Congrès, 10, à Bruxelles, au plus tard le 1er octobre 1896.

JARDINS—AUVENTS DANS LES JARDINS.

DEMANDE D'EMPLACEMENT.

Section:
Groupe:
Classe:

Désignation des objets a exposer.	Emplacement demandé.			Indiquer exactement les quantités suivantes si l'exposant en a besoin.		Avis important.	Observations. (Indiquer ici si les objets à exposer sont destinés à figurer dans les jardins ou sous auvents.)	Renseignements.
	Longueur (façade). 1	Largeur. 2	Hauteur. 3	Gaz m³ par heure. 4	Eau m³ par heure. 5			
JARDINS } (¹) AUVENTS }	Toutes les mesures ci-dessus sont les dimensions maxima de l'emplacement.					Avoir soin d'envoyer un plan coté avec l'indication du poids total de l'installation.		Toutes fondations ou consolidations quelconques sont à la charge des exposants. L'eau de la ville a une pression basse de 3 atmosphères environ. Le Comité exécutif prendra les dispositions nécessaires pour fournir, dans la mesure du possible, l'eau en petite quantité à une pression haute de 45 atmosphères. Le Gouvernement belge a assuré: *A.* Le transport gratuit sur les lignes de l'État, à l'aller et au retour, des œuvres, produits et travaux d'origine belge qui seront envoyés à l'Exposition, ainsi qu'aux caisses vides et emballages ayant servi a l'expédition et devant servir à leur réexpédition. *B.* L'application du tarif nº 10 sur toutes les lignes de l'État, pour les œuvres, produits et travaux étrangers. Ce tarif consacre la gratuité du transport au retour et la perception de la taxe pleine à l'aller. Des démarches seront faites pour obtenir des conditions analogues sur les lignes concédées et sur les réseaux étrangers en relation avec les chemins de fer belges. La plupart des lignes régulières de navigation consentent des réductions sur les taux de frets. L'exposant devra installer ses produits à ses frais et les réemballer à la clôture de l'Exposition. Des adresses de représentants de commerce seront données aux exposants qui en feront la demande, sans responsabilité pour le Comité exécutif. Des espaces dans les jardins pourront être concédés à des conditions à convenir aux exposants de fleurs, d'arbustes, d'essences forestières, de pelouses, etc., moyennant conditions à débattre avec la Société organisatrice. (Voir Réglement général.) T. S. V. P.

Je déclare, par le présent engagement, accepter les conditions des règlements et tarifs de l'Exposition Internationale de Bruxelles, 1897, et je m'y conformerai, si ma demande est accueillie.

Lieu: ______________ *date* ______________ 1896.

(Signature de l'exposant.)

(¹) Biffer la mention inutile.

JARDINS—AUVENTS DANS LES JARDINS.

TARIFICATION

Le prix des emplacements sera établi sur les bases suivantes, d'après la place occupée par les produits.

Pour emplacements de toute hauteur.

(*a*) La profondeur ne dépassant pas 1^{m}00.

Par metre courant de facade . . . . fr. 25

(*b*) La profondeur dépassant 1^{m}00.

Par metre carre de surface horizontale . . . . . . „ 25

Le prix des emplacements de cette catégorie ne pourra être inférieur à 25 francs.

Les installations seront mesurées aux plus grandes dimensions au-dessus du sol.

La taxe des *emplacements sous auvents* sera augmentée de 5 francs par mètre courant ou par mètre carré suivant le cas.

La Société organisatrice traitera de gré à gré avec les exposants de fleurs, arbustes essences forestières, pelouses, etc.

AVIS.

La Société organisatrice se charge gratuitement de la manutention de tous les colis dont le poids n'excédera pas 1,500 kilog. et qui lue seront remis au plus tard le 10 avril 1897.

La manutention comprend :

(*a*) La réception sur quai dans l'enceinte de l'exposition.

(*b*) La mise à pied d'œuvre.

(*c*) L'enlèvement } des caisses vides et emballages.

(*d*) La remise à pied d'œuvre. } des caisses vides et emballages.

(*e*) L'enlèvement des colis réemballés.

Les exposants se conformeront aux instructions qui seront données par le Comité exécutif pour faciliter l'enlèvement des caisses vides.

Les exposants devront effectuer à leurs frais le déballage, l'installation, l'étalage et le réemballage de leurs produits ainsi que la mise en état des caisses vides, etc. Le réemballage se fera dans l'ordre qui sera indiqué par le Comité exécutif et devra être effectué avant le 31 décembre 1897 : le démontage des machines devra être terminé de façon à en permettre l'enlèvement, au plus tard, le 31 décembre 1897. Passé ces délais, les produits non emballés ou non démontés seront enlevés d'office et emmagasinés aux frais, risques et périls des exposants. Les objets non retirés au 31 mars 1898 seront vendus publiquement et la Société de l'Exposition aura le droit de disposer du produit de la vente.

Pour les colis dont le poids dépasserait 1,500 kilog. l'exposant aura à se mettre en rapport avec le Comité exécutif, qui fixera une taxe modérée de manutention.

La Société de l'Exposition apportera les plus grands soins à la manutention dont elle se charge; mais il est expressément stipulé qu'elle ne saurait, en aucun cas, être rendue responsable des pertes, manquants, dommages, avaries, etc., que les colis ou leur contenu pourraient subir.

Les taxes d'emplacement seront encaissées par les soins de la Société organisatrice. Elles seront payables en deux fois pour les sommes supérieures à 1,000 francs. La première moitié au moment de la réception du bulletin d'admission, la seconde moitié le 1er avril 1897. Les taxes inférieures à 1,000 francs sont payables en une fois à la réception du bulletin d'admission. (Voir art. 38 du reglement général de la Société anonyme de l'Exposition.)

DEMANDE D'EMPLACEMENT.

Désignation des objets à exposer.	Emplacement sur sol.			Emplacement sur cloison.		Indiquer exactement les quantités suivantes si l'exposant en a besoin.					Avis Important.	Observations.	Renseignements.
	Longueur (façade).	Largeur.	Hauteur.	Longueur.	Hauteur.	Gaz, mètre cube par heure.	Eau, mètre cube par heure.	Vapeur par heure.	Force motrice, nombre de chevaux effectifs.	Électricité, hecto-watts.			
	1	2	2	4	5	6	7	8	9	10			
Indiquer si la machine sera mise en mouvement. Les exposants des machines marchant à vide ne payeront que la vapeur utilisée, soit 1-10 de la force effective indiqueé. Les exposants devront disposer leurs machines de manière à pouvoir faire relever des diagrammes.	Toutes les mesures ci-dessus sont les dimensions maxima de l'emplacement.								Indiquer si la force motrice sera prise sur l'arbre de transmission générale ou si l'exposant se servira directement de la vapeur.		Avoir soin d'envoyer un plan coté de l'installation avec élévation et l'indication du poids total. Indiquer les pièces d'un poids supérieur à 1,500 kilogrammes. Si l'appareil doit consommer de la vapeur ou de l'eau, indiquer les positions exactes des différentes tubulures tant de prise que de décharge.		Toutes fondations et consolidations quelconques sont à la charge des exposants. Les arbres moteurs, les conduites générales d'eau, dé vapeur et de gaz, seront posés par les soins et aux frais de la Société anonyme de l'Exposition. Les poulies à placer sur ces arbres et les transmissions intermédiaires sont à la charge des exposants. Il en sera de même pour les tuyaux de vapeur, d'eau ou de gaz faisant prise sur les conduites principales etablies par la Société anonyme de l'Exposition. Les décharges de vapeur ne pourront déboucher sur les toitures. Les exposants qui voudraient mettre des chaudiéres ou des machines à la disposition de la Société organisatrice, pour la production de la vapeur ou de la force motrice, sont priés de lui faire parvenir leurs propositions dans le plus bref delai. Les frais de montage, d'entretien, de démontage, le payement du mécanicien qui surveille la marche des machines, etc., etc., sont à la charge des exposants. Les exposants seront informés ultérieurement des conditions auxquelles ils pourront obtenir la force motrice, la vapeur, l'eau, le gaz et l'électricité. Le gouvernement belge a assuré : *A.* Le transport gratuit sur les lignes de l'État, à l'aller et au retour, des œuvres, produits et travaux d'origine belge qui seront envoyés à l'Exposition, ainsi qu'aux caisses vides et emballages ayant servi à l'expédition et devant servir à leur réexpédition. *B.* L'application du tarif n° 10 sur toutes les lignes de l'État, pour les œuvres, produits et travaux étrangers. Ce tarif consacre la gratuité du transport au retour et la perception de la taxe pleine à l'aller. Des démarches seront faites pour obtenir des conditions analogues sur les lignes concédées et sur les réseaux étrangers en relation avec les chemins de fer belges. La plupart des lignes régulieres de navigation consentent des reductions sur les taux des frets. L'exposant devra installer ses produits à ses frais et les réemballer à la clôture de l'Exposition. Des adresses de représentants de commerce seront données aux exposants qui en feront la demande, sans responsabilité pour le Comité exécutif.

Je déclare, par le présent engagment, accepter les conditions des règlements et tarifs de l'Exposition Internationale de Bruxelles en 1897, et je m'y conformerai si ma demande est accueillie.

MACHINES EN MOUVEMENT.

TARIFICATION.

Le prix des emplacements, *comprenant la décoration générale des halles et la manutention* sera établi sur les bases suivantes, d'après la occupée par les produits.

Emplacements non isoles.

Sur sol	(a) La profondeur ne dépassant pas 1 mètre. **Par metre courant de façade . . . fr. 60**	*Exemple :*	Un emplacement de 2 50 de façade × $0^{m}60$ de profondeur, payera : $2^{m}50$ de façade à 60 francs par mètre courant . . . = fr. 150
	(b) La profondeur dépassant 1 mètre. **Par metre çarre de surface horizontale . 60**	*Exemple :*	Un emplacement de 3 mètres de façade sur $1^{m}50$ de profondeur, payera : 3 mètres de façade × $1^{m}50$ de profondeur = $4^{m}50$ à 60 francs par mètre carré = fr. 270
Sur cloison	**Par metre courant de façade . . . 60**	*Exemple :*	Un emplacement de $2^{m}50$ de façade sur $2^{m}50$ de hauteur, payera : $2^{m}50$ de façade à 60 francs par mètre courant . . . = fr. 150

Le prix des emplacements non isolés ne pourra être inférieur à **60** francs.

Emplacements isoles.

(a) Mesurés sur la plus grande dimension, la plus petite n'atteignant pas 1 mètre. **Par metre courant de façade . . . fr. 90**	*Exemple :*	Un emplacement de 2 mètres × $0^{m}75$, payera : 2 mètres de façade à 90 francs par mètre courant . . . . . = fr. 180
(b) Les deux dimensions dépassant 1 mètre. **Par metre carre de surface horizontale . 90**	*Exemple :*	Un emplacement de $1^{m}50 \times 1^{m}50$, payera : $2^{m}50$ à 90 francs par mètre carré = fr. 202-50.

Le prix des emplacements isolés ne pourra être inférieur à **90** francs.

Dans les *galeries centrales*, le prix des emplacements.	non isolés, par mètre carré . . fr.	**90**
	isolés, par métre carré . .	**130**

Toutes les surfaces seront établies au grand carré.

Les installations seront mesurées d'après les plus grandes dimensions au-dessus du plancher.

Les installations ou vitrines isolées peuvent, dans certaines parties des halles, atteindre une hauteur de 10 mètres.
